They will also go into questions 22, 23, and 24, as to our investigation to locate Oswald in October, 1963; our reaction to CIA's report of his visit to the Soviet Embassy in Mexico; and as to our degree of interest in Oswald's application for a passport in June, 1963.

They will then take up the letter we furnished Rankin today showing the contents of our file on Oswald prior to the assassination on 11/22/63. They will then ask as to our evaluation of Oswald during the time we were investigating him.

REC-42 62-109090-1142

At this point I am going to discuss the Bureau's approach to security work and the requirement for good judgment, both in investigative procedures and the handling of security information; that we only investigate in security cases when there is a reason, and the type of investigation is based on this reason. I will discuss why we investigated and how we went about it.

COMMISSION
SECTION 13
COPY 2

UNITED STATES GOVERNMENT

Memorandum

TO : Mr. Belmont

DATE: May 25, 1964

FROM : A. Rosen

SUBJECT: THE PRESIDENT'S COMMISSION

PURPOSE

To advise you it appears President Johnson's Executive Order which established the President's Commission, to investigate the assassination, is broad enough to allow that body to assume the right to make recommendations for changes in policies and procedures of Government agencies with which it had dealings during its investigation of the assassination.

BACKGROUND

Executive Order 11130

President Johnson, by Executive Order 11130, dated 11-29-63, appointed a commission to evaluate and report upon the facts relating to the assassination of the late President John F. Kennedy. The purposes of the commission are to examine the evidence developed by the FBI and any additional evidence that may hereafter come to light or be uncovered by Federal or state authorities; to make such further investigation that the commission finds desirable; to evaluate all the facts and circumstances surrounding the assassination, and report to the President its findings and conclusions. This Executive Order empowers the commission to prescribe its own procedures and to employ such assistants as it deems necessary. Expenses of the commission may be paid from the President's "emergency fund" and all executive departments and agencies were directed to furnish the commission with such facilities, services and cooperation as the commission may request.

Public Law 88-202

Public Law 88-202 which is a House-Senate Joint Resolution 137 dated 12-13-63, is the legislative backing to the Executive Order issued by President Johnson which formally established the commission. It sets out in precise terms the powers of the commission to issue subpoenas, hear testimony of witnesses, and accept evidence. It requires witnesses to obey subpoenas and provides court action for those who don't comply.

Memorandum to Mr. Belmont
RE: THE PRESIDENT'S COMMISSION

Warren Statement and Joint Resolution

In apparent legislative response to the statement made by Chief Justice Warren to the effect that some of the information received by the commission would not be released during our lifetime, House-Senate Joint Resolution 926 dated 2-18-64, was passed as an amendment to the above Public Law 88-202. It provides that information developed by the commission relating to the President's assassination should be made public. Copy of Executive Order and Joint Resolutions attached.

Conclusion

That the commission could interpret the language of President Johnson's Executive Order to give it the right and responsibility to make recommendations concerning the policies and procedures of Government agencies with which it had dealings during its investigation of the assassination.

Executive Order 11130

APPOINTING A COMMISSION TO REPORT UPON THE ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

Pursuant to the authority vested in me as President of the United States, I hereby appoint a Commission to ascertain, evaluate and report upon the facts relating to the assassination of the late President John F. Kennedy and the subsequent violent death of the man charged with the assassination. The Commission shall consist of—

The Chief Justice of the United States, Chairman;
Senator Richard B. Russell;
Senator John Sherman Cooper;
Congressman Hale Boggs;
Congressman Gerald R. Ford;
The Honorable Allen W. Dulles;
The Honorable John J. McCloy.

The purposes of the Commission are to examine the evidence developed by the Federal Bureau of Investigation and any additional evidence that may hereafter come to light or be uncovered by federal or state authorities; to make such further investigation as the Commission finds desirable; to evaluate all the facts and circumstances surrounding such assassination, including the subsequent violent death of the man charged with the assassination, and to report to me its findings and conclusions.

The Commission is empowered to prescribe its own procedures and to employ such assistants as it deems necessary.

Necessary expenses of the Commission may be paid from the "Emergency Fund for the President".

All Executive departments and agencies are directed to furnish the Commission with such facilities, services and cooperation as it may request from time to time.

Joint Resolution

Authorizing the Commission established to report upon the assassination of President John F. Kennedy to compel the attendance and testimony of witnesses and the production of evidence.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) for the purposes of this joint resolution, the term "Commission" means the Commission appointed by the President by Executive Order 11130, dated November 29, 1963. Commission investigating assassination of President John F. Kennedy.

(b) The Commission, or any member of the Commission when so authorized by the Commission, shall have power to issue subpenas requiring the attendance and testimony of witnesses and the production of any evidence that relates to any matter under investigation by the Commission. The Commission, or any member of the Commission or any agent or agency designated by the Commission for such purpose, may administer oaths and affirmations, examine witnesses, and receive evidence. Such attendance of witnesses and the production of such evidence may be required from any place within the United States at any designated place of hearing. Subpena power. 28 F.R. 12789.

(c) In case of contumacy or refusal to obey a subpena issued to any person under subsection (b), any court of the United States within the jurisdiction of which the inquiry is carried on or within the jurisdiction of which said person guilty of contumacy or refusal to obey is found or resides or transacts business, upon application by the Commission shall have jurisdiction to issue to such person an order requiring such person to appear before the Commission, its member, agent, or agency, there to produce evidence if so ordered, or there to give testimony touching the matter under investigation or in question; and any failure to obey such order of the court may be punished by said court as a contempt thereof.

(d) Process and papers of the Commission, its members, agent, or agency, may be served either upon the witness in person or by registered mail or by telegraph or by leaving a copy thereof at the residence or principal office or place of business of the person required to be served. The verified return by the individual so serving the same, setting forth the manner of such service, shall be proof of the same, and the return post office receipt or telegraph receipt therefor when registered and mailed or telegraphed as aforesaid shall be proof of service of the same. Witnesses summoned before the Commission, its members, agent, or agency, shall be paid the same fees and mileage that are paid witnesses in the courts of the United States, and witnesses whose depositions are taken and the persons taking the same shall severally be entitled to the same fees as are paid for like services in the courts of the United States. Manner of service. 77 STAT. 362. 77 STAT. 363.

(e) No person shall be excused from attending and testifying or from producing books, records, correspondence, documents, or other evidence in obedience to a subpena, on the ground that the testimony or evidence required of him may tend to incriminate him or subject him to a penalty or forfeiture; but no individual shall be prosecuted or subjected to any penalty or forfeiture (except demotion or removal from office) for or on account of any transaction, matter, or thing concerning which he is compelled, after having claimed his privilege Privilege against self-incrimination.

Dear Mr. President:

As an American citizen, deeply concerned with the welfare of our Country, I enclose an interesting news release which was broadcast by a local Dayton radio station and I believe it merits your immediate consideration.

In the past Justice Warren has rendered decisions very favorable to Communists or the Communist cause; therefore I am not surprised at the enclosed comments however I demand, as a citizen, that the matter in question be investigated.

I am an American first and secondly a Democrat, therefore I am sending copies of this letter and news release to the gentlemen, as listed, in case you may feel it is not politically expeditious to take action in this matter.

God help our degenerating nation!

A WAVI Editorial

By: Gregg Wallace, News & Editorial Director
BROADCAST: Thursday, May 14, 1964

Mystery and uncertainty have surrounded the special committee selected by President Johnson to investigate fully the assassination of President Kennedy. At the outset there was criticism of having Chief Justice Earl Warren on the committee for fear that, at some later date, the Supreme Court might be faced with a case directly or indirectly connected with the tragic events of last November 22nd.

Then, after President Johnson emphasized the committee was to give the American people a complete and clear report on what occurred, Justice Warren suggested there may be some testimony that may never be revealed.

Later, Dictator Khrushchev sent the committee a supposed complete dossier on the activities of Lee Harvey Oswald, suspected slayer of the late president. This, to say the least, was rather fishy.

Now comes another incredible aspect of the Warren Commission: WAVI understands that the commission has hired at $100.00 a day, as an assistant to James Lee Rankin, chief counsel to the committee, a man who is reportedly a Communist sympathizer!

38 year old NORMAN REDLICH, former New York University law professor, has, among other things, called for the abolition of the House Un-American Activities Committee, signed a petition asking executive clemency for communists, Carl Braden and Frank Wilkinson...and appeared in a letterhead as a member of the executive committee of the Emergency Civil Liberties Committee. The ECLC has been branded by two Congressional investigating committees as a Communist front organization. In fact, HUAC reports the ECLC was formed in 1951 and is actually operated as a front for the communist party!

This means that Norman Redlich, apparently a communist fronter, is helping investigate the assassination of an American president, who was gunned down by a Marxist advocate! And, he's being paid a handsome salary from your tax dollars.

We wonder if your congressman knows this? In fact, we're even curious as to whether the members of the Warren commission have been alerted to this shocking situation?

Bolden is the Negro Secret Service Agent who was arrested by Secret Service on 5-19-64 for trying to sell information to a member of a counterfeit ring for $50,000. After arrest, Bolden alleged improprieties on the part of other Secret Service Agents in protecting President Kennedy and threatened to tell the President's Commission about it. Willens of the Commission requested we interview Bolden. Bolden appeared at our Chicago Office on 5-25-64 and on the advice of his attorney, refused to make a statement. However, Chicago ascertained he had no specific information concerning the actual assassination. The Commission was advised of the results of this contact on 5-25-64. Secret Service was notified on 5-22-64 we were going to interview Bolden at the Commission's request as well as the fact Bolden refused to make a statement on 5-25-64.

SUBJECT: PRESIDENT'S COMMISSION
ASSASSINATION OF THE PRESIDENT

In connection with the interview scheduled for 1:30 p.m. this date with Abraham Bolden, the Secret Service agent we were scheduled to interview at that time at the request of the President's Commission concerning his allegations of derelictions on the part of Secret Service agents, SAC Johnson of Chicago, at 3:30 p.m. (Washington time), advised as follows:

Bolden and his attorney, George Howard, appeared at the Chicago Office and the attorney stated that Bolden would make no statement at this time. Howard stated he had given the matter very careful thought; that Bolden had made certain statements prior to Howard's becoming his attorney with which Howard was not aware; that it was his duty to take care of his client's interests; that his client was still an agent of the Secret Service and would make no statement. Howard continued that Bolden was to be arraigned on May 28, 1964, in connection with his arrest by Secret Service and that any statement he might make at this time may affect this case. Howard stated that he may change his mind in the future and if so he will let the Bureau know.

With regard to any press inquiries which he may receive, SAC Johnson was referred to Mr. DeLoach's office, which office advised that in the event of a press inquiry, the SAC should state that Bolden and his counsel appeared at the Chicago Office and his counsel advised that Bolden had no statement to make at this time.

SAC Johnson is submitting a teletype summary which is being followed by a letterhead memorandum.

President's Commission

On May 13, 1964, at the invitation of Chief Justice Earl Warren I had luncheon with the Chief Justice in his private dining room. We discussed generally the problems affecting law enforcement and also those which have arisen in connection with the work of the Presidential Commission on the assassination of President John F. Kennedy headed by the Chief Justice and before which I was to appear the following day. The luncheon was entirely pleasant.

The following day I appeared before the Presidential Commission headed by the Chief Justice. Present at this meeting were the Chief Justice, Senator John Sherman Cooper of Kentucky, Mr. Allen Dulles, Representative Gerald R. Ford of Michigan, Representative Hale Boggs of Louisiana, and the General Counsel of the Commission, J. Lee Rankin.

I began my testimony at 9:00 AM and finished at 11:30 AM. It, of course, has been recorded and copies of it have been sent to the Bureau for review and such corrections as may be necessary. It was obvious that the stenotype operator was getting very little of what I was saying and of the questions which were being propounded to me.

I am attaching hereto a written note which was handed to me by Mr. Malley just before the hearings started. It refers to the statement which had been made in the press that the Dallas Police Department had been requested by the Department of Justice or by the FBI not to arrest Lee Harvey Oswald or Jack Ruby. This message had been phoned to the Bureau by Deputy Attorney General Katzenbach. I advised the Commission of the contents of the attached note.

Very truly yours,

Dear Mr. Hoover:

I would like to confirm our informal request to Assistant to the Director Alan H. Belmont, that Mr. Belmont give testimony before the Commission, following the testimony of the Special Agents who are scheduled to testify on May 5, 1964.

The Commission would greatly appreciate it if Mr. Belmont could appear at 9:00 A.M. on Wednesday, May 6. In accordance with our discussion with Mr. Belmont, the general purposes of his testimony would be to serve as a basis for admission to the record of the Commission of numerous documents which you have sent to the Commission, to furnish the Commission an understanding of the operations of the FBI with particular regard to the investigation of Lee Harvey Oswald before November 22, 1963, and to discuss liaison arrangements between the FBI and the Secret Service in the area of Presidential protection.

Mr. Samuel A. Stern of the Commission staff has made arrangements through Inspector Malley to give Mr. Belmont further details on the matters the Commission wishes to cover.

Thank you for your assistance in this matter.

He had just returned from Sacramento, California, where he attended a conference, and Lt. JACK REVILL of the Dallas Police Department was present at this conference. [redacted] and REVILL were very closely associated. [redacted] states he was with REVILL when the news came out about the story printed by The Dallas Morning News concerning information furnished to REVILL by SA JAMES P. HOSTY, JR. REVILL told [redacted] that he did not release any of this information and that the story that was released was not correct and was not the same information that he had written in his memorandum to Chief JESSE CURRY. He stated part of the story was completely false. REVILL was of the opinion that Chief CURRY had released the information, and REVILL was very upset because he could not understand why it had been done, since it certainly would not help Chief CURRY or anyone else. REVILL stated that he had heard that the information had first been leaked out about a week before it was printed in the newspaper. REVILL indicated that he had good relations with SA HOSTY and all the Agents and he was very upset over this incident, and shortly afterward he disappeared from the conference.

Willens of the Commission requested we interview Bolden. Bolden appeared at our Chicago Office on 5-25-64 and on the advice of his attorney, refused to make a statement. However, Chicago ascertained he had no specific information concerning the actual assassination. The Commission was advised of the results of this contact on 5-25-64. Secret Service was notified on 5-22-64 we were going to interview Bolden at the Commission's request as well as the fact Bolden refused to make a statement on 5-25-64.

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, N. E.
Washington, D. C.

Dear Mr. Rankin:

Reference is made to your letter dated May 5, 1964, which enclosed an article from the May 17, 1964, issue of the "National Enquirer."

Dallas Police Chief Jesse E. Curry was interviewed on May 7, 1964, at which time this article was exhibited to him. Chief Curry read the entire article after which he advised as follows:

Prior to the assassination of President Kennedy, neither he nor his Department had ever heard of Lee Harvey Oswald. The Dallas Police Department investigated the attempted shooting of General Walker but Oswald had never been considered as a suspect and Curry had no information linking Oswald and Ruby to the plot to shoot General Walker. Chief Curry emphatically stated he had never received or heard of a letter to his Department from the Justice Department and that he had never been requested by any official of the FBI not to arrest Oswald or Ruby. Chief Curry concluded by stating that there is absolutely no truth to the allegations made in this article.

The files of this Bureau contain no reference to an alleged letter from a high official of the Justice Department to Dallas Police Chief Jesse E. Curry requesting the Dallas Police not to arrest Oswald and Ruby in connection with the attempted shooting of General Walker. The files of this Bureau do not contain any reference that an FBI official was asked to request the Dallas Police not to arrest Oswald or Ruby.

(SECRET SERVICE)

WASHINGTON--THE COMMISSION INVESTIGATING THE KENNEDY ASSASSINATION HAS ASKED THE FBI TO LOOK INTO ALLEGATIONS BY A SUSPENDED SECRET SERVICE AGENT OF HEAVY DRINKING AMONG THE WHITE HOUSE DETAIL, IT WAS LEARNED TODAY.

COMMISSION GENERAL COUNSEL J. LEE RANKIN SAID THE CONTENTS OF THE FBI REPORT WILL DETERMINE WHETHER THE SEVEN-MAN GROUP WILL HEAR TESTIMONY FROM ABRAHAM BOLDEN, 29.

BOLDEN, THE FIRST NEGRO TO SERVE ON THE WHITE HOUSE SECRET SERVICE DETAIL, HAS BEEN INDICTED ON CHARGES OF TRYING TO SELL A GOVERNMENT REPORT TO A MAN CHARGED IN CHICAGO WILL ALLEGEDLY TAKING PART IN A HALF-MILLION DOLLAR COUNTERFEITING RING. HE MADE THE DRINKING CHARGES AT A NEWS CONFERENCE YESTERDAY.

RANKIN SAID HE DOES NOT KNOW EXACTLY WHEN THE FBI WILL FINISH ITS INQUIRY BUT HE ASSUMES IT WILL BE "PROMPTLY" CARRIED OUT.

A GOVERNMENT PROSECUTOR HAS CALLED THE BOLDEN STORY "FANTASTIC."

IT IS ASSUMED THAT IF THE COMMISSION DECIDES TO EXAMINE THE BOLDEN CLAIMS, IT ALSO MAY CALL OTHER PERSONS WHO MIGHT KNOW ABOUT PRACTICES OF SECRET SERVICE PERSONNEL.

IT WAS UNDERSTOOD THAT NO DECISION HAS YET BEEN MADE ON WHETHER TO TAKE TESTIMONY FROM JACK RUBY, THE FORMER DALLAS NIGHTCLUB OPERATOR WHO HAS BEEN SENTENCED TO DEATH FOR THE FATAL SHOOTING OF KENNEDY'S ALLEGED ASSASSIN, LEE HARVEY OSWALD.

THE COMMISSION HAS THE PROBLEM OF DETERMINING WHETHER ANY ACTION WOULD INTERFERE WITH RUBY'S RIGHTS WHILE HIS CASE IS STILL IN THE COURTS. ALSO IT MUST BE DETERMINED WHETHER HE IS EMOTIONALLY CAPABLE OF GIVING HELPFUL REPLIES TO COMMISSION QUESTIONS.

Press items 5/21/64 indicate that Abraham Bolden, a Secret Service Agent charged in Chicago with trying to sell a Government report indicated he was being framed because he intended to reveal details of heavy drinking and general laxity among agents assigned to President Kennedy. Bolden stated he was going to tell the Warren Commission regarding the alleged derelictions on the part of such Secret Service Agents. The attached teletype from Chicago contains information concerning this matter.

This morning Mr. Howard Willens of the President's Commission called referring to the publicity given Bolden's statement regarding laxity on the part of Secret Service Agents and Bolden's statement that he intended to furnish this information to the Commission. Mr. Willens stated that inasmuch as Bolden's statements indicated malfeasance in connection with the protection of the President, he desired that Bolden be interviewed by Bureau Agents and a complete detailed statement be obtained from him giving all specifics in his possession. He particularly desired Bolden to be questioned concerning any derelictions on the part of Secret Service Agents in connection with the President's visit to Dallas, but in addition wanted all other details concerning alleged derelictions which Bolden may have.

Willens stated he had talked to United States Attorney Edward Hanrahan in Chicago who had no objection to the interview of Bolden but suggested that prior to conducting the interview the interviewing Agent clear it with Bolden's attorney, George Howard, 3255 West Roosevelt Road, Chicago; telephone number CR 7-6100.

Willens requested the interview be conducted today in order that the Commission can make a determination whether Bolden has information which would warrant the Commission's calling him for testimony.

RE: PRESIDENT'S COMMISSION

It would appear that Willens' request pertains to the obligation of the President's Commission to make any necessary recommendations regarding procedures for improving the protection of the President and that this is a legitimate request.

RECOMMENDATION

That Chicago be instructed to immediately interview Bolden after clearing with his attorney to obtain complete specifics in Bolden's possession regarding any derelictions on the part of Secret Service Agents, and that the results be furnished to the President's Commission. in writing when received.

If approved, James Rowley, head of Secret Service, will be advised prior to our conducting the interview with Bolden.

In view of Bolden's penchant for publicity he could very well publicize this interview. If interview approved, recommended that SAC Johnson be instructed to answer any press inquiries with the statement that Bolden was interviewed at the request of the President's Commission, and make no further comment.

OK, but we are in effect investigating Secret Service

TO: DIRECTOR, FBI (62-109060) DATE: 5/19/64

FROM: LEGAT, MEXICO (89-6) (RUC)

SUBJECT: PRESIDENT'S COMMISSION ON ASSASSINATION OF PRESIDENT KENNEDY

Remycab 5/19/64 and reBucab 5/7/64, which advised that a package was being forwarded by air pouch at the request of the President's Commission to be delivered personally to Dr. DALE CAMERON, who was staying at the Maria Isabella Hotel in Mexico City. This package, transmitted by Bureau routing slip of 5/7/64, was received here on 5/8/64.

Inquiry at the Maria Isabel Hotel on 5/8/64 disclosed that Dr. CAMERON was not registered there nor did he have a reservation. Inquiry was conducted on 5/9/64 at which time it was ascertained that Dr. CAMERON had arrived the previous evening for the purpose of attending a meeting of the American Psychiatrists' Association to be held during the following week. Dr. CAMERON was not at the hotel and messages were left for him to contact the Legal Attache. He finally made such contact on the evening of 5/10/64 and arrangements were made at his request for him to call at the office on 5/11/64. This was done and, following satisfactory identification, the package was delivered unopened to Dr. CAMERON in the Legat's office. Dr. CAMERON opened the package in the presence of the Legat, and it was noted that it contained a number of documents some of which appeared to be portions of Bureau reports. Some of the documents were bound with Acco fasteners and covers similar to the file backs utilized by the Bureau, but bearing the name of the President's Commission, and in some cases classifications of "Top Secret" had been obliterated with a blue pencil.

Dr. CAMERON was rather reticent at the time the documents were delivered to him, but did comment that he had been asked to do a study by the Commission. He was somewhat appalled at the quantity of documents which had been sent to him.

29 JUN 5 - 1964

On Saturday, 5/16/64, Dr. CAMERON again called at the office and requested that the documents be returned to the Commission via the pouch. Inasmuch as the Bureau had approved this means of transmittal in forwarding the documents to Dr. CAMERON, his request was granted. Inasmuch as the documents were brought in by Dr. CAMERON unwrapped, they were wrapped and the package sealed with tape in his presence in order to avoid any allegation at a later date that any of the documents had been misplaced following his delivery of the same to this office. On this occasion Dr. CAMERON commented in some detail on the assignment given to him by the Commission. He said that as the Superintendent of St. Elizabeth's Hospital in Washington he had been requested to make a study of OSWALD's conduct in an effort to determine his motivation for the assassination of President KENNEDY. He commented that this is a very difficult thing to do without having the benefit of speaking personally with persons who were well-acquainted with OSWALD, such as his wife and others. He also mentioned that in making this study it would be of decided value to have available information concerning OSWALD's life during the time he resided in Russia and mentioned that no material concerning this phase of OSWALD's life had been sent to him in Mexico City.

As was mentioned in my cable of reference, the package containing the documents returned by Dr. CAMERON was forwarded by air pouch under registry No. 2114904 on 5/19/64.

This information has been furnished in some detail in order that it might be made a part of the official record at the Bureau and for whatever value it might have to the Bureau in connection with its relations with the President's Commission.

As a matter of record, the President's Commission returned to the Laboratory on 3/17/64, the FBI items set forth on the attached sheet (No. 1). In addition, Mr. Arnold Specter, a member of the Commission's staff, furnished the described materials on the attached sheets (Nos. 2 and 3). These materials are Commission Exhibits, some of which were not furnished the Commission by the Bureau, such as painted charts showing wounds, working papers associated with Naval Medical School Autopsy Report A63-272, schematic drawing from Armed Forces Institute of Pathology, and so forth. Mr. Specter stated that they were being furnished to the Bureau for reproduction. The delivery of the FBI items to the Commission has previously been appropriately confirmed by letter to the Commission.

On 3/18/64, Mr. Melvin Eisenberg, a member of the Commission's staff, telephonically advised that the reproduction of the Commission Exhibits (referred to above) was in reality a continuing request for photographs of Commission Exhibits as set forth in the attached copy of a letter dated 2/24/64, from the Commission. Mr. Eisenberg also added that the Commission would like to have the Laboratory maintain these Commission Exhibits with the other FBI items which have been made Commission Exhibits.

As noted above, much of this material has never before been in the custody of the Bureau. We have, of course, on a continuing basis been delivering to the Commission literally hundreds of items of evidence recovered by the Bureau in connection with our investigation of the assassination, the investigation of Lee Harvey Oswald and the murder of Officer J. D. Tippit and returning them to our custody when the Commission has finished with them. This involves not only the physical delivery of the evidence, but also a large amount of administrative detail necessary for the proper maintenance of material of this type which must be

maintained in keeping with our policy concerning evidence. This, of course, has been an expected part of our job concerning this case. Now, however, the Commission has asked us to take custody of a number of items of evidence which have come into its possession from various other sources, with the attendant responsibility of maintaining them as evidence. It is to be noted also that just the photography request of the current material alone, which is being handled by the Laboratory and the Photographic Unit of the Administrative Division will amount to well over 100 photographs. Since the Commission has expected us to take custody and to photograph all of the material in this instance, it will undoubtedly extend its request to any additional evidence that may come into its possession in the future. While the present volume of non-FBI items is not great, acceptance of the present items will establish the precedent.

RECOMMENDATION:

While this is not our primary function, rather than be accused of failure to cooperate, it would be preferable for us to handle this evidence for the Commission. Recently, we have asked the Commission to reconsider several of its requests which have appeared to be unnecessary and Mr. Rankin has gone along with us. For the record, then, we should comply with this request unless it becomes too burdensome. If it does become too burdensome, we can, of course, reconsider at that time.

I don't think we should maintain materials not prepared by the Bureau 3/23

↑ I concur.

SUBJECT: THE PRESIDENT'S COMMISSION

Mr. Malley and I went over to see Mr. Lee Rankin, General Counsel of the President's Commission, shortly after 11 a.m. today. I took with me a copy of the transcript of the Director's testimony before the Commission, with the corrections we had made as to typographical errors, et cetera. I told Mr. Rankin we would be glad to go over the transcript with him, as it was apparent that the reporter who took down the testimony had made some mistakes and had even left out some of the thought in the testimony; that this was understandable as the Director spoke at a rapid rate. We mentioned that Mr. Redlich of the staff had called Mr. Malley this morning to state that he thought there were some corrections that needed to be made in the testimony, inasmuch as he had been present when the Director testified and the transcript was not entirely accurate.

Mr. Rankin suggested that I leave the transcript with him so that he could go over it personally, and he said that he would be in touch with me by Monday, 5/25/64, in the event there was a need to discuss any changes. I told him that, of course, there had been no changes in the substance of the Director's testimony. Rankin said that the transcripts of testimony will be published and, consequently, he wanted to be sure that the testimony properly reflected the Director's thoughts. He asked if the Director had gone over it, and I told him that he had and that the testimony, as we had corrected it, properly represented the Director's testimony. He reiterated that he thought it was important, as the testimony would be made public, that it should properly represent the Director's thoughts.

UNRECORDED COPY FILED IN

Mr. Rankin requested that we advise the Director that he, Rankin, felt that the Director had done an excellent job in testifying before the Commission. Rankin further said, "As you know, the Commissioners like the Director."

62-109090—163

REC 45

With reference to that portion of the testimony dealing with the Director's suggestions on the security of the President, and the memorandum of 12/2/63 which we sent a copy of to the Commission, Mr. Rankin remarked that the Commission had not previously advised us of the fact that a request had been made of Secret Service for a copy of the memorandum we had given to Secret Service, and the request had been denied, on the instructions of Mr. Jenkins of the White House. I told Mr. Rankin that,

58 JUN 9 1964

AHB:CSH (6)

in view of this, it would be necessary for us to advise Mr. Jenkins that we had subsequently furnished a copy of this memorandum to the Commission. He agreed, and suggested that we advise Mr. Jenkins that the Commission had requested the Director's views on the security of the President at the time the Director testified, and had requested that a copy of this memorandum be made available to the Commission; that in view of the fact that the FBI was, of course, under instructions to cooperate fully with the President's Commission, the Director furnished a copy to the Commission. Mr. Rankin said that if there are any repercussions from the White House, such repercussions will then be directed at the Commission, rather than at the FBI. D.C Texas Jack

Mr. Malley inquired of Mr. Rankin as to whether the Commission would furnish us a copy of the testimony of the two Dallas police officers relative to their alleged conversation with Special Agent Hosty on 11/22/63, while Hosty and Lieutenant Revill were on their way to the office of Captain Fritz. Mr. Rankin stated that the Commission has been rigid in its rule that the testimony of witnesses will be made available only to the witnesses themselves, and it is up to the witnesses whether they make the transcripts available to anyone else. He did remark that he, Rankin, felt that the statements of Revill and Detective Brian were a put-up job, particularly as Brian did not back up Revill's statement. He said, further, that Brian told the Commission that Revill had asked him to put some statements in Brian's memorandum which Brian felt he could not do. Rankin said there was a division of feeling on the part of the commissioners as to whether the police officers were telling a true story. Rankin said that Brian further admitted that he had dictated another memorandum which had been destroyed, presumably because it had been filled with handwritten corrections. Dallas Texas Jack RYAN Dallas, Texas Police Dept.

In the discussion on getting copies of the transcripts of testimony of witnesses, Mr. Rankin said that Secret Service had requested a copy of my (Belmont's) testimony, and the Commission had refused to furnish it, in line with its policy. I inquired why they wanted it and Rankin said Secret Service is floundering somewhat with the problem of what to do with the information we have sent over to them, and is seeking to establish criteria on what information they want. Therefore, they would like to see what criteria we are using in disseminating this information. Rankin said he told Secret Service that they should ask the Bureau if they want this information. I told Mr. Rankin we had not received any request from Secret Service.

Mr. Tolson

Mr. Rankin again mentioned his feeling that some persons in Secret Service are attempting to unload on the Bureau, on the basis that if the Bureau had given them information on Oswald they would have acted upon it. I asked Rankin whether this was Mr. Rowley's position, and he said it was not.

During the Director's testimony, Allen Dulles brought up the subject of a book, "The Red Roses of Dallas," by Gun. We asked Rankin whether he had this book, and Rankin furnished us a copy. The author is Nerin E. Gun. It is 215 pages long, was printed in France, and is in the French language. We have sent it to the Domestic Intelligence Division, with the suggestion that they check with Central Intelligence Agency and see if there is an English edition, so that we will not have to wrestle with the French language. France

With reference to the proposed trip to Dallas, which was scheduled for last weekend, and rescheduled for this weekend, Mr. Rankin advised this morning that he is considering holding a conference of FBI and Secret Service representatives, and his own staff, to decide whether such a trip is necessary, and to try and curtail the amount of work to be done in Dallas if such a trip is made.

I must say that, from talking with Mr. Rankin today, as well as on previous occasions, his approach on this whole matter is objective and fair, and he has been very friendly. During the discussion he advised that some of the Commission members had indicated that the present duties of Secret Service should be turned over to the FBI, at least in the field of protecting the President. He said that he had pointed out that the Director traditionally has taken the position that the FBI should be kept a small organization and its duties and responsibilities should be limited, as he (the Director) felt it is highly undesirable to center too much power in any one agency, or to develop what might be termed a national police force. I told Mr. Rankin he was correct in this, and over the years the Director had sought to avoid the concept of a national police force or the centralization of power. Mr. Rankin said this has not come to the point that it is an issue, but it might be that members of the Commission would again raise this point during the conclusion and recommendation phase of their report; in this case Mr. Rankin would see to it that the Director was consulted by the Commission. I suggested to Mr. Rankin that the simplest way to handle this, if it does become an issue, is for the Commission to send a letter to the Director, and I was sure he would express his views forthrightly and succinctly.

Mr. Tolson

ACTION:

I will advise you as soon as Mr. Rankin informs me of the results of his review of the testimony.

We will attempt to get an English version of the book, "The Red Roses of Dallas," and review it, and furnish our comments to the Commission.

If you agree, Mr. DeLoach will advise Mr. Jenkins that a copy of our memorandum of 12/2/63 was furnished to the President's Commission, and the circumstances surrounding this.

Yes.

SUBJECT: PRESIDENT'S COMMISSION
ASSASSINATION OF THE PRESIDENT

Today while discussing other matters with Mr. J. Lee Rankin of the President's Commission, Mr. Rankin advised that the Chief Justice has indicated he would like to go to Dallas Sunday, June7, 1964, and make a personal inspection of the various sites in Dallas relating to the assassination of President Kennedy. Mr. Rankin indicated he would accompany the Chief Justice and that Congressman Ford would possibly be in the Dallas area making a speech over the week end and might join the Chief Justice in Dallas. Mr. Rankin did not know at the time he talked to Malley whether Congressman Boggs would or would not make this trip. He stated that Secret Service was making the necessary arrangements for this trip and that it was planned that the group would leave on a military plane, probably at 6:00 a.m. Sunday morning and make the inspection as rapidly as possible and return to Washington the same day. Mr. Rankin asked Malley whether or not he would like to make this trip.

Mr. Rankin was advised that if the Commission desired Malley to accompany the group that he was ready and available to go at any time. Mr. Rankin stated that it was up to Malley whether he wanted to go. Malley repeated that he was most desirous of cooperating with the Commission fully and it was not a question of whether he desired to go but whether the Commission wanted him to go. At this time Mr. Rankin stated that he saw no real necessity for Malley making this trip inas much as it was to be merely an inspection so that the Chief Justice could familiarize himself with the surroundings in Dallas.

REC-34 62-109090-165

Mr. Rankin was again advised that Malley was completely agreeable to making the trip if the Commission desired it and he would be available on short notice if it was desired that he go to Dallas. Mr. Rankin was advised that if any situation of any kind came up where the assistance of the FBI in Dallas was desired, he should feel free to get in touch with the SAC, Mr. Shanklin. Mr. Rankin stated he appreciated this but could not foresee at this time any reason to call for assistance from our Dallas Office.

1 JUN 8 1964

ACTION: In view of Mr. Rankin's comment that he saw no reason for Malley to make this trip, Malley will not go to Dallas on Sunday unless a request is received.

Dallas has been advised of the proposed trip and the possibility that the Commission staff may contact them on Sunday.

Dear Mr. Rankin:

I am in receipt of a letter dated June 4, 1964, a copy of which is enclosed herewith, setting forth observations of Mr. James R. David, a retired Naval Reserve Officer, concerning an incident involving the handling of a classified report identified as: "U. S. Department of Justice, Copy No. 10 of 10, The President's Commission on the Assassination of President Kennedy."

Mr. David's letter has been acknowledged and he was advised that a copy of his letter was being made available to you. A copy of Mr. David's letter is being furnished to you for such action as you deem appropriate.

On the afternoon of June 2, 1964, Mr. Malley and I discussed the Director's testimony before the President's Commission with Mr. Rankin. You will recall we went over the transcript and clarified some typographical errors, etc., and thereafter left a copy with Mr. Rankin.

Mr. Rankin had only three points which he felt required further attention:

1. Page 6514. In connection with the Director's testimony on persons connected with front organizations, the Director stated that merely because a man belongs to a subversive organization does not mean he is black-listed and is a menace to his country for life. If he belongs to 20 of them, it shows he is either very gullible, or dumb or he is a menace. "That has been my attitude in regard to Government service where you find a Government employee who belonged to one or two, maybe in his early days. I think then there is a grave doubt as to whether he is a security risk."

Mr. Rankin felt this could be clarified to make the point the Director intended. He suggested possibly this be revised to read: "That has been my attitude in regard to Government service where you find a Government employee who belonged to one or two, maybe in his early days; I don't believe this makes him a security risk." Mr. Rankin made it clear, however, that he was not trying to put words in the Director's mouth; that this testimony would be made public and consequently it should state just what the Director means it to state.

To avoid questions from the public, I suggest the following wording would be preferable: "That has been my attitude in regard to Government service where you find a Government employee who belonged to one or two, maybe in his early days. I don't believe this necessarily makes him a security risk. Rather, this would be dependent on the degree of his activity in the front group and his purpose and intent in associating himself with it."

RE: PRESIDENT'S COMMISSION

2. Page 6544. Mr. Rankin noted that at the beginning of the testimony (Page 6498) the Chief Justice outlines the areas in which the Director will be asked to testify. One of them is the failure to include the name and information concerning Special Agent Hosty in the initial report of the Oswald address book. However, Mr. Rankin never got around to asking the Director about this during the testimony. Mr. Rankin thought we should include the Director's comment on page 6544, where the Director is discussing the fact that Hosty's name, office telephone number and license number were in Oswald's memorandum book.

We suggest that the following be inserted as a paragraph after the second line on page 6545: "Incidentally, those items in Oswald's notebook requiring investigative attention were first set out in an investigative report of our Dallas Office dated December 23, 1963. This report was not prepared for this Commission but rather for investigative purposes and, therefore, the information concerning Hosty's name, telephone number and license number was not included in the report. This information was reported in another investigative report of our Dallas Office dated February 11, 1964, in order that there would be a complete reporting of all items in Oswald's memorandum book. Both of these investigative reports were furnished to this Commission."

3. Page 6568 to 6571. Mr. Rankin agreed with the changes we had made in the testimony concerning wording in our appropriation bill relative to a provision for the protection of the President. However, Mr. Rankin noted that on page 6570 we had eliminated one brief question by Representative Ford and the Director's answer as not being pertinent. He agreed with this. He did say he would go over this with Representative Ford to make sure Mr. Ford also agreed, although he had no doubt that Mr. Ford would be in agreement.

Mr. Rankin again stressed that the testimony of witnesses before the Commission will be made public and both the Director's and Belmont's testimony will be regarded as policy statements of the Bureau. He said that he had no questions as to the policy enunciated in the testimony and as a matter of fact he felt that the testimony would do the Bureau a great deal of good in the eyes of the public because it presented the Bureau's sensitivity to the rights of the individual and to the necessity of operating strictly within the law, which was an area of Bureau policy that

had not previously been publicized. He reiterated that this testimony presented the Bureau in a light that would be new to many persons.

I told Mr. Rankin that the Bureau followed the policy that our actions spoke louder than our words.

Mr. Rankin said that he thought the Director was opposed to the FBI taking over the functions of Secret Service. I told him that this was correct, that the FBI had enough to do without taking over such responsibilities. Rankin said that some of the members of the Commission were of the opinion that Secret Service should be transferred over to the FBI and, as a matter of fact, he had noticed publicity to the effect that once the elections were over in November, the White House intends to transfer the functions of Secret Service to the FBI. I reiterated that I was sure that the Director would be opposed to such a move and I asked Rankin whether he had any solid basis beyond newspaper publicity that the White House intended such a move. He said he did not have but that he knew the respect with which the President regarded the Director and he thought it was probably the basis for the newspaper comments, although he had no facts on which to base his opinion.

ACTION:

If you agree, we will make the above changes in the testimony and furnish them to Mr. Rankin informally.

2. It is suggested that Mr. DeLoach be alert to insure that the views of the Bureau on any possible transfer of Secret Service functions to the FBI are known in proper quarters.

SUBJECT: DIRECTOR'S TESTIMONY BEFORE THE PRESIDENT'S COMMISSION ON ASSASSINATION OF PRESIDENT KENNEDY

Attached is a copy of the transcript of the Director's testimony before the President's Commission on the Assassination of President Kennedy. This transcript has been examined for accuracy, including misspellings and typographical errors on the part of the court reporter. It is noted that apparently the court reporter did not record the Director's testimony accurately in some instances. We have made as few changes as possible, in order to preserve the intent and accuracy of the Director's testimony.

This testimony was gone over by Messrs. Mohr, Malley, Branigan, M. A. Jones, Gheesling, Rogge, and me, on a word-by-word basis. In addition, Assistant Directors Sullivan, Rosen, DeLoach and Conrad have read the testimony and furnished their suggestions.

It is planned that I will personally go over these changes with Mr. Rankin of the Commission.

Dear Mr. Rankin:

Reference is made to your letter dated May 22, 1964, requesting the original tape recording from which a portion of the commercial record entitled "Four Days That Shocked the World" was produced under the label "Colpix Records" a New York, New York, firm.

Enclosed are two copies each of three memoranda captioned "Assassination of President John Fitzgerald Kennedy, November 22, 1963, Dallas, Texas," dated June 1, 1964, Tampa, Florida; June 2, 1964, New York, New York, and June 3, 1964, Dallas, Texas, which reveal information concerning this matter. Also enclosed is the original tape recording obtained from Mr. Bruno Vineis, Olmsted Sound Studios, Inc., New York, New York.

Your attention is directed to the report of Special Agent Robert P. Gemberling dated April 15, 1964, Dallas, Texas, captioned "Lee Harvey Oswald, IS - R - Cuba." Pages 31 through 33 reveal an interview with Mr. Samuel Mack Pate, the former newsman employed by radio station KBOX, Dallas, Texas, who allegedly was the first person to report over commercial radio that a shooting had occurred in Dallas, Texas, on November 22, 1963.

The original recording is on a one-quarter inch magnetic recording tape contained on a seven inch Eastman Kodak Company plastic reel which is labeled in red wax pencil "KBOX - Six Cuts." A detailed examination of the KBOX tape covering the critical period of the assassination failed to indicate the presence of any sounds which could be interpreted as gun shots.

A comparison of the KBOX tape against the Colpix commercial record entitled "Four Days That Shocked the World" indicates that there is more of Mr. Pate's broadcast recorded on the tape than was incorporated in the record. However, that critical portion of the tape which is included in the record does not appear to have been altered.

Mr. Bruno Vineis, Olmsted Sound Studios, Inc., has requested the original tape be returned to him when the President's Commission has completed its investigation.

The Commission indicated that having listened to the commercial record, it was possible that the timing of the gun shots may be detectable. In this connection the Commission desired the original tape recording, the identity of the announcer who was at or near the scene of the assassination and to determine where he was standing at the time the broadcast was made. Sam Pate was the announcer in a mobile KBOX unit and he has advised that a majority of his portion of the tape is not authentic, but is a tape that he was asked to make several days after his dismissal from KBOX, Dallas.

This matter has been carefully coordinated with the Laboratory and information for the President's Commission regarding the examination is suitable for dissemination.

NOTE:

Commission indicated it received evidence Oswald had a picture taken in Mexico City on 9/27 or 28/63 for use on an application for a visa at the Cuban Embassy in Mexico City. Commission suggested photograph was probably taken at inexpensive photographic studio near the Cuban Embassy and requested Bureau attempt to locate where such photograph taken. We conducted extensive inquiry in eight-block radius of Cuban Embassy, in vicinity of hotel where Oswald stayed in Mexico City and in vicinity of a travel agency where Oswald purchased ticket to return to U. S. without locating studio of interest. We furnished results of our checks to the Commission by letter 6/11/64 and asked Commission, if it desired we extend our investigation to all Metropolitan Mexico City in effort to locate the studio concerned. Commission indicated such action not necessary and that our substantial efforts to locate such studio are sufficient.

Dear Mr. Hoover:

Reference is made to your letter of June 11, 1964 wherein you advised that the Bureau has made a substantial effort to locate a photographic studio in Mexico City at which Lee Harvey Oswald had his picture taken for passport purposes and that results of these efforts have been negative.

The Commission feels that the investigation already carried on by the Bureau on this matter, as described in your letter of June 11, is under the circumstances sufficient. We are therefore not requesting that you extend your inquiries any further. However, we would appreciate receiving the usual Bureau report on this matter showing the inquiries made and stating the negative result.

Once again I would like to express our appreciation of your efforts.

Sincerely,

J. Lee Rankin

RE: LEE HARVEY OSWALD, aka.
IS - R - CUBA

On June 16, 1964, Mr. EDDIE BARKER, Director, KRLD-TV and Radio News Department, Dallas, Texas, advised a Dallas Agent Columbia Broadcasting System (CBS) Television at the present time is preparing a one and one-half hour documentary which will go into minute details of the assassination of President JOHN F. KENNEDY at Dallas on November 22, 1963. Mr. BARKER said witnesses to the assassination and persons who have furnished information in connection with the assassination are being contacted by CBS representatives in the preparation of this documentary.

Mr. BARKER said this documentary is to be shown immediately following the release to the public of the report presently being prepared by the President's Commission. To be shown in the documentary, according to Mr. BARKER, will be several re-enactments by witnesses as to action taken by the witnesses on the day of the assassination.

In view of information furnished by Mr. BARKER, it is anticipated some of these witnesses may contact the Dallas Office to ascertain whether it is permissible for them to talk with CBS Television representatives. UACB, the Dallas Office will advise any witnesses contacting this office that it is up to them whether they desire to talk with CBS representatives. They will be advised this office has no restrictions as to whether they should talk with the representative or not.

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY, DALLAS, TEXAS; 11/22/63

Reference memorandum dated February 26, 1964, from W. D. Griffith to Mr. Conrad concerning a continuing project wherein the Bureau has undertaken to furnish the Commission with photographs of all Commission exhibits. On 6/8/64, Miss Mary A. Rowcotsky, Commission employee, telephonically requested to Section Chief Roy H. Jevons, Physics and Chemistry Section, FBI Laboratory, that a Bureau representative take custody of the exhibits listed on the attached sheet. It was further requested that the Commission be furnished with three copies of each exhibit with the exception of exhibit 369, and that these photographs be furnished to the Commission by 6/10/64, if possible.

With respect to exhibit 369, it was requested that this exhibit be picked up and maintained in the Bureau's evidence file in this case.

It was subsequently determined that exhibit 369 was an item not originating with the Bureau; therefore, in accordance with a telephone request from Miss Rowcotsky this exhibit will be returned. This is in accordance with existing instructions with respect to the maintenance of non-Bureau items in the Bureau evidence file.

As a matter of record, custody was taken of instant exhibits by SA Robert E. Neill on the date of the request.

ENCLOSURE

This work will be handled by an Agent Examiner of the Laboratory's Document Section.

ACTION: Exhibits will be photographed or otherwise reproduced and three copies will be furnished to the Commission as requested. Exhibit 369 will be returned to the Commission.

BY COURIER SERVICE

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, Northeast
Washington, D. C.

Dear Mr. Rankin:

Enclosed for your information are two copies of an article captioned "New Light on the Assassination: A Secret Agent's Story," which appeared in the June 8, 1964, issue of the "U. S. News & World Report." The article was written by Mr. Glenn Clark Troelstrup.

Mr. Atsuyuki Sassa, who is quoted extensively in this article, is a Japanese Police Superintendent who visited our Washington Headquarters on March 5, 1964. He also visited the U. S. Secret Service and the Dallas Police Department while he was in the United States. Mr. Sassa is not and never has been associated with the Federal Bureau of Investigation.

Our representative in Tokyo, Japan, has learned from Mr. Sassa that the article was prepared after Mr. Troelstrup participated in an informal group discussion attended by Sassa and other Japanese police officials. The discussion was conducted in the Japanese language in which Mr. Troelstrup has incomplete comprehension.

Mr. Troelstrup has now signed two statements acknowledging responsibility for errors in translation and for inaccuracies concerning the FBI in this article. The statements also acknowledge that remarks attributed to Sassa in the article are based entirely upon information received by Sassa from unofficial sources. Copies of these statements are also enclosed.

Dear Mr. Rankin:

Reference is made to your letter dated May 22, 1964, wherein you requested interviews with Mike Howard (Special Agent James M. Howard, United States Secret Service), Pat Howard (Pat Clyde Howard, Patrolman, Hurst Police Department, Hurst, Texas) and Thayer Waldo (Thayer Waldo, news reporter, "Fort Worth Star Telegram," Fort Worth, Texas) concerning conversations which allegedly took place on or about February 9, 1964.

Enclosed are two copies each of the following items containing the results of the interviews of the above-named individuals and other information pertinent to your request:

(1) FBI memorandum captioned "Lee Harvey Oswald," dated May 23, 1964, at Washington, D. C.

(2) United States Secret Service memorandum dated May 27, 1964.

(3) FBI memorandum captioned "Lee Harvey Oswald," dated June 5, 1964, at Dallas, Texas.

and published on February 10, 1964. This may be the story which Mark Lane claimed, as reported in the "National Guardian" on May 9, 1964, was planted by the United States Secret Service. (See my letter to you dated May 13, 1964.)

For your further information Inspector Thomas J. Kelley, United States Secret Service, has advised that the report of Special Agent James M. Howard, United States Secret Service, dated February 13, 1964, captioned "Assassination of President Kennedy (Protection of Marguerite Oswald)," Number 1161, which was furnished you by the Secret Service, contains none further data about the trip Thayer Waldo made with Special Agent Howard on February 9, 1964.

No further investigation is being made in this matter in the absence of a specific request from you.

Sincerely yours,

J. Edgar Hoover

NOTE:

Thayer Waldo accompanied the two Howard brothers and Mrs. Marguerite Oswald from Mrs. Oswald's home to the airport in Dallas on 2/9/64. Waldo's presence was at the specific request of Mark Lane and Mrs. Oswald. The two Howard brothers gave him a ride back from the airport after Mrs. Oswald boarded the airplane. On the way back there was some conversation about a Negro who allegedly witnessed Oswald shooting at President Kennedy. According to the Howard brothers, whose interviews are reported in the enclosures, they never indicated that this Negro male had actually been a witness to anyone shooting at the President and the conversation was in a joking and jesting manner. They pointed out that Waldo, who was in the back seat, apparently misunderstood the entire conversation. The next day Waldo wrote a story in the newspaper about a witness being held by authorities who actually saw Oswald shooting. In May, 1964, the "National Guardian" published

(NOTE CONTINUED PAGE THREE)

NOTE CONTINUED:

an article wherein it was reported that Mark Lane claimed that the Secret Service had deliberately planted a false story in the press to pass further guilt on Oswald. This article named the Howard brothers and Waldo and the story spoken of was apparently written by Waldo. The interesting thing about this situation is that the story which Lane claimed was planted by the Secret Service was the same story written by Waldo, who was Lane's man. The unfortunate thing about the situation was that the two Howard brothers were not more guarded in their conversation in the presence of Waldo. By separate letter we are disseminating our memorandum of 6/5/64 to Secret Service for its information as to Waldo's version of the conversation with the Howard brothers.

Honorable J. Lee Rankin

There are also enclosed for your assistance two copies of a detailed memorandum in the Lee Harvey Oswald matter dated May 10, 1964, containing a summary of investigation conducted through mid-May, 1964, in Mexico. The latter has not, to date, been furnished to the American Ambassador in Mexico City.

In connection with Items Number One and Two, you are advised that these documents are work papers prepared in Dallas, Texas, in late November, 1963, for briefing purposes. They were not prepared for dissemination and are not to be considered as official reports of this Bureau. The exhibits described in the Item Number One work paper were never compiled in the order suggested in the work paper and, accordingly, such exhibits were not furnished to Ambassador Mann. With regard to the item on page 5 of Item Number Two relating to Joe Scaramuzzo being an acquaintance of Ruby, Scaramuzzo has been interviewed and he advised that he does not know Ruby, has never done any business with him, and had never heard of him prior to the shooting of Oswald. Details will be furnished to you by separate communication.

Items Number One through Four were furnished to Ambassador Thomas Mann by Legal Attache Clark D. Anderson during the early stages of our investigation of the assassination of President Kennedy at the Ambassador's request that he be briefed concerning the investigation and the relationship thereto to inquiries underway in Mexico.

Concerning Item Number Three, you are referred to our letter dated May 26, 1964, which enclosed a detailed memorandum concerning Manuel Santamarina Mendez, also known as Luis Fernandez Gonzalez. Concerning Item Number Four, the information contained therein was incorporated into a memorandum dated December 23, 1963, at Washington, D. C., which was delivered to the Commission by Inspector James R. Malley of this Bureau on January 3, 1964. Our memorandum of December 23, 1963, also suggested that you contact the Central Intelligence Agency for further information bearing on the data set out in our memorandum of December 23, 1963.

As the numerous official reports and memoranda which have, to date, been submitted to you in the Lee Harvey Oswald and related investigations supersede the data in the Items Number One and Two work papers, you may find, after perusal of same, that you have no further need for them. If such be the case, we would appreciate their return to us.

Sincerely yours,

J. Edgar Hoover

Outgoing bears Group 1 for same reason, as it makes specific reference to our activities in Mexico. Item 4 has the property stamp thereon, which we do not normally set forth on material going to Commission. However, as it was on the copy furnished to the Ambassador, believed advisable that it remain on the enclosure.

Items 1 thru 4 are attached hereto. Two copies of the 5-13-64 summary letterhead are being forwarded to the Mail Room as they are bulky (180 pages apiece). Memorandum recommends that 4 documents furnished by Legat, Mexico City, to former Ambassador Thomas Mann be furnished to the President's Commission per their request. Facts follow.

In April, 1964, the Commission sent 3 of its staff members to Mexico City. Prior to the trip, they conferred in Washington with former Ambassador Thomas Mann (presently Assistant Secretary of State). Following return of Commission representatives from Mexico City, the Commission on 4-24-64 requested to be furnished with the "dossier" the Bureau previously furnished to Ambassador Mann. We knew of no dossier furnished to the Ambassador and upon inquiry of Legat, Mexico City, we learned that in the early days of the assassination Ambassador Mann asked to be briefed on the investigation and Legat, feeling that under the circumstances of the moment the Ambassador's request could not logically be declined, furnished him 4 documents as follows: (1) an undated memorandum on the assassination of some 11 pages; (2) an undated memorandum on the Jack Ruby investigation of 17 pages; (3) a 12-3-63 memorandum prepared by Legat dealing with a complaint of a mental case; and (4) a 12-11-63 memorandum by Legat dealing with results of initial inquiries by Legat and CIA in Mexico City. The material in Items 3 and 4 have heretofore been furnished to the Commission.

Items 1 and 2, which have not been furnished to the Commission, were work papers prepared in Dallas on 11-25 and 26-63 for briefing purposes. They were also prepared for use in connection with the preparation of the first formal report which we made to the Commission. Items 1 and 2 were taken to Mexico City by Supervisor Laurence Keenan who was sent to Mexico in late November to brief the Legat and to clearly explain to the Ambassador our position in connection with inquiries being run in Mexico. Items 1 and 2 were left by SA Keenan with the Legat.

Memorandum for Mr. Sullivan
RE: LEE HARVEY OSWALD
105-82555

The work papers, items 1 and 2, were hurriedly prepared during the intense pressures of the initial stages of our investigation of the assassination. Prior to utilizing the material therein in our formal report and supplemental report to the Commission, several factors in these documents were clarified, corrected and extended; hence, the work papers are now outdated. We believe that the numerous reports and memoranda which have been furnished to the Commission supersede the information in items 1 and 2, with the possible exception of a reference on page 5 of the Ruby memorandum to information received from a Chicago source that Ruby was previously a close friend of a Joe Scaramuzzo, a Chicago gun shop proprietor, from whose store 3 of the 4 guns used by the Nationalist Party of Puerto Rico members in the attempted shooting of President Truman in March, 1954, were purchased. This information appeared on Administrative pages of the 11-30-63 Dallas report in the Ruby case and our indices do not show that this information was furnished to the Commission in the Oswald or related cases. Scaramuzzo has since been interviewed and states that he does not know Ruby, has never done any business with him and had never heard of him prior to the shooting of Oswald by Ruby. The President's Commission is being advised of this.

Accordingly, in furnishing the 4 documents to the Commission, we are also sending copies of the items 1 and 2 to Dallas to insure that all information contained in these documents is run out and furnished to the Commission in report form.

On 6-4-64 Liaison Agent Bartlett ascertained from William T. Pryce, Staff Assistant to Assistant Secretary Thomas Mann, that Mann did not give or show items 1 and 2 to members of the Warren Commission. We do know, however, that the Commission is presently combing State's files to insure they have received everything in the possession of State. Accordingly, it is necessary that we furnish to the Commission all of the documents Legat gave to the former Ambassador.

RECOMMENDATIONS:

(1) Attached for approval is letter to the Commission transmitting the documents in question. As items 1 and 2 were work papers and as they are outdated and have been clarified by the numerous reports and memoranda furnished to the Commission, letter points out that we would appreciate having items 1 and 2 returned to us if they are of no further use to the Commission.

NOTE:

By letter 6-8-64, Commission acknowledged and thanked the Bureau for our letter of 3-26-64, which transmitted a letterhead memorandum classified secret pertaining to the C14 rifle manufactured in Italy and its related serial number. The Commission has indicated this information provides important links in the chain of evidence linking Oswald to the assassination rifle and they desired, if possible, paragraphs 2, 3 and 4, page 1 of the letterhead memorandum be put into a nonsecret memorandum. Legat Rome has been requested to determine if the entire letterhead memorandum can be declassified. The Italian Armed Forces Intelligence Service (SIFAR) classified the information they furnished as "secret." Information referred to in letterhead memorandum is filed in Bufile 105-82555, serial 2781. (U)

Thank you for your letter of March 26, 1964, transmitting a "Secret" memorandum. Since the information contained in paragraphs 2-4 of the memorandum provides important links in the chain of evidence linking Lee Harvey Oswald to the assassination weapon, we would appreciate it if you could use your best efforts to obtain a nonsecret memorandum from the same, or an equivalent source, setting forth only that information.

ZAPRUDER CAMERA AND FILM

Mr. Abraham Zapruder, Dallas, Texas, made photographs of the presidential motorcade in an area on Elm Street just west of the intersection of Elm and Houston Streets, using a Bell & Howell 8 millimeter Zoom lens camera loaded with color film. He started photographing the motorcade after it made the turn onto Elm Street. He started taking pictures prior to the first shot that was fired and continued making pictures until the motorcade disappeared to his right.

He took the film to Jamieson Film Company in Dallas for processing and stayed with it during the processing. From the original print he had three copies made. He subsequently turned over two copies to the Secret Service and sold the original and one copy to Life Magazine.

Mr. Zapruder's camera was examined in the Laboratory and found to operate at an average speed of 18.3 frames per second.

LIFE MAGAZINE SLIDES

On 2/25/64 Mr. Herbert G. Orth, Assistant Chief of Life Magazine's Photographic Laboratory, provided the original of the Zapruder film for review at The President's Commission by representatives of the Commission, Secret Service and FBI. As a result of this conference, Mr. Orth offered to make 35 mm slides of pertinent frames (171 through 343). Three sets of these slides were prepared and one copy provided to the Commission, one copy to Secret Service and one copy to FBI.

NIX CAMERA AND FILM

Mr. Orville O. Nix made a series of 8 mm color motion pictures at the corner of Elm and Houston Streets as the motorcade turned north on Houston. He was in a position near the curb on the southwest corner of the intersection and made pictures of the left side of the presidential car. After the car went by he proceeded to a point about 20 feet on the south side of Main Street and made a series of pictures using the Zoom lens completely open.

62-109090

ENCLOSURE

ENCLOSURE

Mr. Nix's camera was a Keystone Auto-Zoom 8 mm movie camera and was examined by the Laboratory and found to operate at an average speed of 18.5 frames per second.

MUCHMORE CAMERA AND FILM

Mrs. Marie Muchmore made 8 mm color motion pictures from a position on the northwest corner of the intersection of Main and Houston Streets where she had a view of the motorcade as it turned west from Houston into Elm Street. She stated that after hearing the first shot fired she panicked and did not take any other pictures.

From a review of the UPI book "Four Days," representatives of the Bureau determined that reproductions of photographs from motion picture film in this book were other than those from the Nix and Zapruder films. On the basis of this information, a copy of a roll of film exposed by Mrs. Muchmore was obtained from United Press International in New York City. Mrs. Muchmore's camera was obtained and is a Keystone K7 8 mm motion picture camera. This camera was examined in the Laboratory and found to operate at an average speed of 18.5 frames per second.

FILM REVIEW

The amateur assassination films taken by Mr. Abraham Zapruder, Mr. Orville Nix and Mrs. Marie Muchmore, including 35 mm color slides made by Life Magazine from the original Zapruder film, were reviewed extensively at the Commission by representatives of the Commission, Secret Service and FBI. Doctors who attended the President and Governor Connally, wound ballistics experts and Governor and Mrs. Connally also reviewed the films on occasions. The film reviews were made to establish the location on the film where the shots occurred that struck the President and Governor. It is noted that only the shot that struck the President in the head can be definitely established on all three films. Extensive background material was developed, such as the speed of the 8 mm cameras used in making the films. To assist in the recording of the material developed, each individual frame of each motion picture film was assigned a number. The frames of the Zapruder film were numbered beginning with 1 at the point of the film where the presidential motorcade pictures actually begin. This same system was used in numbering the Nix and Muchmore films. The 35 mm slides were numbered to conform to the frame numbers of the Zapruder film. During the film review, all aspects of the films were studied for any evidence that would contribute to the location of the shots, other than the head shot. Such things as visual observations of the reaction of the President and Governor Connally, as well as other occupants in the car, were considered. Action of Secret Service Agents riding in the follow-up car and motorcycle policemen riding behind the presidential car were checked for possible evidence,

REVIEWS OF ASSASSINATION FILMS AT THE COMMISSION

On January 23, 1964, Commission members Joseph Ball, David Belan, Melvin Eisenberg and Norman Redlich and Secret Service Inspector Thomas Kelley met with Inspector Leo J. Gauthier of the FBI at the Commission for review of the visual aids that had been prepared by the FBI.

On January 27 and 28, 1964, the following individuals attended the initial review of a copy of the Zapruder film: Representatives of the Commission; Inspector Leo J. Gauthier and staff and SA Lyndal L. Shaneyfelt of the FBI; and Inspector Thomas Kelley and Special Agent John Joe Hawlett of Secret Service.

On January 29, 1964, representatives of the Commission met with Inspector J. R. Malley (FBI) and Inspector Leo J. Gauthier and aids (FBI) for a further review of the Zapruder film and the initial review of the Nix film.

On February 25, 1964, Commission representatives met with Secret Service Inspector Thomas Kelley and FBI representatives J. R. Malley, Leo J. Gauthier and Lyndal L. Shaneyfelt for a further review of the Zapruder and Nix films and an initial review of the Muchmore film. Mr. Herbert G. Orth from Life Magazine made available the original of the Zapruder film which was reviewed. On this occasion, Mr. Orth volunteered to make 35 mm slides of each of the pertinent frames of the Zapruder film.

On April 14, 1964, representatives of the Commission met with FBI representatives Malley, Gauthier and Shaneyfelt for a review of the slides made by Life Magazine from the Zapruder film, as well as the Zapruder, Nix and Muchmore films. The following individuals were also present: Commander James J. Humes, U. S. Navy Hospital, Bethesda, Maryland; Commander J. Thornton Boswell, U. S. Navy Medical School, Bethesda, Maryland; Colonel Pierre A. Finck, Chief of Wound Ballistics Pathology of the Armed Forces Institute of Pathology; Dr. A. G. Olivier, Chief of Wound Ballistics Branch, Edgewood Arsenal; Dr. F. W. Light, Jr., Deputy Chief of Biochemistry and Chief of Wound Assessment Branch, Edgewood Arsenal. The purpose of this review was to relate the knowledge of the doctors to the events depicted in the films.

On April 21, 1964, representatives of the Commission met with FBI representatives Malley, Gauthier and Shaneyfelt for a further review of the Zapruder, Nix and Muchmore films, as well as the 35 mm slides of the Zapruder film. The following individuals were also present at this review: Dr. Gregory and Dr. Shaw, who examined Governor Connally at Parkland Hospital in Dallas; Dr. Light and Dr. Olivier from the Wound Assessment and Wound Ballistics Sections of Edgewood Arsenal; Dr. Joseph Dolce, Consultant to the Biochemistry Division of Edgewood Arsenal; and Governor and Mrs. Connally. The purpose of this review was to relate the knowledge of the doctors and the recollection of the Connallys to the events depicted in the films.

RE-ENACTMENT IN DALLAS, TEXAS, ON MAY 24, 1964

On May 23 and 24, 1964, a survey was made of the assassination site in Dallas, Texas, including a detailed re-enactment. SA Lyndal L. Shaneyfelt, Laboratory Photographer R. E. Triplett and Mr. Roy Rose of the Exhibits Section made a preliminary survey on 5/23/64 at which time plans were formulated for the method to be followed in re-enacting the assassination at which time preliminary information was developed. Since the amateur films made by Mr. Zapruder, Mr. Nix and Mrs. Muchmore were to be the primary basis on which the re-enactment was to be made, it was essential that their exact camera positions be developed. The position of Mr. Zapruder was known, since he was on a specific projection of a nearby structure. Since the positions of Mr. Nix and Mrs. Muchmore during the filming of their pictures were not known, these positions were re-established through use of their cameras and photographs made from their films.

On Sunday, May 24, 1964, the re-enactment was started at approximately 6:00 AM. The Commission was represented by General Counsel J. Lee Rankin, Norman Redlich and Arlen Specter. SA Lyndal L. Shaneyfelt, SA R. A. Frazier and Laboratory Photographer R. E. Triplett were present from the FBI Laboratory. Inspector Leo J. Gauthier and Mr. Roy Rose were present from the Administrative Division and Inspector James R. Malley was present from the Investigative Division. Inspector Thomas Kelley and Agent John Joe Hawlett of Secret Service were present. A sufficient number of Dallas Agents were also present to assist the above individuals and two-way radio communications were in effect from all essential points.

The Dallas Police Department completely blocked off the portion of Elm Street where the assassination occurred. Secret Service representatives had available a car closely approximating that in which the President was riding and the variations between the car used for the re-enactment and the President's car were known and taken into account. Agents of the Dallas Office, who were the approximate sizes of President Kennedy and Governor Connally were used in the car to re-establish as accurately as possible the films of the assassination, including positions of the car in the street

and the positions of the individuals in the car. SA J. Doyle Williams was used in Governor Connally's position and SA James W. Anderton occupied the position of President Kennedy in the car.

SA Frazier was stationed at the sixth floor window of the Texas School Book Depository (TSBD) Building with the rifle recovered from the building immediately after the assassination. It is noted that the presidential car proceeded down Main Street to Houston Street, turned right on Houston Street toward the TSBD Building and at the corner of the TSBD Building turned left into Elm Street. The assassination occurred along Elm Street. The view from the sixth floor window of the TSBD Building is partially blocked by a tree for a portion of the area of Elm Street.

The re-enactment was based primarily on the Zapruder film and for the purpose of restaging specific frames of the Zapruder film a book of black and white photographs of the pertinent frames was available. The first position established was the location of the car in the street at the point where the person aiming the rifle would have the last opportunity for a clear shot before the car passed under the tree. This location was established through the Zapruder film and through advice from SA Frazier in the sixth floor window. It has been determined that this was frame 161 of the Zapruder film. The next location was at a point in the street where there was a clear shot through an opening in the tree. This position was found to be frame 185 of the Zapruder film. The next position located was at a point where there was the first clear shot after the car emerged from under the tree and this was frame 207. Other frames established were based on pertinent frames developed during the numerous film reviews that had been made at the Commission and they were frames 222, 225, 231, 235, 240, 249, 255 and 313. Frame 313 is the frame depicting the shot that hit President Kennedy in the head. All of the re-establishment of frame numbers after frame 207 were made on the basis of the Zapruder film, using known reference points in the background of the photographs, except frame 313. This frame in the Zapruder film does not have any fixed reference points for the establishment of the location. Frame 24 of the

Nix film and frame 42 of the Muchmore film both depict the shot that hit the President in the head and both have fixed reference points on which this frame could be re-established. As each of the positions was fixed along Elm Street, SA Frazier made studies of the possible bullet path at each frame. Measurements were also taken and a surveyor calculated the distances from the point of the wound in Kennedy's back to the window and to a fixed reference point in the street, as well as the angle to the window. In addition, photographs were made first with 4" by 5" Polaroid film to check the accuracy against the Zapruder photographs, then with 4" by 5" black and white film for permanent record after which the position was photographed on 35 mm black and white film, 35 mm color film, and with Zapruder's 8 mm motion picture camera on 8 mm color film. After frame 313 was established, the car was returned to the corner of Houston and Elm Streets where it was located in a position where there would be the first clear shot after the car turned the corner at Houston and Elm Streets. This point was recorded photographically with measurements and is referred to as point "A," since the Zapruder assassination films do not include this portion of the actual assassination route.

After the fixed positions were determined, the car was driven along the route at the previously estimated speed of 11 miles per hour of the presidential motorcade and while being followed through the rifle scope by SA Frazier was photographed from the camera positions of Zapruder, Nix and Muchmore, using their cameras. This run was re-enacted two times.

Following the above portion of the re-enactment, SA Shaneyfelt and Photographer Triplett went to the sixth floor window of the TSBD Building and mounted an Arriflex 16 mm motion picture camera behind the telescopic sight of the assassination rifle. This was mounted on a tripod and positioned approximately in the position believed to have been used by the assassin. The car was then returned to the corner of Houston and Elm Streets and relocated in the previously determined fixed position and motion pictures were made at each of the points through the telescopic sight of the rifle. Inspector Leo J. Gauthier handled the re-establishment of the car and individuals in the

car as related to the Zapruder film during this portion of the re-enactment. In addition, Mr. Redlich observed the car from the triple overpass under which the presidential car traveled immediately after the assassination. Mr. Redlich found that a shot could be fired from the triple overpass at President Kennedy without going through the windshield. After the motion pictures were made through the rifle scope of the fixed positions on Elm Street, black and white motion pictures were made of the car traveling at the estimated 11 miles per hour on the assassination route with the scope of the rifle and the camera following the car. This was then repeated and filmed on color film.

This concluded the on-sight survey of the assassination and the street was again opened to traffic at approximately 1:00 PM.

In the afternoon of 5/24/64, studies were made in a garage near the assassination site. These studies were made to determine the approximate angle of a bullet traveling through the President's neck and through Connally's chest to determine whether or not there was any basis for the theory that one shot could have gone through both individuals. This angle was re-established based on the Zapruder photographs and the known location of the wounds on both Kennedy and Connally and was found to be approximately 17°. It is noted that the angle from the rifle to the wound in the President's back in the area near frame 222 is also approximately 17°. Photographs were made at the garage of the alignment of the wounds using a rod to show the wound alignment and a string along the wall in the background that had been placed by the surveyor at 17°. This concluded the survey in Dallas.

SPEED OF CAR AND ELAPSED TIME BETWEEN SPECIFIC FRAMES

The speed of the presidential car was calculated for the area between frames 161 and 313, which is a distance of 136.1 feet. This represents 152 frames which are exposed at the rate of 18.3 frames per second totaling 8.3 seconds. Based on this, it has been calculated that the presidential car was traveling at an average speed of 11.2 miles per hour from position 161 to 313.

The following is the listing of the elapsed time between the various frame numbers established during the re-enactment:

From frame 161 to frame 313 is 152 frames totaling 8.306 seconds.

Dear Mr. Rankin:

In reply to your letter of June 1, 1964, requesting that this Bureau obtain floor plans of the first and third floors of the Dallas Police Department, I am enclosing herewith the following items:

(1) Two copies of a memorandum dated June 4, 1964, at Dallas, Texas, setting forth results of investigation conducted to obtain the desired information.

(2) A booklet entitled "Personnel Assignments," dated November, 1963, prepared by the Dallas Police Department as referred to in the enclosed memorandum.

(3) A copy of the blueprint for the third floor of the Municipal Building, Dallas, as referred to in the enclosed memorandum.

(4) A schedule reflecting room occupancy intended at the time the blueprint was prepared as mentioned in the enclosed memorandum.

As you have been previously advised, the Dallas Police Department does not occupy the first floor of the Municipal Building, Dallas, and floor plans for the first floor were not obtained.

Sincerely yours,

J. Edgar Hoover

Dear Mr. Rankin:

On May 23, 1964, Mr. Wesley J. Liebeler of your staff requested that this Bureau obtain a copy of a recording tape made by Radio and Television Station WDSU, New Orleans, Louisiana, on August 21, 1963, and a copy of a recording tape made by Mr. William K. Stuckey on August 17, 1963. Our letter of May 28, 1964, set out results of our contact with Mr. Stuckey in this matter.

Enclosed is a copy of the original tape of the radio program entitled "Conversation Carte Blanche," which was broadcast over WDSU Radio on August 21, 1963. Also enclosed are two copies of a memorandum dated June 3, 1964, at New Orleans, Louisiana, relating to our acquisition of this tape for the Commission.

BY COURIER SVC. JUN 10 COMM-FBI

You will note that the enclosed tape is wrapped in aluminum foil. Mr. Charles H. Flotte, Engineer, Radio and Television Station WDSU, suggested that the tape be wrapped in this manner to prevent possible erasure of its contents in the event the tape came in contact with any magnetized material.

This concludes our inquiries in this particular matter.

Sincerely yours,
J. Edgar Hoover

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

The President's Commission on the Assassination of President Kennedy, by letter 6-9-64, requested the Bureau to interview Dan Rather, an employee of the Columbia Broadcasting System (CBS) news.

According to the Commission, they have a tape recording furnished by Dallas Radio Station KLRD wherein Rather is quoted as having told another newsman that he saw Lee Oswald in the Carousel Club prior to 11-22-63.

The Commission's request was telephonically furnished to SAC Shanklin 6-10-64 and he was requested to have Rather interviewed to determine if he did see Oswald in the Carousel Club and the circumstances under which such statement as alleged by KLRD was made by him. Dallas was requested to handle this lead immediately and to submit the results to the Bureau together with any other necessary investigation to pin down this allegation. Upon receipt of the results of the interview, they will be furnished to the President's Commission.

TO : Mr. Belmont

DATE: June 8, 1964

FROM : A. Rosen

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY

Memorandum of 6/4/64 from Brennan to Sullivan set forth information received from Admiral George Berkley, USN, the White House physician, to the effect that he had been riding in an automobile several cars behind President Kennedy November 22, 1963, and had gone to Parkland Memorial Hospital in Dallas where he furnished information concerning the President's blood type and medication at the time the Dallas doctors were considering giving President Kennedy a blood transfusion. Admiral Berkley mentioned to Liaison Agent Orrin H. Bartlett that he had prepared a memorandum concerning his actions and submitted a copy to Mrs. Kennedy and the U. S. Secret Service. He further advised that he had not been called by any member of the Warren Commission concerning his knowledge of events at Dallas and he was of the opinion his statement should be made a part of the record.

This matter was discussed with J. Lee Rankin on June 8, 1964, at which time Mr. Rankin advised he had no independent recollection of this memorandum which was submitted by Admiral Berkley. He requested that arrangements be made to obtain this memorandum in order that it could be received by the Commission and the Commission would then take appropriate action concerning the same.

ACTION:

In accordance with Mr. Rankin's request, Inspector Tom Kelley of Secret Service was called and requested to locate the memorandum referred to by Admiral Berkley and make the same available to the President's Commission. Inspector Kelley advised he was aware of this memorandum submitted by Admiral Berkley and was of the opinion that it had been made available to the President's Commission; however, he would check this matter out thoroughly and make certain that it was available or would see that a copy of the memorandum was sent over to the Commission per Mr. Rankin's request.

SUBJECT: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY

On 6/3/64 Liaison Agent Bartlett talked to Admiral George Berkley, U. S. Navy, the White House physician, at Admiral Berkley's request.

Admiral Berkley said he was in the motorcade at Dallas on 11/22/63 a few cars behind President Kennedy when he was assassinated. His car took him immediately to the hospital in Dallas and he was in the emergency room with the body at the time the Dallas doctors were attempting to work with him. Admiral Berkley said that he gave advice concerning the President's blood type and medication at the time the Dallas doctors were considering giving the President a blood transfusion. Following this Admiral Berkley stayed close to Mrs. Kennedy and returned to Washington with Mrs. Kennedy, the President's body and the new President Johnson. Admiral Berkley said that he prepared a memorandum concerning his actions and submitted a copy to Mrs. Kennedy and a copy to the U. S. Secret Service. He indicated that he has never been called by any member of the Warren Commission concerning his knowledge of the events at Dallas and he is of the opinion that his statement should be made a part of the record. Admiral Berkley asked Mr. Bartlett if the Bureau would mention this to an appropriate member of the Warren Commission. He was told that the Bureau would check into this matter.

The Bureau is in possession of a copy of the Secret Service report to the Warren Commission and Admiral Berkley is not mentioned in this report. ENCLOSURE

INTERNAL SECURITY-RUSSIAN

During my testimony before the President's Commission I was asked concerning the Bureau file on Lee Harvey Oswald up to the time of the assassination of President Kennedy. I had the file with me and told the Commission it was available to the Commission. Commissioner McCloy expressed the opinion that someone from the Commission should look through the file. Mr. Rankin was also anxious to let the record show that the FBI had not held back any information from the Commission.

Subsequent to my testimony, at the suggestion of Mr. Stern of the Commission staff we tabbed each of the 69 items contained in the Oswald file prior to the assassination. This went through serial 49, and included serial 78 which was in the second section of the Oswald file.

At Mr. Rankin's request, Inspector Malley delivered the file to Rankin's office in a sealed envelope on the morning of 6/3/64, in order that Mr. McCloy might go through the file. On 6/8/64 Mr. Rankin advised Mr. Malley that Mr. McCloy had gone through the file and there were no questions or problems. The file was returned to Mr. Malley from Mr. Rankin's office on 6/8/64, and has been returned to the custody of the Records Division.

Print of the surveyor's plat (40" x 72") depicting station "C," the positions of Zapruder, Nix and Muchmore and the elevation of the concrete pillar on which Zapruder was standing at the time he made the movie of the assassination.

The plat map was prepared to a scale of 1" equals 10' representing a portion of Dealey Plaza bounded on the north by the Texas School Book Depository and railroad property, on the east by Houston Street, on the south by the Main Street roadway and on the west by the Triple Underpass. Indicated on this plat are street lights, storm basin, trees, concrete pergola and reflecting pool, road signs, curb and traffic lane markings and the 6th floor window in the southeast corner of the Texas School Book Depository, fixed points on the roadway established through observations made from the 6th floor window and from the Zapruder, Nix and Muchmore camera positions, instrument fixes made by the surveyor from a point 39" directly above each of the marked points on the roadway (39" above sea level is the point of bullet entry), tabulations indicate angles and sight distances from each point on the roadway sighted in on the rifle in the 6th floor window and also from the top handrail of the Triple Underpass directly above the window on the Elm Street roadway.

Commission Exhibit No. 884

Enlarged copy of tabulation which appears on the surveyor's plat showing elevations, angles, sighting distances and measurements from fixed points along the roadway to the rifle in the 6th floor window and the top of the handrail of the Triple Underpass.

The hearings which included a showing of the movies pertaining to the assassination of President Kennedy continued without recess from 2:00 p. m. until approximately 7:00 p. m. The members of the Commission indicated that the testimony heard was indeed interesting and most helpful to them in better understanding the many "probables" that surround the shooting sequence.

Testimony of Special Agent Shaneyfelt and Special Agent Frazier is being handled in separate memoranda to Assistant Director Conrad.

Enclosed is a copy of a letter from the President's Commission dated June 4, 1964 which is self-explanatory. Also enclosed is the attachment to the Commission's letter of June 4, 1964.

The New York Office should immediately check indices regarding Sam Altman and thereafter interview Altman for all data in his possession bearing upon Lee Harvey Oswald or the assassination of President John F. Kennedy. Following the interview of Altman, the New York Office should institute appropriate investigation and set out appropriate leads to completely resolve the allegations of Altman.

Results of such investigation should be set out in report form by the New York Office suitable for dissemination to the President's Commission. This matter must be given your immediate attention inasmuch as it appears the Commission is currently in process of writing its report on the assassination.

Mr. John Drury, an attorney with the Civil Aeronautics Board, Washington, D. C., wrote a letter to the Commission reporting a conversation he had with Sam Altman, a cab driver in New York City. Altman told Drury that two or three months prior to the assassination of Mr. Kennedy he picked up a passenger who indicated he was a former Marine and who told Altman he intended to kill President Kennedy. Altman also told Mr. Drury that although he is not positive he believes his passenger was Lee Harvey Oswald. We are having New York interview Altman and thereafter thoroughly run out latter's allegations.

Dear Mr. Hoover:

Enclosed is a copy of a letter received by the Chief Justice from Mr. John B. Drury, a trial attorney employed by the Civil Aeronautics Board. As you will note Mr. Drury informs the Commission that a cab driver in New York City by the name of Sam Altman may have information of interest to this Commission. The records of the Commission indicate that Mr. Altman has not been previously interviewed by the Federal Bureau of Investigation and we would appreciate the Bureau conducting such an interview.

Thank you for your assistance.

The Honorable Earl Warren
Chief Justice of the United States
Washington 25, D. C.

Sir:

By way of introduction, may I say that I have been in government service for over twenty-three years, and am now employed as a Trial Attorney by the Civil Aeronautics Board.

I realize that your time is extremely limited and valuable, by reason of your high office, however, I feel that I would be remiss in my duty as a citizen, if I failed to report the following matter to you.

Sam Altman is a cab driver in New York City, who lives at 364 Madison Street, New York 2, New York. His hacking license is #23494, and he drives cab #10826.

On May 11, 1964, while I was in New York on business, he told two associates and me, that he was in a serious difficulty because he had related an experience to several people, that his story had reached a newspaper reporter, and the reporter was trying to induce him to tell the story for publication. He recited the following account to us, and asked our advice:

About two or three months prior to the assassination of the late President Kennedy, he picked up a male passenger at Eastern Air Lines, and drove him to his destination, which was the Hotel Gotham. The passenger had a large footlocker, upon which his name was stencilled. During the drive, the passenger told Altman that he was a former Marine, and that he intended to kill President Kennedy. Altman noted the name on the footlocker, and wrote it on his trip-ticket for the day, which he turned in to the company from which he rents the cab. Although not positive, Altman believes that the name was Oswald, and as he recalls this passenger, he looked like the photographs of Lee Harvey Oswald.

Shortly after leaving the Hotel Gotham, Altman says that he called a law enforcement agency and furnished the above story. The person receiving the call seemed skeptical, and asked Altman if his

62-109090

ENCLOSURE

passenger appeared to be a "nut." He then suggested that Altman report this matter to another law enforcement agency. Altman told him that he had done his duty by reporting it, that he was not going to call anyone else, and the other party could report it himself to the proper agency.

I advised Altman not to discuss this incident with the reporter, or with anyone else, but to report it to you, immediately. Altman said that he couldn't write such a letter to you, and he asked me if I would do it for him. I promised him that I would do so.

In no way do I vouch for Mr. Altman, or for the authenticity of his account. However, it would appear that his story can be quite easily verified, so I am compelled to report it to you.

Very truly yours,

John B. Drury

Dear Mr. Hoover:

As a result of deposing Mr. Seth Kantor, the Commission would appreciate your obtaining full details from telephone company records of all long distance calls placed between 12:45 p.m. and 2:00 p.m., November 22, 1963 to Washington, D.C. (DI 7-7750) (Scripps-Howard) from telephones including pay phones located at Parkland Hospital, Dallas, Texas. Those calls would have been charged to DI 7-7750.

In addition, the Commission would appreciate your reviewing television tapes and films in the possession of WFAA-TV to determine if Seth Kantor or Jack Ruby appear in pictures taken near the main entrance of Parkland Hospital on November 22. Mr. Kantor stated that his own television picture was seen by friends, and that he was at Parkland Hospital from 12:45 p.m. to 2:00 p.m. In preparing your report please indicate, according to the WFAA-TV index, the films reviewed.

The President's Commission by letter dated 6/1/64 has advised that when Jack Ruby was contacted on March 11, 1959, by SA Charles W. Flynn a personal description was obtained and the observation was added that Ruby was a "known Dallas criminal." The Commission requested that they be advised as to the purpose and other results of Agent Flynn's contact on that date and requested that Agent Flynn indicate whether his comment about Ruby's criminal reputation was based on conversations with local law enforcement officers or other information not then in our files.

It is noted that the description of Ruby which was furnished to the Commission as contained in the report of SA Manning C. Clements at Dallas dated 11/30/63, page 157, reflects under remarks "known Dallas area criminal." A review of the description of Ruby as set forth in Dallas file number 137-631, which was prepared by SA Flynn as a result of his contact with Ruby on 3/11/59, does not include this remark and therefore cannot be attributed to SA Flynn.

It would appear that the remark was added to the description by the Agent preparing the report on the basis of the fact that Ruby had a record with the Dallas Police Department under Dallas PD 22255.

Dallas will submit by return mail an affidavit from the Agent who inserted this remark in the description of [illegible]

Ruby clearly setting forth his basis for the observation. This affidavit will be furnished to the President's Commission by cover letter from the Bureau advising them of the purpose and other results of Agent Flynn's contact with Ruby on that date.

NOTE:

Commission's letter alsc requested a name check on ten associates and persons who were known to have contacted Ruby. This is being handled by the Name Check Section. Commission has previously been advised of the purpose and other results of Agent Flynn's contact with Ruby on 3/11/59 which was to determine if he could furnish information of value in criminal matters and that no information was obtained in this contact or in subsequent contacts of Flynn with Ruby. In reply to their request they will be referred to this previous advice.

PURPOSE:

To recommend that no further action be taken on a Commission request which has been completed with regard to the photographing of certain rental records belonging to Mrs. Bertha Cheek of Dallas, Texas.

BACKGROUND:

The Commission, by letter 4/20/64, requested photographic copies of Cheek's records on a property she owned on Gaston Street in Dallas for 1958 through 1961 as well as copies of all records for all of her properties (7) for 1963.

Mrs. Cheek, a wealthy woman, knew Jack Ruby in view of their mutual interest in night clubs. Cheek's sister, Earlene Roberts, was landlady at Lee Harvey Oswald's Beckley Street residence at the time of the assassination. Roberts did not take an active part in the management and has denied knowing Oswald or Ruby. This matter has been thoroughly investigated and no connection established between Oswald and Ruby.

We interviewed an employee of Cheek who advised she owned a property at 5212 Gaston, Dallas, where two Cubans were reported to have been residing in 1958 and 1959 (when Oswald was in USMC). Efforts to identify these Cubans have been unsuccessful. The above facts have been furnished previously to the Commission.

Re: LEE HARVEY OSWALD

This project involved some 1600 frames of film which would have required 3200 photographic enlargements. Bailey discussed this matter with Burt Griffin of the Commission on 4/28/64, and it was agreed he or a member of the staff would review the film at the Bureau at the first opportunity and that any frames they desired enlarged would be appropriately handled and furnished to the Commission.

Inasmuch as no member of the Commission staff re-contacted the Bureau to review the film the Bureau, by letter 5/7/64 to the Commission advised of the availability of this film for review whenever desired.

On 5/15/64, a member of the Commission staff reviewed the film in the Bureau's photographic unit. Since that time no request has been received from the Commission to have photographic enlargements made.

Dear Mr. Rankin:

Reference is made to the request of the Commission for this Bureau to review the book, "Who Killed Kennedy?," by Thomas G. Buchanan.

Attached are two copies of a memorandum dated June 3, 1964, at Washington, D. C., containing certain claims made by Buchanan on the assassination of President Kennedy that are not substantiated by the results of our inquiry. For your information, Buchanan presents no factual material which would contradict the results of our inquiry in the assassination matter or which would substantiate Buchanan's speculation that a conspiracy was involved in the assassination of President Kennedy.

Also, enclosed is a copy of the French version of Buchanan's book entitled "The Assassins of Kennedy." Copies of the English and French versions indicate that they contain the same allegations although the wordage varies in length. It is noted that the French version contains several photographs attributed to the French newspaper "L'Express," which carried the Buchanan articles previously furnished to you.

Background information concerning Buchanan from the files of this Bureau was furnished you by my letter dated March 17, 1964.

"WHO KILLED KENNEDY?"
By Thomas G. Buchanan

CLAIMS AND RESULTS OF INVESTIGATION

1. CLAIM: The railway overpass toward which the President's motorcade was heading when the assassination shots were fired was left unguarded on November 22, 1963, "contrary to the most elementary security provisions." Page 81.

INVESTIGATION: Our inquiry shows that the railway overpass was guarded by a patrolman of the Dallas Police Department on November 22, 1963, at the time the President's motorcade approached that point. In addition, there were several individuals who were on the overpass at the time the President was killed. None of the above individuals has furnished any evidence that an assassin fired at the President from the overpass.

2. CLAIM: The doctors who attended President Kennedy at Parkland Memorial Hospital, Dallas, reportedly told reporters that the first shot struck the President in the throat from the front and that the second shot struck the right side of his head, apparently coming from behind the President's car. According to Buchanan, several weeks after the assassination doctors at Parkland Memorial Hospital, following a visit by Secret Service Agents showing them a document described as the autopsy report at Bethesda Naval Hospital, retracted their original statement concerning the nature of the threat wound. These doctors also stated that a new wound discovered at the autopsy had not been noticed in Dallas inasmuch as President Kennedy was lying on his back during efforts made to sustain his life and a back wound consequently would have been hidden from them. Pages 82-86.

INVESTIGATION: Doctors at Parkland Memorial Hospital did not retract previous statements made by them but did state that their efforts had been directed at keeping the President alive and not at performing an autopsy. The autopsy report prepared at

JMS:hrt (11) PREPARED FOR DISSEMINATION TO PRESIDENT'S COMMISSION BY LETTER 6-3-64.

62-109090

ENCLOSURE

ENCLOSURE

MAIL ROOM ☐ TELETYPE UNIT ☐

the Bethesda Naval Hospital concludes that the throat wound was an exit-type wound and that all the bullets striking President Kennedy were fired from a point behind him.

3. CLAIM: Oswald was one of the worst shots in the Marines or for that matter in any other military service. Page 31.

INVESTIGATION: Buchanan himself has stated that Oswald was in the "sharpshooter" class in his shooting in the Marine Corps. In addition, Buchanan has admitted that the "sharpshooter" class is an intermediate class between "expert" on the top and "marksman" on the bottom.

4. CLAIM: The FBI denied reports that Oswald had been seen repeatedly driving a car into a Dallas rifle range for target practice. Page 91.

INVESTIGATION: The FBI has made no such public denial. However, our investigation has shown that Oswald was lacking in ability to drive a car.

5. CLAIM: The FBI in an off-the-record briefing denied that palmprints were found on the rifle associated with the assassination of President Kennedy. Page 93.

INVESTIGATION: The FBI made no such denial. As a matter of fact, the FBI Identification Division identified a latent impression taken by the Dallas Police Department from the barrel of the rifle as the right palmprint of Oswald. It is noted that Mark Lane, in the "National Guardian" of December 19, 1963, alleged that the FBI in off-the-record briefings had announced that "no palm prints were found on the rifle."

6. CLAIM: The paraffin test made of Oswald's hands and right cheek following his arrest by the Dallas Police Department showed a residue of gunpowder on his hands but none on his cheek. Therefore, according to Buchanan, the test proves that Oswald could not have fired a rifle inasmuch as the rifle would have deposited residue of gunpowder on his right cheek. Pages 93-96.

INVESTIGATION: The paraffin test has been found by the FBI Laboratory to be extremely unreliable and inconclusive as to whether or not a person has fired a weapon.

IRST

7. CLAIM: A photographer filmed the sixth-floor window of the Texas School Book Depository building at 12:30 the day of the assassination. This photograph shows two silhouettes in the stockroom and a clock on top of the building indicating the time as 12:30. Pages 96-97.

INVESTIGATION: Such a photograph is not known to the FBI. However, the FBI has a copy of a photographic print made from a movie film reportedly taken at the assassination scene. In the print an object appears in the window from which the assassination shots were fired. This photograph has been examined by the FBI Laboratory and the U.S. Navy Photographic Interpretation Center, Suitland, Maryland, and the conclusion was reached that the image seen in the window does not depict the form of a person or persons and is probably a stack of boxes later determined to have been in the room. No clock on top of the building appears in this photograph.

8. CLAIM: No employee who had access to the lunchroom at the Texas School Book Depository would have eaten his lunch on the sixth floor - "especially not Oswald, since it risked additional incrimination." However, an "outsider," hiding for a period of time prior to the assassination in the room on the sixth floor, would have required food. Pages 96-98.

INVESTIGATION: An employee of the Texas School Book Depository has advised that he ate lunch near the third double window on the southeast corner of the building on the sixth floor, sometime between 11:30 a.m. and 12 noon on November 22, 1963. The employee has stated that he left the remnants of his lunch, including bones of fried chicken, near the window after he had finished eating. He has also stated that he left the sixth floor a few minutes after noon to join two fellow employees who were eating their lunch on the fifth floor of the building. He has stated that he did not see Oswald or anyone else at the windows on the south side of the building during the time he was on the sixth floor for lunch.

9. CLAIM: Oswald would have had to have been "the fastest runner since the great Olympic title holder, Jesse Owens," to have fired the assassination shots, hidden the rifle on the sixth floor, descended to the second floor lunchroom, and obtained a soft drink from a dispensing machine before the building superintendent, Roy S. Truly, and a Dallas policeman confronted Oswald at the second floor lunchroom. Pages 98-100.

kao

"WHO KILLED KENNEDY?"

INVESTIGATION: A survey was conducted by FBI Agents to determine the time taken by various routes and speeds to follow Oswald's actions immediately after the assassination shots. It is noted that the survey was conducted at a fast walk except in areas where an individual would have walked at a normal pace so as not to arouse suspicion. The survey showed that, walking from the window on the sixth floor via stairways, it would have taken Oswald about one minute and forty-five seconds to reach the front door of the Texas School Book Depository. The longest period of time to make the same journey, allowing 30 seconds in the lunchroom and involving the use of a passenger elevator for part of the descent to the second floor, was found to be three minutes and forty-nine seconds. It is noted that Truly has advised that he and the police officer arrived at the lunchroom on the second floor of the building in about two or three minutes after the assassination took place.

10. CLAIM: The assassin who fired at President Kennedy from the railway overpass fled the scene and left the murder weapon on that bridge behind him. Page 107.

INVESTIGATION: Our investigation has failed to develop any indication that a second rifle used in the assassination was found near the railway overpass and that a second assassin was involved in the killing of President Kennedy.

11. CLAIM: The name of the rifle used in the assassination appeared on the rifle. Page 108.

INVESTIGATION: Examination of the rifle used in the assassination does not reveal the name of the manufacturer of the weapon. However, it is noted that there is an inscription thereon that the rifle was made in Italy.

12. CLAIM: The Post Office Box in Dallas to which Oswald had the rifle mailed was kept under both his name and that of "A. Hidell." Page 111.

INVESTIGATION: Our investigation has revealed that Oswald did not indicate on his application that others, including an "A. Hidell," would receive mail through the box in question, which was Post Office Box 2915 in Dallas. This box was obtained by Oswald on October 9, 1962, and relinquished by him on May 14, 1963.

13. CLAIM: A detailed and "remarkably correct description" of Oswald was sent out over the police radio in Dallas at 12:36 p.m., November 22, 1963. Pages 114-116.

INVESTIGATION: The radio logs of the Dallas Police Department and the Dallas County Sheriff's Office show that no description of Oswald or any suspect in the assassination was broadcast at 12:36 p.m., November 22, 1963. Beginning at 12:43 p.m. and 12:49 p.m., respectively, and continuing until Oswald was taken into custody, the Dallas Police Department and the Dallas County Sheriff's Office broadcast descriptions of an unnamed suspect described as a slender white male, 30 years old, five feet ten inches tall, 155 or 165 pounds, who was possibly carrying a rifle. This suspect was reportedly seen running from the Texas School Book Depository after the assassination. A description of Oswald taken from background information and the autopsy report on him indicates he was 24 years old, five feet nine inches tall, weighed an estimated 150 pounds and had brown hair and blue-gray eyes. Although the descriptions broadcast approximated Oswald's height and weight, those descriptions were not accurate as to his age and lacked specific details regarding the colors of his hair and eyes. No broadcasts were made before Oswald's arrest that named Oswald as a suspect or gave a description of him. It is also noted that inquiry has shown that Oswald did not become a suspect until he was reported missing from the book building at approximately 12:50 p.m.

14. CLAIM: Police knew Oswald's boardinghouse address, 1026 North Beckley Street. The sources of his address were the records of the Texas School Book Depository, the "Red Squad" of the Dallas Police Department, and the FBI, which had been given that address by Mrs. Ruth Paine, with whom Oswald's wife was living at the time. Page 119.

INVESTIGATION: The records of the Texas School Book Depository did not show his address as 1026 North Beckley Street, but did contain Mrs. Paine's residence in Irving, Texas, as his address. The Dallas Police Department has denied that it had any record of Oswald prior to the time of the assassination. Also, Mrs. Paine had not advised the FBI of Oswald's boardinghouse address prior to the assassination.

15. CLAIM: Dallas Police Officer J. D. Tippit was not in favor with his superiors in the Dallas Police Department and had gone ten years without a promotion. Page 120.

INVESTIGATION: A copy of the Dallas Police Department file on Police Officer J. D. Tippit furnished by that Department has been reviewed by this Bureau. While the file shows that

HHT

disciplinary action was taken against Tippit on several occasions, it contains no information that he was "out of favor." The file, however, shows that Tippit had received several commendations for his performance of duty both from civilian sources and from the Dallas Police Department. Superiors and associates have advised that he was an average officer who was well liked and was not overly ambitious. Several associates have stated that Tippit had taken promotional examinations but they had no information as to the results. A review of the file fails to disclose any reference to promotional examinations offered or taken by Tippit. While he was not promoted to a grade higher than patrolman, Tippit did receive so-called "service" raises in salary on a periodic basis.

16. CLAIM: Police Officer Tippit, Jack Ruby and Oswald all lived within a few blocks of each other. Page 121.

INVESTIGATION: A survey by the Dallas Office of this Bureau has indicated that by the most direct routes available, Tippit's residence was seven miles from Ruby's residence and from Oswald's boardinghouse and that the distance between Ruby's residence and Oswald's boardinghouse was one and three-tenths miles.

17. CLAIM: Jack Ruby and Dallas Police Officer Tippit were described by Ruby's sister, Mrs. Eva Grant, to reporters as "like two brothers." Page 121.

INVESTIGATION: Mrs. Grant has stated that at no time before or after the assassination has she made such a statement to any reporter or group of reporters. She has also advised that she would not make such a statement under any circumstances, since it would be completely untrue and without foundation.

18. CLAIM: There are standing orders for police in Dallas as in other cities that radio cars of the type Tippit was driving must have two policemen in them. Page 121.

INVESTIGATION: It is true that Tippit was alone in his police car; however, it has been determined from officials of the Dallas Police Department that their policy requires about 80 percent of the patrolmen working the day shift, 7 a.m. to 3 p.m., as Tippit was on the day of the assassination, to work alone and that Tippit was one of the patrolmen assigned to work alone on that day.

HKT

19. CLAIM: Tippit was violating another order not to drive out of the sector of the city to which he had been assigned. Tippit was meant to be in downtown Dallas at the time he intercepted Oswald, shortly after Oswald had left his boardinghouse at 1026 North Beckley Street. Page 122.

INVESTIGATION: A review of Tippit's file in the Dallas Police Department and the radio log of that Department does not show that Tippit should have been in downtown Dallas at the time he confronted Oswald. The radio log shows that at 12:54 p.m. he advised the police radio dispatcher he was in the Oak Cliff area and that he was told to remain available for any emergency coming in. The Dallas Police file on Tippit shows that Tippit was moved from his regular area to cover an area closer to the assassination scene.

20. CLAIM: There are witnesses - "anonymous, it seems" - who saw Oswald run into a vacant lot, eject the spent shells from his revolver after shooting, and reload that revolver. Page 126.

INVESTIGATION: Our inquiry has developed witnesses and these witnesses, not anonymous as claimed by Buchanan, have advised that they saw Oswald apparently trying to unload his revolver near the location where Tippit was shot.

21. CLAIM: Oswald was arrested in the Texas Theater at 1:36 p.m. on November 22, 1963. Page 126.

INVESTIGATION: The radio log of the Dallas Police Department shows that Oswald was reported in the Texas Theater at 1:45 p.m., by a squad car. The same radio log shows that shortly after 1:51 p.m., the radio dispatcher received a report of the arrest of Oswald. The radio log of the Dallas County Sheriff's Office shows that at 1:53 p.m., the report was given that Oswald had been taken into custody.

22. CLAIM: The Dallas Police officers who arrested Oswald "beat him up" after they had disarmed him. Page 126.

INVESTIGATION: A Special Agent of this Bureau on the scene at the time of the arrest of Oswald has advised that Oswald was not mistreated and that no force was used to subdue him other than that necessary to overcome his armed resistance.

HRT

23. CLAIM: Oswald was first questioned "exclusively about the Tippit murder." Police, as long as they were able to maintain the prisoner in isolation, permitted him to think that he was just a suspect in that murder. Page 127.

INVESTIGATION: Special Agents of this Bureau were present during the early hours of questioning of Oswald at Dallas Police Headquarters, at which time Oswald vigorously denied having shot President Kennedy and Tippit.

24. CLAIM: Oswald insisted on his right to see a lawyer, making this demand before reporters, yet for two days of "persistent questioning" this right was "relentlessly denied him." Page 127.

INVESTIGATION: Oswald was advised following his arrest of his right to counsel by both a Dallas police officer and by FBI Agents present during the early interrogation of Oswald. Oswald, when arraigned at about 7 p.m., November 22, 1963, was advised by Justice of the Peace David Johnston of his right to an attorney's services. Late that night representatives of the Dallas Civil Liberties Union went to the Dallas Police Department and later departed satisfied that Oswald had been advised of this right. There is no indication Oswald made any attempt to contact an attorney on November 22, 1963. Again on November 23, 1963, Oswald was advised by a Dallas police official of his right to have an attorney. At that time Oswald indicated he wished to call attorney John J. Abt of New York City. He was taken from his cell on three separate occasions on that date to place collect calls via public telephones in the Dallas Police Headquarters, but on each occasion he was unable to make contact with Abt in New York City. Abt is an attorney who has represented the Communist Party, USA, in its litigation on several occasions with the Government of the U. S.

25. CLAIM: The Texas School Book Depository is owned and operated by the city government of Dallas and, therefore, Oswald was a municipal employee. Pages 131, 143, 151 and 155.

INVESTIGATION: The Texas School Book Depository is not a government agency of any municipality, county, state or Federal jurisdiction. It is a private concern which receives and distributes books to its various customers, including educational institutions. Therefore, Oswald, in his employment at the Texas School Book Depository, was not a municipal employee.

HRT

26. CLAIM: Among the papers found on Oswald by the Dallas Police Department was the name of Joseph Hosty of the Dallas Office of the FBI. In addition, information on papers found on Oswald recorded Hosty's home telephone number, office telephone number and car license number. This information appeared in the "Houston Post" and the source was reported to be Assistant District Attorney William Alexander. Page 149.

INVESTIGATION: The Hosty referred to by Buchanan is undoubtedly Special Agent James P. Hosty, Jr., of our Dallas Office. Oswald's address directory, which was found by the Dallas Police Department in Oswald's boardinghouse room, did not contain Special Agent Hosty's home telephone number. The directory did contain, however, his correct name, the telephone number and street address of the Dallas FBI Office, and the entry "MU 8605" or "MU 8605." Special Agent Hosty gave his name and the Dallas Office telephone number and street address to Mrs. Ruth Paine in contacting her on November 1, 1963, regarding Oswald's residence. Mrs. Paine has stated that she gave that data to Oswald. Marina Oswald has stated that she recorded Special Agent Hosty's license number on an occasion when he was at the Paine residence and gave it to Oswald. The 1962 license number of the automobile assigned to Special Agent Hosty on November 1, 1963, was MU 8605.

27. CLAIM: The "Philadelphia Inquirer" of December 8, 1963, contained an article stating that Hosty had seen Oswald shortly after he had left New Orleans in September, 1963. Page 149.

INVESTIGATION: Special Agent Hosty has furnished an affidavit stating that at no time prior to the assassination of President Kennedy had he ever seen or talked to Oswald. In addition, Hosty stated that he had never made any attempt to develop him as an informant or source of information.

28. CLAIM: Oswald was a double agent. Page 149.

INVESTIGATION: The Director of the FBI, John Edgar Hoover, has furnished the Commission with an affidavit categorically denying that Oswald was ever an informant of the FBI, was ever assigned a symbol number in that capacity, and was ever paid any amount of money by the FBI in any regard. It is noted that the Central Intelligence Agency has denied that Oswald was ever associated with it in any capacity.

29. CLAIM: The Walter-McCarran Act specifically calls for anyone who has attempted to renounce his U.S. citizenship to file an affidavit stating why he believes he should receive a U.S. passport. Page 151.

INVESTIGATION: The Internal Security Act of 1950 (Walter-McCarran Act) contains no reference to an affidavit required by a U.S. citizen who has attempted to expatriate himself.

30. CLAIM: It appears that the FBI knew Oswald possessed the alleged assassination rifle prior to the assassination of President Kennedy because it would seem unlikely that within one day the FBI could trace the rifle as coming from a mail order house in Chicago. Page 153.

INVESTIGATION: The FBI had no knowledge that Oswald possessed the assassination rifle prior to the assassination of President Kennedy. The tracing of the rifle purchased by Oswald under an assumed name from the mail order house in Chicago was completed by the FBI on November 23, 1963, regardless of Buchanan's claim.

31. CLAIM: Oswald's rifle was not taken away from him even though on April 10, 1963, there was good reason to suspect he had already used it to attempt to kill General Edwin A. Walker. Page 153.

INVESTIGATION: The FBI did not investigate the attempted assassination of General Walker on April 10, 1963, and had no reason to regard Oswald as a suspect in that attempted murder until December 3, 1963, when Marina Oswald furnished information that Oswald had, on the night in question, attempted to kill General Walker. The Dallas Police Department has also indicated that it had no record of Oswald prior to the assassination and had never developed or considered Oswald as a suspect in the attempted shooting of General Walker.

32. CLAIM: It can be inferred from the fact that General Walker's name and telephone number were in Oswald's notebook that Oswald and General Walker were known to each other. Page 154.

INVESTIGATION: Our investigation has developed no indication that Oswald and General Walker were known to each other. General Walker has been publicly quoted as saying he did not know anything about Oswald until Oswald was arrested for the assassination of the President.

Memorandum

TO : Mr. Belmont DATE: May 14, 1964

FROM : A. Rosen

SUBJECT: BOOK ENTITLED "WHO KILLED KENNEDY"

Memorandum dated May 9, 1964, from Mr. Belmont to Mr. Tolson referred to the book "Who Killed Kennedy" by Thomas G. Buchanan. The Commission indicated a copy of the book would be made available to the Bureau for the Bureau's comments.

Today, while at the President's Commission, Mr. Samuel Stern advised Malley that the only copy the Commission had of this book had been taken by the Commission Chairman, Chief Justice Earl Warren, and no other copies were available.

Malley was advised by Director of CIA John McCone and Dick Helms of CIA that CIA was attempting to get a number of copies of this book and would try and have them in the mail from Europe tonight. Mr. Helms stated upon receipt a copy of the book would be immediately made available to the Bureau.

Re: Norman Redlich and the Warren Commission

Dear Mr. Hoover:

On page 83 of the paperback edition of your excellent book, Masters of Deceit, you identify the Emergency Civil Liberties Committee as a Communist front. It has also been so identified by the Senate Internal Security Sub-Committee and HUAC.

Consequently, it was somewhat startling to pick up the New York Times for April 13, 1964 and find a money raising ad published by ECLC in which Norman Redlich, a staff member of the Warren Commission investigating President Kennedy's death, is listed as a member of the Committee's National Council. A little checking reveals that Mr. Redlich has served on the National Council of this notorious front for some years now.

I understand the Warren Commission and its staff have been made privy to some of the most secret information available to the FBI and other intelligence and security organizations of the government. Some of this information is so secret that, in the words of the Chief Justice, it may not be made known during our lifetime.

I understand that Mr. Redlich made his membership in ECLC known at the time of his employment, but he was taken on anyway. In checking, I find that Senator Russell and some of the other responsible members of the Warren Commission were unaware that Mr. Redlich had been hired and had not been advised of his disqualifying background. In fact, Senator Russell advises he first learned about Redlich from a private citizen in California.

EX-RUC.

I have been advised, by a source which I consider reasonably reliable, that Mr. Redlich and at least some of the other members of the Warren Commission staff were originally hired without so much as an agency check, much less a full FBI field investigation.

I had always assumed the FBI did everything it could (I am aware of your statutory limitations), to protect its sources and the information available to it. I cannot understand why someone in the FBI did not make a confidential report to Senator Russell, Senator Lausche, Gerald Ford, or Allen Dulles about Redlich and the unbelievably slipshod security procedures being followed by the Commission, which, to say the least, compromise secret information available to the Government.

The fact that Redlich was not a member of the Communist Party is beside the point. He has been an open, unabashed and admitted member for many years of one of the most notorious and best known Communist front organizations. Can you tell me one good reason why this should not disqualify him per se? At the very least it indicates a mental attitude which should make him a first class security risk.

On two occasions in the past, I have furnished the FBI with confidential information which came to my attention. It would have proven embarrassing as well as damaging if my reports had ever gotten back to the source or had become known to Soviet intelligence. I can understand that, despite the most stringent security checks, there will be an occasional Judith Coplon, but I am not able to understand the hiring of a Norman Redlich and the failure of the FBI, even off the record, to advise Senator Russell and others. In my humble opinion, Sir, the hiring of Norman Redlich is nothing less than a security outrage, and the more I learn about this case, the more disappointed I am in our security organizations as well as those who interpret their reports.

Even though the Warren Commission did not request an FBI investigation of Redlich until sometime after his employment, I believe the FBI has an affirmative duty to protect its secrets.

Am I to understand that any future report I make to the FBI may possibly be passed on, upon request, to another Government agency group or committee with the likes of Norman Redlich on its staff? If so, I will have to review my future position in terms of advising your agency of security information which comes to my attention.

Cordially,

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY

President's Commission Re

Pursuant to a request of Mr. Arlen Specter, Commission Staff Attorney, a conference was held in his office on 5-28-64 at which time Mr. Norman Redlich and Specter discussed the order and method of presenting to the Commission technical testimony relating to the Assassination Site. Present from the FBI were Messrs. Malley, Shaneyfelt, Frazier, and Gauthier and from the Secret Service Inspector Thomas Kelly. Mr. Specter outlined the following order of testimony which he will develop for the record through hypothetical questions asked jointly of the following scheduled witnesses:

1. Inspector Thomas Kelly, Secret Service, will testify to:

   (a) Details of cars used in motorcade on 11-22-63;
   (b) Physical measurements of President and Governor;
   (c) Plans of 6th floor of Texas School Book Depository made by Dallas Police on 11-22-64 in presence of Secret Service;
   (d) Background of the Zapruder film, how obtained and disposition.

2. SA L. L. Shaneyfelt, FBI Laboratory, will testify to:

   (a) Background of the Zapruder, Nix and Muchmore films;
   (b) Camera examination (Zapruder, Nix and Muchmore);
   (c) Origin of the 35 mm color slides of each frame from the Zapruder film, describing the frame numbering system used;
   (d) Background of the Associated Press still photograph of Presidential car at time shots were fired;
   (e) Description of the procedures followed in Dallas on 5-24-64 while photographing certain points along the motorcade route in front of the Texas School Book Depository of interest to the President's Commission, such as:

fixing points in vicinity of tree where clear shots could be fired; fixes near the Stemmons Road Sign where shots were fired; photographing these fixes (movies and stills) with Zapruder's camera from Zapruder's position, and pictures (movies and stills) of motorcade car moving along road as viewed from the 6th floor, etc.;

(f) Conferences held by Commission when films were visually examined and re-enactments made on scale model and names of those present.

3. SA Robert Frazier, FBI Laboratory will testify to:

(a) Simulation of the rifle position inside 6th floor window, alignment of cartons (based on Dallas Police photographs and diagram
(b) Line of sight from 6th floor window and angles of wounds through bodies as furnished by medical authorities, holes through coat, etc.

4. Inspector Leo J. Gauthier, Administrative Division, will testify to:

(a) Type of visual aids made available to the Commission, namely, scale models of Assassination Site and Police Department garage where Oswald was killed, charts of whereabouts of Oswald after assassination, aerial photos of Assassination Site and surrounding areas.
(b) Background concerning preparation of manikin, physical makeup, etc.
(c) Visual aids brochures prepared of the Texas School Book Depository, Bus and Taxi, Officer Tippit killing and the Frazier-Paine homes;
(d) Arrangements made with Mr. Robert West, County Surveyor, Dallas, Texas, to survey certain fixed points on the road and to record on a survey map various points, line of sight, distances between assassination window and these points indicating the angles of these sight lines to the horizon.

5. Commission Staff members will not be in a position to testify; however, they have theories concerning the shooting sequence. Mr. Spector indicated that hypothetical questions will be advanced by him to support all of the testimony given the Commission by Governor and Mrs. Connally, doctors, ballistic experts, Secret Service and FBI. This includes confidential information given to the Commission under oath all of which is not necessarily known to those who are scheduled to testify on 6-4-64.

Memo, Gauthier to Callahan
Re: Assassination of President Kennedy

At the time of the conference in Mr. Specter's office, the date of Friday, 6-5-64 was tentatively set for hearing testimony. On 5-29-64 Mr. Specter called me at home stating that Chief Justice Warren had advised Mr. Rankin that this testimony should be moved up to 10:00 A. M. Thursday, 6-4-64 in order for him to be present.

SAC Shanklin was able to have the Surveyor's work completed two days earlier and at 10:00 P. M. 5-31-64 I obtained a tracing of the survey plat map from Captain Houton, AAL, at Friendship Airport inbound from Dallas.

The work of putting together the FBI's part of this assignment is being closely developed by all responsible Divisions. Mr. Specter wishes to be in a position to review this material before 6-4-64 if possible. He will be given the opportunity to discuss this matter with us as soon as the FBI's work has been completed.

SYNOPSIS:

Captioned book has been obtained and reviewed in accordance with the Director's instructions. Buchanan, born 1919, Baltimore, Maryland, active in communist causes in this country 1948-56 and has admitted past Communist Party (CP) membership to Bureau Agents. He is carried on Reserve Index. Buchanan's articles in French newspaper "L'Express," earlier this year cast doubt on Lee Harvey Oswald's guilt; claimed Oswald was FBI informant and/or Central Intelligence Agency (CIA) agent; and set forth theory about conspiracy to kill President Kennedy. Commission has been furnished copies of articles and translations thereof. Preface of book claims the text was filed with Commission in March, 1964; states he discussed his views with a Commission representative after an interview with Deputy Attorney General Katzenbach, that interview having been arranged by Senator Edward Kennedy. Buchanan's thesis is that Oswald was merely a minor member of conspiracy to kill President Kennedy because he was negotiating with communists and this displeased wealthy and influential Texas oilmen. Buchanan alleges a Texas millionaire "Mr. X," authored assassination plot. Buchanan thesis on method of assassination and conspirators involved admittedly based on speculation. According to Buchanan assassin 1 fired a shot from railway overpass in front of President's motorcade; assassin 2 fired three shots from Texas School Book Depository (TSBD); Oswald, as accomplice 3, aided assassin 2; accomplice 4 let Oswald leave building; accomplice 5 ordered Oswald's arrest prior to time he was discovered missing from TSBD; accomplice 6 followed Oswald and signaled accomplice 7 (Dallas police officer J. D. Tippit) who was to kill Oswald although it was Oswald who killed Tippit. Jack Ruby, according to Buchanan, was used by conspiracy to silence Oswald. Buchanan sets forth so-called "official" version and doubts single assassin Oswald fired all shots. Refutation of his doubts set forth. Buchanan alleges the assassination plot was not a communist plot since communists would not have benefited from President Kennedy's death. Buchanan claims that Oswald was associated with FBI and probably CIA. He also claims that municipal and Federal police investigators are conspiring to hide evidence in the assassination and

to persuade important witnesses to change or to withhold their testimony because the "truth" would tend to discredit the Government of the U.S. Buchanan devotes 40 of 192 pages to historical discussion on the assassinations of President Lincoln - 1865; President Garfield - 1881; and President McKinley - 1901. Buchanan's book does not present any facts which would cause us to change our conclusion that Oswald acted alone as the assassin of President Kennedy. Set forth as an enclosure to the attached letter to the President's Commission is a listing of some claims made by Buchanan on the assassination matter in his book as well as our refutations of those claims. The attached letter also encloses for the Commission a copy of the French version of book entitled "The Assassins of Kennedy," which has been reviewed at the Bureau and found to make the same claims in a somewhat abridged form.

RECOMMENDATION:

That the attached letter be sent to the President's Commission.

DETAILS:

Re memorandum Mr. Rosen to Mr. Belmont 5-14-64 captioned "Book Entitled 'Who Killed Kennedy?'" which indicated the President's Commission has asked the Bureau to review the book for our comments. The Director noted: "I want it thoroughly reviewed. H."

The book has been obtained and reviewed in accordance with the Director's instructions. As requested during the testimony of the Director and Assistant to the Director Belmont, the Commission is being advised by attached letter of allegations of Buchanan in the book which can be refuted by facts as well as our conclusion that Buchanan presents no facts on the assassination which contradict our findings in the assassination matter.

AUTHOR:

The author of the book is Thomas Gittings Buchanan, Jr., who was born 3-14-19, Baltimore, Maryland. He attended Yale University, New Haven, Connecticut, for one year 1936-37 and The George Washington University, Washington, D. C., for one year 1939-40. Buchanan was inducted into the U.S. Army in 1942 and released from active duty in 1946 with the rank of captain. Our investigation of Buchanan disclosed extensive Communist Party history. He joined the CP in 1948 while working for the "Washington Evening Star" as a reporter and was discharged in 1948 by that paper after admission of CP membership to an official of the paper. He was extremely active in communist causes

from 1948 to 1956 and on interview by Bureau Agents in 1952 and 1953 admitted CP membership. During an interview in 1957 he claimed to have left the CP in 1956. He was on the Security Index from 1949 to 1961. He is now carried on the Reserve Index in view of his connection with the field of journalism. According to the jacket on his book, Buchanan now lives in Paris and is involved with a firm planning the maintenance of the City of Paris accounting records by means of electronic computers.

Buchanan was the author of several articles in the French newspaper "L'Express" in February, March, and April, 1964, which cast doubt on Oswald's guilt in the assassination, claimed Oswald was an FBI informant and/or CIA agent, and set forth his theory about a conspiracy of wealthy men in Texas to kill President Kennedy because he was negotiating with Premier Khrushchev and reducing "cold war" tensions. Copies of the articles and translations thereof have been furnished the President's Commission.

PREFACE OF BOOK:

According to the Preface, the "entire text of the report you are about to read" was filed in Washington in March, 1964, with the President's Commission at the request of a "staff member of that commission." Curiously enough, Buchanan states that he is dedicating the book to the "group of men who are conducting the investigation of the President's Commission," who have an "immensely difficult assignment" which cannot be carried out unless each citizen with knowledge comes forward to disclose it. He also states that extracts of the report first appeared in "L'Express" in Paris. Buchanan claims that he discussed his views on the assassination with a Commission representative after an interview with Deputy Attorney General Nicholas DeB. Katzenbach, that interview having been arranged by Senator Edward Kennedy of Massachusetts. We were aware of and have previously reported on Buchanan's contacts with Katzenbach and the Commission.

THESIS OF BOOK:

Buchanan's thesis is that Lee Harvey Oswald was merely a minor member of a conspiracy to assassinate President Kennedy. The plot was organized because President Kennedy's progress in negotiating with the communists, such as the 1963 Moscow agreement to ban nuclear weapons testing, displeased wealthy and influential Texas oilmen. Buchanan claimed that such wealthy men did not want to see an end to the "cold war" because disarmament would injure their investments in the oil and defense-type industries.

Another reason they had for wanting to eliminate President Kennedy was for fear he would reduce the 27½ per cent oil depletion allowance which benefited them so greatly.

Buchanan states that the wealthy oilmen felt that while President Kennedy's successor, President Johnson, might hold nearly the same views on civil rights and foreign policy matters as President Kennedy, President Johnson had been chosen by them to succeed the late Speaker Sam Rayburn to defend their interests in Washington. Buchanan states that it would be fantastic if President Johnson was in any way involved in the plot to kill President Kennedy. He further states that no such implication is intended.

Buchanan alleges that a Texas millionaire identified only as "Mr. X" was the author of the plot to kill President Kennedy. "Mr. X" supposedly had three enemies: 1. The Italian oil magnate Enrico Mattei whose extensive business holdings and undercutting of American oil prices upset "Mr. X"; 2. President Kennedy; and 3. Soviet Premier Khrushchev. All of these men, according to Buchanan, stood between "Mr. X" and world domination. Buchanan implies that "Mr. X" could have been behind the airplane crash in October, 1962, in which Mattei was killed in Italy. He states that "Mr. X," by having President Kennedy assassinated, would not only get "rid of" him, but would also discredit Khrushchev by having everything point to the fact that Oswald was a communist who had been trained in Russia. To prevent Oswald from revealing anything about the authors and plans of the conspiracy, he was, according to Buchanan, to be killed before capture. Since this was not done, then it was necessary for the conspirators to arrange for him to be killed before being brought to trial.

BUCHANAN VERSION:

Buchanan sets forth his version of the way the assassination was carried out by seven individuals working for "Mr. X." In introducing his version, Buchanan admits that he is dealing with the realm of speculation and that all the elements of his hypothesis, some of which may be incorrect in detail, are based on probabilities. This approach by Buchanan shows the weakness already attributed to him by responsible reviewers of his writings about the assassination of President Kennedy. Buchanan, as well as others who oppose Oswald's guilt as the sole assassin, admittedly are basing their case on: 1. reports in the press which during the early days after the assassination were confused and contradictory; 2. false and vicious rumors and hoaxes which have been fostered by irresponsible public officials as well as by individuals; 3. motives which could be monetary; and 4. views which represent their economic, political, and social thinking. It would be surprising, indeed, if Buchanan with his communist background did not disclaim Oswald as a real communist and claim that he was instead a double agent working or to be working in the future against communist causes. In addition, commentators such as Buchanan are hurrying into print before the report of the President's Commission is

published to capitalize on interest in the matter. Facts already known to us on the assassination, if published, would refute many of the claims being made now concerning the assassination.

SEVEN CONSPIRATORS:

According to Buchanan, there were 2 assassins. Assassin 1 fired one shot from the railway overpass in front of the President's motorcade and fled, leaving his murder weapon on that bridge. Assassin 2, who had been hidden in the TSBD between closing time the night before and opening on the morning of the assassination, fired 3 shots with a weapon brought to him by Oswald or some other person working in the building. His 3 shots had three purposes: to accomplish the assassination of the President if Assassin 1 could not carry out his mission; to act as a diversion to permit the escape of Assassin 1; and to show some shots came from the building where Oswald had been working so that he could be caught as the scapegoat in the plot. Assassin 2 probably escaped the TSBD dressed as a policeman.

Oswald, according to Buchanan, was Accomplice 3. He purchased the rifle for the plot, guided Assassin 2 into the TSBD and the stockroom, brought him the rifle, and immediately after the assassination, was found on the second floor of the TSBD. Thereafter, Oswald was permitted to leave the building in violation of police orders.

Accomplice 4 gave the order to let Oswald leave the building. He is reportedly a police officer.

Accomplice 5 is a police official who gave the order to arrest Oswald prior to the time he was discovered missing from the TSBD. He had fore knowledge of Oswald's part in the plot.

Accomplice 6 was probably a detective not dressed in official uniform. He followed Oswald after leaving the TSBD and when Oswald left his boarding house Accomplice 6 gave the signal to Accomplice 7 who was waiting in a police car around the corner.

Accomplice 7 is identified by Buchanan as Dallas Police Officer J. D. Tippit who, best evidence shows, was killed by Oswald. According to Buchanan, Accomplice 7 was to kill Oswald so that the latter's knowledge of the conspiracy would be silenced. Accomplice 7 was given the assignment to "make amends for a career in which he had not ever managed to secure the favour of the officers above him." However, Accomplice 7 "bungled" his last assignment. Later, Oswald was captured alive in the Texas Theatre.

According to Buchanan, Jack Ruby, a gangster with whom the Dallas Police were on "intimate terms," must have been involved in "some

way with the man he slew" (Oswald). Buchanan claims that men like Ruby do not kill out of patriotic fervor or to avenge the widow of a "martyred leader," but to prevent someone from confessing and from implicating associates in a crime.

We have developed no facts or documents to substantiate Buchanan's speculative theory of conspiracy and seven conspirators.

BUCHANAN DOUBTS "OFFICIAL" VERSION:

Buchanan states that the "official" theses which he sets forth on the assassination will be those on which the police of Dallas and the FBI appear to be in general agreement. He also states that his analysis of them is not based on mere press speculations but on the official sources. What he fails to mention is that his analysis actually speculates on what has been reported to have been said by the police of Dallas and the FBI.

Buchanan states that the first "official" thesis is that the shots fired at the presidential car came from one direction, a lone assassin in the 6th floor window of the TSBD. He says he doubts this because the doctors at Parkland Memorial Hospital in Dallas first reported the wound in President Kennedy's throat as an entrance wound indicating the bullet came from in front of the motorcade, but were later talked into changing their report on the wound after the autopsy at Bethesda Naval Hospital reported the wound in the throat was an exit-type wound. Doctors at Parkland Hospital have stated that their main purpose was to sustain life and not to closely examine the sources of wounds and the paths of projectiles inside the President's body.

Buchanan states some witnesses reacted as if the shots had come from in front of the motorcade. In our inquiries there were several who said this, but numerous others have said they believe the shots came from behind the President.

Buchanan also, in his effort to show the shots came from in front of the President, states that an assassin could have been on the railway overpass in front of the motorcade since the overpass was unguarded on that day. Buchanan either is lying deliberately or does not know the facts: there was a police guard on the railway overpass and he, along with several civilian witnesses also on that bridge, denied seeing anything to indicate an assassin fired a weapon from the bridge.

Buchanan states that no mention was made of a wound in President Kennedy's back by doctors at Parkland Hospital although the autopsy at Bethesda Naval Hospital claims that there was such a wound.

He states it hard to believe that doctors at Parkland failed to discover the wound in spite of the statement by those doctors that the reason they did not notice it was because President Kennedy was lying on his back during their life-saving efforts. He implies that the wound was invented to prove all the shots came from behind.

Buchanan claims that the second "official" thesis is that the marksman who fired all the shots was Oswald. He claims that an investigator for the President's Commission informed him that if more than three shots are conclusively established, it may be assumed that there were two assassins. This is so because the investigator stated that no man could have fired four shots in the 5 to 6 seconds. He claims that a news story shortly after the assassination claimed a small round bullet hole in the windshield of the President's car. What Buchanan fails to state is that the newsman later said the glass splintering could have been caused by a ricochet from inside the car. Laboratory examination of the windshield showed that it was cracked by a projectile from behind.

Buchanan claims that Oswald's Marine Corps record for marksmanship shows that he was one of the worst shots in the Marines or in any other military service and could not have been the successful assassin based on his past record. This seems hard to accept since Oswald was rated in the "sharpshooter" class which even Buchanan admits is the intermediate class between the top class, "expert," and the bottom class, "marksman."

Buchanan states that the third "official" thesis is that police have proved by scientific evidence that Oswald fired the murder weapon. He states that the FBI has denied that palm prints were found on the rifle used in the assassination. No such statement has been made by a representative of this Bureau. The truth is that a latent print lifted from the rifle barrel was identified by the Identification Division as the right palm print of Oswald.

Buchanan claims that the paraffin test made on Oswald's hands and cheek by the Dallas PD after arrest revealed that he had powder residues on his hands but none on his cheek. This means, Buchanan claims, that Oswald may have fired the pistol said to have been used in the killing of Police Officer Tippit, but that the absence of powder on his cheek shows he did not fire the assassination rifle since there would have been gunpowder residues on his right cheek. Buchanan does not tell all about the paraffin test. It is regarded as unreliable and inconclusive. Evidence by Bureau experts has been given to the Commission already to that effect.

MEMORANDUM FOR MR. SULLIVAN
RE: "WHO KILLED KENNEDY?"

Buchanan states that the fourth "official" thesis is that Oswald remained upstairs in the school book building while fellow-workers went to the street to see the President, and that after they had left, he went into the stockroom and remained alone there. He claims there are no witnesses to confirm this. In fact, he says, a photographer filmed the 6th floor window at 12:30. The photograph shows two silhouettes in the stockroom as well as a large clock on the roof of the building which shows the time as 12:30. The Bureau is not aware of such a photograph although we do have a photograph of the 6th floor reportedly taken about the assassination time. It does not show what can be identified as human forms in windows on the 6th floor of the building.

Buchanan claims that the fifth "official" thesis is that after the assassination Oswald hid the rifle, descended to the second floor lunchroom, took out a bottle from the automatic drink dispenser and began to drink it before the TSBD superintendent, Roy S. Truly, and a policeman reached the second floor in checking out the building. Buchanan alleges that Oswald must have been the "fastest runner since the great Olympic title holder, Jesse Owens," to have done all the above before Truly and the policeman arrived on the second floor. Truly has advised that he saw Oswald on the second floor of the building in about two or three minutes after the assassination. A survey was made by Bureau Agents to determine the times taken using various routes and rates of speed to arrive at the first floor from the assassination window on the 6th floor. The longest normal time period was just over three and a half minutes.

NOT A COMMUNIST PLOT ACCORDING TO BUCHANAN:

Buchanan alleges that the assassination of President Kennedy was not a communist plot in spite of Oswald's past defection to the Soviet Union and his pro-Castro activities in the months prior to the assassination. He claims that the Soviet communists could not have gained in their efforts to aid world peace by having President Kennedy killed. Such a move would have hurt peace efforts by the Soviets. He claims that Castro Cuba would not have gained either since a campaign was underway both by Kennedy and Castro to relieve the tensions between Cuba and the U.S. As for the Chinese Communists, Buchanan claims they too would have gained nothing from the assassination since President Kennedy had reportedly said that he did not think the islands of Quemoy and Matsu off the China coast in the hands of Chiang Kai-shek should be defended by American naval forces if attacked by the Chinese Communists. Buchanan also states that "domestic" communists in the U.S. could not have benefited from

President Kennedy's assassination since the drive against American communists under the Truman and Eisenhower Administrations had not been intensified under the Kennedy leadership.

Buchanan alleges falsely that the Director has stated that "there was no basis to believe that U.S. Communists had been involved in Oswald's plot in any way." Stories appearing in the press leaked from our report to the Commission in December, 1963, stated that evidence pointed to Oswald as a lone killer of Kennedy. Our report did not single out any group as not being involved.

OSWALD LINKED TO GOVERNMENT AGENCY:

Buchanan alleges that Oswald was associated with the FBI and probably the CIA. He bases his claims on the fact that the press reported that the name, telephone number, and license number of SA James P. Hosty were in Oswald's notebook and that Oswald received a passport within 24-hours in New Orleans in June, 1963, despite his prior defection to the Soviet Union and his participation in pro-Castro activities. He also looks on the statement of Chief Justice Warren about the necessity to withhold some matters in the inquiry from the public as evidence of an association of Oswald with a Government agency.

BUCHANAN OPINION OF LAW ENFORCEMENT:

According to Buchanan, "every citizen of the United States knows privately" that if you "know" someone at Police Headquarters you can "fix" a parking ticket and that if you know somebody high enough it is "quite literally possible to get away with murder." This negative attitude is undoubtedly responsible for a claim he makes on the final page of his book--page 192--to the effect that municipal and Federal police investigators are engaged in a conspiracy to hide key evidence in the assassination and to persuade important witnesses to change or to withhold their testimony because the "truth" in the assassination case (as alleged by Buchanan) would tend to discredit the Government of the United States.

In a discussion of the extent of organized crime in the United States, Buchanan states that business executives, labor leaders, and politicians have been guilty of employing "gangsters" to accomplish their objectives. He also refers to the Director as stating in 1939 that files on all major criminals sought by the FBI show that these criminals were on "intimate and cordial terms with professional politicians." The statement by the Director closest to the meaning of Buchanan's reference was found in the Director's speech to the International Association of Chiefs of Police in San Francisco on 10-10-39:

> "Since we are frankly considering the problems and difficulties of law enforcement, let us examine another evil wrecker of popular public respect. I refer to the matter of corruption. There have been instances wherein vicious criminals, even professional murders, have been allowed to go free by persons who blemished the name of law enforcement by calling themselves peace officers. It is true that law enforcement has been stifled by crooked politicians."

Curiously enough, after building up the idea of corruption among politicians in this country in the past, Buchanan later claims that today there is "less corruption of the politicians on the highest levels than there used to be" when the Director made the remarks above.

HISTORICAL MATERIAL IN BOOK:

Buchanan devotes 40 out of 192 pages of his book to a discussion of the assassinations of President Lincoln in 1865, President Garfield in 1881, and President McKinley in 1901 and the implication of the assassins in various conspiracies. He uses this approach to claim that the 3 assassinations were the result of conspiracies or beneficial to opponents of the 3 assassinated Presidents and thus history shows that the pattern of conspiracy in the past was, therefore, present in the assassination of President Kennedy in 1963.

INCONSISTENCY OF BUCHANAN BOOK AND ARTICLES:

In Buchanan's article in "L'Express" of 4-9-64, Buchanan set forth his version of the conspiracy to kill President Kennedy and stated that leading the wealthy oilman behind the conspiracy was a "Mr. H." Buchanan, it is noted, openly mentioned in the article that Mr. H. L. Hunt was one of the wealthy men in Dallas, and while he did not specify that Mr. H. L. Hunt was the "Mr. H" behind the conspiracy, Buchanan certainly made that inference. In his book "Who Killed Kennedy?" Buchanan omits any mention of Mr. Hunt by name and has changed the author of the conspiracy from "Mr. H" to "Mr. X." What Buchanan had in mind in making the change is not known. However, it is possible to offer conjecture that he wanted to avoid possible libel suits in connection with the book.

MEMORANDUM FOR MR. SULLIVAN
RE: "WHO KILLED KENNEDY?"

CONCLUSION:

As a result of a thorough review and analysis of Buchanan's book "Who Killed Kennedy?," it has been determined that Buchanan presents no facts which cause us to change our conclusion that Oswald, acting alone, was the assassin of President Kennedy. Set forth as an enclosure to the attached letter to the President's Commission is a listing of some claims made by Buchanan on the assassination matter in his book as well as our refutations of those claims.

FRENCH VERSION OF BOOK:

The French version of "Who Killed Kennedy?" has been reviewed after receipt from the Legal Attache, Paris. It is entitled "The Assassins of Kennedy" and is a somewhat abridged version of the English text. It covers the same claims and items that Buchanan sets forth in the English version although the wording is reduced in certain portions. The French version also includes several photographs of the assassination area in Dallas which are attributed to the French newspaper "L'Express" in which Buchanan's articles appeared earlier. A copy of the French version is also being furnished to the President's Commission by attached letter.

On 5-25-64, Mr. Wesley James Liebeler of the President's Commission called and in the absence of Mr. Malley, who is in Dallas, Texas, the call was taken by Supervisor H. A. Schutz, Jr. Mr. Liebeler indicated that he was interested in two areas of investigation and made reference to the report of SA Belanger at Tampa dated 12-10-63, page four, wherein a tape recording of a T. V. interview with an individual by the name of Penaz had been reviewed and reported. According to information in the report a cartoon had appeared in the newspaper "Revolucion" depicting damage done in Cuba by hurricane Flora. A caricature of the United States was depicted laughing at the damage. Another cartoon showed a coffin containing President Kennedy with Castro standing above laughing. Mr. Liebeler requested that investigation be conducted to actually determine whether such a cartoon did appear in this paper and if so forward a copy to the commission.

Mr. Liebeler made reference to the report of SA Gemberling at Dallas dated 4-15-64, on pages 527 and 540. The information contained therein related to two transcripts of a debate participated in by Oswald in August, 1963. One was transcribed by radio station WDSU, New Orleans, and the second by an individual named Bill Stuckey. Mr. Liebeler indicated that the commission desir... that we obtain copies of these tapes for inclusion in the permanent files of the commission and for comparison with the transcripts. He requested that in obtaining these tapes the Bureau maintain appropriate chain of evidence as to their authenticity.

Enclosed is a copy of a letter from the President's Commission dated 5-20-64 requesting that this Bureau conduct additional investigation in connection with the attempted assassination of Major General Edwin A. Walker.

The requested investigation should be conducted by your office immediately and the results of your inquiries should be furnished to the Bureau in a letterhead memorandum suitable for dissemination to the President's Commission.

Enc.

NOTE: Commission received considerable testimony bearing on attempted assassination of General Walker and has also received DLPD investigation concerning the incident as well as the results of investigation conducted by the FBI and Secret Service concerning such incident. Commission noted that testimony furnished by Marina Oswald to the FBI and Secret Service is at variance and requested we conduct additional investigation to resolve the discrepancies. Commission also desires that we pinpoint, if possible, locality where Oswald allegedly buried rifle after shooting at Walker and also requested we obtain an aerial photograph of the vicinity of General Walker's residence.

Washington, D.C. 20535

Dear Mr. Hoover:

The report of the investigation conducted by the Dallas Police Department of the attempted assassination of Major General Edwin A. Walker, which report was provided to this Commission by the Attorney General of the State of Texas, does not indicate the caliber and other basic characteristics of the bullet which was recovered from General Walker's home. We do note, however, that the report of Officers McElroy and Van Cleve, both of the Dallas Police Department, indicates that the bullet was given to Detective G. B. Brown of the Dallas Police Department, Crime Laboratory Division.

In view of the conflicting stories concerning the nature of the bullet which was actually recovered from General Walker's home, we would appreciate advice as to whether or not that bullet was ever examined by the Dallas Police Department or by any other person or organization on its behalf. We would like to have any reports which may have been made of such an examination, if in fact any such examination was made. We would like to know who had possession of that bullet from the time it was recovered from General Walker's home until it came into the possession of this Commission.

We also note that Mr. Robert Surrey, then of 3506 Lindenwood Street, a business associate of and aide to General Walker, stated that at about 9:00 P.M. on April 6, 1963, he observed two men sitting in a 1963 Ford, either dark purple or brown in color, which was parked in the rear of General Walker's house. Mr. Surrey said the two men got out of the car and walked around General Walker's house, apparently observing it closely. Surrey said he became suspicious and followed the car in an attempt to obtain its license number, which he was not able to do since the car bore no license plates of any kind.

There appears to be some confusion, however, concerning Mr. Surrey's story. The Dallas police file seems to state that Mr. Surrey also saw the same car and the same two men at General Walker's premises on the evening of April 10, 1963 and that report is reflected in the report of your Bureau set forth at page 441 of the report of Special Agent Robert P. Gemberling dated December 10, 1963 at Dallas, Texas. Please advise as to when Mr. Surrey did see such car and men.

In view of the fact that Marina Oswald has stated that Lee Harvey Oswald told her that he had gone to General Walker's home "three days or more" prior to April 10, 1963 (page 733 of Agent Gemberling's report dated December 23, 1963), we think Mr. Surrey should be interviewed to determine whether or not he can describe to any extent either of the two men whom he saw. Assuming that Oswald was involved in the attempt on Walker's life, consideration should be given to the possibility that he may have had accomplices.

The Dallas Police also indicated that Dr. Ruth Jackson, General Walker's next door neighbor, had a dog that supposedly barked at "everybody and everything." The dog apparently did not bark on the evening of April 10, 1963. The Dallas Police report indicated that Dr. Jackson's dog was "very sick" on April 11 and 12, 1963. No reason for the illness

was indicated. We would appreciate advice as to whether or not Dr. Jackson's dog appeared to have been drugged or otherwise incapacitated in connection with the attempt on General Walker's life.

We also note a certain confusion in the stories told by Marina Oswald concerning her husband's involvement in the Walker shooting. She told your agent on December 3, 1963 that Oswald said that on April 10, 1963 he had gone to Walker's residence on foot. Your report then states: "He said that after he fired the rifle, he ran away and that he could run very fast. . . . He came home on the bus." (Pages 71-2 of Agent Gemberling's report of December 10, 1963.)

On December 11, 1963 Marina advised Secret Service agents that Oswald told her that he took buses to go to the Walker residence and that he took a different bus to return home after the shooting. (Secret Service Control No. 632.)

Marina told the Secret Service that three days prior to April 10 he took his rifle out of the house and "buried it in a field near the Walker house." (Ibid.) She told your agents that "Oswald did not say and she did not ask him what he had done with the rifle after the first evening when he went to shoot at Walker but had changed his mind." (Page 734, Gemberling's report of December 23, 1963.)

Marina also said that Oswald told her he had buried the rifle in the ground "far from the actual spot of the shooting." Oswald then mentioned a field and said it was near a railroad track. (Id., at 733). In her testimony before this Commission Marina associated a picture showing a railroad track with the Walker incident. You have not been able to determine that that picture (Commission Exhibit 4; photograph No. 5 of your Item 6) depicts a scene near the Walker residence. (page 313 of Gemberling's report of February 11, 1964.)

We are unable, on the basis of the above reports, to determine exactly what Oswald told his wife concerning his possible involvement in the Walker shooting. Would you please:

1. Conduct such investigation as may be necessary to reconcile and clarify the above statements of Marina Oswald in an attempt to determine just how Oswald travelled to and from Walker's residence and what he did with the rifle in connection with that incident. In that connection consideration should be given to the possibility that Oswald could have had accomplices in his alleged attempt on General Walker's life.

2. Identify, if possible, the scenes depicted in Commission Exhibit 5, photograph No. 5 of your Item 6, as well as photograph No. 2 of your Item 7 (Commission Exhibit 2).

3. Forward to Mr. Wesley J. Liebeler of our staff photograph No. 5 of your Item 1 and photograph No. 1 of your Item 70.

Sent by letter 5/28/64

4. Advise as to the location of railroad tracks located most closely to General Walker's residence and as to the location of any railroad tracks along which may lie fields or other locations in which Oswald may have buried or otherwise hidden his rifle as related by Marina Oswald.

5. Conduct such investigation, particularly observation of the vicinity of Walker's residence and other appropriate locations, as may be necessary to determine the probabilities that Oswald did in fact do any of the things Marina has stated that he did in connection with his travel to and from Walker's residence and his secretion of the rifle.

6. Provide us with an aerial view of the vicinity of General Walker's residence showing, if possible, the location of any railroad tracks and open fields within appropriate distances thereof, and indicating the routes of any bus lines which Oswald may have used to travel to and/or from Walker's residence and/or such fields.

Your continued cooperation is greatly appreciated.

Enclosed is a copy of a letter from the President's Commission dated 5-19-64 which is self-explanatory.

The New Orleans Office should immediately contact the Head of the Passport Office of the Department of State in New Orleans and inform such individual that the FBI has received a request from the President's Commission to take a random sampling of those persons who applied for passports from the New Orleans office between the dates of June 17, 1963, and July 1, 1963, and determine how long in each case it took for the authorization to issue the passport to reach the New Orleans Office. Inform the Passport Office official that the President's Commission is interested in the amount of time between the filing of the application for passport at New Orleans by an applicant and the receipt of the authority to issue the passport by the New Orleans Passport Office from the Washington, D. C., headquarters. You should not, of course, inform the New Orleans passport official that the President's Commission is interested in confirming or rebutting the information previously furnished by the State Department to the effect that a 24 hour period for receiving the authorization to issue a passport was usual.

Thereafter, you should make arrangements with the New Orleans Passport Office official for agents of your office to review the passport files, selected at random, of approximately 10 individuals each day for the period June 17, 1963, to July 1, 1963, who applied for and who were issued U. S. passports.

If the Passport Office uses a time stamp, you should determine the exact time the passport application was stamped in and the exact time the application was stamped approved for issuance of a passport.

You should set out the names of the individuals selected by day and date (for example, Monday, June 17, 1963), showing as accurately as possible the time the passport application was received and the time the authority was received from the Passport Office, Department of State, Washington, D. C., for the issuance of a passport. In the event there are factors that delayed receipt of authority for issuance of a passport from State Department headquarters in Washington, D. C., such as security allegations, criminal allegations, U. S. Government agency "stops" and the like, explain in detail the reasons why issuance of a passport was delayed.

You will note that the Commission is interested in the amount of time between the filing of the application for passport at New Orleans by an applicant and the receipt of the authority to issue the passport by the New Orleans office from Washington, D. C. The President's Commission is not interested in obtaining the date the passport was actually picked up by the individual to whom it was issued.

This matter must be handled immediately and results of your survey should be furnished to the Bureau in letterhead memorandum form suitable for dissemination to the President's Commission.

For your added information, the Bureau is informing the Passport Office, Washington, D. C., of this request from the President's Commission.

NOTE: Oswald was issued a passport by the New Orleans Passport Office 6-25-63. He had made formal application for the passport at the same office one day earlier, 6-24-64. The State Department has told the Commission that approximately 24 hours was the time afforded in routine issuance of a passport after application for such passport received. The Commission has requested this Bureau to conduct the survey described herein to confirm or rebut the accuracy of the State Department information. Inasmuch as this

request may necessitate coordination between passport officials in New Orleans and passport headquarters in Washington, D. C., through liaison we are informing passport officials in Washington, D. C., of the current request of the Commission.

Mr. J. Edgar Hoover
Director, Federal Bureau of Investigation
Department of Justice
Washington, D. C. 20530

Dear Mr. Hoover:

Lee Harvey Oswald was issued Passport No. D002526 on June 25, 1963, by the United States Passport Office in New Orleans, Louisiana. He had made formal application for the passport at the same office on June 24. The Commission has been informed that at the time Oswald obtained this passport, the authority to issue passports, at least from the New Orleans office, was routinely granted by Washington approximately 24 hours after the application for passport was filed in all cases in which the files of the Passport Office in Washington did not contain an indication that the applicant was to receive special treatment.

The Commission would appreciate the Bureau undertaking an investigation to confirm or rebut the accuracy of the aforementioned information to the effect that a 24-hour period for receiving the authorization to issue a passport was usual. To this end, we would like the Bureau to take a random sampling of those persons who applied for passports from the New Orleans office between the dates of June 17, 1963, and July 1, 1963 and determine how long in each case it took for the authorization to issue the passport to reach the New Orleans office. We are interested in the amount of time between the filing of the application for passport at New Orleans by an applicant and the receipt of the authority to issue the passport by the New Orleans office from Washington, D. C.

Sincerely,

J. Lee Rankin

SUBJECT: The Congressional Record

Pages 10608-10611. Congressman Beermann, (R) Nebraska, spoke concerning the employment of Norman Redlich as a consultant by the Warren Commission. He pointed out that Redlich is a national council member of the Emergency Civil Liberties Committee which had been cited by the House Un-American Activities Committee and the Senate Internal Security Subcommittee as a Communist front organization. Mr. Beermann stated "let me submit another citation bearing out the Emergency Civil Liberties Committee's Communist front status. It is a remarkable citation, coming from J. Edgar Hoover in his book 'Masters of Deceit.' Mr. Hoover is scheduled to testify before the Warren Commission this very day. I would commend a reading of his book to the members and staff directors of the Commission, who thus far have chosen to remain silent in the face of public revelations concerning Professor Redlich's hiring." Mr. Beermann included excerpts from the book. Congressman Wyman, (R) New Hampshire, inquired as to whether "the gentleman knows whether the Federal Bureau of Investigation—whether it ever ran a test or a check on this fellow Redlich at anybody's request." Mr. Beermann replied "As of this time, no." Congressman Devine, (R) Ohio, stated "I know very little about the facts

in connection with this man Redlich nor do I know anything about the truth of the charges that have been made. - - - In order to clarify the Record in regard to one of the matters brought up a few moments ago, I think the gentleman from New Hampshire wanted to know whether or not any clearance had been granted to this man by the Department of Justice, which implies the Federal Bureau of Investigation. I am not in a position at this time to speak for or on behalf of the Federal Bureau of Investigation other than to draw on my experience as a former agent many, many years ago. I would say this to the gentleman, however, the Federal Bureau of Investigation has never in the past nor do I believe at any time in the present been in the business of issuing clearances." Mr. Wyman went on to state "I did not suggest that the FBI was in the business of granting clearances. They are an outstanding investigating agency for the Federal Government - - -. My point is—and I addressed my remarks to the question of whether or not a check, an investigation, had been made by the Department of Justice concerning Redlich, and if so, whether or not it had been reported to the chairman of the Commission. Mr. Devine advised that he agreed that an inquiry "should be made to determine whether or not the Department of Justice or the FBI were requested to make an investigation and whether they in turn did report to the Commission." Several Congressmen commended Mr. Beermann for bringing this matter to the attention of the House. (Samuel L. Devine was employed with the Bureau as an Agent from December 2, 1940, to October 10, 1945.)

NOTE: Commission by letter 6-1-64 furnished Bureau telegram dated 5-22-64 forwarded by the Department to the Commission from Akers, wherein he stated "I wish to testify before Warren Commission." Commission requested we interview him for any information concerning the assassination.

Enclosed LHM from Dallas indicates Akers is known to our Dallas Office inasmuch as he made previous unfounded assertions. It appears Akers has difficulty in holding a job because of inefficiency and bad temper. Akers on interview 6-3-64 indicated he was now sorry he sent telegram as he had no information of value to furnish, and stated his primary reason was that he wanted to discuss "security aspects of the United States in general." Akers by his own admission is an alcoholic and member of the Alcoholics Anonymous for the past 19 years.

DATE: May 14, 1964

SUBJECT:

Drew Pearson called me at 4:30 p.m. 5/13/64. Opening the conversation he stated that he had received a tip that one Joe Ball of the Warren Commission had come to the Dallas Office of the FBI and asked for the use of a car so that he could interview people in connection with the assassination of the President case. Pearson stated that the FBI in Dallas delayed for approximately 24 hours and then flatly told Ball he could not have the car. Pearson stated he did not plan to use this, however, he just wanted to tip me off that the Dallas Office was being a little high-handed with the Warren Commission. I told Pearson this was not a matter of being high-handed, that we had the understanding that Secret Service representatives were doing the driving for representatives of the Warren Commission and it was, therefore, needless to require two agencies in this matter.

The Commission by letter 6/1/64 requested that we interview Barney Ross on the basis of a statement made by Ross in his autobiography that he had once worked for Al Capone. Ross was previously interviewed as an acquaintance of Ruby but he did not discuss his association with Al Capone and gave no indication that Ruby was associated with Capone. Upon interview, Ross stated that Capone used to hang around the gym where he trained and he and possibly Ruby had run errands for Capone but that he never actually worked for him. He mentioned Lou Koppel as a person who had known Ruby since he was 5 years old. Chicago has been instructed to locate and interview Koppel.

Ira Colitz was interviewed at Commission's request 6/5/64 and results sent to Commission by letter dated 6/9/64.

Dear Mr. Rankin:

Reference is made to your letter of May 20, 1964, requesting this Bureau to conduct additional investigation regarding Marina Oswald's statement that shortly after April 10, 1963, Lee Harvey Oswald expressed an interest in attacking Mr. Richard Nixon.

Our letter of June 4, 1964, and the enclosures thereto, reported that Mr. Lyndon B. Johnson, then Vice President of the United States, visited Dallas, Texas, on April 23, 1963, for the purpose of delivering the major address at the second Annual National Aeronautics and Space Administration Manned Space Flight Conference. We indicated that we were recontacting Marina Oswald to ascertain if she was possibly confused when she indicated on February 24, 1964, that approximately two weeks after the General Walker incident of April 10, 1963, Lee Harvey Oswald contemplated attacking Mr. Nixon. We also indicated we would question Marina Oswald in detail to determine if there is any possibility Oswald meant to attack Mr. Johnson rather than Mr. Nixon.

Enclosed are two copies of a memorandum dated June 9, 1964, at Dallas, Texas, which sets out results of our contact with Marina Oswald in this matter.

This concludes our investigation in this particular inquiry.

Sincerely yours,

J. Edgar Hoover

Marina Oswald informed us Lee Harvey Oswald admitted to her an attempted assassination of General Walker on the evening of April 10, 1963. Marina also told us on 2/24/64 that approximately two weeks after the Walker incident Oswald indicated he was going to attack Nixon, but she locked him in the bathroom to prevent him following through with such an attempt. Our investigation disclosed Nixon was not in Dallas during the period mentioned by Marina, but Mr. Johnson was in Dallas during the pertinent period. We recontacted Marina to determine if she was confused between Nixon and Johnson and she stated she is positive Oswald said "Nixon." Marina also told us she was very familiar with the name "Nixon" because of Nixon's visit to Russia when he was Vice President of the U. S. She added she had not gained any familiarity with the name of Mr. Johnson until after the assassination of President Kennedy.

TO : Mr. Rosen

DATE: 6/8/64

FROM : J. R. Malley

SUBJECT: ASSASSINATION OF THE PRESIDENT

Mr. Howard Willens, staff member of the President's Commission, telephonically advised the Commission had received a telephone call from Phillip Partridge who stated he was then at the Western Union Office in Akron, Ohio, 191 South Main Street. Partridge told Mr. Willens he had information concerning the President's assassination which he desired to make available and that he was desirous of protection. Mr. Willens advised that based on the call it was impossible to determine the type of individual who was calling but he indicated he was remaining at the Western Union office and would stay there until he was interviewed.

Special Agent Arthur W. Pejeau of the Cleveland Office was telephonically advised of the foregoing and was requested to interview Partridge immediately. Agent Pejeau was told that the Bureau, of course, would not afford this individual any protection and should any such request be received he should be referred to the local authorities. Agent Pejeau was instructed to furnish a teletype summary of the information made available and to prepare appropriate dissemination memoranda for the Bureau and the Dallas Office.

NOTE:

Commission letter 5-20-64, listed some 37 items of evidence which they wanted shown to the individual who first found the particular item and who can identify it by inspection.

Some of the evidence was obtained here in Washington through liaison and other sources. The information contained in the above airtel will be incorporated by Dallas in a letterhead memorandum for dissemination. It was ascertained from Mr. O. H. Bartlett on 6-8-64, that he initially displayed photographs of the two bullet fragments to the individuals concerned; however, it was necessary for him to obtain the actual fragments before positive identification could be made. This matter will be followed closely and when the results are obtained, the Commission will be notified.

Dear Mr. Rankin:

Reference is made to my letter dated June 3, 1964, and prior communications relating to Mrs. Shirley Martin, also known as Mrs. Mark E. Martin, of Hominy, Oklahoma.

Enclosed for your information are two copies of a self-explanatory communication from our Dallas, Texas, Office dated June 4, 1964, concerning a communication received by our Dallas Office bearing the name of Mrs. Mark E. Martin.

This is being furnished in view of your prior interest in Mrs. Martin.

This is the 15th letter to the Commission on Martin. SAC Letter 64-23B dated 4-28-64 alerted the field to her campaign of vilification of the Director and the FBI. Martin has been described as a "bright nut" and since the assassination has been conducting her own investigation.

Re airtel from Dallas enclosed a letterhead memorandum in which Martin suggests authorities come up with another motive in regard to Oswald's "psychiatric history." Martin alleges authorities will use "Oswald's so-called long-standing 'psychiatric history' as the only possible motive for his crime." Once again Martin is off base.

ReBuairtel to Phoenix 5/26/64, and Phoenix airtel to Bureau 6/1/64, relating to an anonymous letter wherein an implied threat to Chief Justice Warren is set out. This letter also contained information concerning an Arizona license, EZY 953.

Phoenix is instructed to promptly interview Arthur G. Imhoff concerning the allegations contained in the anonymous letter and in particular the allegation relating to the assassination of President Kennedy and the implied threat against Chief Justice Warren. The results of interview should be incorporated in an appropriate letterhead memorandum in sufficient quantity for dissemination without a property statement and copies should be furnished to receiving offices.

For your information, Bureau files contain four references to one Arthur Gilbert Imhoff, however, the Bureau is not in possession of sufficient information to identify this individual with the registered owner of the Packard automobile bearing Arizona License EZY 953. The most recent date of the above references is March, 1945, and relates to a Selective Service case wherein the former Bureau Syracuse Office was origin. Another reference indicates in 1940 that Arthur Imhoff, aka. was a member of Jehovah's Witnesses and we conducted an espionage investigation which failed to disclose this individual was involved in espionage activities. San Diego was origin in this case, San Diego File 65-104, Bureau File 65-3742.

Re: ASSASSINATION OF PRESIDENT

Receiving offices are reminded of Bureau instructions to appropriately alert local authorities to the implied threat against the Chief Justice and to be sure to caution these authorities we do not know the significance of the Arizona license number nor the authenticity of the implied threat.

Phoenix is instructed to insure the results of the Laboratory examination of the anonymous letter are appropriately incorporated in the letterhead memorandum prepared.

You must continue to afford this matter expeditious and thorough attention.

NOTE: For full details see Rosen to Belmont memo 5/25/64 in above caption, RDR:las. Briefly, an anonymous letter was received on 5/18/64, indicating the writer had overheard the driver of a Packard automobile bearing the above Arizona license imply that some third parties were responsible for the assassination of President Kennedy and that Chief Justice Warren was the next logical individual to be "elimineated." This information was immediately furnished to the office of Chief Justice Warren and to the President's Commission. A Communication was sent to appropriate offices to check this matter out, to alert local authorities, and to furnish the results of investigation for dissemination to the Commission.

Phoenix, by referenced airtel, indicated the Arizona License EZY 958 is registered to one Arthur G. Inhoff of Tucson, Arizona. No information was furnished by Phoenix which would preclude interviewing him concerning the allegations appearing in the anonymous letter. It is therefore recommended authority be granted to interview Inhoff and when the results are obtained the President's Commission will be advised.

Dear Mr. Rankin:

Reference is made to my letter dated May 26, 1964, wherein at the bottom of page two you were advised that further inquiry was being conducted regarding a message received by Herminio Portell-Vila.

Enclosed are two copies of a memorandum dated May 27, 1964, at Washington, D. C., containing further information about this message which Portell-Vila gave to Mrs. Mariada Arensberg. She, in turn, gave it to a representative of a government agency.

For your information, a representative of the Central Intelligence Agency has advised that the note or message was received by a Central Intelligence Agency officer from Mrs. Arensberg. The reference to "Osvaldo" which appeared in the message was interpreted by the Central Intelligence Agency as pertaining to Osvaldo Dorticos, President of Cuba, rather than to Lee Harvey Oswald. It was concluded by the Central Intelligence Agency that the message contained no information of significance and it was destroyed.

No further inquiries are being made concerning this matter.

Sincerely yours,

J. Edgar Hoover

NOTE: Portell-Vila said that he received the message from an unknown source of his within Cuba. In substance, it was, as understood by Portell-Vila, that file of relationship of Oswald with Cuban Ambassadors, Moscow, had been furnished to the Castro brothers. Portell-Vila read the message as referring to Lee Harvey Oswald, whereas, as indicated in the letter above, CIA understood it referred to Osvaldo Dorticos. The info from CIA was furnished to Liaison Agent Sam Papich by [redacted] CIA. Portell-Vila, Mrs. Arensberg and CIA have all furnished info about this matter and no further investigation is being conducted in the absence of a special inquiry from the Commission.

The enclosed memorandum in the first sentence of paragraph 2 refers to the "original of this part" of the message. The previous memorandum dated 5-15-64 and already sent to the Commission, indicated that only a part of the message referred to "Osvaldo" and it was this part which Portell-Vila gave to Arensberg and she gave it to CIA.

Enclosed for New York, Dallas and Boston are one copy each of an anonymous letter dated 4/12/64, and the envelope in which it was mailed to Attorney General Robert Kennedy. The envelope was postmarked 4/16/64, at Brockton, Massachusetts. The letter and envelope were furnished to the Bureau by Departmental memorandum dated 5/28/64. The contents are self-explanatory. Also enclosed for Dallas are 4 photographic copies each of the letter and envelope, exhibit D-317, for inclusion in forthcoming Dallas report.

The FBI Laboratory has examined the enclosures and could not identify the typewriting with any specimens in the Anonymous Letter File. The typewriting most closely resembles the Italian-made Olympia style of type. The paper comprising the envelope and letter did not contain characteristics which would indicate the source of the paper.

The "National Christian Crusade" mentioned in the anonymous letter as headed by Billy James Hargis, is apparently identical with the militantly anti-communist organization headed by Billy James Hargis, a non-denominational minister who has been described as a "hillbilly evangelist". Hargis has operated the "Christian Echoes National Ministry, Inc.," Tulsa, Oklahoma, whose official publication has been identified as the "Christian Crusade".

RE: ASSASSINATION OF PRESIDENT KENNEDY

Bureau files contain no information which would preclude an interview with Johnny Carson of the NBC TV program known as the "Tonight Show". New York will promptly interview Johnny Carson concerning the allegation that he received a wire 11/21/63, stating that (President Kennedy) "was going to be shot the following day while on route to make a speech". Furnish the results of the interview in appropriate inserts to Dallas with copies to the Bureau. If the information appears to warrant immediate dissemination, also submit appropriate copies of a letterhead memorandum. New York will also furnish any pertinent information concerning Carson which is contained in files of the New York Office.

Note:

The anonymous letter referred to in instant airtel was furnished by Departmental memorandum dated 5/28/64. It states that Johnny Carson, "Host of the Tonight Show is a Communist!". It also alleges Carson sponsors front organizations which are affiliated with the Communist Party in America.

The author of this letter states he knows that on 11/21/63, Carson was sent a wire telling him that (President Kennedy) was going to be shot the following day. The author claims it was his "boss" who sent the wire and that is the reason the author's name could not be furnished.

The letter further states that the author is "a member of the National Christian Crusade, headed by Billy James Hargis". It was requested that the FBI investigate Carson at once.

Enclosed herewith are two copies each of one letter from the President's Commission dated June 3, 1964, and seven letters from the President's Commission dated June 4, 1964, requesting additional investigation with regard to Jack L. Conduct the investigation as requested by the President's Commission advising persons contacted that the investigation is being conducted at the specific request of the President's Commission on the Assassination of President Kennedy. Any leads in auxiliary offices that arise from your investigation must be set out by teletype and promptly handled.

With respect to the lead to interview Ralph Paul's ex-wife, Beatrice Shull, you should conduct sufficient inquiry to determine where she can be located and set out appropriate lead making certain that the office investigating lead is instructed to advise her that the interview is being conducted at the request of the President's Commission.

In regard to the Commission's request of June 3, 1964, the Bureau is in possession of the video tape previously submitted from Station KLRD-TV which will be examined as requested in paragraph 3. If Agents Lee and Barrett do not believe that their time observation was accurate within one

minute, it will not be necessary at this time to obtain additional TV films. The time computations requested in paragraph 4 will be handled at the Bureau.

With regard to the Commission's request that we provide a report on the long-distance telephone calls for 11/23 and 24/63 of numbers WH 1-5601, LA 6-6258 and LA 8-4775, it will be noted that these two dates were not covered in the examination of the telephone records by Eckenrode (Clements' report, March 28, 1964). It would appear from the reports that the examination of the telephone records on 11/29/63 was conducted by the telephone company and the data furnished to SA Lish whereas the telephone data reported by SA Eckenrode on 3/12/64 was obtained from an actual examination of the records themselves. This possibly would account for any inaccuracy of data obtained on 11/29/63. If this is the case, it should be carefully pointed out in your letterhead memorandum covering this particular request of the Commission.

A separate letterhead memorandum must be submitted covering investigation requested in each of enclosed Commission's letters promptly as it is completed referring to each specific request by date.

NOTE: The eight requests of the President's Commission for investigation appear to be based primarily on the review of our reports which have been furnished to them and are directed primarily to interviews of persons who might have seen or talked to Ruby in the period between the assassination of President Kennedy and his shooting of Oswald. They also request that we determine approximate driving times of routes that our reports show that Ruby traveled during this period. The objective would appear to be to establish rebuttal for the many rumors concerning Ruby's activities and contacts during this period. Our reports have already clearly established Ruby's actual whereabouts, activities, and mental condition during this time.

Mr. J. Edgar Hoover, Director
Federal Bureau of Investigation
United States Department of Justice
Washington, 25, D. C. 20535

Dear Mr. Hoover:

Special Agents Ivan D. Lee and Robert H. Barrett have reported that they observed, over closed circuit television, Jack Ruby shoot Lee Oswald at approximately 11:25 a.m., November 24, 1963 (Clements Report, November 30, 1963 p.5). Records of the Dallas Police Department indicate that the time of the shooting was no later than 11:21 a.m.

The Commission would appreciate Agents Lee and Barrett providing further details on the accuracy of their observation and the basis for their conclusion with respect to the time of the shooting. They should state particularly whether or not they relied on any Western Union clocks at the time of or shortly after the shooting.

If Agents Lee and Barrett believe their time observation was accurate within one minute, it would be helpful if you could determine whether or not the exact time of the shooting can be fixed from TV films in the possession of any television station or network. As you know, most broadcasting stations rely on Western Union clocks which are synchronized each hour on the hour. It may be that a continuous video tape which includes the shooting exists from 11:00 a.m. November 24, 1963 or can be assembled. If so, it would perhaps then be possible to establish whether no more than four minutes elapsed between Ruby's leaving the Western Union office on Main and Pearl Expressway, as indicated by police records, or as many as eight minutes, as suggested by the report of Agents Lee and Barrett.

Finally, we wish to request that one of your agents contact Mr. Burt W. Griffin of our staff so that arrangements can be made to make time computations and obtain blow-ups of a few frames from movie films in the possession of the Commission. These frames show the shooting of Oswald and a clock in the Dallas Police Department jail office shortly after the shooting.

Dear Mr. Hoover:

In connection with Jack Ruby, aka Jack Rubenstein, aka Jacob Rubenstein, the Commission would appreciate your providing the following:

1. A report, based on an examination of school records, of all schools attended by Jack Ruby, the dates of attendance, marks obtained, character or other evaluations of conduct, and disciplinary action. The Commission's records now indicate that Ruby may have attended Smith Grammar School, Schley Grammar School, Sabin Junior High School, and Marshall High School in Chicago.

2. A further report with respect to the activities of Jack Ruby in connection with the Scrap Iron and Junk Handler Union, Local 20467, 3159 West Roosevelt Road, and 188 West Randolph, Chicago, Illinois, for the years prior to 1942. Various federal records may exist for this union since it is reported to have had a federal charter. Particular attention should be directed to the date the union was organized, names of the organizers, number of union members, names of officers and business agents of the union, affiliation with any international, national or Chicago Labor Federation, the general nature of the activities of the union while Ruby was associated with it, and the manner in which Ruby came to leave the union.

162-109090 —

3. The employment record of Jack Ruby with the Stanley Oliver Company, Chicago, Illinois, and Spartan Novelty Company, Chicago, Illinois. These companies employed Ruby sometime between 1936 and 1943, most probably in 1937 or 1938. The Spartan Novelty Company has also been called the Spartan Company in existing FBI reports to the Commission. That company name may simply be a trade-style used by Jack Ruby.

4. Copies of Dun and Bradstreet reports pertaining to the Stanley Oliver Company and Spartan Novelty Company for the years of Ruby's employment.

Thank you for your assistance.

Sincerely,

Copies of Commission's request and its enclosures are enclosed for Dallas for information.

Las Vegas handle the investigation requested by the President's Commission advising persons contacted that the investigation is being conducted at the specific request of the President's Commission. The Commission's letter should be carefully reviewed to make certain that each item mentioned is fully covered in your inquiry.

Submit results promptly upon completion by letterhead memorandum suitable for dissemination to the President's Commission. Memorandum must be carefully proofread for substance and accuracy as to spelling, grammar, and punctuation prior to submission in order that it may be disseminated to the Commission upon receipt at the Bureau without delay. Dear Mr. Hoover:

Enclosed are copies of a letter and subpoena which have been mailed to Mr. Vern Rogosh, Central Telephone Company, Las Vegas, Nevada.

I would appreciate your examining the subpoenaed papers and providing, for the period September 26, 1963 to December 1, 1963, with respect to Las Vegas phone 735-4303 (personal phone of L. J. McWillie) a report of long distance calls showing the date, time, and length of each call, together with the name of the caller, person called, and place of origin of each call where available. In addition, please provide similar information as to all calls to Dallas, Arlington, and Fort Worth, Texas, from 735-4111 (house phone of The Thunderbird Hotel, Las Vegas, Nevada), and all calls to Dallas, Texas numbers WH 1-5601, LA 6-6258, RI 7-2362, LA 8-4775, RI 1-0289, and Arlington, Texas numbers CR 5-5352 and CR 5-4891 from Las Vegas numbers 735-9910, 735-9626 and 735-9821 (pay telephones at The Thunderbird Hotel, Las Vegas, Nevada).

Finally, please re-interview Lewis J. McWillie (Clements Report December 6, 1963, p.212) to determine when he first began to work in Cuba, where and for what periods he was employed in Cuba, what contacts he maintained with Jack Ruby during his stay in Cuba, the relationship of Castro's supporters with McWillie and the Havana gambling community both before and after Castro came to power, whether or not McWillie or any of his friends were imprisoned or arrested by Castro, how McWillie came to leave Cuba, and McWillie's acquaintance with Robert Ray McKeown. McWillie should also be asked specifically whether or not he and Ruby were ever in contact concerning the sale of jeeps or guns to any Cubans, the smuggling of refugees out of Cuba, or obtaining the release of persons imprisoned by Castro. McWillie should be further asked to state whether or not he paid the cost of Ruby's transportation to Cuba or any other expenses while Ruby visited him in the Fall of 1959.

Reference memorandum dated 2/26/64, from W. D. Griffith to Mr. Conrad concerning a continuing project wherein the Bureau has undertaken to furnish the Commission with photographs of all Commission exhibits.

On 6/4/64, Miss Mary Norton, Commission employee, orally requested that the Bureau take custody of Commission exhibits numbered 681, 682, 690, 691, 692, 693, 694, 695 and 696. It is noted that in the receipt covering the delivery of these exhibits to the Bureau, the request was made that the original exhibits be retained by the Bureau in addition to the usual request of furnishing the Commission with three photographs of each exhibit. It is further noted that Miss Norton advised SA Neill at the time of her request that these exhibits were obtained directly from a hospital by the Commission and did not originate with the Bureau.

As a matter of record, custody was taken of instant exhibits by SA Robert E. Neill.

All exhibits are X-ray negatives of Governor Connally's injuries.

This work will be handled by an Agent examiner of the Laboratory's Document Section.

ACTION:

The exhibits will be photographed and three copies will be supplied to the Commission. In accordance with existing instructions, the originals of these exhibits will be returned to the Commission along with the photographs.

Former Dallas County Sheriff Steve Guthrie when previously interviewed regarding Ruby alleged that Ruby appeared prominently in an investigation of crime conditions in Dallas from 1946 to 1948. Lt. Butler when interviewed stated that he worked on this same investigation and that Ruby's one connection was that upon completion of investigation and Jones' conviction, Jones and his associates began to hang out at Ruby's nightclub. Jones when interviewed previously did not indicate that Ruby was connected with his criminal activities in Dallas for which he was convicted. His conviction stemmed from attempts to bribe Dallas officials.

Mr. J. Edgar Hoover, Director
Federal Bureau of Investigation
Pennsylvania Ave., N. W. & 9th St. N W.
Washington, D. C. 20535

Dear Mr. Hoover:

As you know, the Commission possesses conflicting evidence as to why Jack Ruby moved to Dallas from Chicago. Former Dallas County Sheriff Steve Guthrie has stated (Clements Report, December 14, 1963, p. 20-21), and Ruby himself has at times boasted that he came to Dallas because of connections with a Chicago crime syndicate. More recently, however, Ruby and his family have disavowed that reason, and Dallas Police Lt. George Butler has contradicted Guthrie (Clements Report, December 14, 1963, p.417).

Since Paul R. Jones, 1120 Graylynn Drive, Vestavia Hills, Alabama (Clements Report, December 31, 1963, p.49) was the source of Guthrie's allegations and the basis for Butler's contradiction, and since Jones appears to be willing to discuss his associations with Ruby, the Commission would appreciate your re-interviewing Jones in connection with the statements of Butler and Guthrie. In addition, please ask Jones to state in detail how and when he met Eva Grant; what his dealings have been with her; what role, if any, Ruby, Mrs. Grant, Ralph Paul, and Lewis J. McWillie were to play or attempted to play in Dallas gambling and other underworld activities after 1945; what have been Ruby's connections with the Chicago underworld since 1946 and the basis for that understanding; any experiences he has had with Ruby that support or contradict his observation that Ruby "was capable of doing anything to accomplish what he set out to do"; and his (Jones') activities in Dallas since 1946.

Finally, please ascertain whether or not there are in existence the phonographic recordings and papers which Guthrie claims were made in connection with the Dallas crime investigation from 1946 to 1948; and, if they do exist, please ascertain where they are now maintained, how extensive they are; and whether or not they are indexed to show any mention of Jack Ruby.

On May 26, 1964, President's Commission requested that we photograph all of the notebooks, papers, and other property seized from Jack Ruby and now in the possession of District Attorney Henry Wade and the Dallas Police Department. The property was photographed and three sets of prints as requested by the Commission are being prepared and will be forwarded to the Commission.

Dallas Office has advised that District Attorney Wade requested one set of prints of the property photographed. Inasmuch as the material in Wade's possession was made available by Wade and the property in possession of the police department was photographed with Wade's permission, there is no reasonable objection to furnishing Wade with one set of the photographs.

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, N. E.
Washington, D. C.

Dear Mr. Rankin:

Reference is made to your letter of May 20, 1964, requesting this Bureau to conduct additional investigation regarding Marina Oswald's statement that shortly after April 10, 1963, Lee Harvey Oswald expressed an interest in attacking Mr. Richard Nixon.

Enclosed for the Commission are two copies of a memorandum dated May 26, 1964, at New Orleans, Louisiana, which sets forth results of our review of newspapers in New Orleans, pertinent to your request. Also enclosed are two copies of a memorandum dated June 1, 1964, at Dallas, Texas, which sets forth results of our review of Dallas newspapers for the period March 16, through May 16, 1963. You will note that such memorandum reports that Mr. Lyndon B. Johnson, then Vice President of the United States, visited Dallas on April 23, 1963, for purpose of delivering the major address at the second Annual NASA Manned Space Flight Conference.

Inasmuch as our inquiries have established that Mr. Johnson visited Dallas on April 23, 1963, 13 days after the attempted assassination of General Edwin Walker, we are reContacting Marina Oswald to ascertain if she was possibly confused when she indicated on February 24, 1964, that approximately two weeks after the General Walker incident of April 10, 1963, Oswald contemplated attacking Richard Nixon. We will question Marina Oswald in detail to determine if there is any possibility Oswald meant to attack Mr. Johnson rather than Mr. Nixon. Results of our interview with Marina Oswald in this matter will be immediately forwarded to the Commission upon receipt.

Marina Oswald has indicated Lee Harvey Oswald admitted to her attempted assassination of General Walker on evening on April 10, 1963. Marina told us on 3/24/64 that approximately two weeks after Walker incident Oswald indicated he was going to attack Nixon but she locked him in a bathroom to prevent him following through with such attempt. Our investigation indicated Nixon was not in Dallas during period mentioned by Marina. Review of Dallas newspapers revealed President Johnson was in Dallas April 23, 1963, making a speech. Johnson, at that time Vice President of the United States. Inasmuch as Mr. Nixon is a former Vice President we are recontacting Marina to determine if there is any possibility Mr. Johnson rather than Mr. Nixon was the intended victim of Oswald.

Mr. J. Edgar Hoover, Director
Federal Bureau of Investigation
Pennsylvania Ave. N. W. & 9th St. N. W.
Washington, D. C. 20535

Dear Mr. Hoover:

The records of the Commission do not reveal that interviews have been conducted with Ivan T. Mundy, a Mr. Seymour, and a man identified as the father-in-law of Buddy Muenster. These persons may have seen Jack Ruby on November 22, 23 or 24.

Mr. Seymour, first name unknown, and Ivan T. Mundy were reportedly present at Sol's Turf Bar on Saturday, November 23, 1963 between 1:00 p.m. and 2:00 p.m. when Ruby discussed the Bernard Weisman advertisement. (Clements Report, December 14, 1963 pp. 243 & 525). Mundy and Seymour should be asked, if they have not already been asked, to describe Ruby's reaction to the advertisement. Inquiry should also be directed toward revealing whether or not Ruby stated or indicated to Seymour and Mundy that he did not believe anyone with a Jewish name such as Bernard Weisman really was involved with the advertisement.

Please also provide an interview with respect to Jack Ruby's neighbor, identified only as the father-in-law of Buddy Muenster. Ruby maintained in his interview with Special Agent C. Ray Hall on December 21, 1963 that he talked with this neighbor as he was leaving for downtown Dallas about 10:30 a.m. Sunday morning, November 24, 1963 (See Clements Report, January 8, 1964, p.10).

In addition, Ed Benedict, a Dallas news photographer, does not appear to have been interviewed in connection with the possibility that he saw Ruby on November 22, 23 and 24. Ferd Kaufman reports that Ruby approached him at the Dallas Police Department on Friday afternoon, November 22 under the mistaken belief Kaufman was Benedict. (See Clements Report, December 21, 1963 p.4). The Commission would appreciate appropriate clarification with respect to Benedict.

Sincerely,

J. Lee Rankin

Dear Mr. Hoover:

An index of audio tapes from WFAA-TV, Dallas, indicates that WFAA employee Vic Robertson has described on audio tape Jack Ruby attempting to enter the office of Homicide Captain Will Fritz while Lee Oswald was being interviewed. The pertinent audio portion is indexed as follows by WFAA-TV: PKA-5, Vic Robertson, 41:45. Robertson's FBI interview appears in the Clements Report, January 31, 1964, p.10.

The Commission would appreciate your listening to and transcribing the pertinent portion of that tape and conducting further appropriate investigation to ascertain the date and time of the episode, to identify police officers and other newsmen who may also have witnessed the episode, and to obtain their accounts of that episode together with any other information they may have which is relevant to the activities of Jack Ruby on November 22, 23 and 24, 1963.

As an aid in that matter, it may be possible for you to determine the identities of the police officers involved by examining video tapes which have been indexed by WFAA-TV and are now in their possession.

Dear Mr. Hoover:

The Commission now has evidence that on Friday or Saturday of September 27 or 28, 1963, Lee Harvey Oswald had his photograph taken for use on an application for a visa at the Cuban Embassy in Mexico City. We believe that he must have gone to a photographic studio, under the circumstances an inexpensive one, some place in the vicinity of the Cuban Embassy. Dear Mr. Hoover:

As a result of deposing Ralph Paul and examining telephone call records provided by your agency with respect to Mr. Paul, the Commission would appreciate your undertaking the following investigation:

1. Interview Mr. Gerald Weaver, 131 Mt. Hood Street, Dallas, Texas, or other appropriate persons concerning a telephone call placed from the Bull Pen Drive-In, presumably by Ralph Paul, to Mr. Weaver's telephone (FE 9-9945) at 5:07 p.m., Friday, November 22, 1963. Inquiry should be made as to the age and occupation of the person receiving the call; the nature and length of the call; the nature of any acquaintance with Mr. Paul, Jack Ruby, George Senator, Eva Grant, Breck Wall, or Joe Peterson; and any other contacts of that person with Paul, Ruby, Senator, Wall, Peterson, or Mrs. Grant on November 22, 23 and 24.

2. A similar inquiry should be made concerning a call on November 22, 1963 from the Bull Pen Drive-In to Dallas telephone number CA 4-2829, listed to Minnie Sweat, 8033 Beckley, Dallas, Texas. The time of the call is not provided in existing telephone records and that should be ascertained.

3. Please attempt to locate and interview Paul's ex-wife, the former Beatrice Shull, who is now remarried reportedly living in Manhattan. (Clements Report, November 30, 1963, p. 467). She should be asked if she has any information that Paul is a homosexual or has engaged in any political activities.

Dear Mr. Hoover:

Please undertake the following investigation in connection with the activities of Jack Ruby, Ralph Paul, George Senator, Joe Peterson, and Breck Wall on November 22, 23, and 24, 1963:

1. Please obtain a record of all telephone calls charged to or made by or to the above persons at the Adolphus Hotel on those dates. Wherever possible, the telephone call record should indicate the time of the call, length, caller, recipient, origin of call and number called. Please note that in a previous letter dated May 25, 1964, a request was made only for long distance calls from the Adolphus Hotel.

2. Please ascertain from authorities at the Adolphus Hotel, Dallas, Texas the period for which entertainers Breck Wall and Joe Peterson were employed at the Adolphus Hotel during the fall of 1963, the extent to which their performances were discontinued at the Adolphus because of the death of President Kennedy, the manner in which a decision was reached with Peterson and Wall to discontinue any performances from November 22 to 24, and the details of any contacts those authorities had from November 22 to 24 with Jack Ruby, Ralph Paul, George Senator, or Eva Grant.

3. Please interview appropriate employees of the Burgundy Room of the Adolphus Hotel, Dallas and re-interview William T. Downey, Red Lion Apartments, Dallas and Mike Barclay, 404 Davis Building, Dallas, to determine details of their contacts, if any, with Jack Ruby, Ralph Paul, Breck Wall, Joe Peterson and George Senator on November 22, 23 and 24.

Dear Mr. Rankin:

In accordance with your letter dated May 12, 1964, and pursuant to the informal request of Mr. Melvin Eisenberg of your staff on May 15, 1964, examinations were conducted on the C6, C7 and C33 cartridge cases and the C8 cartridge to determine if they had been loaded into and extracted from the C14 rifle more than once.

As a result of these examinations, numerous marks were found on these items of the type produced by the magazine follower, chamber, extractor or ejector of a weapon.

Marks were found on the C6 cartridge case indicating that it has been loaded into and extracted from a weapon at least three times. One set of marks was identified as having been made by the magazine follower of the C14 rifle. It is pointed out that the extractor and ejector marks on C6 as well as on C7, C8 and C33 did not possess sufficient characteristics for identifying the weapon which produced them. There are also three sets of marks on the base of this cartridge case which were not found on C7, C8, C33 or any of the numerous tests obtained from the C14 rifle. It was not possible to determine what produced these marks.

Marks were found on the C7 cartridge case indicating that it has been loaded into and extracted from a weapon at least twice. One set of marks was identified as having been produced by the chamber of the C14 rifle and one set of marks was identified as having been produced by contact with the bolt of C14; however, it was not possible to determine whether the two sets of marks which were identified were produced by one or two loading operations in the C14 rifle.

Two sets of marks were found on the C3 cartridge (found in the C14 rifle) which were identified as having been produced by the magazine follower of the C14 rifle. Another set of follower marks was found on C8. The fragmentary nature of this set of marks could possibly account for the fact that these marks were not identified with the C14 rifle.

Marks were found on the C38 cartridge case indicating that it had been loaded into and extracted from a weapon at least twice. One set of marks was identified as having been produced by the magazine follower of the C14 rifle and one set of marks was identified as having been produced by the chamber of C14; however, it was not possible to determine whether the two sets of marks which were identified were produced by one or two loading operations in the C14 rifle.

The results of the above examinations do not preclude the possibility that these items could have been loaded into and extracted from a weapon one or more times when insufficient force was used to produce marks. It is pointed out that if two or more cartridges are loaded into the clip of C14, only the bottom cartridge will be marked by the magazine follower.

TO : Mr. Conrad

DATE: 6/2/64

FROM : R. H. Jevons

SUBJECT: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY, 11/22/63
DALLAS, TEXAS

On 5/12/64, Mr. J. Lee Rankin, General Counsel of the President's Commission, requested by letter that the cartridge cases C6, C7 and C38 recovered from the Texas School Book Depository be examined for loading, chambering, extraction and/or ejection marks. On 5/15/64, Mr. Melvin Eisenberg, staff member, orally requested that the aforementioned cartridge cases as well as the C8 cartridge found in the assassination weapon (C14) be examined to determine if they had been loaded into and extracted from the C14 rifle more than once. Mr. Eisenberg advised that this type of examination was actually meant in Rankin's letter of 5/12/64. As a result of the examinations conducted on these items in the Laboratory the following results were obtained and are set forth below:

Marks were found on the C6 cartridge case indicating that it has been loaded into and extracted from a weapon at least three times. One set of marks was identified as having been made by the magazine follower of the C14 rifle. It is pointed out that the extractor and ejector marks on C6 as well as on C7, C8 and C38 did not possess sufficient characteristics for identifying the weapon which produced them. There are also three sets of marks on the base of this cartridge case which were not found on C7, C8, C38 or any of the numerous tests obtained from the C14 rifle. It was not possible to determine what produced these marks.

Marks were found on the C7 cartridge case indicating that it has been loaded into and extracted from a weapon at least twice. One set of marks was identified as having been produced by the chamber of the C14 rifle and one set of marks was identified as having been produced by contact with the bolt of C14; however, it was not possible to determine whether the two sets of marks which were identified were produced by one or two loading operations in the C14 rifle.

Memorandum to Mr. Conrad
Re: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY, 11/22/63
DALLAS, TEXAS
62-109060

Two sets of marks were found on the C8 cartridge (found in the C14 rifle) which were identified as having been produced by the magazine follower of the C14 rifle. Another set of follower marks was found on C8. The fragmentary nature of this set of marks could possibly account for the fact that these marks were not identified with the C14 rifle.

Marks were found on the C38 cartridge case indicating that it had been loaded into and extracted from a weapon at least twice. One set of marks was identified as having been produced by the magazine follower of the C14 rifle and one set of marks was identified as having been produced by the chamber of C14; however, it was not possible to determine whether the two sets of marks which were identified were produced by one or two loading operations in the C14 rifle.

The results of the above examinations do not preclude the possibility that these items could have been loaded into and extracted from a weapon one or more times when insufficient force was used to produce marks. It is pointed out that if two or more cartridges are loaded into the clip of C14, only the bottom cartridge will be marked by the magazine follower.

Dallas is being furnished the results of these examinations.

Dear Mr. Rankin:

Reference is made to my letter of May 14, 1964, relating to appropriation language dealing with the protection of the President and H. R. 4153 introduced on February 25, 1963, by Congressman Emanuel Celler which will codify the laws relating to the organization of the U. S. Government and its employees.

The portion of this bill dealing with the Federal Bureau of Investigation includes a provision concerning the protection of the President and the Treasury Department, in their analysis of this bill, objected to this item being included in that portion dealing with this Bureau and recommended that it be stricken from the bill.

As you were orally advised by Mr. Malley on May 26, 1964, this language in the appropriation was a safety valve to enable the Federal Bureau of Investigation to render assistance to the Secret Service as we have done since the assassination. If the language is removed it will preclude assistance to the Secret Service on the part of the FBI in the protection of the President and we would not be able to give manpower or assistance to protect the President.

By letter dated May 21, 1964, Deputy Attorney General Nicholas de B. Katzenbach advised that the Department of Justice will advise the Budget Bureau that the Department of Justice would prefer to have the language carried in the appropriation as it is now or amended to read, "to assist in protecting the person of the President."

In view of your interest in this matter and your conversation with Mr. Malley on May 26, 1964, I thought you should be advised of the foregoing.

Sincerely yours,

Dear Mr. Rankin:

The "Dallas Times-Herald" for May 21, 1964, contained an article entitled "Defend Dallas, Lawyer Urges." According to the article, a copy of which is enclosed, Dallas attorney David Witts charged that in all communications media a massive effort has been made to cover up the fact that the assassin of President John F. Kennedy was a communist.

For your information, we interviewed Mr. Witts May 22, 1964, concerning the statements attributed to him in the enclosed article. Mr. Witts informed us that the remarks attributed to him in the "Dallas Times-Herald" newspaper were made in a speech he gave before the Dallas Salesmanship Club, Dallas, Texas. He advised that he has no private sources of confidential information regarding the Lee Harvey Oswald case and that his knowledge of Oswald stems from public source information. He added that his remarks at the Dallas Salesmanship Club meeting were based upon an article in the December 16, 1963, issue of the "U.S. News & World Report" entitled "Strange World of Lee Oswald: More Light on the Assassination" and an article entitled "Background For Assassination" which appeared in the March 16, 1964, issue of the "Washington Report," which is published by the American Security Council.

SAC Gordon Shanklin called from Dallas 5-22-64 to advise of a story which appeared in the home edition of the "Dallas Times" on 5-21-64.

According to Shanklin, David A. Witts spoke before the Salesmanship Club in Dallas yesterday. According to the newspaper account, Witts told the Club that when Oswald defected to the Soviet Union he took a military code and electronic secrets with him and as a result the Marines had to change their code and electronic equipment on the Pacific Coast. Witts, in his speech, also stated that Oswald had attended an assassin's school outside Minsk in the Soviet Union.

Dear Mr. Hoover:

In the possession of the Bureau is an exhibit described as "one spent rifle hull," Commission Exhibit 543, FBI Laboratory Exhibit Q-48. Will you please forward this exhibit to Dallas for inspection by Captain Fritz and Detective Dhority of the Dallas Police Department. There is a mark on this rifle hull which has not been identified. It is either "C.D." or "V.D." If the mark is "C.D.," it was probably made by C. N. Dhority, Dallas Police Department. If the mark is "V.D.," it was probably made by Vince Drain of the Federal Bureau of Investigation.

A conference between Drain, Fritz, and Dhority will probably result in an identification of these initials.

Q530 Envelope (postmark illegible), bearing typewritten address "Mr. J. Edgar Hoover Federal Bureau of Investigation Washington, D. C.," and accompanying two-page typewritten letter headed "Federal Bureau pf Investigation Washington, D. C." beginning "Gentlemen: A while back I overheard..." and ending "...people in public office. Sincerely, A Citizen"

Result of examination:

The typewriting on Q530 was not identified in the Anonymous Letter File. A photograph of this exhibit will be added to this file.

The typewriting on Q530 matches most closely the Laboratory standard for a Corona pica style of type, spaced ten letters per inch.

The envelope and paper comprising Q530 does not contain any watermarks, indented writings, or other significant features which would indicate the source of the paper.

The postmark on the envelope in Q530 appears to be "ALBUQUERQUE TR 8 MAY 15 1964 N P O," although the "ALBUQUERQUE" portion of the postmark is quite faint.

You will be separately advised on the latent fingerprint examination of Q530.

Gentlemen:

A while back I overheard the most unusual conversation in a restaurant near the Mexican Border. It has bothered me ever since, so am going to give it to you as best as can be remembered.

These two men were sitting in a booth next to myself, and they were talking Spanish. As so many bi-lingual people seem to take for granted that as you are a blue-eyed gringo you can't understand the language, and they talk as if you did not exist. Now I do not believe that the one man who was doing the talking of which I speak, was a Mexican--he may have been part Mexican tho, as he did speak with an accent to the cashier in English. Would say he is about 5' 6" tall, rather small, tho with a little paunch, and would weigh about 145 to 150 lb. Brown eyes, grey curley hair, or wavey, a dark complexion, small hands for a man. He was the driver of a 1954 or 1955 packard, 4 door sedan, Arizona license number EZY 958. Oh yes, a rather long, grey mustache. About 50 to 55 yrs. old.

From the conversation would gather that he resides in either Tucson, or some place not very far from the Mexican border below Tijuana or Mexicali, and also must have many friends in San Diego.

Now for the conversation. They were talking politics and the Kennedy assination came up. This man stated that he and a companion were on the outskirts of Dallas when they heard the news on the car radeo. The companion wanted to go on into Dallas and see what was going on, but this man said he told him no that he didn't dare, as he knew that "they had finally done it" and he didn't want to take a chance of seeing anyone who might connect him with the affair. He said that he knew months before that Kennedy "had to die" that there was no other way for "it" to be handled, and he knew that "they" (whoever the heck they may be) was on the verge of taking action in Dallas, as it would be an ideal place.

If he knows who "they" may be, then I think you should know also. He was so damnebly smug about the whole thing when he was talking. He also stated that during WWII he had top security clearance, so now he goes most places and when he shows his identification, then he isn't questioned. He stated that he keeps Mexican citizenship so that he can go back and forth without question. (This sounds slightly crazy to me, as I don't know anything about such, but didn't know that you could maintain Mexican citizenship and American at the same time.) Perhaps he was born American, and took out Mexican citizenship.

To top this off, he asks the other man who he thinks will be the next on the list. He stated that there were many of course, whom "they" would like to eliminate, but Earl Warren was given

D-215

62-109090

top priority. Ye Gads! what a character! Even if he is just a "nut" of some sort, such talk isn't exactly calming dinner conversation.

I haven't the faintest idea if Earl Warren has plans of visiting San Diego, or if he had residence there at one time, but would gather that he may have from the conversation. Whoever "they" are, must have ideas that somewhere in California would be a likely place to set up something for Mr. Warren which would be as unhealthy as what Mr. Kennedy experienced.

Now you must have hundreds of clues to run down on the Kennedy assination, and I wouldn't want to be a pest, or a nut, but that conversation has bothered me, and you can take it as you see fit. If the man is just a blabber-mouth, then he may know nothing. If he is just egotistical enough to "have to talk to someone about how much he knows" in order to impress someone, then xhx he just may know something. You are the judge of that.

Anyhow it's off my mind now, and I would like to forget it, although as you know better than anyone, these things must keep cropping up. The intricate network of politics, different groups, communistic and otherwise, must keep you people tareing your hair to protect people in public office.

Sincerely,

A Citizen

SUBJECT:

Attached is a copy of the transcript of my testimony before the President's Commission on the Assassination of President Kennedy. I have marked in red pencil the changes, primarily typos and misspellings, which we will call to the attention of Mr. Stern in accordance with his request.

On Page 6163 and 6164 the Commission suggested we change our Manual of Instructions to replace the word "and" to "or" in two places. The change is being made and will be sent out to the field early next week.

On Page 6193 Mr. Dulles mentioned the book "Who Killed Kennedy" by Thomas G. Buchanan. He said the Commission would make a copy available to us and he would like our comments. The Commission has not yet given the book to us and we will follow up on this on Monday, May 11.

Starting on Page 6202 Chairman Warren referred to an article in the "National Enquirer" by John Henshaw. This article was sent to us by the Commission for comment. We interviewed Chief Curry of the Dallas Police Department and he branded portions of the story as false and we have sent a letter to the Commission to that effect. We are analyzing the remainder of the article and will furnish our comments to the Commission.

Starting on Page 6143 there is a discussion of the Bureau file on Oswald up to the date of the assassination. The Commission decided that the Commission staff members would determine how many of the documents in this file the Commission already has and then would decide which, if any, of the remaining serials are necessary for the Commission. Mr. Stern of the Commission staff has advised he is working on this and will consult with us Monday, May 11.

Enclosed are two copies of a letter which was received from the President's Commission dated 4/30/64.

Dallas is instructed to interview Mr. Robert Adrian Taylor concerning the rifle he may have purchased from Lee Harvey Oswald sometime in March or April, 1963. Specifically, determine from Taylor if the barrel of his rifle has been shortened. In addition, question Mr. Taylor concerning paragraphs two and three of page two of the Commission's letter.

Obtain the rifle from Mr. Taylor and submit to the Laboratory expeditiously as the Laboratory will take specific measurements and necessary photographs. Advise Mr. Taylor the rifle will be promptly returned when this examination has been completed. If Mr. Taylor does not wish to release the rifle, advise the Bureau, attention Laboratory, for supplemental instructions regarding measurements and photographs. The Laboratory will furnish the Commission measurements and photographs of a similar rifle.

Furnish the Bureau appropriate letterhead memorandum revealing the results of your interview with Mr. Taylor and endeavor to handle this matter at an early date.

NOTE:

Commission by letter dated 4/30/64 requested that Mr. Robert Adrian Taylor be interviewed concerning a rifle he may have purchased from Lee Harvey Oswald sometime in March or April of 1963. Results of an interview with Taylor have been previously reported in Dallas report dated 12/23/63. The Commission desired certain specific information regarding Taylor's rifle such as the over-all length in its original condition and they wanted the photographs of the rifle both assembled and disassembled. They also wanted same information on a similar rifle. Commission desired to know when Mr. Taylor obtained the rifle and if Mr. Taylor has ever seen the individual from whom he obtained the rifle at any other time either before or after 11/22/63. They desire to know where the rifle was located on 11/22/63. This matter is being coordinated with the Laboratory who will make necessary measurements and photographs if Mr. Taylor will temporarily release this rifle and also will obtain measurements and photographs of a similar rifle.

Dear Mr. Hoover:

On December 13, 1963 agents of your Bureau interviewed Mr. Robert Adrian Taylor concerning the possibility that he may have purchased a rifle from Lee Harvey Oswald sometime in March or April of 1963. The result of that interview is recorded on pages 71 through 73 of the report of Special Agent Robert P. Gemberling, dated December 23, 1963 at Dallas, Texas. Our staff members were unable to obtain Mr. Taylor's deposition while they were in Dallas because Mr. Taylor was ill at that time.

We note that Mr. Taylor described the weapon which he allegedly purchased from Oswald as a Springfield bolt action 30.06 caliber rifle on which appeared the markings of the United States Rock Island Arsenal, model 1906, and the serial number 66091. We understand that Mr. Taylor has reconditioned or "sporterized" that weapon since he allegedly obtained it from Oswald.

Would you please advise as to the overall length, in its original condition, of a rifle of the type described by Mr. Taylor. We would also like to know the length of the longest component of such a rifle in its disassembled condition. We would also appreciate having a picture of such a rifle if it is readily available.

We would also appreciate it if you could supply pictures of Mr. Taylor's rifle; assembled and disassembled.

Please question Mr. Taylor again concerning the date on which he obtained the rifle. We note that Taylor said that he thought he had seen Oswald on one occasion after he had purchased the rifle. Mr. Taylor should be asked whether or not he has ever seen the individual from whom he obtained the rifle at any other time, either before or after November 22, 1963. We would appreciate advice as to where the rifle was located on November 22, 1963.

Your continued cooperation with this Commission is appreciated.

SUBJECT: The Congressional Record

Pages 10163-10165. Senator Mundt, (R) South Dakota, spoke concerning a statement by Congressman Gurney, (R) Florida, in connection with the appointment of Norman Redlich to the Warren Commission investigating the assassination of President Kennedy. Mr. Mundt stated "I find, not only from what Mr. Gurney said, but also from a little independent research that I have done to verify it, that Norman Redlich, who is on the payroll of the Warren Commission at $100 a day, is an admitted member or associate of the Emergency Civil Liberties Committee, which is one of the notorious Communist fronts of this country. I was distressed when I read that, so I went back to see whether there was any documentation, and I find that there is, in governmental reports about that organization." Mr. Mundt included with his remarks a series of broadcasts made by Fulton Lewis, Jr., over the Mutual Network in connection with this subject. Mr. Lewis quotes from the following citation which appeared in the Guide to Subversive Organizations and Publications: "The Emergency Civil Liberties Committee is an organization with headquarters in New York, whose avowed purpose is to abolish the House Committee on Un-American Activities and discredit the FBI. - - -" Mr. Mundt went on to state "I submit that the American public is entitled to know why this type of individual, connected with un-American associations, has crept into the Warren Commission. - - - It would seem to this Senator that complete security clearances should be obtained on all personnel on the Commission staff before further evidence is taken and before even a start is made on writing the report on this awesome and tragic assassination of an American President."

Enclosed herewith are two copies of a self-explanatory letter from the President's Commission dated 6/4/64 requesting that we conduct certain investigation to reconcile the time of Ruby's visit to the Nichols Garage on the night of 11/23/63.

As you are aware, Agents are not authorized to take sworn affidavits in cases other than Fraud Against the Government and irregularities in office of a Government employee. This matter has been taken up with the President's Commission and they requested that you make arrangements through the U. S. Attorney to have the affidavit taken.

Submit the affidavit when obtained as enclosures to a letterhead memorandum suitable for dissemination to the President's Commission.

NOTE: One of the items in Ruby's possession at the time of his arrest appeared to be a receipt for money given to Little Lynn at Ruby's direction by Tom Brown, a garage attendant at Nichols Garage. It is time-stamped 10:33 p.m. In our interview of Brown, he stated that the transaction occurred about 7:30 p.m. The Commission desires that Brown be confronted with the time-stamped receipt and that we obtain a sworn affidavit of his explanation of the differences in time. Commission was advised that Agents could not take sworn affidavit and they requested that we make arrangements for the USA to take the affidavit.

Dear Mr. Hoover:

The Commission would appreciate your undertaking such further investigation as may seem appropriate to clarify the time that $5.00 was given by Nichols Garage employee, Tom Brown, to stripper Little Lynn on Jack Ruby's behalf.

A paper in Ruby's possession which appears to be a receipt indicates that the money was given to Little Lynn at about 10:33 p.m. Saturday, November 23. (Clements Report November 30, 1963 p.730). Hucy Reeves stated, however, that this transaction occurred at approximately 7:30 p.m. Saturday night and that Ruby arrived a few minutes later. (Clements Report, December 21, 1963 p.143). Please ask Reeves to examine a copy of the above receipt and to provide an affidavit identifying such receipt and amending his earlier explanation in an appropriate fashion.

ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY
NOVEMBER 22, 1963, DALLAS, TEXAS
MISCELLANEOUS - INFORMATION CONCERNING

Reference is made to a letter from Mr. Alfred Hiller in the German language which was forwarded by the Department to this Bureau for translation.

Enclosed for your information are two translated copies of this letter, the original of which is being retained for possible future use.

In view of the information contained in this letter, we have initiated appropriate investigation, the results of which will be furnished to the President's Commission investigating the assassination of the late President John Fitzgerald Kennedy.

NOTE TO LEGAL ATTACHE BONN AND SAC, DALLAS:
Enc. for Legal Attache Bonn and SAC Dallas are copies of the afore-mentioned self-explanatory letter from Hiller.
No information identifiable with Hiller could be located in Bureau files.
In view of the allegation in this letter, Legal Attache Bonn is instructed through sources to have Hiller located and thoroughly interviewed concerning this matter.
Results of investigation should be incorporated in appropriate inserts, 25 copies for Dallas and submit to Bureau for transmittal to Dallas.
Since it is possible the President's Commission may wind up its investigation of the assassination at an early date, every effort should be made to expedite the handling of this matter.

NOTE:

The Department as a usual practice forwarded to the Bureau a number of communications in foreign languages for translation. After translation those matters are normally returned to the Department for its information. The letter from Hiller was not returned inasmuch as it contained information to the effect that Hiller had foreseen the assassination and knows quite accurately the "precise circumstances" of the assassination. It would appear that Hiller may be mentally unstable; however, in view of the allegation it is felt we have the responsibility of checking this matter out. When the results are reported by Dallas it will be disseminated to the Commission.

On 5/28/64, SA C. RAY HALL appeared before Warren Commission representative, Mr. LEON D. HUBERT, JR., at Dallas, Texas, and gave deposition. SA HALL was asked questions relating to interviews of RUBY on 11/24/63 and 12/21/63, including where interviews took place, times of interviews, and who was present during the interviews. He was asked whether any promises were made to RUBY, in connection with the interviews, and he advised that no promises were made. He was asked whether the statements of RUBY that were in quotation marks, as set forth in the 12/21/63 interview, were the exact words of RUBY, and SA HALL stated they were. SA HALL was asked if he knew why he was not subpoenaed as a witness during the trial of RUBY, at Dallas, Texas, and he advised that he did not know. SA HALL was not asked for any other opinions or conclusions, regarding these interviews.

Two copies of the interview log maintained by SA HALL, for the RUBY interview of 11/24/63, are enclosed. Photostat copies of this interview log were made available to Mr. HUBERT at his request.

We have covered Lane's public appearances at request of President's Commission. In his appearances being reported by instant letter, he presented claims previously made by him in numerous past appearances around the country. These claims have been speculative and/or unfounded. They include: the absence of residue on Oswald's cheek in a paraffin test shows Oswald could not have fired a rifle on 11/22/63; witnesses described someone not of Oswald's description as the killer of Dallas patrolman Tippit; Oswald is not represented by counsel at the Commission's hearings; the Commission is "political" in nature and its findings will be biased; and President Kennedy was shot from in front.

Dear Mr. Rankin:

Mrs. Emily P. Francis of Washington, D. C., advised by letter dated March 15, 1964, that a friend, Mrs. E. W. Glover of Los Angeles, California, observed various scenes on television following the assassination. One of these scenes revealed two men running from the Texas School Book Depository Building, and this incident apparently was not observed by anyone else.

Our investigation determined film displayed on Los Angeles television stations originated from New York. Special Agents of this Bureau contacted officials of both the National Broadcasting Company (NBC) and the Columbia Broadcasting System (CBS), New York, New York. The only film similar to the one described by Mrs. Glover and her associates was obtained from CBS. However, upon review, Mrs. E. W. Glover and Mrs. N. D. Crane stated this was not the film they observed.

Enclosed are two copies each of four memoranda dated March 31, 1964, Los Angeles, California, May 27, 1964, Los Angeles, California, May 18, 1964, New York, New York, and May 27, 1964, New York, New York, captioned "Observations Noted by Mrs. E. W. Glover, Mrs. Neil D. Crane and Miss Doris Lee Crane on Television Newscast, Los Angeles, California," revealing results of investigation in this matter. The film obtained from CBS is in possession of the FBI Laboratory and is available for review if desired.

NOTE:

This matter pertains to information furnished by Mrs. E.W. Giaver and Mrs. N.D. Crane of Los Angeles, who observed on television the day following the assassination a film revealing two men allegedly running near to and possibly away from the Texas School Book Depository Building. In an endeavor to locate this film it was established the film originated in New York. One film was located by the New York Office depicting two men running in the vicinity of the Texas School Book Depository Building who appeared to be police officers as this film showed activities of various police officials around this building following the assassination. When this particular film was observed by Mrs. Giaver and Mrs. Crane, they stated it was not the film observed. In view of the voluminous films taken during and subsequent to the assassination by various news and TV media, it appears this particular matter has been logically pursued and no useful benefit could be derived from further investigation in view of the Commission's anticipated early completion in regard to the assassination.

Dear Mr. Hoover:

The Commission has taken the deposition of Mr. George Senator, roommate of Jack Ruby, and would appreciate your conducting certain further investigation.

1. In connection with the allegation that Ruby and Senator had a homosexual relationship and that Senator has a Communist background, please interview Mrs. Shirley Doren Wechsler, former wife of Mr. Senator, now residing in Coral Gables, Florida, to determine to what extent she has information that Mr. Senator is a homosexual or has participated in any political activities.

2. Please re-interview Mr. Wilfred James "Jim" Martin, (Clements Report, December 14, 1963, p.209) Davis Building, Dallas, Texas, to ascertain the details of his contacts with George Senator and Jack Ruby on November 22, 23 and 24. Senator indicated in his Commission deposition that he talked with Martin on November 22, 1963 after President Kennedy was killed and on November 24 immediately after Oswald was shot. Senator also stated that he did not recall his own activities from approximately noon until midnight on Saturday, November 23.

If Mr. Martin believes he can supply information as to Senator's activities during that period without violating the attorney-client privilege it would be most helpful. In that regard, Senator says he did not consult Martin for his own protection. Mr. Martin could also be of particular assistance by stating the details of his conversation Sunday with Senator prior to seeing Ruby, including whether or not Senator mentioned visiting the "Impeach Earl Warren" sign with Ruby on Saturday morning. Since Senator omitted mentioning the Earl Warren Sign trip in his interviews with investigators on November 24, effort should be made to establish the accuracy of any recollection by Martin that Senator did mention that event before Martin saw Ruby on November 24.

NOTE:

This is the 14th letter to the Commission on Martin. SAC Letter 64-23B dated 4-28-64 alerted the field to her campaign of vilification of the Director and the FBI. Martin has been described as a "Bright nut," and since the assassination has been conducting her own investigation.

Re Dallas airtel furnished letter from Martin dated 5-24-64 which was received in Dallas on 5-28-64. The letter concerns the reenactment of the assassination recently completed in Dallas and she alleges Commission members took a "false premise" and proceeded to prove it. She also indicates that history will "bring down" the Director, SAC Shanklin of Dallas, and will discredit Chief Curry, President, and Senator Richard B. Russell (D-Ga.).

CIVIL RIGHTS

Letter from J. Lee Rankin of the President's Commission dated 6/1/64 requested floor plans of the first and third floors of the Dallas Police Department which would indicate the occupants of the various rooms on November 22, 1963, and the two following days.

The Dallas Office telephonically advised on June 3, 1964, that the Dallas Police Department utilizes space in the building in the garage (Basement), the second, third, fourth and fifth floors, it being noted the fourth floor houses the Identification Division as well as part of the jail and the fifth floor is completely occupied by jail space.

In view of the foregoing, in Mr. Rankin's absence, this request was discussed with Mr. Howard Willens of the President's Commission, who advised the Commission was particularly interested in the third floor and in view of the fact the first floor was not occupied by the Police Department, we should confine the request to the third floor unless a subsequent request was received.

During this discussion, Mr. Willens was advised that the homicide bureau under Captain Fritz had 20 or more men assigned to it and the Burglary and Theft Bureau had more than 50 individuals assigned to it. Mr. Willens was asked whether or not he desired the identities of all of these individuals or whether the Commission was interested only in the identities of the individuals occupying the offices as such. It was pointed out to him that there was an assembly room in the police department which was utilized by the various detectives assigned to the various bureaus. Mr. Willens stated that their request should be confined to the identities of the individuals occupying the offices rather than setting forth the entire personnel working out of the various offices.

This information has been furnished to the Dallas Office and they are expeditiously complying with the Commission's request.

Dear Mr. Rankin:

Reference is made to your letter of April 23, 1964, and my letter of May 23, 1964, concerning Mr. Dial D. Ryder, employee Irving Sport Shop, and the repair tag bearing the name "Oswald."

Enclosed are two copies of a memorandum captioned "Lee Harvey Oswald" dated May 25, 1964, Little Rock, Arkansas. This memorandum reveals the results of interviews with Lt. James Randolph Oswald and Michael David Oswald both of whom are assigned to the Blytheville, Arkansas, Air Force Base.

With the submission of this memorandum your request of April 23, 1964, is completed.

aware of the tags existence. The Commission desired to know how, when and where the story concerning the repair tag first came to the attention of the press as the Commission is attempting to make a determination concerning the veracity of Mr. Dial D. Ryder, employee, and Mr. Charles Woodrow Greener, owner of the Irving Sport Shop. Inquiry was also to include whether all individuals with a surname of Oswald have been contacted to determine if any of these persons had repair work done at the Irving Sport Shop. Little Rock completed their interviews with two additional individuals by the name of Oswald, one of whom was determined to be a second cousin of Lee Harvey Oswald. This information is also incorporated in a report which is being handled by Division 5 and will be furnished to the President's Commission.

Mrs. Edith Whitworth claimed Oswald and his wife had visited her store allegedly looking for a gun part, subsequently she directed Oswald to the gun shop located east of her store. However, Marina Oswald does not recall ever visiting this store in early November. It is noted Michael David Oswald was not in Dallas during time alleged gun repair was made.

MISC. - INFO CONCERNING

ReButel 5-27-64, concerning J. W. Altgens various communications on Billy Nolan Lovelady and William F. Beckman.

Enclosed for your information is a copy of the above referenced article in the "New York Herald Tribune."

For your information the President's Commission by letter 2-24-64, advised that Harris appeared at the Commission and furnished several blown up copies of the Associated Press photograph wherein it appeared that an individual in the doorway of the Texas School Book Depository Building resembled Oswald. Your office conducted investigation in this matter which established the individual to be Lovelady. The Commission was furnished the results of your inquiry by Bureau letter 3-9-64.

NOTE:

Dallas, by airtel 4-7-64, and other communications, advised Lovelady had complained of being pestered by one W. L. Beckman who insisted on taking a photograph of him. Lovelady was informed this was civil matter and if he continued to be annoyed to call police. We did limited, discreet background on Beckman but failed to establish any connection between him and the assassination investigation. "Tribune" article is based on information supplied by Harris and states that Altgens took photograph in question and that Harris hired Beckman to photograph Lovelady. The article reports although Harris had been requested to not publicize this incident he, Harris, felt the Commission had slighted him in not furnishing him the details in its possession about this situation so he assisted in the preparation of the "Tribune" article.

We have endeavored to interview every individual known to have any information concerning the assassination, however, Altgens' identity has never been revealed and it is pointed out he never voluntarily came forward to furnish any information. Dallas is currently under instruction to interview Altgens based on an article in a Chicago paper that although Altgens was on the scene and has minute information concerning the assassination he was never interviewed and when results are obtained it will be furnished to the Commission.

The enclosed article is being furnished inasmuch as the Commission has indicated prior interest in Mr. Harris.

Dear Mr. Rankin:

This is in response to your letter of April 30, 1964, requesting a reinterview of Mr. Robert Adrian Taylor concerning the rifle he purchased either in March or April, 1963. Enclosed are two copies of a letterhead memorandum dated May 19, 1964, Dallas, Texas, which sets out this information.

It has been determined in the Laboratory examination of Taylor's rifle that it is a U. S. Rifle, caliber .30-06, Model 1903, serial number 6000[illegible], manufactured at the Rock Island Arsenal, Rock Island, Illinois. The upper and lower bands have been removed; the front portion of the stock has been cut off; the wooden hand guard originally covering the top of the barrel has been removed; the rear sight has been removed and replaced with telescopic sight mount blocks and the bolt handle has been ground down and bent so that it would not strike the telescopic sight tube when the bolt is operated. All other parts appear to be original, unaltered parts. The rifle has the standard length of 43 1/2". The barrel has not been shortened. The length of the longest portion (barrel and receiver) is 31 7/8". The stock portion is 28 3/4" long which is less than the standard length of 40 1/2" for a "non-sporterized" stock.

NOTE: Letter received from the Commission 4/30/64, requesting reinterview of Taylor who purchased a .30-06 rifle from an individual who he thought was Oswald. The Commission wanted Taylor reinterviewed to determine where the rifle was located on 11/22/63, as well as determining the date on which Taylor obtained the rifle and whether he had seen Oswald on any other occasion. The Commission desired specific information regarding the Taylor rifle's measurements and photographs in an assembled and disassembled condition. They also wanted the same technical information of a similar rifle as well as similar photographs of this rifle. The Laboratory handled the technical data and coordinated this matter with the Assassination Desk in Division VI.

Memorandum

TO : Mr. Mohr

DATE: May 22, 1964

FROM : C. D. DeLoach

SUBJECT: ASSASSINATION OF THE PRESIDENT
NBC FILM

The attached letter from Mr. Rankin to the Director dated May 18, 1964, requests that the National Broadcasting Company (NBC) be contacted to determine whether these officials have any "new film relating to the assassination."

ACTION TAKEN:

We contacted Mr. Robert Wogan, Vice President, Programs, Radio Network Division of the National Broadcasting Company, Inc., in New York City. Mr. Wogan advised Wick this morning that NBC does not have any new film relating to the assassination nor has it discovered any. Wick reminded Mr. Wogan that the May 7, 1964, issue of the "New York Herald Tribune" in an article written by Richard K. Doan stated that NBC planned a "white paper" on the assassination. Further that Irving Gitlin, the executive producer, was quoted as saying he "was reluctant to discuss whether any heretofore unseen film of the Dallas tragedy had been uncovered.

Mr. Wogan said he had personally talked to Mr. Gitlin who assured him that neither he nor NBC has any such film. Mr. Gitlin told Mr. Wogan that the TV-writer who prepared the statement for Gitlin took considerable "literary license" and "he elaborated" considerably to dramatize the forthcoming production. Mr. Wogan said actually what Gitlin is talking about is some film of interviews conducted by NBC in Dallas with persons a considerable time after the assassination.

ENCLOSURE

Mr. Wogan said he himself and NBC people are quite aware of the photographs which magazines, newspapers, wire services and television people obtained relating to the assassination. He said he can assure us that neither NBC nor any other media with which he is familiar has discovered any film not known to the FBI.

SUBJECT: ABRAHAM BOLDEN
INFORMATION CONCERNING

The "Washington Post" and "Times Herald", May 21, 1964, contained an article entitled, "Ex-Kennedy Guard Charges Frameup." The article indicated Bolden had been suspended as an Agent of the Secret Service and asserted he was "Framed" by the Government in a payoff case because he was going to tell of heavy drinking among the Agents guarding President Kennedy. Mr. Tolson inquiried what our files showed on Bolden.

Bureau files contain no references identifiable with Bolden, other than that received in the case captioned, "Charles Tillman Batchelor, Aka., Et Al., Interstate Transportation of Stolen Property, Master Check Case - Conspiracy." Subjects of the Batchelorcase and a Secret Service case are close associates.

The case investigated by the Bureau involves passing of $100,000 worth of counterfeit Bank of America Travelers Checks in 17 field divisions and Canada. The Secret Service case concerns passing of counterfeit Series E, U. S. Savings Bonds. Indictments were returned May 8, 1964. Seven subjects were arrested by the Bureau and five other subjects were arrested by Secret Service. There were no joint arrests, but arrangements were made to execute the arrests at the same time on May 9, 1964.

Bolden is a Secret Service Agent assigned at Chicago, Illinois, who has been accused of attempting to obtain $50,000 from Joseph Spagnoli, one of the subjects of the Secret Service case, in return for access to Secret Service reports. Spagnoli, who was on bond after his arrest by Secret Service on May 9, 1964, contacted the Chicago Office of the Bureau and claimed he had been approached to pay $50,000 for access to Secret Service records. U. S. Attorney, Chicago was advised and requested that Bureau conduct no investigation. The U. S. Attorney referred the matter to Secret Service and subsequently a conference was held in the U. S. Attorney's Office with the SAC, Chicago, FBI, and the supervising Agent of Secret Service in Chicago, Maurice Martineau. At this

conference it was disclosed Spagnoli also contacted Secret Service and furnished them a paragraph excerpt from a Secret Service memorandum. This paragraph involved the Secret Service case and Spagnoli and had been given Spagnoli as evidence of the ability to produce Secret Service reports.

Secret Service requested authority to conduct investigation of this matter, and the U. S. Attorney agreed. Frank Jones, subject of another Secret Service counterfeiting case, was identified as the one who contacted Spagnoli. Jones and his common-law wife, Jean Carpenter, were arrested by Secret Service on May 18, 1964, and implicated Bolden. Spagnoli and Jones testified before a Federal Grand Jury concerning this matter on May 19, 1964.

Bolden was also arrested on May 18, 1964, by Secret Service for his participation in this bribery attempt. His bond was set at $3500, and he was released on his own recognizance.

Bolden held a television and press conference at his home on May 20, 1964. He denied the charges against him. He alleged he was being "framed" because he planned to testify before the "Warren Commission," concerning laxity of Presidential guards in 1961 which involved drinking, absence from posts, and misuse of Government automobiles. Bolden also claimed the agent in charge of the investigation against him (not named) was "once investigated by the FBI for Communist links." (Bureau files contain no such reference to Martineau.)

U. S. Attorney Hanrahan on a live telecast stated he had complete confidence in Secret Service Agents and denounced the allegations of Bolden. Hanrahan questioned why Bolden remained silent from 1961 until now to make these charges, pointing out it would have been his duty to immediately report these allegations.

Washington, D. C.

Dear Mr. Hoover:

I am a retired Naval Reserve officer with active service and reserve time of over ten years. At various times during this period, I performed duties as security officer for the handling and safekeeping of classified documents. With this previous training, I recently witnessed an incident involving the handling of a classified report identified as "Top Secret", which raises several questions: (1) Was the individual involved entitled to have this report in his possession?, or, (2) If so entitled, does not the incident related below represent a substantial breach in the security of classified material?

The incident took place in the following manner. On Sunday, May 31 at 5:00 P.M., I boarded at Keene, New Hampshire, Northeast Air Lines' Flight #773 for New York. As the DC 6 aircraft was quite full, I took one of the two remaining lounge seats at the rear of the plane. The last lounge seat, which was adjacent to mine, was shortly occupied by another boarding passenger. This passenger was a man of an approximate height and weight of 5'11", 190 pounds. He had red hair, a round face, and a rather full red beard. He carried a slim black attache case with the initials "W.J.L." in gold on the case.

As soon as he was seated, this individual removed from his unlocked attache case a report with a cover identifying it as -

"U. S. Department of Justice
Copy No. 10 of 10
The President's Commission
on the
Assassination of President Kennedy"

This report contained mimeographed sheets beginning with page numbers in the high 300s and, judging by its thickness, contained about 100 pages. Each page was identified at the top and bottom in large block red letters "TOP SECRET", and the pages were mimeographed on one side only. This individual rather indiscreetly read this report on the

EX-114 REC-28 170

one hour flight down to New York, underlining certain sections, making interlineal notes in the body of the report as well as additional notes on a pad of 8½ x 14 yellow ruled paper. Without too much difficulty I could have read most of this report. However, because of the security classification of this document, I had no interest in doing so - with the exception that for further identification I attempted to memorize one sentence which occurred at the top of page 412 and read, to the best of my memory, as follows:

"Mr. Rankin: 'Did he take money from the wallet from time to time?'

Mrs. Oswald: 'No.' "

In making this report to you I sincerely hope I have not infringed on the security of this matter, and perhaps this letter should have been directed to the attention of the Attorney General. At the same time, I have a very high personal regard for the work of the Department under your direction and feel that any action you take on this information will be appropriate. If you decide that some further investigation of this material is necessary, I would appreciate the protection of my identity except to such people as it is reasonable and necessary to have this information.

Yours very truly,

What Oswald's Marine Buddy Told Probers

By Dom Bonafede
Of The Herald Tribune Staff

WASHINGTON.

A verbatim interview between a Marine buddy of Lee Harvey Oswald and the Warren Commission relates that the suspected assassin had ties with the Castro regime while still in the military service—more than four years before the Nov. 22 slaying of President Kennedy.

A copy of the interview further discloses that the witness, Nelson Delgado, a Specialist Fourth Class now serving in the Army at a New Jersey missile site, told a commission staff counsel the FBI "badgered" him for what he believed was an attempt to distort the nature of his testimony. (The FBI refused to comment.)

The official transcript, obtained by The New York Herald Tribune, also brings to light other unsuspected and little known facets of Oswald's background, as told to the commission.

¶Oswald took lessons in Spanish from Delgado—who was born in Brooklyn of Puerto Rican parents—with the intention of going to Cuba to join the Castro revolution and was soon able to conduct a normal conversation in the language.

¶While a private in the Marine Corps, Oswald kept a copy of "Das Kapital," the Communist party gospel in his barracks quarters and regularly received a newspaper printed in Russian.

¶Despite previous reports to the contrary, during his Marine hitch Oswald was a poor rifle shot, was uninterested in gunnery and was frequently reprimanded for not keeping his weapon in good order.

Asked during the interview "... In your opinion Oswald was not a good rifle shot; is that correct?" Delgado replied it was.

The document adds new dimension to the complex character of Oswald. In it Delgado relates how Oswald, an avowed atheist, ridiculed Marines who attended church on Sunday, and how he irritated his officers by flaunting his knowledge of international affairs.

This testimony was given by Delgado, a former Marine corporal, while being interrogated on four separate occasions by the FBI and reiterated in an appearance before Wesley J. Liebeler, a staff counsel for the Warren Commission. The panel of inquiry, headed by Chief Justice Earl Warren, was appointed Nov. 25 by President Johnson to make a comprehensive investigation of the assassination.

Complying with orders sent him the previous day, Delgado met Mr. Liebeler on April 16 in Room 4414 of the United States Courthouse in Foley Square, New York City. In essence, his testimony recapitulated, with elaboration, what he had earlier told the FBI—plus the contention the agents sought to deflate his story, particularly his statements that he taught Oswald to speak adequate Spanish and that Oswald was not an expert marksman.

INTEREST IN CASTRO

During the lengthy question and answer session Delgado said he met Oswald at the Marine air control base at Santa Ana, Calif., in late 1958 and that the two struck up a close acquaintanceship over their common interest in the guerrilla campaign then being waged by Fidel Castro.

Delgado recalled. "He was commenting on the fight that Castro was having at Sierra Madres (sic) at the beginning, just about the turn of '59. When I went on leave, it just so happened that my leave coincided with the Jan. 1, when Castro took over. So when I got back he was the first one to see me, and he said, 'Well, you took a leave and went there and helped them, and they all took over.' It was a big joke. So we got along pretty well. He had trouble in one of the huts and got transferred to mine."

Delgado told of "dreams" he and Oswald shared of going to Cuba and becoming officers in Castro's army.

"... So we were all thinking, well, honorable discharge, and I speak Spanish and he's got his ideas of how a government should be run, you know, the same line as Castro did at that time."

Q. "Oswald."

A. "Right. So we could go over there and become officers and lead an expedition to some of these other islands and free them, too, you know, from—this was really weird, you know, but—."

Q. "That is what you and Oswald talked about?"

A. "Right ... and we would talk about how we would do away with Trujillo, and things like that, but never got no farther than the speaking stage.

"But then when he started, you know, going along with this, he started actually making plans, he wanted to know, you know, how to get to Cuba and things like that. I was shying away from him. He kept on asking me questions like how can a person in his category, an English person, get with a Cuban, you know, people, be part of that revolution movement.

"I told him, to begin with, you have got to be trusted—right?—in any country you go to you have got to be trusted so the best way to be trusted is to know their language, know their customs, you know; so he started applying himself to Spanish, he started studying. He bought himself a dictionary, a Spanish-American dictionary. He would come to me and we would speak Spanish. You know, not great sentences but enough. After a while he got to talk to me, you know, in Spanish."

HOW COULD HE HELP?

Delgado said that Oswald "kept on asking me about how about—how he could go about helping the Castro government. I didn't know what to tell him, so I told him the best thing that I know was to get in touch with the Cuban Embassy, you know ... I told him to go see them. After a while he told me he was in contact with them."

Q. "With the Cuban Embassy?"

A. "Right. And I took it to be just a—one of his, you know, lies, you know, saying he was in contact with them, until one time I had the opportunity to go into his room. I was looking for—I was going out for the weekend, I needed a tie, he lent me the tie, and I seen this envelope in his foot-locker, wall-locker, and it was addressed to him, and they had an official seal on it, and as far as I could recollect that was mail from Los Angeles, and he was telling me there was a Cuban Consul. And just after he started receiving these letters..."

Delgado testified that soon after Oswald had returned from a trip to Los Angeles he confided he had been to the Cuban Consulate there.

Delgado recalled this on another occasion he had to relieve Oswald from night guard duty to see a visitor who called at the base.

Q. "Did you connect this visit that Oswald had at that time with the Cuban Consulate?"

A. "Personally, I did, because I thought it funny for him to be receiving a caller at such a late date—time. Also, up to this time he hardly ever received mail; in fact he very seldom received mail from home, because I made it a policy, I used to pick up the mail for our hut and distribute it to the guys in there and very seldom did I see one for him. But every so often, after he started to get in contact with these Cuban people, he started getting little pamphlets and newspapers, and he always got a Russian paper, and I asked him if it was, you know, a Commie paper—they let you get away with this in the Marine Corps in a site like this—and he said, 'No, it's not Communist; it's White Russian'."

Mr. Liebeler then asked if Delgado knew "for sure" whether the mail Oswald received was from the Cuban Consulate.

A. "No. But he had told me prior, just before I found that envelope in his wall-locker, that he was receiving mail from them, and one time he offered to show it to me, but I wasn't much interested because at the time we had work to do, and I never did ask to see that paper again, you know."

Q. "This conversation that you and Oswald had about going over in Cuba and helping Castro was just barracks talk."

A. "Right."

Q. "You didn't seriously consider—"

A. "No, but that's when I started getting scared. He started actually making plans, and how he would go about going to Cuba, you know, and where we would apply to go to Cuba and the people to contact if we wanted to go, you know, but—"

Q. "So you got the impression that he started to get serious about going to Cuba?"

A. "Yes, and about this time Castro started changing colors, so I wasn't too keen on that idea, myself."

Q. "Did you talk to Oswald about this change in Castro's attitude and his approach?"

A. "Right. He said that was all due to mal—bad newspaper reporting, that we were distorting the true facts ... because we were mad, because now we wasn't getting the money from Cuba that we were before."

Q. "So Oswald basically took the position that you were getting a distorted view of Cuba?"

CUBA NEWS DISTORTED

A. "Right, and we weren't getting the true facts of what was happening in Cuba. We were getting the distorted facts."

Delgado recalled once voicing criticism of the Castro regime because of the execution of an unimportant corporal in Batista's army and that Oswald had told him, "Well, in all new governments some errors have to occur..."

Throughout the interrogation the commission counsel would follow a line of inquiry, drop it and then return to it, a standard technique among investigators. He was particularly painstaking in his efforts to determine just how well Oswald spoke Spanish.

At one point, Delgado reported, "He (Oswald) could meet the average people from the streets and hold a conversation (in Spanish) with them. He could make himself understood and be understood."

Delgado also remembered that on one rare occasion Oswald joined some of his Marine buddies on a weekend leave to Tiajuana and that his grasp of the language was good enough to allow him to exchange light banter with the Mexican sporting girls who worked in the bar.

The witness readily conceded, none the less, that Oswald probably would have been unable to hold an involved political debate in Spanish.

Another section of the testimony concerned Oswald's ability to use a rifle.

Delgado told the commission counsel, [illegible] said to e men that interviewed me before, we went to the range one time, and he didn't show no particular aspects of ing a sharpshooter at all."

Q. "He didn't seem to be particularly proficient with e rifle, is that correct?"

A. "That's right."

Mr. Liebeler asked if Oswald kept his rifle "in good ape, clean?"

A. "He kept it mediocre. He always got gigged for his fle."

Q. "He did?"

A. "Yes. Very seldom did he pass an inspection without getting gigged for one thing or another . . . He didn't end as much time as the rest of us did in the armory eaning it up. He would when he was told to. Otherwise, wouldn't come out by himself to clean it. He was basically a man that complained quite frequently."

Delgado next reconstructed an incident that occurred the rifle range.

"We went out to the field, to the rifle range, and before set out we had set up a pot. High score would get this oney, second highest and so forth down to about the th man that was high."

Q. "How many men were there?"

A. ". . . About 40 of us were in the pot . . ."

Q. "And you say that Oswald finished fifth from the hest?"

A. "No. He didn't even place there. He didn't get any oney at all. He just barely got his score, which I think as about 170, I think it was, just barely sharpshooter . . no, pardon me, take that back, it's marksman is the west . . . Oswald had a marksman's badge, which was st a plain, little thing here which stated 'marksman' it."

Delgado continued, "We were on line together, the me time, but not firing at the same position, but at e same time, and I remember seeing his. It was a pretty joke, because he got a lot of 'Maggies' drawers, (a flag naling a miss) you know, a lot of misses, but he didn't ve a darn."

Q. "Missed the target completely?"

A. "He just qualified, that's it. He wasn't as enthusastic as the rest of us. We all loved—liked, you know ing to the range."

It was, later in the transcript, that Mr. Liebeler sumed the line of inquiry: "You told the FBI that in ur opinion Oswald was not a good rifle shot, is that rrect?"

A. "Yes."

Q. "And that he did not show any unusual interest his rifle, and, in fact, appeared less interested in weapons an the average Marine?"

A. "Yes, he was mostly a thinker, a reader. He read ite a bit."

Turning to the apparent discrepancies in the FBI report and Delgado's story, Mr. Liebeler asked, "Did you get e impression that the agent was trying to get you to ange your story?"

A. "Yes."

Q. "He was trying to get you to back away from the position that Oswald understood Spanish?"

A. "Well, am I allowed to say what I want to say?"

Q. "Yes, I want you to say exactly what you want to ."

A. "I had the impression now, wholeheartedly, I want believe that Oswald did what he was supposed to have ne, but I had the impression they weren't satisfied with testimony of him not being an expert shot . . ."

Q. "First of all, you say you got the impression the FBI ents that talked to you didn't like the statement that you ade about Oswald's inability to use the rifle well, is that ht?"

A. "Right."

DESCRIBED ORWELL BOOK

Delgado also recalled how Oswald once described "The Animal Farm" by George Orwell.

"He told me that the farmer represented the imperialistic world and the animals were the workers, symbolizing that they are the Socialist people, you know, and that eventually it will come about that the Socialists will have the imperialists working for them . . ."

Mr. Liebeler then commented, "There is only one thing Oswald did not mention apparently and that is that the pigs took over the farm, and then they got to be just like the capitalists were before, they got fighting among themselves, and there was one big pig who did just the same thing that the capitalist had done before. Didn't Oswald tell you about that?"

"No," Delgado answered, "just that the pigs and animals had revolted and made the farmer work for them . . ."

The witness said Oswald "didn't like the immediate people over him in this particular outfit. All of them weren't as intelligent as he was in his estimation."

Q. "What about your estimation, did you think that they were as smart as Oswald was?"

A. "Oswald, I remember, for instance, that Oswald used to get in heated discussions with a couple of the officers there."

Q. "The officers?"

A. "Right. And they'd be talking about, let's say, politics, which came up quite frequently during a break, let's say, and I would say out of the conversation Oswald had them stumped about four out of five times. They just ran out of words, they couldn't come back, you know. And every time this happened, it made him feel twice as good, you know. He thought himself quite proficient with current events, and politics."

Q. "He used to enjoy doing this to the officers, I could imagine."

A. "He used to cut up anybody that was high ranking, he used to cut up and make himself come out top dog. That's why whenever he got in a conversation that wasn't going his way he would get mad, he'd just walk off, you know, and leave."

Asked if he and Oswald ever talked about religion, Delgado replied, "That's the only thing he and I didn't discuss because he knew I was religious . . . In one instance he told me that God was a myth or a legend, that basically our whole life is built around this one falsehood, and things like that. I didn't like that kind of talk . . . He used to laugh at Sunday school, you know, mimic the guys that fell out to go to church on Sundays. He himself never went."

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, N. E.
Washington, D. C.

Dear Mr. Rankin:

The "New York Herald Tribune" for June 14, 1964, contained an article by Don Donfede entitled "What Oswald's Marine Buddy Told Probers." The article reports that Nelson Delgado, a Specialist Fourth Class now serving in the Army at a New Jersey missile site, told a Staff Counsel of the President's Commission that the FBI "badgered" him for what he believed was an attempt to distort the nature of his testimony. The article further reported that in essence, Delgado's testimony recapitulated, with clarification, what he had earlier told the FBI - plus the contention the Agents sought to deflate his story, particularly his statements that he taught Oswald to speak adequate Spanish and that Oswald was not an expert marksman.

A copy of the article which appeared in the June 14, 1964, issue of the "New York Herald Tribune" is enclosed.

For the information of the Commission, this Bureau interviewed Nelson Delgado on four occasions: December 10, 1963; December 13, 1963; January 15, 1964; and February 6, 1964. Results of each of these interviews have been furnished to the Commission.

During our first interview with Nelson Delgado on December 10, 1963, Delgado made a number of statements which did not conform with data we received from other sources concerning Oswald. He alleged that Oswald was a poor shot with a rifle and he indicated he suspected Oswald cheated in obtaining a qualifying score with the rifle. He also alleged that Oswald was in correspondence with the Cuban Consulate in Los Angeles in 1959 and he indicated that he and Oswald used to talk of going to Russia via Mexico and Cuba, similar to the manner in which the "two mathematicians who defected" went to Russia when they defected. Sincerely yours,

J. Edgar Hoover

employees of the National Security Agency, who defected to Russia in the Summer of 1960 and whose defections were publicized by the Soviets in September, 1960). Delgado also alleged that during his acquaintanceship with Oswald he taught Oswald the Spanish language and that in a short time Oswald was able to speak and understand Spanish excellently.

As our investigation continued, it became quite evident Delgado was exaggerating his acquaintanceship with Oswald, was lying to us on various points and was fabricating certain incidents relating to Oswald's contacts with the Cubans. We reinterviewed Delgado on December 13, 1963; January 15, 1964; and February 6, 1964, in an effort to pin him down on his statements and resolve the various allegations originated by him. We learned that Delgado was not proficient in the Spanish language and, consequently, was not in a position to have taught Oswald such language. Delgado admitted that his remarks indicating that Oswald was a poor shot with a rifle had no basis in fact, and that Oswald obviously attained a qualifying score with a rifle and could not have cheated in attaining such score. Delgado also admitted that he never observed Oswald visit the Cuban Consulate in Los Angeles in 1959 and he indicated he never saw any written material which Oswald received from the Cuban Consulate.

Delgado was confronted by the interviewing Agents regarding his statements that he and Oswald discussed going to Russia via Cuba and Mexico in a manner similar to the two Americans, Mitchell and Martin, who allegedly followed this route. It was pointed out to Delgado that Mitchell and Martin had not defected to Russia until the Summer of 1960, approximately one year after he had terminated his association with Lee Harvey Oswald. Delgado then admitted that he was in error on that point. He added that his recollection of his conversation with Oswald in this particular matter was extremely vague.

This letter is being forwarded to the Commission for record purposes. The FBI, in no way, attempted to influence Delgado to change his story regarding his knowledge of or association with Lee Harvey Oswald. Instead, our contacts with him were for the purpose of attempting to obtain the true facts in the matter. It was evident to the interviewing Agents that Delgado was exaggerating the extent of his knowledge of Lee Harvey Oswald and was making numerous statements that had no basis in fact.

Sincerely yours,

J. Edgar Hoover

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY, DALLAS, TEXAS; 11/22/63

Reference memorandum dated February 26, 1964, from W. D. Griffith concerning a continuing project wherein the Bureau had undertaken to furnish the Commission with photographs of all Commission exhibits.

On 6/18/64, Miss Mary A. Rowcotsky requested that SA Cortlandt Cunningham take custody of the exhibits listed on the attached list. She further requested that the Commission be furnished three copies of each exhibit not previously reproduced. It is pointed out that SA Cunningham was at the Commission at that time on another matter.

This work will be handled by an Agent Examiner of the Laboratory's Document Section.

ACTION: Exhibits will be photographed or otherwise reproduced and three copies will be supplied to the Commission as requested. Those items originally supplied to the Commission by the Bureau will be kept in Bureau custody. Items not originating from the Bureau will be returned along with the photographs. (Designated by *)

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, N. E.

Dear Mr. Rankin:

Reference is made to your letter of June 2, 1964, requesting that this Bureau obtain for the Commission copies of all of the records concerning Lee Harvey Oswald that are maintained by the Texas Employment Commission, Fort Worth, Texas.

On June 5, 1964, Mr. William H. Hofner, Supervisor, Texas Employment Commission, Fort Worth, Texas, made available to this Bureau a work order concerning Lee Harvey Oswald. According to Mr. Hofner, this work order reflects that Oswald was sent to the Leav-A-Pak, Division of Acme Welding Company, Fort Worth, Texas, to make an application for a job with that company. Two photographic copies of the work order made available by Mr. Hofner are enclosed for the Commission.

Mr. Hofner further advised that the aforementioned work order is the only record available at the Texas Employment Commission, Fort Worth, Texas, regarding Lee Harvey Oswald. He stated that in November, 1963, he and Mrs. Virginia Hale, a fellow employee, checked through all records of the Texas Employment Commission, Fort Worth, Texas, in an effort to find the original application filed by Oswald when he first came to the Texas Employment Commission office. He added that they were not able to find such original application, but pointed out that a number of old applications had been destroyed and it is possible the application of Lee Harvey Oswald was destroyed.

Dear Mr. Hoover:

Thank you for your letter of June 12, 1964 indicating that New York telephone number TE 8-7475, found in one of Jack Ruby's notebooks in connection with the name of Ralph Paul, is presently listed to A. Snyman, a member of the Permanent Delegation of the Union of South Africa to the United Nations.

The notebook from which that number was obtained appears to contain some notations which antedate 1963. It may well be that the number TE 8-7475 was listed to some other individual besides Mrs. Snyman at the time Ruby obtained it. In addition, examination of the notebook indicates the proper number may be TE 3-7475 rather than TE 8-7475.

Please interview Ralph Paul in connection with those two numbers and undertake such investigation as may be appropriate, consistent with the limitations imposed by international implications, to verify any explanation provided by Mr. Paul.

Sincerely,

Enclosed is a copy of a letter received from the President's Commission dated 6/17/64 requesting interview of Ralph Paul in connection with telephone number TE 8-7475 which number was found in one of Ruby's notebooks in connection with the name of Ralph Paul.

The Commission also notes that this number could possibly be TE 3-7475 rather than TE 8-7475. It is noted that in report of SA Manning C. Clements dated 6/9/64 at Dallas information is set forth indicating that telephone number TE 8-7475 was possibly identified with a Fort Worth, Texas, resident, Mr. Carl M. Applewhite, a cousin of well-known singer and night club operator Charles Applewhite.

Inasmuch as this matter has not been definitely resolved you should immediately conduct the requested investigation and thereafter submit letterhead memorandum setting forth the results of this investigation for dissemination to the President's Commission.

NOTE:

By letter dated 6/17/64 the Commission requested Ralph Paul be interviewed concerning a telephone number TE 8-7475 which was found in one of Ruby's notebooks following a notation Ralph Paul, a close associate of Ruby. Previous investigation eliminated this number as being a Dallas, Texas, number there being no TE prefix in Dallas and other prefixes with same digits have been eliminated. Dallas determined New York had such a prefix and requested New York to determine if subscriber to Templeton 8-7475 could be associated with Ruby. One A. Snyman, member of Permanent Delegation of the Union of South Africa to the United Nations, was subscriber to above New York number. This individual when contacted refused to be interviewed as she stated she had diplomatic immunity and if interview was desired it would have to be arranged through the ambassador. The State Department and the President's Commission was advised of this information by letter dated June 12, 1964. We have also determined the TE-8-7475, Fort Worth, Texas, is subscribed to by a cousin of Charles Applewhite, a well-known singer and night club operator in Dallas. This could possibly, but not definitely, be the connection. Commission has been advised of this in our reportedated 6/9/64.

Dear Mr. Hoover:

I am in receipt of a written request from Mrs. Michael Paine (Ruth Paine) that there be returned to them various items of personal property of theirs which were removed from their home at 2515 West 5th Street, Irving, Texas, by local police officers on the afternoon of November 22, 1963. We have examined the FBI index of personal property taken from the Paine home by the local police and delivered in due course to your office in Dallas, Texas. We find various items of personal property of the Paines included on the list which are no longer of any interest to the Commission. Therefore, insofar as the Commission is concerned, you may redeliver the items to Mr. and Mrs. Paine.

They consist of:

1. Item 353: Operating manual for Sears Tower Automatic Projector No. 9885.

2. Item 371: Several boxes of Kodaslides being nine stereo and one 35mm single slide.

3. Item 372: Box of Kodachrome transparencies; two viewmaster reels.

4. Item 374: Ten foreign coins contained in cloth bag marked M. Paine.

5. Item 375: Minox light meter, pedometer, compass, self-timer, sun shade with filter, 15 power telescope, stereo viewer, and pocket knife.

ORIGINAL FILED IN 105-82555-4190

6. Item 376: Three rolls color film, three rolls 35mm B & W film, one roll #620 B & W film, two binoculars, one case with filters.

7. Item 377: Two Minox cassettes with film, two Minox film containers, one negative of an infant, one roll 35mm film.

8. Item 378: Stereo Realist camera, three film containers.

9. Item 379: ANSCO flash assembly.

10. B-2: Minox light meter case.

11. B-17: Name tag Michael Paine.

12. B-18: Name tag Ruth Paine.

In her letter, Mrs. Paine lists the items of their personal property which she currently recalls as being:

"1) Color slides (35mm) of Europe taken by me.

"2) Color slides of Korea and Nassau taken by Michael. Some or all of these taken by a stereo camera.

"3) The stereo camera.

"4) Flash attachment, ANSCO universal.

"5) Telescope (flashlight shape) belonging to Michael.

"6) Minox light meter and its case"

The items as listed and described by her appear to be included among Items 353, 371-379, B-2, B-17 and B-18, which I have described above.

Thank you for your continued cooperation and assistance in the work of this Commission.

By letter dated 6/10/64, the President's Commission advised that Mrs. Michael Paine, 2515 West 5th Street, Irving, Texas, had requested the return of certain items of personal property. The Commission listed these items as set out below and advised the items are no longer of any interest to the Commission. These items are being forwarded to you under separate cover by registered mail.

The Dallas Office should return these items to the Dallas Police Department from whom the FBI originally obtained them, receiving a receipt, and request the Dallas Police Department to return them to Mr. and Mrs. Paine.

The items to be returned are listed on the attached sheet.

The Dallas Office should inform Mr. or Mrs. Paine that these items have been given to the Dallas Police Department for return to them.

NOTE: The return of these items has been cleared with the Domestic Intelligence and General Investigative Divisions.

NOTE:

Commission by letter 5-20-64, listed some 37 items of evidence which they wanted shown to the individual who first found the evidence and who could identify it by inspection. On 5-22-64, Jevons of the Laboratory in a conversation with the Commission determined that wherever possible photographs of evidence could be used in place of the actual evidence. Some of the items to be identified were obtained by WFO, Bureau officials and by other field offices. This was quite an extensive undertaking and the Bureau by rad 6-17-64, requested the status of this request. Dallas by airtel 6-17-64, indicated some difficulty was being encountered which might require submitting evidence to WFO for display to various outside officials which is beyond our control. This will continue to be closely followed at the Bureau.

NOTE:

Perrin was initially interviewed on 11/30/63 when she advised that she had worked for Jack Ruby as a bartender, waitress at the Carousel Club in July and August, 1961. She alleged that she had attended four meetings of a group including Ruby in Dallas where they discussed sending arms to Cuba. Subsequent investigation and interviews of Perrin and other persons named by her to check out her story indicated that she was an "inveterate" [redacted] and completely unreliable. She was afforded a polygraph examination by the San Francisco Office on 12/5/63. The results were inconclusive due to her emotional stability and use of drugs but the examiner was of the opinion she suffered from delusions and that her story concerning arms to Cuba was untrue. The Commission indicates that they took a deposition from Perrin on 6/2/64 wherein she apparently claimed that she had worked in an investigative capacity for the District Attorney, Sacramento, California, and as an undercover agent for the Oakland PD. She also claimed that she had been followed from her home in Hanover, Massachusetts, to Mansfield, Mass., which she reported to the police, and that she received an anonymous threatening call which she reported to the Hanover, Mass., police. Commission requested that we check out these claims of Perrin in order to evaluate her deposition.

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY
REQUEST BY THE COMMISSION

1 - Mr. Conrad
1 - Mr. Griffith
1 - Mr. Shaneyfelt

By letter 6/3/64 the Commission requested that an Agent contact Mr. Burt W. Griffin of the Commission staff so that arrangements could be made to make time computations and obtain blow-ups of a few frames from movie films in the possession of the Commission. These frames show the shooting of Oswald and a clock in the Dallas Police Department Jail Office shortly after the shooting. The Commission is interested in this time study to pinpoint as accurately as possible the time of the shooting of Oswald by Ruby.

On the afternoon of 6/5/64 SA Shaneyfelt contacted Mr. Griffin at the Commission office and obtained from him the following films and tapes:

Exhibit 84A	Silent film of Oswald shooting from KRLD-TV
Exhibit 24-A	Sound film of Oswald shooting from Mr. Burt Shipp, WFAA-TV
Exhibit HH	Sound film of Oswald shooting taken by John Tankersley, WBAP-TV
Exhibit 43A	Sound film of Oswald shooting from Operations Desk, KRLD-TV
Exhibit GG	16 mm film of Oswald shooting from John Tankersley, WBAP-TV
Exhibit AA	Sound tape of press statement by Chief J. E. Curry from KRLD-TV
Exhibit 99-A	Sound tape of Oswald shooting from WFAA Radio
Exhibit 39A	Tape of interview of Eva Grant from Radio Station KLIF
Exhibit 43-B	Still photographs from silent film of Oswald shooting from KRLD-TV (Mr. Robert Hankal)
Exhibit 84-B	Still photographs of silent film of Oswald shooting from KRLD-TV (Mr. George Phenix).

RECOMMENDATION: It is recommended that SA Shaneyfelt examine the films as requested by the Commission and, thereafter, furnish the results to the Commission by letter.

Dear Mr. Rankin:

In reply to your letter of June 1, 1964, requesting investigation into the activities of Jack Ruby while he was in military service from 1941 to 1946, I am enclosing herewith a memorandum dated June 5, 1964, at Chicago, Illinois, setting forth an interview with Mr. Hershey Colvin on that date.

With regard to your request that the non-commissioned officers who directly supervised Ruby be interviewed, this Bureau is currently conducting a check of service records at the U. S. Army Records Center, St. Louis, Missouri, in an effort to identify those non-commissioned officers. If they can be identified, it will be necessary to conduct extensive investigation possibly reaching to all parts of the country in an effort to locate and interview them. You will be furnished with results of interviews with those persons promptly as they are located.

Investigation concerning the Selective Service record of Ruby is also currently in progress and you will be furnished results upon completion.

We previously interviewed Colvin who is an old Chicago acquaintance of Ruby regarding Ruby's activities in Chicago during period he knew him there. Colvin was also with Ruby in service at Keesler Field, Mississippi, in 1943. It was also requested that we locate and interview the non-commissioned officers who supervised Ruby while he was in service and we check his Selective Service record.

Dear Mr. Hoover:

As a result of deposing William D. Crowe aka Bill DeMar the Commission would appreciate your providing the following information:

1. A record of all telephone calls showing time, length, and destination placed by Mr. DeMar from the Shady Oaks Motel Dallas and the Palomino Hotel, Dallas on November 24, 1964;

2. The check-in time of Mr. DeMar at the Shady Oaks Motel;

3. The check-out time of Mr. DeMar at the Palimino Hotel, Dallas, on November 24, 1963.

4. An interview with Mr. David Hoy, Radio Station WIKY, to determine whether DeMar mentioned seeing Oswald in Hoy's first telephone conversation with DeMar on November 24, when Hoy received such information if not during the first call, and what Hoy did thereafter.

5. A checkout of long distance telephone records relating to calls made by Mr. Hoy on November 24, most particularly a call Hoy placed to Martin Anderson, Associated Press, Indianapolis, Indiana sometime before 2:30 p.m. on November 24. The latter call was probably made either from Hoy's home phone or from WIKY.

6. The periods, if any that the Theater Lounge and Colony Club in Dallas were closed on November 22, 23, & 24.

Enclosed herewith for Dallas and WFO are two copies of a memorandum from the President's Commission dated 6/5/64 requesting certain investigation relating to Mr. Seth Kantor.

WFO conduct the requested investigation relating to long distance telephone calls placed by Kantor to Washington, D. C., between 12:45 p.m. and 2:00 p.m. on November 22, 1963. Your inquiry should cover both Eastern Standard and Central Standard Time within the period specified. Submit results by letterhead memorandum suitable for dissemination to the President's Commission. Furnish appropriate FD-302's to Dallas for inclusion in a later report.

Dallas will conduct the requested review of television tapes in possession of WFAA-TV.

There are also enclosed for Dallas two copies of a letter from the Commission dated 6/8/64 requesting certain investigation in connection with depositions furnished by William D. Crowe, aka Bill DeMar, to the President's Commission. Dallas handle the requested investigation.

Dallas submit a separate letterhead memorandum covering investigation requested in each of enclosed letters suitable for dissemination to the President's Commission promptly upon completion of your inquiry.

NOTE:

Seth Kantor, a reporter for Scripps-Howard, Washington, D. We have conducted extensive investigation to check this out and our investigation establishes that Ruby could not reasonably have been at the Parkland Memorial Hospital during this period. Commission also requests additional investigation re Bill DeMar and his activities during the period 11/22/63 through 11/24/63. DeMar is the performer for Jack Ruby who claimed to the press that he saw Oswald in the Carousel Club prior to the assassination. He has, when interviewed, retracted this allegation.

I, Louis M. Kelley, Special Agent, Federal Bureau of Investigation, after being duly sworn, depose as follows:

I arrived at Dallas, Texas, November 23, 1963, to assist in the investigation of the assassination of President John Fitzgerald Kennedy and related matters. On or about November 24, 1963, I was assigned to review all previously existing files and current information as to Jack L. Ruby and to prepare an insert based on such file review for inclusion in an investigative report. This insert was to include such physical description and biographical data as were available from the file review and from information developed on November 24, 1963. I had before me at the time I dictated the insert information which had been obtained on November 24, 1963, by other Special Agents of the FBI and from the Identification Division files of the Dallas Police Department. The Dallas Police Department records, under Dallas Police Department No. 22255, included information concerning arrests of Ruby dating from February 4, 1949, to March 14, 1963.

In dictating the physical description and biographical data concerning Ruby, I possibly included under the heading "Remarks," "Known Dallas area criminal," based on the fact I had before me Ruby's identification record from the Dallas Police Department, which listed several arrests in the Dallas area. This would have been the only thing on which such an observation could have been based.

Dear Mr. Rankin:

Your letter of June 1, 1964, requesting summaries of FBI reports with regard to ten named persons and certain information regarding the contact by Special Agent Charles W. Flynn with Jack L. Ruby on March 11, 1959, is herewith acknowledged.

As you were advised by my letter of February 27, 1964, Jack Ruby was contacted by Special Agent Charles W. Flynn of the Dallas Office on March 11, 1959, in view of his position as a night club operator who might have knowledge of the criminal element in Dallas. The purpose of this contact was to determine whether or not Ruby did have such knowledge, and if so, if he would be willing to furnish information to this Bureau. Ruby was advised of the FBI's jurisdiction in criminal matters, and he expressed a willingness to furnish information. A personal description of Ruby was obtained by Special Agent Flynn on the occasion of this contact on March 11, 1959, but no information or other results were obtained. Between March 11, 1959, and October 2, 1959, Ruby was contacted on eight other occasions, but he furnished no information whatever and further contacts with him were discontinued.

Honorable J. Lee Rankin

The personal description of Ruby as obtained by Special Agent Flynn on March 11, 1959, did not in itself contain the remark "known Dallas criminal." This remark was added to the description by Special Agent Louis M. Kelley at the time when he was assisting in the preparation of the report of Special Agent Manning C. Clements at Dallas dated November 30, 1963. Enclosed herewith is the affidavit of Special Agent Louis M. Kelley at Little Rock, Arkansas, dated June 4, 1964, setting forth his basis for adding the remark "known Dallas area criminal" to the description of Ruby as it appears in the report of Special Agent Manning C. Clements at Dallas dated November 30, 1963, and in the enclosure to my letter to you of April 7, 1964.

The summaries concerning the ten named individuals in your letter of June 1, 1964, are currently being prepared and will be forwarded to you promptly upon completion.

Sincerely yours,

J. Edgar Hoover

Enclosure

NOTE: The President's Commission by letter dated 6/1/64 requested that we prepare summaries of information from FBI files on ten persons who were known to have associated with or been in contact with Ruby prior to the shooting of Oswald by Ruby. They also referred to our letter of 4/7/64 which forwarded to the Commission summaries from our files of references to Ruby prior to 11/24/63. One of the summaries set forth a description of Ruby obtained from contact with him by SA Charles W. Flynn on 3/11/59. The Commission requested that we advise them of the purpose and other results of Flynn's contact and request Flynn to indicate the basis of the remark "known Dallas criminal" which appeared in the description. We previously advised the Commission by letter 2/27/64 of the purpose and results of Flynn's efforts to develop confidential information from Ruby in 1959. It was determined that the remark in the description was added after a review of the files by SA Kelley. His affidavit setting forth the basis of this observation is enclosed to the Commission.

Honorable J. Edgar Hoover
Director, Federal Bureau of

Dear Mr. Hoover:

This is in response to your letter of April 2, 1964, in which you advert to various letters and notes exchanged between Marina Oswald and Ruth Paine, the originals of which Mrs. Paine declined to surrender to your agents when they contacted her on March 6, 1964, although Mrs. Paine acknowledged to them that the documents were in her possession.

You request in your letter, assuming the documents in question came into the possession of the President's Commission, that copies thereof be supplied to you. Mrs. Paine appeared before the Commission and testified. She produced all of the correspondence to which she adverted when interviewed by your agents on March 6, 1964.

You list the documents in four categories. I respond in like manner:

"1. Four letters written to her by Marina Oswald when the latter resided in New Orleans, Louisiana, in the Spring and Summer of 1963"

We believe the letters to which you advert (copies of which are enclosed) are: (a) Commission Exhibit No. 408 (and envelope being Commission Exhibit No. 408A) dated May 25, 1963; (b) Commission Exhibit No. 409, being letter of June 1, 1963, from Ruth Paine to Marina which Marina returned to Mrs. Paine with various notations in Marina's hand calling attention to grammatical and other errors in Ruth Paine's letter; (c) Commission Exhibit No. 409B being letter of June 5, 1963, from Marina to Ruth Paine, and Commission Exhibit No. 409A in

which Exhibits 409 and 409B were enclosed; (d) letter from Marina to Ruth Paine written in July of 1963, and marked Commission Exhibit No. 415; and (e) letter (Commission Exhibit No. 421) and envelope (Commission Exhibit No. 420) from Marina to Ruth Paine dated and postmarked August 11, 1963.

"2. Two short notes written to her by Marina Oswald while Marina and Lee Harvey Oswald resided at 214 West Neely Street, Dallas, Texas, in the Spring of 1963"

These two exhibits were produced by Mrs. Paine and were received in evidence. They are: (a) March 4, 1963, note from Marina to Ruth Paine (Commission Exhibit No. 404) transmitted in envelope (Commission Exhibit No. 404A) postmarked at Dallas, Texas, March 8, 1963, with the return address of 214 Neely, Dallas, Texas; and (b) note from Marina to Ruth Paine (Commission Exhibit No. 407) transmitted to Mrs. Paine shortly before April 2, 1963, in which Marina accepts Mrs. Paine's dinner invitation that had been extended to Marina and Lee Harvey Oswald. Mrs. Paine did not have the envelope in which the note was dispatched. Copies of these exhibits are enclosed.

"3. A short note written to Marina Oswald by Mrs. Paine but never delivered"

Mrs. Paine produced before the Commission a five-page long-hand letter dated April 7, 1963, addressed to Marina and signed by Mrs. Paine, which Mrs. Paine testified had never been sent. The document was received in evidence as Comission Exhibit No. 422, a copy of which is enclosed. Mrs. Paine states that this is the only note or letter to Marina that she can recall that was not eventually sent by Mrs. Paine to Marina.

Mrs. Paine's translations of the foregoing exhibits appear in the transcript of her testimony before the Commission as follows:

Exhibit No. and Description	Page in Transcript
No. 404 - Note of March 4, 1963	3541

Exhibit No. and Description	Page in Transcript
No. 407 - Long-hand note in March of 1963	3545
No. 408 - Letter of May 25, 1963	3546-48
No. 409 - Letter of June 1, 1963	3549-51
No. 409B - Letter of June 5, 1963	3552-53
No. 415 - Letter of July of 1963	3560-62
No. 421 - Letter of August of 1963	3566-68
No. 422 - Mrs. Paine's undelivered letter of April 7, 1963	3569-70

Unmentioned in your letter but produced by Mrs. Paine on the taking of her deposition in Irving, Texas, on March 23, 1964, is a Christmas card from Marina containing a long-hand note of hers to Mrs. Paine. The Christmas card was received in an envelope postmarked December 21, 1963. The Christmas card was received in evidence as Commission Exhibit No. 278 and the envelope as Commission Exhibit No. 278A. Copies of each of these documents are enclosed herewith. A translation of the notation on the Christmas card appears at page 122 of that deposition.

In the last paragraph of your letter you state, "For your information, this Bureau has received an allegation that Mrs. Paine had given Levine five letters which had been written by Lee Harvey Oswald and which have never been made available to United States Government authorities . . . ". The member of my staff who examined Ruth Paine before the Commission and who deposed her in Irving, Texas, on March 23, 1963, has made direct inquiry of Mrs. Paine on this subject. She asserts that she never delivered any such letters to Mr. Levine for the reason that she never had any such letters.

I trust that the foregoing, together with the enclosures, fully responds to your letter of April 2, 1964. Thank you for your continued interest in the work of this Commission.

Sincerely yours,

J. Lee Rankin

NOTE FOR DALLAS:

Enclosed for Dallas is one set of photocopies of the above-mentioned Commission exhibits being sent to the Commission, together with listing of same.

NOTE: Those Commission exhibits originally supplied to the Commission by the Bureau will be retained in Bureau custody. Commission exhibits not originating from the Bureau, designated by the asterisk on the attached listing, are being returned to the Commission along with the photographs. Commission exhibits numbered 480 through 482, 715 and 716, designated by asterisks on the attached listing, were returned to the Commission with a letter dated 6/5/64.

It is noted that some of the exhibits of which photocopies were made consist of more than one page and in order to avoid confusion the three sets of photocopies are being counted as three enclosures.

Commission Exhibits numbered 712 through 714 received with referenced letter, were returned to the Commission with Bureau letter dated 5/26/64 in which it was stated that photocopies of these exhibits were furnished previously to the Commission.

By letter dated June 4, 1964, James R. David, 2029 Greenwood, Wilmette, Illinois, furnished information involving the handling of a classified report identified as Top Secret, wherein he raised several questions concerning the handling of classified material.

Mr. David advised the incident took place on May 31, 1964, when he was en route from Keene, New Hampshire on Northeast Airlines to New York. Inasmuch as the plane was quite full, he took one of two remaining lounge seats in the rear of the plane. Mr. David advised the seat adjacent to him was subsequently occupied by an individual carrying a briefcase bearing the initials W. J. L. and he furnished the following description of this individual: Approximate height and weight of 5' 11", 190 pounds; red hair; round face; and rather full red beard. (There is an individual on the President's Commission staff by the name of Wesley James Liebeler, and in view of the information furnished by Mr. David there appears to be little doubt that this individual is Mr. Liebeler.)

Bureau files are negative concerning James R. David.

ACTION:

There is attached a letter to Mr. Rankin enclosing a copy of Mr. David's letter and also a letter to Mr. David thanking him for making the information available and advising him that a copy of his letter was made available to Mr. Rankin.

SUBJECT: PRESIDENT'S COMMISSION
ASSASSINATION OF THE PRESIDENT

To: Belmont, Mohr, Casper, Callahan, Conrad, DeLoach, Evans, Gale, Rosen, Sullivan, Tavel, Trotter, Tele. Room, Holmes, Gandy

Memo of 6/8/64 from Rosen to Belmont recommended that Mr. James Rowley, Chief, U. S. Secret Service, be permitted to come to the Bureau headquarters in order that he might review that portion of the testimony given by the Director and Mr. Belmont relating to items affecting Secret Service.

Inspector Tom Kelley of Secret Service was telephonically advised at 1:40 p.m. June 9, 1964, that it would be permissible for Mr. Rowley to come to Bureau headquarters in order that he might review the aforementioned testimony.

Inspector Kelley stated that he would pass this word on to Mr. Rowley and Mr. Rowley would contact Malley and work out the necessary arrangements to review the testimony.

On June 10, 1964, Inspector Kelley advised Malley that Mr. Rowley planned to review this testimony on Monday, June 15, 1964, and that he would call later on and work out a definite time for Mr. Rowley to come to the Bureau.

These memoranda pertain, as you can see, to conversations which allegedly took place on February 9, 1964, involving Thayer Waldo, Pat Clyde Howard, and Special Agent James H. Howard. The June 5, 1964, memorandum includes Waldo's statement as to his version of the conversations.

Copies of these memoranda have been disseminated to the President's Commission. They are being furnished you for your information. For your additional information, the memorandum of Special Agent James H. Howard, White House Detail, dated May 27, 1964, has also been furnished to the President's Commission.

they never indicated that this Negro male had actually been a witness to anyone shooting at the President and the conversation was in a joking and jesting manner. They pointed out that Waldo, who was in the back seat, apparently must have misunderstood the entire conversation. The next day Waldo wrote a story in his newspaper about a witness being held by authorities who actually saw Oswald shooting. In May, 1964, the "National Guardian" published an article wherein it was reported that Mark Lane claimed that the Secret Service had deliberately planted false story in the press to pass further guilt on Oswald. This article named the Howard brothers and Waldo and the story spoken of was apparently the one written by Waldo. The enclosed memorandum of 6/5/64 includes Waldo's version of this incident and also the results of the interview with Pat Clyde Howard who is now a police officer in Hurst, Texas. The other enclosed memorandum includes results of the interview with Special Agent Howard, U. S. Secret Service.

Re airtel from Dallas enclosed a letterhead memorandum in which Martin comments on the succession of shots fired at President Kennedy. She apparently has relied on press accounts and other such pronouncements relating to speculation and theories since the assassination on this particular subject. Altgens took the photograph and the article revealed Harris had been requested not to publicize this information. However, Harris had felt the Commission had slighted him in not furnishing him the details in the Commission's possession about the situation. Therefore, he assisted in the preparation of the "Tribune" article.

We have endeavored to interview every individual possessing information concerning the assassination. However, Altgens' identity was never revealed and he never voluntarily came forward to furnish any information. The information regarding the fact Altgens had never been interviewed either by the Bureau or the President's Commission, not only appeared in the "Tribune" article, but appeared in the "Chicago American" in a column captioned "Daly Diary" written by Maggie Daly. The Commission had prior interest in Jones Harris and with the submission of the results of the interview with Altgens completes this matter.

Dear Mr. Rankin:

Refer to my letter of June 11, 1964, furnishing to you the results of this Bureau's interview of Mrs. Gale Ann Cascaddan, nee Eaton. Enclosed herewith are two copies of a memorandum dated June 8, 1964, at Dallas, Texas, setting forth the results of our investigation to identify the person with whom Curtis Laverne Crafard hitchhiked a ride on November 23, 1963, and the results of our interview with this person, Clarence Aubry Summers.

This completes the investigation requested in your letter of June 1, 1964, to verify the statements of Crafard to the Commission in his deposition.

NOTE:

Curtis Laverne Crafard, who was employed as a handyman by Ruby until he left Dallas on the morning of 11/23/63, in deposition to the Commission stated that he hitchhiked a ride out of Dallas with a person who had worked as a photographer at the Dallas Fair where Crafard first met Ruby and who was driving a 1954 or 1955 Chevrolet. Commission requested that we identify and interview this person. It was also requested that we interview a Miss Gale Eaton of Harrison, Michigan, whom Crafard apparently visited after he left Dallas. Results of our interview with Eaton were furnished to the Commission by letter of 6/11/64. Investigation of the Dallas Office identified the person with whom he hitchhiked a ride as being Clarence Aubry Summers, and he was interviewed on 6/6/64. Crafard was interviewed by the Bureau in the initial stages of this investigation, and we conducted extensive investigation at the request of the Commission to locate him so that he could be subpoenaed by the Commission.

changing the meaning of Lane's comments. Lane claims that the comments on the records were made in his testimony before the President's Commission on March 4, 1964. The comments made in the records and in the text are a repetition of his previous claims about the innocence of Oswald and are based on speculation, omission of or lack of complete facts and early and confused press reports of the assassination. His comments also include his request to the Commission to be permitted to act as counsel for Oswald and to thus have the right to examine material in the Commission's possession and to cross-examine witnesses and present evidence. Commission also being furnished letterhead memorandum from Legat, London, re "Who Killed Kennedy Commission" established in England for Lane's support which is apparently spearheaded by the controversial British philosopher Bertrand Russell. Records being furnished the Commission have been produced under the recording label "Broadside Records" on which Bufiles negative. Records state they were produced with the cooperation of Folkways Records, New York City. Bufiles indicate [redacted] It is noted that Folkways Records were reportedly manufacturing long-playing records for the Fair Play for Cuba Committee in 1962 consisting of Cuban revolutionary songs, although investigation indicated Folkways did not have any business connection concerning these records with the Cuban Government.

Dear Mr. Rankin:

With reference to your letter of May 26, 1964, requesting that this Bureau identify the subscriber to telephone number TE 8-7475 outside of the Dallas area, if possible, you are advised that through a check with the telephone company it was determined that the telephone number TEmpleton 8-7475, New York City, has this designation. That number is listed to one A. Snyman, 250 East 65th Street, New York City.

Several attempts were made by Agents to contact someone at this number and address and on June 10, 1964, a woman answered the telephone and stated that she could not speak to the Agents in her apartment but would meet them in the lobby of the apartment building. The woman was met in the lobby by two Agents of the New York Office. They exhibited their FBI credentials and advised her that they wished to interview her in connection with the investigation concerning the assassination of President Kennedy and related matters.

The woman identified herself as A. Snyman and stated that she was a member of the Permanent Delegation of the Union of South Africa to the United Nations. She said that she had diplomatic immunity and that if an interview was desired, it would have to be arranged through Ambassador M. T. Botha. The Agents thereupon terminated the interview.

Dear Mr. Rankin:

In reply to your letter of June 4, 1964, requesting that we locate and interview the cab driver whom United Press International reporter Paul Sisco mentioned in our interview with him on November 30, 1963, I am enclosing herewith two copies of a memorandum dated June 8, 1964, at Dallas, Texas. This memorandum refers to our previous interviews with Harry T. Tasker, a cab driver for the City Transportation Company, Dallas, Texas, on December 6, 1963, and December 9, 1963, and includes the results of our interview with Mr. Tasker on June 8, 1964.

For your information, the interview with Mr. Tasker on December 6, 1963, appears in the report of Special Agent Manning C. Clements at Dallas dated December 11, 1963, on page 287. The interview with Mr. Tasker on December 9, 1963, appears in the report of Special Agent Clements dated December 10, 1963, on page 9. This is the ramp by which Ruby allegedly entered the police building. We previously interviewed Tasker who said that he was waiting on a news reporter outside of the Main Street ramp of the police building when Ruby shot Oswald. He did not observe Ruby enter the ramp and he did not know the name of the news reporter who hired him. Comparison of the interviews of Sisco and Tasker indicate that Tasker is identical to the cab driver referred to by Sisco.

SUBJECT: NORMAN REDLICH
PRESIDENT'S COMMISSION ON THE
ASSASSINATION OF PRESIDENT KENNEDY
SECURITY OF GOVERNMENT EMPLOYEES

J. Lee Rankin, General Counsel, President's Commission on the Assassination of President Kennedy by letter dated 3/30/64 requested Bureau to furnish basic facts and supporting data for the House Committee on Un-American Activities' (HCUA) determination that the Emergency Civil Liberties Committee (ECLC) is a communist front organization. The ECLC is cited in the Guide to Subversive Organizations and Publications, December 1, 1961, edition, prepared by HCUA, as a communist front with the avowed purpose of abolishing the HCUA and discrediting the FBI.

Bureau is currently conducting investigation concerning Redlich under Federal Employees Security Program at the request of the Commission based on Redlich's affiliation with certain alleged communist front organizations, one of which is the ECLC. Bureau in addition has a pending investigation on the ECLC as a communist front organization and copies of investigative reports are being furnished the Department on a continuing basis. Corliss Lamont is Chairman of ECLC and Clark Foreman is Director and both have been identified as Communist Party members by Budenz and both of their names are included in the Security Index.

Since the characterization of the ECLC as a communist front organization was determination of HCUA, it is not within the Bureau's prerogatives to question or comment upon the basis for HCUA's conclusion. In view of Redlich's position on this Commission and his admitted affiliations with the ECLC, which is dedicated to abolish HCUA, it is quite possible this may be a move on the part of Redlich to obtain information concerning the ECLC through his position on the Commission. Based on this request, there is an indication that the Commission is planning to question HCUA's citation of the ECLC and in view of this fact, the Bureau should not become involved in a possible "dogfight" between the Commission and HCUA.

Dear Mr. Rankin:

This will acknowledge receipt of your letter dated March 30, 1964, which enclosed copies of correspondence addressed to Congressman Gerald R. Ford by Mr. Francis J. McNamara of the House Committee on Un-American Activities. It is noted that you desired this Bureau to have this information in connection with a full field investigation being conducted concerning Mr. Norman Redlich.

With regard to your request that you be furnished the basic facts and supporting data for the House Committee on Un-American Activities' determination that the Emergency Civil Liberties Committee is a communist front organization, this action was taken by the House Committee on Un-American Activities and this Bureau did not participate in its findings.

However, I can state that, since its inception in October, 1951, the Emergency Civil Liberties Committee has consistently rendered aid and support to the communist movement in the United States. Such aid and support has been in the form of mass rallies, literature, speeches by the organization's officials and legal aid regarding issues in which the Communist Party has been interested. The Emergency Civil Liberties Committee has filed amicus curiae briefs on behalf of the Party and its leaders who were convicted under

Washington, D. C. 20535

Dear Mr. Hoover:

As a result of my letter of March 26, 1964 with respect to background materials on the Fair Play for Cuba Committee and certain other subversive groups, it was agreed that your Agency would await further instructions from this Commission.

The Commission would now appreciate your providing the following information on the Fair Play for Cuba Committee, "JURE", "DRE", Alpha 66, and 30th of November Movement:

1. Copies of all reports supplied from your Dallas and Fort Worth offices during the year 1963 with respect to persons believed active in those groups.

2. Summaries of activities throughout Texas of such groups with particular reference to names and places during the period January 1, 1961 to January 1, 1964.

3. A general summary of activities of such groups outside of Texas during the year 1963 with particular reference to activities in Chicago, Michigan, Las Vegas, Los Angeles, Miami, New Orleans, New York, Puerto Rico and San Francisco.

The Commission would also appreciate your providing copies of all reports from your Dallas and Fort Worth offices for the year 1963 which pertain to persons believed active in the Communist Party or Socialist Workers Party.

Enclosed for each office is a copy of a letter from the President's Commission which is self-explanatory. The full names of the 3 organizations abbreviated in the second paragraph of the Commission's letter are as follows:

"JURE" - Junta Revolucionaria Cubana;
"DRE" - Directorio Revolucionaria Estudiantil;
Alpha 66 - Second National Front of Escambray (Operation Alpha 66).

In connection with the instant Commission's request, the Dallas Office should respond to items 1 and 2 and to the request in the last paragraph of page 1 and the paragraph on page 2 as outlined in the enclosure. The El Paso, Houston and San Antonio Offices should respond to item 2 and to the request in the paragraph on page 2 of the enclosure as such requests pertain to the territory covered by each office.

Item number 3 in the enclosure is being handled at SOG.

In responding to item 2 in the enclosure, each office should prepare a letterhead memorandum suitable for dissemination to the President's Commission setting forth data in each office's files responsive to this request.

In responding to the Commission's requests for copies of reports pertaining to the organizations or individuals concerned, each office should check its indices and files and furnish the Bureau a complete listing of all communications that have been forwarded to the Bureau for the period involved in order that such communications can be located in Bureau files. In addition, each office should forward to the Bureau copies of all communications in its files that are responsive to the instant request of the Commission but which are not currently in the Bureau's possession. These will include inter-office communications, memoranda to the SAC of each office, and correspondence from other agencies and the public.

This matter must be given the immediate attention of each office and data responsive to the Commission's request should reach the Bureau no later than 6-1-64 and earlier if possible.

NOTE:

The Commission by letter 5-20-64 has requested it be furnished reports and summaries of data in possession of the 4 Texas offices. These requests largely pertain to Fair Play for Cuba Committee as well as anti-Castro organizations. Commission is also interested in obtaining data re members active in the Communist Party & Socialist Workers Party in Dallas and Fort Worth along with information regarding individuals active in the John Birch Society or Minutemen in the State of Texas. Inasmuch as some of the data requested may not have been furnished to the Bureau, desirable each of the offices concerned furnish Bureau a complete accounting of all data in files of each responsive to these requests.

In connection with such investigation, WALKER was out of the city during the week of 5/18/64, and was not interviewed in connection with the investigation.

Furthermore, WALKER is a very controversial figure, and any contact with him would undoubtedly cause him to immediately alert the press media concerning the nature of the inquiries.

Furthermore, it is pointed out that WALKER maintains armed guards in the vicinity of his residence from time to time.

It is believed that the Commission's request has been adequately covered and, UACB, Major General EDWIN A. WALKER will not be contacted.

Re: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY, 11/22/63, DALLAS, TEXAS

Specimens received 11/23/63

Q6 C6 6.5 mm Mannlicher-Carcano cartridge case from Texas School Book Depository
Q7 C7 6.5 mm Mannlicher-Carcano cartridge case from Texas School Book Depository
Q8 C8 6.5 mm Mannlicher-Carcano cartridge from Texas School Book Depository

Evidence received 11/27/63

Q48 C38 6.5 mm Mannlicher-Carcano cartridge case from Texas School Book Depository

Results of examination:

An examination was made of the cartridge cases, C6, C7 and C38 and the cartridge, C8, for loading, chambering, extraction and/or ejection marks for the purpose of determining if those specimens had been loaded into and extracted from Oswald's rifle, C14, more than once.

Marks were found on the C6 cartridge case indicating that it has been loaded into and extracted from a weapon at least three times. One set of marks was identified as having been made by the magazine follower of the C14 rifle. It is pointed out that the extractor and ejector marks on C6 as well as on C7, C8 and C38 did not possess sufficient characteristics for identifying the weapon which produced them. There are also three sets of marks on the base of this cartridge case which were not found on C7, C8, C38 or any of the numerous tests obtained from the C14 rifle. It was not possible to determine what produced these marks.

Marks were found on the C7 cartridge case indicating that it has been loaded into andextracted from a weapon at least twice. One set of marks was identified as having been produced by the chamber of the C14 rifle and one set of marks was identified as having been produced by contact with the bolt of C14; however, it was not possible to determine whether the two sets of marks which were identified were produced by one or two loading operations in the C14 rifle.

Two sets of marks were found on the C8 cartridge (found in the C14 rifle) which were identified as having been produced by the magazine follower of the C14 rifle. Another set of follower marks was found on C8. The fragmentary nature of this set of marks could possibly account for the fact that these marks were not identified with the C14 rifle.

Marks were found on the C38 cartridge case indicating that it had been loaded into andextracted from a weapon at least twice. One set of marks was identified as having been produced by the magazine follower of the C14 rifle and one set of marks was identified as having been produced by the chamber of C14; however, it was not possible to determine whether the two sets of marks which were identified were produced by one or two loading operations in the C14 rifle.

The results of the above examinations do not preclude the possibility that these items could have been loaded into and extracted from a weapon one or more times when insufficient force was used to produce marks. It is pointed out that if two or more cartridges are loaded into the clip of C14, only the bottom cartridge will be marked by the magazine follower.

Dear Mr. Hoover:

Thank you for your letter of March 30, 1964, concerning the identification of the identifiable latent fingerprints and palm prints which were the subject of my letter of March 26, 1964.

In my letter of March 26, I asked you to determine, as far as possible, without the taking of new fingerprints, whether any of the latent prints referred to were made by persons employed in the TSBD building on November 22, 1963. In order that our investigation be complete as possible, could you please proceed to make such a determination by all appropriate methods, including, if necessary, the taking of new fingerprints.

Your cooperation in the work of this Commission is very much appreciated.

Reurairtel 3-28-64, captioned "Assassination of President John Fitzgerald Kennedy, 11-22-63, Dallas, Texas, Miscellaneous - Information Concerning," (RPG/ds) concerning a question from the President's Commission as to whether elimination prints had been taken of employees of the Texas School Book Depository Building (TSBD).

Enclosed for your assistance is a copy of a self-explanatory letter from the President's Commission dated 6-9-64, and a copy of Bureau letter dated 3-30-64, which is referred to in the current Commission letter.

As you will note, Identification Division records were checked to locate fingerprints, based on descriptive data available at the Bureau, of those employees known to have been at the TSBD on 11-22-63. It was necessary for the Bureau to qualify its reply to the Commission on the 16 identification records located with the statement "who may be identical with employees" of the TSBD.

The only apparent logical method to comply with the Commission's most recent request and to preclude later questions in this matter from the Commission, would be to take major case prints of all employees of the TSBD.

Dallas should immediately endeavor to obtain major case prints of all TSBD employees known to have been in the

building on 11-22-63, and furnish same to the Bureau, Attention: Identification Division.

Extreme care should be exercised to take clear, classifiable prints which will be compared with the 19 identifiable latent fingerprints and 6 identifiable latent palm prints found on cartons near the sixth floor window of the TSBD. It may be necessary to furnish these major case prints or copies thereof to the Commission for its use. Therefore, all necessary identifying and descriptive data should be appropriately executed.

You should also submit an appropriate letterhead memorandum for dissemination to the Commission indicating the identities of the persons printed, as well as indicating the date when each was printed by your office.

This matter should be expedited and every effort made to complete this project and have the major case prints at the Bureau on or before 6-18-64. The results of the Identification Divisions comparison of these prints with the latent palm and fingerprints will be furnished to the Commission and your office.

NOTE FOR IDENTIFICATION DIVISION:
ATTENTION S. F. LATONA

When the major case prints are received from Dallas it is requested that they be appropriately compared with the latent palm and fingerprints in this matter and the results furnished to the General Investigation Division, Attention: R. D. Rogge.

NOTE: The Commission by letter 3-26-64, initially requested we endeavor to identify the individuals who left latent prints on the afore-mentioned cartons. The Commission requested we undertake this project "without" taking any fingerprints. The most recent request will require the taking of approximately 70 major case prints of employees of the TSBD. This appears to be the most logical method of complying with the Commissions request. This matter will be closely followed and when the results are obtained, the Commission will be appropriately notified.

Dear Mr. Rankin:

Reference is made to your letter dated May 20, 1964, wherein you requested this Bureau to provide the Commission with certain specific data concerning the Fair Play for Cuba Committee (FPCC); Junta Revolucionaria Cubana (JURE); Directorio Revolucionario Estudiantil (DRE); Alpha 66; and the 30th of November Movement.

With regard to your request for information concerning Alpha 66, the enclosed Miami memorandum, dated June 3, 1964, indicates that Alpha 66 was affiliated with the Second National Front of Escambray (SNFE) in 1963. In view of this, the memoranda containing information concerning Alpha 66 also contain information concerning the SNFE, where applicable, and the names of both organizations have been utilized in the captions of these memoranda.

There is enclosed a list identifying 43 memoranda and 15 reports in response to your requests. Two copies of each of these communications are also enclosed.

The 15 reports concern the following individuals believed to have been associated or in contact with the organizations indicated:

Second National Front of Escambray (SNFE)

TO: Mr. Conrad

FROM: Mr. Jevons

DATE: 6/12/64

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY, DALLAS, TEXAS; 11/22/63

President's Commission

Reference memorandum dated February 26, 1964, from W. D. Griffith to Mr. Conrad concerning a continuing project wherein the Bureau has undertaken to furnish the Commission with photographs of all Commission exhibits.

On 6/10/64, Miss Mary Norton, Commission employee, telephoned Section Chief Roy H. Jevons, Physics and Chemistry Section, FBI Laboratory and made the request that a Bureau representative take custody of those exhibits listed on the attached enclosure. It was further requested that three copies be made of each exhibit and that these be furnished to the Commission.

As a matter of record, custody was taken of instant exhibits by SA Robert E. Neill on 6/10/64. At this time, Miss Norton also requested that SA Lyndal L. Shaneyfelt prepare three copies of Commission Exhibit No. 885 and it was further requested that Commission Exhibits 882 and 883 (which are presently in the Exhibits Section) be photographed and that three copies of these exhibits be furnished to the Commission.

This work will be handled by an Agent Examiner of the FBI Laboratory's Document Section.

ACTION: Exhibits will be photographed or otherwise reproduced as requested and three copies of each will be supplied to the Commission. SA Shaneyfelt will be responsible for the photography of Exhibit 885. Exhibits 882 and 883 will be obtained from the FBI Exhibits Section for photography. In accordance with existing instructions, all exhibits (designated by *) not originating from the Bureau will be returned to the Commission along with the copies. The remaining exhibits will be maintained in Bureau custody.

Dear Mr. Rankin:

Reference is made to your letter of June 9, 1964, requesting this Bureau to interview Dan Rather, an employee of the Columbia Broadcasting System News.

Enclosed are two copies of a memorandum dated June 11, 1964, at Washington, D. C., which sets forth results of our interview with Mr. Rather in this matter. The Mr. Bill Dellar, mentioned in the enclosures, apparently is identical to Mr. Bill De Mar who was interviewed by this Bureau November 24, 1963, in connection with this investigation. Results of our interview with Mr. Bill De Mar are set out on page 407 of the report of Special Agent Robert P. Gemberling, dated December 23, 1963, at Dallas, Texas.

This concludes our inquiries in this particular matter.

Sincerely yours,

J. Edgar Hoover

He indicated the report may have emanated from a contact he had with Bill De Mar, an employee of the Carousel Club who has made the statement that he thought he saw Oswald in the Carousel Club prior to the assassination. We interviewed De Mar 11/24/64 and, when pinned down, he stated he believes Oswald was among a group of people who was in the Carousel Club during the week prior to the assassination. Our investigation, of course, has failed to establish that Oswald ever visited the Carousel Club.

Dear Mr. Rankin:

On June 1, 1964, Mr. Wesley J. Liebeler, a member of your staff, requested that Mrs. Clyde I. Livingston, a former teacher of Lee Harvey Oswald, and Mr. Richard Warren Garrett, a former classmate of Lee Harvey Oswald, be interviewed for information each may possess regarding Oswald. Mr. Liebeler noted that Mrs. Livingston and Mr. Garrett had been interviewed by a reporter for "Life" magazine and their comments concerning Oswald had been included in an article in "Life" magazine for February 21, 1964, entitled "The Evolution of an Assassin."

Enclosed are two copies of a memorandum dated June 8, 1964, at Dallas, Texas, which sets out results of our interviews with Mrs. Livingston and Mr. Garrett.

ASSASSINATION OF PRESIDENT KENNEDY
REQUEST OF THE PRESIDENT'S COMMISSION

The Commission has requested that photographs be made of the residence of General Edwin Walker for comparison with photographs of Walker's home obtained in connection with the investigation of Lee Harvey Oswald. It is essential that these photographs have as nearly as possible the same angle of view and composition as the photographs obtained from Oswald's possessions since they may be subject to Laboratory comparison with the Oswald photographs.

It is noted that SA Ivan Lee has previously made photographs of the Walker residence and this was reported in the report of SA Conberling dated 2/11/64 and is found on page 313. You should determine whether or not these photographs would meet the Commission's request and if so copies should be submitted to the Bureau to be furnished to the Commission. If they do not conform to the camera view and composition of the Oswald photographs, you should immediately arrange to take such photographs.

The Commission has instructed that the pictures be identified and the procedures which are followed in their taking be described in an affidavit by the person who actually takes the pictures. If you take new photographs it is recommended that duplicate photographs be made in each instance, one of which will contain a large enough sign bearing the date and identification initials or name of the Agent taking the photographs. The other picture of the same scene should be made without the identification showing in the photograph. Copies of the photographs obtained from Oswald's possessions are attached for your assistance in this matter.

This matter should receive immediate attention and the resulting photographs with the affidavit should be furnished to the Bureau attention FBI Laboratory without delay.

Dear Mr. Rankin:

Reference is made to your letter of June 2, 1964, requesting that this Bureau obtain for the Commission a copy of the baptismal certificate of June Lee Oswald.

Enclosed for the Commission is a copy of a certification by Reverend Dmitri B. Royster, Rector, St. Seraphim Eastern Orthodox Church, Dallas, Texas, of the baptism of June Oswald on October 16, 1962. There is also enclosed a certification by Reverend Royster of the baptism of Rachel Oswald on April 9, 1964.

For the information of the Commission, Reverend Royster advised that the Baptismal Record Book of St. Seraphim Eastern Orthodox Church is divided into three parts, separated by two vertical perforations. One part consists of a stub containing the record of baptism and is forwarded to the Metropolitan Council, 105 East Houston Street, New York, New York. The second part is the baptismal certificate which is forwarded to the parents of the baptized child. The third part is a stub which remains in the permanent Baptismal Record Book maintained by the St. Seraphim Eastern Orthodox Church. Reverend Royster advised that the enclosed baptism certifications of June Oswald and Rachel Oswald were made by him from the Baptismal Record Book and he further advised that duplicates of the baptismal certificates for the Oswald children are not available in Church records.

INFORMATION CONCERNING

An investigation of Isadore Max Miller was instituted to ascertain if his gambling activities were in violation of Federal antigambling statutes.

It was determined that for the past several years Miller has operated as a bookmaker in the Dallas, Texas, area. In his gambling activities he is closely associated with known Dallas, Texas, bookmakers John Eli Stone, Henry Clinton Winfrey and James Woodrow Stone, brother of Eli Stone. These individuals use various apartments in Dallas as bookmaking headquarters and frequently change their base of operations. In most instances the apartments are rented and telephone service acquired under assumed names.

No violation of Federal statutes was developed and no prosecution resulted in connection with this investigation of Miller.

Jack Ruby's name does not appear in this file and he was not connected in any way in this investigation.

INFORMATION CONCERNING

Joseph Locurto was the subject of a White Slave Traffic Act investigation by the FBI on the basis of information furnished by the Dallas Police Department on December 7, 1954. Other subjects in the investigation were Stacy Lee Duvalle and Shirley Jean Liles. The victims were Betty Lou Curley and Barbara Ann Shockley.

The Dallas Police Department advised on December 7, 1954, that the Dallas Police Department Vice Squad at that time had three pending sodomy cases against Locurto involving Curley, Shockley and a girl named Tippy Torrence, who were material witnesses against Locurto. Investigation by the Dallas Police Department Vice Squad indicated that Locurto paid Duvalle and Liles to transport the victims out of state so that they could not testify against Locurto. Shockley was allegedly transported to Oklahoma and Arkansas in November, 1954, by Locurto and Liles where she engaged in unnatural sex acts with Liles. Curley was allegedly transported to Oklahoma and Arkansas on another occasion by Locurto and Duvalle where she engaged in unnatural sex acts with Duvalle.

JUN 16 1964

The facts of this investigation were presented to the Assistant United States Attorney, William O. Hauecklin, Dallas, who declined prosecution of subjects under the White Slave Traffic Act.

Edward John Skoona, Attorney, Washington, D. C., advised on January 8, 1959, that he was to represent Locurto in an extradition hearing January 27, 1959, at Washington, D. C. He alleged that the civil rights of Locurto had been violated.

NOTE:

Commission by letter dated 6/1/64 referred to our letter of April 7, 1964, concerning a telephone call billed to Jack Ruby, Silver Spur night club, from a hotel room of Ralph Eugene Young at a time in 1950 when he was suspected of violating the Atomic Energy Act. The Commission requested advice as to (1) the nature of the violation, (2) information as to whether or not Young was ever prosecuted for the violation, (3) information as to any subversive activities of Young, and (4) arrest record of Young. This information is furnished in enclosed memorandum. It was also requested that we interview Young. Extensive investigation is currently under way to locate him; however, contacts with relatives, former employments, etc., have been unproductive to date.

Dear Mr. Hoover:

As a result of the deposition of Hyman Rubenstein, the Commission would appreciate your interviewing Mr. Michael Simon, owner of the Zebra Lounge, 1346 E. 63rd St., Chicago, Illinois.

Mr. Rubenstein has informed the Commission that Mr. Simon observed Jack Ruby attempt to hit a person with a chair when that person made a derogatory remark about President Franklin D. Roosevelt. Please obtain from Mr. Simon particulars as to time and place and attempt to confirm Mr. Simon's report by interviewing other eye witnesses.

Please exhibit to Wilburn Waldon Litchfield II aka Bob Litchfield a photograph of Curtis Laverne Crafard aka Larry Crafard to determine if Litchfield believes Crafard resembles the man whom he saw at the Carousel Club and believes might have been Lee Harvey Oswald.

Please also interview Litchfield's friends J. W. Litchfield on 12/2/63 gave sworn affidavit to Dallas PD identifying Oswald as person he saw at Ruby's Carousel Club during first two weeks of November, 1963. Dallas PD gave Litchfield a polygraph examination and in opinion of examiner he was lying. We interviewed Litchfield same date at which time he stated could not positively identify this person as Oswald. He had reputation of being confidence man and is an X-con. Curtis LaVerne Crafard was employed as handyman by Ruby until he left Dallas on morning of 11/23/63. Dear Mr. Rankin:

This is in reply to your letter of June 8, 1964, and confirms the telephone conversation between Mr. Sebastian F. Latona of the FBI Identification Division and Mr. Melvin Eisenberg of your staff on June 12, 1964.

Only one of the six photographs prepared by Mr. Latona showing latent prints identified as those of Lee Harvey Oswald contains more than one latent print. This photograph is the Commission's Exhibit Number 644. A copy of this photograph shows the number "25" and is one of those furnished for the use of the New York City expert. Three latent fingerprints appear in this photograph. Two of these impressions are not those of Lee Harvey Oswald. The third latent fingerprint, which appears in the center of the three, is identical with the right index fingerprint of Lee Harvey Oswald.

Sincerely yours,
E. Edgar Hoover

Note - Discrepancies of Exhibit #'s clarified by phone call Latona to Eisenberg 6-12-64. Commission's inquiry was to determine which photographs contain latent prints other than those of Oswald. Also, where more than one appears which specifically were identified as Oswald's. 644 in outgoing is correct Exhibit #. Some of the Exhibit #'s in incoming letter are incorrect.

NOTE: See Malley to Rosen memo 6-8-64, captioned "Assassination of the President," JRM:mpd. Willens of the Commission advised that Partridge stated he was at the Western Union Office, 191 South Main Street, Akron, Ohio, and indicated he desired to be protected as he had information concerning the assassination. Willens requested we check this matter out. The Cleveland Office was immediately instructed to locate and interview Partridge and furnish results to the Bureau. The enclosed LHM from Cincinnati and Cleveland indicates that Partridge is somewhat of an eccentric and quite possibly is a fringe mental case. When interviewed, he refused to furnish any information to the FBI and said he would only furnish this information to the President's Commission and continually referred to "them" and "they" as being involved in "espionage" and placing his life in danger, etc. Since Partridge indicated his life was in danger, appropriate local authorities were alerted.

ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY
11-22-63, DALLAS, TEXAS
MISCELLANEOUS - INFORMATION CONCERNING

PURPOSE

To recommend the attached letter transmitting a 1266 page Dallas report, relating to allegations against persons other than Oswald, be sent to the President's Commission and to recommend copies of this report be also disseminated to Secret Service and the Department.

BACKGROUND

Immediately after the assassination we started to receive complaints relating to individuals other than Lee Harvey Oswald. These complaints generally relate to remarks and threats allegedly made by individuals concerning their feelings about President Kennedy, other officials and the policies of the administration. These complaints are received from persons not involved in subversive activities such as cranks, mental incompetents and sincere individuals believing it is their patriotic duty to report suspicious activities, statements, etc. Some of these people pose a possible threat to the President and consequently, we have sent copies of prior reports to Secret Service which results in still additional names being placed in the files of that service. These complaints continue to be received by the Bureau and other agencies both local and Federal, who in turn refer them to us for action.

Where threats have been received against the Attorney General or other high officials, the Department has been advised or other appropriate dissemination made.

DETAILS

The current report consists of 1266 pages and is divided into five volumes. It contains investigative results from all over the country and was assembled by our Dallas Office who is coordinating this project. The assembling of a report of this size is a tremendous undertaking and requires a great deal of Agent and steno time. This report has been reviewed by Mr. Belmont, Mr. Malley and Bureau supervisory personnel and took an estimated forty hours to complete the review.

ACTION

1. That the attached letter transmitting two copies of the 1266 page report be approved and sent to the Commission.

2. That a copy of this report be furnished to the U. S. Secret Service for its information inasmuch as it contains information of possible value to that service.

Dear Mr. Rankin:

Reference is made to your letters dated March 26, 1964, and June 9, 1964, as well as to my letter dated March 30, 1964, relative to the identification of latent palm and fingerprints found on cartons on the sixth floor of the Texas School Book Depository Building.

Based on your letter of June 9, 1964, our Dallas Office endeavored to arrange for appropriate printing of employees who were present in the Texas School Book Depository Building on November 22, 1963. On June 12, 1964, Mr. Roy S. Truly, Warehouse Superintendent, who has been very cooperative with this Bureau in the past, strongly objected to the printing of all employees as he felt it would seriously handicap the work of his firm. Mr. Truly stated there are about twenty employees who would have had occasion to handle the cartons in question and he desired the printing of employees be limited to this group.

In view of Mr. Truly's strenuous objections to the printing of all employees, our Dallas Office will only print those employees who would have had occasion to handle the cartons. No further efforts will be made by this Bureau to print all employees unless a specific request to the contrary is received from you.

When the results of palm and fingerprint comparisons are known, you will be promptly notified.

ATTENTION: CRIMINAL SECTION

ReBuairtel 6-11-64, and your airtel 6-12-64.

Unless advised to the contrary you should limit the taking of major case prints to those employees who would have had occasion to handle the cartons in question.

When replying to a communication containing the notation "Attention: Criminal Section" you are requested to reply in like form as it expedites the handling of the particular communication.

Every effort should be made to expedite the handling of this matter.

NOTE:

The Commission by letter 3-26-64, requested we endeavor to identify the individuals who left latent prints on the afore-mentioned cartons. This comparison was limited in accordance with the Commission's instructions to those TSBD employees on whom we could locate prints. Some 16 individuals were initially checked and the results furnished to the Commission by letter 3-30-64. The most recent request 6-9-64, reiterates this request but specifies that "all appropriate methods, including if necessary, the taking of new fingerprints" be used.

The most logical method of complying with the Commission's request, was to take major case prints of all employees, inasmuch as both latent palm and fingerprints are involved. However, in view of the objections of Mr. Truly, it is felt our efforts should be limited as set out above unless a specific request to the contrary is received. This matter will be closely followed.

Dear Mr. Rankin:

Refer to my letter dated June 9, 1964, wherein you were advised that with regard to your request that the noncommissioned officers who directly supervised Jack L. Ruby be interviewed, this Bureau was conducting a review of service records at the U. S. Army Records Center, St. Louis, Missouri, in an effort to identify the noncommissioned officers. This review has been completed and a list of 379 names has been compiled.

It has been determined that 16 of these individuals transferred with Ruby from one unit to another, including one sergeant who was in Ruby's unit in June, 1944, and still in his unit as of January, 1946. Records of these 16 individuals are being reviewed for last known addresses and they will be interviewed as they are the most logical persons who might have known Ruby.

Please advise immediately if you desire the remaining 363 soldiers contacted as it will be necessary to conduct extensive investigation possibly reaching to all parts of the country in an effort to locate them for interview.

Dear Mr. Rankin:

This Bureau has received a copy of a book entitled "The Sinners" written by Walter Nemyliwsky, who also spells his name Volodymyr Nemyliwskyj. The book is in the Ukrainian language. It was received in the mail and the envelope bore the return address Volodymyr Nemyliwskyj, 71 Elm Grove Avenue, Toronto 3, Ontario, Canada.

Enclosed are two copies of a summary of the translation of the book and you will note that on pages two and three of this summary is a translation in detail of those portions of Chapter 7 where reference is made to Lee Harvey Oswald.

Enclosed also are two copies of a memorandum dated June 8, 1964, classified "Confidential." This memorandum contains information concerning Nemyliwskyj's background and sets out the belief of the confidential source abroad that an interview with Nemyliwskyj would prove fruitless and would only serve to provoke his mental disturbance.

Dear Mr. Rankin:

Mr. Arlen Specter of the Commission's staff provided this Bureau with four photographs and the clothing worn by Governor John Connally on November 22, 1963, for use in connection with the re-enactment of certain aspects of the assassination of President Kennedy at Dallas, Texas.

The photographs and the clothing, consisting of Governor Connally's coat, trousers, shirt and tie (FBI Items C311 through C314) were returned to Miss Mary Norton at the Commission on June 10, 1964.

The Commission desired we determine if car 207 or any other Dallas police vehicle passed in front of this residence between the hours of 12 noon and 2 p.m. on 11-22-63. The enclosed LHM from Dallas based on information from the Dallas PD fails to substantiate Roberts' allegation.

NOTE: By letter dated 5-28-64, the Commission requested Earlene Roberts, former housekeeper at 1026 North Beckley, Dallas, where Oswald resided, be reinterviewed to determine her location on 11-21-63. The Commission had information Roberts may have been in San Antonio, Texas, at the time President Kennedy was there. Investigation determined Roberts was at the Beckley address all day on 11-21-63. She is a diabetic and due to this condition does not leave Dallas as she is fearful of a diabetic coma. Roberts is the sister of Mrs. Bertha Cardella (Vogle) Cheek, a wealthy woman who knew Jack Ruby in view of their mutual interest in night clubs. This phase of the investigation has been thorougly investigated.

NOTE: Commission by letter dated 5/27/64 requested Rabbi Silverman to be reinterviewed as when first interviewed on 11/27/63 stated Ruby attended services at Temple Shearith Israel on night of 11/22/63 and again in a.m. of 11/23/63. Ruby stated only attended night service arriving when practically over at about 10:00 p.m. and on a.m. of 11/23/63 states he slept from 6:00 a.m. to 11:00 a.m. Commission by letter dated 5/26/64 requested telephone checks of Wall, Peterson, McKenna and Berry. They arose as a result of similar analyses we did on all phones available to Ruby, his relatives and about 20 persons known to have been contacted by him for the period from 9/26/63 through 1/1/64. Wall and Peterson performed in show at Dallas and are friends of Ruby. McKenna, of Galveston, Texas, is friend of Wall. Berry, of New York, was called by Ralph Paul, a close friend of Ruby. Commission in their request apparently made typographical error when setting forth names of Joe Peterson and Thomas J. McKenna as Patterson and MeKeown respectively. In their request they refer to page 342 of SA Clements report dated 12/14/63 and page 82 of the report dated 1/8/63(64). These reports show names as Peterson and McKenna respectively. Dear Mr. Rankin:

Enclosed are two copies of a communication bearing the name "Edward Zeysegg" furnished to this Bureau on June 9, 1964, by Mr. Herbert J. Miller, Jr., Assistant Attorney General, Criminal Division, U. S. Department of Justice.

This communication refers to a newspaper "clipping" depicting a photograph of President Kennedy and, according to description, appears to be a copy of a photograph circulated in leaflet form at Dallas, Texas, prior to the assassination. On November 21, 1963, Agents of this Bureau obtained copies of this leaflet and immediately disseminated them to Secret Service. A photograph of President Kennedy with the caption "Wanted For Treason," was printed on these leaflets. This particular photograph and related information appears in the "Confidential Report of U. S. Secret Service on the Assassination of President Kennedy, Exhibits," prepared for the President's Commission. Mr. Zeysegg's communication is furnished for your information and no further action is being taken by this Bureau unless requested.

Honorable J. Lee Rankin

Our files reveal one Edward W. Zeysegg, an Austrian alien, born in 1899, was the subject of a security type investigation during World War II. The investigation did not indicate he was connected with any un-American or subversive activities. Mr. Zeysegg has also written other Government agencies and members of Congress expressing his views on the world situation and his remedies for world peace.

Sincerely yours,

NOTE:

Assistant AG Miller by letter dated 6-8-64, received 6-10-64, furnished Zeysegg's letter for information. There is no indication the Department has acknowledged Zeysegg's letter, therefore, there is no reason for the Bureau to acknowledge it. Zeysegg indicated he is a foreign stamp collector and an exchange partner in Czechoslovakia sent a "stamp-letter" enclosing a "clipping" from a Czchoslovakian newspaper revealing President Kennedy's photograph with the caption "This Man is Wanted for Treason." Zeysegg sent this photo to Senator Kenneth B. Keating who furnished it to the President's Commission. He asked the AG to do everything possible to have the parties responsible for the infamous publication to be apprehended and exposed. According to Zeysegg's description of the "clipping" it appears it is a copy of a leaflet discovered by our Agents in Dallas on 11-21-63, in the 300 block of South Poydras Street. Since 1946 Zeysegg has written the Bureau and other Government agencies. No further action necessary as Zeysegg's "clipping" is in possession of the President's Commission.

Zeysegg is the subject of Bufile 100-105019. Several "see" references similar to his written communications in his main file appear in other files. Information regarding the leaflets obtained from 94-37374 serial 172 retained in the Director's office.

ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY
NOVEMBER 22, 1963, DALLAS, TEXAS
MISCELLANEOUS - INFORMATION CONCERNING

Enclosed is one copy of the report of Special Agent Robert P. Gemberling at Dallas dated May 15, 1964, captioned as above. This report contains the results of investigation conducted by this Bureau relative to allegations against persons other than Lee Harvey Oswald, and is being furnished as it contains information of possible interest to you.

For your information, copies of this report have been furnished to the President's Commission investigating the assassination of the late President John Fitzgerald Kennedy and one copy has been furnished to the U. S. Secret Service.

NOTE:

For full details see Rosen to Belmont memo 6-16-64, RDR:las. In this memo the Director approved the dissemination of copies of this report to the Department and Secret Service. Secret Service's copy has been sent by 0-141. Our investigation resulted from complaints, remarks, and threats allegedly made by individuals concerning their feelings about President Kennedy, other officials and the policies of the administration. This report contains several references to the Attorney General of the United States and therefore, a copy is being furnished. Where threats have been received against the Attorney General or other high officials the Department has been advised or other appropriate dissemination made. Most of the investigation is predicated on complaints received from cranks, mental incompetents and individuals believing they are doing a service to the United States by reporting suspicious activities, etc.

Dear Mr. Rankin:

Reference is made to my letter dated May 8, 1964, which enclosed two copies of the report of Special Agent Robert P. Gemberling dated March 30, 1964, at Dallas, Texas, captioned "Assassination of President John Fitzgerald Kennedy, November 22, 1963, Dallas, Texas." This report contained the results of investigation conducted by this Bureau relative to allegations against persons other than Lee Harvey Oswald since the assassination of President Kennedy.

Enclosed for your assistance are two copies of another report prepared by Special Agent Gemberling dated May 15, 1964, and captioned "Assassination of President John Fitzgerald Kennedy, November 22, 1963, Dallas, Texas," which sets forth similar investigation conducted by this Bureau.

Dissemination of this report has also been made to the U. S. Department of Justice and the U. S. Secret Service since it contains information of possible interest to them.

As you were previously advised, reports will continue to be submitted by this Bureau relating to similar matters.

Dear Mr. Rankin:

The following is submitted in reply to a request received from Mr. Norman Redlich of the President's Commission on June 16, 1964. Mr. Redlich requested this Bureau to attempt to identify the source of an incident in which General Edwin A. Walker allegedly flew flags upside down at his residence.

On June 16, 1964, Agents of our Dallas Office interviewed Mr. Eddy Barker, News Manager, Station KRLD TV-Radio, Dallas, Texas. Mr. Barker recalled that Adlai Stevenson gave a speech in Dallas on the night of October 24, 1963. The following day, one of General Walker's aides, identity presently unrecalled, called Mr. Barker and advised him that General Walker was flying three American flags upside down in front of his house. This aide indicated that this was being done because "Dallas was a city in distress."

Mr. Barker said that this aide called him each day for three days thereafter and was perturbed because he had not provided any publicity for this stunt. On the following Monday, October 28, 1963, United Press International ran a picture on the news wires showing these flags being flown at General Walker's residence. On the same day, a representative of the Columbia Broadcasting System called Mr. Barker and requested him to interview General Walker in front of his residence and take movies showing the flying of the American flags in their incorrect position.

Mr. J. Lee Rankin

Mr. Barker contacted General Walker at his residence, and after explaining the purpose of his visit, the General went into a "raving rage," got into his car and drove off. Mr. Barker did not interview General Walker nor did he take any photographs. Mr. Barker recalls that General Walker flew these flags for approximately five days and it is Mr. Barker's opinion that due to the absence of publicity regarding this matter, General Walker removed the flags from his residence.

Mr. Barker stated that he could not locate a photograph of the flags flying at General Walker's residence, and he is certain that the photograph transmitted on the United Press International news wire was not published in the Dallas area.

The above information was furnished telephonically to Mr. Redlich on June 16, 1964, and unless advised to the contrary, no additional inquiries will be conducted concerning this matter.

LEE HARVEY OSWALD
IS - R - CUBA

Attached is a copy of an article from the "National Guardian" of May 9, 1964 which is captioned "Oswald case: A new angle."

According to the article, Mark Lane claims that the United States Secret Service deliberately planted a false story in the press to cast further guilt on Oswald. By letter dated May 22, 1964 the President's Commission requested the Bureau to interview three individuals named in the article. They are (1) Secret Service Agent Mike (Michael) Howard who was previously assigned to the Fort Worth, Texas, area and is now on the White House Detail of the Secret Service in Washington, D. C.; (2) Pat Howard, Deputy Sheriff of Tarrant County, Texas, and a brother of Secret Service Agent Mike Howard; and (3) Thayer Waldo, a reporter for the Fort Worth Star-Telegram. The President's Commission desires to have these three individuals interviewed regarding conversations which are alleged by the article to have taken place on or about February 9, 1964, in Fort Worth and Dallas, Texas, concerning the existence of a Negro witness who saw Oswald shoot at President Kennedy.

Dallas should interview Pat Howard and Thayer Waldo and WFO should interview Secret Service Agent Michael Howard of the White House Detail. Those individuals should be advised that we are contacting them regarding Lane's allegations at the specific request of the President's Commission.

Submit airtel enclosing a letterhead memorandum suitable for dissemination to the President's Commission.

NOTE:

By letter 5/13/64 we advised the Commission of the allegations in the "National Guardian" 5/9/64 article which referred to the existence of a Negro witness who saw Oswald shoot at President Kennedy, and indicated that Fort Worth Star-Telegram reporter Thayer Waldo had received this information from Secret Service Agent Mike Howard and his brother, Pat Howard, Deputy Sheriff, Tarrant County, Texas. We have previously checked out for the President's Commission allegations regarding the existence of the Negro witness and found no evidence for this allegation. President's Commission requested by letter 5/22/64 that the two Howards and Waldo be interviewed regarding conversations Lane alleges took place in Februrary, 1964, which would indicate that the Howards are the source for Waldo's article on 2/10/64 in the Fort Worth Star-Telegram that the Negro witness to Oswald's shooting President Kennedy did exist.

Dear Mr. Hoover:

We note that one of the photographs purporting to depict the house of Major General Edwin A. Walker, which photograph has been marked as Commission Exhibit 5 and as FBI inventory number 369, has been mutilated in such a way as to obliterate the license number of an automobile which appears in the photograph. Would you please advise concerning the circumstances under which and from whom your Bureau obtained the above photograph and as to whether or not the picture was so mutilated at the time it came into your possession or into the possession of any other person or organization from whom you may have obtained it.

We would also appreciate having the automobile in question identified. Since the photograph purports to depict General Walker's house, the General could probably identify the automobile, as well as the house itself.

We also note that the photograph appears to have traces of ink or some similar substance on its face. Would you please advise whether or not such substance was on the photograph when you received it and, if not, how it came to be on the photograph.

The photograph in question depicts several trees and shrubs, which do not appear to have any leaves on them. We note that pictures taken in the vicinity of General Walker's house by the Dallas Police Department on April 10, 1963 show some of the same shrubs which appear to be well covered with leaves. Could you advise as to the approximate date on which Commission Exhibit 5 was taken by examination of the condition of the trees and shrubs shown in that picture.

For your possible assistance we enclose the two photographs mentioned as having been taken by the Dallas Police Department, which have been marked, respectively, "A" and "F". Would you please return them after they have served your purposes.

Could you advise, on the basis of the shadows appearing in Commission Exhibit 5 as to the approximate time of day at which it was taken.

On the basis of the interview set forth at page 439 of the report of Special Agent Robert P. Gemberling dated March 10, 1964 at Dallas, Texas, we assume that, to the knowledge of your Bureau, there is no

negative of Commission Exhibit 5 in existence.

We return Commission Exhibit 5 for your use in connection with the investigation we are requesting.

Your continued cooperation is most appreciated.

ASSASSINATION OF PRESIDENT KENNEDY
REQUEST OF THE PRESIDENT'S COMMISSION

There are attached two copies of a letter from The Commission dated May 13, 1964, requesting additional investigation regarding the photograph of the house of Major General Edwin A. Walker, which has been marked as Commission Exhibit 5 and as FBI inventory number 359. It is requested that you furnish the information requested in the attached letter. The FBI Laboratory will handle the first paragraph on page two regarding the ink or similar substance on the face of the photograph since this is a result of the fingerprint examination and the photograph you made of the exhibit in Dallas before it was submitted does not contain the stains. The FBI Laboratory will also handle paragraph four on page two regarding the time of day the photograph was taken. Regarding the last paragraph on page two the Laboratory has found no original negative for this photograph among the items submitted by your office.

A copy of the photograph, Item 359, is attached along with copies of the photographs taken by the Dallas Police Department which are described in paragraph three on page two of the Commission letter.

Every effort should be made to expedite this investigation since it is possible The President's Commission may wind up their investigation at an early date. You must insure the Commission's specific requests are appropriately complied with in each instance and the results of the investigation should be incorporated in a suitable letterhead memorandum for immediate dissemination to the Commission without need for revision and/or correction.

Dear Mr. Rankin:

Reference is made to your letter dated May 13, 1964, requesting additional information regarding a photograph purporting to depict the house of General Edwin Walker, which has been marked as Commission Exhibit 5. There are attached four copies of a memorandum dated May 22, 1964, at Dallas, Texas, covering the investigation requested in your letter.

Regarding the traces of ink, or some similar substance, on the face of Exhibit 5, it has been determined that this was not on the photograph when received by this Bureau and that the stains are the result of the fingerprint examination conducted on this exhibit. It is not possible to determine the approximate time of day when this photograph was taken, based on shadows appearing in the photograph, because there are no definite shadows and it has been established that the photograph was made under cloudy or cloudy-bright conditions under which no specific shadows result.

The photographs which you submitted that were taken by the Dallas Police Department, marked "A" and "F," and Commission Exhibit 5 are returned herewith. This Bureau has not received, during this investigation, a negative of the photograph represented by Commission Exhibit 5.

Sincerely yours,

J. Edgar Hoover

NOTE: By letter dated May 13, 1964, the Commission requested additional information regarding a photograph of Walker's house (Commission Exhibit 5). This photograph bears blue stains on the face and the license plate is torn from the car. They requested whether or not the picture was in this condition when received. Investigation shows that the license was torn from the photograph when received, but the blue stains were from fingerprint examination. They also requested that the approximate date and time of day the photograph was made be determined, if possible. Dallas has furnished letterhead memoranda regarding their investigation and these are being furnished to the Commission. Based on construction in the background of one photograph, the date of the picture has been established as approximately March 9 and 10, 1963. The Commission requested whether or not the negative was available. No negative is known to exist.

NOTE: It is noted that the Commission letter suggests the possibility of identifying the automobile in one of the photographs through interview with General Walker. Dallas airtel 5/25/64 states that Walker is a very controversial figure and any contact with him would undoubtedly cause him to alert the press media concerning the nature of the inquiries. Dallas recommends that Walker not be interviewed since their investigation has resulted in information that the automobile most likely is the car of one Charles F. Kilhr who is a frequent visitor to the Walker residence.

Request of the Commission

Mr. Melvin Eisenberg of The President's Commission telephonically advised SA Lyndal L. Shaneyfelt today, 6/5/64, that he would like for Shaneyfelt to obtain the following items for Laboratory comparison:

News Week Magazine for March 2, 1964

Detroit Free Press Newspaper for February 17, 1964

New York Times for February 17, 1964, or February 18, 1964

Commission Exhibits 335, 336 and 338

The above magazine and newspapers and Commission Exhibits all relate to the photograph of Lee Harvey Oswald holding the rifle that has been widely publicized. Mr. Eisenberg requested that SA Shaneyfelt make a comparison of the photograph of Oswald holding the rifle with the reproductions in the publications and be prepared to furnish a deposition at the Commission on Friday, June 14, 1964.

RECOMMENDATION: (1) That SA Shaneyfelt obtain the desired material and make the examination.

(2) That the Commission by advised by letter of the results of the examination.

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY
DALLAS, TEXAS, 11/22/63

On June 4, 1964, Inspector Leo Gauthier, SA Lyndal L. Shaneyfelt and SA Robert A. Frazier testified before the President's Commission concerning an on-site survey of the scene of the assassination, which survey was requested by the Commission. Inspector Thomas Kelley, U. S. Secret Service, also testified regarding the on-site survey.

Inspector Kelley first testified regarding the physical specifications of the President's car as compared with the car used to reconstruct the assassination scene. Inspector Gauthier testified regarding the measurements, maps and visual aids and is preparing a separate memorandum concerning his testimony.

SA Shaneyfelt testified regarding the amateur motion picture films that were taken of the actual assassination including Laboratory examination of the films and cameras used and reviews of these motion picture films held at the Commission. SA Shaneyfelt also testified in detail regarding the persons present at the re-enactment and the manner in which the re-enactment was carried out and photographed.

SA Frazier testified regarding his participation in the on-site re-enactment and gave the result of his findings. At the conclusion of SA Frazier's testimony, the original amateur assassination films and the films taken at the re-enactment were shown to the Commission and made a part of the Commission's exhibits.

There is attached a detailed memorandum setting out the testimony given by SAs Shaneyfelt and Frazier. There is also attached a set of photographs of the exhibits used in presenting this testimony.

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY
DALLAS, TEXAS, 11/22/63

On June 4, 1964, Inspector Leo Gauthier, SA Lyndal L. Shaneyfelt and SA Robert A. Frazier testified before the President's Commission concerning an on-site survey of the scene of the assassination, which survey was requested by the Commission. Commission members present during all or part of the testimony were Chief Justice Earl Warren, Senator John Sherman Cooper, Congressman Charles R. Ford (Republican), Michigan, Mr. John J. McCloy, Chairman, Advisory Committee, Arms Control and Disarmament Agency, and Mr. Allen W. Dulles, former head of the Central Intelligence Agency. Inspector Thomas Kelley, U. S. Secret Service, testified concerning the physical specifications of the President's car as compared with the car used to reconstruct the assassination scene. Inspector Gauthier is preparing a separate memorandum concerning his testimony.

SA Shaneyfelt testified regarding the amateur motion picture films made by Abraham Zapruder, Orville Nix and Marie Muchmore, which have been extensively examined in the Laboratory. He testified regarding the examinations he had made of the cameras used to make these films, the determination of the film speeds of these cameras and the comparison of the film speeds of the cameras to the elapsed times between various frames of the films depicting the assassination. He also explained the manner in which frame numbers were assigned to each frame of each of the assassination films for convenience in the study of the films. In addition he testified regarding the numerous reviews of the motion picture films that have taken place at the Commission, individuals present at these reviews and, in general, the purpose of the film reviews, which was to try to establish the specific points in the films where shots occurred.

SA Shaneyfelt then testified in detail regarding the on-site survey and re-enactment that took place in Dallas on May 24, 1964. He

stated the members of the Commission, FBI and Secret Service that were present at the re-enactment and the manner in which the car and its occupants were established at locations on the assassination route based on specific frames of the Zapruder, Nix and Muchmore films and observations of SA Frazier from the sixth floor window of the Texas School Book Depository (TSBD) building. The specific frames of the Zapruder film used for the re-enactment were, A, 161, 166, 185, 186, 207, 210, 222, 225, 251, 255, 240, 249, 255 and 313. He testified regarding photographs that were made of the re-enactment at each of the specified points along the assassination route as well as motion pictures made of the re-enactment car moving along the assassination route. Exhibits had been prepared for each of the frame numbers re-enacted and each exhibit contained a copy of a Zapruder photograph, a corresponding copy of a re-enactment photograph, a photograph taken through the scope of the rifle and a listing of the measurements related to that location including distance and angle to the window of the TSBD building and distance and angle to a nearby triple overpass. He further testified regarding the motion picture film that was taken through the telescopic sight of the rifle, of the car both in the fixed location previously determined and during the time the car drove the assassination route at approximately eleven miles per hour. SA Shaneyfelt also testified regarding his examination of the Zapruder film including reaction or lack of reaction in either President Kennedy or Governor Connally at various points in the film. He also testified that he had established as a result of the survey and a further study of the Zapruder film that the assassination car was traveling at an average speed of 11.2 miles per hour during the pertinent portion of this film. All of the exhibits presented by SA Shaneyfelt regarding the re-enactment were admitted in evidence.

SA Frazier testified that he participated in the on-site re-enactment, making observations from the sixth floor window of the TSBD BUILDING. In this connection, the Commission desired to place the car used in the re-enactment at the point where the assassin would have his last clear shot before the car passed under a tree which overhangs Elm Street in front of the TSBD. The Commission wished to determine

also if the assassin would have a clear shot at the President through any break in the foliage of this tree and to position the car where the first clear shot could be made after the car emerged from under the tree. SA Frazier, using the telescopic sight on the assassination rifle, fixed these positions as frame number 166 (last clear shot), frame number 186 (shot through opening in tree) and frame number 210 (first clear shot beyond tree) of the Zapruder film and so testified.

SA Frazier also testified that under certain hypothetical conditions set out by the Commission (in particular that there was no deflection of the bullet while passing through the President's body), and under the conditions shown in the photographs taken during the on-site re-enactment, a bullet which struck President Kennedy in the back of the neck (first wound) would necessarily have struck the car or its occupants after exiting from the front of the President's neck. This condition exists due to the downward angle of the path of the bullet and to the position of the Presidential limousine which was moving virtually directly away from the assassin's position.

Under the hypothetical conditions set out by the Commission (in particular that there was no deflection of the bullet while passing through the President and that Governor Connally was sitting in front of the President approximately as the scene was reconstructed on 5/24/64), SA Frazier testified that it was possible the bullet which wounded the President also could have struck Governor Connally in the back and passed through his body.

However, in connection with all of SA Frazier's testimony concerning hypothetical questions and assumed conditions, SA Frazier was careful to inform the Commission that there was insufficient technical evidence known personally to him to support or otherwise resolve the hypotheses and assumed conditions advanced by the Commission representatives.

Following the testimony of Messrs. Kelley, Gauthier, Frazier and Shaneyfelt, movie films made by SA Shaneyfelt at the re-enactment scene were shown to the Commission and made a part of the Commission's exhibits.

SUBJECT: THE PRESIDENT'S COMMISSION

Inspector Tom Kelley, U. S. Secret Service, telephoned Mr. James Malley on June 8 and stated that Mr. James Rowley, Chief, U. S. Secret Service, Treasury Department, is expecting to be called before the President's Commission on either June 18 or June 19.

Inspector Kelley advised that Mr. Rowley, in connection with his testimony before the President's Commission, had requested Kelley to contact the Bureau to determine whether the Bureau would permit Mr. Rowley to see the testimony of the Director and the testimony of Mr. Belmont before the President's Commission. Inspector Kelley advised that if the Bureau did not desire that they be permitted to see the testimonies of both the Director and Mr. Belmont, Mr. Rowley would sincerely appreciate having an opportunity to see the Director's testimony.

Mr. Kelley advised that Mr. Rowley was most desirous of giving accurate testimony, particularly with regard to any matters wherein there might be an overlapping between the Bureau and the Secret Service.

RECOMMENDATION

If approved, it is suggested Mr. Rowley be permitted to come to Bureau Headquarters and have an opportunity to review that portion of the testimony given by the Director and Mr. Belmont relating to items affecting Secret Service.

Honorable J. Lee Rankin

The above items were examined, as requested, in order to determine whether or not the photographs in the various publications originated from the photograph of Oswald holding the rifle, Commission Exhibit 133. It was not possible to positively associate these photographs since the photographs in the publications are reproductions by a halftone process, normal to such reproductions, and do not contain as much detail as the photographs from which the engraved halftone plates were made. In addition, this loss of detail tends to conceal retouching that is normally placed on photographs for the purpose of intensifying details that would otherwise be lost in the engraving process. However, a comparison of the photograph which is a part of Commission Exhibit 133 with the photographs and reproductions described above, shows that all of the photographs and reproductions are consistent in all general characteristics, except for some variations that appear to be retouching. Such retouching would have been placed on the photographs for retention of detail in the engraving process. It is noted that no characteristics were found that would suggest that the photographs and reproductions of photographs, described above, originated from other than the photograph that is a part of Commission Exhibit 133 or a duplicate print of that photograph.

As requested in your letter dated June 9, 1964, Special Agent Lyndal L. Shaneyfelt will appear at the Commission on June 12, 1964, at 3:30 P.M. to furnish a deposition relative to the above examination.

Commission Exhibits 335, 336 and 338 are attached.

Sincerely yours,

J. Edgar Hoover

Dear Mr. Rankin:

Reference is made to your letter of June 2, 1964, wherein you advised that the Commission now has evidence that on Friday or Saturday of September 27 or 28, 1963, Lee Harvey Oswald had his photograph taken for use on an application for a visa at the Cuban Embassy in Mexico City. You indicated you believed that Oswald must have gone to a photographic studio, under the circumstances an inexpensive one, some place in the vicinity of the Cuban Embassy. You requested that this Bureau attempt to locate this studio and, if possible, obtain the negatives of the photograph taken of Oswald or copies thereof.

For your information, we have contacted all photographic studios within an eight-block radius of the Cuban and Soviet Embassies, the Hotel del Comercio where Oswald stayed while in Mexico City, as well as three photographic studios near Chihuahuenses Transportation Travel Agency, Incorporated, where Oswald purchased his bus ticket to return to the United States, and we were unable to locate the photographic studio where Oswald reportedly had his photograph taken while in Mexico City.

Please advise if you desire us to extend our inquiries to locate such photographic studio to include all of Metropolitan Mexico City. We are holding further investigation in this matter in abeyance pending receipt of advice from the Commission.

Sincerely yours,

J. Edgar Hoover

NOTE:

Legat has made a comprehensive survey to locate photographic studio where Oswald allegedly had his photograph taken in Mexico City. We do not possess the evidence the Commission refers to indicating Oswald had his picture taken while in Mexico City. To extend our inquiries to cover all of Metropolitan Mexico City would be an extremely time-consuming process. Desirable we contact Commission to determine if it desires such survey be conducted before we get involved in such a major undertaking which would run into considerable expense.

ReBuairtel to Dallas, 5/25/64, enclosing President's Commission letter, dated 5/20/64, requesting additional investigation in connection with the attempted assassination of Major General EDWIN A. WALKER.

Enclosed are ten copies of a letterhead memorandum (LHM) reflecting the requested investigation.

Also enclosed are the following described photographs, which are mentioned in the contents of the LHM and which, it is believed, will assist in understanding the places described in the LHM:

One copy each of seven photographs taken 4/10/63, in or near the residence of Major General EDWIN A. WALKER, by Dallas Police Officer E. G. BROWN, which were made available by Lt. J. C. DAY, Dallas, Texas, Police Department, to SA ROBERT M. BARRETT, on 6/3/64. These photographs are identified as DL 51(1) through (7). Only one copy each of such photographs was available and, in the event the Bureau considers it feasible to transmit copies of same to the President's Commission with the enclosed LHM, appropriate copies should be made at the Bureau, and one copy of each returned to Dallas for its files.

No. 5, of Item No. 1, had been furnished to Mr. WESLEY J. LIEBELER, of the President's Commission.

It is pointed out the two automobiles and the two individuals described in the interviews with WALTER KIRK COLEMAN have not been identified. It appears only logical these two individuals are (1) either accomplices of the individual shooting at General WALKER; (2) are witnesses to the shooting who are reluctant to divulge their identity, or (3) they are associates of General WALKER. If further investigation is desired to identify these individuals and these automobiles, it would appear necessary to interview General WALKER who, it is pointed out, is a most controversial figure, who will, undoubtedly, immediately alert the press or call a press conference and publicize the inquiry.

Investigation was conducted by SA'S ROBERT M. BARRETT and IVAN D. LEE.

Dear Mr. Rankin:

Reference is made to your letter of May 20, 1964, requesting this Bureau to conduct certain investigation regarding the attempted assassination of Major General Edwin A. Walker.

This will confirm delivery to Mr. Wesley J. Liebeler of your staff on June 16, 1964, of the following data which are the results of our inquiries in this matter:

(1) Two copies of a memorandum dated June 10, 1964, at Dallas, Texas.

(2) Two copies of each of the following items which are described in the aforementioned memorandum on the pages indicated:

(a) Seven photographs identified as DL 51 (one through seven) taken April 10, 1963, in or near the residence of Major General Edwin A. Walker, Dallas, Texas (pages six and seven)

(b) Six aerial photographs identified as DL 52 (one through six) taken June 3, 1964, from a helicopter by Special Agent Ivan D. Lee of the area in and around the residence of Major General Edwin A. Walker, Dallas, Texas (pages 25 through 27).

(d) Transit map of the Dallas Transit Company, Dallas, Texas. The residence of Major General Edwin A. Walker is depicted with a large "X" on this map (pages 27 through 31).

Information on pages 31 and 32 of the aforementioned memorandum of June 10, 1964, whichcontains results of our interview with Marina Oswald on June 4, 1964, regarding the General Walker incident was orally furnished to Mr. Wesley J. Liebeler of your staff on June 11, 1964.

This concludes our inquiries in this particular matter.

Sincerely yours,

NOTE:

The President's Commission is taking testimony from an aide of General Walker at 10 a.m., June 16, 1964, and requested results of our investigation be furnished to Commission for its use. The data has been assembled and was dispatched to the President's Commission at 9 a.m., 6/16/64. Extensive inquiries in the residence of General Walker were conducted by us and we obtained the Dallas Police Department photographs of the Walker incident; however, our investigation did not establish whether Oswald did or did not make the attempt on General Walker's life. Our interview with Marina Oswald on 6/4/64 regarding any additional data she might possess on the incident was furnished Mr. Liebeler of the Commission by SA Robert E. Lenihan orally on the morning of 6/11/64 in order that Mr. Liebeler would have such data for his use in connection with Marina Oswald's appearance before the Commission that date.

Dear Mr. Rankin:

Reference is made to your letter of May 26, 1964, concerning the signature "A. J. Hidell" appearing on a Fair Play for Cuba Committee card found in Oswald's wallet and which suggested the possibility that the signature was written by Marina Oswald. Known samples of Marina Oswald's handwriting were referred to as Commission Exhibits 110, 404A, 408A, 409A and 420.

Commission Exhibit 110 was previously designated as FBI Exhibit D24. Commission Exhibits 404A, 408A, 409A and 420 were furnished to the FBI Laboratory on June 2, 1964, by Miss Mary Ann Rowcotsky and have been designated as FBI Exhibit D220.

Since the handwriting of Marina Oswald appearing on FBI Exhibits D24 and D220 was not adequate for a satisfactory handwriting comparison with the signature "A. J. Hidell" appearing on the Fair Play for Cuba Committee card, a photograph of the card was sent to our Dallas Office. This photograph was exhibited to Marina Oswald on June 3, 1964, and she identified the Hidell signature as her handwriting. She also furnished handwriting specimens of the signature "A. J. Hidell." These known handwriting specimens of Marina Oswald have been designated as FBI Exhibit D225. As a result of a handwriting comparison of Exhibit D225 with the questioned Hidell signature, it was concluded that Marina Oswald wrote the signature "A. J. Hidell" appearing on the Fair Play for Cuba Committee card found in Oswald's wallet.

Honorable J. Lee Rankin

During our contact with Marina Oswald on June 3, 1964, she stated she asked Lee Harvey Oswald what the card containing the name "A. J. Hidell" was for and he told her that it was none of her business. Marina Oswald also told us that her handwriting of the Latin alphabet is very poor now and had been extremely poor at the time she had written the signature "A. J. Hidell." Marina Oswald also stated that she signed this membership card during the time she and Lee Harvey Oswald were residing in New Orleans, Louisiana.

Two photographic copies of FBI Exhibit D225 are attached for your information.

Commission Exhibits 404A, 403A, 409A and 420 are returned to you herewith.

On 6/12/64 SA Lyndal L. Shaneyfelt furnished testimony at the Commission to Mr. Melvin Eisenberg. The testimony given concerned the reproductions of the photograph of Oswald holding the rifle that has been widely publicized. SA Shaneyfelt testified regarding his comparison of the copy of this photograph, obtained from Oswald's possessions, with the reproductions of a similar photograph in the New York Times, the Detroit Free Press, the New York Journal American and Newsweek magazine.

Because the reproductions in the publications are engravings, they do not contain sufficient detail to warrant positive identification with the photograph of Oswald, obtained from his possessions. SA Shaneyfelt testified and stated that all of the photographs were entirely consistent and contain no differences to suggest they were from a source other than the photograph obtained from Oswald's possessions or a duplicate print of that photograph.

The Commission was previously advised of the results of the examination by letter dated 6/11/64.

Reference memorandum dated February 26, 1964, from W. D. Griffith concerning a continuing project wherein the Bureau has undertaken to furnish the Commission with photographs of all Commission exhibits.

On June 15, 1964, Miss Mary A. Rowcotsky called SA Marion E. Williams of the Laboratory's Physics and Chemistry Section and requested that a Bureau representative take custody of the exhibits listed on the attached list. She further requested that the Commission be furnished with three copies of each exhibit not previously reproduced.

As a matter of record, custody was taken of instant exhibits by SA Robert A. Frazier on the date of the request.

This work will be handled by an Agent Examiner of the Laboratory's Document Section.

ACTION: Exhibits will be photographed or otherwise reproduced and three copies will be supplied to the Commission as requested. Those items originally supplied to the Commission by the Bureau will be kept in Bureau custody. Items not originating from the Bureau will be returned along with the photographs. (Designated by *)

SUBJECT: THE PRESIDENT'S COMMISSION

In accordance with prior arrangements, Chief Jim Rowley of Secret Service, accompanied by Inspector Tom Kelley, came to the Bureau today and reviewed the testimony of the Director and Belmont before the President's Commission. The review was made from approximately 11 am, until 1:30 pm, in the office of Inspector Malley.

Inspector Malley was present throughout to answer any questions that might come up and I dropped in to talk to Mr. Rowley and Inspector Kelley about 1:20 p.m. Inspector Malley advises that no questions were raised. Mr. Rowley expressed appreciation for the testimony as it applied to Secret Service, with particular reference to the need of Secret Service for additional personnel. I told Mr. Rowley that if there were any questions at all he should be sure to raise them with Inspector Malley or myself.

Mr. Rowley wanted to know if the Director was in as he would like to express his personal appreciation for being afforded the opportunity of going over the testimony. I told him that I did not know whether the Director was in, but I would be glad to pass along his remarks to the Director.

Mr. Rowley furnished the attached envelope for the Director, which he said contained written criteria showing the type of information Secret Service would like to have disseminated to it with reference to the security of the President. He indicated it was along the same lines as the criteria that the Bureau is presently employing. He said that letters are being addressed to the various government agencies, furnishing them with copies of the criteria.

The copies of the Director's testimony and Belmont's testimony read by Mr. Rowley and Inspector Kelley are being retained in my office.

SUBJECT: TRAVEL OF THE PRESIDENT IN THE UNITED STATES AND COMMONWEALTH OF PUERTO RICO

In conversation with Mr. Belmont on 6/15/64, Chief James J. Rowley of Secret Service furnished Mr. Belmont proposed guidelines for the use of law enforcement and intelligence agencies in referring information to Secret Service for its assistance in fulfilling its Presidential protective responsibilities. Mr. Rowley advised Mr. Belmont that these guidelines are along the same lines as the guidelines that the Bureau is presently employing in its dissemination to Secret Service.

The basic guideline is:

Any information concerning a threat to physically harm the President, members of his immediate family, the President-elect, the Vice President, et cetera, or to cause him or them embarrassment whether it is by an individual, or a group, or organization, should be furnished Secret Service.

Beyond the basic type of information, Secret Service lists three factors to be considered in determining what other type of information is desired. They are:

1) Interest of the individual or organization.

2) Capabilities of the individual or organization.

3) Activities of the individual or organization.

In commenting upon the above three factors, Mr. Rowley indicated that the interest of the individual or organization is the prime factor to be considered but must be coupled with their capability and activity in making a determination for referral to Secret Service. It is indicated that the interest must be toward the President or others for whom Secret Service furnishes protection, or other high Government officials in the nature of a complaint

together with an expressed or implied determination to use other than legal means to satisfy any grievance, real or imagined.

It was indicated that after the interest phase is met, then the activity, which would encompass previous mental instability, history of violence, and the capability for furthering the interest, would dictate whether the case should be referred to Secret Service.

We presently disseminate to Secret Service in three basic circumstances: 1) Actual or implied threats against the President, 2) information concerning subversives, ultra-rightists, racists, et cetera, (a) possessing emotional instability or irrational behavior, (b) who have made threats of bodily harm against officials or employees of Federal, state or local government or officials of a foreign government, (c) who express or have expressed strong or violent anti-U.S. sentiments or who have been involved in bombings or bomb making or whose past conduct indicates tendencies toward violence, or (d) whose prior acts or statements depict propensity toward violence and hatred of organized government, and 3) information concerning Security Index subjects. Dissemination to Secret Service in Security Index cases in compliance with instructions issued the field 4/13/64 has been completed and as new names are added to the Security Index dissemination is being made. Security Index subjects are affiliated with organizations dedicated to the overthrow of our form of Government and represent potential threats to the internal security of the Nation.

OBSERVATIONS:

The guidelines developed by Secret Service, if adopted by us, would somewhat narrow our present dissemination policies to Secret Service particularly with respect to individuals falling within categories 2 and 3 mentioned above in which we are presently disseminating to Secret Service who have no interest toward the President with respect to possible action expressed or implied. However, it is recommended that we continue our present policies with respect to dissemination of information to Secret Service until such time as we see the results of the President's Commission hearings. At such time as the Commission hearings are available for review and in light of the results thereof, an analysis will be made of our dissemination policies to Secret Service in connection with its protective responsibilities.

Dear Mr. Rankin:

Reference is made to my letter dated June 18, 1964, wherein you were advised that investigation was being conducted to determine if any of the telephone calls charged to telephone number DI 7-7750, Washington, D. C., originated at the Parkland Hospital, Dallas, Texas.

Enclosed are two copies of a memorandum dated June 17, 1964, at Dallas, Texas, together with two copies of its two attachments setting forth the results of this investigation.

This completes the investigation requested in your letter dated June 5, 1964, pertaining to Mr. Seth Kantor.

By letter dated 6/5/64 Commission requested check of long-distance telephone calls made by Seth Kantor, a reporter for Scripps-Howard, Washington, D. C., to telephone number DI 7-7750 to determine if any calls originated from Parkland Hospital, Dallas. Also to review TV tapes and film in possession of WFAA-TV, Dallas, to determine if Ruby or Kantor were depicted therein. Kantor, when previously interviewed by us and in a deposition to the Commission, insisted he saw Ruby at Parkland Hospital between 12:45 p.m. and 2:00 p.m., 11/22/63. We have conducted extensive investigation and our investigation establishes Ruby could not reasonably have been there during this period. By letter dated 6/18/64 the Commission was advised of the results of the TV tapes and film review which was negative. We also furnished information regarding calls charged to DI 7-7750.

Dear Mr. Rankin:

Reference is made to your letter dated June 9, 1964, and my letter dated June 16, 1964, relative to the identification of latent palm and fingerprints found on cartons on the sixth floor of the Texas School Book Depository Building.

Enclosed for your assistance are two copies of a self-explanatory communication from our Dallas Office dated June 16, 1964, incorporating the identities of Texas School Book Depository Building employees who were printed by this Bureau. You were previously advised this project was to be limited to those employees who would have had occasion to handle the cartons in question at the specific request of Mr. Roy S. Truly, Warehouse Superintendent.

The fingerprints and palm prints of those employees listed in the enclosed Dallas communication were compared with the nineteen latent fingerprints and the six latent palm prints previously developed on the cardboard cartons marked "A," "B," "C" and "D" and no identifications were effected. The prints of those employees printed by this Bureau are being retained in the files of this Bureau's Identification Division.

In accordance with my letter dated June 16, 1964, no further action is being taken in this matter. 62-109090

ReBuairtel 6-11-64, and your airtel 6-16-64. This is being furnished for your information to furnish you the results of the Identification Division's comparison of the major case prints with the leads developed in this matter.

NOTE:

The Commission by letter 6-9-64, reiterated a previous request to determine the identity of persons leaving latent prints on cartons near where Oswald fired the assassination shots. The most recent request indicated that all appropriate methods should be used to do this job which would have necessitated the taking of major case prints of all Texas School Book Depository Building (TSBD) employees. Roy S. Truly, Warehouse Superintendent, of the TSBD when advised of this procedure strongly objected and requested the taking of prints be limited to those employees who would have had occasion to handle the cartons. Bureau letter, 6-16-64, to the Commission pointed out Truly's objections and indicated we would not go beyond this point unless advised to the contrary by the Commission.

Dallas by airtel 6-16-64, submitted a letterhead memorandum indicating that 12 employees might have handled the cartons and the major case prints were submitted and compared. No identification was effected. This concludes our inquiry.

NOTE:

By letter dated 6/4/64 Commission requested information concerning calls made from phones of Ruby, Eva Grant, his sister, and the Vegas Club on 11/23 and 24/63, clarification regarding examination of certain telephone records and check of calls made from Phil's Delicatessen to determine if Ruby may have placed a call to Ralph Paul, a close associate, from that phone. Clarification of above-mentioned calls was requested as information was set out in report of SA Clements dated 11/30/63 that no toll charges were made to telephone number RI 7-2362 (Carousel Club). Also that a call was made at 11:50 a.m., on 11/22/63 from telephone number WH 1-5601 (Ruby's residence). This was reported based on information received from the telephone company personnel on 11/29/63. Report of SA Clements dated 3/28/64 set out information pertaining to calls charged to RI 7-2362 (Carousel Club) and that a call from WH 1-5601 was made at 9:02 p.m. This information was reported based on Agent's personal examination of toll slips which had become available. Longhand notes of telephone company representative bear out the facts that Agents reported the information correctly as furnished to them by telephone company representative on 11/29/63. Telephone company representative stated that variances in calls were results of lack of experience and confusions of telephone company personnel. This is clearly pointed out to the Commission in enclosed attachments.

NOTE:

By letter 6/1/64 Commission requested the interview of Barney Ross on basis of statement made by Ross in his autobiography that he had once worked for Al Capone. Ross was previously interviewed as an acquaintance of Ruby but did not discuss his association with Capone and gave no indication Ruby associated with Capone. In an interview Ross stated Capone used to hang around a gym where he trained and possibly Ruby had run errands for Capone but had never actually worked for him. Ross mentioned Lou Kopple as person who had known Ruby since he was five years old.

Dear Mr. Rankin:

Reference is made to your letter dated June 3, 1964, requesting that an Agent contact Mr. Burt W. Griffin of your staff so that arrangements could be made to make time computations and obtain enlargements of a few frames from motion picture films in the possession of the Commission. These studies were for the purpose of establishing as accurately as possible the time of the shooting of Lee Oswald. Special Agent Lyndal L. Shaneyfelt contacted Mr. Griffin on June 8, 1964, and obtained Commission exhibits numbered 84A, 24A, III, 43A, GG, AA, 99A, 39A, 43B and 84B, which were the motion picture films to be used for the study.

The only film found to be of value from a time study standpoint was Exhibit 24A. This film shows Oswald being brought from the elevator through a police department office out into the driveway area where the shooting occurred after which it shows him being returned to the police department office that he had passed through en route to the driveway area. There is a clock on the wall in the police department office that is visible in the photographs made after Oswald was brought back to that office following the shooting. The detail of the photographs is insufficient to accurately show the time on the clock but it is noted that the minute hand passes approximately through the "4" area which would place

the time following the shooting at 11:20 to 11:21 if the clock is accurate. It is noted that the film was exposed at sound speed which is approximately 24 frames per second and using this as a basis for calculation, it was found that there is a lapse of 25 5/12 seconds between the portion of the film recording the shooting of Oswald and the portion showing the clock. It is pointed out that there is a splice in the film representing a break in this time so that the actual time represented between the shot and the photograph of the clock would necessarily be in excess of 25 5/12 seconds. This same clock appears in later portions of the film and shows the time as approximately 11:23. Shortly after the appearance of the clock at 11:23, there is a frame of motion picture film showing that the camera was stopped and in the sound portion of the film that follows shortly thereafter, a voice is heard to say, "It is now 11:24 here in Dallas," which tends to establish the accuracy of the depicted police department clock. Three enlarged photographs of the best frame of the motion picture film showing the clock at its first appearance after the shooting are enclosed. The exhibits described above will be returned to the Commission separately.

Also enclosed are two copies of a memorandum dated June 16, 1964, at Dallas, Texas, together with two copies of its three attachments.

Sincerely yours,

J. Edgar Hoover

OSWALD - VICTIM

The investigation reported herein was conducted on the basis of a request in a letter dated June 3, 1964, from the President's Commission on the Assassination of President KENNEDY, to Director J. EDGAR HOOVER, that further details be supplied by Special Agents IVAN D. LEE and ROBERT M. BARRETT, Federal Bureau of Investigation, Dallas, Texas, regarding their observation via closed circuit television of the shooting of LEE HARVEY OSWALD on November 24, 1963.

Attached is a document setting forth in further detail the observations of Special Agents LEE and BARRETT, explaining the manner by which their previous calculation of the time of the shooting was made, and the action taken by them in notifying their superior.

Attached also are the results of a check of telephone company records with respect to a telephone call made by Special Agent in Charge J. GORDON SHANKLIN to Federal Bureau of Investigation Headquarters, Washington, D. C., at 11:22 A.M., November 24, 1963, after Mr. SHANKLIN received advice as to the shooting from Special Agents LEE and BARRETT.

The report of interview with EDDIE BARKER, KRLD-TV, is likewise attached.

FD-302 (Rev. 3-3-59)

FEDERAL BUREAU OF INVESTIGATION

Date 6/10/64

On November 24, 1963, SAs IVAN D. LEE and ROBERT M. BARRETT were contacting EDDIE BARKER, Director of KRLD-TV and Radio News, at his office. In Mr. BARKER's office was a television monitor and BARKER explained it was set on a closed-circuit channel and that in a few moments the Agents could observe the removal of LEE HARVEY OSWALD from the Dallas City Jail to the Dallas County Jail via this closed-circuit television.

After observing a man later identified as JACK L. RUBY shoot OSWALD in the basement of the City Hall, and within 30 seconds of the shooting, SA BARRETT telephonically reported what he and SA LEE had observed via television to Special Agent in Charge J. GORDON SHANKLIN at the Dallas FBI Office. SAC SHANKLIN has advised SAs BARRETT and LEE that immediately upon receiving their report he placed a telephone call via direct dialing to FBI Headquarters in Washington, D. C., telephone No. EXecutive 3-7100, to report the incident.

After telephonically reporting the incident to SAC SHANKLIN, SAs BARRETT and LEE made notes of what they had observed to be used later in the dictation of a report of the matter. Preparation of the notes took place about 8 to 10 minutes after the shooting and the Agents had to approximate the time of the shooting as 11:25 a.m. This approximation was based on estimation of time lapse and the Agents' own personal wristwatches, the accuracy of which is unknown.

Dear Mr. Hoover:

Dallas Police Captain W. P. Frazier stated in his deposition to the Commission that, when he telephoned Chief Jesse Curry early Sunday morning, November 24, to advise Curry of the threat to Oswald's life, he got a busy signal and then was informed by the telephone company that Curry's telephone was out of order.

Please advise the Commission of any information the telephone company has concerning the cause of the breakdown in service and direct particular attention to whether or not there may have been any deliberate attempt by anyone to interfere with Chief Curry's telephone.

In addition, please interview Chief Curry to determine what use he or persons in his home made of his telephone between 5:30 a.m. and 7:00 a.m. Sunday morning, shortly before police officers arrived at Curry's house to advise him of the threat to Oswald's life. Please also ascertain from Curry if he had learned of that threat prior to the arrival of those officers.

Finally, please ask Captain Will Fritz and Chief Curry how long a period transpired on Sunday, November 24 between the arrival of the armored truck at the Dallas Police Department and their conversation in which they decided not to use the truck, and how soon after the conversation Oswald departed from Fritz's office. Please also determine if the decision to use an unmarked police car in transferring Oswald was made in the conversation immediately before Oswald left Fritz's office.

Dear Mr. Hoover:

In order to check out various possible modes of entry by Jack Ruby into the Dallas Police Department basement, the Commission would appreciate your making the following tests:

1. Please calculate the time it would take for a man walking at a normal pace, to leave the Western Union counter at which Ruby transacted business on November 24, exit on the Main Street side, walk to the alleyway behind the Police Courts Building, walk up the alley to the loading platform behind that building, enter through the loading platform door, pass through the service elevator to the stairway leading to the garage, walk down the stairway, enter the garage, go through the auto ramp railing about ten feet from where the Main Street ramp levels off, and walk to the point where Oswald was shot. Of course, we assume that all relevant doors were unlocked.

2. Please calculate the time it would take a man to leave the same Western Union Counter, exit onto Pearl Expressway, walk to Commerce Street, walk down the Commerce Street ramp, go into the police garage, cross-over onto the Main Street ramp about ten feet from where it levels off by going through the ramp railing, and walk to the spot where Oswald was shot.

3. Please evaluate the visibility to the base of the Main Street ramp at approximately 11:15 a.m. (CST) from the top of the ramp from the curb in front of the ramp, and from the center of Main Street in front of the ramp.

NOTE: President's Commission advised that Smith, Richey and Walker stated on deposition that they saw Jack Ruby on Sunday morning, 11/24/63, at which time he was wearing a greyish topcoat and they requested that we determine if Ruby or George Senator owned such a topcoat. Smith was interviewed on 12/4/63 in connection with this investigation at which time he stated that he was the remote video operator for the mobile unit of WBAP-TV on 11/24/63 and that the crew set up between 7:30 and 8:00 a.m. on that morning outside of the Dallas PD. Richey and Walker were also in the crew. Smith alleged that he saw a person whom he then identified as Ruby outside of the Dallas PD building on several occasions that morning between 8:00 and 10:00 a.m. and that Ruby had on a grey hat and grey topcoat. Our investigation establishes that Ruby received a phone call from Little Lynn at his apartment during this period and other witnesses observed Ruby at his apartment that morning. Ruby was not wearing topcoat at the time of the shooting and none was located in his car or immediate possession.

Dear Mr. Rankin:

In reply to your letter of June 4, 1964, requesting investigation in connection with the activities of Jack Ruby, Ralph Paul, George Senator, Joe Peterson, and Brock Wall on November 22, 23, and 24, 1963, there are enclosed herewith two copies of a memorandum dated June 16, 1964, at Dallas, Texas, together with two copies of each of its six attachments, which set forth results of the desired investigation.

This completes the investigation requested in your letter above of June 4, 1964.

Sincerely yours,

J. Edgar Hoover

NOTE: Ralph Paul, George Senator, Joe Peterson, and Brock Wall are acquaintances of Ruby who have previously been interviewed and were in contact with Ruby at certain times between November 22 and November 24, 1963. The Commission by letter June 4, 1964, requested additional investigation as to phone calls received by any of these persons at the Adolphus Hotel where Wall and Peterson resided and to interview other persons at the Hotel that might have been these persons there. They also desired information as to Senator's sobriety and anxiety during this period. Senator was Ruby's roommate.

Dear Mr. Rankin:

Reference is made to my letter dated June 12, 1964, and prior communications relating to Mrs. Shirley Martin, also known as Mrs. Mark E. Martin, of Hominy, Oklahoma.

Enclosed for your information are two copies of a self-explanatory communication from our Dallas, Texas, Office dated June 23, 1964, concerning a communication received by our Dallas Office bearing the name of Mrs. Mark E. Martin.

In view of your prior interest in Mrs. Martin, the enclosed is being furnished.

For your information Martin is apparently referring to an article appearing in the July, 1964, issue of "Redbook" magazine authored by Jessamyn West, entitled "Prelude to Tragedy." This article concerns various interviews by West with Mrs. Ruth Paine. The article is generally complimentary to the FBI and sets out a factual account of Paine's association with Marina and Lee Harvey Oswald.

NOTE:

This is the seventeenth letter to the Commission on Martin. SAC Letter 64-23B dated 4-28-64, alerted the field to her campaign of vilification of the Director and the FBI.

On 2-28-64, Mrs. Paine was specifically interviewed at the request of the Commission concerning her contact t with Martin. At this time Mrs. Paine who had befriended the Oswalds indicated that during the latter part of January, 1964, or early February, 1964, she had consented to an interview with Martin. Mrs. Paine stated that for approximately two hours Martin questioned her regarding all aspects of the assassination known to Paine. At this time Mrs. Paine characterized Martin as a "bright nut" who reached certain conclusions in spite of the evidence. This information was furnished to the Commission by Bureau letter dated 3-4-64.

In Martin's most recent communication to our Dallas Office she encloses what appears to be a letter to Mrs. West wherein she characterizes the statements attributed to Mrs. Paine in the 'Redbook" article as lies. Martin basis her conclusions on her previous interview with Mrs. Paine as indicated above and goes so far as to state that Mrs. Paine "lied."

Dear Mr. Hoover:

Mrs. Eileen Kaminsky, sister of Jack Ruby, has written to the Commission with certain information which we would appreciate your investigating.

According to Mrs. Kaminsky, Jack Ruby spoke with a Mrs. Wilma Tice, 8406 Lakemont Drive, Dallas, Texas, on November 22, 1963 at Parkland Hospital, at which time, according to Mrs. Kaminsky, Jack said to Mrs. Tice that he would be willing to donate his kidney to Governor Connally. Please interview Mrs. Tice to determine all the details of her meeting with Jack Ruby at Parkland Hospital, including precise information as to the time and place. Please also ascertain from Mrs. Tice the names of any other persons whom she knows to have seen Ruby at Parkland Hospital on November 22.

In addition, please interview Mr. Tom Alyea of Station WFAA, Dallas to determine what conversation he had with Sgt. P.T. Dean after Dean testified at the Jack Ruby trial. Mrs. Kaminsky informs us that Mr. Alyea interviewed Officer Dean on April 29 and that Dean told him a different story from the one to which he testified at the Ruby trial.

Sincerely,

NOTE: Eileen Kaminsky apparently wrote the Commission stating that a Mrs. Tice of Dallas talked to Jack Ruby at the Parkland Hospital on 11/22/63, at which time he said he would be willing to donate his kidney to Governor Connally. She also said that Tom Alyea of Station WFAA, Dallas, interviewed officer P. T. Dean after Dean testified at the Ruby trial and Dean told him a different story from the one he testified to. We have conducted extensive investigation on the basis of an allegation by reporter Seth Kantor that he saw Ruby at Parkland Hospital on 11/22/63, and our investigation indicates that Ruby could not have reasonably been there. Ruby denied having been there. Officer Dean is one of the officers who testified to statements made by Ruby immediately after the shooting of Oswald which tended to show premeditation on Ruby's part.

MEMORANDUM FOR MR. TOLSON
MR. BELMONT
MR. ROSEN
MR. DE LOACH

Judge Edward A. Tamm called and advised that Ernest Cuneo had just left his office. Judge Tamm stated that Mr. Cuneo said he is going to try to see Assistant Director DeLoach today; that he has signed a contract with the Curtis Publishing Company to do 35,000 words, apparently in the book-of-the-week type of thing, on what Judge Tamm thought when Mr. Cuneo first started talking was the Warren Report about the assassination of the President. Judge Tamm stated that Mr. Cuneo is rather hard to understand and asked if I knew whether there is a Senate Committee making a similar investigation. I told the Judge there was not. Judge Tamm continued that Mr. Cuneo mentioned Senators Long and Russell and a couple of others were taking a very vigorous stand and it looked as though there was going to be a repudiation of Warren. Judge Tamm stated that Mr. Cuneo apparently has talked to Allen Dulles, who says the report is going to be a complete exoneration of the FBI for any responsibility because of the Secret Service's claim that the FBI should have notified them about Lee Harvey Oswald being there and of his background, et cetera. Judge Tamm stated he could not ask questions because he was not too sure of what Mr. Cuneo was talking about, but he thought he would tell me that Mr. Cuneo was going to ask to see Mr. DeLoach and he, Judge Tamm, was sure that Mr. DeLoach with his background could explore it with Cuneo. Judge Tamm stated Mr. Cuneo has interviewed a number of people, including as he had mentioned, Dulles, and he has substantial knowledge of what is going to be in the report which is to be released immediately after the Republican Convention.

I told Judge Tamm the Commission was aiming to get the report out on June 30th, that the Chief Justice had told me recently they were planning to have it released on June 30th, but I did not believe they would get it out because in talking with J. Lee Rankin I gathered there was still a great deal of spade work to be done plus the fact that all of the members of the Commission have not been in attendance at all times. Judge Tamm asked if Senator Russell was a member of the Commission, and I told him he was but he has been in attendance very seldom and has also been at loggerheads with Justice Warren and even threatened to resign several times, but at the insistance of the President, remained on so there would not be a public break in the midst of the report. Judge Tamm stated maybe that explains Cuneo's statement about a repudiation of Justice Warren.

Memorandum for Messrs. Tolson, Belmont, Rosen, DeLoach

Senator Richard B. Ga. D.C. D.C.

I stated in the first instance Russell did not want to go on the Commission and the original fight was over Warren/Olney, as Justice Warren had wanted him made General Counsel of the Commission, but Senator Russell opposed vigorously, Dulles opposed it, and Congressman Ford opposed it and they all threatened to resign if Olney were appointed. I stated consequently they all started out with chips on their shoulders because Olney is a protege of Warren's. I stated that I thought indirectly they blame me for the attack on Olney although I did not raise a finger to it and it was done without my knowledge, but knowing Olney's hostility I have no doubt that Justice Warren was told of the opposition and both probably think I had my finger in it.

Chief Justice Earl D.C. Lady

I told Judge Tamm I appeared before the Commission about three weeks ago and out of the clear sky the day before I appeared, Justice Warren invited me to have luncheon with him in his private dining room, and I was a little puzzled, but he could not have been nicer in his solicitude and interest. I stated he talked about the fact I was going to testify the next day and wanted me to offer any suggestions and try to think of anything that ought to be done to tighten up the security of the President. I stated the next day I did appear and that I was there about three hours; that Justice Warren was there but Senator Russell was not nor was John McCoy. I stated in addition to the Chief Justice, there were present Senator Cooper, Congressman Ford, Allen Dulles, J. Lee Rankin, of course, and one or two others, who were probably staff members. I stated the questioning was very cordial and friendly and the atmosphere was really too warm in a pleasant way, but I answered all the questions satisfactorily, I thought, and in any event Mr. Rankin told me the next day that the testimony had great effect on the Commission and he thought it did me a great deal of good. I told Judge Tamm that I went into the field of the extent one can go in the security of the President without violating the civil rights of the people, and I took the position that absolute security could not be furnished the President without violating the constitutional and civil rights of the citizens of the country, that there are a lot of crackpots and members of subversive organizations. I stated I cited a case that had happened a week or so before my appearance in that we had furnished the Secret Service with the names of suspects in Chicago where the President was going to appear and the Secret Service got the Chicago Police to hold these people in house arrest for the time the President was in Chicago, and there had been quite a commotion about it. Judge Tamm commented that this was illegal. I stated I had nothing to do with what the Secret Service does with the information after we furnish it to them, but we have to keep in mind that there has to be a balance between the security of the President, who is very difficult to secure, and the civil rights and constitutional rights of the citizens. I stated that I would say in New York City there possibly

June 22, 1964

Memorandum for Messrs. Tolson, Belmont, Rosen, DeLoach

are not less than 5,000 persons who would be on the suspect list and might be put under house arrest when the President visits that city and that would be a police state and I did not think it was the right procedure, but we are furnishing Secret Service with everything we have. I testified that in regard to Oswald, when they questioned whether he was on any suspect list, I stated he was not as he never gave any indication of being a person who might commit violence and we did not know and no one else knew that he had already tried to kill General Walker and this was not told us until after the President was killed and it was Oswald's wife who told us. I stated that Oswald had been playing around with communism, had defected to Russia, but there was no evidence of violence in his makeup, but we are now sending all names of this type of person to Secret Service. I said that will result in many persons being arrested or put under house arrest and I have great concern of the violation of the constitutional and civil rights of American citizens. Judge Tamm asked if my testimony was recorded and I stated it was.

Judge Tamm stated he did want to talk to me and let me know about Ernest Cuneo and that he was going to ask to see Mr. DeLoach. I told him I was glad he called and I would pass the word on to Mr. DeLoach. I called Mr. DeLoach and advised him.

Very truly yours,

An envelope was received in my office on June 30, 1964, addressed to the Bureau, care of Leo Gauthier. The envelope was from Mr. Robert H. West, County Surveyor, Dallas, Texas, whose firm handled extensive measurements and mathematical calculations on May 24 1964, in line with detailed measurements being made at the request of the President's Commission and under the supervision of J. Lee Rankin, Norman Redlich, and Arlen Specter of the President's Commission. Enclosed in the envelope was a bill in the amount of $830.00.

Inasmuch as this work was arranged for at the specific request of the President's Commission and for their use, I called Mrs. Eide, Mr. Rankin's secretary and advised her of the receipt of this bill and told her that it was being delivered to the President's Commission for handling by the Commission.

Dear Mr. Hoover:

On June 10, 1964 this Commission received a telegram from Mrs. Shirley Martin of Hominy, Oklahoma in which she stated that Mr. William Keester, an Oklahoma City detective told one Jim Standard, an Oklahoma City reporter, that there were many things that he, Keester, had to say about the attempted assassination of Major General Edwin A. Walker. Mr. Keester was reported to have said that, however, he was afraid to tell Mr. Standard what those things were.

We would appreciate it very much if you would interview Mr. Standard and Mr. Keester to determine whether or not there is any truth in the allegations made by Mrs. Martin.

In this connection we note the report of Special Agent Grimes dated January 23, 1964 at Oklahoma City, Oklahoma which reflects an interview with Mr. Cliff Roberts, who allegedly acted in partnership with Mr. Keester in an investigation which they conducted in the attempted assassination of General Walker.

Your continued cooperation is appreciated.

Wallace interviewed and stated he had possession of a photograph which shows Jack Ruby shooting Oswald which, in his opinion, proves that Ruby did not receive a fair trial. He would not explain how this was established by photography saying that he desired to present it personally to the President's Commission. The interview of the brother-in-law of Wallace and other investigation indicates he is a chronic letter-writer and is considered almost a mental incompetent.

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

Memorandum dated 6/28/64 from Sullivan to Belmont refers to an article appearing in the Dallas Morning News on June 27, 1964, captioned "Secret Diary - Oswald's Thoughts Bared." The referenced memorandum recommended that Mr. Rankin of the President's Commission be advised that reporter Aynesworth of the Dallas Morning News was not friendly and that, while the Bureau would handle the Commission's request if desired, it appeared a better approach would be for the Commission to directly contact the newspaper and request information from the newspaper as to the source of this article.

This matter was discussed with Mr. Rankin on June 29, 1964, at which time Mr. Rankin stated that there was to be a meeting of the President's Commission during the afternoon and that the matter would be discussed in detail and a decision reached as to whether or not the Commission would attempt to handle this themselves with the newspaper or whether they would ask the Bureau to conduct the necessary interviews.

ACTION:

In the event any further request is received from Mr. Rankin concerning this matter, you will be advised.

Dear Mr. Hoover:

As a result of the deposition of Mr. A.D. Hodge, the Commission would appreciate your conducting certain further investigation.

Under oath, Mr. Hodge has provided information substantially different from that reported by Special Agent James W. Anderton and Edmund C. Hardin (Clements Report, November 30, 1963 page 333). Whereas, Agents Anderton and Hardin reported that Ruby joked with Hodge by saying "Have they arrested you, too, Hodge", Mr. Hodge now reports that he, not Ruby, did the jesting by saying he was under arrest, and two police officers who were accompanying Hodge supported the story in Ruby's presence. Hodge also stated that he recently reported the incident to Captain Will Fritz and that Fritz was endeavoring to locate the police officers who accompanied Hodge.

The Commission would appreciate your ascertaining the identity of those two police officers and interviewing them not only as to that one episode involving Ruby but also any other contacts they had with Ruby prior to November 22, 1963.

Sincerely,

J. Lee Rankin
General Counsel

PRESIDENT JOHN FITZGERALD KENNEDY
NOVEMBER 22, 1963
DALLAS, TEXAS

Enclosed is a copy of a letter bearing the name Alice Whiteley which was furnished to this Bureau by letter dated June 23, 1964, from Mr. Herbert J. Miller, Jr., Assistant Attorney General, Criminal Division, U. S. Department of Justice.

Mrs. Whiteley has corresponded with this Bureau since 1957. However, her letters have not been acknowledged due to the rambling, incoherent information contained in her communications.

On March 30, 1960, Mrs. Whiteley was interviewed by a Special Agent of the FBI at this Bureau's headquarters. She appeared to be a woman of more than sixty years of age. At that time Mrs. Whiteley left a paper she prepared so that the FBI could investigate the crimes set forth in the document. It contained a rambling dissertation regarding psychiatric therapists, Al Capone, the Mafia, Kremlin agents, perversions and hypnotism, all of which did not make sense.

A copy of Mrs. Whiteley's current letter has been furnished to the President's Commission and this Bureau is taking no further action.

Note:

Bureau files reveal Mrs. Whiteley has corresponded with us since 1957 and it appears she is a deeply mentally disturbed individual. She has presented lengthy written letters regarding psychiatric therapists, Al Capone, the Mafia, perversions, hypnotism, Kremlin Agents, none of which make sense. She appeared at the Bureau on March 30, 1960, to present one of these lengthy letters and it was the observation of the interviewing Agent that she was a woman of more than 60 years of age. We have not acknowledged any of her previous communications and in view of the fact the Department has not acknowledged this one, we therefore, are not acknowledging it. A copy of Mrs. Whiteley's letter is being furnished to the President's Commission investigating the assassination.

Dear Mr. Rankin:

A United Press International (UPI) release on June 5, 1964, relates to a Dallas auto salesman who had stated that one of the three bullets fired during the assassination went wild, crashed into a curb and fragments apparently hit him. This individual is probably identical with Mr. Jim Tague, who was interviewed by our Dallas Office on December 14, 1963, and the result of that interview appears on page 31 of the report of Special Agent Robert P. Gemberling dated December 23, 1963. A copy of this report has previously been furnished to your office.

Our Dallas Office has furnished two photographs obtained from James Underwood, newsman with WFAA-TV, Dallas, Texas. Mr. Underwood has advised that immediately after the assassination of President Kennedy on November 22, 1963, he remained in the area of the Texas School Book Depository Building taking motion picture film. He stated that a deputy sheriff, whose name he does not recall, pointed out a spot on the south curb of Main Street near the triple underpass which could have possibly been made by a bullet striking the curb. He stated that he returned to this area on November 23, 1963, and took 16 millimeter motion pictures of the mark and then took pictures in the direction of the sixth floor window located in the southeast corner of the Texas School Book Depository Building while

Dear Mr. Hoover:

We refer you to Commission Exhibit No. 134 (FBI No. D20), which is an enlargement of one of the photographs of Lee Harvey Oswald taken at 214 Neeley Street. Mr. Norman Redlich of our staff has discussed with Agent Lyndal L. Shaneyfelt the possibility of determining the specific issues of the newspapers (The Militant and The Worker) which Oswald is holding in his right hand.

We call to your attention the fact that according to Marina Oswald's testimony, this photograph was taken after the receipt of the rifle and before the Walker incident. The rifle was shipped from Chicago on March 20, 1963 and the General Walker shooting was on April 10, 1963. We also call to your attention that the Oswalds lived on Neeley Street from March 2, 1963 to April 24, 1963. We request that you examine this photograph and make the necessary comparison with the issues of The Worker and The Militant in order to assist us in determining exactly when this picture could have been taken.

In this connection, we suggest that you contact the publication to determine the approximate mailing dates of the issues involved and the class of mailing customarily employed. We further suggest that you obtain from the U. S. Post Office an estimate of the number of days required for the transmittal of these papers to Dallas.

Dear Mr. Rankin:

Reference is made to your letter dated June 17, 1964, requesting an examination to determine the specific issues of the newspapers Lee Harvey Oswald is holding in his hand in the photograph, Commission Exhibit 134. This is the photograph of Oswald holding a rifle and two newspapers.

It has been determined that the papers being held by Oswald are as follows:

March 24, 1963, issue of "The Worker"
Vol. XXVIII - No. 124

March 11, 1963, issue of "The Militant"
Vol. 27 - No. 10

It has been determined that the March 24, 1963, issue of "The Worker" was mailed on March 21, 1963, by second class mail. It was also determined that the March 11, 1963, issue of "The Militant" was mailed on March 7, 1963, by second class mail. Representatives of the U. S. Post Office in New York City have advised that the above newspapers transmitted by second class mail would take from six to seven days to arrive in Dallas, Texas, under ordinary delivery conditions.

RECO-READING FBI JUN 29 2 43 PM

Dear Mr. Rankin:

There are enclosed two copies of a Department of State, Office of Security, report in the Lee Harvey Oswald case dated June 9, 1964, at Caracas, Venezuela, dealing in part with reinterview of Mr. and Mrs. Juan M. De Cuba. The De Cubas were fellow passengers of Oswald on the buses of the Transportes del Norte line from Mexico City, Mexico, to Laredo, Texas, on October 2 and 3, 1963. The De Cubas were reinterviewed at our request.

The enclosed report also makes reference to the Muracciole sisters, formerly of Caracas, Venezuela, who are said to presently reside in Mexico City, Mexico.

In light of recent developments which have established that Oswald departed from Nuevo Laredo, Mexico, on October 3, 1963, by Transportes del Norte bus and as the Muracciole sisters departed from Nuevo Laredo, Mexico, on October 3, 1963, by air en route to Caracas, Venezuela, we do not intend to conduct further inquiry to locate and interview them.

Sincerely yours,

J. Edgar Hoover

Dear Mr. Rankin:

This Bureau has obtained a set of 35 millimeter color slides that are being marketed by Phil Willis Enterprises, Post Office Box 17266, Dallas, Texas. These slides were made from 35 millimeter photographs taken by Mr. Phillip L. Willis on November 22, 1963.

Willis has advised that he was on the northwest corner of Houston and Main Streets and took several pictures from this position. He then moved north on Houston Street to a position opposite the Dallas County Jail and took a picture of the President's car as it passed. He then ran north on Houston Street and west on Elm Street stopping at a location across from the Texas School Book Depository where he took several pictures.

One of the slides is described by Willis as follows:

"According to eyewitnesses and verified by investigators, this slide was taken at the exact instant the first bullet struck the President from behind."

Dear Mr. Rankin:

Reference is made to our letter dated June 23, 1964 advising that we were checking the Dallas newspapers from October 1, 1963, to November 22, 1963, to ascertain if there was an article in a Dallas newspaper which indicated that Mr. Richard M. Nixon planned a trip to Dallas during such period.

8 JUN 30 COMM-FBI

We have determined that the "Dallas Times-Herald" for November 21, 1963, and the "Dallas Morning News" for November 22, 1963, both carried articles indicating Mr. Nixon was in Dallas on November 21, 1963, for business reasons. Two copies of each of these articles are enclosed for the information of the Commission.

We have now reviewed all the Dallas newspapers for the period January 1, 1963, to November 22, 1963, except for the period May 15, 1963, to October 1, 1963, when Oswald was not a resident of the Dallas area. We have located no articles indicating Mr. Nixon planned a trip to Dallas during the afore-mentioned period except for the two articles mentioned above.

This concludes our inquiries in this particular matter.

Sincerely yours,

NOTE: Marina Oswald has indicated Oswald planned to attack Mr. Nixon approximately 2 weeks after General Walker incident which occurred 4-10-63. We previously reviewed all Dallas newspapers from 4-63 to 5-15-63 and found no record of a planned trip to Dallas by Mr. Nixon. The Commission on 6-19-64 indicated Rosemary Woods, Secretary to Mr. Nixon, reportedly possessed a clipping which indicated Mr. Nixon planned a trip to Dallas in 10-63. We contacted Mr. Nixon's office and ascertained that Miss Woods did not have the article in question but she believed such article did appear in a Dallas newspaper. We checked Dallas newspapers for the period October and November 1-22, 1963 as described herein. The only trip to Dallas planned by Mr. Nixon appears to be the November 21-22 trip which we have previously noted and so advised the Commission.

Dear Mr. Rankin:

Reference is made to our letter dated January 21, 1964, dealing with Lloyd John Wilson. Our letter of reference advised that we were following the disposition of the case involving Wilson in Chicago, and that you would be advised in this regard.

In this connection there are enclosed two copies each of two reports in the Lloyd John Wilson case dated May 14 and May 20, 1964, at Chicago, Illinois. The enclosed material concludes our investigation of Lloyd John Wilson, and we do not intend to conduct further inquiry concerning his claimed association with Lee Harvey Oswald.

NOTE CONTINUED:

This has been completely disproven and the Commission so advised by letter of reference. Wilson in Chicago also made verbal threats against President Johnson and Secret Service arrested him. A Federal Court, Chicago, held him for psychiatric examination locally and later ordered him to the Medical Center for Federal Prisons, Springfield, Mo. for further study. He was found competent to stand trial; however, the Secret Service charges against him in Chicago were dismissed on May 3, 1964, and he has been paroled to relatives in Venice, California. He is to undertake psychiatric treatment as out patient in San Jose, California. There is no further interest in Wilson from the Oswald aspect.

NOTE FOR CIVIL RIGHTS SECTION:

Wilson has history of mental disturbances and has repeatedly indicated desire to associate himself with George Lincoln Rockwell's American Nazi Party. In view of threats against President Johnson, his claimed association with Oswald and his penchant to sympathize with American Nazi Party, it is suggested Civil Rights Section review the Lloyd John Wilson file (157-1024) to see if further investigation from Racial Matter aspect (American Nazi Party activity) is warranted. Secret Service is aware of developments to date.

Dear Mr. Rankin:

In connection with the reviews of amateur motion picture films of the assassination, the FBI obtained a copy of a film in the possession of United Press International (UPI) that was taken by Mrs. Marie Muchmore of Dallas, Texas. A copy of the Muchmore film has been designated as Commission Exhibit 906.

Since UPI has requested the return of this film after it has served its purpose, would you please advise whether or not the film can now be returned.

LEE HARVEY OSWALD
IS - R - CUBA

ReBuairtel 6/22/64.

On 6/25/64 EDWARD ELLIS SMITH, 1849 Webster Street, Palo Alto, California, was interviewed in accordance with instructions in referenced Bureau airtel and furnished the information set forth below.

His theory that OSWALD was a Soviet Agent is based solely on deductions he has made from a detailed study of public source material regarding OSWALD's life and an examination of this material based on what he described as his extensive knowledge, background, and experience with Soviet Intelligence practices. At the core of his suppositions regarding OSWALD's status as a Soviet Agent is apparently the fact that the Soviets would never permit OSWALD or his wife to leave the Soviet Union without a purpose, but SMITH has no facts with which to substantiate these theories. During the course of the interview he was asked about the book he is purportedly writing as mentioned in the article in the May, 1964, issue of "The Grapevine."

SMITH advised that "The Grapevine" article is incorrect and that he is not preparing any book re LEE HARVEY OSWALD or the events surrounding the assassination of President KENNEDY, but he is preparing a book which will deal solely with the Russian secret police in Czarist times.

As the Bureau is probably aware, SMITH has become intensely interested in circumstances and events surrounding the assassination of the late President and feels, because of his background in intelligence work in the Soviet Union, he is uniquely fitted to comment and evaluate on the possibility that OSWALD and his wife had some sort of intelligence assignments in the United States. SMITH apparently has the time and financial resources to devote considerable effort in this regard.

In connection with the above, SMITH, according to his statements, has apparently entered into extensive correspondence with various Members of Congress. While not at all critical of the FBI, SMITH, who was most friendly and cooperative during the interview, is extremely critical of the Warren Commission, particularly any implication that all the findings of the Commission will not be made public.

During the course of the aforementioned interview, SMITH furnished a set of questions he had drawn up for the Warren Commission to ask MARINA OSWALD. According to what he advised at the time of the interview, he has apparently been assured that these questions were asked Mrs. OSWALD during her last appearance before the Commission.

Two copies of the aforementioned questions are forwarded to the Bureau and one copy to Dallas for information purposes only.

In view of the fact that SMITH has no evidence of a factual nature concerning the OSWALD case, no report or other document suitable for dissemination is being submitted by San Francisco.

A. It is assumed that the vital data concerning Mrs. Oswald has already been obtained. If it has indeed been overlooked, the following should be the first order of her questioning.

Vital Data.

(d) Brothers or sisters, step-brothers, step-sisters, full names, age of each, place of birth.

(e) Grandparents (same data as above).

(f) Aunts and uncles (same data).

(g) If any of foregoing persons alive, their present place of residence, age.

(h) If any of foregoing deceased, when, where, under what conditions, that is, (i) were they purged by Stalin, or,

(ii)did they expire in concentration camps?

(i) Husbands (emphasize possibility that there may be more than one).

(I) Their full names, places and dates of birth.

(II) If deceased, where, when and under what circumstances.

(III)If living, their residences and positions.

(j) Children, their full names, places of birth (including name of hospitals and clinics and attendant physicians at birth) and dates of birth.

5. Of course, if Mrs. Oswald has been briefed by soviet intelligence, concerning the response which she was to make if interrogated, she may have pat answers to the foregoing. On the other hand, it is altogether possible that if she did have a liaison with the KGB*, that she will attempt to "break down" or become tearful when these questions are put to her.

If that is the case - or if she is uncooperative in any way - it would be not untoward that she be reminded:

(1) Soviet citizens are required to answer questions of greater detail than have been put to her.

(2) More detailed questionnaires must be completed by any prospective immigrant to the United States.

Mrs. Oswald must be made to understand that her position in this country (and indeed in world history) is unique.

This position, although she may regard it as unfortunate, requires a very special insight into her past, about her husband and the Soviet Union and the United States, and any other miscellaneous information which may have a bearing on a tragedy that occurred November 22, 1963.

(3) At the same time, the interrogator should realize that soviet intelligence services are quite adept at providing what they call "legends," known in Western intelligence parlance as "cover stories." Without attempting to ensnare Mrs. Oswald, the questions directed to her should be in a sequence and phraseology which would upset her cover story - if indeed she was provided one.

---

* KOMITET GOSUDARSTVENNOY BEZOPASNOSTI (The Committee of State Security): The Soviet intelligence and counterintelligence organization.

(4) It is quite apparent that Mrs. Oswald is not an illiterate peasant: that she studied Latin and French, that she is a pharmacist of sorts, that she was reared in Leningrad - the most desirable living place in the Soviet Union after Moscow, and that she was a soviet specialist we know from her own admissions. Quite obviously intelligent, with a certain amount of charm, and with apparent good looks, Mrs. Oswald cannot deny her rather special position in the Byelorussian Republic. She is in possession of a great deal of information about highly significant matters.

(5) It may well be that her reluctance to talk has to do with her quite human desire to ensure the future of her children and herself. While this is understandable, it does not obtain during an investigation of the most awesome political crime in common memory. Therefore, the questions to which Mrs. Oswald must address herself, are framed within broad and general context of President Kennedy's murder, a crime the ghastliness of which requires the Presidential Commission to probe into areas which otherwise would remain appropriately ignored.

C. The foregoing is actually a preface to the main corpus of questions:

1. Questions regarding Mrs. Oswald's life within the Soviet Union.

(a) Is she really only twenty-two years of age?

(b) What is her father's real name (who allegedly died of hunger)? If she maintains her story about her father's death: when exactly did he die?

(c) When did her mother marry for the second time? His name? Who is Prusakov: her father, her step-father, or (as later alleged) her uncle?

(d) Where are her mother and step-father now?

(e) Her schooling:

I. She studied French and German. This must have been in a special school. After World War II most Soviet schools had English as the foreign language part of the curriculum. It is especially strange that she should have studied two languages - unless she attended one of the schools for children of higher ranking military officers, the secret police, or high governmental persons. What was the exact name of her school (high school) and where was it located (street, etc.)

II. What was the name of the school where she studied pharmacology? What was the exact degree she earned? How many years of study required? Any special part of pharmacology?

2. Questions regarding Mrs. Oswald's life in Minsk:

(a) Precisely when did she go to Minsk? (Date)

(b) Who are her aunts and uncles: from which side of the family— mother's or father's?

(c) Had she known these relatives before?

(d) Profession of uncles and aunts.

(e) What made her decide to go to Minsk?

(f) Did she stay at the uncle's house; if so, for how long?

(g) What was the name of the hospital in Minsk where she worked?

(h) Was it a special hospital connected with a certain branch of the Soviet government? If so, which?

(i) What was her salary? In which department did she work?

(j) Names of friends in Minsk. Their professions?

3. Question regarding her meeting Lee Harvey Oswald:

(a) When exactly (date) did she meet Oswald?

(b) Where exactly did she meet him?

(c) On what occasion did she meet him?

(d) Who introduced her to him?

(e) Was she apprehensive of associating with a foreigner?

(f) Had she any other suitors at the time she met Lee?

(g) Did she try to find out (through the Komsomol or another organization) who Lee was - before she engaged in a friendship with him? If so, what was she told?

(h) Had she known that he had applied for and had been refused Soviet citizenship? If so, was this before or after her marriage?

(i) What impelled her to marry a foreigner whom she had known only a few weeks and who seemed dissatisfied with her country?

(j) Did she consult anyone about her marriage prior to giving her consent? If so, whom?

(k) It is understood that she has admitted belonging to the Komsomol:*

(l) Did she officially ask Soviet authorities about the possible consequences of marrying a foreigner? If so, who. What was their response?

(m) Did she marry Lee upon recommendation of anyone? Is so, who?

(n) Did she marry Lee despite contrary advice of anyone? If so, whose? Her exact marriage date.

(o) How was it possible that they were so well dressed for their wedding in exceptional style for Soviet standards? Her husband had just started to work, had he not?

(p) Did they have a real wedding party? Who were the guests and how many? Provide some names, and professions.

---

* Komsomol is the Young Communist League, a junior version of the Soviet Communist

4. Questions regarding the birth of her child in Minsk:

   (a) Is February 15, 1962, the precise birthdate of her first daughter, June?

   (b) Where exactly did she give birth to June: name of hospital, name of attending doctor(s)?

   (c) Why this English name: Was it because the daughter was conceived in the month of June?

   (d) How long did she stay in the hospital after birth?

   (e) Did Lee visit her at the hospital?

5. Questions concerning her marriage, marital life, and possible return to the U.S.A.

   (a) Did she continue to work after her marriage? If so, for how long?

   (b) Did she notify her superior that she was married to a foreigner who had attempted to return to the United States?

   (c) When did she learn that Lee wanted to return to the U.S.? Before or after she married him?

   (d) Did she hope that she would be permitted to go with him?

   (e) If so, on what precedent was this hope based?

   (f) Had she known anyone married to a foreigner who was granted permission to leave the USSR?

   (g) If she had heard of - or knew of - anyone having done so, what was the status of the foreigner within his own country? (Was he a diplomat, foreign correspondent, etc?)

      I. If such cases are known to her, did she know the time required for a couple to receive permission to leave the USSR?

      II. On January 5, 1962, Oswald wrote to the American Embassy, Moscow, that her visa was granted: who asked for permission? Did she approach the authorities? Did he? Did they both go? Where had she (they) asked for her exit visa? In Minsk,

Moscow? What department of the Soviet Government exactly did she address to get the exit visa?

III. When had she applied for an exit visa?

(h) Usually a Soviet citizen travelling abroad has a USSR passport; did Mrs. Oswald ever apply for a passport? If so, where, when, and what was the result?

(i) If not, did she think she could travel without regular travel papers? Who explained to her what kind of documentation she would - and would not - need?

(j) Had she ever personally visited the U.S. Embassy, Moscow?

(k) Did the American Embassy, Moscow, request that she be fingerprinted upon receipt of her immigration visa to the U.S.? Was her photograph added to the passport of her husband? What were her travelling papers?

(l) Was she aware of any difficulties her husband experienced to get permission for departing the Soviet Union?

(m) Did she know that her husband was writing to high U.S. officials complaining about "unjust treatment" within the Soviet Union? (Letter to Senator Tower)

(n) If so, was she afraid about her husband's actions, i.e., did she think it was unusual? Did she then foresee their getting into trouble?

6. Miscellaneous questions for Mrs. Oswald:

(a) Did she visit her mother before finally leaving? [This question should be posed regardless of the fact she has previously indicated her mother is deceased.]

(b) Did she think she was leaving for good?

(c) Did she have a farewell party before departure?

(d) Did her aunts and uncle approve of her leaving?

(e) How was their trip to the U.S.A. financed?

(f) How much money did Oswald earn per month, per year?

I. Is it true that he made 85 rubles per month? Was he on a weekly or monthly salary?

II. What was the name of the factory in which he worked? What was the department? How many hours did he work?

(g) Does Mrs. Oswald know the reasons why her husband want to reside in Minsk (of all places)?

(h) Does she know who helped him to get established there?

Dear Mr. Hoover:

As a result of your letter of June 22, 1963 forwarding a report of Special Agent Manning C. Clements dated June 12, 1964, the Commission would appreciate your conducting an investigation to ascertain the nature of the telephone call which Eva Grant placed from the Vegas Club at 12:49 a.m. on Saturday November 23, 1963, to the home of Mr. Charles J. Hirsch, 12200 Wixon, North Hollywood, California.

If feasible, it would be appreciated if Eva Grant were interviewed simultaneously with any investigation at the Hirsch residence. With respect to Eva Grant, the Commission is particularly interested in learning how she happened to be at the Vegas Club at 12:49 a.m., why she made the call, to whom she talked, details on what was said, how long she remained at the Vegas Club, who else was present, and what she did at other times on November 22-24 when Jack Ruby was not present.

With respect to the recipient of the phone call please obtain, besides details of the call, general information as to that person's past dealings with Jack Ruby, Eva Grant, other members of the family, Ralph Paul, George Senator, Breck Wall aka Billy Joe Wilson, and Ray Peterson. In addition, please ascertain from the recipient a brief statement of his activities before and after the phone call from Eva Grant.

Sincerely,

Enclosed herewith are two copies of a self-explanatory letter from the President's Commission dated 6/20/64, requesting that we interview Eva Grant and conduct certain investigation at the home of Charles J. Hirsch, North Hollywood, California, to determine the nature of a telephone call made by Eva Grant to Hirsch's residence on 11/23/63.

Dallas will arrange the requested interview with Eva Grant and coordinate with Los Angeles in order that the investigation may be conducted simultaneously if possible in accordance with Commission's request. Los Angeles and Dallas submit results promptly upon completion by letterhead memorandum suitable for dissemination to the President's Commission.

Dear Mr. Rankin:

In reply to your letter of June 8, 1964, requesting certain investigation concerning William D. Crowe, also known as Bill Dexter, the following items setting forth the desired investigation are enclosed:

1. Two copies of a memorandum dated June 23, 1964, at Dallas, Texas, relating to Crowe's activities with regard to the Hardy Suite and Palomino Motels, Dallas, Texas.

2. Two copies of a memorandum dated June 17, 1964, at Boston, Massachusetts, setting forth results of an interview with Hazel Lewis.

3. Two copies of a memorandum dated June 18, 1964, at Indianapolis, Indiana, setting forth interviews with Mr. Marvin Johnson and Mr. Dale Simpson; and a check of toll telephone calls made by David Lewis Dey, November 24, 1963.

4. Two copies of a memorandum dated June 17, 1964, at Dallas, Texas, setting forth results of an interview with Mrs. Ida Kolmstein

This concludes the investigation concerning William D. Crowe requested in your letter of June 8, 1964.

Sincerely yours,

The President's Commission, by letter 6/8/64, stated that as a result of deposing Crowe, aka Bill Dellar, they desired the enclosed investigation to verify his deposition. Crowe is the nightclub performer for Jack Ruby who stated publicly after the shooting of Oswald by Ruby that he had seen Oswald in Ruby's Carousel Club a short time before the assassination. In our interview of Dellar he was not certain of the identity of the person he allegedly saw and could not state positively that it was Oswald.

J. Edgar Hoover, Director
Federal Bureau of Investigation
Department of Justice
Washington, D. C. 20535

Dear Mr. Hoover:

In answer to your letter of June 11, 1964, concerning the request of the Commission that the Federal Bureau of Investigation afford Jack Ruby the opportunity for a polygraphic examination, we should like to make several things clear. First, it is not the policy of the Commission to use the polygraph even as an investigating technique and it is only being requested in this instance because Mr. Ruby asked for it when he gave his testimony before the Commission at Dallas, Texas, on Sunday, June 7, 1964. The Commission recognizes that the polygraph technique is not sufficiently precise to permit absolute judgment of guilt or nonguilt without qualifications, as you state in your letter.

In the effort to satisfy Mr. Ruby's request the Commission desires to be scrupulous in avoiding any interference with the State Court or any other proceedings in his criminal trial. Its wish is to limit all inquiries to the limited range of the Commission's interest concerning Jack Ruby's activities. In accordance with these guidelines, the Commission asks that counsel for Mr. Ruby, either Mr. Joe H. Tonahill or such other person as he may desire, Mr. Henry Wade or Mr. James Bowie on his behalf if that is his wish to represent the interest of the State, and Mr. Arlen Specter from the Commission staff be present at the time of the polygraph examination.

We suggest the following questions which we have tried to limit carefully to the area of the Commission's interest:

(1) Did you know Lee Harvey Oswald prior to November 22, 1963?

(2) Did you participate in any way with Lee Harvey Oswald in planning or carrying out the assassination of President Kennedy?

Did you go to the Dallas Police Station at any time on Friday, November 22nd, before you went to the Synagogue?

(4) Did you go to the Synagogue Friday night?

(5) Were you present when Lee Harvey Oswald was brought down into the basement assembly room of the Dallas jail on Friday night, at approximately midnight, before newspaper men and TV cameras?

(6) Did you talk with any Dallas police officers on Sunday, November 24th, prior to shooting Lee Harvey Oswald?

(7) How did you gain access to the basement of the Dallas Police Department jail?

(8) Were you in the Dallas Police Department jail basement at the time Lt. Pierce's car drove out of the basement?

(9) Did you see Lt. Pierce leave the basement in his car? If so, (a) Where were you when you saw him leave? (b) Who was in the car with him?

(10) Did you see the armored truck before you entered the basement? If so, (a) Where were you? (b) Where was the truck when you first saw it? (c) How long before Oswald was shot did you first see the truck?

(11) What efforts did you make to find out the time Lee Harvey Oswald was going to be moved out of the Dallas jail?

(12) Were you at Parkland Hospital at any time on Friday, November 22, 1963?

(13) How did a Wall Street Journal addressed to Mr. J. E. Bradshaw, dated November 16th, happen to be in your car?

(14) Did you say anything at the time you shot Lee Harvey Oswald?

(15) Did you have a gun with you when you went to the Friday midnight press conference?

(16) Are you now, or have you ever been, a member of the Communist Party?

(17) Are you now, or have you ever been, a knowing member of any organization or group that advocates the violent overthrow of the United States Government?

(18) Have you ever attended any meetings of the Communist Party or any group or organization that you know advocates the violent overthrow of the United States Government?

(19) Do you have any knowledge that any of your close friends or members of your immediate family are knowing members of the Communist Party or any group or organization that advocates the violent overthrow of United States Government?

(20) Do you have any knowledge that any of your close friends or members of your immediate family attended meetings of the Communist Party or any group or organization that you knew advocates the overthrow of the United States Government?

(21) Did you kill Lee Harvey Oswald in order to silence him?

SUBJECT: JACK L. RUBY, AKA
LEE HARVEY OSWALD - VICTIM
CIVIL RIGHTS

Mr. J. Lee Rankin, General Counsel for the President's Commission, telephoned today and advised that Chief Justice Warren and he, Rankin, had talked with Jack Ruby while the Chief Justice was in Dallas on June 7, 1964. He advised that Jack Ruby had requested that he be afforded a polygraph examination.

Mr. Rankin advised that no definite decision had been made at this time on the part of the Commission as to whether they would proceed with the polygraph examination; however, he did desire to know whether or not the Bureau would be willing to give the polygraph examination to Jack Ruby.

It is noted that Jack Ruby is under a death sentence at the present time and is confined to the Dallas County Jail and he has appealed the death sentence. It is further noted that a sanity hearing is scheduled for the near future and that Ruby has repeatedly expressed dissatisfaction with his legal counsel.

There appears to be a very serious issue involved in this matter as to whether the Commission should interject itself in this pending matter and a very serious question is raised as to whether the Bureau should become involved even if the Commission does desire to proceed with the polygraph examination.

NOT RECORDED

RECOMMENDATION

If approved, Mr. Rankin will be advised that in view of the scheduled sanity hearing, the appeal of the death sentence and the difficulties involved in obtaining a satisfactory polygraph examination where a man is under great emotional strain, the Bureau does not desire to afford Ruby a polygraph examination.

I most certainly concur

PURPOSE

To advise the United Press International (UPI) release on 6-5-64, relating to a Dallas auto salesman who reported being hit on the cheek by a ricocheted bullet or piece of curbing is probably identical with Jim Tague, who was interviewed by our Dallas Office on 12-14-63, the results of which have been furnished to the President's Commission.

DETAILS

UPI release dated 6-5-64, relates the "Dallas Times Herald" on 6-5-64, reported an unnamed auto salesman had advised one of the three bullets fired during the assassination apparently hit a curb and he was either hit on the cheek by a ricochet or piece of concrete curb.

The UPI release indicates the salesman asked that his identity be concealed and reports the salesman was by a concrete abutment near the triple overpass adjacent to the Presidential Motorcade at the time of the assassination. The auto salesman indicated he heard three reports which he believed to be shots and on the second shot he felt a sting on his cheek. He maintained in the following confusion he forgot about it until a policeman told him his face was "bloody." The salesman states he went back to where he had been standing and saw a fresh crease mark on the curb. This incident according to the salesman was reported to a Dallas detective and later to the FBI, who were more concerned "about whether I knew Jack Ruby." The release concludes that the salesman has not been contacted by the Commission.

BACKGROUND

This individual is probably identical with Mr. Jim Tague salesman for the Chuck Hutton Company, Dallas, who was interviewed by our Dallas Office on 12-14-63. The results of this interview

appear on page 31 in the report of SA Robert P. Gemberling dated 12-23-63, captioned as above. This report has been furnished to the Commission.

Tague during interview furnished substantially the same information as reported in the UPI release except it appears he has become more dramatic and has exaggerated the incident in an effort to obtain personal publicity or for other unknown reasons. For example, his interview indicates Tague reported about "two drops of blood" resulted from this incident; however, the UPI release now indicates his face was "bloody." Tague denied knowing Oswald but stated he had been in Ruby's club on a few occasions and knew Ruby by sight; however, denied knowing anything about Ruby's associations.

Based on information developed recently, it is possible that one of the shots fired by Oswald did go wild; however, efforts to locate the portion of curb where a possible shot might have hit has been negative.

ACTION

Since this interview has been reported to the Commission and the UPI release contains substantially the same information developed by our investigation, no further action is recommended.

SUBJECT: JACK L. RUBY, AKA;
LEE HARVEY OSWALD - VICTIM
CIVIL RIGHTS

With reference to the request of the President's Commission to afford Jack Ruby a polygraph examination, the letter of 6-11-64, expressing the Bureau's observations was delivered to Mr. J. Lee Rankin at 2:55 p.m., 6-11-64.

It was made clear to Mr. Rankin that the Bureau was not refusing to conduct this polygraph examination of Ruby; however, the Bureau did desire that the observations be called to the attention of the Chief Justice and, following the Chief Justice's being made aware of these observations, if he still desired the Bureau to conduct a polygraph examination, the Bureau would handle the same.

At 5:00 p.m., 6-11-64, Mr. Rankin advised that both he and the Chief Justice were most appreciative of the observations that had been made in the Bureau's letter and that the Chief Justice had requested the Director be so advised. Mr. Rankin advised that he and the Chief Justice realized the delicate nature of the polygraph interview with Ruby; however, the observations made in writing by the Bureau had caused a re-examination of this request and the Chief Justice had stated that he wanted to make positive that the area of questioning was confined to certain areas which would not affect the state murder case against Ruby.

Mr. Rankin stated that the Commission early next week would send a letter to the Bureau outlining the area of the questioning that was to be conducted and that they would also make available to the Bureau the deposition that had been taken by Chief Justice Warren from Ruby while the Chief Justice was in Dallas. Mr. Rankin commented that the deposition covered a much larger area than the area they desired to cover on the polygraph interview. Mr. Rankin stated that following the transmission

of the Commission's letter to the Bureau, a Commission representative would get together with a Bureau representative in order that the necessary preparation for the questioning of Ruby could be handled. In this connection, Rankin stated that, during the questioning of Ruby in Dallas, on several occasions Ruby attempted to discontinue the interview, becoming quite irritated, and on these occasions the Chief Justice was able to settle him down and proceed with the questioning. Malley mentioned to Mr. Rankin that should such a situation arise during the polygraph interview, it could have a very detrimental affect on the polygraph examination. Mr. Rankin stated he fully realized this and that he did not know what conditions would be encountered during the interview with Ruby, but because of the commitment made by the Chief Justice to Ruby that he would be afforded a polygraph interview, there was no choice except to proceed with the promised polygraph interview. Mr. Rankin stated that he did not know at this time who would represent the Commission during this interview, but in view of the situation involved, he was giving some consideration to handling this interview himself with the technical man from the Bureau. Mr. Rankin stated it concerned him a great deal because the results of this polygraph interview would be made a part of the official Commission record, and consequently, had to be handled in a most circumspect manner.

Mr. Rankin also mentioned that because of Ruby's peculiar attitudes he thought it would not be desirable for any Agent of the Bureau who had previously talked with Ruby to have anything to do with the requested polygraph interview. SA C. Ray Hall, assigned to the Dallas Office, is a qualified polygraph examiner; however, he has interviewed Ruby in the past in connection with Ruby's killing Lee Harvey Oswald. In view of this it would not be desirable, per Mr. Rankin's request, for polygraph examiner Hall to handle this interview.

RECOMMENDATIONS:

1. Upon receipt of the letter from the Commission outlining the areas that are to be covered in the polygraph interview of Ruby, it is recommended that a polygraph examiner from the Bureau confer with the proper representative from the Commission to prepare for the polygraph interview with Ruby.

2. Upon receipt of the above-mentioned letter, Dallas Office will be contacted to ascertain necessary information as to the status of Ruby's health, medication, et cetera, in order that the examination can be afforded Ruby under proper circumstances.

On 6-30-64 Mr. Norman Redlich of the President's Commission called Inspector Malley with regard to certain addresses appearing in Oswald's address book.

He specifically made reference to page 677 of report of SA Robert P. Gemberling dated 12-23-63 in the Oswald case. Mr. Redlich noted that on this page we show under the heading Washington, D. C., Soviet Embassy Office 1125 16th Street, N. W.. Secretary to Ambassador, National 8-8549.

I telephonically contacted Mr. Redlich and called his attention to the Washington, D. C., Telephone Directory which shows on page 490 a listing of the Soviet Embassy and directly underneath shows the office located at 1125 16th Street, N. W., and a listing for the secretary to the Ambassador as NA 8-8549.

Mr. Redlich made reference to a further notation in Oswald's notebook under Soviet Embassy showing an office at 1706 18th Street, N. W., Telephone number Adams 2-3092. In the Washington, D. C., Telephone Directory there is a listing for a residence at 1706 18th Street, N. W., and a telephone number AD 2-3092. At this same location there are separate trunk line listings for the Commercial Division, the Information Office, the "USSR" Magazine, and two other Soviet offices.

Mr. Redlich made reference to page 694 of SA Gemberling's report. Under the heading Washington, D. C., there was an address of 1125 16th Street, N. W. - National 8-7550 and 1706 18th Street, N. W. - Adams 2-3092. I noted to Mr. Redlich that the Telephone Directory shows NA 8-7550 as a trunk line for the Soviet Embassy.

Dear Mr. Hoover:

In his testimony before the Commission, Mr. Bernard Weissman stated that some time prior to March 4, 1964 he spoke by telephone to Mr. Mark Lane while Lane was speaking on a radio interview program broadcast by Radio Station WINS. Weissman claims that Lane admitted his accusation that Weissman met with Officer Tippitt and Jack Ruby might not be well founded.

The Commission would appreciate your conducting such investigation at WINS as may be appropriate to confirm or refute Mr. Weissman's claim. If possible, the Commission would like to obtain any tape recording that might have been made of Weissman's conversation with Lane.

In addition, the Commission would appreciate your interviewing Mr. Dick Houston, advertising salesman for the Dallas Morning News, and Mr. L. S. Brotherton, owner of the Du Charme Club in Dallas in connection with the possibility that Weissman could have contacted Ruby. Houston handled the advertisement bearing Weissman's name on November 22, 1963. Conceivably Weissman may have been with Ruby at the Morning News, mentioned Ruby's name, or learned of Ruby through Houston. Ruby may have expressed to Houston his criticism of the Weissman ad.

Weissman has told the Commission he and some friends attempted to purchase the Du Charme Club from Mr. Brotherton. Please ascertain from Mr. Brotherton the extent to which he knew Ruby and whether or not Weissman and his friends might have contacted Ruby in their efforts to purchase a Dallas night club. Also obtain from Brotherton details of his negotiations with Weissman and Weissman's associates.

The Commission has noted that, in 1955, Henry Lem Brotherton, while an Assistant District Attorney for Dallas County, dismissed a prosecution against Jack Ruby for a liquor violation. (Clements Report December 19, 1963 p.271) Please ascertain from L. S. Brotherton whether or not he is related to Henry Lem Brotherton and, if so, whether or not, Weissman contacted Lem Brotherton.

Enclosed herewith for New York and Dallas are two copies of a self-explanatory memorandum from the President's Commission dated 6/26/64, requesting certain investigation regarding Bernard Weissman and his possible association with Jack Ruby.

New York conduct the requested investigation at Radio Station WINS, New York. If the requested tape can be obtained, furnish to the Bureau by appropriate cover letterhead memorandum suitable for dissemination directly to the President's Commission. Furnish appropriate inserts or FD-302's to Dallas in order that they may be included in a subsequent report.

Dallas will conduct the investigation requested with regard to Dick Houston and L. S. Brotherton. Submit results promptly upon completion by letterhead memorandum suitable for dissemination to the President's Commission. Dallas should, in addition to including this investigation concerning Weissman in a subsequent Ruby report, also include the results in a subsequent report relating to the Lee Harvey Oswald investigation.

NOTE: Mark Lane, alleged attorney for Oswald's mother, has publicly made the allegation that Bernard Weissman, who placed the "Welcome Kennedy" ad in the Dallas papers, on 11/22/64, met with Oswald and Officer Tippitt at Ruby's night-club prior to the assassination. This allegation has been fully checked out in the Oswald case. Weissman denies that there was ever such a meeting and in his testimony before the Commission said he confronted Lane with this on a radio program in New York and Lane admitted the accusation was not well-founded. He also stated that

he placed his ad with Dick Houston, advertising salesman with the "Dallas Morning News" and attempted to buy a nightclub in Dallas from L. S. Brotherton. The testimony of Special Agent John Lester Quigley of the New Orleans Office and the testimony of Special Agent James P. Hosty, Jr., of the Dallas Office was discussed with Samuel A. Stern of the President's Commission. The suggested changes in Hosty's testimony as reflected in the airtel from Dallas dated 6/16/64, and the changes in Quigley's testimony as reflected in New Orleans airtel of 6/19/64 were discussed in detail with Mr. Stern.

Mr. Stern advised that this testimony had been printed for final record; however, after reviewing the suggested changes, he agreed to making those corrections which were absolutely necessary but did not agree to changing any minor items.

The testimony of Assistant to the Director Belmont which was made available to the Bureau, as well as the testimony of Agents Quigley and Hosty and retired Agent Fain, was returned to the President's Commission and receipts were obtained from the Commission. It is noted this testimony was given to the Bureau in connection with the request for testimony of all Bureau personnel who have testified before the President's Commission.

Submitted for information.

On 6/25/64, [redacted] Dallas County, voluntarily furnished SA MANNING C. CLEMENTS a copy of a 21-page, double-spaced memorandum he prepared from notes made by him on the interview of RUBY, 6/7/64, by Chief Justice EARL WARREN and others. A copy is attached.

[redacted] requested the fact he furnished this memorandum not be made known outside the Bureau, as he had no authorization from Mr. WARREN, defense attorneys, or his own superior, for making same available. He said he made notes under adverse conditions and would not like to be held accountable for the strict accuracy of all of the statements attributed to RUBY, et al. He pointed out Mr. WARREN had a stenographer make a transcript of the interview and the official version will undoubtedly be made a part of the Commission's record.

[redacted] mentioned Mr. WARREN had repeatedly assured RUBY a polygraph examination would be afforded, for which RUBY was insistent.

[redacted] said RUBY talked lucidly in recalling many details but wondered on several occasions, that he [redacted] feels RUBY has definitely deteriorated mentally to a considerable degree.

Review of the memorandum reflects RUBY's statements are somewhat disjointed, although not varying substantially from details previously supplied by him, with following exceptions:

1) RUBY says he lied when he previously said he had his gun with him at City Hall on the night of 11/22/63; that this statement was made a part of a defense against proof of premeditation, in that he would have had the opportunity to shoot OSWALD prior to 11/24/63.

2) RUBY made no claim of a black-out at the time he shot OSWALD.

3) He admits premeditation, referring to a letter to CAROLINE KENNEDY and an article concerning Mrs. KENNEDY's having to return to Dallas to testify regarding OSWALD which he had seen in a newspaper.

4) RUBY had not previously advised concerning a request from LEWIS J. McWILLIE, while in Cuba, that RUBY obtained "four little Cobra guns" from RAY BRANTLEY Hardware Store, Dallas. RUBY had advised of sending a revolver to McWILLIE in Las Vegas at McWILLIE's request and which McWILLIE admitted, but stated had not been accepted by him.

It will be noted on page 16, RUBY made reference to interview with RAY HALL. This is SA C. RAY HALL, of the Dallas Office.

DL 44-1639

Note RUBY denies having gone to Parkland Hospital, Dallas, on 11/22/63 (as claimed by SETH KANTOR, Scripps-Howard reporter) RUBY denied he inquired of a "TV man" when OSWALD would be brought down. This is apparent reference to the claim of IRA N. WALKER, WFAA-TV, to Bureau Agents and as a prosecution witness that he saw RUBY in the basement of Dallas City Hall on two occasions on 11/24/63, considerably prior to the time of the shooting.

A number of misspellings of names are noted in the document.

A confidential source, who has furnished reliable information in the past, made available a newsletter by Dr. Carlos Bringuier, Delegate in the New Orleans area of the Directorio Revolucionario Estudiantil (DRE), which translated means the Student Revolutionary Directorate, dated June, 1964, at New Orleans, Louisiana, and written in Spanish. One paragraph of this newsletter in Spanish is translated below:

> "..... BELIEVE IT OR NOT: The Warren Commission was appointed to investigate the death of President Kennedy at the hands of the confessed Castro-Marxist Lee Harvey Oswald. Well, the Warren Commission employed as a consultant at a salary of $100.00 per day Mr. Norman Redlich. It so happens that this Mr. Redlich (according to information appearing in the 'Daily Oklahoman' of May 15, page 30) has been associated with various 'front' organizations of the U. S. Communist Party and has been an enthusiastic adherent to various Communist Party campaigns, among which, is the trip of the American 'students' to Red Cuba in violations of the regulations of the American Department of State. Let us await the report ....."

This same source also made available a pamphlet entitled "OSWALD: A Castro Agent in the United States." by Carlos Bringuier, DRE Delegation, P. O. Box 2606, N. O., La., a copy of which is attached.

CARLOS BRINGUIER

A CHRISTIAN CRUSADE PUBLICATION

First of all, I want to express my gratitude to Dr. Billy James Hargis for his kind invitation to address you today. In the name of all the countries that suffer the great tragedy of being ruled by imperialistic communism, I want to express my gratitude to all those responsible for this event.

I would like to speak on a subject that has been in the headlines of the world's press since that black Friday, November 22, 1963. That day, sometime after noon, I was shocked to hear the news about President John F. Kennedy's assassination. Minutes later the radio reported that a young man had been arrested. I was having a late lunch at my home when I heard over the radio that this young man had been identified as Lee Harvey Oswald. That was a luncheon I never finished.

When I heard the name "Lee Harvey Oswald" I jumped out of my seat and ran to the telephone. I got in touch with the F.B.I., the United Press, the Associated Press and the local newspapers in New Orleans, telling them who Oswald was. I also got in touch with several other people who, like myself, had met Lee Harvey Oswald in New Orleans.

Before leaving my home that afternoon of November 22, I made a mental recollection of the situation.

I decided to give all the information I had to all of those who wanted it without accepting any recompense for it. Undoubtedly, the Cuban organizations in exile, in general, and in particular the Cuban Student Directorate, which I represent, need money to fight against Castro. But the money we could have received at that time was due to one of the greatest tragedies that the noble people who had so generously given us asylum ever experienced . . . the murder of their young President at the hands of an agent of Fidel Castro.

There may still be many Americans who in good faith doubt that Oswald was an agent of Castro and think that he was a lone individual who acted on his own. I would like my word to reach those who still doubt in good faith. Those who in bad faith go around spreading doubts, I am not interested in reaching. But, I wish that all of those who still doubt in good faith were here at this moment because there is one thing before which good faith must yield and admit the truth, and that is the solid facts already registered by history.

On August 2, 1963, I received, in the store that I manage in New Orleans, the visit of two friends of mine who informed me that there was a training camp a few miles outside of New Orleans sponsored by another Cuban organization. They also informed me of the fear they had that a Castro agent could be infiltrated in that training camp. According to them the agent was a former Cuban newspaperman called Fernando Fernandez Barcenas. I communicated this fear to the Cuban Student Directorate headquarters in Miami.

Three days later, that is, August 5, I was in my store talking with an American student about Cuba and Castro when a young man approached us and, after looking around several articles, became very interested in our conversation.

He told us his name was Lee H. Oswald and expressed his disgust with Castro and communism. I gave him some copies of the Cuban Report. During our conversation, he showed interest in knowing about our plans to fight Castro and especially on my duties as delegate of the Cuban Student Directorate in New Orleans. He told me that he had been in the Marine Corps and was willing to train Cubans to fight Castro. He also said that he was willing to go himself to fight Castro. Something at that moment made me extremely cautious. I remembered the training camp a few miles from New Orleans.

I turned Oswald's offer down saying that in my duties I was concerned only with the information field and not in armed activities. Oswald insisted and even tried to offer me money which I refused. When we continued our conversation he offered to bring me a book which would help to train Cubans. I want you to notice this special interest of Oswald in helping me to train Cubans at a time when there was a secret training camp just a few miles from New Orleans, and fear existed that there was a communist agent infiltrated in it.

The day after this interview that ended without any interest from my part since I did not trust Oswald, he brought the book he had offered. It was "A Guidebook for Marines" with the name L. H. Oswald printed in the top of the first page.

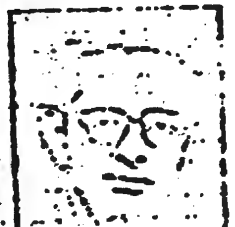
On August 9, around 2:00 p.m., a friend of mine, Celso Hernandez, told me that there was a man in Canal Street with a sign that read "Long Live Fidel" distributing some literature about Cuba. He did not know what the literature said because he did not speak or read English.

Along with another Cuban friend, Miguel Cruz, we went to the place where this man had been seen. Unfortunately, we did not find him. So we decided to take the Canal street-car along that avenue and search for him. We failed to find him and I decided to return to my store. But, five minutes later my Cuban friend, Miguel Cruz, ran into the store to tell me that the man with the sign was in front of the seven hundred block of Canal Street.

When we got there I was shocked to discover that the young man with the sign that read "Long Live Fidel" was none other than Lee H. Oswald, the same man who had offered his services to train Cubans in the fight against Castro. As soon as he recognized me he was also shocked for a few seconds. Then he smiled and offered me his hand. I refused his handshake and called him a traitor and an agent of Castro. When he saw my attitude he ignored me and continued distributing his pro-Castro propaganda. They were leaflets of the Fair Play for Cuba Committee, New Orleans Chapter, and a booklet by Corliss Lamont entitled "The Crime against Cuba."

It was around 3:00 on a Friday and a big crowd gathered

The Testimony of Carlos Bringuier



Carlos Bringuier is the only man known to have debated the President's assassin, Lee Harvey Oswald. This now famous "radio debate" between the communist, Oswald, and the anti-communist, Bringuier, was broadcast on a New Orleans radio station last August 21 . . . three months before President Kennedy's assassination. Bringuier was the man who exposed Oswald after he made an unsuccessful attempt to infiltrate an underground anti-Castro movement which Bringuier headed in New Orleans. Here, Carlos Bringuier relates FACTS concerning Oswald and his activities, not generally known.

around us to watch what was going on. When I saw that there were more than one hundred persons around us, I stopped accusing Oswald and told the public there that Oswald had tried to infiltrate the Cuban Student Directorate, that he was a Castro agent and that he was trying to do to them exactly what they did to us in Cuba—kill them and send their asses to the execution wall. These words impressed the public and immediately they started to shout at Oswald: "Communist," "Go to Cuba," "Kill Him," "Traitor" and some other phrases I couldn't repeat here.

The scene was becoming more and more violent. One policeman came to me and asked me to keep walking and to let Oswald distribute his literature. He was an agent of the law asking us to put an end to the scene and in a few seconds I remembered my relatives murdered in the fight against communism in Cuba; I remembered the faces of my old friends who now are in the prisons of Fidel Castro, and I remembered the thousands of young Americans who had been dying in the fight against communism in Korea, Laos, Viet Nam and Cuba. I thought that was neither just, human, nor patriotic, that at the same time that they are fighting far from their homes, we would have to admit here in the rear-guard that communist agents will try to crack the foundations of freedom and justice that had made this country the leader of the Free World. I didn't obey that order from the agent of the authority because I wanted to have my conscience clear and I liked to return later to my home and look directly at my son's eyes.

When my friend Celso saw my decision, he took the literature that Oswald was distributing and broke it, and threw it in the air. At that moment one of the Americans who was watching the scene pushed Oswald by one arm. I tried to come near to Oswald to hit him, but when he saw what were my intentions, he put his arms down as an X and told me, "O.K. Carlos, if you want to hit me, hit me," and put his face in the right way to receive a hit. When I saw the cold blood that Oswald was showing I decided not to hit him because I understood he would like to appear as a victim. At that moment two patrol cars arrived and the policemen brought us to the First District of Police in New Orleans.

And, it is there in the First District where Oswald showed another time his extraordinary cold blood. He showed his credentials as New Orleans Chairman of the Fair Play for Cuba Committee, and at that moment I discovered something really interesting. The yellow literature that Oswald was distributing in Canal Street was signed by A. J. Hidell. Later, in November the police found that the rifle that killed President Kennedy was bought under the name of A. Hidell.

Before we left the First District we received a citation to appear at 12:00 on August 12 at the Second Municipal Court. During the trial, I showed the Judge the "Guidebook for Mariner" that Oswald gave me, and explained that the one who created the incident was Oswald when he tried to infiltrate the Cuban Student Directorate. The Judge dismissed the charges against us and fined Oswald $10.00. That day, August 12, 1963, was the first time the television showed Oswald's face to the New Orleans citizens.

The next day I was contacted by newsman Bill Stuckey who was trying to find Oswald's address. I gave Stuckey the address but I asked him why he was looking for that. Bill told me he wanted to make an interview with Oswald. Another time I found myself confused. I asked Bill why he would give the chance to a communist to go on a radio program to tell all his lies when in the countries ruled by communism they don't permit the ones who love freedom and democracy to do the same. Bill calmed me the same as make another program interviewing me. Another time I turned down the offer but when I was sure that Stuckey would do something anyway, I asked him to arrange a public debate. A few days later Stuckey advised me that the debate would be held at WDSU Radio on August 21.

On August 16 Oswald made an illegal public demonstration—this time in front of the International Trade Mart, now in company of two other persons. Another friend picked up one of the leaflets, this time signed by L. H. Oswald, 4907 Magazine Street.

I asked my friend to go to Oswald's house posing as a pro-Castro and try to get as much information as possible from him. That night my friend visited Oswald in his house and was talking to him for about one hour. I cannot reveal my friend's name because he has his family in Cuba. At the beginning Oswald was cautious but later he became more friendly. He gave my friend an application to become a member of the Fair Play for Cuba Committee. During the conversation Oswald's daughter came to the porch and Oswald spoke to her in Russian. When my friend asked about the language, Oswald told him that he was studying Russian at Tulane University. In that conversation Oswald tried to justify Fidel Castro's position and he said that if at any moment a fight would start between the United States and Castro, he would help Castro because Castro was right.

On August 21 we went to WDSU Radio to debate against Oswald and his Fair Play for Cuba Committee. Before the debate started I tried to be as friendly to Oswald as I could. I told him that if at any moment, even if it was at midnight, he started to do something good for his country, for his family and for himself, he could come to me and I would help him. Oswald, extremely calm, assured me that he was convinced he was doing the best and that his side was the correct side.

During the debate, one of the members of the panel, Ed Butler, Executive Vice President of the Information Council of the Americas, destroyed Oswald completely when Butler showed Oswald's past and his attempt to renounce his American citizenship to obtain Soviet citizenship. At the debate Oswald again showed his extraordinary cold blood.

In one of my two questions to him I asked Oswald if he agreed with Prime Minister Fidel Castro when in his last speech on July 26, 1963, Castro qualified President John F. Kennedy as a ruffian and a thief. Oswald answered that he didn't agree with that particular wording, which means that he agreed with the qualification but not with the phraseology. After the debate I gave a press release explaining our conclusions about it and in it I asked the citizens of New Orleans to do some things that I believed fundamentals at that moment:

First: Help us destroy communism in Cuba.

Second: Write your Congressmen asking for a full investigation on Mr. Lee H. Oswald, a confessed "Marxist."

Third: Be alert about the communist infiltration in this country because Khrushchev said, "I will bury you."

Unfortunately, and to the best of my knowledge, nobody published my press release or my suggestions. I wrote to the headquarters of the Cuban Student Directorate telling all that happened and advising them that Oswald would have to leave the city because he was completely destroyed in New Orleans.

In accordance with the communist tactics, "Oswald had been burned in New Orleans" but as he was a valuable agent inside the apparatus they would send him to another city to use his services.

Is it possible to believe that a person could be qualified as

a lonely nut who, after spending [illegible] world return disillusioned and became [illegible] of Fidel Castro; who would even try to get all the information possible about the Cubans in exile in New Orleans and would try to infiltrate one anti-Castro organization? Could he be qualified as a lonely nut? He could be a nut, but not a lonely one because he was a member of the international movement of nuts who are trying to destroy the western civilization.

There are some people who said that Oswald was not a communist because he had been disillusioned by Russia and that he did not defend Russia, but Castro. Very well. But, what is Castro? Castro is the beachhead of communism in the Western Hemisphere and while he is not the only one because there are now other beachheads, at least he is the most vigorous and the only one in way of consolidation. Oswald did not have to defend Russia. He only had to defend Castro until he became so strong that the United States would not have any other alternative than to co-exist with him.

There are some people who are asking . . . what were Oswald and Castro looking for with Kennedy's assassination? About this, there is one answer divided in two parts: (1) With relation to Cuba; (2) With relation to the internal front of the United States.

With Relation to Cuba. Kennedy could no longer admit Castro's presence in Cuba. There was coming the electoral campaign and everybody knew that Kennedy's opponents, not only outside but inside his Party, would start a tremendous campaign using Cuba as the center of it. Kennedy was conscious of what was coming and many people were expecting something to happen before the elections that would rehabilitate Kennedy's prestige and make him win the election. Among the Cubans in exile was running the rumor of a so-called "Operation Judas" which meant that Castro would be overthrown from inside with Moscow's compliance to put in power a neutralist government headed by less notorious members from the Cuban Communist Party. There are a lot of articles and speeches that were written and told before Kennedy's assassination telling about this "Operation Judas."

Informed by his spies inside the United States, Castro thought that it would be good to let Kennedy know that he was informed about the plans and that he would not accept his overthrow. Castro, just as are many of the communists, is a communist by convenience and he would not accept the solution of the "Operation Judas." In that situation, taken by irritation and desperation, he went to a reception at the Brazilian Embassy in Havana on September 7, 1963, and expressed it this way:

"We are prepared to fight them and answer in kind. U.S. leaders should think that if they are aiding terrorist plans to eliminate Cuban leaders they themselves will not be safe."

With that threat of death against the leaders of this country, Castro was stating that he would not admit his downfall. In the meantime, among the Cubans in exile and even more in some zones of Latin America, were commentaries about "Operation Judas."

The bitterest Castro attack yet on President Kennedy was made early Sunday morning in a rambling, informal post-midnight dissertation following a reception at the Brazilian Embassy.

"Kennedy is the Batista of his times . . . and the most opportunistic American President of all times," Castro said. Fulgencio Batista was the Cuban dictator ousted by Castro's revolution. The United States, Castro said, "is fighting a battle against us they cannot win . . . Kennedy is a cretin," Castro asserted, "and a ma[illegible] as a gangster family that can[illegible] treb several important [illegible] in the government. For instance, one brother is a Senator [illegible] Attorney General . . . and there are no more Kennedy officials because there are no more brothers."

Castro also disclosed that Cuba had not yet made up its mind about signing the limited nuclear test ban treaty drawn up last month in Moscow. A recent dispatch from Moscow indicated the Russians themselves have been puzzled by Cuba's silence in connection with the treaty. There was some speculation that Castro was holding out for more Soviet economic aid and threatening to cast his lot with the Red Chinese. The Prime Minister did not explain which points in the treaty were being given most consideration. But, he said: "We are taking into account the current world situation, which of course, involves the Caribbean situation, which has been deteriorated in the last few days due to piratical attacks by the United States against the Cuban people."

Following are some declarations made by President Kennedy before the Assembly of the Inter-American Press Association on Monday, November 18, 1963.

"It is important to restate what now divides Cuba from my country and from all the American countries: it is the fact that a small band of conspirators has stripped the Cuban people of their freedom and handed over the independence and sovereignty of the Cuban nation to forces beyond the hemisphere. They have made Cuba a victim of foreign imperialism, an instrument of the policy of others, a weapon in an effort dictated by external powers to subvert the other American Republics. *This, and this alone divides us. As long as this is true nothing is possible. Without it, everything is possible.*

"Once this barrier is removed, we will be ready and anxious to work with the Cuban people in pursuit of those progressive goals which, a few short years ago, stirred their hopes and the sympathy of many people throughout the entire hemisphere.

"No Cuban need feel trapped between dependence on the broken promises of foreign communism and the hostility of the rest of the hemisphere. For once Cuban sovereignty has been restored, *we will extend the hand of friendship and assistance to a Cuba whose political and economic institutions have been shaped by the will of the Cuban people.*"

One month before, we could see the possibility of Castro's overthrow with the help of this country. Now, in view of the battle of the electoral campaign, Castro's position is stronger and in the horizon it's not possible to see the possibility of an immediate American action to provoke Castro's downfall. Undoubtedly, Lee Harvey Oswald gained a wonderful victory for Castro on that black afternoon in Dallas on Nov. 22. And, what were Oswald and communism gaining in the internal front of the United States with the assassination in Dallas of John F. Kennedy?

Dallas had been characterized by her active anti-communism. There had been different incidents such as the one with Adlai Stevenson, which had attracted the national and international attention to that city. While the communists were spreading hate all over the world against our civilization, they were trying here inside this country to destroy those who hate the ones who originated the hate.

It is ridiculous to think about Oswald's lunacy because he took all the precautions that he needed to abandon the place of the assassination. But, thanks be to God, he failed—the escape failed and everything fell down. I would like to know what would happen in this same city, if the

assassin had not been discovered as soon as he was. Still, even as quickly as he was discovered, there was enough time for those of the left to attack with hysteria "the hate created by the rightists and the racists." Luckily for our anti-communist Americans and for the Cuban refugees, that attempt to move the people of this country to a situation of collective hysteria against the rightists, and that could originate a repetition of the tragic night of Saint Bartholomew, had to be stopped when it was found that the suspected assassin being questioned didn't show any connection with the rightists but with the communists and particularly with the Castroites.

Immediately a campaign started against the rightists and the Cuban refugees. It was impossible to permit them to arouse the American people. It made no difference that previously the rightists were blamed publicly — now the situation was different. The accused was a Castroite and now it was necessary to show to the world that this was a civilized nation — all of us had to be blamed for Kennedy's assassination — that it was necessary to stop the hate and we must love one another.

The day after Kennedy's assassination I received a threat of death because I "blamed an innocent and that one day I would have to pay for it." That night, November 23, 1963, Castro put his blame on me, qualifying me as a Liar and he tried to deny facts as public as the debate held at WDSU Radio with Lee Harvey Oswald and that Oswald belonged to the Fair Play for Cuba Committee.

Today I am telling you exactly what I told the press on November 23, 1963. If in Cuba there have been murdered 10,000 Cubans, if in my country there are more than 60,000 anti-communists suffering in prison, I cannot close my mouth cowardly fearing my personal security. And, for my fellow Cubans who were murdered, for the young American soldiers killed in the fight against communism and for the one billion human beings in slavery in Eastern Europe and Asia I have to tell the truth and nothing else but the truth until God our Lord calls us to His divine judgment.

As most Americans know by now, Lee Harvey Oswald was assassinated by Jack Rubenstein who use the alias Jack Ruby. The organization which I represent, Cuban Student Directorate, has turned over proof to the Federal Bureau of Investigation that Ruby visited Castro's Cuba in 1959 and again in late 1962 and early 1963. Ruby, who has been sentenced to death for the murder of Oswald admitted traveling to Cuba in 1959. While in Cuba, Ruby's contact in Havana was a Castro propagandist, Salomon Pratkin. Pratkin operates a tourist store in Havana. However, as all know, no U.S. visitors have been allowed in Cuba since 1962. Therefore, the tourist stores in Cuba have become outlets for Castro propaganda. The American people need to know what Rubenstein was doing in Cuba at the end of 1962 and the beginning of 1963.

Ladies and gentlemen, the facts show that Lee Harvey Oswald was a Castro agent and that as a Castro agent he assassinated the President of the United States of America. In your hands you have the opportunity to avoid the Castro-communist assassination of your way of life and your families, too. The enemy has proved to be not ninety miles away but right here inside the United States. The anti-communists and true American parties must wake up and give their help actively to those who are working in this fight or your sons will be condemned to live in slavery under the tyranny more terrible than has been suffered ever by humanity: THE COMMUNIST SOCIALISM.

REC'D-READING ROOM FBI JUN 22 10 20 AM '64

Dear Mr. Rankin:

On June 11, 1964, Mr. Melvin Eisenberg, of your staff, forwarded to the FBI Laboratory the transcript of the deposition of Special Agent James C. Cadigan made on April 30, 1964, and requested certain examinations discussed on pages 39 and 47 of the transcript.

Page 39 of the transcript refers to the signature "Alek J. Hidell" on the counterfeit Selective Service System Notice of Classification, Commission Exhibit 795. It was concluded that the "Alek J. Hidell" signature on Commission Exhibit 795 was written by Lee Harvey Oswald, based on a comparison of the Hidell signature with the handwriting on Commission Exhibits 55, 56, 66, 778, 780, 781, 788 and FBI Exhibit D4.

REC'D-READING ROOM FBI JUN 22 4 46 PM '64

Page 47 of the transcript refers to the rubber stamp kit, Commission Exhibit 115, and the rubber stamp impression on Oswald's vaccination certificate, Commission Exhibit 813. As a result of a comparison of Commission Exhibits 115 and 813, it was concluded that the "NEW ORLEANS, LA." (third line) portion of the rubber stamp impression on Commission Exhibit 813 was made with the rubber stamp contained in the rubber stamp kit, Commission Exhibit 115.

No conclusion could be reached with respect to the first two lines of the rubber stamp impression on Commission Exhibit 813, since the first two lines of rubber type on the rubber stamp in Commission Exhibit 115 were found to have been changed prior to receipt and are now not comparable with the first two lines of the rubber stamp impression in Commission Exhibit 813.

SUBJECT: ERNEST CUNEO
NORTH AMERICAN NEWSPAPER ALLIANCE

Ernest Cuneo came by my office on 6/19/64 and stated that he wished to advise me in confidence that he had been commissioned to prepare a lengthy article on the Kennedy assassination with emphasis on the Warren report. He stated that Allen Dulles was to be a principal source of information for him prior to the time the report was issued. He asked, however, that I show him, in strict confidence, a copy of the report that was sent to the Warren Commission.

I told Cuneo that we respected his friendship highly and appreciated his need for information; however, he should know that the Warren Commission has specifically requested that we refrain from making any statements whatsoever until the release of their report. I told him that obviously it would be out of the question for me to show him our report. He then wanted to know if I could give him guidance. I told him we would cross that bridge when we came to it.

Cuneo specified again that he thought he could get sufficient information from Allen Dulles to write his article; however, it would be helpful if he could call us from time to time. He reminded me that he had gone to bat for us with Drew Pearson when Pearson was criticizing the FBI. I told him this was true and that his friendship was evident. I told him also that Pearson twice criticized the FBI following his contact with him. I mentioned that Pearson did not cut out the criticism until I had a lengthy session with him and laid numerous facts on the line.

Cuneo indicated he would get back in touch with us and he fully understands that we cannot show him the report in question. He stated he was leaving my office to go over and see Allen Dulles at that particular time.

Special Agents (SA) John Lester Quigley, James Patrick Hosty, Jr., and former SA John W. Fain testified before the President's Commission on 5/5/64 in connection with their knowledge and handling of the Lee Harvey Oswald investigation.

On 5/8/64 the President's Commission furnished the Bureau with a transcript of testimony covering Agents Quigley and Hosty and Mr. Fain. The testimony was reviewed at Seat of Government and certain minor errors were detected in the testimony, such as misspelled words, erronous punctuation and the like. These errors were brought to the attention of the President's Commission by Inspector J. R. Malley on 5/14/64. SAs Quigley and Hosty and former SA Fain have personally not examined the transcripts of their testimony before the President's Commission. Each had left Washington, D. C., and returned to their home residence prior to the date the transcripts were furnished to the Bureau. In view of the Commission's desire to have individuals who testified before the Commission review their transcript to insure their accuracy, it appears it is desirable that copies of the transcripts of SAs Quigley and Hosty and Mr. Fain be forwarded to them in order that they can review them. This will insure that the Commission will have an accurate record of exactly what each of these men had testified to and will give each of these men an opportunity to review the testimony that will be made a permanent part of the Commission's records relating to each.

ACTION:

Attached for approval is an airtel to the Dallas, New Orleans and Houston Offices forwarding a copy of the transcript of SA Hosty, SA Quigley and Mr. Fain, respectively, for their perusal and comments. We are instructing that any changes deemed necessary be furnished the Bureau immediately in order that consideration can be given to discussing such changes with the President's Commission.

Enclosed for the Houston Office is a copy of the transcript of former SA John W. Fain before the President's Commission on 5/5/64.

The Dallas, New Orleans and Houston Offices should immediately arrange for SAs James P. Hosty, John Lester Quigley and former SA John W. Fain, respectively, to review the copy of the transcript pertaining to him and determine if it is completely accurate and correctly presents the testimony that was made before the President's Commission. You will note that the enclosure contains corrections which have been noted by the Bureau and have been already brought to the attention of the President's Commission. These corrections are largely misspellings, incorrect grammar structure and the like.

Following perusal of the enclosure by SAs Hosty and Quigley and Mr. Fain, each office should immediately forward a communication to the Bureau listing any other changes that should be brought to the attention of the President's Commission in this matter.

Dear Mr. Rankin:

Reference is made to your letter of May 20, 1964, concerning the materials which the Commission had requested of the Russian Government on March 24, 1964, and with which you transmitted documents numbered 1A, 2A, 3A(1), 3A(2), 4A, 5A(1&2), 5A(3), 1B, 2B, 3B and 4B. All of these exhibits are designated as FBI Exhibit D216. Translations of the foregoing documents were also received.

Your letter of May 20, 1964, requested a handwriting comparison of the documents submitted with the handwriting of Lee Harvey Oswald and his wife, Marina.

It was concluded that Marina Oswald, whose known handwriting specimens are designated as FBI Exhibits D12 and D13, wrote Commission Items 1B and 3B.

It was concluded that Lee Harvey Oswald, whose known handwriting specimens are designated as FBI Exhibits D5 and D9 and Commission Exhibits 55, 56 and 66, prepared the following handwriting on the Commission Items as indicated below:

1A - The English text on page two and the two Oswald signatures on page two

Washington, D. C.

Dear Mr. Rankin:

Reference is made to the request of Mr. Howard P. Willens of your staff on June 19, 1964, that this Bureau contact Miss Rosemary Woods, secretary to Mr. Richard M. Nixon, for the purpose of obtaining a newspaper article that Miss Woods reportedly possessed indicating that Mr. Nixon was either going or was planning to go to Dallas, Texas, in October, 1963.

For your information, contact with Mr. Nixon's office on June 19, 1964, revealed that Miss Rosemary Woods does not have the article in question, but she believes such an article did appear in a Dallas newspaper.

In view of Miss Woods' statements, we are checking the Dallas newspapers from October 1, 1963, to November 22, 1963, to ascertain if there was an article in a Dallas newspaper indicating Mr. Nixon planned a trip to Dallas during such period. Results of our checks will be promptly furnished to the Commission upon receipt.

Sincerely yours,

J. Edgar Hoover

TE: The telephonic request of 6/10/64, mentioned above, was made to SA Roy L. Devons, Physics and Chemistry Section, FBI Laboratory. During the telephone call, it was specifically requested that SA Lyndal L. Shaneyfelt, Document Section of the Laboratory, prepare three copies of Commission Exhibit number 885 from negatives which are in possession of the Bureau.

The exhibits mentioned above, with the exception of Commission Exhibits 385, 882 and 883, were obtained from the Commission on 6/10/64 by SA Robert E. Neill. Those exhibits originally supplied to the Commission by the Bureau will be retained in Bureau custody. Commission exhibits not originating from the Bureau are being returned to the Commission along with the photographs.

It is noted that some of the exhibits of which photocopies were made consist of more than one page and in order to avoid confusion in accounting for the total number of enclosures being sent to the Commission, the three sets of photocopies are being considered as three enclosures.

NOTE:

Since the assassination we have received numerous complaints relating to individuals other than Lee Harvey Oswald. These complaints generally relate to remarks and threats allegedly made by individuals concerning their feelings about President Kennedy, other officials and the policies of the administration. The complaints are initiated by cranks, mental cases and patriotic citizens. Some of these people pose a possible threat to the President and other high officials and we insure appropriate dissemination is made. This will be the fourth such report disseminated to the President's Commission. A copy will be disseminated to the U. S. Secret Service separately. The enclosed report has been reviewed by Mr. Belmont, Malley and appropriate Bureau supervisory personnel.

NOTE:

The Commission, by letter June 4, 1964, stated that an index of audio tapes from WFAA-TV, Dallas, indicated that Vic Robertson had described on tape an attempt by Jack Ruby to enter the office of Capt. Fritz while Oswald was being interviewed on the late afternoon of 11/22/63. The Commission requested interview of Robertson, review of the tape, and interview of police officers on duty guarding the door. Robertson, in interview, states he saw Ruby attempt to enter. The police officers on duty who were acquainted with Ruby state that he made no such effort to enter.

Dear Mr. Hoover:

Evidence was adduced at the trial of Jack Ruby that a tape recording was made by "Ike" Pappas, WNEW, New York, New York of the sounds in the basement of Dallas City Jail at the time Ruby shot Lee Harvey Oswald.

The Commission would appreciate your obtaining a copy of that tape and conducting such tests as may be appropriate to determine whether or not Jack Ruby made any utterances while shooting Oswald. Attention should be given to whether the microphone used by Pappas could have picked up any statement made by Ruby as he approached Oswald. Pappas has testified that he was standing about five feet from Ruby at the time Oswald was shot, and TV films in the possession of the Commission may be useful in establishing the precise location of Pappas.

In addition, the Commission would appreciate your obtaining for it a copy of the photograph introduced into evidence as Defendant's Exhibit No. 8 in the Ruby trial.

Dear Mr. Rankin:

[George Carter] a police reporter for the "Dallas Times Herald," Dallas, Texas, furnished information to Chief Curry of the Dallas Police Department to the effect that Jack L. Ruby had at one time sent a gun to Louis J. Lemmie and that Lemmie had returned the gun to Ruby. [Carter] [illegible] that he had received this information from one [redacted] who told [Carter] that if [Carter] would help him out on a thirty-day conviction he had received for police making in Texas he, [redacted] would give [Carter] "a real story" as to Ruby's connection with Lemmie.

As you are aware, Louis J. Lemmie has been previously interviewed in connection with the Ruby investigation and has admitted that Ruby sent him a gun which he did not accept delivery of. [illegible] investigation has established that a gun was sent at Ruby's instruction to Lemmie from Earlmare Store, Dallas, Texas, [illegible], 1963. Lemmie did not accept delivery of the gun and it was returned to Ruby's Earlmare Store.

[redacted] is a well known gambling figure in Las Vegas, [illegible], who reportedly went to Las Vegas from Dallas in about 1947. Records relative to [redacted] in connection with the Ruby investigation would indicate that he is not acquainted with Ruby. (Report of Special Agent Hanning C. NOTE: Information furnished by Carter to Chief Curry was furnished to the Dallas Office on 5/7/64, and Dallas requested that Las Vegas interview [redacted]. Las Vegas advised that [redacted] has, for a number of years, been a big gambling figure in Las Vegas and that he is the subject of a Bureau antiracketeering case. [redacted] has been convicted on a Federal income tax evasion charge and is presently out on bond. Las Vegas requested that Carter be interviewed prior to interview of [redacted]. Dallas interviewed Carter on 6/18/64, and Carter stated that he had contacted [redacted] whom he knew to be an associate of McWillie on the theory that [redacted] might be able to elicit a story from McWillie concerning Ruby. [redacted] said he might be able to help if Carter would intercede for him with the District Attorney to cancel a penitentiary sentence he had outstanding against him in Texas. Carter refused to intercede and obtained no information whatever from [redacted]. Carter said that in view of [redacted] reputation for violence he was afraid for himself should it become known to [redacted] that he had related [redacted] attempt to have him intercede for him. Dallas recommended that [redacted] not be interviewed.

LEE HARVEY OSWALD, aka.

Mr. Howard Willens, President's Commission, called Malley and advised that he was calling at the request of Mr. Rankin, who is not available today and stated that Mr. Rankin had received information that former Vice President Nixon's secretary, Rosemary Woods, had a newspaper article indicating that Mr. Nixon was either going to Dallas in October, 1963, or was planning to go to Dallas in October, 1963. Mr. Willens stated that Mr. Rankin desired the Bureau to obtain this newspaper article from Mr. Nixon's secretary.

In connection with the foregoing it is noted that Marina Oswald has in the past furnished information indicating she on one occasion locked her husband, Lee Harvey Oswald, in the bathroom to keep him from doing physical harm to Nixon when he was supposedly coming to Dallas in April, 1963. Investigation relative to this has failed to reflect that Mr. Nixon went to Dallas or that he was scheduled to go to Dallas at that time.

ACTION:

New York is being requested to obtain this newspaper article from Mr. Nixon's secretary, and upon receipt of same, necessary action will be taken concerning this article and the President's Commission advised.

Dear Mr. Rankin:

Reference is made to the telephone call of May 25, 1964, from Mr. Wesley James Liebeler to Mr. Harold Stutz, Jr., of this Bureau, wherein Mr. Liebeler requested further investigation regarding a cartoon which allegedly appeared in a Cuban newspaper depicting a coffin containing President Kennedy.

There are enclosed two copies of the report of Special Agent James J. O'Connor dated June 18, 1964, at Miami, Florida. This report contains the results of the investigation conducted as a result of Mr. Liebeler's request.

There is also enclosed one copy of the January 7, 1963, issue of the Cuban magazine, "Bohemia." This contains a picture on page 69 which depicts a large crowd holding a mock coffin on which are the words, "Mr. Kennedy Like Here, Cuban Revolution Killed Him."

This completes the investigation conducted at the request of Mr. Liebeler.

Sincerely yours,

J. Edgar Hoover

Dear Mr. Rankin:

Enclosed for your information are two copies each of three issues of "Fate" magazine for the months of October, 1963, March, 1964, and May, 1964. In each of these issues there is an article relating to individuals who reportedly predicted the assassination of the late President John Fitzgerald Kennedy. One copy of each issue is being retained in the files of this Bureau for future reference.

Also enclosed for your assistance are two copies of a self-explanatory communication from our Chicago Office dated June 19, 1964, relating to pertinent articles in the above-mentioned issues of "Fate" magazine.

NOTE:

Since the assassination we have received numerous reports of individuals who allegedly predicted the assassination of President Kennedy. Most of these individuals are alleged to have unusual powers of extrasensory perception. One specific instance investigated by this Bureau was an allegation that Jeane Dixon of Washington, D. C., who is associated with the James L. Dixon Real Estate Company, had been discussed in a magazine article as having predicted not only the assassination of President Kennedy, but having predicted the deaths of other notables. Through investigation we determined that the article referred to was in the 10-63 issue of "Fate" magazine.

This magazine caters to stories of extrasensory perception and strange happenings not readily explainable. In the article by Dixon she predicted the deaths of Supreme Court Justice Frank Murphy, UN Secretary General Dag Hammarskjold, President Franklin Roosevelt and President Kennedy.

It is felt that copies of this magazine should be furnished to the Commission for its general information.

GREETINGS:

Whereas, it has come to the attention of the Thomas Nelson Jr., Chapter of the Sons of the American Revolution, that the Warren Commission appointed to investigate the assassination of President John F. Kennedy has employed as an assistant one, Norman Redlich, a former professor of New York University.

Whereas, Mr. Redlich has definite associations with known communist fronts, and particularily, the Emergency Civil Liberties Committee, so designated by the House Committee on Un-American Activities. Recently Mr. Redlich's name appeared as a co-signer in a large advertisement in the NEW YORK TIMES as a birthday celebration for the ECLC.

Whereas, this Chapter has taken notice of the above information,

Therefore, be it Resolved that this Chapter, by Resolution, requests the removal of Mr. Redlich from the Warren Commission work so that its findings, when made public will have no taint of communist direction, because the alleged assassin of our former President had definite communist connections.

It was requested that the Chapter Secretary forward the above Resolution to each member of the Warren Commission, the Virginia Senators and Representatives in Washington.

Refer to your letter of June 11, 1964, concerning the claim of Carl L. Maynard that he saw Lee Oswald dating a Mexican striptease dancer who worked at the Carousel.

Enclosed herewith are two copies of a memorandum dated June 19, 1964, at Dallas, Texas, advising you of the previous investigation conducted by this Bureau concerning the allegation of Maynard and setting forth the results of an interview with Marilyn Wysong, also known as Marilyn Owens, and Diana Hunter.

Interview of George Love on December 16, 1963, as referred to in the enclosed memorandum was furnished to you in the report of Special Agent Manning C. Clements dated December 21, 1963, Page 111. The interview of Diana Hunter was previously furnished to you in the report of Special Agent Clements dated December 21, 1963, Page 226. The interview with Dior Angel at New Haven, Connecticut, on November 25, 1963, was furnished to you in the report of Special Agent Clements dated December 30, 1963, Page 457; and the reinterview with her at San Antonio, Texas, on December 21, 1963, was furnished to you in the report of Special Agent Clements dated January 8, 1964, Page 186.

This completes the investigation as requested in your letter of June 11, 1964, concerning the allegation made by Carl L. Maynard.

Bureau files reveal Mrs. Whiteley has corresponded with us since 1957 and it appears she is a deeply mentally disturbed individual. She has presented lengthy written letters regarding psychiatric therapists, Al Capone, the Mafia, perversions, hypnotism, Kremlin agents, none of which make sense. She appeared at the Bureau on March 30, 1960, to present one of these lengthy letters and it was the observation of the interviewing Agent that she was a woman of more than 60 years of age. We have not acknowledged any of her previous communications and in view of the fact the Department has not acknowledged this one, we therefore, are not acknowledging it. A copy of Mrs. Whiteley's letter is being furnished to Secret Service Headquarters.

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY, DALLAS, TEXAS, 11/22/63

On 3/11/64, SA Cortlandt Cunningham testified before the President's Commission regarding the ease in which the assassination rifle can be assembled and disassembled. He also demonstrated before the Commission that this rifle can be assembled using a dime.

A transcript of his testimony was recently received from the Commission. The transcript has been reviewed and minor transcribing errors have been corrected.

On 6/26/64, SA Cunningham had a conference with Mr. Joseph Ball, staff member of the President's Commission, at which time the revisions were discussed with him. Mr. Ball stated that he had no objection to any of the proposed changes and advised that they will be incorporated into the Commission's official record.

For your information, a xerox copy of the corrected transcript is attached.

Details concerning this matter appear in Rosen to Belmont memo, 5-25-64, captioned "Assassination of President John Fitzgerald Kennedy, 11-22-63, Dallas, Texas, Miscellaneous - Information Concerning," RDR:las. Briefly, an anonymous letter was received at the Bureau on 5-18-64, alleging that the writer overheard a conversation in the Spanish language indicating knowledge of the assassination and implying a threat against the Chief Justice. The writer stated the person making these statements drove a car bearing Arizona license EZY 958, which was determined to belong to one Arthur G. Imhoff. Imhoff was interviewed on 6-17-64 and denied having any knowledge of the assassination or acquaintance with any of the central figures. He indicated an interest in extrasensory perception "seers" and "mystics." He acknowledged that he might have talked about predictions of the President's death made by others, but denies making any statements which could be construed as a threat. The Chief Justice and the President's Commission were immediately advised of the receipt of the anonymous letter and were advised we were investigating. In view of outcome of interview, no further action appears warranted and this should conclude our responsibilities in this particular matter.

Dear Mr. Rankin:

Enclosed for your information are two copies of communication dated May 22, 1964, at Washington, D. C.; a copy of the "Deutsche Nationalzeitung und Soldatenzeitung," a Munich, Germany, newspaper of November 29, 1963; and two copies of translations of two pertinent articles appearing on pages one and four of the above enclosed newspaper.

Your attention is called to the fact that one of the articles, entitled "The Strange Case of Oswald," reportedly written by an editor of the newspaper, alleges that Lee Harvey Oswald had made an attempt on the life of General Edwin A. Walker. As you will note, the date of the appearance of this article was prior to December 3, 1963, the date on which Marina Oswald first advised Agents of this Bureau that Oswald had tried to kill General Walker. Page two of the enclosed communication dated May 22, 1964, at Washington, D. C., sets forth information indicating that the source of the allegation in the above article was General Walker in a transatlantic telephone interview with a West German journalist, Helmut Herbert Buench, following the assassination of President Kennedy.

In addition, the article also alleges that Oswald had been seized for the attempt on General Walker's life and that Attorney General Robert Kennedy had stopped the investigation. According to Buench, these latter allegations were inserted by the editor on his own initiative.

In connection with these matters, you are referred to your letter of May 5, 1964, which requested investigation regarding an allegation in the May 17, 1964, issue of the "National Enquirer" that a high official of the Department of Justice had requested the Dallas, Texas, Police Department not to arrest Oswald for the attempted shooting of General Walker. It would appear that my letters of May 8 and 14, 1964, that indicated the "National Enquirer" allegation could not be substantiated, would be pertinent to the allegation in the above article in the November 29, 1963, issue of "Deutsche Nationalzeitung und Soldatenzeitung."

The second article being called to your attention in the above newspaper reportedly records two transatlantic telephone interviews between General Walker and Munich.

This completes our inquiry in the matter.

NOTE:

Existence of the article regarding Oswald shooting Walker in the "Deutsche Nationalzeitung und Soldatenzeitung" (DNZSZ) issue of 11/29/63 was called to our attention by a Frank Capell, publisher of a weekly newspaper "The Herald of Freedom," Staten Island, New York, and Bonn was asked through available sources to verify the existence of the article and then to determine the sources and circumstances of its preparation and to obtain copies of the article for the President's Commission. The Bundesamt fuer Verfassungsschutz (BfV - West German Federal Agency for the Protection of the Constitution) was able to identify the writer of a second and longer article in the DNZSZ, 11/29/63, which was an account of transatlantic telephone interviews with General Walker following the assassination of President Kennedy. This

NOTE CONTINUED:

German writer, Helmut Herbert Lucash, then located and interviewed by the BfV advised that General Walker had told him in one of the trans-Atlantic telephone calls that he, Walker, believed Oswald was the man who had made an attempt on his life. Lucash told BfV that he had furnished this information from Walker to Dr. Frey, editor of the DNZ, who had then written the shorter article on Oswald's shooting of Walker and had embellished that story by reference to the Attorney General intervening to stop the investigation at that time. This allegation is similar to one in the 5/17/64 issue of "National Enquirer" which we ran out at the request of the President's Commission and for which we could find no substantiation.

Letter classified "Confidential" to protect our Legat operations abroad and since incoming letter and memorandum from him was so classified. Dallas being furnished copy of LHM along with copy of DNZ, 11/22/63, and copies of translations of two pertinent articles.

Dear Lee:

As you know, United Press International was happy to assist the Commission by providing it with copies of newsfilm taken in Dallas. The film was obtained from us by the FBI at the Commission's request and turned over to the Commission.

Some of this film, showing the actual assassination, has never been used so far because its use to date has not seemed appropriate.

However, we regard the film as an extremely valuable piece of property for the future. We believe there are only two pieces of film in existence showing the actual assassination, and this is one of them. United Press International

I do not presume that the Commission intends to make any use of the film in connection with its forthcoming report. But just in case -- This letter is to record UPI's position that the Commission should not release any part of the film, either as movie or television film, or any frames from it in the form of still pictures. [illegible]

And of course we will appreciate return of the film to us when the Commission has completed its work.

Dear Mr. Hoover:

Telephone records of Cobo Cleaners, in which Earl Ruby is a partner, show that a long distance telephone call was placed on May 1, 1963 to the James Welch Company from a phone belonging to Cobo Cleaners. Earl Ruby was able to provide no information at his deposition other than the possibility that his brother Hyman might have placed the call. In a later letter, Earl indicated that he may have placed the call to learn if the Welch Company planned to use a camera manufactured by Mr. Ruby in connection with a forthcoming sales promotion. Hyman Rubenstein stated in his deposition that he sometimes purchased candy from the Necco Confectionary Company, 254 Massachusetts Ave., Cambridge 39, Massachusetts, which he believed had purchased the James Welch Company but had no specific recollection of such a telephone call.

It is suggested that you request Mr. Earl Ruby to provide the names of persons with whom he dealt at the Welch Company and that those persons be interviewed to determine the nature of Mr. Ruby's dealings with that Company and whether or not any persons at that Company were known to have been in contact with Jack Ruby or Hyman Rubenstein. The Commission would appreciate your ascertaining the reason for the telephone call on May 1, 1963.

Sincerely,

J. Lee Rankin

Enclosed herewith for each office is one copy of a self-explanatory letter from the President's Commission dated July 3, 1964, requesting certain investigation to determine the reason for a telephone call made from the Cobo Cleaners, operated by Earl Ruby, to the James Welch Company on May 1, 1963.

Upon receipt Detroit will contact Earl Ruby to obtain the names of persons with whom he dealt at the Welch Company and set out appropriate leads by teletype to conduct the desired investigation at the James Welch Company. Detroit and Boston will submit results by LHM suitable for dissemination to the President's Commission. Furnish appropriate copies to the office of origin Dallas.

NOTE: At the request of the President's Commission we made a check of toll calls from telephones available to Jack Ruby's brother, Earl, and other members of his family. In testifying before the Commission Earl apparently could not recall the specific reason for the telephone call. The Commission desires investigation at the James Welch Company to determine the reason for the call if possible.

JOHN F. KENNEDY, DALLAS, TEXAS;
11/22/63 (President's Commission)

Reference memorandum dated February 26, 1964, from W. D. Griffith concerning a continuing project wherein the Bureau has undertaken to furnish the Commission with photographs of all Commission exhibits.

On June 29, 1964, Miss Mary A. Rowcotsky called SA William D. Griffith, Document Section, and requested that the Bureau take custody of the exhibits set forth on the attached list. She further requested that the Commission be furnished with three copies of each exhibit not previously provided the Commission.

As a matter of record, instant exhibits were delivered by a Commission courier on 6/29/64.

This work will be handled by an Agent Examiner of the Document Section.

ACTION: Exhibits will be photographed or otherwise reproduced and three copies will be supplied to the Commission as requested. These items were originally supplied to the Commission by the Bureau and will be kept in Bureau custody.

BY COURIER SERVICE

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, N. E.
Washington, D. C.

Dear Mr. Rankin:

At the request of the President's Commission this Bureau has reviewed the book, "The Red Roses of Dallas," by Morin E. Gun, correspondent for "Epoca," an Italian weekly magazine. A French version of the book was reviewed in the absence of the English version which reportedly is to be published in the near future.

There are attached two copies of a memorandum dated July 2, 1964, at Washington, D. C., containing certain claims made by Gun on the assassination of President Kennedy that are not substantiated by the results of our investigation. For your information, Gun presents no factual material that would contradict the results of our inquiry or that would substantiate Gun's speculation concerning involvement of a conspiracy in the assassination matter.

NOT RECORDED
105 JUL 8 1964

Records of this Bureau indicate [illegible] Murullah Gun, a journalist by profession, was reportedly born in Rome, Italy, in 1920 and is of Turkish nationality. He first entered the United States in 1943 and has represented several foreign publications in this country since that time.

1 - ENCLOSURE

This Bureau investigated Gun in 1949 and 1960 based on an allegation that Turkish officials regarded him with suspicion due to "extraordinary facilities" granted Gun as a news correspondent in Berlin and elsewhere by the Russians following World War II. The jacket of Gun's book states that he had been interned in Germany and [illegible] by Americans during World War II.

Honorable J. Lee Rankin

Our inquiry disclosed that Gun had expressed himself in an anticommunist manner in various articles. He was described by one source as having no interest in the Soviet Union or communism; however, that source did advise he considered Gun to be an opportunist and an individual who would help anyone who paid him.

Our investigation also showed that Gun's accreditation as a news correspondent at the United Nations in New York City had not been renewed after expiration in 1949. One source indicated Gun's accreditation was not renewed because he had been arrested in January, 1949, on charges of reusing metered mail that had been filed by the United States Post Office Department with the United States District Court, Eastern District of New York. Our inquiry indicated that Gun had been acquitted of the above charges in March, 1949.

For your information, the jacket of Gun's book indicates that he wrote the book for European readers since he knew his report on the assassination would never be published in the United States.

Sincerely yours,

J. Edgar Hoover

"THE RED ROOMS OF DALLAS"
By Norin E. Gun

CLAIMS AND RESULTS OF INVESTIGATION

1. CLAIM: When Lee Harvey Oswald arrived in New York City from the Soviet Union on June 13, 1962, he told a representative of the "Aid Organization" a fantastic story to the effect that he had been a guard at the United States Embassy in Moscow and had been kidnaped by communist agents. Pages 52 and 53.

INVESTIGATION: Oswald told a representative of the Travelers Aid Society, New York City, that he had been with the United States Marine Guard at the United States Embassy in Moscow. No substantiation, however, has been developed of Gun's allegation that Oswald claimed to have been kidnaped by communist agents in the Soviet Union.

2. CLAIM: After his return from the Soviet Union, Oswald changed employment 17 times prior to the assassination of President Kennedy. Page 55.

INVESTIGATION: Oswald is known to have worked for only four employers during the above period of time: Leslie Welding Company, Inc., Fort Worth, Texas; Taggart-Chilton-Stovall, Inc., Dallas, Texas; William B. Reilly and Company, Inc., New Orleans, Louisiana; and the Texas School Book Depository, Dallas, Texas.

3. CLAIM: At about 11:30 a.m. on November 22, 1963, Oswald was eating lunch on the sixth floor of the Texas School Book Depository Building. The lunch consisted of a chicken sandwich that he had brought from home wrapped in heavy brown paper which also covered his long package. Page 105.

INVESTIGATION: Inquiry by this Bureau fails to indicate that Oswald had lunch in the building. Oswald gave conflicting information about bringing his lunch to work on November 22, 1963. Buell Wesley Frazier, fellow employee who drove Oswald to work, has stated that Oswald carried only a long package to work on the day in question.

4. CLAIM: Oswald was treated at Parkland Memorial Hospital, Dallas, Texas, at the age of seven after an automobile accident. Pages 124 and 190.

INVESTIGATION: Records of the hospital do not substantiate Lane's claim. These records do show, however, that Oswald, at age five, was treated as an emergency case on April 18, 1945, for an injury sustained when hit in the left eye by a rock. He was treated with ice packs and discharged on April 19, 1945.

5. CLAIM: A doctor examining President Kennedy at Parkland Memorial Hospital found on his stretcher a bullet that, without doubt, had fallen from one of the President's wounds in the course of surgical measures. Page 133.

INVESTIGATION: The Secret Service has advised this Bureau that the almost bullet found in the hospital in connection with the assassination was reportedly found as it fell from a stretcher used in the handling and treatment of Texas Governor John B. Connally. This bullet was examined by the FBI Laboratory and was found to have been fired from the rifle owned by Oswald.

6. CLAIM: A "Buddy Walthers" of the Dallas County Sheriff's Office maintains that the shots, or at least one of the shots, fired in the assassination had come from the overpass in front of the Presidential motorcade. In addition, Walthers ran in that direction and with a Secret Service Agent found a bullet, "the fourth bullet," in the grass near the overpass. Pages 152 and 211.

INVESTIGATION: Walthers is undoubtedly Eddie Raymond Walthers of the Dallas County Sheriff's Office who has denied making the above statement regarding the origin of the bullet, has denied looking for a bullet with any Secret Service Agent, and has denied finding "the fourth bullet." In addition, the Secret Service has advised that it has no knowledge of any of its Agents finding a "fourth bullet."

7. CLAIM: The number of employees in the Texas School Book Depository Building is referred to as 91 and more than 260. Pages 108 and 200.

INVESTIGATION: In connection with this Bureau's August signed statements were taken from 72 individuals reportedly employed in this building on the day of the assassination and it was determined that two individuals in the building on the day in question on sick leave on the day when the signed statements were t[illegible]

"THE RED ROOMS OF DALLAS"

8. CLAIM: Captain Will Fritz, Chief of Detectives of the municipal police of Dallas, had the description of Oswald broadcast over the police radio system after he had been advised by Roy S. Truly, Superintendent of the Texas School Book Depository, that Oswald was missing from the building. Pages 153 and 154.

INVESTIGATION: Captain J. W. Fritz, Dallas Police Department, has advised that he did not have a description of Oswald broadcast for fear that Oswald might learn he was wanted. Captain Fritz has also stated that he did not advise anyone else at the Dallas Police Department of Oswald's description. The description broadcast by the Dallas Police Department at 12:43 p.m. on November 22, 1963, was obtained from an unidentified individual who furnished the information to a police official at the scene of the Texas School Book Depository Building. It is noted that at the time of the above broadcast Captain Fritz had not yet been advised by Mr. Truly that Oswald was missing from the building.

9. CLAIM: According to police, Marina Oswald is said to have recognized the weapon of the crime as belonging to her husband. Page 157.

INVESTIGATION: Marina Oswald advised an Agent of this Bureau on November 22, 1963, that she had been shown a rifle at the Dallas Police Department on that date that had been reportedly found in the Texas School Book Depository Building. She advised that she was unable to identify it positively as the same rifle kept in the garage at Mrs. Ruth Paine's residence by Oswald.

10. CLAIM: Following Oswald's arrest, a paper found in his wallet had [illegible] Beckley Street address. Page 157.

INVESTIGATION: After Oswald's arrest, he admitted to Dallas Police Department interrogators and FBI Agents that he had been living at 1026 North Beckley Street, in Dallas, Texas. However, no such paper was found among photographs of the articles in Oswald's wallet shown an FBI Agent on November 24, 1963.

11. CLAIM: In a certain photograph taken by an amateur at the parading of the President's procession, Oswald can clearly be seen brandishing the rifle of the crime and the pistol which served to kill Dallas Police Officer Tippit. Page 165.

INVESTIGATION: Investigation by this Bureau has failed to develop any information regarding the existence of such a photograph.

"THE RED ROOTS OF DALLAS"

12. CLAIM: The Dallas Police Department found on Oswald after his arrest the Post Office Box number to which the alleged assassination rifle had been shipped. Page 163.

INVESTIGATION: No such item was observed by Agents of this Bureau among photographs of things taken from Oswald when he was arrested.

13. CLAIM: Oswald affirmed to Pauline Bates, public stenographer of Fort Worth, Texas, in June, 1962, that he had become a "secret agent" of the United States Government and that he was soon going to return to Russia "for Washington." Page 172.

INVESTIGATION: Miss Bates has denied a newspaper report that Oswald told her he was working for the United States Department of State. She has advised that when Oswald first told her that the State Department had advised him he would be on his own while in Russia she assumed that he was working with the Department of State. However, she realized later that her assumption was false.

14. CLAIM: One Lucio Lopez, employed by the Mexican bus line, Transportes Frontera, recognized Oswald on television as a passenger who had asked him to indicate a cheap hotel and then to obtain a reduction in the Federal tax on the ticket. Gun claims that Lopez showed him Oswald's name on a list of travelers crossing the border into Mexico. In addition, Lopez stated that Oswald confided in him an intention to go to Cuba and asked him if a secret route existed. Pages 173 and 174.

INVESTIGATION: Our inquiry has shown that a Lucio Lopez Medina, baggage and freight handler for Transportes Frontera in Mexico City, believed he wrote "Oswald" on an October 2, 1963, manifest of the bus line. However, Medina has stated he had no personal recollection of Oswald, could not recognize Oswald in a photograph as anyone who had been at the bus terminal, and did not believe Oswald embarked on the bus noted in the manifest.

15. CLAIM: At the time of Oswald's trip to Mexico he was under surveillance by the FBI. Page 176.

INVESTIGATION: Oswald was not under day-by-day surveillance by this Bureau and was not "wanted" in the sense of a fugitive. This Bureau was, of course, alert to any information which would indicate that a Soviet intelligence service had an interest in Oswald and was in contact with him.

16. CLAIM: Oswald went to the bus station in Mexico City at 2:30 p.m. on Thursday, October 3, 1963. The bus departure that day was delayed. He bought a ticket for Laredo, Texas, via Rio Grande, with 75 pesos or $5.71. He arrived at the border about 8 a.m. the next day. Page 199.

INVESTIGATION: Investigation by this Bureau has indicated that Oswald left Mexico City by a Transportes del Norte bus scheduled to depart at 8:30 a.m. on Wednesday, October 2, 1963. The price of his ticket to Laredo was reported as 93.75 pesos or $7.50. Oswald was checked out of Mexico by a Mexican immigration official sometime between midnight and 8 a.m., October 3, 1963, and apparently arrived in Dallas at approximately 2:30 p.m. on the same date, October 3, 1963, via Greyhound Bus Lines.

17. CLAIM: After being shot by Jack Ruby on November 24, 1963, Oswald was taken to Parkland Memorial Hospital where Dallas Police Officer J. D. Tippit had died. Page 199.

INVESTIGATION: Tippit was actually taken to the Methodist Hospital of Dallas and was pronounced dead there at 1:25 p.m. on November 22, 1963. His body was later taken to Parkland Memorial Hospital where he was listed as "Dead on Arrival" and an autopsy was performed by the Dallas County Medical Examiner.

18. CLAIM: Marina Oswald has been practically a prisoner of the Government police. Page 202.

INVESTIGATION: This Bureau has developed no information that Marina Oswald has complained that she is or has been a prisoner of any law enforcement agency in the investigation of the assassination of President Kennedy.

19. CLAIM: The arrest of Oswald was illegal since the [illegible] of Dallas Police Officer Tippit was not known at that time. Page 203.

INVESTIGATION: The Dallas Police Department received news that a police officer had been shot shortly after 1:15 p.m. on November 22, 1963. The individual sought for the shooting was arrested about 1:45 p.m. at the Texas Theater and was found, of course, to be Oswald. It appears that the condition of Tippit was immaterial inasmuch as it had been reported and verified that a police officer had been shot. The Dallas Police Department was handling the assailant of Tippit and Oswald's arrest resulted from police investigation of the shooting of Tippit, obviously a crime.

"THE RED ROSES OF DALLAS"

20. CLAIM: Based on the words of witnesses, how was it possible for Oswald after leaving the Texas School Book Depository Building to arrive at his rooming house in ten minutes when the journey normally takes twenty minutes? Page 207.

INVESTIGATION: Oswald was last seen in the building within two or three minutes after the assassination of President Kennedy. He was seen at his rooming house at 1 p.m. Agents of this Bureau have determined that the trip between the building and the rooming house as accomplished by Oswald can be made in heavy traffic conditions as existed on the assassination date in a period of 29 to 30½ minutes.

21. CLAIM: Nobody saw Oswald shoot at Dallas Police Officer Tippit or even talk to Tippit. Three months after the crime, police had not produced the revolver that killed Tippit, had not proved that the revolver had belonged to Oswald, and had not shown that Oswald even possessed a revolver. Page 207.

INVESTIGATION: Our investigation has developed information that Oswald was observed in conversation with Tippit, after which several shots were heard, Tippit was seen to fall, and Oswald was observed fleeing the scene with a revolver in his hands. The revolver taken from Oswald at the time of his arrest was found to have fired the four cartridges located near the scene of shooting. While examination of the bullets taken from Tippit's body did not positively identify them as coming from the revolver taken from Oswald at his arrest, the rifling impressions were similar to those made by the revolver on bullets fired during the examination of the revolver in the FBI Laboratory. The revolver found on Oswald had been shipped to him under an alias he had used at a post office box in Dallas that he had previously rented, and the writing on the mail order coupon for the revolver was determined by examination in this Bureau to have been prepared by Oswald. In addition, Oswald admitted to Dallas police and an FBI Agent that he had purchased the revolver taken from him by police at the time of his arrest.

22. CLAIM: Helen Markham was a witness to the murder of Tippit, but from a distance and she never identified Oswald. Page 207.

INVESTIGATION: The shooting occurred over 100 feet from Mrs. Markham; however, after firing at Tippit, Oswald came toward the intersection at which Mrs. Markham was standing, thus giving her a much closer look at him. Later, Mrs. Markham identified Oswald in a police line-up and in a photograph as the individual who shot at Tippit.

23. CLAIM: Any good lawyer could demonstrate that palmprints are not legal proof. Page 203.

INVESTIGATION: Palmprints, just as fingerprints, are positive forms of identification. Both types of prints, of course, do not necessarily explain the circumstances under which they were placed on an object.

24. CLAIM: How was it possible for Marina Oswald, who is not a firearms expert, to identify a weapon which for three days had lead astray the Dallas Police Department, the FBI and the Secret Service? Page 203.

INVESTIGATION: Inquiry by this Bureau shows that Marina Oswald did not identify the rifle found in the Texas School Book Depository Building as the same one belonging to her husband which she had observed in the garage at Mrs. Ruth Paine's residence. Marina Oswald has indicated that she does not consider herself, a woman, to be a firearms expert. The FBI on November 23, 1963, one day after the assassination, had completed tracing the rifle found in the building to Oswald.

25. CLAIM: Nobody had seen Oswald handle the rifle that he had ordered through the mail. Page 209.

INVESTIGATION: Marina Oswald has stated that she had seen Oswald on several occasions, both before and after his attempt on General Walker's life, handling his rifle. She has also said that she took a photograph of him holding the rifle along with several newspapers.

26. CLAIM: Documents taken by authorities from Oswald's residence were illegally seized since no search warrant had been issued. Pages 209 and 210.

INVESTIGATION: Agents of this Bureau were advised by the Dallas Police Department that numerous belongings of Oswald at the residence of Mrs. Paine in Irving, Texas, and at his rooming house in Dallas, including documents, were taken by search warrant.

27. CLAIM: The arrest and detention of Oswald were illegal. He was not informed of his constitutional rights, not permitted to telephone a lawyer or his family, and not furnished with a lawyer. Page 210.

"THE RED ROSES OF DALLAS"

INVESTIGATION: Oswald was arrested as a suspect in the shooting of Dallas Police Officer Tippit, resisting arrest by firearms and force. A complaint was filed against Oswald in the Tippit shooting about 6 p.m. on November 22, 1963, and about 7 p.m. he was arraigned. He was identified in a police line-up on the night of November 22, 1963, as the man who had shot Tippit. FBI Agents advised Oswald on the afternoon of November 22, 1963, that anything he said might be used against him and that he had a right to be represented by an attorney. He was visited by representatives of the Dallas Civil Liberties Union late that night and these representatives departed satisfied that Oswald had been advised of his right to have counsel. Oswald made no attempt to contact an attorney until November 23, 1963, when he tried unsuccessfully to reach John J. Abt of New York City by telephone on three occasions. In addition, Gun himself claims on pages 163 and 164 that the presence of the press prevented police from using certain methods to "wring a confession" from Oswald. Oswald was visited in jail by his mother and wife.

23. CLAIM: Special Agent James P. Hosty, Jr., in 1961 had proposed to Oswald that he (Oswald) join pro-Castro organizations in order to furnish information to Hosty and, thus, to the FBI. Page 219.

INVESTIGATION: In 1961 Oswald was still in the Soviet Union, according to the investigation by this Bureau. Furthermore, Special Agent Hosty has denied by affidavit ever talking to Oswald or approaching him to become an informant of this Bureau.

29. CLAIM: Why is the possibility of a plot or conspiracy discounted in Dallas and Washington? Page 212.

INVESTIGATION: There has been no factual information developed by this Bureau to support a theory that the assassination of President Kennedy was planned and executed by a conspiracy.

30. CLAIM: Marguerite Oswald has said that her son, Lee, was a member of the "Aviation Cadet Corps" and was a student pilot. Page 213.

INVESTIGATION: Marguerite Oswald in the weekly French newspaper, "[illegible] Candide," issue of April 2-9, 196[illegible], stated that her son had been in the "Aviation Cadet Corps," which she identified as the student pilot corps of the United States Air Force. (...) investigation has shown that Oswald was enrolled in the Civil Air Patrol in New Orleans in July, 1955, and not in the "Aviation Cadet Corps," as alleged. Apparently Oswald remained in the Civil Air Patrol for only a few months.

"THE RED ROOTS OF DALLAS"

81. CLAIM: Marguerite Oswald has stated that she had learned that Dallas Police Officer Tippit had been seen in Jack Ruby's nightclub several days before the assassination. Page 214.

INVESTIGATION: Marguerite Oswald in the weekly French newspaper, "Le Nouveau Candide," issue of April 8-15, 1964, stated that she had learned Tippit and Ruby had been seen together at the Carousel before the crime. The inquiry of this Bureau has failed to reveal any association of Tippit and Ruby or to disclose any indication of Tippit's presence in Ruby's club.

REQUEST OF THE COMMISSION

SA Lyndal L. Shaneyfelt while at the President's Commission today was furnished by Mr. Norman Redlich a copy of a letter to the Chief Justice from Mel Stuart, Executive Vice President of the Wolper Productions, Inc., and a 16 mm motion picture film that had been furnished to the Commission with the letter. Mr. Redlich advised that he had dictated a letter requesting Laboratory examination of the film.

The film is to be examined for anything of value since it purports to depict a portion of the actual assassination made by some amateur photographer. The film will be examined and at such time as the letter of request is received from the Commission and the examination completed, they will be furnished the results.

Washington, D.C.

Sir:

At present I am in the process of producing a documentary film similar in scope to our production, THE MAKING OF THE PRESIDENT-1960. It deals with the tragic assassination of President Kennedy, and the events that followed. It is being done in conjunction with United Press International, and is called FOUR DAYS IN NOVEMBER.

During the course of my research, I have probably looked at more film than any individual on the events of those days. Recently, I came across a badly exposed shot, taken by an amateur, of the Kennedy motorcade as it passed the Book Depository. In case you have not already examined this piece of film, I am enclosing it.

I am anxiously awaiting the Commission's Report in the hope that it will clear up certain questions I have in regard to our final script.

In this regard, as an American citizen, I am disturbed by what I consider the unjustified and untrue statements that are being bandied around in the European press as regards the basic facts of the case. If I may offer a suggestion, I think it would be highly profitable in regard to a true understanding of this tragic event, if as many still pictures concerning the assassination could be released, which would validate the accuracy of the report.

For example, there have been rumors in the foreign press that someone could have shot the President from the railroad bridge that is on top of the underpass leading to Stemmons Freeway.

I am enclosing a still blow-up from a 16mm film which shows a crowd of people who were watching the motorcade approach. Obviously, an assassin could not lift up a rifle and fire from the middle of such a crowd. A photographic still like this, I feel, could serve as visual proof of the Commission's Report.

Thank you for your patience.

Very truly yours,

We have secured from the Commission for review transcripts of testimony offered by Laboratory Special Agents before the Commission. These transcripts are being reviewed, and as completed, returned to the Commission along with indicated corrections.

On 7-1-64, SA James C. Cadigan delivered to Mr. Howard P. Willens of the President's Commission a transcript of his testimony concerning the various handwriting, hand printing and altered document findings in this case.

SA Cadigan offered to go over the minor corrections made by us in the transcript. Mr. Willens said that would not be necessary as he was going to send the transcript to Mr. Eisenberg in New York and if there were any questions the Commission would contact us. A copy of the corrected testimony for record purposes, has been placed in Bureau files.

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY; 11/22/63; DALLAS, TEXAS

On 7/2/64, Mr. J. Lee Rankin, General Counsel of the President's Commission, requested SA's Lyndal Shaneyfelt and Robert A. Frazier be present at a Commission hearing beginning at 2:00 p.m., 7/2/64. He stated that Mr. Mark Lane, who at one time conducted investigations concerning the shooting of Lee Harvey Oswald at the request of his mother, Mrs. Marguerite Oswald, was appearing to testify. Mr. Rankin desired that SA's Shaneyfelt and Frazier be available to answer any questions which might arise concerning the assassination rifle and photographs of it which had appeared in news media.

During the hearing at which Chief Justice Earl Warren and Representative Gerald R. Ford (Rep. - Mich.) were present, the assassination rifle was shown to Mr. Lane; however, no questions concerning the rifle or photographs of it arose and it was not necessary for either Mr. Frazier or Mr. Shaneyfelt to testify.

Mr. Lane's testimony consisted of his refusal to answer any questions concerning the investigation which he had conducted. In his refusal he claimed either a client-attorney relationship or claimed it would violate his word of honor promise to a confidential source of information.

Dear Mr. Rankin:

With reference to your letter of May 26, 1964, requesting telephone toll charge information on calls made and received by Breck Wall and Joe Peterson, Adolphus Hotel, Dallas, Texas, records of the Adolphus Hotel disclose that on November 29, 1963, a long distance telephone call was made by a person named Wall to Telephone Number 263-3700, Calgary, Alberta, Canada. The name of the person called was shown as Henry Atchison.

Enclosed herewith are two copies of a memorandum dated June 25, 1964, setting forth investigation relating to Telephone Number 263-3700, Calgary, Alberta, Canada. This concludes the investigation requested in your letter of May 26, 1964.

Mr. J. Edgar Hoover
Director, Federal Bureau

Dear Mr. Hoover:

This is in reference to your memorandum dated May 18, 1964, and your accompanying letter of May 28, 1964 concerning an allegation that Lee Harvey Oswald had a scope mounted at the Irving Sports Shop, 221 East Irving Boulevard, Irving, Texas, in early November 1963. Also contained in this memorandum are certain facts concerning Mrs. Edith Whitworth who claims to have directed the Oswald family to the Irving Gun Shop in early November.

As a result of conversations between Inspector James Malley of your Bureau and Mr. Norman Redlich of the Commission staff it appears that the Bureau first learned of Mrs. Whitworth's possible knowledge of this event through Miss Jean Campbell who is apparently an American correspondent for the London Evening Standard. We have been advised that Miss Campbell's information concerning Mrs. Whitworth led to the interview of December 14, 1963 with Mrs. Whitworth reported on page 65 of Agent Gemberling's report of December 23, 1963.

We request your Bureau to interview Miss Campbell to ascertain from her the details of her contacts with Mrs. Whitworth including full particulars about the alleged visit of the Oswald family to Mrs. Whitworth's store. Miss Campbell should also be asked whether Mrs. Whitworth mentioned the fact that there were other people in the store when the Oswalds were there. In this respect, we call your attention to your memorandum of May 18, 1964 on pages 10-12 which reports the details of an interview with Mrs. Gertrude Hunter who also claims to have seen the Oswald family in Mrs. Whitworth's store.

Enclosed for Dallas and New York is a copy of a letter from the President's Commission dated June 30, 1964, which is self-explanatory. For the additional assistance of New York, also enclosed is one copy of the memorandum referred to in the Commission's letter dated May 18, 1964, Dallas, Texas, and captioned "Lee Harvey Oswald."

To assist New York, Miss Jean Campbell, a correspondent for the "London Evening Standard" who during December of 1963 maintained offices in the Carnegie Hall, New York City, appeared at the Bureau.

Miss Campbell related that she is English and covered the activities regarding the assassination in Dallas for eight days previous to December 6, 1963. Miss Campbell stated she interviewed Mrs. Edith Whitworth, who at that time, had a used furniture store on East Irving Boulevard in Irving, Texas. According to Miss Campbell, Mrs. Whitworth informed her that Oswald and his wife Marina were in the furniture store allegedly to have a gun repaired. According to Miss Campbell, the reason why Oswald allegedly appeared at this furniture store was a sign was over the door which said gun shop. Miss Campbell also stated Whitworth told her Oswalds looked at some furniture as he was intending to move soon and he was particularly interested in a bedroom suit. Miss Campbell stated Whitworth informed her that allegedly Oswald and his wife got into a 1958 2-tone Ford, blue and white and then turned in the middle of the street, at

which time another lady, Mrs. Hunter, who was also in the store and a friend of Mrs. Whitworth, ran outside and allegedly told Oswald it was a one-way street.

Miss Campbell related this particular situation became confused because later she interviewed Mrs. Paine who "vowed up and down that Marina Oswald never went any place either in a car or walking." She also made inquiry of Mrs. Paine concerning the car and wanted to know if Oswald had a car and Mrs. Paine said "of course he doesn't. He doesn't know how to drive."

New York is instructed to locate Miss Campbell and interview her for complete and thorough details regarding her interview with Mrs. Whitworth as set out in the Commission's letter. If it is established Miss Campbell is now located in another area within the United States, leads should be set out by teletype with sufficient background to resolve this matter completely. If it is determined Miss Campbell has returned to England, prepare an immediate letter with sufficient background to be furnished to the appropriate legat where she may be located. If Miss Campbell is located and interviewed in New York, the results of her interview are to be included in a letterhead memorandum with the caption as listed in Dallas memorandum of May 18, 1964. Carefully prepare this communication to insure accuracy to preclude revisions and corrections at the Bureau. Inserts will not be needed at Dallas for report as the dissemination will be handled at the Bureau. However, direct a copy of the results of your investigation to Dallas for their information. This phase of the investigation must be handled on an expedite basis due to the indication of an early conclusion of the investigation concerning the assassination by the President's Commission.

Dallas is familiar with the details concerning this particular phase of the investigation and should handle this matter expeditiously.

NOTE: This matter relates to the repair tag located at the Irving Sports Shop, Irving, Texas, bearing the name "Oswald" and Dial D. Ryder, an employee, who has been interviewed on several occasions by the Bureau and the President's Commission. Investigation has indicated that it now appears Ryder fabricated the repair tag; however, the only fact which lends credence to his story is the comments made by Mrs. Edith Whitworth that the

Oswalds allegedly appeared in her used furniture store and were directed to the gun repair store. In this respect, Marina Oswald has been previously interviewed and she has denied she was ever in this store. In order to attempt to resolve this situation, it appears the Commission is attempting to locate other individuals who were in the used furniture store and were possibly mistaken to be the Oswalds by Mrs. Whitworth and Mrs. Hunter. Regarding Miss Campbell, see memorandum C. D. DeLoach to Mr. Mohr dated December 6, 1963.

Dear Mr. Rankin:

On June 22, 1964 Mr. Harold L. Newport, 319 Kellogg Avenue, Janesville, Wisconsin, turned over to Special Agents of our Milwaukee Office a document he prepared dated June 22, 1964 entitled "Why President Kennedy Was Assassinated." Two copies of this document are enclosed for your information.

A copy of the document prepared by Mr. Newport has been furnished to the United States Secret Service, Washington, D. C.

In view of the nebulous nature of the information contained in the document no further action is being taken by this Bureau unless advised to the contrary by you.

Dallas is also being furnished a copy of Milwaukee's LHM dated 6/25/64 and a copy of the letter prepared by Newport.

No information identifiable with Newport could be located in Bureau files. No further action need be taken in this matter.

NOTE:

It would appear Newport is a mental case. In the document prepared by him he relates a rambling, incoherent story about being a "hero" in World War II, being captured and hypnotized by the Germans so he could be used in an experiment relating to Einstein's theory of relativity. Newport then alleges an unidentified German officer was responsible for the assassination. A copy of the document was furnished by liaison to Secret Service on 6/27/64, inasmuch as Newport refers to President Johnson and states he would like people to forget the "things" he said about President Johnson.

This is being furnished to the Commission separately as it relates to the assassination and appears to be the most expeditious and logical manner to handle this matter. No further action appears warranted.

Dear Mr. Hoover:

Mrs. Eva Grant has informed the Commission that a delivery boy for Gibson's Record Store in Dallas saw Jack Ruby crying on Friday afternoon, November 22, 1963. The manager of Gibson Records is apparently Mr. O. I. Longfellow.

Please interview the delivery boy concerning the above episode, any other contacts he had with Jack Ruby, his knowledge of the activities of Andrew Armstrong, Larry Crafard, George Senator, and Eva Grant on November 22-24, and the names of any other persons whom he knows saw Ruby, Crafard or Senator from November 22 to November 24. In connection with the episode of November 22, 1963, please obtain any sales receipts or other confirming documents of the visit, attempt to determine precisely the time and length of the encounter with Ruby, and ascertain whether or not Ruby mentioned the effect of the assassination on his business, the Bernard Weissman advertisement, Oswald, Officer Tippit, or a fear that the Jewish people might be blamed for the assassination.

The Commission would also appreciate your undertaking further investigation concerning how Ruby came into possession of a Wall Street Journal addressed to J. E. Bradshaw, Vice President of the Southwestern Drug Company. An examination of xerox copies of Jack Ruby's papers recently provided by your Bureau reveals that Ruby's car contained Southwestern Drug Corporation Invoice No. 8768 to the Banker Drug.

NOTE: Eva Grant informed the Commission that a delivery boy for Gibson's Record Company in Dallas saw Ruby crying on the afternoon of 11/22/63, and requested we obtain full details re the incident. We previously conducted investigation as to how a "Wall Street Journal" addressed to J. E. Bradshaw, Vice President of Southwestern Drug Company came into Ruby's possession. Bradshaw was interviewed along with persons whom he would likely pass his Journal on to. None of these persons knew Ruby or could speculate how he obtained possession. The Commission has noted that among Ruby's papers is an invoice from Southwestern Drug Company to Banker Drug and requested that we conduct investigation to determine if this association possibly had something to do with Ruby's having possession of Bradshaw's "Wall Street Journal".

Dear Mr. Rankin:

For your information the July 1, 1964, issue of the "Dallas Morning News" carries a front-page article captioned "Mrs. Cabell Saw Rifle of Assassin." Mrs. Cabell is the wife of former Dallas Mayor Earle Cabell who is the Democratic nominee for U. S. Congress from the Fifth Congressional District of Texas.

According to the article Mrs. Cabell was riding in the fourth car behind the Presidential limousine and after the first shot was fired she noticed a rifle in a window of the Texas School Book Depository Building but did not see the gunman.

The article states Mrs. Cabell has not been questioned by the President's Commission or by any of its attorneys. According to the article the President's Commission was made aware of this information when Mrs. Cabell accompanied her husband to a reception at the Chaparral Club in Dallas where Mr. Allen Dulles, Senator John Sherman Cooper and Mr. John J. McCloy were the guests of honor.

The article indicates Mrs. Cabell's story is also reported in the July 6, 1964, issue of "U. S. News and World Report."

No further action will be taken in this matter unless advised to the contrary by you.

Mr. J. Edgar Hoover
Director, Federal Bureau of Investigation
Department of Justice
Washington, D.C. 20535

Dear Mr. Hoover:

Among those interviewed by the Dallas police in connection with the assassination of President Kennedy was Joe R. Molina, at that time an employee of the Texas School Book Depository. Molina's house was searched early on the morning of November 23 by Dallas policemen and he was told to report at police headquarters in midmorning. He spent some five or six hours at the police station and before leaving signed a statement concerning his affiliation with an organization called the American GI Forum. While Molina was in the police station, Dallas police officials told the press that he was being interrogated in connection with the assassination, that he had a subversive background, and that the Dallas police had material on him in their subversive file. Other allegations were also made against him. Molina was not formally arrested or charged. According to a radio broadcast over Station KRLD on November 23, 1963, Molina may have been identified by the Justice Department as a possible subversive. The same radio news report also stated that "Molina has a long record of being connected with suspicious organizations."

Will you please investigate this incident and inform the Commission of the following:

1. Did the Justice Department or any of its agencies have a file on Molina and give the Dallas police department any information concerning any subversive activities by him?

2. Did the Dallas police department have a file on Molina and any alleged subversive activities by him?

3. What are the facts of the police search of his home and his "voluntary" detention at the police station during much of Saturday?

4. What is the nature of the American GI Forum? Is it considered a subversive organization?

5. Was there any connection between Molina's loss of his job at the Texas School Book Depository and the publicity concerning him that appeared on television and radio and in the newspapers?

6. Did Molina have difficulty in finding another job because of this adverse publicity?

7. Did the Dallas police ever make any effort to correct the allegations made against Molina and the suspicions of Molina voiced in the press?

Molina has been the subject of two previous FBI interviews--DL 89-43, Dallas, Texas, November 23, 1963, and DL 89-43, Dallas, Texas, November 30, 1963.

Your continuing cooperation with the Commission is greatly appreciated.

Dear Mr. Hoover:

As you know, Mr. George William Fehrenbach has persisted in his claim that Jack Ruby attended Communist Party meetings in Muncie, Indiana, between 1942 and 1947, and some very tangential confirmation exists. Mr. Morton Pazol, an admitted former Communist, states that certain Communist meetings took place in Muncie during the period alleged by Fehrenbach, but denies that they took place at the location given by Fehrenbach or that Ruby attended. Irwin Berke, a relative of persons associated with the group described by Fehrenbach, admits knowing Ruby but denies that either he or Ruby were connected with Communist Party meetings. Fehrenbach states that Berke was not known to him.

We also note that Sam Jaffe is listed in the index of the House Un-American Activities Committee although we do not know if he is identical to the individual mentioned by Fehrenbach. Jack Ruby's notebook makes reference to a Milt Joffe. (Clements Reports, November 31, 1963, p. 738; January 8, 1964, p. 257).

Accordingly, the Commission would appreciate your undertaking the following:

1. Please determine whether or not the Sam Jaffe mentioned in the files of the House Un-American Activities Committee is identical to the Sam Jaffe mentioned by Fehrenbach. If so please provide all particulars available to the House Committee including the names of informants against Jaffe.

2. Please interview the Jack Howard mentioned by Mr. Irwin Berke as being friendly with Jack Ruby (Clements Report, December 6, 1963, p. 52), and obtain full details of Howard's knowledge of Ruby

including the allegations of Fehrenbach, Ruby's arrest for unlawfully selling copy-righted songs, Ruby's activities as union organizer, Ruby's participation in attacks on Bundist meetings, Ruby's sensitivity to anti-semitism, and the basis for the information Howard may provide.

3. Please re-interview Mr. Fehrenbach to obtain the names of other employees of Sam Jaffe or other persons outside the alleged cell-group who may be able to confirm or refute the existence of Communist meetings in Muncie involving the persons described by Fehrenbach.

4. Please determine from the files of local and state authorities in Indiana including any committees investigating "Un-American activities" whether or not any list containing the names of Jack Rubenstein or other persons mentioned by Mr. Fehrenbach was turned over by him to local authorities. We realize that a partial investigation in that regard has been conducted.

5. Please conduct such further investigation as may be appropriate to confirm or refute the allegations of Fehrenbach.

NOTE: Fehrenbach alleged that between 1942 and 1947 a Jack Rubenstein attended 3 Communist Party meetings in Muncie, Indiana, on the third floor of a building owned by Sam Jaffe, his employer. Sam Jaffe died in 1959. We have conducted extensive investigation concerning this allegation and interviewed all persons named by Fehrenbach as having possible knowledge of the meetings. All denied that any such meetings ever took place in the third floor meeting hall. Several admitted attending Communist Party meetings at various homes in Muncie and being acquainted with all persons present. They deny that Ruby or anyone resembling him ever attended. All of Jaffe's immediately relatives interviewed who might have knowledge and they all denied ever seeing Ruby in Muncie, Indiana.

Dear Mr. Hoover:

The Commission desires to learn the seriousness of activities by Hyman Rubenstein and Eva Rubenstein, now Eva Grant, which caused court action to be taken against them when they were juveniles. Reference is made to pages 74-78 of the December 14, 1963 Clements Report, involving an interview with Edward J. Nerad, Chief Administrative Officer, Family Court of Cook County, and Michael F. Heneghan, Chief Probation Officer, Family Court of Cook County. Page 76 of the Report indicated the following notation on Eva's Master File Card: "September 30, 1922; Blumenthal." This reference is omitted in the discussion of microfilm records on Page 78. The Commission desires clarification as to whether this notation refers to an incorrigibility proceeding, which seems likely since Page 76 indicated that Eva was released from probation on April 23, 1926.

The Commission would also appreciate your conducting appropriate investigation to determine the general nature of incorrigibility proceedings in the Cook County Juvenile Court, the Family Court's predecessor, in 1916, when Hyman Rubenstein was declared incorrigible, and in 1922, when Eva Rubenstein may have been declared incorrigible. The Commission recognizes the difficulty of learning the precise events that have led to these particular proceedings.

However, it may be possible to ascertain more generally the type of activity that might have resulted in these proceedings, especially the seriousness of the conduct involved--e.g., commission of a felony, active membership or participation in street gangs, mere trespass, etc.--and whether these proceedings were the normal concomitant of a dependency hearing involving broken or unstable homes.

The Commission would also appreciate information about the effect of a declaration of incorrigibility and placement on probation. Were subjects merely required to report to an official, and if so, approximately how often? Did officials or guardians regularly visit the subject's home? What would happen to an "incorrigible" who repeated his misbehavior?

CIVIL RIGHTS

Enclosed herewith are two copies of a self-explanatory letter from the President's Commission dated July 3, 1964, requesting certain investigation to determine the seriousness of activities by Hyman and Eva Rubenstein which caused Juvenile Court action to be taken against them in 1916 and 1922.

Chi. go conduct the requested investigation promptly upon receipt of this communication and submit results by LHM suitable for dissemination to the President's Commission. Furnish appropriate copies to the office of origin Dallas.

NOTE: At the request of the Commission we previously checked public records relating to all members of Ruby's family and their e[illegible] years in Chicago. These records reflect that Hyman and Eva Rubenstein were charged by Juvenile authorities in 1916 and 1922 as being incorrigibles. Commission desires that we ascertain the seriousness of such charges.

With the FM-11 Forms concerning those individuals who entered and departed on indicated dates at Nuevo Laredo and who were traveling on FM-5 and FM-3 tourist cards, this completes our review of all available Mexican immigration records of possible pertinence to this investigation. In referenced letter we advised the Commission that while we were attempting to obtain copies of the enclosed FM-11 records, we did not intend to extend our inquiry to include efforts to locate and interview all individuals who entered Mexico and departed therefrom at Nuevo Laredo on the indicated dates. The reason for this is that we have now established how Oswald traveled in entering and leaving Mexico.

Memorandum of 6-8-64, Rosen to Belmont, recommended that Mr. J. Lee Rankin be advised that in view of the scheduled sanity hearing for Jack Ruby, the appeal of the death sentence, and the difficulties involved in obtaining a satisfactory polygraph examination where a man is under great emotional strain, the Bureau did not desire to afford Ruby a polygraph examination.

This matter was discussed with Mr. Rankin on June 10, 1964, at which time Mr. Rankin indicated he would like for the Bureau to reconsider this matter. He advised that during the interview with Ruby in Dallas by the Chief Justice on June 7, 1964, Ruby specifically requested that he be afforded a polygraph examination and the Chief Justice told Ruby that this would be done. At the time this promise to afford Ruby a polygraph examination was made, Mr. James Bowie of the Dallas District Attorney's Office was present, as was Attorney Thornhill who represents Jack Ruby. Neither Bowie or Thornhill made any comment of any kind indicating objection to affording Ruby such an interview.

Mr. Rankin stated he had discussed in detail with the Chief Justice the manner in which the polygraph examination was to be given and the Chief Justice did not desire a commercial firm to be used inasmuch as he felt such a firm would utilize such a situation to their advantage and publicize the fact that the firm had been selected by the President's Commission for this work. He stated military polygraph examiners had been considered as had local polygraph operators, and the Chief Justice did not feel they would be satisfactory in view of recent developments concerning polygraph examinations.

Memorandum to Mr. Belmont
RE: JACK L. RUBY, AKA;

Mr. Rankin stated that the Chief Justice had commented concerning his recent discussion with the Director relative to polygraph examinations and was very much impressed with the Director's views and the fact that the Bureau did not rely on polygraphs except for investigative leads. For this reason, the Chief Justice and Mr. Rankin would appreciate the Bureau handling this polygraph examination.

Mr. Rankin stated the polygraph interview would be confined to the information set forth in the deposition which had been taken from Ruby on 6-7-64, and if the Bureau would handle this polygraph interview, full information would be made available so that the necessary preparation for the polygraph interview could be made.

Mr. Rankin stated that it was the view of the Chief Justice that a representative from the District Attorney's Office in Dallas, as well as the defense attorney, should be present during the polygraph interview of Ruby.

RECOMMENDATION:

It appears that the sole reason for this request for a polygraph examination stems from the fact that Chief Justice Warren committed himself on 6-7-64, to Ruby that he would be afforded such an interview. This does not change the picture insofar as the Bureau is concerned, i.e., that it is still an undesirable interview for the Bureau to handle.

It is recommended that the attached letter be sent to Mr. Rankin setting forth the reasons why it is undesirable for the Bureau to handle this interview.

Dear Mr. Rankin:

With reference to your conversation with Mr. J. R. Malley of this Bureau on June 10, 1964, concerning the desire to afford Jack Ruby, who is now confined in Dallas County Jail, Dallas, Texas, a polygraph examination, I wish to bring certain observations to your attention.

You will recall, insofar as the polygraph is concerned, the FBI has established certain guidelines. The polygraph, often referred to as a "lie detector," is not in fact such a device. The instrument is designed to record under proper stimuli emotional responses which may indicate and accompany deception. It must be clearly understood that emotional disturbances observed during a polygraph test can and may also be prompted by anger, fear, violent dislike, et cetera. The polygraph operator must be extremely skilled, conservative and objective. This Bureau feels that the polygraph technique is not sufficiently precise to permit absolute judgments of guilt or nonguilt without qualifications.

The polygraph is used as an investigative aid or technique by the FBI in carefully selected cases. The results must be considered within the context of a complete investigation. The polygraph can be helpful to provide investigative direction but it must not be relied on solely or used as a substitute for logical investigation.

When and if the polygraph is used primarily as an investigative technique by the FBI, we would not consider the use of the polygraph as coming within our guidelines, particularly under circumstances wherein

the case involved has been adjudicated by a court of law. Specific reference, of course, is made to the Jack Ruby case. The trial of Jack Ruby was publicly aired, it was under the close scrutiny of the eyes of the world, it is reasonable to expect that numerous appellate procedures will be instituted for some time to come, and it is also reasonable to expect that this matter at some time will be judicially reviewed or at least submitted for such review to the Supreme Court of the United States.

Bearing in mind the above factors and the guidelines under which the FBI uses the polygraph, it would seem highly improper for the FBI to give favorable consideration to its use.

I wanted to bring the above facts to your attention in view of your request that the FBI make available its polygraph examiners in connection with the polygraph examination which you desire be afforded Jack Ruby.

Sincerely yours,

Dear Mr. Rankin:

Reference is made to a verbal request by Mr. Norman Redlich of your staff to Special Agent Lyndal L. Shaneyfelt on July 7, 1964, for a comparison of a photograph of the alley in back of General Walker's house, Commission Exhibit 2, with one of Oswald's cameras, Commission Exhibit 750. Mr. Redlich requested that the FBI Laboratory make this comparison to determine whether or not the photograph was taken with Oswald's camera.

The above examination was made and it was determined that the photograph of the alley in back of Walker's home, Commission Exhibit 2, was taken with the Imperial Reflex camera, Commission Exhibit 750.

The Red Cross secured food and transportation for this individual. The individual in question was identified by a bus terminal employee in Wytheville as not being Oswald. This incident occurred on 11/13/63 on which date we have established that Oswald was in Texas. Cincinnati being requested to run out allegation from Evans and to submit results in report form for the President's Commission.

Dear Mr. Rankin:

As previously reported to the Commission, certain small lead metal fragments uncovered in connection with this matter were analyzed spectrographically to determine whether they could be associated with one or more of the lead bullet fragments and no significant differences were found within the sensitivity of the spectrographic method.

Because of the higher sensitivity of the neutron activation analysis, certain of the small lead fragments were then subjected to neutron activation analyses and comparisons with the larger bullet fragments. The items analyzed included the following: C1 - bullet from stretcher; C2 - fragment from front seat cushion; C4 and C5 - metal fragments from President Kennedy's head; C9 - metal fragment from the arm of Governor Connally; C13 - metal fragments from rear floor board carpet of the car.

While minor variations in composition were found by this method, these were not considered sufficient to provide positively differentiating among the larger bullet fragments and thus positively determining from which of the larger bullet fragments any given small lead fragment may have come.

Sincerely yours,

J. Edgar Hoover

Chief Justice Warren of the President's Commission interviewed Ruby in Dallas on 6/7/64. Ruby specifically requested at that time that he be afforded a polygraph examination and the Chief Justice told Ruby this would be done. Mr. James Bowie of the Dallas District Attorney's office and Ruby's Attorney Tonahill were present and neither indicated any objection to a polygraph examination of Ruby.

The Commission has subsequently requested the FBI handle this polygraph interview and specifically excluded SA C. Ray Hall, polygraph examiner of your office who has already interviewed Ruby in the past in connection with Ruby's killing of Oswald. Accordingly, polygraph examiners of the FBI Laboratory will conduct the examination. Mr. Arlen Specter, staff member of the President's Commission, who will represent the Commission during this interview advised 7/8/64, that he has set up a tentative date of 7/16/64, 1:30 p.m., for the interview with Ruby in Dallas at the County Jail.

Dallas requested to immediately advise Ruby's Attorney Tonahill and a representative of the District Attorney's office, preferably James Bowie, of the above tentative date and invite their presence at the polygraph interview in accordance with instructions of the Commission if they so desire.

Dallas should make appropriate arrangements at the County Jail for a suitable room equipped with polygraph chair. Laboratory examiners will provide their own instrument. Dallas should attempt to obtain any data with regard to status of Ruby's current health, physical condition and if he is under any medication, as well as any other information which would help insure the examination is afforded under proper circumstances. Dallas should provide own polygraph chair if none available County Jail.

Laboratory examiners desire to consult with SA C. Ray Hall of your office on Wednesday, 7/15/64, if Hall is available. In addition, an Agent of your office, other than Hall, should be available to be present at the actual polygraph examination tentatively scheduled for 7/16/64.

Since Hall is familiar with polygraph technique and procedures, he should participate in making the above arrangements; however, he is not to take part in any personal contact with Ruby.

Advise.

NOTE: Memorandum from Mr. Rosen to Mr. Belmont dated 6/11/64, same re as this airtel and approved by the Director, recommended that the Dallas Office be contacted to make necessary arrangements for polygraph examination of Ruby upon receipt of letter from the Commission outlining the areas of questioning. The Commission's letter dated 6/25/64, has been received and the Laboratory is currently in the process of making arrangements to revise the questions with Mr. Arlen Specter who is agreeable to such revisions. Polygraph questions must be answerable by only "yes" or "no," and several questions received are unsuitable such as: "How did you gain access to basement of the Dallas Police Department jail?" Above memorandum also provided that Dallas ascertain necessary information as to the status of Ruby's health, medication, etc., in order that the examination can be afforded Ruby under proper circumstances.

NOTE: Eileen Kaminsky apparently wrote the Commission stating that a Mrs. Tice of Dallas talked to Jack Ruby at the Parkland Hospital on 11/22/63, at which time he said he would be willing to donate his kidney to Governor Connally. She also said that Tom Alyea of Station WFAA, Dallas, interviewed officer P.T. Dean after Dean testified at the Ruby trial and Dean told him a different story from the one he testified to. Mrs. Tice interviewed and stated she was not acquainted with Ruby but after seeing his pictures in the papers she thought she had seen him at Parkland Hospital on 11/22/63. We have conducted extensive investigation which established that Ruby could not have been at Parkland Hospital on 11/22/63 and Ruby denies having been there. Alyea interviewed and states that he did not hear Dean's testimony at the trial but questioned him concerning a statement he saw in the paper attributed to Dean at which time Dean indicated the newspaper story was not an accurate quote.

NOTE: Commission by letter 6/1/64, requested that we locate and interview the noncommissioned officers who supervised Ruby while he was in service. Through military records we identified 379 such persons who served in the same units with Ruby but did not necessarily supervise him. Sixteen of these persons were determined to have transferred with Ruby and would have been most likely to know him. The Commission was advised that we would interview these 16 and they agreed by letter 6/26/64 that it would be sufficient. Several of the 16 did know Ruby and furnished information concerning him. Previous reports of your office reveal that, at the time Jack Ruby was arrested, the back seat of his car contained copies of the Dallas Morning News and Fort Worth Star - Telegram for November 20, 1963, an advertisement for HLH Products, several undated "Life line" radio transcripts, and a Wall Street Journal of November 18, 1963 addressed to Mr. J. President's Commission

Gentlemen:

About a year before the assassination of President Kennedy I suddenly saw where President Johnson would be called upon -via so-called ESP- to lead the nation. I wrote him to that effect, and had a taxi cab driver deliver the message to his home, early one morning. It amused me to do this altho I was completely in the dark as to how it would all come about.

ESP is a phenomenon which has been "dogging" me for years and, now, the latest:-

(possible)solution to the enigma of the assassination of our late President begins with person who routed the President thru, from some point in Texas into Dallas.....

Might I observe that it becomes increasingly strange to my way of thinking that the killer should know so well in advance -days in advance- the route to be travelled; he was in the right place at the right time waiting for the "kill?"

Now if anythin any of this makes sense, you might be surprised at what you will come up with to say nothing of the course it will take. I beg to remain,

Respectfully yours,

Howard William Dr

Dear Mr. Hoover:

In his deposition, Detective W. J. Harrison stated that prior to about 11:00 a.m. Sunday, November 24, he walked from the third floor office of the Juvenile Detective Bureau in the Dallas Police Department to the police officers locker room in the sub-basement where he purchased some cigars. The Commission would appreciate your conducting such investigation as may be appropriate to determine whether or not Mr. Harrison could have made a phone call from a public telephone somewhere along the route to the basement or near the police officers locker room.

The Commission would also appreciate your interviewing Officer Goolsby of the Juvenile Bureau of the Dallas Police Department to determine whether or not he recalls making a telephone call to Detective Harrison some time on Sunday morning. Detective Harrison stated that he and Detective Miller received such a telephone call at the Deluxe Diner near the Police Department at about 9:00 a.m. Please determine from Officer Goolsby the time of the telephone call, the conversation which took place and how he learned the location of the Detective Harrison.

Please conduct such investigation as may be appropriate at the Deluxe Diner to determine what the employees of the diner remember of the activities of Harrison and Miller at that diner, including whether Harrison and Miller mentioned when or how Oswald was to be moved to other persons at the diner, and whether or not Jack Ruby or George Senator visited that diner during the week-end of November 24 or contacted officers Harrison and Miller during that period.

Also, please ask Officer Goolsby if he remembers that Captain O. A. Jones or some other police officers informed members of the Juvenile Bureau on Sunday morning about 11:00 a.m. that the armored car was on its way to the Dallas Police Department.

Dear Mr. Hoover:

The Commission would be grateful if the Federal Bureau of Investigation could assist us in preparing an exhibit for use in the Commission's report.

The Commission has received as our Document No. 1052d, blue prints of the third floor of the Dallas Police and Courts Building. From these prints we would like to have a diagram prepared which would be drawn to scale but would eliminate much of the details included in the prints. We anticipate using the diagram in the body of the report and thus wish it to be easily comprehensible. It would probably be advisable for the person assigned to this task to contact either Dr. Goldberg, Mr. Griffin or Mr. Pollak here at the Commission and discuss with them the features of the floor plan which should be emphasized.

I am transmitting a copy of Commission Document No. 1052d with this letter.

REC-1

TRANSLATION FROM SPANISH

Article entitled "UNITED STATES; El Increible 'Informe Warren'" (UNITED STATES; The Incredible 'Warren Report'), appearing on page 35 of "Politica," June 15, 1964 issue, published in Mexico City.

The Incredible "Warren Report"

Days after November 22, 1963 when President John F. Kennedy was assassinated in Dallas (Texas), the new President ordered the Supreme Court to conduct an exhaustive investigation concerning the crime. The order was motivated by the many contradictions and discrepancies in the various official statements concerning the death of Kennedy and of the murder of his alleged killer, Lee Harvey Oswald.

As will be remembered, Oswald was arrested the same November 22 and kept incommunicado in the jails of the Texas police. Two days later, at the time when he, handcuffed and surrounded by police officers, was being brought before a judge, Oswald was killed by a single shot by Jack Rubinstein, a Jew who had changed his name to Ruby.

The murder of Oswald served as a pretext for putting an end to his trial for the death of President Kennedy - with the one guilty for this death dead, there was no need for justice to be done. This trial principle caused so much amazement and uneasiness in American public opinion, that President Johnson ordered, as stated, a thorough, but extra-judicial, investigation of the affair. The person directing the inquiries and investigation for six months has been Earl Warren, Chief Justice of the Supreme Court.

In the meantime Jack Ruby was tried and condemned to death in the electric chair for having murdered Oswald. During the trial of Ruby it was quite obvious that the judge, the prosecutor and even the defense lawyers had definite orders, from whom it is not known - many indicated President Lyndon B. Johnson as the person who gave these orders - not to mention in any way the death of Kennedy throughout the whole Ruby affair, in spite of the fact that the close connection between the two murders was evident.

File 64-47255

During the preparation of his report, Justice Earl Warren stated several times that there were parts of it that "could not be made public for at least a generation." Notwithstanding this, Warren made known this report, an extract of which was published in the American review U. S. News and World Report.

The report starts out stating that all investigative methods have been exhausted and that it is completely clear that the person who killed President Kennedy was Lee Harvey Oswald without any accomplices or assistants.

The report establishes as irrefutable facts the following:

Harvey acted for himself alone and not as a part of a conspiracy; Harvey was an individual with "an unstable mind."

There is no evidence of criminal collusion either from the left or from the right. The hypothesis that the assassination of Kennedy was due to "a conspiracy", an idea that was spread throughout the entire world, lacks even the slightest foundation; Jack Ruby, Oswald's murderer, operated on his own. There were no links of friendship or acquaintanceship between Oswald and Ruby. Therefore there was no conspiracy nor did there exist any accomplices of the former.

Oswald did not receive aid nor was he encouraged by the USSR, Cuba or the Chinese Peoples Republic; nor either by integrationists or segregationists, nor by groups "to the left" or "to the right".

The Federal Bureau of Investigation (FBI) which J. Edgar Hoover has been directing for 40 years, and the Central Intelligence Agency (CIA) which for some months has been headed by John McCone, participated in the investigation. The two powerful secret organizations of the Yankee government worked "separately" and both arrived at the same conclusions, that Oswald, mentally unbalanced, killed President Kennedy of his own will, without anyone influencing him to commit the crime and much less that this might have been a part of a national of international conspiracy.

FDR ELL
ATION
AAPC

Moreover the report denies categorically "these falsities": that Oswald was working on behalf of a foreign communist country; that he killed Kennedy, paid by the Texas oil men or by the rightists or leftists organizations of the U. S.; that he had connection with Ruby and with the policeman J. D. Tippit (killed by gunshots by Oswald at the time the latter was hidden in a movie, seconds before his capture); that there were two persons who fired on Kennedy, since the reconstruction of the crime and the autopsy showed that Oswald fired three times - the first time he wounded Kennedy and the Governor of Texas John Connally, the second shot was not on target and the third caused the death of Kennedy; that Ruby killed Oswald to prevent him from stating and revealing details of the crime and the conspiracy; that the Texas police were compelled by high authorities not to elucidate on the facts.

After denying all those "falsities and untenable hypotheses", the report states that the rumors circulated abroad concerning a conspiracy lack any basis at all. Oswald - says the report - killed Kennedy for the same reason that he attempted to kill General Walker; because he was mentally unbalanced.

Incredulity. The report made known, in extract, the North American press did not hide its scepticism concerning the official "veracity". The New York Telegram and Sun commissioned its editor Kenneth L. Dixon to conduct a public investigation. Dixon traveled a distance of over three thousand miles, visited several cities and interviewed hundreds of persons. On his return to New York he published in the aforementioned newspaper - May 28 issue - the result of his investigation. "The national reaction to the assassination of President Kennedy," writes Dixon, "is one of scepticism." The great majority of persons interviewed "indicated a total lack of faith in the official reports concerning the case".

"When I set about to consolidate my notes", he adds, "I was not able to find a single person who could not feel uneasy over whether the actual truth concerning the case had been published. There were only some persons who believed that there could have been some reasons of national security to conceal part of the story, but they were concerned over this."

MAILED
NOTIFICATION

Concerning the motive of the assassination, some believe that it was because of international questions and others because of national political reasons. "With concern for the next presidential elections," adds the newspaper man, "there are several reports and these are done with such conviction that those who are reporting are obviously convinced that what they are stating is the truth. They are sure that the entire question is one of a political nature and they differ only one from the other as regards groups or parties."

Dixon concludes thus: "Actually everything that they have told me has one single thing in common - they all definitely distrust the official reports and I do not recall any time, either in peace or in war, where there has been such a general action noted".

Abroad, and especially in Western Europe, the Warren Report has been received with general incredulity. The majority of the newspapers cull the essential parts of the book of Thomas G. Buchanan, Who Killed Kennedy, published a short time ago in London (no United States Publishing House desired to publish it for "fear of reprisals", just like they didn't want to publish the articles which Buchanan wrote concerning the same theme and which are found in the European newspapers).

Buchanan ("Politica" No. 94) showed that there were two who shot at Kennedy - one from the text-book warehouse in Dallas and the other from the bridge in front of the warehouse. He also showed that there were special connections between Oswald, Ruby and Tippit, and that the crime was conscientiously planned in the form of a conspiracy.

In general, the European press believes that Oswald was the assassin of Kennedy; but what it does not accept is that he was operating on his own, without being an instrument of a powerful group associated with politics in the U. S.

The only newspapers that accept the "veracity" of the Warren report are those of West Germany, which, with suspicious unanimity, attribute the death of Kennedy and later that of Oswald to "the atmosphere of hate and violence" that is existing in the U. S. as a result of the racial struggles of the whites, on one side and the negroes and half-breeds on the other.

NY - DC

What the "Enquirer" says. In an article published by the Enquirer of New York, by-line of its Washington correspondent, John Henshaw, it is revealed that the Department of Justice, at the head of which is Robert Kennedy, brother of the assassinated President, avoided capturing Lee Harvey Oswald and Jack Ruby before the assassination of Kennedy.

In a conclusive manner, Henshaw says that he has proof that the aforementioned Department avoided the detention of Oswald and Ruby; that the Dallas Police suspect that Oswald was the one who fired the shot, paid by Ruby, at General Edwin A. Walker, seven months before the death of Kennedy (Walker was at home, at night, when someone shot at him through the window, but missed); and that the Central Intelligence Agency (CIA) employed Ruby to recruit "Commandos" for attacks on Cuba.

In order to avoid such explosive information being made public, the CIA requested the Department of Justice to prevent the detention of Oswald and of Ruby, an arrest which was being brought about for the frustrated assassins attempt against General Walker, well known rightist, member of the John Birch (Fascist) Association and affiliated with the Nazi Party of the U. S. headed by George Lincoln Rockwell.

A secret document, or rather a letter signed by a high official of the Department of Justice, April 1963, arrived in the hands of the Chief of Police in Dallas, Jesse E. Cury, ordering him not to arrest Ruby or Oswald "for the attempt against General Walker."

Jesse E. Cury had proof that Oswald was the one who shot at Walker, paid by Ruby, and had arranged for the apprehension of both of them. This came to the knowledge of the CIA which immediately appealed to the Department of Justice. The Dallas police officers who had conducted the investigation on the attempt on Walker evidenced their disillusionment when Cury prevented them from arresting Oswald and Ruby.

A copy of that secret document was handed over to the Warren Committee but nothing is said about it in the report published by this committee. Why have they concealed such a compromising document ?, asks John Henshaw. The editor of the Enquirer has his question answered thusly: " Politically that document is so explosive that Earl Warren, who heads the Presidential committee and is Chief Justice of the Supreme Court, has concealed it even from one of the members of the committee - Senator Richard Russell, Democrat from Georgia."

"It is feared," adds Henshaw, "that this Senator who is leading the fight in the South against the Civil Rights Law, can use that document as a weapon against the Department of Justice and against its Chief, Robert Kennedy, Attorney General and leader of the fight in favor of Civil Rights."

"Said document," emphasizes this newspaperman, "in which it is arranged that neither Ruby nor Oswald be arrested, contradicts the report of the FBI concerning the assassination (of Kennedy) and the subsequent one of Oswald."

The Enquirer continues relating how it knew that Bill DeMar, Master of Ceremonies of the night club, "Carrousel," of Dallas, the property of Ruby, had seen Oswald there on November 21. DeMar, whose stage name is Bill Crowe stated: "I gave the FBI the information of having seen Oswald in the club. I signed this statement, but I have not learned anything more since that night."

In a cablegram of the Associated Press on March 17, the day on which Ruby was condemned to death for the murder of Oswald, it is stated:- "The District Attorney, Henry Wade said that his office had succeeded in obtaining a great decision from the jury in the trial of Ruby for the murder. The decision - that they would not request the appearance of witnesses who swore to having seen Ruby and Lee Harvey Oswald together before the assassination of President Kennedy.

"Wade told the FBI Agents and other investigators to furnish him a list of the witnesses who had insisted that they saw Ruby and Oswald together on several occasions."

From this point, the Enquirer sets forth the facts in outline, according to Buchanan and other North American newspapermen - and also foreign ones - which showed that the assassination of President Kennedy was not the exclusive work of Oswald but the result of a conspiracy in which persons of power and of a great deal of influence participated.

The strange thing about the case - and this has been noted by all the American Press - is the inactivity of Robert Kennedy, Attorney General of the United States and a person who could have definitely have thrown light on the assassination of his brother, John. What is the reason for this inactivity? The most probable - this is the general opinion - is that Robert Kennedy has taken into account the interest of the Democratic Party more than those of justice and that he has set aside his personal love in order to subject himself to the Democratic Party to which he belongs and whose leader is now Lyndon Baines Johnson, the present President.

There are those in the U. S. who believe that the distance which separates Johnson and Robert Kennedy has definitely been due to the fact that the former categorically refused to have light shed on the assassination of November 22 in Dallas, because such an act would prejudice his candidacy for the Presidency.

SECURITY MATTER - C

ReDunairtel 7/10/64 enclosing a copy of letter from the President's Commission concerning captioned individual dated 7/7/64.

Enclosed is a copy of letter from President's Commission dated 7/8/64 requesting additional inquiry concerning the Molina incident. Handle this in connection with Commission's 7/7/64 request.

The following observations and instructions are submitted in effort to assist Bureau in complying with request number four in Commission's 7/7/64 letter and to furnish you the guidance in the reporting of the facts concerning the Molina incident.

Review of Dallas concerning American G. I. Forum (AGIF) groups (see your file 100-9734) reveals that in all probability the Dallas Chapter with which Molina was formerly associated is a chapter of the AGIF of Texas, Inc., which has its headquarters at Austin, Texas. It appears that the AGIF of Texas, Inc., is a state chapter of the AGIF of the U. S. which is headquartered at Corpus Christi, Texas, and whose national chairman is Dr. Hector P. Garcia. There is no derogatory information in Dallas concerning Dr. Garcia or the National AGIF organization which appears to be an anticommunist legitimate organization. However, Dallas contain no derogatory info concerning the AGIF of Texas, Inc., organization beyond Communist Party attempts to infiltrate the Dallas Chapter in 1954 - 1955.

Report of SA James P. Hosty, Jr., dated 1/7/64 at Dallas in the Molina matter does not clearly identify the Dallas AGIF group with which Molina was associated nor does it establish the relationship of that group with the AGIF of Texas, Inc., and the AGIF of U. S. locations.

Endeavor to establish this. If not possible to do so locally, set forth leads by teletype to Houston and San Antonio.

In complying with Commission's 7/7 and 8/24 requests regarding Molina incident following reporting procedures are to be utilized. Prepare a new report under the caption of this communication utilizing indicated Bureau and Dallas file numbers. Set forth therein all pertinent material in your possession concerning Molina and all data pertinent to Commission's requests. Note that SA Hosty's 1/7/64 report regarding Molina has not been disseminated and will not be disseminated. As Bureau will handle Commission's request number four in its 7/7/64 letter, do not include in new report the second sentence in synopsis and appendix page 10 in SA Hosty's 1/7/64 reports. In this regard refer to Bureau letter dated 8/7/63 captioned "Subversive Organization Characterizations, ID - C." Last sentence of synopsis of SA Hosty's 1/7/64 report indicates Molina was "arrested" by Dallas Police Department (PD) 11/23/63. Accurately report in detail the circumstances surrounding search of subject's residence and his interrogation by Dallas PD on 11/23/63, and do not indicate he was arrested unless such was the case.

In describing the Dallas ACLU group with which Molina was associated specifically identify it and describe its relationship, if any, with the Texas and U. S. parent organization. Bring background data up to date. Set forth all material in last paragraph, page 2 and on pages 3 through 5 of SA Hosty's 1/7/64 report. Also include all data on page 6 of SA Hosty's report except information in third paragraph attributable to Dallas ACLU as of 6/2/63. If you are able to set forth the significance of the expulsion of Dr. Andrew, include information in third paragraph of page 6, otherwise delete.

Under interview of Molina set forth results of all interviews of him including current interview. Note that Molina was previously interviewed 11/22/63, 11/30/63 and 3/24/64, when on latter occasion he executed signed statement. Set forth all information from first full paragraph, page 8 and one page 9 of SA Hosty's report.

In view of above reporting instructions, place reairtel 7/10/64 in your file of this case with copy in your file 100-10461.

NOTE:

Molina, who has been described by informants as an anti-[illegible]ist, was formerly associated with a Dallas Chapter of the [illegible] organizations. We have no derogatory data concerning him.

 (NOTE CONTINUED PAGE THREE)

[illegible]RELL
[illegible]TTORNEY

NOTE CONTINUED:

His house was searched and he was questioned by the Dallas PD immediately following the assassination, as he was considered a possible suspect. The Dallas PD allegedly made statements to the press concerning their questioning of Molina, describing him as a subversive known to Dallas PD. A radio program and possibly a television show repeated these statements and Molina is now suing a city-owned Dallas radio station for $100,000. Commission has requested us to conduct investigation to ascertain the facts surrounding Molina's interrogation by the Dallas PD and its overall handling of the incident. This was sent to the field 7/10/64. An area in which the Commission is interested is the nature of the AGIF and whether it is considered a subversive organization (Item No. 4 in its 7/7/64 request which we will handle at Bureau). It is necessary to clarify the relationship between the Dallas Chapter with which Molina was associated and the state and national organization in order to present proper picture to Commission. Hence, specific instructions in outgoing.

The information in SA Hosty's 1/7/64 report is being changed in the following respects and for the following reasons: The second sentence of the synopsis and appendix page 10 is a weak characterization of the AGIF of Texas which the Bureau disapproved by 6/7/61 letter. As stated above, we plan to rewrite the characterization here when we receive specific information as to the relationship between the various organizations involved, namely the Dallas Chapter, the Texas Body and the AGIF of the U. S. which we believe to be the parent organization. The last sentence in the synopsis indicates that Molina was arrested by Dallas police on 11/23/63. This is not supported in details and on basis of information recently received it appears that Molina was invited to the PD rather than arrested. The report does not describe in detail the exact organization with which Molina was associated from 1954 through 1963. It merely states it to be a Dallas Chapter of the AGIF. Hence, it is necessary to have further specifics and to spell out exactly what the organization was and the nature of its affiliations, if any, with other governing groups. Our files show that the national body is a legitimate organization. The paragraph on page 6 which we suggest be deleted indicates that two Communist Party members in May, 1963, discussed the expulsion of Dr. William Andrew from the AGIF as an informant. It indicates that Molina was on the committee that investigated Dr. Andrew and had him expelled. This data is of no significance unless it can be established specifically why Andrew was expelled; i.e., was he suspected of being an informer for CP or for a government investigative agency. If this is known to Dallas and significance of the expulsion established, the information should be reported. If not, it is of no value.

Dear Mr. Rankin:

Reference is made to your letter dated June 25, 1964, requesting that a polygraph examination be afforded Jack L. Ruby. After conferring telephonically with Mr. Arlen Specter of your staff, a tentative date for the polygraph examination was set for July 16, 1964, at 1:30 p.m.

In accordance with your desire that Ruby's attorney, Mr. Joe H. Tonahill, and a representative from the Dallas District Attorney's office be present at the interview, Mr. Tonahill and Mrs. Eva Grant, Ruby's sister, were interviewed on July 10, 1964. Mrs. Grant has a power of attorney to act for Ruby. Mr. Tonahill and Mrs. Grant advised they had conferences and consulted with Dr. L. J. West, Psychiatric Department, University of Oklahoma, and Dr. Norman B. Weaver, psychiatrist, Dallas, Texas, who have been examining Ruby. They stated these psychiatrists have informed them it would be foolhardy at this time to give Ruby a polygraph examination due to his mental state.

Mr. Tonahill stated that both psychiatrists are familiar with the operation of the polygraph and that due to Ruby's delusions, persecution complex and present mental condition they positively recommend against his taking the test. Mrs. Grant stated she was taking full responsibility and was respectfully declining to make Ruby available for a polygraph examination.

Mr. Tonahill and Mrs. Grant both stated they desired to express their gratitude and appreciation to Chief Justice [illegible] for his desire to comply with Ruby's request that a polygraph examination be afforded him.

Dallas District Attorney Henry Wade was interviewed on July 10, 196 , and stated thatwhile he would not have any objections to Ruby's being given a polygraph examination, if the examination is given he desires to insure that Ruby be questioned in great detail with particular reference as to his activities and when he first decided to kill Oswald. Mr. Wade was advised that in the event the polygraph examination is given, it will be given at the specific request of the President's Commission on the Assassination of President Kennedy and that any questions he desired tohave asked would have to be taken up with their representatives.

Inasmuch as Mr. Tonahill and Mrs. Grant have declined to make Ruby available for a polygraph examination, no further action will be taken concerning the request set forth in your letter dated June 25, 1964.

This will confirm the conversation of Mr. James R. Malley of this Bureau with you on July 10, 1964.

Sincerely yours,

J. Edgar Hoover

NOTE: By letter dated 6/25/64, the President's Commission requested polygraph examination be afforded Ruby. The tentative date for the polygraph examination was set for July 16, at 1:30 p.m. The Commission desired that Ruby's attorney and a representative from the Dallas District Attorney's Office be present at the interview. On 7/10/64, Joe H. Tonahill, Ruby's attorney, and Mrs. Eva Grant, Ruby's sister, who has power of attorney for Ruby were interviewed and declined to make Ruby available for polygraph examination. The above was brought to the attention of Mr. Rankin by Mr. Malley on 7/10/64, and Mr. Rankin was advised that Mr. Herndon of the Laboratory was to see Mr. Arlen Specter, Commission staff member in Philaddphia, Pennsylvania, on 7/13/64, concerning questions to be asked Ruby, and it suggested to Mr. Rankin thathe notify Mr. Specter that in view of the declination that Mr. Herndon would not see Mr. Spector on that date.

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

RE: Leak of information carried in "The Dallas Morning News," June 27 and 28, 1964

On the afternoon of 7/11/64, Supervisor Ludwig Oberndorf, Washington Field Office (WFO), was advised that the interview with Representative Gerald R. Ford, a member of the President's Commission, had been approved.

SA Oberndorf was requested to have Representative Ford's office contacted this morning, 7/13/64, to set up an appointment. In the event Representative Ford is in San Francisco for the Republican Convention, it was not desired that he be interviewed at San Francisco, but that arrangements be made for the interview to be conducted upon his return to Washington, D. C. SA Oberndorf was advised that if Representative Ford's office inquiried as to the reason for the appointment, they could be advised that it was in connection with the leak of Lee Oswald's diary to the news media.

Assistant District Attorney William Alexander, Dallas County, has intimated that Representative Ford was the source of the leak of Oswald's diary to the news media. Mr. Rankin of the President's Commission has been advised. Representative Ford has requested that he be interviewed in order that he could go on record concerning this matter. WFO has the necessary background to handle this interview.

The above is being submitted for record purposes.

Dear Mr. Rankin:

Reference is made to your letter dated July 3, 1964, regarding the set of 35 millimeter color slides which are being marketed by Phil Willis Enterprises, Dallas, Texas.

Your letter advised you would appreciate the opportunity to review the slides, and as a result, the slides were reviewed by Mr. Norman Redlich on July 7, 1964. After reviewing the slides, Mr. Redlich requested that a color print be made of slide No. 5 which purports to show the Presidential motorcade at the exact instant the first bullet struck the President.

The color print of slide No. 5 is attached along with a complete set of the slides being marketed by Mr. Willis.

NOTE:

Edward Frank Bray, formerly employed by the Bendix Company at the Navy Torpedo Station, Keyport, Washington, received a head injury a result of which caused his mental instability. He has been previously interviewed by the Bureau, Postal Service and ONI and is considered definitely a psychopath. He is well-known to Los Angeles, Portland and Chicago Offices as a psychopathic letter writer and during August of 1961 the Medical Director in Portland confidentially advised our Agents that he had treated Bray for Neuropsychosis. U. S. Secret Service is aware of Bray. Bray is the subject of Bureau File 62-64355.

Bray's letter addressed to Honorable George Wallace, Governor of Alabama, which was furnished by the Department of Commerce alleged there was a plot involving Naval officials concerning the assassination. This is completely erroneous.

Our interviews of Reynolds indicate he has been in contact with General Walker and that Walker sent a telegram to the President's Commission requesting that the Commission request Mr. Reynolds to appear before the Commission to tell about his experiences wherein he was shot by an unknown person. Reynolds told Dallas Office he feels he was shot by an unknown individual because he furnished information to the Dallas police that he witnessed Oswald running with a gun from the scene of the shooting of Officer Tippit. Reynolds has fears for personal safety of himself and his family and was told by Dallas Office to make such information available to the Dallas PD.

NOTE:

The Commission by letter 6-30-64, requested Mr. William R. Keester, an Oklahoma City private detective, and Mr. James Standard, an Oklahoma City reporter, be interviewed based on a telegram sent to the Commission by Mrs. Shirley Martin of Hominy, Oklahoma. Martin alleged Keester told Standard there were many things Keester had to say about the attempted assassination of General Edwin A. Walker. Keester was reported to have said he was afraid to tell Standard what these things were. Martin's allegations were completely negated as a result of interviews conducted. Martin has sent numerous communications to the Bureau, all of which have been sent to the President's Commission. In connection with Duff, prior to the time it was established Oswald was the individual who shot at General Edwin A. Walker, Duff was considered a prime suspect as developed by the Dallas Police Department and he was subsequently absolved by that department. In Duff's interview he stated he did not know Ruby or Oswald and had no connection with them. (105-82555, Serial 1570)

Dear Mr. Rankin:

The "National Guardian" newspaper of July 11, 1964, carried an article entitled "Mark Lane Challenges Warren to Hear Tape on Disputed Evidence." Lane is quoted in the article as saying that he will play the tape recording of his alleged interview with Mrs. Helen Markham of Dallas, Texas, at a public meeting to which members of the President's Commission and members of the press will be invited.

This Bureau has learned from a source that Lane will present tape recordings he made in connection with the assassination case during a period of one week starting on Monday, July 20, 1964. The tape recording to be played will reportedly be Lane's interview with Mrs. Markham. According to our source, the presentations will be held at Theatre Four, 424 West 55th Street, New York, New York.

This Bureau has covered the public appearances of Lane in the past at your request. However, in order to avoid any duplication of coverage of the presentations by Lane at Theatre Four, this Bureau would like to be advised if the President's Commission plans to have a representative cover the presentations.

Dear Mr. Rankin:

Reference is made to our letter dated May 7, 1964, dealing with Albert Alexander Osborne, who is also known as John Howard Bowen.

We have been advised that a letter from John Howard Bowen was received at the St. Anthony Hotel, Laredo, Texas, on July 10, 1964, in which hotel authorities were requested to maintain custody of two boxes Bowen left at the hotel. The letter advised the hotel authorities that Bowen intended to have the boxes picked up in a few days.

The letter was postmarked July 7, 1964, at Mexico, D. F., Mexico, and bore the return address "Niza 22, Mexico, D. F." The return address is the address of the Mexico, D. F., Mexico, office of the American Express Company.

As you were previously advised, we are not conducting active investigation in an effort to locate Osborne in the absence of a specific request from you. We will, however, conduct inquiry at the American Express Company, Mexico, D. F., Mexico, to determine if Osborne is known to be in Mexico.

Washington, D. C.

Dear Mr. Rankin:

In response to your letter of June 22, 1964, requesting investigation to determine whether or not Jack L. Ruby or George Senator owned a "greyish topcoat" at the time Ruby shot Oswald, there are enclosed herewith two copies of a memorandum dated June 30, 1964, at Dallas, Texas, setting forth the results of our inquiry.

Efforts are continuing to locate George Senator for interview through his relatives in the New York City area. You will be advised of the results.

Sincerely yours,

J. Edgar Hoover

NOTE: With regard to an allegation made to the President's Commission that Ruby was seen outside of the Dallas PD building on the morning of 11/24/64, between 8 and 10 a.m. wearing a "greyish topcoat", the Commission requested that we conduct investigation to determine whether or not Jack Ruby or George Senator owned such a topcoat. Results of Dallas investigation indicates that Ruby did not own a topcoat of any kind and Senator owned one which was brown tweed or brown checked. Senator has left the Dallas area and we are attempting to locate him through his relatives in New York.

Too Much Talk on Oswald

When President Johnson appointed his special board of inquiry to determine and publish all the facts in the assassination of John F. Kennedy, the world welcomed his action as a definitive method of answering the questions about the slaying that were being raised in this country and even more insistently in Europe. Chief Justice Warren's designation to head the panel and the eminence of its other members afforded promise that no taint of partisanship or prejudgment would color the findings.

These hopes of general confidence in the commission's detachment are now being clouded by a spate of advance disclosures on what its report is likely to say. The latest of these is Attorney General Kennedy's declaration in Poland that "there is no doubt" that his brother was killed by Lee H. Oswald. The Attorney General, who is known to be familiar with the panel's findings, calls Oswald "a misfit" who took out his resentment against society by shooting the President.

A much more extensive preview of the commission's conclusions, published in this newspaper a month ago, revealed that it had found no credible evidence to support theories, widely circulated abroad, that the assassination grew out of a right-wing conspiracy. We have no reason to doubt any of these reports. But public respect for the panel's verdict will be greatest if it releases its report and all the supporting data with maximum speed. The longer it waits to tell the world what it has discovered, the more intractable the preconceptions it will have to combat.

Memorandum of 6/11/64, Mr. Rosen to Mr. Belmont, advised that the President's Commission would send a letter to the Bureau outlining the area of questioning to be covered in the polygraph interview of Ruby. It was recommended and approved by the Director that Bureau polygraph examiners confer with the proper representative of the Commission to prepare for the polygraph examination.

The letter from the Commission containing 21 suggested questions dated 6/25/64 (attached) has been received and studied in the Laboratory. There are a considerable number of questions and items which are not in suitable form for the polygraph technique and which should be resolved. In line with the above memorandum, it is desirable for the Laboratory polygraph examiners to confer with the appropriate representative of the Commission and revise the questions into a suitable form. Additional necessary arrangements can also be worked out at this time.

RECOMMENDATION:

If approved, the Laboratory will contact an appropriate representative of the President's Commission to review and revise the questions submitted and to make the necessary arrangements for polygraph examination of Ruby.

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

The Dallas Morning News on Saturday, 6/27/64, carried a front-page article by Hugh Aynesworth captioned "Secret Diary - Oswald's Thoughts Bared" and a full page related copyrighted article captioned "The Lee Harvey Oswald Diary - October 16, 1959: I Want Russian Citizenship." The Washington, D. C., newspapers, 6/28/64, carried a synopsized story of that appearing in Dallas.

The article by Hugh Aynesworth (attached) is an accurate reporting of the Oswald diary which was found by the Dallas Police Department on 11/23/63 during the search of the residence of Mrs. Ruth Paine at 2515 West 5th Street, Irving, Texas.

The original diary was delivered by the Dallas Police to the Bureau and a photographic reproduction of it appeared as Exhibit 36 in the Bureau's initial report on the investigation of the assassination of President Kennedy. The diary is Oswald's account of his stay in the Soviet Union from his arrival on 10/16/59 through 3/27/62 when the entries in it were discontinued.

In the diary Oswald tells of his application for Soviet citizenship, his suicide attempt, the subsequent permission to remain in the USSR, his social life and his courtship with various Russian girls culminating in his marriage to Marina, and their efforts to return to the United States. Aynesworth's article carefully follows the diary and quotes voluminously from it. It is obvious he has a copy of the diary and that this is the basis for his article.

for theDallas Morning News and has been anti-Bureau throughout the whole investigation. On 6/4/64 Assistant District Attorney William F. Alexander contacted the Dallas office and wanted photographic copies of all the property obtained by the police department and turned over to the FBI. He said these were desired for Henry Wade, District Attorney, to testify before the Commission. At that time Alexander was referred to the Dallas Police Department and advised that they had been given photographs of all the property.

ASAC Clark and SAC Shanklin are of the opinion that Alexander is probably the source of the leak.

According to ASAC Clark the 6/28/64 issue of The Dallas Morning News contains a photographic copy of Oswald's vaccination certificate which he used to obtain a passport in 1963. Also published is a copy of letter from the communist party, USA, to Oswald dated 7/31/63 and a copy of the undesirable discharge given to Oswald by the Marine Corps 9/13/60.

The above items were recovered by the Dallas Police Department during the search of the premises at 1026 North Beckley, on 11/23/63. Photographic copies were furnished the Dallas Police Department on 12/31/63.

The Commission, the Dallas Police Department and the FBI were the only agencies having copies of the diary. We know we did not furnish the material to Aynesworth and we suspect that Alexander or some one in the Dallas Police Department may be the source.

ACTION:

Without making any direct inquiry our Dallas office will be alert and will try and learn source of the leak and advise the Bureau.

ADDENDUM (AHB:hmm) 6/29/64: At 8:57 a.m. today, Mr. Rankin of the Commission called with reference to this article. He asked whether our Agents could approach reporter Aynesworth to find who gave him Oswald's diary. It is recommended that we advise Mr. Rankin that Aynesworth is not friendly and while we will pass along the Commission's request if desired, a better approach would be for the Commission to directly contact the newspaper and request the information.

As previously reported to the Commission, certain small lead metal fragments uncovered in connection with this matter were analyzed spectrographically to determine whether they could be associated with one or more of the larger bullet fragments and no significant differences were found within the sensitivity of the spectrographic method. Because of the higher sensitivity of neutron activation analysis certain of the small lead fragments were subjected to neutron activation analyses and comparisons with the larger bullet fragments. While minor variations in composition were found by this method, these were not considered sufficient to permit positively differentiating among the larger bullet fragments and thus positively determining from which of the larger bullet fragments any given small lead fragment may have come.

Generally speaking, the small lead metal particles fell into two categories. In one category fell the small lead fragment from the arm of Governor Connally and the lead from the almost intact bullet recovered from the stretcher. In the other category fell the lead particles from the head of President Kennedy, the lead fragments from the rear floor of the car and the lead from the mutilated bullet fragment from the front seat cushion. While there is a probability that the fragment from the Governor's arm came from the whole bullet rather then from the mutilated bullet and that the fragments from the President's head and from the floor of the car could have come from the mutilated bullet fragment from the front seat cushion, it remains a probability and does not permit a positive finding or statement that any given small fragment did in fact come from one of the bullets to the exclusion of the others.

Evidence was adduced at the trial of Jack Ruby that a tape recording was made by "Ike" Pappas, WNEW, New York, New York of the sounds in the basement of Dallas City Jail at the time Ruby shot Lee Harvey Oswald.

The Commission would appreciate your obtaining a copy of that tape and conducting such tests as may be appropriate to determine whether or not Jack Ruby made any utterances while shooting Oswald. Attention should be given to whether the microphone used by Pappas could have picked up any statement made by Ruby as he approached Oswald. Pappas has testified that he was standing about five feet from Ruby at the time Oswald was shot, and TV films in the possession of the Commission may be useful in establishing the precise location of Pappas.

In addition, the Commission would appreciate your obtaining for it a copy of the photograph introduced into evidence as Defendant's Exhibit No. 8 in the Ruby trial.

SUBJECT: INQUIRY BY THE PRESIDENT'S COMMISSION ON THE ASSASSINATION OF PRESIDENT KENNEDY

The President's Commission on the Assassination of President Kennedy, by letter, June 24, 1964, requested that a copy be obtained of a tape recording made by Ike Pappas of Radio Station WNEW, New York, New York, of sounds in the basement of the Dallas Municipal Building at the time Jack Ruby shot Lee Harvey Oswald.

The Commission requested that such tests as may be appropriate be conducted to determine whether or not Jack Ruby made any utterances while shooting Oswald. In this respect, the Commission pointed out that attention should be given to whether the microphone used by Pappas could have picked up any statements made by Ruby as he approached Oswald.

An examination by the Laboratory of the tape recording furnished by Ike Pappas revealed that no identifying utterances were made by Ruby at the time he shot Oswald. Tape was received July 4, 1964.

An examination of the photograph also submitted showed the close proximity of the reporter, Pappas, to the principals involved. Two groans were heard on the tape immediately following the shot; however, it could not be said whether any utterances by Ruby would have been picked up by the microphone at that time. Results of the examination of the tape and the photograph were furnished on July 6, 1964, to Supervisor J. W. Hines of the General Investigative Division for inclusion in his report.

ON JULY SEVEN LAST DALLAS DIST. ATTORNEY HENRY WADE BECAME SO ANGRY HE WANTED TO FIRE HIS ASSISTANT, WILLIAM F. ALEXANDER, AT THAT TIME. HE WAS PERSUADED NOT TO BY ASSISTANT DIST. ATTY. JIM BOWIE. WADE HAD ASCERTAINED THROUGH HAVING ALEXANDER'S OFFICE SEARCHED IN ALEXANDER'S ABSENCE THAT ALEXANDER HAD NUMEROUS COPIES OF ITEMS IN CONNECTION WITH THE RUBY TRIAL AND THE OSWALD INVESTIGATION TAKEN FROM WADE'S FILES

WITHOUT PERMISSION. WADE ALSO DETERMINED THAT HIS OFFICE CANNOT ACCOUNT FOR ALL THE COPIES MADE BY TTHE RECORDAK CO. JUNE ONE LAST OF THE TWO ROLLS OF THIRTYFIVE MM FILM BORROWED FROM THE DALLAS PD. SOURCE STATED WADE AND HIS ASSOCIATES ARE EXPECTING THE FBI AT ANY MOMENT.

SOURCE ALSO ASCERTAINED THAT FOLLOWING THE INTERVIEW OF REPORTER CARL FREUND RECENTLY BY THE FBI THAT MANAGING EDITOR OF THE "DALLAS MORNING NEWS," JACK B. KRUEGER "CHEWED OUT" FREUND. NO OTHER DETAILS KNOWN. SOURCE STATES KRUEGER IS NOT AWARE OF ANY EXCHANGE OF FIFTEEN THOUSAND DOLLARS BEING INVOLVED.

SOURCE STATES FIFTEEN THOUSAND DOLLARS ORIGINALLY PUT UP BY "NEWSWEEK" MAGAZINE. SOURCE ADVISED THAT ALEXANDER, FREUND, AND HUGH AYNESWORTH (REPORTER FOR "THE DALLAS MORNING NEWS"), ORIGINALLY GOT TOGETHER ON THE SCHEME TO OBTAIN THE DOCUMENTS AND MAKE PUBLICATION OF THEM. AYNESWORTH WAS TO BECOME THE DALLAS CORRESPONDENT FOR "NEWSWEEK" MAGAZINE. (AYNESWORTH HAS JUST RECENTLY BEEN DESIGNATED THE CORRESPOND[illegible] FOR "NEWSWEEK" MAGAZINE IN DALLAS.) SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY
DALLAS, TEXAS, 11/22/63

On 7/6/64 SA R. H. Jevons, Physics and Chemistry Section, received a phone call from Mr. Richard Mosk, staff member, The President's Commission, inquiring whether the FBI Laboratory had examined evidence in this case for possible cryptographic significance and, if so, whether the results of such examinations could be furnished in writing to the Commission. SA Jevons told him the matter would be looked into and we would get in touch with him.

It has been ascertained that three Laboratory reports have been submitted describing documentary evidence examined for possible cryptographic significance. (None of the evidence had any cryptographic significance as disclosed by the examinations.) These Laboratory reports are dated 12/20/63, 12/31/63 and 1/30/64. Supervisors in Domestic Intelligence Division and General Investigative Division have ascertained that the 12/20/63 Laboratory report was quoted in Dallas's investigative report dated 1/7/64, page 48. Laboratory report dated 12/31/63 is included in Dallas's report 2/11/64, page 59, and the 1/30/64 Laboratory report is on page 65 of this same Dallas investigative report. The two investigative reports including the results of the Laboratory examinations have been previously disseminated to the Commission.

On 7/8/64 I telephonically contacted Mr. Mosk at the Commission and furnished him the above identifying information which is currently in the possession of the Commission. He was very appreciative and stated he would pass this information along to Mr. David Slawson of the Commission staff who had directed him to make the inquiry.

ACTION: None. For information.

SUBJECT: JACK L. RUBY, aka;
LEE HARVEY OSWALD, aka. - VICTIM
CIVIL RIGHTS

The President's Commission by letter dated July 6, 1964, stated that previous reports of the Bureau revealed that at the time Jack Ruby was arrested the back seat of his car contained copies of the "Dallas Morning News" and "Fort Worth Star-Telegram" for November 20, 1963, an advertisement for HLH products, several "Life Line" radio transcripts and a "Wall Street Journal" of November 18, 1963. They advised that photographs of property in Ruby's possession which were furnished to them by the Bureau did not contain these items. It was requested that we make an investigation and obtain, if possible, accurate copies of those papers and that we advise if all property found in Ruby's car has been located for photographing.

On 11/28/63, the Dallas Police Department made available Ruby's automobile for inspection by Bureau Agents. The car was thoroughly inspected and the Agents inventoried all items in the car. This inventory was set forth in the report of SA Manning C. Clements at Dallas, dated 11/28/63.

The Commission, by letter dated 5/28/64, advised that arrangements had been made through District Attorney Wade and the Dallas Police Department for the Bureau to photograph all property in their possession seized from Ruby at the time of his arrest. Pursuant to the Commission's request we photographed the items furnished to us by Wade and the Police Department on June 1 and 2. The newspapers and other items pointed out above by the Commission were not among those photographed.

Re: JACK L. RUBY

It is pointed out that the Bureau did not at any time seize any of Ruby's property nor has the Bureau ever had custody, control or responsibility for the maintenance of any of the property seized by the local authorities from Ruby. We inventoried all items which were made available to us for examination immediately after Ruby's arrest in November, 1963, and photographed all items made available to us by Wade and the Police Department in June, 1964. The Bureau can in no way be held responsible for any of these items which may have been lost or misplaced during the interim.

ACTION

Attached for approval is a teletype to the field instructing them to conduct the investigation requested by the Commission to locate, if possible, the missing items and photograph them.

The fact that the Bureau has never had custody, control or responsibility for the maintenance of property seized from Ruby will be specifically pointed out to the President's Commission when they are furnished with the results of the investigation requested by them above.

SUBJECT: LEE HARVEY OSWALD, AKA.
IS - R - CUBA

PURPOSE:

That Dallas be instructed to furnish WFO background information regarding the leak of the Oswald diary so that Representative Ford of the President's Commission may be interviewed. An allegation was made by W. F. Alexander, Assistant District Attorney Dallas, that Ford "leaked" the information to newspapers and magazines. Information received from the President's Commission indicates Representative Ford is incensed over the allegation and desires to be interviewed by the FBI for the record.

BACKGROUND:

On June 27 and 28, 1964, the Oswald diary and other documents were published in "The Dallas Morning News." As a result of this publication, the President's Commission by letter dated June 30, 1964, requested the FBI to make a thorough investigation of the publication of Oswald's diary and that it be ascertained both the means used and circumstances surrounding the acquisition of the diary and its subsequent publication.

An immediate investigation was instituted and is being carried out expeditiously. The pertinent results of our inquiries are being furnished to the President's Commission as received, prior to the receipt of written reports. Investigation conducted by Dallas has indicated it appears personnel of the Dallas District Attorney's Office and personnel of "The Dallas Morning News" are involved. W. F. Alexander, Assistant District Attorney Dallas, has alleged Representative Ford of the President's Commission "leaked" the information to the newspapers, "Newsweek" and "Life" magazines. An anonymous caller, who has contacted our Dallas Office on two occasions, advised the allegation regarding Representative Ford is erroneous as Alexander needed a "patsy" when questioned by District Attorney Henry Wade regarding this matter.

RE: LEE HARVEY OSWALD, AKA.

The President's Commission was furnished this information and J. Lee Rankin said Representative Ford was incensed over the allegation and has indicated his desire to be interviewed by the FBI for the record.

Dallas has conducted interviews with District Attorney Henry Wade, Assistant District Attorney Jim Bowie and H. H. Davis, Investigator for Dallas District Attorney's Office regarding this matter. Assistant District Attorney W. F. Alexander is scheduled to be interviewed today.

RECOMMENDATION:

If approved, the attached teletype be sent to Dallas with a copy for WFO for their information, instructing Dallas to furnish results of interviews and appropriate background so that Representative Ford can be interviewed by WFO.

Dear Mr. Hoover:

In connection with its investigation of Jack Ruby's activities on November 24, 1963, his background and personality, the Commission would appreciate your providing copies of police photographs of Ruby's living quarters taken on November 24, 1963.

If police photographs are not available, it may be possible to obtain comparable pictures from local newspapers. For example, one such picture was published by the Dallas Times Herald on page 10 of its November 25, 1963 issue. The Dallas Morning News is known to have a file of such photographs, and presumably official police pictures exist.

If possible, the Commission would like to know at what time the particular photos were taken, the names of the photographers and to what extent, if at all, the items in the apartment were disturbed between the time George Senator left the apartment on November 24 and photographers arrived. If similar pictures of the Carousel Club are also available, those would be appreciated as well.

Dear Mr. Hoover:

Please re-interview Mr. Frank Boerder (Clements Report, December 21, 1963 p. 5) to determine whether or not he met with Jack Ruby and Mrs. Bertha Cheek on or about November 18, 1963 at the Carousel Club.

Mrs. Cheek has testified that, at that time, she discussed with Ruby the possibility of forming a partnership to open a new night club in Dallas. She states another man was present when she described as an interior decorator and whom Ruby called Frank.

The Commission is interested in ascertaining what conversation Mr. Boerder may have had with Bertha Cheek, whether matters other than the night club business were discussed and whether or not Jack Ruby or Bertha Cheek said anything which might bear upon the assassination of President Kennedy or the murder of Lee Oswald.

NOTE: The Commission advised that Mrs. Bertha Cheek testified that she had discussed the possibility of forming a partnership with Jack Ruby in opening a night club shortly before the assassination of President Kennedy. We previously interviewed a Frank Boerder, an architect in Dallas who is a business acquaintance of Rubys and has decorated his clubs in the past. He stated that two weeks prior to the assassination he discussed with Ruby opening a new club and a woman named "Bertha" who was to put up the money was present. Commission desires to know if Boerder had any conversation with Cheek and if they had discussed any matter bearing on the assassination.

Dear Mr. Rankin:

I received your letter of June 29th requesting copies of documents dealing with the origin and establishment of the Federal Bureau of Investigation.

Enclosed is a copy of an Order dated July 26, 1908, signed by Attorney General Charles J. Bonaparte creating an investigative agency within his Department. Also enclosed is a copy of an Order dated March 16, 1909, signed by Attorney General George W. Wickersham relating to the establishment of the Bureau of Investigation of the Department of Justice. The name of the Bureau of Investigation was changed by Executive Order to Division of Investigation on June 10, 1933, which was approved by Congress. The title, Division of Investigation, was changed to Federal Bureau of Investigation in the FBI's appropriation bill for fiscal year 1936 which was passed on March 22, 1935, by Congress and this title became effective July 1, 1935.

For the purpose of providing additional background, I am enclosing pertinent pages from the Annual Report of the Attorney General for the year 1909 dealing with the establishment of the Bureau of Investigation.

I trust the above will be of help to you and if there are any additional questions on this subject, you may be assured of our desire to be of all possible assistance to you.

EMPLOYERS' LIABILITY CASES.

During the current year the department has adopted the policy of intervening in a number of cases arising in both state and federal courts throughout the country in which the constitutionality of the employers' liability act of 1908 (35 Stat., 65) has been questioned. The United States Circuit Court, Eastern District of Arkansas, in the case of *Watson* v. *St. Louis, Iron Mountain & Southern Railway Company*, upheld the constitutionality of the act. On the other hand, the Supreme Court of Connecticut, in the case of *Mondou* v. *New York, New Haven & Hartford Railroad Company*, decided it to be unconstitutional. The matter will be presented to the Supreme Court at an early date.

HOURS OF SERVICE ACT.

There is pending in the Supreme Court, in the case of *Baltimore & Ohio Railroad Company* v. *Interstate Commerce Commission*, the question of the validity of an order of the commission directing the making of monthly reports to the commission by railroad companies of violations of this law.

THE BUREAU OF INVESTIGATION.

A few days before July 1, 1908, under the direction of my predecessor, the first active steps were taken toward the organization in this department of a comprehensive investigation service, for the purpose of collecting evidence for the use of the Government in cases pending or about to be commenced in the Federal courts, and also for the purpose of making such other examinations and investigations as the business of the department might require.

Prior to that time the department was employing and paying a large number of persons for investigation work of various kinds, which force consisted substantially of the following:

(*a*) From 10 to 20 persons, who were borrowed from the office of the Comptroller of the Currency from time to time, as occasion required, for the purpose of collecting evidence in cases involving violations of the national banking laws, and who were paid from $15 to $25 per day and actual expenses of travel and subsistence.

(*b*) From 2 to 20 or more persons, who were borrowed from time to time from the Secret Service division of the Treasury Department for the purpose of collecting evidence for use in various cases pending or about to be commenced in the Federal courts, who were paid from $3 to $6 per day and a per diem of $4 in lieu of subsistence, together with actual expenses of travel, etc.

(*c*) About 50 persons, who were employed by this department for the purpose of making investigations of various kinds in naturaliza-

tion cases, and who were paid from $900 to $2,500 per annum and expenses.

(*d*) Six men, who were permanently employed by the department for the purpose of collecting evidence in matters involving violations of the peonage laws, and who received $4 per day and $3 in lieu of subsistence, together with actual expenses of travel, etc.

(*e*) Seven men, who were permanently employed by the department in investigations in connection with land-fraud cases in the West, and who received from $3 to $5 per day and $3 per day in lieu of subsistence, and also actual expenses of travel, etc.

(*f*) Twelve examiners holding statutory positions at salaries of from $1,800 to $2,500 per annum, and receiving actual expenses of travel and subsistence, and who were charged with the duty of investigating the official acts, records, accounts, etc., of United States attorneys, United States marshals, clerks of United States courts, and United States commissioners.

While all of the persons above mentioned were employed and paid by this department, there was, prior to July 1, 1908, no general organization or systematic cooperation between the different forces. Moreover, there was, with a single exception (the examiners' force, to which reference will be made hereafter), an absence of any permanent, convenient record at the department showing the nature, extent, or cost of the work performed by these persons. Furthermore, the force of departmental examiners which was in charge of the chief examiner was at that time the only investigation force of the department having a definite organization, an officer in charge at Washington, and complete records showing the nature and extent of the work performed by it.

I am advised that about two years prior to July 1, 1908, the question of organizing an investigation service along the lines of the present bureau of investigation was seriously considered by this department, but it appears that no active measures were taken to this end until after the passage of the sundry civil act of May 27, 1908, which prohibited the continuation of the above-mentioned practice of borrowing secret-service operatives from the Treasury Department.

On or about July 1, 1908, under the direction of my predecessor, and by reason of the provision of law above mentioned, and also, as it appears, for the purpose of systematizing the investigation work of the department, 9 men, who had prior to that time been connected with the Secret Service Division of the Treasury Department were appointed as special agents of this department; and these men, together with the thirteen above mentioned (who had for some time previously been employed by this department for the purpose of collecting evidence in matters involving violations of the peonage and land-fraud statutes) and the 12 statutory examiners of this

department, were organized into a general investigation service under the designation of "Bureau of Investigation," and the chief examiner was placed in immediate charge of their work.

Of the 85 men above mentioned, all are still connected with the department (with the exception of 5 of the 9 men who were originally secured from the Secret Service). By reason of certain very important cases which required the work of a number of special agents, and on account of the large number of cases throughout the entire country in which it was found that special agents could be used to great advantage in collecting evidence for the Government, and also by reason of the fact that it was found necessary to make some systematic effort to locate and apprehend fugitives from justice who previously had been able to escape arrest in a large number of cases by simply leaving the district in which they were being prosecuted and proceeding to some other part of the United States, a number of additional agents have been secured from time to time, as occasion required.

Upon consideration of the advantages accruing from the organization of the investigation service, as above set forth, and in view of the statements contained in my predecessor's report for the fiscal year ended June 30, 1908, to the effect that, unless such action were prohibited by Congress the department would seriously consider the proposition of organizing its own force of bank accountants for the purpose of collecting and preparing evidence in cases involving criminal violations of the national banking laws, which work was previously done by bank examiners borrowed from the office of the Comptroller of the Currency, as above set forth, a small force of bank accountants has been organized as a part of the bureau of investigation, with compensations of from $1,800 to $2,200, and in one instance of $2,700 per annum, besides actual expenses, or a small, fixed per diem allowance in lieu of subsistence.

As a result of the changes above set forth, all of the investigation work of the department, which was formerly performed by the various forces of men above mentioned (with the exception of the naturalization work, which is now under the Department of Commerce and Labor, and of a few cases in which it is still necessary to employ bank examiners for brief periods, owing to the fact that the force of bank accountants is not as yet entirely complete) is now performed by persons connected with the bureau of investigation, and the department has secured the services of a thoroughly organized and generally efficient force of investigators at a minimum cost, and has available for reference at all times convenient, complete, and permanent records, showing the nature, extent, and result or status, and the cost of all such investigations.

TO THE WARREN COMMISSION -- RE: J. F.

If you truly want the genuine facts, delve into the associations of Goldwater, Nixon and their sponsor, William O'Dwyer.

Goldwater and Nixon are "stooges" for William O'Dwyer, the foremost Red gangster in America. From the Delmonico, Park Avenue, O'Dwyer dictates to A. M. A., police, hospitals, local unions — murder designs, race riots, strikes and sabotage.

Nixon, Haggerty, Drs. Snyder, Heaton, and others, had attempted the murder of former Pres. Eisenhower. This foul homicidal team, also acting for O'Dwyer, could tell you about the demise of so many, Marshall, Smith, Dulles, Chennault, recently General MacArthur. Sherman was too honest.

Also guilty in this drama of deceit and murder, are J. Edgar Hoover and Gen. Terry, more of O'Dwyer's lieutenants. He is immune from prosecution.

Goldwater was aligned with the anti-Kennedy cabal, acting a part with Doctors Travell and Brooks. Barry intimidated Edward Murrow to keep him in check, as Pres. Kennedy underwent mock treatments. It was then Barry created the Newburgh commotion, as a camouflage, although that certainly was out of his precinct.

O'Dwyer is the gangster responsible for the death of President Kennedy, many of Hollywood's actors, and eventually a thousand more. The next "hits" of first choice for the O'Dwyer-A.M.A. agenda are Ike, Rocky, Truman, the Kennedys, and one day the whole American people.

Confidentially, do not look for even one startling revelation from Warren, or Clark.

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY, 11/22/63, DALLAS, TEXAS

By letter dated June 29, 1964, we advised the Commission of the receipt of some 35 mm color slides sent in by Dallas airtel 6/19/64, that are being marketed by Phil Willis Enterprises of Dallas, Texas. One of these slides purports to contain a photograph of the President at the exact instant the first bullet struck. By letter dated July 3, 1964, the Commission advised that they would like the opportunity to review the slides.

On the afternoon of 7/7/64, SA Lyndal L. Shaneyfelt reviewed the slides with Mr. Norman Redlich at the Commission at which time Mr. Redlich requested that a color print be made of the color slide purporting to depict the first shot. Mr. Redlich also felt that this slide was good evidence to show that the first shot is the shot that hit the President in the neck, since Willis states that the first shot occurred at the instant his picture was taken and two more shots followed that first shot. In view of this, he stated that he thought Willis should be interviewed and since Mr. Arlen Specter of the Commission was going to be in Dallas, he would probably have him talk to Willis and possibly obtain a deposition in an effort to obtain evidence that the first shot was the one that struck the President in the neck. (Dallas has interviewed Willis - Pages 46 - 51, Dallas report 7/2/64)

After reviewing the slides with Mr. Redlich, he advised SA Shaneyfelt that he would like to have a comparison made of the photograph of the alley behind General Walker's house (which photograph was obtained from Oswald's possessions), with the reflex camera that was also obtained from Oswald so that it could be determined whether or not this photograph was taken with Oswald's camera. SA Shaneyfelt advised Mr. Readlich that this examination would be made and he would be advised of the results.

SA Shaneyfelt has completed the examination of this photograph with photographs taken in the reflex camera obtained from Oswald and has determined that the photograph of the alley behind General Walker's house was taken with the Oswald camera. This information will be furnished to the Commission separately.

The President's Commission by letter dated 6/25/64 requested polygraph examination be afforded Jack Ruby and set forth a list of the questions to be asked of Ruby.

Effort was made on July 2, 1964, to contact Mr. Arlen Specter, Staff Member of the President's Commission who was to handle this interview with Ruby for the Commission, and it was determined that he was in Philadelphia and would not return for an indefinite period. Mr. Specter's office was contacted on July 7, 1964, and it was determined Mr. Specter was still in Philadelphia with no definite date set for his return.

Mr. Specter called Malley today and advised that he would like to set up a tentative date of July 16 for the interview with Ruby in Dallas at the County Jail. He stated that in accordance with the agreement reached it would be necessary to have Defense Attorney Joe Tonahill and a representative from the Dallas District Attorney's Office present at the interview. Specter said he had no preference as to the individual to be present and it was suggested that if the Dallas Office could make the necessary arrangements we would have Jim Bowie whom the Dallas Office considered to be more capable and a better representative of the District Attorney's Office than any other individual in that office.

It was mentioned to Mr. Specter that there were a number of questions in the letter from the President's Commission which were not in suitable form for the polygraph examination and that it would be desirable to arrange an interview with him in order to rephrase these questions to obtain the best results from the examination, but that if he did not desire to rephrase any of the questions the examination would be given utilizing the exact questions he had set forth.

Mr. Specter advised that he would certainly appreciate the Bureau redrafting the questions along the lines that they felt would produce the best results and that as soon as this was done he would appreciate a copy being sent to him so that he might look over the questions. His office address in Philadelphia is

RECOMMENDATION:

That the Laboratory immediately re-draft the questions to be asked of Ruby in order that a copy of the questions can be made available to Mr. Specter in accordance with his request. At such time as the Laboratory is ready to proceed with the polygraph examination, the Dallas Office should be advised to make arrangements for the interview bearing in mind the necessity that Attorney Tonahill and a representative from the District Attorney's Office must be present at this interview.

Memorandum Rosen to Belmont dated 7/8/64 (attached) advised that Mr. Arlen Specter, Staff Member of the President's Commission handling the polygraph interview of Ruby, has set up a tentative date of 7/16/64, for the examination of Ruby at Dallas County Jail and would appreciate the Bureau redrafting questions previously furnished by the Commission in the form suitable for polygraph technique. It was recommended that the Laboratory redraft the questions making a copy available to Mr. Specter and at such time as the Laboratory is ready to proceed with the polygraph examination, the Dallas Office should be advised to make the necessary arrangements. The Director noted "Yes H."

The Laboratory is ready to proceed at any time; however, Mr. Specter has telephonically indicated that Monday, 7/13/64, at his Philadelphia office is the earliest he can confer with polygraph personnel (as approved by the Director, Rosen to Belmont memorandum 6/11/64) regarding the necessary redrafting of questions. This will be handled on that date.

Dallas is being advised by separate airtel this date to make the necessary arrangements so that the polygraph examination of Ruby can be conducted at the Dallas County Jail on July 16, 1964.

SUBJECT: ASSASSINATION OF THE PRESIDENT

Pursuant to instructions, I talked to Congressman Gerald Ford (R-Michigan), at 1:05 p.m. today at San Francisco. He is staying at the Jack Tar Hotel.

I told Congressman Ford that the Director, of course, knew of the allegations by Holmes Alexander in Dallas, Texas, to the effect that Congressman Ford was involved in releasing Oswald's diary to the Dallas Morning News. I mentioned to Congressman Ford that the Director knew, of course, that this was a false allegation and that we desired to be of service to him in connection with the matter. I told him that the Director thought perhaps he might desire to be interviewed by the Special Agent in Charge of our San Francisco Office in order to completely deny the allegations. I mentioned to Congressman Ford that the Director had in mind that if these allegations received publicity, the Congressman, after being interviewed, would be in a good position to state that he had been interviewed by the FBI, who is investigating this matter, and had completely denied the allegations. I also told Congressman Ford that, of course, the Director wanted him to know that the interview could wait until his return on July 23, 1964, if he so desired.

Congressman Ford was most appreciative for the telephone call. He asked that his highest regards be expressed to the Director for thinking of him concerning this matter. He stated that things were so hectic at the convention that he would appreciate it if he could wait until his return on July 23, 1964, and that I should come up to his office for the interview. I told him we would abide by his wishes in this regard.

SUBJECT: LEE HARVEY OSWALD -
INTERNAL SECURITY - RUSSIA - CUBA

The July 12, 1964, issue of "The Worker," East Coast communist newspaper, contained an article entitled "Oswalds Are Spawned in the Sewage Streams of 'Invisible Government'" with by-line of George Morris. Morris is identical with Morris Yusem who is on the Security Index of the New York Office [redacted]

The article claims to set forth information indicating that Oswald was an agent of the United States Government, possibly the FBI or the Central Intelligence Agency (CIA). The article offers no information of a factual nature that would substantiate its allegation. In fact, the article is a rehash of material taken from various unreliable sources, such as Mark Lane and Thomas G. Buchanan whose claims of a conspiracy and the innocence of Oswald have been found without proof.

Among the "evidence" advanced by "The Worker" article is a statement by Mrs. Marguerite Oswald, Lee Harvey Oswald's mother, to the effect that Special Agent (SA) James P. Hosty, Jr., of the Dallas Office, had a long conversation with Oswald in Hosty's car during the time in October and November, 1963, when Oswald and his wife were residing at the residence of Mrs. Ruth Paine in Irving, Texas. This claim, of course, is false and SA Hosty has provided an affidavit for the President's Commission indicating that he had never contacted or spoken with Oswald. In addition, the article states that Marina Oswald was and apparently still is the FBI's "most valuable witness." The article alleges that in confirming every detail of the FBI's "solution" of the assassination matter Marina was "overeager to do so and to lay the crime exclusively on her husband." With FBI encouragement, according to the article, funds began to pour on Marina from many still undisclosed sources.

The article also refers to stories in the "Philadelphia Inquirer" of 12/8/63 and the "Houston Post" of 1/1/64 which indicated

that Oswald was an informant for either the FBI or CIA. The source for these false allegations appears to have been Assistant District Attorney William Alexander of Dallas County, Texas.

As to Oswald's alleged relationship with CIA, the article claims that Marguerite Oswald, Oswald's mother, has been touring the country in defense of her son and stating everywhere that he had been "working for the CIA."

Another inaccuracy contained in the article involves the document Oswald obtained to visit Mexico in the Fall of 1963. The article claims that the United States Department of State gave Oswald a "15-day pass" to visit Mexico on 9/17/63. It is noted that, in actuality, Oswald obtained a United States passport in 6/63 and that it was the Mexican Consulate General in New Orleans, Louisiana, who issued Oswald his Mexican tourist card which he used on his September through October, 1963, visit to Mexico.

"The Worker" article refers to the Warren Commission as a group "that includes Allen Dulles, a congressman who speaks for the FBI, two Southern racists, two Republican 'moderates,' and Warren."

Dear Mr. Hoover:

The Commission would appreciate your undertaking further investigation to corroborate the statement of Wanda Helmick that Jack Ruby called Ralph Paul during the evening of Saturday, November 23, 1963 and told Paul he had a gun, and that Paul asked Ruby if he had "gone crazy". (Clements Report, June 26, 1964, page 191)

As a part of such investigation, it is suggested that Mrs. Helmick be re-interviewed to ascertain the approximate time Ruby called Paul, how she happened to hear the phone conversation, the names of other persons who might have heard the alleged conversation or heard Ralph Paul's statements during the alleged conversation, the names of persons she has told about the alleged conversation, and any other information she has concerning Paul's contacts with Ruby on November 22-24, including Paul's efforts to hide from FBI agents after Ruby shot Oswald.

To the extent feasible, it would be appreciated if other persons who might have overheard the alleged conversation between Paul and Ruby could be contacted in that regard. Particular attention should be directed to persons who may no longer be employed by Paul or who could otherwise be contacted without alerting Paul to the investigation being conducted.

We realize that Mrs. Helmick does not wish her cooperation to be disclosed; however, we wish to advise your Bureau that the Commission may decide to take Mrs. Helmick's testimony. We hope that it will be possible to retain her cooperation, but do not lead her to believe that we shall not examine her later.

Sincerely,

Mr. J. Edgar Hoover
Director, Federal Bureau of Investigation
Department of Justice
Washington, D.C. 20535

Dear Mr. Hoover:

As a result of watching certain TV films made available to the Commission, we would appreciate your undertaking the following investigation:

1. Please interview a French newspaper reporter named Pierre who was in Dallas on November 24 and stated on TV within two or three minutes of the time Oswald was shot that he saw Ruby mingling with the newsmen just prior to the time Oswald came out of the jail office. That interview appears on Reel 13 of the film provided to the Commission by TV Station KRLD. "Pierre" may be identical to Francois Pelou who was interviewed by your agents on December 1, 1963 (Clements Report, December 11, 1963 p. 478). In particular, please ask "Pierre" how long he estimates it was that he first saw Ruby in the basement before he shot Oswald, whether or not he saw Ruby in the basement before Lieutenant Pierce's car drove up the Main Street ramp and where exactly on the ramp he saw Ruby.

2. Please provide for us the exact number of minutes and seconds prior to the shooting of Oswald that the armored truck arrived at the Dallas Police Department on Sunday, November 24. Reel 13 of KRLD-TV film and WBAP-TV film FW-1 appear to be continuous shootings of the events at the Dallas Police Department from the time the armored truck arrived until Oswald was shot.

3. Please also compute from KRLD-TV Reel 13 and from WBAP-TV film FW-1 the length of time that Sergeant P. T. Dean is seen to remain in the jail basement after Oswald was shot.

4. On WBAP-TV reel FW-2 please determine the number of seconds before the shooting that Officer W. J. Harrison is seen to turn and look up the Commerce Street ramp. This event appears

to occur about 20 seconds before the shooting. We would appreciate your furnishing still shots of Officer Harrison as he is looking up the ramp.

5. Please obtain still shots of the following episodes on KRLD-TV Reel 23:

(a) A man who appears to be Jack Ruby in the third floor hallway during the first 19 seconds of this film. Ruby is seen in the foreground from the rear and from a three-quarter view and moves out of the camera's sight to the left after about 19 seconds.

(b) A man who may be Jack Ruby following District Attorney Henry Wade out of the assembly room. This man has a balding head and is seen only from the rear just before Henry Wade leaves the room. This man is dressed in what appears to be a dark suit. Another individual is between Henry Wade and the man just described. This picture appears somewhere between 45:16 and 45:23 minutes on the film.

6. In WBAP-TV reel FW-1:

(a) Please furnish still shots of Jack Ruby standing directly behind Harrison a few seconds before the shooting.

(b) Please compute the time before the shooting at which persons are observed to shout "Here he comes." This event may also be observable on KRLD-TV reel 13.

7. Please provide time computations of the following:

(a) The time it would have taken for Lieutenant Pierce's car to reach the top of the Main Street ramp from the point at which it clears the cameras in WBAP-TV reel FW-2, taking into account the time involved in stopping to pick up police officer Maxey part way up the ramp.

(b) The time it would have taken to leave a car parked where Ruby parked his at Main and Pearl on November 24, unlock the trunk of his car, place his keys and billfold in the trunk, place the trunk key in the glove compartment of the car, walk to the Western Union Office, write out the money order request Ruby filled out, have the clerk process the transaction to

MAT[illegible]

the point of giving him a receipt, and walk to the Western Union exit nearest the Main Street ramp.

(c) The time it would have taken the customer immediately preceding Ruby at Western Union to have her transaction processed.

(d) If possible, please interview that preceding customer for any observations she may have had of Ruby.

Arrangements may be made to view all television materials by contacting Dr. Alfred Goldberg of our staff.

Your continuing cooperation with the Commission is greatly appreciated.

SUBJECT: JACK L. RUBY, aka;

CIVIL RIGHTS

With reference to the prior arrangements that had been lined up to afford Ruby a polygraph examination, Mr. Rankin called today and advised that he had been in touch with Ruby's attorney, Joe Tonahill. Rankin told Tonahill that in view of the promise of the Chief Justice to afford Ruby a polygraph examination he desired Mr. Tonahill to advise Ruby the reasons why the polygraph examination was not being given in order that the record of the President's Commission would be clear on this matter. Tonahill told Rankin that he would not advise Ruby and at this point Mr. Rankin told Tonahill he would arrange for a Commission member to come to Dallas, have a court reporter present, and a member of the President's Commission would advise Ruby the reasons why he was not being afforded a polygraph examination.

Tonahill objected to this and stated that Ruby would disrupt the entire jail when told he was not being given a polygraph and that he wanted no part of agreeing, disagreeing, or having anything to do with advising Ruby that the polygraph interview would not be afforded to him. Mr. Rankin then suggested that the President's Commission send a letter to Ruby advising him. Tonahill objected to this, stating that this would definitely cause trouble for the Sheriff's Office, it being noted that Ruby is confined to the Dallas County Jail.

Mr. Rankin advised that as a result of the conversation Tonahill finally stated that rather than concede to any of the desires of the President's Commission he would prefer that they go ahead and afford Ruby a polygraph examination and that he would like for them to proceed with this examination on Saturday, July 18, 1964. Mr. Rankin was unable to furnish a time.

It was pointed out to Mr. Rankin that the Bureau had previously made arrangements with Arlen Specter, staff member of the Commission, to go over the questions in order to properly line them up for the polygraph examination and that if Mr. Rankin could arrange for Mr. Specter to get together with our Polygraph Examiner between now and Saturday in time to go ahead with the arrangements, the Bureau would proceed with the polygraph as originally

Dear Mr. Hoover:

On page 80 of the recent book by Joachim Joesten entitled "Oswald: Assassin or Fall Guy?" it is stated in reliance on an article in Life Magazine that Clayton E. White, Jr., Director of the National Rifle Association, conducted certain tests with a rifle comparable to the 6.5 millimeter Mannlicher-Carcano used by Lee Harvey Oswald to commit the assassination of President Kennedy.

The Commission would like you to conduct an appropriate investigation to determine whether or not Mr. White or any other representative of the National Rifle Association did, in fact, conduct such tests. If tests were conducted, the Commission would like to know the following: (1) the type of rifle and ammunition used; (2) the qualifications of the person conducting the tests, including the amount of practice with the gun before the test firing; (3) the targets and distances used in the tests; (4) the results of the tests as to the elapsed time and accuracy; and (5) the number of tests attempted.

Thank you for your assistance.

By letter of 7/10/64 (two Xerox copies each for New York and WFO enclosed) the President's Commission has requested this Bureau to investigate statements made in the book "Oswald: Assassin or Dull Cuyt" by Joachim Joesten (Gerrard and Hubsoll publishers) on page 80 to the effect that a Clayton E. White, Jr., National Rifle Association Director, conducted tests with a rifle comparable to the rifle alleged to have been used by Lee Harvey Oswald to kill President Kennedy. For your information the statement appearing on page 80 of the Joesten book is as follows: "'Life' reports that Clayton E. White, Jr., Director of the National Rifle Association, 'fired an identical-echo rifle with an identical sight against a moving target over similar ranges for "Life" last week.'"

Also enclosed for both New York and WFO are two Xerox copies of pertinent paragraphs from an article entitled "End to Ringing Rumors: The Six Critical Seconds" in the 12/6/63 issue of "Life" magazine, page 32F, apparently used by Joesten as the source. Your attention is called to the fact that "Life" reports the name of the National Rifle Association official conducting the rifle tests as Clayton E. Wheat, Jr., and not Clayton E. White, Jr. The current telephone directory for the Borough of Manhattan, New York, contains a listing for a Clayton E. Wheat, Jr., residing at 3 East 64th Street.

JUL 15 1964

For information of the New York Office, Wheat may be identical to the subject of New York file 52-2003 (Rifle Corporation of Covenant Harperty, in which prosecution declined. In this case the subject of above case owned a typewriter stolen from United States Military Academy at West Point in 3/63. He claimed he purchased the typewriter from an unknown individual and denied stealing it from the military academy.

New York and WFO should immediately conduct necessary investigation including interview of Ihnat in New York City and appropriate National Rifle Association officials at headquarters of the association, 1600 Rhode Island Avenue, Northwest, Washington, D. C., to answer specifically and fully the Commission's requests in this matter. Individuals and organizations contacted in this matter should be advised that our investigation is being conducted at the specific request of the President's Commission.

Inquiry in this matter should be expedited and results forwarded to the Bureau in letterhead memorandum suitable for dissemination to the President's Commission.

NOTE:

Instant inquiry from Commission concerns statements appearing in book "Oswald: Assassin or Fall Guy?" on page 80. This book has been reviewed for the Bureau but not for the President's Commission, inasmuch as there was no specific request for such a review from the Commission. The book contains speculation, distorted and unreliable reports concerning the assassination and a claim that Kennedy was killed by a conspiracy. The book summary contradicts our findings in this matter.

SUBJECT: JACK L. RUBY, AKA;
LEE HARVEY OSWALD, AKA - VICTIM

A teletype was received from the Dallas Office today furnishing results of contact with Attorney Joe Tonahill and Clayton Fowler, both of whom represent Ruby. Teletype described objections of Tonahill and Fowler to going ahead with the polygraph interview that was tentatively being set up for Saturday, July 18, 1964. Teletype also stated that District Attorney Wade had voiced objections to the polygraph interview unless certain questions would be asked that he was interested in and stated that Wade had been referred to the President's Commission.

Subsequent to receipt of this teletype, SAC Shanklin advised that Clayton Fowler had again been in touch with the Dallas Office and indicated that Tonahill had no right to speak for Ruby as his attorney and that as the situation existed right now he did not see how any polygraph examination could be afforded Ruby on July 18. He stated that the members of the family had to be consulted and had to reach an agreement and that this had not been completed, and at this time a Mr. Sol Dann (phonetic), an attorney from Detroit, Michigan, got on the phone stating that he represented Ruby's brother Earl and that he was insisting that a psychiatrist in Detroit be consulted relative to this polygraph examination and that he would be guided by the opinions of this psychiatrist before an examination could be afforded Ruby.

During the various discussions which were taking place with the attorney the Dallas Office made it very emphatic that this is not a Bureau matter but is one which is of interest to the President's Commission and that the Bureau was merely attempting to line up an interview date in order that Ruby could be afforded the polygraph examination which had been promised to him by the Chief Justice of the United States.

162-109090

At one point during the discussions Fowler made the statement that no polygraph interview could be had if any representative of District Attorney Wade's office or the Sheriff's Office was present during the interview. Wade, on the other hand, stated to the Dallas Office that he would not permit the interview if

the questions that he desired to have asked were not handled during this interview. Mr. Wade, as well as the defense attorneys, was advised repeatedly that these were all questions that would have to be decided by the President's Commission and it was suggested that they either call the President's Commission or write to the President's Commission setting forth their views.

The state of confusion that now exists concerning the possibility of a polygraph interview on July 18 was telephonically furnished to Mr. Rankin at his office in New York and he stated that he fully agreed with the action that had been taken by the FBI and it was obvious that no interview could be had this coming Saturday. He was told that in all discussions concerning this matter the individuals being contacted were told that this was a matter the President's Commission was interested in and that we were only trying to line up the interview. Mr. Rankin stated that he appreciated the Bureau's views on this and that it was the proper manner in which the Bureau should handle it and he most certainly did not want the Bureau to be placed in the middle on this situation as it was a problem that the Commission and no one else had to handle.

Mr. Rankin did request that the developments that had occurred in this matter be furnished to Staff Attorney Arlen Specter at his office in Philadelphia in order that he would be completely aware of the developments.

Mr. Specter has been advised of the developments in Dallas concerning the proposed polygraph interview with Ruby and understands that there is no possibility of the interview taking place on Saturday as was tentatively being scheduled. Mr. Specter has been advised that in view of the current situation Mr. Herndon of the Laboratory will not keep the appointment with him at 2:00 p.m. on Thursday afternoon which had previously been arranged.

ACTION:

The Dallas Office will furnish any additional developments that may occur concerning this matter, which in turn will be made available to Mr. Rankin.

July 7, 1964

ASSASSINATION OF PRESIDENT JOHN F. KENNEDY, 11-22-63, Dallas, Texas

The following article appeared in the June 30, 1964, issue of "L'Unita", a Rome Italian-language organ of the Communist Party of Italy.

Death of Kennedy Evoked by Brother

According to Bob, the mysterious crime was committed by Oswald, an "anti-social", a "human wreck"

At the conclusion of a speech delivered to the students of the ancient Polish University at Jaghelloni, Attorney General Robert Kennedy commented on the death of his brother and on the personality of Oswald. His statements appear to be very disturbing and, errors excepted, sharply contrast many facts, as well as the attitudes, statements, and acts of Robert Kennedy himself after the tragic events in Dallas.

In response to a question of the President of the Student Association of Krakow, Hieronim Kubiak, Kennedy expressed the conviction that his brother had been killed by Oswald and that Oswald "acted on his own initiative and alone." The Attorney General denied any political intrigue and excluded any suspicion of a plot. He also excluded, with unusual coolness, the suspicious matter of Jack Ruby and did not explain the reason for the killing of Oswald. He went as far as to say that "Oswald was an admitted communist", acknowledging

immediately afterwards that "the communists, because of his attitude, had nothing to do with him." Robert Kennedy said that, in his opinion, Oswald's act was not motivated by ideology; it was the single act of an individual protesting against society."

The thesis of Kennedy (now) is that Oswald was a "human wreck of society," an "anti-social", dissatisfied both with the United States and with Russia, who "felt that the only means to express his strong resentment against society and his dissatisfaction with the way in which he was treated was to kill the President of the United States." In this way Bob Kennedy has brought to a final close the file on his brother.

Dear Mr. Rankin:

There are enclosed two copies of a memorandum dated July 9, 1964, dealing with procedures involved in the issuance of tickets at Laredo, Texas, and Nuevo Laredo, Mexico, of the Transportes del Norte bus line.

Upon detachment of the classified enclosures, this letter may be regarded as unclassified.

NOTE:

Classified "Confidential" as enclosure is so classified to protect our operations in Mexico. The enclosure has been approved for dissemination by Mr. Malley. It deals principally with an explanation for the reissuance of a round trip ticket to one of the passengers on bus on which Oswald traveled from Mexico City to Laredo on 10/2-3/63. Heretofore, the ticketing of the passenger in question was improperly described by an employee of the Mexican bus line.

Dear Mr. Rankin:

There are enclosed two copies of a memorandum in the Lee Harvey Oswald case dated July 10, 1964, pertaining to the revelations of Ernesto Lima Juarez. Our letter dated July 1, 1964, set forth the results of initial contact of Lima Juarez by a confidential source abroad.

On July 10, 1964, Lima Juarez was interviewed by an Agent of this Bureau. He advised that he and Francisco Morales checked into the Hotel del Comercio, Mexico City, Mexico, about September 18, 1963. He said that Morales checked out about October 12, 1963, and that he left the hotel about November 18, 1963.

Lima Juarez said that three Cubans who became acquainted with Morales and later with him were registered at the hotel when he and Morales arrived. He said the Cubans occupied rooms on the second floor of the hotel and that they were apparently unemployed. He said two of the Cubans were male Negroes whom he described as young, tall and slender. He said one of the Cuban Negroes was living with a Cuban Negress who was supporting him. He described the third Cuban as a white male, aged 44 - 46, five feet ten inches in height with a heavy build, dark hair, eyes and complexion. He related that the fourth Cuban was a white male, aged 54 - 58, five feet eight inches in height with brown graying hair, a gray mustache and medium complexion

He said that the fourth Cuban was met by the other three Cubans at the Mexico City Airport on his arrival from Cuba about September 23, 1963. He said this person claimed to have owned a large ranch near Havana which was confiscated by Castro. The fourth Cuban claimed to be en route to Miami, Florida, to join his wife. The fourth Cuban, according to Lima Juarez, departed by airplane for Miami about October 8, 1963.

Lima Juarez said the four Cubans expressed anti-Castro feelings and denounced Castro for his actions and policies. He recalled that a street photographer photographed the older Cubans with Morales, Gabriel Contreras and himself. The five individuals depicted in the photograph signed their names on the back of it. This photograph, according to Lima Juarez, is in the possession of Gabriel Contreras.

He said that on two occasions during his residence at the Hotel del Comercio, exact dates unrecalled, he saw an individual he believes was Oswald talking briefly to the two Cuban Negroes in English at the hotel entrance. Lima Juarez stated he was not positive that the individual talking to the two Cubans was Oswald.

He said he did not know anyone at the hotel except Morales when they first registered there. He claimed he met Gabriel Contreras and the Cubans through Morales who frequented the hotel lobby. He claimed he was attempting to obtain employment for Morales at the Mexican Federal Electric Power Commission.

A confidential source abroad succeeded in locating Francisco Morales in Victoria, Mexico, on June 28, 1964. Morales told our source that he could not recall having seen Oswald at the Hotel del Comercio. Morales said he had drinks on several occasions with two Cubans, one of whom went to Florida. He expressed the belief that an employee at the hotel with the first name of Sebastian would have information as to the guests at the hotel at the time. Morales admitted knowing Lima Juarez and recalled meeting one Contreras, a retired railroad employee from Chihuahua, Mexico. Our source expressed the opinion that Morales did not furnish complete information.

Honorable J. Lee Rankin

On July 9, 1964, we interviewed Julian Huerta Oliva, 221 Alton Road, Miami Beach, Florida, who is believed to be identical with the Huerta-Oliva referred to in the enclosed memorandum. Huerta Oliva stated he resided at the Hotel del Comercio, Mexico City, from August 19 to September 23, 1963. He said he departed for Miami on the latter date and that he saw no other Cubans at the hotel during his stay. He denied seeing Oswald at the hotel.

Inquiry is continuing concerning the statements of Lima Juarez and the results thereof will be furnished to you as received.

Sincerely yours,

J. Edgar Hoover

NOTE:

CONFIDENTIAL because reveals operations in foreign country which must be protected.

Enclosed LHM deals with investigation at the Hotel del Comercio which tends to negate the statements of Lima Juarez. There is big discrepancy between hotel records and Lima Juarez's statements re dates he was at hotel. Moreover, hotel manager and the desk clerk state 3 or 4 Cubans who were at the hotel in 9-63 left prior to date of Oswald's arrival (9-27). Huerta Oliva is believed to be the fourth Cuban referred to by Lima. Instructions have been sent for MM to reinterview him and SA is to reinterview Lima and attempt to establish direct contact with Morales. We are seeking to contact Contreras.

Dear Mr. Rankin:

Reference is made to our letter dated July 14, 1964, concerning Albert Alexander Osborne who is also known as John Howard Bowen.

A source at the American Express Company, Niza 22, Mexico, D. F., Mexico, advised on July 14, 1964, that John Howard Bowen has not been in contact with the company for months. According to the source, the bulk of mail awaiting him at the American Express Company is second-class matter. The only first-class mail being held for Bowen at the American Express Company office is a letter bearing the return address, Mrs. David C. However, Commission is indefinite in this regard. Osborne was fellow passenger with Oswald on bus trip to Mexico City 9/26-27/63. He is a self-professed, professor, probably a con-man, has lied to us and has denied sitting next to Oswald on bus trip. It is doubtful that the Commission will subpoena him.

Dear Mr. Rankin:

Mr. Clayton Fowler, Jack L. Ruby's chief attorney, and Mr. Sol Dann, an associate, contacted the Dallas, Texas, FBI Office on July 15, 1964, and requested that the following information as related by Mr. Dann be conveyed to the President's Commission on the Assassination of President Kennedy.

The Ruby family has consulted with Dr. Emanuel Tanay, 861 Fisher Building, Detroit, Michigan, and Mr. Dann, Mr. Fowler and the Ruby family will be guided by the judgment of Dr. Tanay.

Dr. Tanay, who has in the past made an examination of Ruby, advises that a polygraph examination of Ruby at this time would seriously affect his health. In view of Ruby's present mental condition, Dr. Tanay stated that the results would not be true records or conclusions, and in his opinion, it was highly questionable as to whether such a test would be of any value.

In view of Dr. Tanay's advice, Mr. Dann stated they would not be in a position to allow Ruby to have a polygraph examination at this time. In the event the questions raised by Dr. Tanay are ever resolved, Mr. Dann requested that the following conditions under which such an examination might be given be conveyed to the Commission.

(1) The test would be given in the presence of Dr. Tanay, and either Mr. Fowler or Mr. Dann. No outsiders would be present, and in particular, no one from the District Attorney's or the Sheriff's Offices.

(2) They would have to be assured that the results of the examination would be held confidential by the Commission and under no circumstances made available to the District Attorney or the press.

(3) They would insist on written authority for this examination from Earl Ruby, the brother of Jack Ruby.

Both Mr. Dann and Mr. Fowler advised that Attorney Joe Tonahill had no authority to give permission for Ruby to have a polygraph examination; and although they were very desirous of cooperating fully with the President's Commission, they did not feel that they could do so in view of the possible effect the examination might have on the health of Ruby.

Mr. Dann stated that he was returning to Detroit on July 15, 1964, and that he could be reached at 1820 David Stoot Building, Detroit, Michigan, telephone WO 1-1003; and he will write a letter to the President's Commission concerning this matter upon his return to Detroit.

It was suggested by Mr. Dann that the FBI or the President's Commission might desire to contact Dr. Tanay. He was advised that this Bureau was only acting to set up the polygraph examination of Ruby at the specific request of the President's Commission and that we could only relay his statements to them for their consideration.

This will confirm the telephonic discussions of Mr. James R. Malley with you when you were in New York and your Staff Attorney, Mr. Arlen Specter, in Philadelphia, Pennsylvania, on July 15, 1964. No further action will be taken by this Bureau in connection with the proposed polygraph examination of Ruby unless specifically requested by the President's Commission.

Reference is made to your letter of July 14, 1964.

Special Agent Manning C. Clements advises that when he arrived at the office of Chief Curry at approximately 1:00 p.m. on November 22, 1963, Chief Curry was not in his office and the Agent's best present estimate as to the time Chief Curry arrived is approximately 3:30 or 4:00 p.m. He recalled specifically that Curry's arrival was after Oswald was on the premises of the Dallas Police Department. When he observed Chief Curry in his office, he conveyed the message to Chief Curry personally in substantially the language set forth in his report dated November 30, 1963. Agent Clements had been instructed to deliver this message by Mr. J. Gordon Shanklin, Special Agent in Charge of the Dallas Office of the FBI. No other person is recalled by Agent Clements as having been present when he spoke to Chief Curry.

any information from FBI files to the Police Department relative to Oswald?" was put to him by Mr. Samuel A. Stern of the President's Commission, he replied "No" without further comment.

Mr. Clements states that his answer is factual in that he was at no time instructed to furnish and he did not furnish to the Police Department or anyone else information from prior investigation concerning Oswald.

With regard to my testimony before the President's Commission wherein I referred to a message I sent to Chief Curry requesting that the Dallas Police refrain from announcing to the press details regarding the progress of the investigation into the assassination, Mr. Shanklin states that at 3:15 p.m. on November 24, 1963, he personally telephoned Chief Curry and talked to him concerning the amount of publicity that was being afforded the case. He pointed out to Chief Curry that the President of the United States was concerned over the amount of publicity that was being given out by Chief of Police Curry and Captain Fritz. Chief Curry stated that he was in full agreement that too much publicity was being given out and that he personally would cease answering further questions concerning the matter and would assure that Captain Fritz who had been giving additional statements would do likewise.

Mr. James R. Malley, who was in Dallas at the time, states that on November 25, 1963, Chief Curry was in telephonic contact with him and referred to the fact that the City Manager of Dallas had been in touch with Chief Curry and was insisting that he make a release to the press concerning the case that the Police Department had against Oswald. The release was to be to the effect that at a proper time when the investigation had reached a status where it would be proper to do so evidence against Oswald would be documented and made available to the public. Curry stated he was getting considerable pressure from the City Manager and desired to clear the matter with Mr. Malley. At that time Mr. Malley pointed out to Chief Curry that he had been in touch with Captain Fritz on the evening of November 24, 1963, in Chief Curry's absence and had passed on the President's grave concern over the amount of publicity that was emanating from Dallas.

Honorable J. Lee Rankin

Mr. Malley again contacted Chief Curry at 12:50 p.m. on November 27, 1963, and brought to his attention the President's concern over the publicity that was still being released. Chief Curry advised that he was not making any press releases of any kind, that he had specifically requested individuals in his Department to refrain from making comments to the press, but was having difficulty in controlling this phase of the Police Department's activities. Chief Curry assured Mr. Malley that he would make every effort to see that no comments were made and said that he personally had not made any comments since this matter had been discussed with him on Sunday, November 24, 1963.

Sincerely yours,

J. Edgar Hoover

NOTE:

The Commission by letter July 14, 1964, requested that we check further into the matter of messages which were reportedly sent by the FBI to Chief Curry stating that Chief Curry did not recall receiving these messages. The above information setting forth the contacts with Chief Curry was taken from memoranda in the Dallas files which were recorded at the time setting forth these contacts by SAC Shanklin and Mr. Malley and they clearly and unequivocally verify the testimony of the Director before the Commission.

Mr. J. Edgar Hoover
Director, Federal Bureau
of Investigation
Department of Justice
Washington, D. C.

Dear Mr. Hoover:

In a memorandum captioned "Dallas, Texas, March 23, 1964," your Bureau furnished to the Commission transcripts of all radio transmissions from Channel 1 and Channel 2 of the Dallas Police Department Radio Station, covering the period from 10:00 a.m., November 22, 1963, to 6:00 p.m., November 24, 1963, as they relate to the matters under investigation by this Commission. We note that the descriptive paragraph preceding this transcript indicates that the period covered starts at 12:20 p.m., November 22, 1963. Actually 10 a.m. appears to be the starting point.

These transcripts were apparently made available to the Bureau by the Dallas Police Department. In view of the importance of these transcripts in our investigation we request that your Bureau obtain the original tapes of the radio broadcasts and prepare a new transcript from these tapes, as they relate to the assassination of President John F. Kennedy, the murder of Dallas Police Officer J. D. Tippit, investigation of said assassination and murder, and the security and movement of Lee Harvey Oswald to the Dallas County Jail. Your transcript need only include the time periods of 10:00 a.m. to 3:00 p.m. on Friday, November 22, 1963, and from 10:00 a.m. to 2:00 p.m. on Sunday, November 24, 1963. In addition, we request that the name of the reporting police officer be listed alongside each message. We understand that this is possible in view of the fact that there is an identifying number next to each message.

62-109090

We call your attention to the fact that in the Channel 1 transcript there appears to be an error on page 19 in that immediately above the words "What's that address on Jefferson?" there appears a time entry of 1:10 p.m. This would be inconsistent with the known time of the Tippit shooting and judging from the time entries on the preceding page this would appear to be a typographical error.

With regard to the time of the Tippit shooting, the Channel 1 entry on page 18 would appear to indicate a time of approximately 1:16. On the Channel 2 transcript, however, on page 78, the time appears to be 1:18. During the course of your preparation of a new transcript we ask that you attempt to clarify this apparent discrepancy.

In view of the fact that these tapes are in the possession of the Dallas Police Department, we are forwarding a copy of this letter to Chief Jesse E. Curry and to Attorney General Waggoner Carr.

SUBJECT: LEE HARVEY OSWALD, Also Known As
INTERNAL SECURITY - RUSSIA - CUBA

Orestes Pena, owner of the Habana Bar in New Orleans, advised the New Orleans Office 12/5/63 that Oswald and another individual, whom he thought to be either Mexican or Cuban, came into his bar during the Summer of 1963. Pena indicated he recalled the incident inasmuch as Oswald engaged the bartender in an argument over the price of a drink.

We have conducted considerable investigation in an effort to determine if Oswald ever associated with an individual of Mexican or Cuban origin. We reinterviewed Orestes Pena on 6/9/64 and he recanted his previous statements about knowing Oswald and claims he did not state Oswald was ever in his bar. When confronted with the conflicting nature of his statements to Bureau Agents, Pena became extremely uncooperative and stated he would not assent to further interviews by the FBI and would only honor a subpoena from the President's Commission. Our inquiries indicate that Orestes Pena made application for a United States passport in New Orleans on 6/24/63, the same day that Oswald made application for passport in New Orleans. Our investigation also indicates that Pena has traveled abroad and recently made a trip to Europe. We have also been informed that Pena may have visited Russia during such trip. We are conducting intensive investigation to determine if Pena engaged in activities inimical to the United States. By letter dated 7/1/64 we furnished the President's Commission results of our investigation of Pena, up to date at that time, and suggested the Commission may desire to subpoena Pena to clarify statements he made to Bureau Agents regarding his knowledge of Oswald.

On 7/16/64 Mr. Wesley J. Liebeler of the President's Commission contacted the Bureau and stated he was going to New Orleans Tuesday, 7/21/64, and would have a subpoena served on Pena and interview him regarding conflicting statements he made to the FBI. Liebeler also indicated he planned to examine Pena's passport and would furnish copies of it to FBI for our assistance in our investigation of Pena.

Memorandum to Mr. Sullivan
Re: LEE HARVEY OSWALD, Also Known As
105-82555

Mr. Liebeler stated he would very much appreciate discussing with the New Orleans Office the status of its investigation regarding Pena, up to date when he arrives in New Orleans 7/21/64. He felt such discussion would materially assist him in his interview with Pena. Mr. Liebeler indicated, if this is satisfactory with the Bureau, he will contact the Special Agent in Charge of the New Orleans Office at 8:30 a.m. on 7/21/64 to discuss the up-to-date status of the Pena investigation.

OBSERVATIONS:

Pena, as mentioned above, has been uncooperative with the FBI and it appears he will talk only to the President's Commission when subpoenaed. We have furnished Commission results of our investigation regarding Pena up to date as of 7/1/64. New Orleans has conducted additional checks which have not yet been incorporated in a report forwarded to the Bureau for dissemination. There is no objection if the New Orleans Office orally discusses developments in its Pena investigation with Mr. Liebeler to assist him in his taking of a deposition from Orestes Pena.

ACTION:

Attached is a teletype to the New Orleans Office advising that Mr. Liebeler will contact the New Orleans Office at 8:30 a.m. on 7/21/64 to discuss up-to-date developments in the Pena investigation. We are instructing the New Orleans Office to cooperate with Mr. Liebeler in this discussion and are also informing New Orleans Office, that in the event Mr. Liebeler makes a request for specific investigation by the New Orleans Office, such request be forwarded to the Bureau for approval prior to the initiating of the desired inquiries.

Dear Mr. Hoover:

Enclosed herewith is a copy of a letter received by the Commission from Wolper Productions Inc. You will note that this letter makes reference to some motion picture film taken by an amateur photographer.

Under separate cover this reel of film has been delivered to Special Agent Lyndal L. Shaneyfelt of your Bureau and we request that this film be examined to determine whether it contains any information which might assist the Commission in its inquiry.

Sincerely,

Sir:

At present, I am in the process of producing a documentary film similar in scope to our production, THE MAKING OF THE PRESIDENT-1960. It deals with the tragic assassination of President Kennedy, and the events that followed. It is being done in conjunction with United Press International, and is called FOUR DAYS IN NOVEMBER.

During the course of my research, I have probably looked at more film than any individual on the events of those days. Recently, I came across a badly exposed shot, taken by an amateur, of the Kennedy motorcade as it passed the Book Depository. In case you have not already examined this piece of film, I am enclosing it.

I am anxiously awaiting the Commission's Report in the hope that it will clear up certain questions I have in regard to our final script.

In this regard, as an American citizen, I am disturbed by what I consider the unjustified and untrue statements that are being bandied around in the European press as regards the basic facts of the case. If I may offer a suggestion, I think it would be highly profitable in regard to a true understanding of this tragic event, if as many still pictures concerning the assassination could be released, which would validate the accuracy of the report.

For example, there have been rumors in the foreign press that someone could have shot the President from the railroad bridge that is on top of the underpass leading to Stemmons Freeway.

I am enclosing a still blow-up from a 16mm film which shows a crowd of people who were watching the motorcade approach. Obviously, an assassin could not lift up a rifle and fire from the middle of such a crowd. A photographic still like this, I feel, could serve as visual proof of the Commission's Report.

Thank you for your patience.

Very truly yours,

Dear Mr. Rankin:

Reference is made to your letter dated July 3, 1964, requesting an examination of a roll of motion picture film taken by an amateur photographer that was furnished to the Commission by the Wolper Productions, Incorporated.

This film has been examined and it was found that it shows very little of the President's motorcade during the firing of the assassination shots. Should members of your staff desire to view this film, please advise us and appropriate arrangements will be made. The roll of film you furnished is returned herewith. A copy has been retained for our records.

Dear Mr. Hoover:

In order to obtain details of Jack Ruby's activities after September 26, 1963, please re-interview Mr. Robert Craven and Mr. Derostus H. Miles (Clements Report, December 6, 1963, pages 70 and 73).

Please ask Mr. Miles how he places his first meeting with Jack Ruby as September 24, 1963, whether or not he met Ruby on any occasion before "How Hollywood Makes Movies" opened on Sunday, September 29, 1963; and, if so, when those meetings took place, for how long, where, who else was present and what was said. Please ask Mr. Craven if he contacted Mr. Ruby by telephone or otherwise on September 26, 27, 28 or 29, 1963 and whether or not Mr. Ruby invested any money in "How Hollywood Makes Movies".

Please ask both Mr. Craven and Mr. Miles if they saw Ruby at any times at the Fair Grounds or elsewhere in Dallas before their show opened on October 5, and, if so, please obtain pertinent details. Also please attempt to ascertain on approximately how many days Ruby visited the show, what times of the day, when they visited Ruby away from the Fair Grounds, and the details of when, where, how they obtained from Ruby the various props which he loaned them. Please also inquire if they remember Ruby obtaining any political radio scripts called "Life Line" or in any way commenting on certain right-wing literature being distributed at the Dallas Fair by H. L. Hunt or other conservative groups. Please also obtain any details they may be able to provide on how they happened to hire "Larry" Crafard and his activities while in their employ.

NOTE: The Commission by letter dated 7/14/64 requested that we interview three collateral relatives of Ruby for background information concerning his parents, Joseph and Fannie Rubenstein, with particular reference to whether or not they ever had any communistic connections and to determine the number of their siblings and what has become of them. We have conducted extensive investigation and developed considerable background concerning Joseph and Fannie Rubenstein, their origin in Russia and Poland and their immigration to this country and established through records their entrance into this country with two older children, Hyman and Marion, and the birth of his other brothers, Earl and Samuel, and other sisters, Ann, Irene and Eva, in this country. We have never developed any positive information indicating any connection whatever of any member of the family [illegible] activities. We will interview the three collateral relatives.

Dear Mr. Hoover:

The Commission is interested in determining what ties were maintained over the years between Joseph and Fannie Rubenstein, parents of Jack L. Ruby, and their relatives in Europe and the United States. The Commission is also interested in any information which can be developed concerning the number of siblings of Joseph and Fannie, what has become of those siblings, and the family backgrounds of Joseph and Fannie.

In these regards, please interview the following collateral relatives of Jack Ruby:

Dr. Hyman I. Rubenstein, 2335 West Devon, Chicago, Illinois; Morris Rutland, Esq., 300 Elm Street, Denver, Colorado; and Mrs. Bertha Miller, whose address may be obtained from Mrs. Eva Grant, 3929 R...wlins, Dallas, Texas.

Please also ask those persons whether any of their relatives, in Europe or the United States, who are related to Jack Ruby were known to have engaged in any Communist activities and whether they personally had ever been members of the Communist Party or any subversive organization.

NOTE: The letter furnished by U. S. Secret Service was written by Sergeant John J. O'Keefe of the Boston PD who stated he attempted to write on several different occasions and has attempted to write the Attorney General. He refers to various dreams he has had, some of which he attributes the similarities to the assassination and he also makes comments concerning religious beliefs and feelings. He expressed his sympathy and admiration for Mrs. Kennedy and the late President. He also indicated he wanted Mrs. Kennedy to tell the Attorney General to be extremely cautious during the next two months, apparently based on his premonitions. Copy of letter to Dept by 0-6. Enclosed herewith for New York and Dallas are two copies of a letter from the President's Commission dated July 16, 1964, requesting that we interview Mr. Jack Rubenstein of New York concerning the possibility that he was mistaken for Jack L. Ruby by Mrs. Thelma Marks, and, if not, to conduct certain additional investigation to identify the person referred to by Mrs. Marks.

For the information of New York Mrs. Marks was interviewed on 12/20/63 at Gary, Indiana, at which time she stated that she and her husband, Sidney Marks, in the summer of 1947 attended a communist camp called Camp Unity near Kingston, New York, where they encountered a person she remembers by name as Jack Rubenstein whom she thought was identical with Jack L. Ruby. Her husband, Sidney Marks, who is manager of the Cowan Shoe Store, 16 East 34th Street, Manhattan, New York, was interviewed by your office concerning this allegation.

Muncie, Indiana, area during the period 1942 to 1947 when Ruby was alleged to have attended Communist Party meetings there. With regard to determining if any of these persons attended Camp Unity, confine your inquiry to a search of your files.

Submit results by letterhead memorandum suitable for dissemination to the President's Commission promptly upon completion. Furnish appropriate copies to Dallas.

NOTE:

We previously interviewed Jack Rubenstein of New York on the basis of an allegation that Jack L. Ruby had sponsored a dinner in New York City where Mark Lane had given a speech. Rubenstein, who is vice-president of the Textile Workers of America Union, stated that he had sponsored the dinner. Roy William Fehrenbach has alleged that Ruby attended three Communist Party meetings in Muncie, Indiana, between 1942 and 1947. We have conducted extensive investigation concerning this allegation which would indicate that it is without merit. The Commission is apparently attempting to determine if there is any relationship between these two obviously unrelated allegations. Mrs. Thelma Marks' husband, when interviewed, in New York recalled the person whom his wife spoke about though not by name. He was exhibited photographs of Ruby and said he was definitely not the person.

SUBJECT: JACK L. RUBY, aka;

CIVIL RIGHTS

Mr. Malley has advised that Mr. Rankin of the President's Commission has called today advising he has made arrangements to proceed with the polygraph examination of Ruby at the Dallas County jail. Mr. Rankin said that the test is scheduled for Saturday, July 18, 1964. Mr. Arlen Specter of the President's Commission staff, who is representing the Commission, telephonically contacted SA Bell P. Herndon, polygraph examiner, FBI Laboratory, at 2:30 PM today.

Mr. Specter advised that in view of the shortage of time he did not have time today to discuss the questions to be asked during the polygraph examination but that he would go over the questions with SA Herndon while both are en route to Dallas tomorrow morning.

Mr. Specter stated that the Commission was assuming full responsibility in view of the fact that Ruby's attorneys and doctor have recently advised that a polygraph examination would seriously affect Ruby's health.

SA Herndon is making the necessary arrangements to conduct the polygraph examination as requested by the Commission on 7/18/64. Dallas is being advised of the above.

Dear Mr. Rankin:

Reference is made to your letter of June 4, 1964, requesting certain investigation regarding previous statements made by Paul R. Jones and former Dallas County Sheriff Steve Guthrie. Enclosed herewith are two copies each of two memoranda dated June 29, 1964, at Charlotte, North Carolina, and two copies of a memorandum dated June 16, 1964, at Mobile, Alabama, setting forth results of the requested investigation relating to Paul R. Jones.

You will note that there is also included an allegation furnished to this Bureau by Mr. Charles Woods of Dothan, Alabama, to the effect that a John Paul Jones was in Chicago, Illinois, with Jack Ruby two weeks prior to the assassination and the results of our interview with Paul R. Jones concerning the allegation.

With regard to your request that this Bureau ascertain whether or not there are in existence phonographic recordings and tapes which were made in connection with the Dallas crime investigation from 1946 to 1948, there are enclosed herewith two copies of a memorandum dated July 9, 1964, at Dallas, Texas, setting forth the results of a review of the records of our Dallas Office concerning that investigation.

It has also been determined that the Court of Criminal Appeals, Austin, Texas, has a "Statement of Facts" in the case entitled "Jones versus State, Court of Criminal Appeals Number 23837." The 1948 edition of the "Southwestern

Reporter," Second Series, Page 209, revealed that the "Statement of Facts" is composed of a regular transcript of testimony received from the witnesses, along with a motion picture film and forty-two phonograph recordings, the latter of which are also transcribed and prepared in writing. Neither the film nor records were introduced in evidence, but were played before the jury during the trial.

The film and records were explained by Texas Ranger Naylor, who testified he had made them. The court reporter, in making up the record for the appeals court, also played these records and transcribed the words therefrom. The transcription was made into an approximately two hundred page volume attached to and made a part of the "Statement of Facts." Original records were forwarded to the Court of Criminal Appeals.

We are presently conducting a review of the records of the Court of Criminal Appeals to determine whether or not the name of Jack L. Ruby is mentioned anywhere in these records. You will be advised of the results of this review.

Sincerely yours,
J. Edgar Hoover

NOTE: Former Dallas County Sheriff Steve Guthrie when previously interviewed regarding Ruby alleged that Ruby appeared prominently in an investigation of crime conditions in Dallas from 1946 to 1948. Dallas Police Lt. Butler, when inter-
Enclosures (8) viewed, stated that he worked on this same investi-
gation and that Ruby's one connection was that upon completion of investigation and Jones' conviction, Jones and his associates began to hang out at Ruby's nightclub. Jones when interviewed previously did not indicate Ruby was connected with his criminal activities in Dallas for which he was convicted. His conviction stemmed from attempts to bribe Dallas officials. Jones now says specifically that Ruby was not connected with his criminal activities.

Charles Woods, President of Station WTVY, Dothan, Alabama visited the Bureau on 6/5/64, and made the allegation referred to above concerning a John Paul Jones and Ruby being in Chicago. Paul R. Jones, until recently has resided in Alabama where he received considerable publicity as a stock swindler and con man and from statements made by Woods is obviously the John Paul Jones he refers to. Jones was interviewed re this allegation and emphatically denies seeing Ruby in Chicago prior to the assassination as alleged.

Dear Mr. Rankin:

Reference is made to your letter of June 24, 1964, requesting certain investigation regarding a tape recording made by Ike Pappas and that we obtain a copy of Defendant's Exhibit Number 8 introduced into evidence in the Ruby trial.

Enclosed are two copies of a memorandum dated July 2, 1964, at New York, New York, setting forth an interview with Ike Pappas. One copy each of the two photographs referred to by Pappas are also enclosed. The copy of the tape recording furnished by Pappas is being retained by the FBI Laboratory.

An examination by the FBI Laboratory of the tape recording furnished by Ike Pappas, news reporter for Station WNEW, New York, revealed that no identifiable utterances were made by Ruby at the time he shot Oswald.

Examination of the photograph shows the close proximity of the reporter Pappas to the principals involved. Two groans are heard on the tape immediately following the shot, however, it cannot be said whether any utterances by Ruby would have been picked up by the microphone at this time.

Enclosed also are two copies of a memorandum dated July 7, 1964, at Dallas, Texas. Pursuant to the telephonic discussion of Mr. J. William Hines of this Bureau with Mr. Burt W. Griffin on July 1, 1964, the two photographs referred to in the memorandum of July 7, 1964, are enclosed.

This concludes the investigation requested in your letter of June 24, 1964.

Dear Mr. Hoover: President's Commission

In connection with Jack Ruby's activities on Saturday night November 23, 1963, please conduct an investigation to determine whether or not Ruby visited the Empire Room, 1710 Hall Street, Dallas. John Henry Branch, Manager of the Empire Room, has testified to seeing Ruby at the Empire Room on Saturday night at about 9:00 p.m., talking to Eva Grant earlier that day, and later hiring a piano player for Ruby.

Mr. Harry Lee Jackson has stated that Ruby visited the Empire Room on Sunday November 17. (Clements Report December 19, 1963 p.112) It now appears from Mr. Branch's testimony that he may have been confusing Ruby's visit on November 17 with the night of the 23rd.

In particular please ask Mr. Jackson if he remembers what time he saw Ruby on November 17 and what he recalls Ruby wearing. Please ask Mr. Branch for the name of the piano player he claims he hired for Ruby on Saturday November 23 and interview that piano player concerning his dealings with Mr. Branch and Mr. Ruby. Please also re-interview Mrs. Grant to determine whether or not she recalls talking with Branch about a new piano player the day before Oswald was shot.

Dear Mr. Rankin:

Reference is made to your letter dated July 16, 1964, concerning a purported tape-recorded conversation between Mr. Mark Lane and Mrs. Helen Markham on March 2, 1964.

Enclosed are two copies of a memorandum dated July 16, 1964, Washington, D. C., captioned "Lee Harvey Oswald, aka., Internal Security - Russia - Cuba," which contains a transcript of the tape recording furnished by you with the referenced letter. Also enclosed are the original tape recording and two dubbed copies which were prepared by the FBI Laboratory.

The magnetic tape was examined and was found to be continuous with no splices. However, the art of tape recording is such that after skillful editing of a tape (adding or deleting words or making other changes) a copy can be made in which the changes cannot be detected. Therefore, the fact that this tape was continuous with no splice does not necessarily establish that the recording represents a verbatim account of the original conversation.

With the submission of the enclosures, your request of July 16, 1964, has been handled.

Sincerely yours,

J. Edgar Hoover

We call your attention to the English translation of Commission Exhibit 1, a copy of which is herein enclosed. In two instances your translation has items in parentheses which would appear to be more appropriately placed in brackets. We have reference to paragraph 9 and paragraph 10. As the translation now appears, it is confusing in that some of the material in the parentheses, such as in paragraph 2 and paragraph 6, actually appeared in the note as written, whereas the items in paragraph 9 and 10 represent the interpolations of the translator.

We would appreciate receiving a corrected translation embodying these changes in order that we can properly prepare this exhibit for publication.

Reference is made to your letter dated July 14, 1964, in which you called my attention to the English translation of Commission Exhibit 1, stating that in two instances the translation has items in parentheses which would appear to be more appropriately placed in brackets.

Referring to paragraph nine, a comparison of the translation with the original evidence indicates that the translator's use of parentheses is proper in that the original also reflects such usage of parentheses.

Concerning paragraph ten, although it was originally felt from the context that the parenthetical expression was self-explanatory, in accordance with your request the parenthetical expression has been identified as a translator's note in the amended translation, which is being furnished to you.

Dear Mr. Rankin:

Reference is made to our letter dated May 20, 1964, with which were enclosed twelve photographs of various areas of Mexico, D. F., Mexico, and Monterrey, Mexico, bearing some relationship to the activities of Lee Harvey Oswald in Mexico, and twelve photographs of material briefly describing the scenes depicted.

Our letter of reference advised that we have acquired a wall map of Mexico, D. F., Mexico, in connection with the preparation of a formal exhibit. We inquired as to your desires concerning utilization of the enclosed photographs in connection with the preparation of the exhibit.

This is to advise that we are holding in abeyance the preparation of the exhibit pending receipt of advice as to the photographs to be utilized in connection therewith. You may desire to have members of your staff contact Inspector Leo J. Gauthier of this Bureau in connection with the format and other factors relating to the production of the exhibit.

NOTE:

Commission representatives who visited Mexico in 4/64 requested a large wall map of Mexico, D. F., Mexico, and pictures of areas in Mexico frequented by Oswald. Legat dispatched this material to Bureau and on 5/13/64 Inspector Malley discussed the photographs which were of composite type with Mr. Willens of Commission staff who requested one copy each of the composite photographs be sent to Commission for their perusal after which Commission would advise as to exact pictures they desired. We are holding up preparation of wall map exhibit requested by Commission by 4/24/64 letter awaiting word as to which of the photographs Commission desires to utilize in connection therewith. Believed advisable to call this to attention of Commission to avoid possible last-minute rush request for preparation of the exhibit.

The attached copy of a letter dated April 21, 1964, from MELVIN BELLI, former RUBY defense counsel, to WALTER E. CRAIG, President, the American Bar Association, came into possession of this office on July 2, 1964, from a PCI, unsolicited.

The letter was apparently occasioned by items which appeared in the press sometime after conclusion of the RUBY trial to the effect Mr. CRAIG had announced a hearing of the American Bar Association would be held to consider the unethical and intemperate behavior of BELLI at the conclusion of the trial and upon hearing the verdict.

FBI is mentioned on pages 17, paragraph one, and 22, paragraph 2.

In the event the Bureau desires to furnish a copy to the President's Commission, it is requested same be reproduced at Bureau as no copy is being retained by Dallas.

Dear Mr. Rankin:

Enclosed herewith is a copy of a letter dated April 21, 1964, from Melvin Belli, former Ruby defense counsel, to Walter E. Craig, President of the American Bar Association. The letter came into possession of this Bureau through a confidential source and it is requested that you consider this fact prior to any disclosure of the information set forth therein.

It is being forwarded for your information inasmuch as it contains data relating to Jack L. Ruby and his trial in Dallas, Texas.

With reference to the statement made by Mr. Belli on page 17 of the letter to the effect that Sergeant Dean of the Dallas Police Department recently complained to his chief of police that the FBI had accused him of lying, I wish to advise you that this statement is completely false. No Agent or representative of this Bureau has accused Sergeant Dean of lying nor have they at any time discussed with Sergeant Dean his testimony given at the trial of Jack L. Ruby.

Sincerely yours,

J. Edgar Hoover

NOTE:

Dallas obtained [from a confidential source] a copy of a letter directed by Belli to Walter E. Craig, President of the ABA in which he states that he will not resign from the ABA and tells Craig that he will have to be kicked out publicly. He goes into a lengthy and typically Belli discussion of the public charges made by Craig against him concerning his handling of Ruby's defense and attempts to justify and defend his position against these charges. He states on page 17 that Sgt. Dean was allowed to testify to conversation by Jack Ruby a half hour after Ruby's arrest (these statements indicated premeditation on Ruby's part). He said that Dean complained to the Chief of Police that the FBI had accused him of lying. This refers to the incident wherein Dean was interviewed by Mr. Burt Griffin of the President's Commission after the trial or Ruby, after which Dean complained to Chief Curry that Griffin had accused him of lying in his testimony at the trial. Chief Curry complained to Mr. Rankin who recalled Griffin from Dallas. His only other reference to the FBI is on page 22 where he speaks of the many rumors concerning the assassination and Ruby which he felt hurt his case as they made it appear that the law enforcement agencies, local, national and the FBI, could not or would not report the "plot" in all its intendments.

Dear Mr. Hoover:

Please re-interview Mr. Roy William Pike aka Mickey Ryan concerning his association with Jack Ruby prior to November 22, 1963, his own activities on November 22, 23 and 24, and his decision to leave Dallas shortly after Ruby shot Oswald (Clements Report, November 30, 1963, p. 530; Clements Report, March 28, 1964, p. 3).

In particular, please also ask Ryan to give details of his alleged meeting with Ruby at the Carousel Club on November 21, 1963 and to state whether or not he saw or talked with George Senator, Ralph Paul, Harry Olsen, "Kathy Kay" Coleman, Karen Bennett Carlin aka "Little Lynn", Bruce Carlin, Tammie True, Breck Wall, or Joe Peterson on November 22, 23, or 24. Please also ask if he made any long distance calls from the Carousel Club or if Ruby made such calls from his phone.

Please re-interview Mr. Alfred Davidson (Clements Report November 30, 1963 p.381) to ascertain where Ruby telephoned him from on November 20 or 21, 1963, why, and the details of that conversation. The Commission does not find that call listed in any of its telephone records and wishes to determine if Ruby was outside of Dallas at that time or regularly used telephones of which it is not aware.

Please also ask Mr. Davidson for the name of the Credit Manager of Nieman-Marcus who was Ruby's friend and interview that individual concerning his contacts with Ruby, particularly after September 26, 1963, if you have not already done so. Enclosed herewith for Dallas and Los Angeles are two copies of a self-explanatory letter from the President's Commission dated July 16, 1964, requesting that we interview Alfred Davidson concerning his association with Ruby after September 26, 1963.

Los Angeles previously interviewed Davidson on 11/25/63 at the Hollywood Parkway Motel, 11034 Ventura Boulevard, North Hollywood, California. He stated at that time that he anticipated that he would soon move into his own business called Alfred Davidson and Associates, Suite 107, in a building located next to the KLAC Building, 5800 block, Wilshire Boulevard, Los Angeles, California.

Los Angeles handle the requested interview and submit results promptly by letterhead memorandum suitable for dissemination to the President's Commission. Furnish appropriate copies to Dallas.

NOTE: Davidson previously advised that he was in Dallas in September and October of 1963 representing Oleg Cassini, Women's Fashions, New York City, and promoting a radio show. He met Ruby at this time and said he frequently saw him while in Dallas. At the time of interview he said that Ruby had called him in California only a few days before the assassination, however, the check of toll calls of Ruby's telephone does not reveal such a call. Commission desires Davidson be questioned concerning this call and for further details concerning his relationship with Ruby be obtained.

Dear Mr. Hoover:

The Commission would appreciate your checking further for us into the matter of messages which reportedly were sent by the Federal Bureau of Investigation to Chief Curry during November 22-24, 1963.

In a report of your Bureau prepared by Special Agent Manning C. Clements, dated November 30, 1963, File No. DL 44-1693, Mr. Clements reports that during the afternoon of November 22, 1963 he personally advised Chief Curry of his presence to relay any requests for FBI assistance and "upon instructions of SAC SHANKLIN, Chief CURRY was informed Director Hoover had expressed his concern that OSWALD should be afforded the utmost security." Chief Curry does not recall receiving any such message. Would you please investigate and advise whether the message regarding security precautions for Oswald was conveyed by Agent Clements personally, if not by whom, the agent's best recollection of the precise time and location at which the message was delivered, in whose presence the message was delivered, and the contents of the message.

While testifying before the Commission, Mr. Clements stated that he was not a "conduit for any information that the FBI had concerning Oswald to the Dallas Police Department." In light of the Agent's report referred to above, we would appreciate it if his testimony could be clarified in this respect.

Reference is made to letter from Mr. Rankin of the President's Commission dated July 16, 1964, requesting that the original tapes and certain radio broadcasts be obtained from the Dallas Police Department. It is noted a copy of this letter was sent to Chief of Police Jesse E. Curry in Dallas and to Attorney General Waggoner Carr of the State of Texas.

SAC Shanklin advised in late afternoon of 7/20/64 that while making arrangements with Chief of Police Curry to obtain the desired tapes in order to comply with the Commission's request, Chief Curry stated he had been requested by Attorney General Waggoner Carr to obtain a copy from the FBI of whatever information the Bureau was compiling to be given to the President's Commission.

SAC Shanklin stated that inasmuch as the President's Commission letter of 7/16/64 had been sent to Waggoner Carr, he thought there would probably be no objection to this but before doing so desired to clear the matter with the Bureau in order that it could be discussed with the President's Commission. Mr. Shanklin submitted a teletype dated 7/20/64 setting out full details concerning this matter.

Mr. Rankin was telephonically contacted on the morning of 7/21/64 concerning this matter. He questioned Malley as to whether the Bureau saw any objections to Carr receiving this material. Malley advised Rankin that this was strictly a decision for the President's Commission and that we would comply with the wishes of the Commission. Mr. Rankin was advised the only possibility of any difficulty arising might be that in the event, while reviewing the tape of radio transmissions, we discovered variances from that which had been previously recorded by the Dallas Police Department. Mr. Rankin stated that if there were no variances in the transcript when it was prepared by the Bureau there would be no objection to a copy being made available to State Attorney General Carr. He stated that if a serious variance should be noted, then he would appreciate being advised of full information concerning the variance and he would decide what action should be taken.

NOT RECORDED JUL 23 1964

The results of the conversation with Mr. Rankin have been made known to SAC Shanklin and he will handle this situation in accordance with Rankin's desires.

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, Northeast
Washington, D. C.

Dear Mr. Rankin:

Reference is made to your letter dated July 3, 1964, concerning a communication written by Mrs. Rita McCarty and my letter dated July 14, 1964.

Enclosed are two copies of a memorandum dated July 14, 1964, Dallas, Texas, captioned "Lee Harvey Oswald." The memorandum contains results of investigation conducted by our Dallas Office to locate photographs of a bone specimen.

The photographs in question were obtained from Jack C. Harper, M.D. They are two thirty-five millimeter Kodachrome transparencies bearing numbers thirteen and twenty, which are enclosed. Also enclosed is one small metal canister which contains a black and white thirty-five millimeter film strip negative revealing various exposures of the same bone specimen. This film strip was furnished by Mr. H. Wayne Bolletor, Chief Medical Photographer, Methodist Hospital of Dallas.

13 JUL 64 COMM-FBI

The FBI Laboratory has reproduced for your assistance, two enlarged copies each of the thirty-five millimeter color transparencies. They have also reproduced two enlarged copies each of the black and white negatives. In this respect the black and white negatives which were reproduced are outlined in red on the film strip.

NOTE:

By letter dated July 3, 1964, the President's Commission advised a letter was received from the Attorney General written by Mrs. Rita McCarty in which she suggested she may have information regarding a person who has in her possession photographs of some remnants of skull bone found at the scene of the assassination on 11-22-63.

Our investigation in Dallas located two 35 mm. color transparencies and a 35 mm. black and white film strip negative. These transparencies were obtained from Dr. Jack C. Harper, M.D. whose nephew Billy P. Harper found the skull remanent near the scene of the assassination. This skull remanent when originally furnished to our Dallas Office was sent to the Laboratory and then transmitted to the President's physician on 11-27-63. Mr. Bolleter photographed the skull remanent, furnished color transparencies to Dr. Harper and in addition made a strip of 35 mm. black and white negatives which he has not previously printed. These gentlemen requested this material be returned and this concludes our inquiries in this phase of the investigation.

NOTE:

The Commission by letter June 30, 1964, requested that we interview one A. D. Hodge, a local Dallas gun collector, who alleged that he joked with Ruby in the Dallas Police Department elevator on November 22, 1963, to determine if there were any witnesses and, if so, to interview them. Hodge identified one officer who was in the elevator who was interviewed and recalled the incident. By letter dated July 9, 1964, the Commission requested that we interview Frank Boerder, a Dallas architect who had done work for Ruby in connection with his clubs, for details of a discussion between Mrs. Bertha Cheek, who was to put up money for a new club, and Ruby. Boerder was allegedly present during the conversation. Upon interview he stated that the conversation was confined strictly to the proposed new club and no political matters at all were discussed with Mrs. Cheek.

Dear Mr. Rankin:

Reference is made to your letter dated July 10, 1964, in which you requested a re-interview with Mr. Jess Willard Lynch.

Enclosed are two copies of a memorandum dated July 16, 1964, Phoenix, Arizona, captioned "Assassination of President John F. Kennedy, Dallas, Texas, November 22, 1963," which reveals the results of the re-interview with Mr. Lynch. Also enclosed are two copies of an FBI Identification Record, Number 1 762 352, which appears to relate to Mr. Lynch.

Your attention is directed to the report of Special Agent Robert P. Gemberling dated December 23, 1963, Dallas, Texas, captioned "Lee Harvey Oswald." Page 453 reveals an interview with Mr. Lynch which was conducted on December 3, 1963, at Page, Arizona. At that time Mr. Lynch denied that he has ever been arrested and stated he served honorably in the United States Army under Army Serial Number RA 35212310. In Mr. Lynch's current interview he again denied that he had any previous arrests. However, your attention is also directed to the last entry on the FBI Identification Record which reveals the Contributor of Fingerprints as

NOTE:

Lynch previously interviewed by Phoenix 12-3-63, results of which were incorporated in the report of SA Cemberling dated 12-23-63. Lynch was formerly a cook at the boarding house in Dallas for Bertha Cheek. Previous investigation established Bertha Cheek had some previous contact with Jack Ruby and this matter was thoroughly investigated. The Commission desired Lynch to be re-interviewed to determine what relevance if any, Lynch believed the information he provided in Page, Arizona, on December 3, 1963, had to the assassination of President Kennedy or Oswald. The Commission also desired to be informed how Mr. Lynch originally came to be interviewed. Although Lynch denies any previous arrests, our Identification Records reveal previous arrests and it appears to be identical as his military service number, which he originally furnished on 12-3-63, tallies with that submitted by the Army 2-5-46, at Cleveland, Ohio. The arrest record was furnished to the Commission for their information and our inquiries are concluded.

NOTE:

This matter relates to the repair tag located at the Irving Sport Shop in Irving, Texas, bearing the name "Oswald." Dial D. Ryder, an employee of the sport shop, has been interviewed on several occasions by the Bureau and the President's Commission. He has previously admitted preparing this repair tag. However, investigation to date indicates Ryder may have fabricated the repair tag. The only fact which lends credence to his story are the comments made by Mrs. Edith Whitworth, who formerly operated a used furniture store near the gun shop, alleging Lee Oswald appeared in her store and was directed to the gun repair store. Marina Oswald has previously denied she was ever in this furniture store. However, in an attempt to resolve this situation, it appears the Commission is attempting to locate other individuals who were in the furniture store and who were possibly mistaken to be the Oswalds. The check for female babies pertains to comments made by Mrs. Whitworth which refers to the age of her grandsons and the age of Marina Oswald's child who was born on October 20, 1963.

SUBJECT: WALTER REED MAC ARTHUR
INFORMATION CONCERNING

By letter dated 7-2-64, Senator John Sherman Cooper, Republican (Kentucky), forwarded a typewritten letter he had received from captioned individual. It was postmarked at New York City on 6-24-64. The inside communication was addressed "To The Warren Commission--Re: JFK," and purported to give that body leads to the genuine facts surrounding the assassination of President Kennedy and others.

This is the second communication from this individual to U. S. Senators, the first being sent to Senator Barry Goldwater. In each instance, the contents are fantastic and indicate the sender is apparently afflicted with a mental disorder.

Bufiles contain no information concerning Walter Reed MacArthur, and it was surmised this is a bogus name which the correspondent derived from the fact that the General died in Walter Reed Hospital. Weight is added to this theory by the fact the second letter mentions General MacArthur as having been the victim of a murder plot which was executed by a ring headed by Senator Goldwater and former New York City Mayor William O'Dwyer.

RECOMMENDATION:

That someone from your office (Mr. DeLoach's) drop by Senator Cooper's office and orally acknowledge receipt of his communication.

AND THAT IT IS PROBABLY BOGUS.

Dear Mr. Rankin:

Reference is made to your letter dated May 20, 1964, and several discussions held between Mr. Howard Willens of your staff and Inspector James P. Malley of this Bureau.

This will confirm the discussions held between Mr. Willens and Inspector Malley in which it was agreed there is no necessity for making available to the Commission for permanent record the reports from our Dallas Office for the year 1963 which pertain to persons believed active in the Communist Party or the Socialist Workers Party. Regarding your request concerning the John Birch Society and "Minutemen," this is to advise this Bureau did not conduct any investigation of those organizations or its members in the State of Texas during 1963.

By memorandum of 7/22/64, advised that Mr. Arlen Specter of the President's Commission staff would contact SA Bell P. Herndon, FBI Laboratory, regarding submission of a report pertaining to the polygraph examination afforded Jack Ruby on 7/13/64, at Dallas, Tex.

Mr. Specter telephonically contacted SA Herndon 7/24/64, and requested SA Herndon to be present for a conference at 12 noon Tuesday, 7/28/64, and to give a deposition at 2:00 p.m. regarding the polygraph examination of Ruby. With regard to the submission a report, he desired a brief report in letter form of the polygraph examiner's conclusion. This letter is being prepared and will be furnished to the Commission prior to the deposition.

Attached hereto for record purposes are copies of the questions used and polygraph charts produced by Jack Ruby at Dallas, Texas, 7/13/64. Also enclosed for record purposes is the executed Bureau form "Consent to Interview with Polygraph," FD-328, signed by Jack Ruby prior to the examination and witnessed by Special Agents Bell P. Herndon and W. James Wood.

Mr. J. Edgar Hoover
Director, Federal Bureau of Investigation
Department of Justice
Washington, D. C. 20535

Dear Mr. Hoover:

The Commission would appreciate your conducting further investigation into the following matters:

1. Captain King of the Dallas Police Department has testified to the Commission that when the first television cameramen arrived at the Police and Courts Building on November 22, he was asked by them whether they could enter the third floor corridor; King said that he checked with a superior, either Deputy Chief Lunday or Deputy Chief Lumpkin, who approved his permitting the cameramen on the third floor. Please reinterview both Lunday and Lumpkin to determine with whom King checked as to admitting the newsmen, and any other information either has as to who in authority at the police department considered and approved the decision to allow newsmen on the third floor.

Also ask Deputy Chiefs Lunday and Lumpkin whether they are aware of any loose press cards or badges having been found lying in the basement after Ruby's apprehension on November 24.

2. At approximately 11:15 a.m. on Sunday morning, before Captain Fritz and four detectives left Fritz's office with Oswald for the basement, somebody who was in Fritz's office telephoned down to the basement jail office to make sure that all security measures were in effect. Please interview Lieutenant T. L. Baker to determine whether he was the person who made this call to the basement, if so, the time at which the call was made, to whom he spoke, precisely what was said over the phone, precisely what he reported about this conversation to Captain Fritz, and the time at

which he made any such report to Fritz. In addition, determine whether Baker is aware of any similar telephone calls that were made to the basement immediately before the transfer party left Fritz's office Sunday morning.

3. Mr. Joseph A. Glowacki has stated in the Clements Report of December 14, 1964 (p. 157), that he and a Mr. Krystian Barcz observed Jack Ruby at Ritz's Delicatessen in Dallas on the afternoon of November 22. Please reinterview Glowacki and, if he can be readily located, interview Mr. Barcz, to determine as precisely as possible the time at which they saw Ruby in the Delicatessen that afternoon. Obtain from Mr. Barcz any additional information he has regarding Ruby's conduct at the time.

4. Reinterview Gladys Craddock, 710 North Ewing Street, Apartment 112, Dallas, Texas, to determine where she saw Jack Ruby at the Dallas Morning News Building on November 22, 1963, the time at which she saw him and the conversation and conduct of Ruby. Ruby has testified that he talked to her and an unidentified friend about some pills he been providing them.

5. Jack Ruby has stated that in the early hours of Saturday, November 23, he, George Senator, and Larry Crafard went to the Main Post Office in Dallas and spoke to a night clerk in an attempt to obtain from the clerk the name of the person holding the Post Office box listed on the "Impeach Earl Warren" sign which they had just photographed (Box No. 1792.) The night clerk purportedly told them that he was not the appropriate person to disclose such information. Please attempt to locate and identify this postal night clerk and interview him as to all that occurred during this visit on November 23.

6. Shortly after Jack Ruby had been apprehended on November 24, his personal property was taken from him and a property receipt was made out. Included as pages 260, 261, 261a, and 291 of the report of the Dallas Police Department on the Investigation of the Assassination of the President are property clerk invoice forms numbered 11105G, 11107G, 11109G and 11474G, which purport to list property obtained upon the arrest of Jack Ruby. These invoices are over the names of W. M. Dickey and B. J. Smith, shown as property clerks of the Dallas Police Department. Please interview one or both of these men to determine from whom and the manner in which they received the property listed in the invoices. I am enclosing copies of these invoices. Please have one or both of the property clerks identify and initial these

copies and return them to the Commission. Determine whether any property not listed in these invoices was, to the knowledge of the property clerks, taken from Ruby at the time of his arrest; would all such property normally be listed in a property invoice? Were any other property invoices completed upon Ruby's arrest? Also ask the property clerks whether they are aware of any loose press cards or badges having been found lying in the basement after Ruby's apprehension on November 24.

The Commission appreciates your continued coopération.

Sincerely,

J. Lee Rankin
General Counsel

By letter dated May 20, 1964, the President's Commission on the Assassination of President Kennedy requested the FBI to provide the Commission with certain specific data concerning the Fair Play for Cuba Committee (FPCC), the 30th of November Movement, the Junta Revolucionaria Cubana (JURE), Directorio Revolucionaria Estudiantil (DRE), Second National Front of Escambray (Alpha 66), the John Birch Society and the Minutemen. The Commission also requested all reports from our Dallas Office for the year 1963 which pertain to persons believed active in the Communist Party (CP) or Socialist Workers Party (SWP).

Data requested by the Commission relating to the FPCC, the 30th of November Movement, JURE, DRE and Alpha 66 is being made available separately to the Commission and the Commission is being advised that we did not investigate the John Birch Society and the Minutemen in Texas in 1963. (We did initiate an investigation concerning the Minutemen in 1964. Prior to 1963 we had conducted a limited inquiry concerning the John Birch Society.)

A review of the reports requested by the Commission regarding communist activity in the Dallas area during 1963 reveals that the Dallas Office submitted 13 reports concerning 9 individuals relating to the request of the Commission, some of whom were not identified as members of the CP during 1963 but had prior membership. The reports also contain the names of some individuals not the subjects of current investigation as well as the names of some of our confidential sources in the Dallas area. There was no SWP activity in the Dallas area during 1963.

OBSERVATIONS:

In regard to the request of the Commission regarding communist and SWP activities in the Dallas area in 1963, it appears that the request of the Commission in this respect is not pertinent to what the Commission is looking into. We have

previously indicated our reluctance to scatter our reports of this nature and it is not believed we should blindly comply with the Commission's request since there is no indication that Oswald was connected with anyone in the Dallas area associated with the CP or the SWP. The reports also contain the names of some individuals not the subjects of current investigations as well as the names of some of our confidential sources in the Dallas area which could result in the exposure of our confidential sources. As pointed out above, there was no SWP activity in Dallas in 1963.

It is felt that this matter should be discussed with Mr. Rankin and if after such discussion he still desires copies of the reports, we will furnish them to the Commission.

ACTION:

This matter be discussed with Mr. Rankin along the lines of the above observations.

Mr. J. Edgar Hoover
Director, Federal Bureau of Investigation
Department of Justice
Washington, D.C. 20535

Dear Mr. Hoover:

The Commission would appreciate your interviewing Mr. Richard D. Walker concerning various telephone conversations and meetings he had with Jack Ruby in late October 1963. (Clements Report March 28, 1964, p. 10, 11, 15.)

Information concerning Mr. Walker is found in Clements Report, December 19, 1963 p.115. Mr. Walker's name also appeared on a slip of paper which Ruby accidently left at the Graphic Studio in Dallas on November 1, 1963. (Clements Report, December 14, 1963, p. 344.) Please provide the Commission with a copy of that paper.

Please also ask Mr. Walker about his dealings with Ralph Paul Aaren Bennett Carlin, and persons named in the aforementioned list, and ascertain if Walker has any information concerning a relationship between Jack Ruby and Lee Oswald.

Sincerely,

J. Lee Rankin

back in San Francisco. Anything you want you have your cash that Mr. Tommy Thompson gave you. And he will be in touch with you."

Well, I didn't think too much of it. He escorted us with a porter up to our room.

We had two beautiful suites—two, not one—completed rooms and baths, adjoining, at the Executive Inn. And that was the last time I had seen either representative. I was stranded with a Russian girl and two babies. I didn't realize in the beginning. But then it was time for food, and I had to order food. I told Marina to stay aside and that I would let the man in. She stayed in her room. I let this man in with the food, and then I became uneasy, that he might know who we were is what I was uneasy about, because I didn't realize the danger actually Marina and I were in.

I sensed we were alone. And there I was with a Russian girl. And I didn't want anybody to know who we were, because I knew my son had been picked up.

So this is where the picture comes in.

We're there, Marina—there is an ashtray on the dressing table. And Marina con[illegible] bits of paper, and puts them in the ashtray and strikes a match to it. And this is the picture of the gun that Marina tore up into bits of paper, and struck a match to it.

Now, that didn't burn completely, because it was heavy—not cardboard—what is the name for it—a photographic picture. So the match didn't take it completely.

Mr. RANKIN. Had you said anything to her about burning it before that?

Mrs. OSWALD. No, sir. The last time I had seen the picture was in Marina's shoe when she was trying to tell me that the picture was in her shoe. I state here now that Marina meant for me to have that picture, from the very beginning, in Mrs. Paine's home. She said—I testified before—"Mamma, you keep picture."

And then she showed it to me in the courthouse. And when I refused it, then she decided to get rid of the picture.

She tore up the picture and struck a match to it. Then I took it and flushed it down the toilet.

Mr. RANKIN. And what time was this?

Mrs. OSWALD. This—now, just a minute, gentlemen, because this I know is very important to me and to you, too.

We had been in the jail. This was an evening. Well, this, then, would be approximately 5:30 or 6 in the evening.

Mr. RANKIN. What day?

Mrs. OSWALD. On Saturday, November 23. Now, I flushed the torn bits and the half-burned thing down the commode. And nothing was said. There was nothing said.

Mr. RANKIN. That was at the Executive Inn?

Mrs. OSWALD. At the Executive Inn.

Now, Mr. Hart Odum, the same FBI agent, that insisted upon my daughter-in-law going with him from the Adolphus Hotel, knocked on the door at the Executive Inn. I had had my robe and slippers on, and I pushed the curtain aside when he knocked. He said, "This is Mr. Odum."

So, I opened the door. This is very important. I would like to not talk about it. I would like to show you what I did. This is so important.

I opened the door just a little, because I had the robe off and I didn't want anybody to come in. The door is just ajar. I am going to take my shoes off gentlemen, because I have this worked out. This is my height. He said, "Mrs. Oswald, we would like to see Marina."

I said, "Mr. Odum, I stated yesterday you are not going to see Marina. We are awful tired."

"Well, we just want to ask her one question."

"Mr. Odum, I am not calling my daughter. As a matter of fact, she is taking a bath."

She wasn't.

He said, "Mrs. Oswald, I would like to ask you a question."

I said, "Yes, sir." The door is ajar. This is my height. I wear bifocals, which enlarges things. And in his hand—his hand is bigger than mine—in the

MARKED FOR IDENTIFICATION
63-109070
ENCLOSURE

cup of his hand, like this, is a picture. And the two corners are torn off the picture. This is a very glossy black and white picture of a man's face and shoulder.

Now, Mr. Odum wasn't too tall. I need somebody else. Mr. Odum's hand with the picture—what I am trying to say—he is facing this way—showing me. So my eyes are looking straight at the picture. And I have nothing else to see but this hand and the picture, because the door is ajar. And there is nothing on the picture but a face and shoulders. There is no background or anything. So I can identify this picture amongst millions of pictures, I am so sure of it. It was a glossy black and white picture. So I said, "No, sir, believe me. I have never seen this picture in my life."

With that, he went off.

There was another man with him.

About an hour later the telephone rang, and it was Mrs. Paine. She said, "Mrs. Oswald, Lee called and he was very upset because Marina was not with me, and he asked me to get a lawyer for him, a Mr. Abt. I would like to talk to Marina."

So I put Marina on the telephone, and Marina said about 2 or 3 words.

So when she got off the telephone, I said.—Now, Marina talks in Russian, gentlemen. I said, "Marina, Mrs. Paine told me that Lee called and you were not home at Mrs. Paine, and Lee tells Mrs. Paine to get a lawyer."

Marina didn't answer.

And I then sensed—well, now, why isn't she answering me? This is very peculiar.

And there was no more said about that conversation.

Mr. RANKIN. Did you ask her about this lawyer?

Mrs. OSWALD. Ask Marina?

Mr. RANKIN. Yes.

Mrs. OSWALD. No, sir. There was no more said about this conversation.

Mr. RANKIN. You didn't say anything about Mr. Abt to her then?

Mrs. OSWALD. No, sir. But here is the point to this whole thing.

The FBI agent would have to know where we were, and Mrs. Paine would have to know where we were, because of these two Life representatives, who, I am assuming, probably went back to Mrs. Paine's home in order to get more information. And she—they would have told her where we were, because no one knew where we were. This girl and I had no protection or anything. We were sent out there with this Mr. Alien Grant, the representative. And no one knew who we were. And Mr. Hart Odum would have to know where we were through Mrs. Paine, which is a normal procedure, let's say. He might have gone to Mrs. Paine's home looking for Marina there, and Mrs. Paine might have told him we were at the Executive Inn. I will grant that.

But the point I am going to make is that the picture was tried to be shown to Marina before the telephone conversation.

Now, if there are any questions why I say that, I would be happy to answer.

Mr. RANKIN. Yes—why do you say that?

Mrs. OSWALD. Because they wanted Marina——

Mr. DULLES. Could we get what picture this is? Is that the picture held in the hand?

Mrs. OSWALD. Yes, sir—the picture that is held in the hand, that the FBI agent, Mr. Hart Odum showed me.

Mr. RANKIN. I understand you didn't recognize who the picture was at all.

Mrs. OSWALD. No. I told Mr. Hart Odum I had never seen the man before, "Believe me, sir," and he left.

So the picture was shown—was tried—had tried to be shown to my daughter-in-law, but they were not successful.

So then they received—Marina receives a telephone call.

Now, I am under the impression, since I know it was Mr. Jack Ruby's picture I saw—at the time I didn't.

Mr. RANKIN. How do you know that?

Mrs. OSWALD. Because I have seen his picture in the paper. Now I know it is Mr. Jack Ruby.

I am under the impression that Marina was threatened——

MARY FERRELL FOUNDATION

Mr. RANKIN. What was the date now?

Mrs. OSWALD. This is Saturday, November 23d. This is approximately 6:30 in the evening, that the FBI agent came. And the telephone call was later.

Now, I have no way of knowing whether Lee had permission to use the telephone. Remember, Lee is in jail.

Mr. RANKIN. About what time do you think the telephone call was?

Mrs. OSWALD. I would say it was about 7:30, 8 o'clock on the night.

Mr. RANKIN. That was still on Saturday night?

Mrs. OSWALD. Yes, sir, still on Saturday night at the Executive Inn. And that was after the picture was shown to me—she received this telephone call, and became very silent.

And the next day my son was shot.

Now, it is now that I have done investigation of this case that I believe that the picture was meant for Marina to see, meant for Marina to see.

Mr. RANKIN. Why do you think that?

Mrs. OSWALD. Because now it has been proven that Jack Ruby killed my son. And I think there is a connection there. Because Marina did not tell me about her conversation. And you men hold the answer whether Lee used the telephone from the jailhouse. I don't know that.

Mr. RANKIN. You base that on just your own conclusion that you arrive at now, do you?

Mrs. OSWALD. Yes—because of the FBI agent, Mr. Hart Odium, insistence on taking my daughter-in-law—and he being the same agent that came and showed the picture. And Mr. Ruby being the man that shot Lee—yes, these are definite conclusions.

Mr. RANKIN. That is what you base it on?

Mrs. OSWALD. Yes, sir, that is what I base it on.

Mr. DULLES. Do I understand correctly that Marina did not see the picture at any time?

Mrs. OSWALD. That is correct, sir. But they tried awfully hard for Marina to see the picture.

Mr. RANKIN. And when they could not show it to her——

Mrs. OSWALD. They showed it to me—yes, sir.

Mr. RANKIN. Have you ever seen that picture since?

Mrs. OSWALD. On a Wednesday—Lee was shot on a Sunday—neither Marina nor I knew how he was shot. They kept it from us. You have to visualize this.

We were at the Six Flags with approximately 18 to 20 FBI agents, Secret Service men running in and out, a women with a Russian girl and two sick babies, and the girl and I do not know what is going on.

Mr. RANKIN. When you had gotten over to the Six Flags, you must have skipped something there—you were in the Executive Inn before.

Mrs. OSWALD. Yes. I was going to make a point about letting you know why I didn't know.

Mr. RANKIN. All right.

Mrs. OSWALD. All right—let's go back to the Executive Inn.

So that night I was very upset and very worried. I realized that we were there alone. And we were not going to go in town, into Dallas. I wasn't going to take this Russian girl and the two babies. And the babies were all chapped. We had no diapers. We were not prepared for this. And it was hectic, gentlemen.

So all night long I am wondering how can I get in touch with Robert, what can I do.

And I was a little suspicious of Mrs. Paine. I was suspicious of Mrs. Paine from the time I entered her home.

Mr. RANKIN. Had you found out how much money the Life man gave you?

Mrs. OSWALD. No, not even yet.

Mr. RANKIN. All right.

Mrs. OSWALD. So I signed for the food. I called the operator and I asked the operator what name the room was registered under. She said, "Well, this is an unusual request. Don't you know what room—what name?"

I went with the uniform.

"Hurry up, we have got to get you out of here."

I am not one to be told what to do, and you gentlemen know that by this time. I said, "What's your hurry? We have the diapers and all. I want to tell you what happened."

"Mother, Mother stop talking. We have to get you out of here."

Mr. Gregory said, "Mrs. Oswald, will you listen and get things together. We have to get you out of here."

I said, "That is all we have been doing since yesterday, running from one place to the other. Give us just a minute. We are coming, but we have to pack things."

"Hurry up."

I said, I want you to know how we got here. I was shown a picture of a man last night. And Mrs. Paine called and said that Lee called."

I told him exactly.

So Mr. Gregory and Robert knew about the things I told you. I told him that while I am gathering up the things.

"Mrs. Oswald, we will talk later. We have to get you out of here."

I have found out since that my son was shot. But they did not tell us.

Mr. RANKIN. Did you have a television in this room?

Mrs. OSWALD. Yes, sir.

Now, here is another Godsend. We watched the television, Marina and I. She watched more than I did. We were very busy, Mr. Rankin. The babies had diarrhea and everything. I was very busy with the babies and the Russian girl. And just like at the end of the Six Flags, we were just getting snatches of it. But Marina wanted to know, "Mama, I want see Lee." She was hoping Lee would come on the picture, like he did. So this morning, Sunday morning, I said, "Oh, honey, let's turn the television off. The same thing over and over."

And I turned the television off. So Marina and I did not see what happened to my son.

We had the television off.

So we did not know.

But frantically Robert and Mr. Gregory kept insisting that we pack and run.

So when we get downstairs, here was Secret Service men all over.

Mr. RANKIN. Now, before you leave that, what did Robert say about the story about the picture, when you told him that? Did he say anything?

Mrs. OSWALD. No. He and Mr. Gregory both didn't want to listen to me. I told them, but they didn't want to hear my story. They wanted to get us out of here.

Mr. RANKIN. They didn't say anything about it?

Mrs. OSWALD. No, sir, not that I can recall. And I don't believe they did. They didn't want to hear what I had to say. They kept fussing at me and saying "Mother, stop talking. Hurry up, we have got to get you out of here."

I kept saying, "All we have been doing is run from one place to the other. The diapers are wet."

I was kind of having my way about this.

So when we get downstairs, there is Secret Service all around.

I am ahead of my story.

Robert went downstairs to pay the bill, and that is when I gave Robert the money, and it was a $50 bill that the *Life* representative had given to me. They gave me some money. I took it out——

Mr. RANKIN. That is the first time you looked at it?

Mrs. OSWALD. The first time I looked at it, sir. I charged the food, and I had no need for money. Wait a minute—I am wrong. Yes.

Representative FORD. Mr. Rankin—didn't you say you had washed your uniform?

Mrs. OSWALD. Yes.

Representative FORD. When you washed your uniform, didn't you——

Mrs. OSWALD. Just a minute, if you let me explain. I just said I was wrong. The first time—it was Puerto Rican that brought the dinner in. We needed baby lotion for the baby. And then I took the bill out and I saw it was a $50 bill, because he went to the drug store—I gave him the $50 bill, this Puerto

down without trial. And we are going to continue to investigate and fight this in our own way, when I leave the Commission, sir.

The CHAIRMAN. Do you have an agent for this tour, lecture tour you are making?

Mrs. OSWALD. No, sir; I do not. Mr. Lane has—well, I don't say booked me, because that would not be the word. But I am supposed to appear Monday at Town Hall in New York—no, Tuesday, the 18th. It is going to be a forum. There are three very prominent men going to be on the panel. And we are going to ask questions and talk. We will have our public support by bringing these matters before the public, because we are convinced—and there are millions of other people convinced, also— that this is not as plain as it seems to be, that there is more to it. And they are not satisfied.

We are going to continue to investigate, with the help of the public.

The CHAIRMAN. Are you to be compensated for these lectures?

Mrs. OSWALD. No. My trip is being paid to New York. And I am to live in a home with a family.

As far as that, I know nothing else about this.

The CHAIRMAN. Who does know the details of it?

Mrs. OSWALD. Well, now, Mr. Lane would know the details. And maybe you think I am being a very foolish woman. But here. When I read—because I have been very cautious—so let's say now I am not being cautious. But here is why. When I read Mr. Lane's brief—and I don't know, gentlemen, if you have read it—but I believe it would be pertinent to this Commission to get a copy. It is written in the Guardian—two or three briefs. And I was convinced this man had some pertinent ideas about it. And when I engaged Mr. Lane, he said, "Mrs. Oswald, I will tell you about myself."

I said, "I do not want to hear. As far as I am concerned, you could be a Communist. But to me a Communist is a human being. That is just his way of life."

We are Americans. We have Japanese people. That is their way of life. A Communist, as long as he is not hurting our Government, that is his right to be a Communist. That is his way of life.

I did not want to know anything about Mr. Lane, because I knew Mr. Lane wrote sensible things, that Mr. Lane was interested. And what he wrote made sense. And that is all I am interested in, sir.

If Mr. Lane is getting money, and I am appearing, that is just fine. I am not interested. If I can get before the public and through Mr. Lane doing it, I want to get before that public and state my American way of life and try to prove my son is innocent.

The main part of this is to try to prove Lee Harvey Oswald innocent.

The CHAIRMAN. Very well.

Mr. RANKIN. You said during your testimony that an agent showed you a picture at the Six Flags Inn. Do you remember that?

Mrs. OSWALD. Yes, and I am glad you brought that up, because I have notes on this, too. I have something important to say about that.

Mr. RANKIN. I will ask the reporter to mark this.

(The document referred to was marked Commission Exhibit No. 237 for identification.)

Mrs. OSWALD. Before I see a picture, see—if it was in a square, cupped in a hand, I believe it would be better for me for identification. That is the way I saw it. It was cupped in his hand.

Mr. RANKIN. Mrs. Oswald, all I have is Exhibit 237, in the shape it is in. And I will hand it to you and ask you if you recall that as being the picture that was shown to you.

Mrs. OSWALD. No, sir. This is not the picture shown me. The picture that was shown me was a full face and just shoulders. This is not the picture.

This picture was about this size, very glossy black and white, with a big face and shoulders. I have background here, a lot of white. But this took the whole picture—the face and shoulders. And this door was just ajar. And this man had this picture—and the two corners were cut.

Mr. RANKIN. About what size is the picture you are looking at?

Mrs. OSWALD. That is about three by four—approximately three by four, cupped in this man's hand, and the two corners were cut. The two top corners. And a

MARTIN DELL
FOOTAGE ON

very glossy picture, black and white, with a big face and shoulders. This is the picture shown me, sir.

Now, at Six Flags Inn, about 3 days later, when I entered the room, on the table were a lot of newspapers. I walked into the room in the presence of my son, and all of the agents. As I stated before, Marina and I knew nothing of what went on. We did not know how Lee was shot or anything, because we did not sit down and watch television.

Mr. RANKIN. What son are you talking about?

Mrs. OSWALD. Robert. So this is approximately the Wednesday, the 25th—no—Sunday was the 24th. About the 26th—it was a few days after Lee was shot, a couple of days. So I walked into the room, and I picked this paper up and turned it over, and I exclaimed, "This is the picture of the man that the FBI agent showed me."

And one of the agents said, "Mrs. Oswald, that is the man that shot your son."

Believe me, gentlemen, I didn't even ask his name. And nothing more was said.

Now, that is very unusual.

Mr. RANKIN. Now, the picture that you are talking about that you picked up, was a picture in the newspaper?

Mrs. OSWALD. In the newspaper. The bottom part of the newspaper. I can see that like I can see the picture. I had never seen the picture before.

Mr. RANKIN. Did you later learn whose picture that was?

Mrs. OSWALD. Yes, when I returned to my home in Fort Worth, Tex., about a week later, Mr. Blair Justice, of the Star Telegram, brought me all the papers, that was the next time I saw the pictures and knew it was Mr. Ruby. And it was a bottom page, and it was this picture shown me.

Now, this is what I want to know.

Mr. RANKIN. Tell us who was there when you said that, about the picture in the paper?

Mrs. OSWALD. Mr. Mike Howard, Mr. Garry Seals—well, all of the agents there. The room was full. And Robert Oswald was there. The room was full.

Mr. RANKIN. Was Marina there?

Mrs. OSWALD. Marina was in the bedroom. Marina and I stayed in the bedroom with the children. We could get snatches of the television and so on. The children had diarrhea and so on. We were busy.

As I picked the paper up and turned it over, it was on the back. This picture I saw, the same picture.

Mr. RANKIN. Do you know whether your son Lee Oswald knew Jack Ruby?

Mrs. OSWALD. No, sir, I have now way of knowing that. I just hope that he did, if I am right. If Lee is an agent, I hope he knew Jack Ruby.

Representative FORD. When you made that statement, after looking at the newspaper, did you say it loudly enough for people in the room to hear it?

Mrs. OSWALD. Yes, sir, because they answered me. They said, "That is the picture of the man that shot your son."

But nothing has been said since that. That is the part that I question all about this.

And then I am not asked to be subpenaed at Jack Ruby's trial or anything.

The FBI says yes, they showed me a picture, but that wasn't a picture of Jack Ruby, not even giving me a chance.

I don't understand. Something is not according to Hoyle. I keep telling you gentlemen.

Now, I can identify this picture, I believe, out of a hundred pictures.

It was a black and white glossy picture of a big face and shoulders. And why I express it—he had it cupped in his hand, and he poked his arm and his hand with my bifocals, and all I could see was the picture and the hand. I didn't even see Mr. Oilham so much. That was that hand poked in front of me. I am positive of this. Yet I am not asked any more about the picture. They state, yes, they showed me a picture, but not this picture. I am positive, gentlemen.

Mr. RANKIN. I will ask you about a list of names and see if you know any of them, or if your son, Lee Oswald, knew any of them, to your knowledge.

Mrs. OSWALD. I will be happy to answer.

Mr. RANKIN. Karen Bennett, do you know that?

MARY FERRELL FOUNDATION

very thoughtfully written. But I will say it is not Lee's. I don't think it is. I cannot be positive. But I do not think it is Lee's handwriting.

Mr. RANKIN. That is Exhibit 252 that you have been refering to?

Mrs. OSWALD. Exhibit 252.

Here is another of the same caliber. It is too perfect. The writing is too perfect.

Mr. RANKIN. What about the signature?

Mrs. OSWALD. The signature looks like Lee's signature.

Mr. DOYLE. That is 253.

Mrs. OSWALD. 253. Yes, sir. This is a little different signature, I would say, than his normal signature.

Mr. RANKIN. 254?

Mrs. OSWALD. 254, yes, sir.

Mr. RANKIN. You think that Exhibit 254 is your son's handwriting or not?

Mrs. OSWALD. I would have to say with reservations again. It would have to be rewritten very thoroughly. It is not scribbled enough.

Mr. RANKIN. You think that those letters, 251 through 254, are too carefully done for your son Lee?

Mrs. OSWALD. Yes, sir. And if he did do them, he would have to have four or five copies to do it so perfect.

This is a little more scribbled. This signature looks more like Lee's, than the other did.

Mr. RANKIN. That is 255?

Mrs. OSWALD. Yes, sir. 255.

This looks like Lee's handwriting—a lot of misspelling, and his signature. 256.

Now his Russian handwriting I know only from return addresses. However, I do have two brown papers with Russian writing on, from gifts that were sent to me. But I don't know if Lee addressed them or not.

And this is Lee's handwriting with a very fine pen. Isn't this handwriting backwards for a left hand? It seems when I looked at "my," it should be going this way—because I write like Lee, left handed.

Mr. RANKIN. When you refer to this—or asked whether it was backwards, you were referring to Exhibit 257, were you?

Mrs. OSWALD. Yes. This "m" should be going this way—which it is really. But it is kind of hard to testify to. I would say this is Lee's handwriting with a very fine pen, with reservations.

Mr. RANKIN. Exhibit 257.

We offer in evidence Exhibits 251 through 257, both inclusive.

The CHAIRMAN. They may be admitted.

(The documents referred to were received in evidence as Commission Exhibit Nos. 251 through 257, inclusive.)

The CHAIRMAN. Mrs. Oswald, are you now ready—we are not going to ask you to do it right now, but we are going to recess at 2 o'clock. But are we now at the point where we can hear whatever you want to tell us about your life?

Mrs. OSWALD. I am sorry, but I would like to have lunch.

The CHAIRMAN. I said that we were going to have lunch. But when we return—you have things up to that point of your story?

Mrs. OSWALD. Yes, sir.

The CHAIRMAN. Very well.

You have another question you want to ask before we recess for lunch?

Mr. RANKIN. I should like to offer for the limited purpose, Mr. Chairman, of the fact that we presented this picture to Mrs. Oswald and she said it was not the picture that was presented to her—for that limited purpose I should like to offer Exhibit 237.

The CHAIRMAN. It may be so admitted.

(The picture referred to was received in evidence as Commission Exhibit No. 237.)

Mr. DOYLE. Mr. Chief Justice, during the noon hour may I have the custody of this transcript of a tape recording of an interview with Mrs. Oswald,

MARY FERRELL
FOUNDATION

the 28 pages which was tendered to us by Mr. Rankin this morning—and I will return it.

Mr. RANKIN. That is for them to have.

The CHAIRMAN. That is to become your own.

Mr. DOYLE. To become the property of Mrs. Oswald.

The CHAIRMAN. The property of Mrs. Oswald, yes. That is what we gave it to you for. She requested that.

Mr. DOYLE. Thank you very much.

The CHAIRMAN. Very well, we will recess now until 2 o'clock.

(Whereupon, at 12:55 p.m., the President's Commission recessed.)

Afternoon Session

STATEMENT OF MRS. MARGUERITE OSWALD RESUMED

The President's Commission reconvened at 2:05 p.m.

The CHAIRMAN. All right, Mr. Rankin, will you proceed with the hearing?

Mr. RANKIN. Mrs. Oswald, you said that you would like to turn now to telling us about your life. We would appreciate that if you would do that.

Mrs. OSWALD. Yes.

The CHAIRMAN. Mrs. Oswald, if you would prefer not to tell the story of your life, that is perfectly all right.

Mrs. OSWALD. I want to tell the story but there is something else that upset me.

The CHAIRMAN. It is perfectly all right if you don't wish to. You may take your time now and go right ahead.

Mrs. OSWALD. I am sorry, you will have to excuse me about the story of my life, and Mr. Doyle knows why, but there is one part of the story of my life that will have a great connection with this, I believe.

I married Mr. Edwin Ekdahl who was an electrical engineer and a $10,000 a year man with an expense account. Mr. Ekdahl had a woman before he married me. Of course, I didn't know about it, sir. I made him wait a year before I married him, but the way I found this out, I received a telephone call, a telegram rather, he traveled—lots of times Lee and I traveled with him—stating he wouldn't return home when he was supposed to and for me not to meet him.

So, I called his office, I was familiar with, knew his secretary, and I was going to tell her that Mr. Ekdahl would be delayed 3 or 4 days. But immediately she said, "Mrs. Ekdahl, Mr. Ekdahl is not in, he has gone out to lunch."

So, I said, the general conversation went "When will he be back" and so on, and so that evening I took the car and I went to the Texas Electric Co., works for the Texaco, the main office in New York, but he was working in Fort Worth at the time, went to the building and saw him leave the building and I followed him and to an apartment house, saw him go into this apartment house.

Then I went back home, and my oldest son, John Edward Pic, who is in the service, had a friend at the house who was about 2 years older. I told them about what happened. So it was night by this time. The kids went with me.

I called Mr. John McClain, who is an attorney, and we live next door to Mr. McClain, and told him that I had seen Mr. Ekdahl go into a home when he was supposed to be out of town and what should I do.

He said, "Mrs. Oswald, just ring the phone. Do you know the woman?"

And I said, "Yes."

"Just ring the phone and let him know that you know he is there, that you saw him."

After I thought about it I thought that is not a good idea because he could leave and say he was just there on business and I wanted to catch him there.

So the kids and I planned that we would say she had a telegram, so we went up the stairs, I believe it was the second or the third floor, and the young man knocked on the door and said, "Telegram for Mrs. Clary"—was her name.

She said, "Please push it under the door" and I told him no; he said, "No, you have to sign for it."

Dear Mr. Rankin:

Reference is made to your letter of June 30, 1964, which concerned a copy of a photograph which was displayed to Mrs. Marguerite Oswald on November 23, 1963, by Special Agent Bardwell D. Odum of this Bureau.

Pursuant to your discussion with Special Agent Robert E. Lenihan of this Bureau on July 7, 1964, there are enclosed affidavits executed by Inspector James R. Malley and Special Agent Bardwell D. Odum of this Bureau wherein each describes his cropping of a copy of a photograph of an unidentified individual which was furnished to this Bureau by the Central Intelligence Agency. In addition, Inspector Malley and Special Agent Odum each describes the action he took in connection with his handling of the copy of the photograph concerned.

No further action is contemplated by this Bureau in this particular matter in the absence of a specific request from the Commission.

Sincerely yours,

J. Edgar Hoover

NOTE:

Commission has raised a question concerning the trimming of a copy of a photograph which was exhibited to Marguerite Oswald by the Dallas Office on 11/23/63. Mrs. Oswald later claimed the photograph depicted Jack Ruby. This matter was discussed in a conference with the Commission on 7/7/64 and the Commission requested it be furnished affidavits from Inspector Malley and Special Agent Odum wherein each would describe his trimming of the photo concerned and his handling of the photograph.

Enclosures consist of an affidavit executed by SA Odum wherein he encloses 2 copies of a photo he exhibited to Marguerite Oswald and an affidavit executed by Inspector Malley including a copy of Commission Exhibit 237 which was apparently made from a photograph Mr. Malley furnished to the Commission 2-11-64.

I, James R. Malley, Inspector, Federal Bureau of Investigation, Department of Justice, being first duly sworn, depose as follows:

In accordance with a request by Mr. Howard P. Willens, a member of the staff of the President's Commission on the Assassination of President Kennedy, I transmitted to the Commission on February 11, 1964, a copy of a photograph of an unidentified man which was made available to the Federal Bureau of Investigation by the Central Intelligence Agency.

Prior to transmitting the aforementioned copy of this photograph to the President's Commission, I used a scissors and trimmed from the photograph all background which surrounded the head, shoulders and arms of the unidentified individual. I did this, inasmuch as the Central Intelligence Agency had previously advised that it had no objection to this Bureau furnishing a copy of this photograph to the President's Commission with all background eliminated.

I have examined a copy of Commission Exhibit 237, which is attached, and it appears such exhibit was made from the copy of the photograph of the unidentified individual which I cropped and transmitted to Mr. Willens on February 11, 1964.

To my knowledge, the identity of the unknown individual depicted in the copy of the photograph which I transmitted to Mr. Willens on February 11, 1964, has not been established.

SUBJECT: LEE HARVEY OSWALD, AKA
INTERNAL SECURITY - RUSSIA - CUBA

Mr. Wesley James Liebeler, Staff Member, President's Commission, called and advised that depositions were being taken in New Orleans and Dallas next week and he would appreciate it if the Bureau could make available at 1:00 p.m., Tuesday, July 21, 1964, a Spanish translator in order that a deposition can be taken in New Orleans from individuals who have been previously interviewed by the Bureau. He also requested to be advised if a Russian interpreter could be available in Dallas on Friday, July 24, 1964, for deposition with Marina Oswald.

After checking, it was determined that there are two Agents capable of handling interviews in Spanish presently assigned to the New Orleans Office, Special Agent Warren C. de Brueys, who is an excellent Spanish speaking Agent, and Richard E. Logan, who is rated as very good. With regard to the Russian translator, it was determined that the only two that would be recommended for this assignment were Mr. Michael G. Leonard, who is assigned at Washington, and Mr. Anatole A. Boguslav, who is presently assigned at New York.

A check was made with both Secret Service and Immigration and Naturalization Service by the liaison representative and it was determined that they have no Russian translators close to the city of Dallas, Texas. Mr. Liebeler was advised that neither FBI, Secret Service, or Immigration had any translators in the vicinity of Dallas. It was pointed out to him that Agents in our Dallas Office have been interviewing Marina Oswald for some time and that in recent months they had been conducting these interviews in English without too much difficulty.

Mr. Liebeler stated that he did not know whether or not the Commission would want this interview conducted in English or whether they will insist on having a Russian interpreter available. He stated he could be in contact with Malley on July 20, 1964, in connection with this matter.

Several telephone contacts were had with Mr. Liebeler's office today on other matters and no further mention was made of the Russian translator. It is known that Mr. Liebeler is leaving for New Orleans, Louisiana, on July 20th at approximately 4:30 p. m. and it is, therefore, assumed that the matter of the Russian translator has been settled.

ACTION TAKEN:

A teletype was sent to the New Orleans Office on Friday, July 17, 1964, instructing the New Orleans Office to have either Special Agent de Brueys or Logan available to assist in the interview that is to be conducted by Liebeler on July 21, 1964, at 1:00 p. m.

Dear Mr. Hoover:

The Commission is interested in exploring the possibility that Harry Olsen, ex-Dallas police officer, and "Kathy Kay" Coleman, a strip-tease dancer for Jack Ruby, assisted Ruby in the killing of Lee Harvey Oswald.

Please provide the Commission long distance telephone call records for the telephones of Harry Olsen and "Kathy Kay" Coleman for the period from 10:00 p.m. Saturday, November 23 through Sunday, November 24, 1963. Please also examine similar records for the same period for all telephones, public or official, at the Dallas Police and Courts Building insofar as they may show calls to Fort Worth and Arlington, Texas. The Commission is particularly interested in telephone calls to phones available to Ralph Paul or Bruce Carlin.

If possible, the Commission would appreciate being advised of the results of this investigation by July 23, 1964.

Warren Commission Attorney Leon Hubert
C/O The Dallas Branch of the F. B. I.
The Federal Building
Dallas, Texas

Dear Mr. Hubert:

The owner of Lorene's Beauty Shop in the Oak Cliff section of Dallas - 205 North Beckley - (WHitehall-6-0356) - has told of her friend, a Mrs. Hall, who manages an apartment building on Ewing Avenue, close to where JACK RUBY lived. Mrs. Hall said OSWALD, giving his own name, came to the apartment building, applying for residence. There was no vacancy.

At that time, there was a Dallas Policeman and his wife, who is a stripper in a downtown Dallas nightclub, living at the apartment managed by Mrs. Hall. According to Mrs. Hall, when it was made known that the Policeman was married to a stripper (although it is a known fact that a lot of the strippers date the detectives on the Vice Squad), the man was fired from the Dallas Police Force.

Was the wife of the Policeman employed by JACK RUBY? JACK RUBY is known to many Policemen. Were these two people friends of Mr. Ruby? Someone testified to seeing OSWALD in the downtown nightclub owned by RUBY. Was OSWALD acquainted with the stripper and her Policeman husband?

The Attorney-General stated a few days ago that he believes OSWALD was 'alone' in the assasination of his brother, JOHN F. KENNEDY. There are so many people that believe the opposite of what the Attorney-General has said.

Mr. Hubert, tell us how much (?) of the OSWALD-RUBY situation was just a coincidence.

What about a lie detector test or truth serium test for JACK RUBY before he is taken to Huntsville to die in the electric chair? Don't we deserve to learn as much as we can about why our President was killed? What (?) will we be able to learn from RUBY after he is dead? In the future, we don't want to pick up our History books and read 'what might have been the way it happened' - will our children say - in later years - 'didn't anyone think about getting to the whole truth of the matter before Ruby's death' - will they say: 'you were around when it happened, Daddy, why can't you tell us more about it'.....

It is one thing to recall the face of our dead President, Mr. Kennedy, and think the words: 'I'll never forget you' -- and it is

MAIL ROOM

quite another thing to want so much for the truth to be revealed - and so unable to do anything to make the truth known.

President Johnson has instructed the Warren Commission to make certain the report is complete before submitting it for his review; then why (?) in this instance, doesn't he say: 'give RUBY the test, do what is necessary to inform the people everywhere'. How does one go about petitioning the President of the United States to give RUBY the tests? Could we say: 'Mr. President, permit the tests so we can be sure in our minds that everything was done to complete the report' - -

With all due respect to President Johnson, JOHN F. KENNEDY is still in the thoughts and prayers of the world and with still anguished hearts, we seek the truth, the whole truth of the triple tragedy.We are anxious for the Warren Commission to complete its report; but more than that, we are anxious for all the facts to be gathered and everything to be made public.

The statements Mrs. Hall has made to her friends concerning OSWALD's seeking residence at the apartment building she manages has not been made public - she has not talked with the Police Department - she has not talked with the F. B. I. How much more (?) information is being kept hidden just because no one wants to become involved in history -- no one wants their name in the paper or on TV -- no one wants publicity and there surely would be if your name was linked to the Warren Commission report -- so how many more people are keeping what they know to themselves to keep from being 'involved'?

If the tests aren't given to JACK RUBY -- if the complete facts are not wanted - then why obtain <u>any</u> facts at all....but it will be hard for the people of the world to accept the Warren Commission report as being complete if the tests are not given. If the tests are given and it is revealed that RUBY and OSWALD <u>were not</u> in this thing together, then what have we lost - on the other hand - if the tests <u>are not</u> given, there will always be speculation as to what 'might have been the truth'.

Supposing you are the last representative from the Warren Commission to interview the Dallas people - we have no way of knowing if you will be the last one or not; suppose no others are called on from Dallas to go before the Warren Commission - we have no way of knowing if there will be others or not; and the paper has stated the report will be completed in August - there's not much time left, is there?

Mr. Hubert, maybe the Police and the F. B. I. have overlooked Mrs. Hall's statements or not known of them at all before this time;can you afford to overlook it too?

Dear Mr. Hoover:

With reference to your letter of June 26, 1964, concerning the story in the "Deutsche Nationalzeitung und Soldatenzeitung," it would be helpful to know when the paper was actually published. It is possible that if it was published sometime after December 3, in spite of the November 29 date, the information about Oswald's attempt on the life of General Walker would have been available from other published sources. It would be most helpful to have the answer to this question at the earliest possible date.

Thank you for your continuing cooperation with the Commission and its work.

NOTE: By letter dated 6-24-64, the President's Commission forwarded a copy of a telegram the Commission had received from Robert S. Reynolds of Santa Monica, California. He made several allegations among which the assassination of President Kennedy was established in the early months of 1957 and that the name of the assassin, Lee Harvey Oswald, was established in March of 1957, based on alleged perceptions by Reynolds. He requested an opportunity to appear or submit a detailed report to the Commission.

This matter has been completely resolved and there is no basis to Reynolds' so called perceptions. Extensive investigation was conducted to verify his alleged story and our investigation is now complete.

Dear Mr. Hoover:

The National Broadcasting Company in New York has informed the Commission that it has a continuous video tape of all programming on November 24, 1963 and, in particular, between 11:00 a.m. CST (12:00 p.m. EST) and the time Lee Oswald was shot. The Commission would appreciate your examining those tapes for the purpose of determining to the highest degree of accuracy, the exact time that Oswald was shot.

As you are aware, most broadcast stations operate on Western Union clocks which are synchronized each hour on the hour. Usually that synchronization introduces a characteristic "beep" into the broadcast circuit. It may be possible accurately to determine the exact moment of 11:00 a.m. CST on such video tapes and to make time computations from that point on the tapes to the moment Oswald was shot. The Commission is extremely hopeful that accuracy to within fifteen or twenty seconds can be obtained.

Thank you for your cooperation.

Dear Mr. Rankin:

Reference is made to your letter dated July 17, 1964, by which you furnished two reels of sixteen millimeter film taken from the video tape of programming on the National Broadcasting Company between 11:45 a.m. and 12:50 p.m. on November 24, 1963. Your letter requested that an examination be made for the purpose of determining the exact time that Oswald was shot. It is pointed out that your letter referred to the material as video tape and this was found to be sixteen millimeter motion picture film.

A review of these films in the FBI Laboratory reveals nothing on which the Laboratory could establish an accurate time that could then be related to the exact time that Oswald was shot. It is noted that one reel of film is marked "Reel #65 11:45-12:20 p.m." and the other reel is marked "Reel #66 12:20-12:50 p.m." It is found that there is no direct continuity between Reel #65 and Reel #66. Reel #65 ends with a commentator talking and in the final scene he is in the middle of a sentence and has not completed his comments. Reel #66 begins with an announcer at some location near Hyannis Port and, therefore, the films do not show the completion of the commentator's comments and the continuity of the program into the scenes at the beginning of Reel #66.

Honorable J. Lee Rankin

It was found that Oswald was shot after an elapse of two minutes and nine seconds from the beginning of Reel #66. Relating this time to the time notation on the reel that is marked "12:20-12:50 p. m," would establish the shooting time at 12:22 and nine seconds. There is nothing in the film that would lend any accuracy to this time designation.

The two reels of film are being returned to your office separately.

FROM : R. H. Jevons

SUBJECT: JACK L. RUBY; LEE HARVEY OSWALD, VICTIM; CIVIL RIGHTS

In my memorandum of 7/20/64, I advised that in accordance with arrangements made with the President's Commission, Jack L. Ruby was afforded a polygraph examination by SA Bell P. Herndon, Polygraph Examiner, FBI Laboratory, at the Dallas County Jail on Saturday, 7/18/64. Ruby provided additional details and facts during the interview, however, gave no new significant information. He continued to deny previously knowing Oswald or being in any conspiracy to kill the President or Oswald. In later sworn testimony by Ruby's psychiatrist, Dr. William R. Beavers, he indicated that Ruby was aware of the questions and was rational in his response but generally described Ruby as "psychotic depressive." Referenced memorandum also advised that a review of the charts obtained as a result of the polygraph examination indicates that Ruby was not deceptive in his denial of knowing Oswald or his being involved in any conspiracy and shows no conflict with prior investigation. However, if Ruby is in fact a "psychotic" personality, the test results should be considered as inconclusive because of his mental condition.

Mr. Arlen Specter of the President's Commission, requested that SA Herndon confer with him prior to the submission of any written formal report.

My memorandum of 7/22/64, advised that during the conference with Mr. Specter, SA Herndon informed him in general that in view of the psychiatrist's diagnosis of Ruby's mental condition as "psychotic depressive," no significance can be placed on the polygraph examination. Mr. Specter advised that he desired a complete review of the psychiatrist's testimony be made prior to the submission of a formal polygraph report and that the report was not expected before the latter part of the week.

Memorandum to Mr. Conrad
Re: JACK L. RUBY; LEE HARVEY
OSWALD, VICTIM; CIVIL RIGHTS
62-109060

On 7/24/64, Mr. Specter requested a brief report in the form of a letter be furnished to the Commission even though the psychiatrist's complete testimony has not been reviewed. He also requested SA Herndon to appear for conference at 12:00 noon on Tuesday, 7/28/64, and to give a deposition at 2:00 p. m. regarding the polygraph examination. It is anticipated that during the deposition, hypothetical situations will be presented based on the data in the polygraph charts; if so, any reply will be carefully qualified solely to the situation presented. The question of Ruby's mental condition precludes any interpretation of his polygrams. Specifically, it is anticipated that Mr. Specter may ask for an interpretation of the charts based on the assumption that Ruby is sane and mentally competent. In such an event, it is contemplated that the answer will be given that on the basis of the hypothesis advanced by the Commission's attorney, the charts would normally be interpreted as showing no indication of deception; however, that the examiner has no information which would resolve the hypothesis and therefore must consider the results in this instance inconclusive.

RECOMMENDATION:

If you approve, it is recommended that the attached letter be sent to the President's Commission setting forth the Bureau's policy concerning the limitations of the polygraph technique and advising that in view of the psychiatrist's testimony that Jack Ruby is generally described as a "psychotic depressive," no significance should be placed on the polygraph examination and it should be considered nonconclusive as the charts cannot be relied upon.

Dear Mr. Rankin:

In accordance with arrangements made by Mr. Arlen Specter of your staff, Jack L. Ruby was afforded a polygraph examination at the Dallas County Jail, Dallas, Texas, Saturday, July 18, 1964. The polygraph examination was conducted by Special Agent Bell P. Herndon, FBI Laboratory, Washington, D. C.

It should be pointed out that the polygraph, often referred to as "lie detector" is not in fact such a device. The instrument is designed to record under proper stimuli emotional responses in the form of physiological variations which may indicate and accompany deception. The FBI feels that the polygraph technique is not sufficiently precise to permit absolute judgements of deception or truth without qualifications. The polygraph technique has a number of limitations, one of which relates to the mental fitness and condition of the examinee to be tested.

During the proceedings at Dallas, Texas, on July 18, 1964, Dr. William Beavers, a psychiatrist, testified that he would generally describe Jack Ruby as a "psychotic depressive." In view of the serious question raised as to Ruby's mental condition, no significance should be placed on the polygraph examination and it should be considered nonconclusive as the charts cannot be relied upon.

SUBJECT: PRESIDENT'S ASSASSINATION
REQUEST FROM WALTER E. CRAIG,
PRESIDENT, AMERICAN BAR ASSOCIATION (ABA)

This morning Inspector Edwards received a phone call from ABA President Walter E. Craig who has been representing the ABA with the Warren Commission. Craig, as you know, has always had the highest regard for the Director and the Bureau and in prior conversations with him concerning the Warren Commission he has expressed little sympathy with some of the Commission's inquiries and has always been very sympathetic with the Bureau's position. Craig stated he had a favor he wanted to ask.

Craig indicated that the Warren Commission had asked him and Attorney Charles Murray, who is a member of Craig's staff assisting him at the Commission, to go to Dallas and look over the Presidential route, the building from which the shots were fired, and also go over Oswald's route. The Commission had asked Craig and Murray to do this in the company of the Dallas Chief of Police but Craig said he feels this is inappropriate and feels that he and Murray should do this independently of the Chief so that they wouldn't be considered as under the influence of the Chief or rubber-stamping him.

Consequently, Craig said that he and Murray plan to travel to Dallas Wednesday, 7/15/64, and spend Thursday and Friday in clearing up their business in Dallas. Craig said he would greatly appreciate it if our Special Agent in Charge in Dallas could be alerted to their coming and facilitate their handling of whatever matters they had to handle there expeditiously and thus they would not become involved with the Chief of Police. Craig said that he would not involve our personnel in their inquiries and it was merely something he was asking so that they would be able to get everything done as expeditiously as possible. Craig assured me that there would be no possible embarrassment to the Bureau in this and no possible involvement. In any event he told me that he felt sure that when his inquiries were completed in connection with the Warren Commission, he was confident "the FBI would be hand in glove" with Craig's conclusions in any event.

REC-33 62-109090-184

I am confident Craig's request is sincere and is motivated completely by his desire to act independently of the Commission. In view of Craig's extremely cooperative feelings in the past and his high regard for the Bureau, I feel we should assist him as requested.

TO : Mr. Belmont

DATE: July 3, 1964

FROM : A. Rosen

SUBJECT: PRESIDENT'S COMMISSION REPORT
REVIEW OF "THIRD DRAFT"

1 - Mr. Belmont
1 - Mr. Mohr
1 - Mr. Conrad
1 - Mr. DeLoach
1 - Mr. Rosen
1 - Mr. Sullivan
1 - Mr. Malley

On July 3, 1964, representatives of the Domestic Intelligence Division, General Investigative Division, and the Laboratory reviewed the third draft of the President's Commission report. This draft, the separate chapters of which were dated during the early part of June, 1964, comprised approximately 475 pages. The report contains no criticism of the FBI or of any other agency Federal or local. The Commission states the report does contain conclusions and recommendations. The material we received does not set forth the conclusions and recommendations. Likewise, the report concerning Lee Harvey Oswald ends at the time he returned to the United States from the Soviet Union in June of 1962; and therefore, the portion dealing with the Bureau's background investigation of Oswald prior to the assassination is missing. There will be a fourth and final draft made available through a source by July 23, 1964, which will contain the final conclusions and recommendations of the Commission.

We have been advised the Commission is hopelessly split on the question of Oswald's motivation. On the question of recommendations for the future protection of the President, Commission members Dulles and Ford believe there should be a new unit within the Department of Justice having the sole responsibility of protecting the President. The Secret Serivce would be divested of this responsibility. Chief Justice Warren is opposed to this, believing there would be too much concentration of power within the Department.

REC-42 62-109090-185

EX-108

The material received and reviewed is broken down into separate chapters, and the results of this review are set forth herein after.

THE FORWORD:

AUG 6 1964

This discusses the origin of the Commission, its organization and the manner by which it arrived at the conclusions in the report. Its significant that on page 8 the report states, "The Federal Bureau of Investigation executed the detailed requests made by the Commission with dispatch and thoroughness. At the same

tBI tBI

COPY SENT TO MR. TOLSON

time the Federal Bureau of Investigation continued its own investigation into the assassination." Elsewhere in the forward, it is stated "As this report reflects, the actions of several federal agencies, particularly the Federal Bureau of Investigation, the United States Secret Service, the Central Intelligence Agency, and the Department of State, have been reviewed in detail by the Commission." It points out "the responsible officials of these agencies were called to testify under oath before the Commission and the Director was specifically named. It is noted the draft did not include the results of investigation concerning Jack L. Ruby. It is stated this was not set out as, "widespread publication of facts regarding the assassination or subsequent killing of Lee Harvey Oswald might interfere with Ruby's rights to fair and impartial treatment on the charges filed against him by the State of Texas."

THE TRIP TO DALLAS:

This section primarily deals with data furnished to the Commission by the United States Secret Service, a copy of which was furnished to the Bureau. It concerns the usual protective procedures for the visit of the President, and what was done for this trip to Dallas. At one point, the Commission stated "no arrangements were made for an inspection of buildings along the motorcade route, either by police or by custodians of the buildings, since it was not the usual practice of the Secret Service to make such a check." At this point, the report in a footnote states this policy is discussed elsewhere in the report. These pages were not available for our review. The Commission also stated "Before leaving the hotel on that fateful day, the President, Mrs. Kennedy and aide Kenneth P. O'Donnell talked about the risks in the President's public appearance. In an almost clairvoyant manner, President Kennedy commented that nothing could prevent an assassin from killing a President from a tall building with a rifle equiped with a telescopic lense, but he concluded that was an unavoidable risk in view of the exposure required of the Head of State and leader of a political party."

The Commission stresses the difficulties inherent in protecting a President due to political considerations wherein a President desires to be as close as possible to the people.

THE SHOTS FROM THE TEXAS SCHOOL BOOK DEPOSITORY:

In this chapter "the Commission has concluded that the shots fired at President Kennedy and Governor Connally were fired from

a sixth floor window at the southeast corner of the Texas School Book Depository Building in a space of approximately five to eight seconds." The Commission also concludes "that two bullets caused all of the wounds suffered by President Kennedy and Governor Connally ...one of the shots most likely the first or the third entirely missed the Presidential car and its occupants." The report states, "not one shread of credible evidence suggests that these shots were fired from the triple overpass, the railroad yards or any other site at the scene of the assassination." The autopsy results on the President are set out and negates prevalent theories that the President had been shot in the throat and it confirms the shots had to be fired from the direction of the Texas School Book Depository Building where Oswald was employed.

THE ACTIVITIES OF OSWALD AFTER THE ASSASSINATION:

This chapter is quite specific in proving that Oswald must have been the assassin and tends to substantiate our findings concerning his movements after the assassination. The Commission established this through various independent time studies and the taking of numerous statements from credible witnesses. This section should put to rest many of the fallacious theories put out by our adversaries in an effort to confuse and complicate our task.

THE MURDER OF TIPPIT:

The Commission is very explicit that every effort was made to uncover credible evidence of a possible link between Oswald and Ruby; however, "no such evidence was discovered." They specifically state that Oswald did murder Tippit and theorized that at the time of the killing he might have been trying to escape to Mexico. The complete feasibility of Oswald being in the area of Tippit's murder and the possible circumstances of why Tippit stopped Oswald is discussed.

LEE HARVEY OSWALD; THE PRE-RUSSIAN PERIOD:

This is divided into sections covering Oswald's boyhood and his service in the U. S. Marine Corps. The Commission goes into detail about the psychiatric examinations made of Oswald in New York; and makes a damaging indictment of Oswald's mother, Mrs. Margarete Oswald, as an unstable and unsavory individual who had a negative effect on her son's development and personality. Oswald's Marine Corps history and experiences are recounted and nothing is set forth which would contradict our inquiries into this period of Oswald's life.

LEE HARVEY OSWALD'S LIFE IN RUSSIA:

In this section the Commission speculates that Oswald probably first decided to defect to Russia when he was stationed in Japan with the U. S. Marine Corps in 1957. Details concerning Oswald's travel to Russia, his attempts to renounce his United States citizenship, and the difficulties he had with Soviet authorities in receiving permission to reside indefinitely in the Soviet Union, and his assignment to a job in Minsk, Russia are discussed. Oswald's courtship and marriage to Marina Oswald is described. The Commission points out that Oswald became disillusioned with the Soviet system in early 1961, and thereafter it summarizes the steps Oswald took to return to the United States. This phase of the Commission's report was largely based upon State Department records, interviews with Marina Oswald and information contained in Oswald's diary and other personal documents found in Oswald's effects following the assassination. There was nothing new brought out in this phase of Oswald's life that had not already been developed through our inquiries and our perusal of State Department documents regarding Oswald.

TECHNICAL EVIDENCE:

It was noted that in setting forth the results of the various technical findings and conclusions the report occasionally departs from the actual expert witness testimony furnished. In some instances this appears in what purports to be verbatim quotes from the testimony, and in other instances it appears in the form of paraphrasing.

CONCLUSION:

It is evident from this draft that the FBI's investigation of the assassination of President Kennedy was essentially correct, and that the Commission has not uncovered any startling information that was not developed in our investigation. The Commission's report is a substantiation of our initial report which was furnished to the Commission as early as December 5, 1964.

ACTION:

When an additional report is received with recommendations, conclusions and other material, it will be reviewed and you will be advised of the results.

Memorandum

TO : Mr. Belmont

DATE: 8/18/64

FROM : A. Rosen

SUBJECT: PRESIDENT'S COMMISSION
ASSASSINATION OF THE PRESIDENT

1 - Mr. Conrad
1 - Mr. Sullivan
1 - Mr. Belmont
1 - Mr. Rosen
1 - Mr. Malley
1 - Mr. Shroder
1 - Mr. McGowan
1 - Mr. Rogge

During the conversation on August 18, 1964, with Mr. J. Lee Rankin of the President's Commission, Mr. Rankin mentioned the requests that have been made of the Bureau to furnish the number of reports, the number of pages, as well as the number of interviews and man hours which have been consumed in the over-all investigation. Mr. Rankin stated that the number of pages as well as the number of reports, as furnished by the Bureau's letter of August 12, 1964, would be most helpful and that he certainly did not expect the Bureau to perform the tedious task of counting the actual number of interviews or to compile the number of man hours utilized. He advised that when the request was made he thought there was a possibility this data might be readily available.

Mr. Rankin stated that in order to give the Bureau due credit for the tremendous amount of investigation which had been performed by the Bureau, was intended that a statement would be included in the "foreword" of the Commission's report, mentioning the extent of the Bureau's activity.

Polygraph Examination of Ruby:

Mr. Rankin stated that Chief Justice Warren had recently returned to the United States, following which he, Mr. Rankin, had briefed the Chief Justice thoroughly concerning the Bureau's assistance in affording Jack Ruby a polygraph interview on July 18, 1964. Mr. Rankin stated that the Chief Justice was most appreciative that the Bureau had gone ahead with this polygraph examination in view of the personal promise that he had made to Jack Ruby that he would be afforded a polygraph examination. He stated that the Chief Justice was fully cognizant and appreciative of the various sound observations which had been made by the Bureau relative to affording Ruby a polygraph examination, but regardless of the Bureau's feelings in this matter, we had gone ahead and complied with the request of the President's Commission.

Mr. Rankin advised that with regard to the polygraph examination, there would be a discussion in the report of the Commission showing the conditions under which this polygraph examination was given to Jack Ruby and the report would quote the Bureau's letter therein, where we set forth our observations relative to the desirability of giving Ruby such an examination.

Bureau's Interest in Rights of Individuals:

During the discussion, Mr. Rankin mentioned that staff members of the Commission were very much interested in seeing that the comments of the Director and Mr. Belmont were brought to light in the Commission's report in such a way that they would receive appropriate attention rather than appearing solely in the testimony itself. He advised that this matter had not been taken up with the seven members of the Commission as of this time but this would be done very shortly and that it was his desire to see that the Bureau's interests in the rights of individuals was properly related in an appropriate part of the report. Mr. Rankin did not volunteer where in the report this information would be set forth.

Comments Concerning the Bureau's Participation in the Investigation:

Mr. Rankin commented that throughout the tremendous amount of work which has been done concerning the assassination of the President, the FBI had certainly carried a tremendous workload, and that while Secret Service had performed a small amount of investigation at the request of the Commission and a few other agencies had done some minor work, the bulk of the investigative activity had been carried on by the FBI. He stated that throughout the entire existence of the President's Commission the Bureau had cooperated fully and never on any occasion refused to carry out a request of the Commission, regardless of how ridiculous the request might have seemed on the surface. He stated he was well aware of the fact that many of the requests did not have any basis in fact for being run out but because of the nature of the investigation, the Commission felt that it had to be done. He stated he felt that the Bureau's efforts along these lines would certainly reflect favorably on the Bureau's investigation and the amount of interest that was given to detail, both by the Bureau and the President's Commissio He stated that all in all, he felt that the Commission's report would certainly reflect creditably on the FBI.

Date of Final Report by the Commission:

Mr. Rankin advised that the present target date for the submission of the report of the Commission was September 8, 1964. He stated he sincerely hoped that the Commission would be able to meet this target date but that as of

the present time he was not certain whether this could be done. In this connection Mr. Rankin mentioned the fact that he was aware the Bureau had received a number of requests in recent weeks and that all of the requests of the President's Commission were being complied with as rapidly as possible. He also stated that anything that could be done to expedite these late requests would be appreciated.

Mr. Rankin was assured that the Bureau was well aware of the Commission's desire to wind up their activity and that specific instructions had been given to all offices conducting investigation to complete all phases of our investigation in the shortest possible time.

This is being watched most carefully at the Seat of Government and we are seeing that all offices are handling matters on an expeditious basis.

Submitted for information.

REQUEST FOR LETTER FROM FBI CONCERNING FINGERPRINT EXAMINATIONS OF OSWALD'S PERSONAL EFFECTS

Today, Stuart Pollak of the President's Commission telephoned D.C. to request a letter from the FBI showing the extent of the fingerprint analysis of all of the personal effects of Lee Harvey Oswald, so he will have the complete picture in one place. He was advised such a letter will be sent to the Commission in the near future.

SUBJECT: THE PRESIDENT'S COMMISSION
ASSASSINATION OF THE PRESIDENT

PURPOSE

To recommend the attached letter be sent to the President's Commission advising them of the extent of our investigative efforts since the assassination pursuant to its request.

DETAILS

By letter dated 8-7-64, the Commission advised it intends to incorporate in its final report the extent of the "excellent" investigative effort undertaken by the Bureau since the assassination. In this letter it requested the following statistical data:

1. Approximate number of interviews conducted.

2. Pieces of correspondence and reports submitted to the Commission.

3. Total number of pages of such materials.

4. If available, the approximate number of Agent-days spent on this investigation.

The Commission specifically pointed out they did not desire us to distinguish between the various investigations conducted, such as the Jack L. Ruby case and Lee Harvey Oswald. They did state that they desired any thoughts on our part which would enable them to present these statistics in the most effective way.

Memorandum to Mr. Belmont
RE: THE PRESIDENT'S COMMISSION

BACKGROUND

As of 7-31-64, more than 1756 investigative reports comprising more than 17,200 pages constituting the FBI's investigation have been furnished to the Commission. Further, over 3682 items of physical evidence were received in the FBI Laboratory for technical examination. In addition, our Exhibit Section constructed and delivered to the Commission detailed scale models of the assassination area, including appropriate buildings, landmarks, etc., with accompanying volume of visual aids.

We do not have a record of the number of interviews conducted since the assassination and the only way this could be accomplished would be a time consuming physical count. Likewise, we do not know the number of Agent-days spent on this investigation and tabulating same would be an enormous undertaking. It is pointed out that virtually every field office and legal attache have at one time or another conducted some investigation in this matter.

RECOMMENDATION

That the attached letter be sent furnishing the Commission with that statistical data available and summarizing the major accomplishments of this Bureau since the assassination.

The President's Commission
200 Maryland Avenue, Northeast

Dear Mr. Rankin:

Reference is made to your letter of July 20, 1964, requesting a copy of the recording made by Eve Pappas at the time Lee Oswald was shot.

Enclosed is a copy of this tape recording which retains essentially all fidelity and clarity of the recording from which this copy was made.

The examination previously conducted by the FBI Laboratory consisted of a process designed to identify any unknown sounds on a recording of this type. These techniques consisted of playing the recording at speeds varying from the original recording speed and also observing a visual display of the frequency spectrum of that pertinent portion of the recording in which utterances by Ruby would have been made at the time Oswald was shot.

It should be noted that the examination as outlined above was conducted on a copy of the original recording made by Eve Pappas of station WNEW, New York, in accordance with your request in a letter dated June 24, 1964.

Sincerely yours,

J. Edgar Hoover

NOTE: General Counsel Rankin requested by letter dated 6/24/64 that a copy of the original Pappas recording be obtained and a technical examination conducted of same recording by the Laboratory. This was done and was reported in a letter to the Commission dated 7/17/64. Lab is also retaining copy of recording

Dear Mr. Hoover:

Thank you for your letter of July 17, 1964 in which you state that examination of a tape recording made by Mr. Ike Pappas shows that no identifiable utterances were made by Jack Ruby at the time he shot Lee Oswald.

Please provide for the Commission files a copy of the Pappas recording having as good fidelity as is obtainable together with a statement from your laboratory indicating what examination was made of the original Pappas recording and the extent to which sound has been lost in the copy which is provided the Commission.

Sincerely,

J. Lee Rankin

Dear Mr. Rankin:

Reference is made to your letters dated June 30, 1964, and July 10, 1964, requesting that an investigation be conducted to determine the circumstances surrounding the obtaining and publishing of excerpts from Lee Harvey Oswald's "Historic Diary" in "The Dallas Morning News" and "Life" magazine.

The Dallas Office of this Bureau furnished the FBI Laboratory the following items obtained from Henry Wade, District Attorney, Dallas, Texas, which he advised are material his office had concerning the diary and other evidence in this case:

1 roll of 35 millimeter positive film
1 roll of 35 millimeter negative film
15 Xerox prints of some of the pages of Oswald's diary.

The New York Office of this Bureau has obtained and furnished to the Laboratory copies of Oswald's diary that were purchased and published by "Life" magazine.

Examination of these items in the FBI Laboratory has established that the 35 millimeter positive film obtained from the Dallas District Attorney's Office contains imperfections in their original state that are reproduced in the 35 millimeter negative film obtained from the District Attorney's Office. In addition, these imperfections from the positive film, plus some original imperfections in the negative film, are all

reproduced in the Xerox prints of this film obtained from the District Attorney's Office and are also reproduced in the Xerox prints from "Life" magazine. This shows that the "Life" magazine copies originated from the 35 millimeter films from the Dallas District Attorney's Office.

Investigation regarding the film in the possession of the District Attorney's Office has established that shortly after the assassination the material, including the diary, which the Dallas Police Department obtained from the various residences of Oswald was furnished to the FBI in Dallas where it was photographed on 35 millimeter film for record purposes. A copy of this film was furnished to the Dallas Police Department. A representative of the Dallas District Attorney's Office subsequently requested copies of the material from the Police Department and, as a result of this request, the Police Department furnished the roll of film to the District Attorney's Office representative. The Police Department film was taken to the Recordak Company in Dallas where a 35 millimeter positive, a 35 millimeter negative and three sets of Xerox copies were made for the District Attorney's Office. The "Life" magazine prints are a part of these Xerox copies or are Xerox copies made at some other time from the District Attorney's 35 millimeter negative.

The Xerox copies of the diary obtained from the District Attorney's Office and the Xerox copies obtained from "Life" magazine were all examined for latent fingerprints. Seventeen latent fingerprints and three latent palm prints were developed on the copies from "Life" magazine. Five latent fingerprints and four latent palm prints were developed on the copies from the District Attorney's Office. One of the latent fingerprints on the copies from the District Attorney's Office is identical with the left thumb print of a William Franklin Alexander, who may be identical with William F. Alexander, Assistant District Attorney, Dallas, Texas. The other fingerprints and palm prints have not been identified.

Sincerely yours,

J. Edgar Hoover

NOTE FOR DALLAS:

The Dallas Office should obtain, if possible, the fingerprints and palm prints of William F. Alexander and H. H. Davis, Jr., of the District Attorney's Office. They should also obtain, if possible, fingerprints and palm prints of Hugh Aynesworth and Paula Aynesworth for comparison with the unidentified latent fingerprints and palm prints. A fingerprint card has been located for one Houston Harrison Davis, Jr., Navy Serial Number 528469, who may be identical with Assistant District Attorney H. H. Davis, Jr.

The films and Xerox prints submitted with Dallas letter 7/11/64 are being returned to Dallas under separate cover. No latent examination was made of the 35 mm films because such examination would tend to remove characteristics used in relating these films to the "Life" magazine copies.

NOTE FOR NEW YORK:

The Xerox copies obtained from "Life" magazine that were furnished with New York airtel 7/16/64 are attached to the New York copy of this letter. Photographs have been retained of these Xerox copies.

Dear Mr. Rankin:

I have received your letter of July 23, 1964. As you know, the Dallas Police Department lifted a latent impression on the underside of the gun barrel near the end of the foregrip of the rifle recovered on the sixth floor of the Texas School Book Depository Building. The Identification Division of the FBI determined this was a palm print which was identical with the right palm of Lee Harvey Oswald.

With respect to your specific question, no representative of this Bureau has made statements of any type to the press concerning the existence or nonexistence of this print.

Sincerely yours,

Dear Mr. Hoover:

It has been alleged that the palmprint lifted from Oswald's rifle by the Dallas police is false. This allegation is supported by the statement that the FBI told the press in an off-the-record briefing session on November 23 or 24 that there was no palmprint on the rifle. Will you please notify us whether at any time the FBI told or let it be known to the press that there was no palmprint on the rifle.

Dear Mr. Hoover:

In the course of its Report the Commission intends to answer a great number of allegations which have been made in connection with the assassination of President Kennedy and the murder of Lee Harvey Oswald. Among the allegations are the following:

1. It has been FBI policy for 20 years to report to employers those of their employees who are communists or suspected communists.

2. Patrolman Tippit violated a procedure covering radio cars when he failed to notify headquarters that he was stopping to question a suspect.

3. Prior to the assassination Dallas police searched other buildings in the area of the Texas School Book Depository but not the Depository building itself.

4. Precautions taken by the Dallas police on November 22 before the assassination included surveillance of many people, among them some who did no more than speak in favor of school integration.

62-109090

It would be most helpful to our work if you could investigate these allegations and provide us with answers at the earliest possible moment.

TO : MR. CALLAHAN DATE: 7-24-64

FROM : L. J. GAUTHIER

SUBJECT: PRESIDENT'S COMMISSION ON THE ASSASSINATION OF PRESIDENT KENNEDY REQUEST FOR VISUAL AIDS

Reference telephone call from Norman Redlich, President's Commission, to Inspector Malley, 7-22-64, regarding the preparation of visual aids depicting whereabouts of Lee Harvey Oswald after the assassination.

Mr. Redlich was contacted on 7-23-64 at which time he discussed information which the Commission desired to be put into a graphic chart depicting the known and assumed movements of Oswald between the time he left the Texas School Book Depository and his arrest in the Texas Theatre. The Commission desires that this chart differentiate between the known whereabouts of Oswald and the assumed routes used by him to get to these locations where certain witnesses saw him. This information is supported by evidence adduced from witnesses testifying before the Commission.

Mr. Redlich asked that this matter be prepared in such a manner that it will be legible after being reduced to 8" x 10" size suitable for insertion in the Commission's report. He realizes that technically this is a difficult request to make but hopes that the Bureau can come up with something suitable. He was advised that we would do everything possible to assist the Commission in this matter. This work is being given continuous attention in the Exhibits Section.

Dear Mr. Hoover:

Your letter of February 12, 1964 indicates that on the preceding day you delivered to this Commission a copy of a photograph which was displayed to Mrs. Marguerite Oswald on November 23, 1963, by Special Agent Bardwell D. Odum of your Bureau. You also referred to that photograph in your letter of February 7, 1964 in which you quoted portions of an article appearing in NATION magazine of January 7, 1964 and advised us that the photograph exhibited to Mrs. Oswald by Agent Odum was not a photograph of Mr. Jack L. Ruby.

The photograph which you delivered to us on February 11, 1964 was marked Commission Exhibit 237 and shown to Mrs. Oswald for purposes of identification during the course of her testimony before this Commission. Mrs. Oswald denied that Exhibit 237 was the same photograph as the one displayed to her on November 23, 1963 by Special Agent Odum. She specifically stated that the photograph which had been shown to her on that date had been cropped in a different manner from Exhibit 237 in that the former had not been

cropped to follow the outline of the head and shoulders of the individual portrayed in the photograph, as was the case with Exhibit 237.

Mr. Wesley J. Liebeler of our staff advises me that on May 28, 1964 he requested Mr. Malley of your Bureau to provide for the purposes of our record a complete explanation of all of the circumstances surrounding the receipt of the photograph in question by your Bureau and its display to Mrs. Oswald. In response to that conversation, on June 9, 1964 your Bureau forwarded to this Commission other copies of the photograph which had been displayed to Mrs. Oswald. While it appears that the individual portrayed in the photograph forwarded with your letter of June 9, 1964 is the same individual that was portrayed in the photograph which you forwarded to us on February 11, 1964 and which was marked Commission Exhibit 237, we note that the two photographs have in fact been cropped in a different manner. The upper portion of the former is cropped roughly in the shape of a triangle whereas the latter (Exhibit 237) was cropped to follow the outline of the head and shoulders of the man portrayed in that photograph. Your letter of June 9, 1963 indicates that the original of the photograph that was actually shown to Mrs. Oswald is maintained in the files of your Bureau and sets forth on its backside the initials of Special Agent Odum.

In view of the confusion which now exists in the record of our proceedings as a result of the fact that the photograph which you forwarded to us on February 11, 1964 was not in fact identical to the photograph actually displayed to Mrs. Oswald on November 23, 1963, we would appreciate receiving a copy of both sides of the photograph which was in fact shown to Mrs. Oswald so that our record may show the initials of Special Agent Odum thereon. We would also like to have a statement from Special Agent Odum identifying the photograph which he in fact displayed to Mrs. Oswald and indicating the circumstances under which he did so.

We understand that the photograph in question was originally delivered to you by the Central Intelligence Agency. We would appreciate receiving statements from the officials of your Bureau who handled this matter at the time indicating when and by whom and the complete details of the circumstances under which that photograph was delivered to you. We are interested in, among other things, the number of copies delivered to you, the circumstances under which the photograph actually displayed to Mrs. Oswald was cropped, why and by whom and the reasons why that photograph was in fact displayed to Mrs. Oswald.

We would also appreciate advice as to the identity of the individual portrayed in that photograph.

Your continued cooperation is appreciated.

Sincerely,

SUBJECT: LEE HARVEY OSWALD

Memorandum dated June 8, 1964, from Bland to Sullivan set forth information concerning a request from the President's Commission that the Bureau provide Commission with certain specific data relating to the Fair Play for Cuba Committee, the 30th of November Movement, and other organizations. The Commission also requested all reports from our Dallas Office for the year 1963 which pertained to persons believed active in the Communist Party or the Socialist Workers Party. The memorandum pointed out that the information requested concerning the organizations was being furnished to the Commission and recommended that the individual reports concerning individuals having communist and Socialist Workers Party affiliations in Dallas during 1963 be taken up with Mr. Rankin to see whether or not the Commission actually desired these individual reports.

This matter was discussed with Mr. Rankin of the President's Commission on June 10, 1964. Mr. Rankin advised he did not see any reason for these individual reports to be turned over to the President's Commission unless they contained specific information showing a relationship between the individuals and Oswald or Ruby. He advised he would discuss this matter with the Commission staff and would advise the Bureau at a subsequent date as to whether these reports should or should not be made available.

In the absence of any instructions from the President's Commission relating to this matter, Malley discussed this situation with Mr. Rankin on June 29, 1964. Mr. Rankin stated that he would appreciate it if this matter would be taken up with his assistant, Mr. Howard Willens.

Willens advised that he was undecided whether the Commission desired the actual reports. It was explained to Mr. Willens that there was no reluctance whatsoever on the part of the Bureau to make the reports available; the only question involved was whether the Commission wanted to have reports on individual members of the Communist Party and the Socialist Workers Party made a part of the permanent record of the Commission. It was suggested to Mr. Willens that he review the reports in question which Malley made available to him and decide whether he wanted the reports in question. Willens stated the reports would be reviewed as soon as possible and would either be returned to the Bureau or he would advise the Commission desired to keep these reports.

DATE: July 22, 1964

FROM : H. L. Edwards

SUBJECT: PRESIDENT'S ASSASSINATION
INQUIRIES AND VISITS AT DALLAS, TEXAS,
BY WALTER E. CRAIG, PRESIDENT
AMERICAN BAR ASSOCIATION

Last week the Director approved alerting the SAC at Dallas to a visit by American Bar Association (ABA) President Walter E. Craig, and an associate, Charles Murray, who desired to look over the assassination scene and conduct certain other inquiries in connection with Craig's responsibility for collaborating with the Warren Commission in its inquiry into the assassination of President Kennedy. Craig had requested permission to be in contact with our Dallas Office to facilitate the completion of his business in Dallas.

SAC Shanklin reported that Craig and Murray were met on their arrival at Dallas the evening of 7-15-64. They were extended courtesies and on the following two days assistance was provided them in locating and visiting the various points and individuals in connection with their inquiry. SAC Shanklin stated that no problem whatever arose; there was no involvement of the Bureau in Craig's inquiries. To the contrary, Craig was extremely profuse in his gratitude to the Director for the assistance extended during the Dallas visit, and he was quite complimentary concerning the FBI. Craig stated that he expected to be in Mexico City in connection with the International Bar Conference scheduled there 7/25 - 31/64, and, incidental to that, he hopes to check an item or two in connection with the Mexico angle of the Oswald case. Mexico City Legat Clark Anderson has been alerted.

Craig called me from his home in Phoenix this week and personally reiterated his gratitude for the help given him in Dallas and asked that I extend his appreciation to the Director. He said that the assistance of the Dallas Office enabled him to cover everything with efficiency and dispatch and he is not at all concerned with any apprehension as to what the Warren Report might say because he is convinced the Bureau has done its usual outstanding job. He did indicate that if the Warren Report makes any recommendations it will possibly be to make more suggestions as to improving the protection of the President and might want the FBI to assume more responsibilities in this regard. He said he has no specific knowledge that such will be their recommendation and he is only basing this on speculation as a result of some general comments he has heard at the Commission. He indicated that in his best judgment, the Report of the Commission might be anticipated around 8-7-64, but this date is only tentative.

Enclosed for Oklahoma City, Dallas and Legal Attache Tokyo is a copy of the afore-mentioned communication bearing Martin's name dated 7-17-64.

Atsuyuki Sassa is a Japanese Police Superintendent who visited FBI Headquarters on 3-5-64, and was afforded a special tour of the Bureau. The article written by Troelstrup in the "U. S. News and World Report" contained numerous inaccuracies and incorrectly implied that Sassa participated in our investigation of the assassination. The article, while quite favorable to the Bureau, was prepared after Troelstrup participated in an informal group discussion in Japanese attended by Sassa and other Japanese police officers. The Bureau has received signed statements in which Troelstrup admits there were errors in his article and that he was wrong in saying that Sassa was assigned to our investigation. The President's Commission has been furnished details of this matter.

NOTE: This is the 21st letter to the Commission on Martin. SAC Letter 64-23B dated 4-28-64, alerted the field to her continuing campaign of vilification of the Director and the FBI.

In Martin's most recent letter, which was directed to Mr. Sassa and a copy furnished to the Bureau, Martin comments on the article appearing in the magazine and starts out with "I am sorry you don't understand the questions raised concerning the investigation of the assassination..." Martin endeavors to show where her "superior" understanding negates Sassa's opinions on the time it took to fire the assassination weapon and other matters. She concludes by stating that Sassa should not put too much faith in the FBI.

Warren Group Split on Secret Service

By LESLIE H. WHITTEN

Hearst Headline Service Special to The N. Y. Journal-American

WASHINGTON, July 21.—The Warren Commission report has been delayed because some Commission members feel the 60-year role of the Secret Service in protecting Presidents should be turned over to another agency. The FBI has been mentioned as a possibility.

The 100-year-old Secret Service was criticized in the wake of President Kennedy's assassination Nov. 22, and some of the criticism, it was learned, is reflected in the draft report. The Secret Service has protected Presidents since 1907, when President McKinley was assassinated in Buffalo.

The Warren Commission report is broken down into six general sections, one of which contains recommendations. Part of this section seeks to prescribe means for heading of ffuture attempts on a President's life.

This was a major point of disagreement among the seven-man commission.

Some of the delay in releasing the report it was learned, has been caused by the need to check out new reports as they come in—such as one that Lee Harvey Oswald and his killer, Jack Ruby, had postal-boxes near each other.

J. Lee Rankin, counsel for the Warren Commission declined to comment on the delay.

REPORT DELAY

It was thought the report would be out by the end of June. Now it will be put out sometime after Aug. .. .. ..

The 400-man Secret Service had about 60 men on the White House detail when President Kennedy was killed.

Among questions that have arisen in the Commission on protecting the president are these:

- Was there adequate cooperation between the Secret Service, the FBI and the Texas and Dallas authorities in view of Lee Harvey Oswald's record of Communist activities and abnormal behavior?
- Was the route of the Presidential car through Dallas adequately checked and should it have been announced so far in advance? Had the book warehouse from which the shot was fired been properly checked?
- Was there relevance in reports that Secret Service agents were drinking until 3 A.M. in a Fort Worth night club the day before the assassination?
- And finally, should the Secret Service, with its limited personnel and intelligence network, continue to do the job or should it be turned over to the FBI or to a new agency with the sole job of protecting the President? If the Secret Service keeps the job, how can cooperation between the service, the FBI and other federal and local authorities be improved?

President Johnson, during a press conference Saturday, declined to estimate when the report would be out.

SUBJECT: Lee Harvey Oswald

INTERNAL SECURITY - R

By letter dated July 14, 1964, Mr. J. Lee Rankin, The President's Commission, called the Bureau's attention to the English translation of Commission Exhibit number 1 (D-30) stating that in two instances the Bureau's translation had items in parentheses, which would appear to be more appropriately placed in brackets.

The translation in question was prepared by SA Anatole A. Boguslav on 12/5/63 and furnished to the Commission as a part of the report of SA Robert P. Gemberling dated 12/23/63 in Dallas.

Referring to paragraph nine, a comparison of the translation with the original evidence indicates that the translator's use of parentheses is proper in that the original also reflects such usage of parentheses. This, consequently, does not represent the interpolation of the translator, as suggested in Rankin's letter, and the Commission is in error in this instance.

Concerning paragraph ten, it is noted that the original does not contain any parentheses. The Bureau's translation does contain the word "apparently" in parentheses as an interpolation of the translator following the phrase "You and the baby." This is due to the fact that the handwriting in the original is extremely poor and in many instances misspelled and nearly illegible.

The questioned word in this instance may be "June" which is in fact the name of the baby. Although the use of parentheses is common practice to indicate the translator's evaluation of a questionable passage, in this instance since parentheses appeared elsewhere in the original material, a more specific identification of the translator's comment as a "translator's note" would have been appropriate, although not essential in view of the context.

Accordingly, a proposed letter to the Commission is attached pointing out that although it was originally felt that the translator's note was apparent from the context, in accordance with their request, the parenthetical expression has been specifically identified as a translator's note in the amended translation which is being furnished to the Commission.

It is noted that the translation from the Russian language in this instance was prepared by SA Anatole A. Boguslav, a native born Russian, normally assigned to New York, but on special assignment in Dallas following the assassination specifically to assist in this investigation. Accordingly, in order to answer the Director's inquiry, "Why can't we do it right in the first place?" there is attached hereto a letter to New York requesting an explanation from SA Boguslav, together with appropriate recommendations from the New York Office in this matter.

ACTION:

LENIHAN

Dear Mr. Hoover:

In January of this year after public announcement of Albert E. Jenner, Jr.'s appointment as assistant counsel to the Commission staff and before Mr. Jenner came to Washington to begin his work, he received a letter at his Chicago office from one John J. Kaylock, 116-5th Street South, St. Petersburg, Florida, a copy of which is attached, in which Mr. Kaylock generalized in vague terms that he had "information" allegedly pertaining to the assassination supposedly "secured from Lee Oswald on public contact at Punta Gorda, Florida, on October 2, 1963."

Mr. Jenner transmitted to Mr. Kaylock a polite acknowledgment of his letter. A copy of Mr. Jenner's letter is enclosed.

When it appeared in the course of the work of the staff that Oswald was in fact enroute from Mexico City to Dallas, Texas, on October 3, 1963, and having in mind the vagueness of Mr. Kaylock's letter, he concluded no good purpose would be served in embracing Mr. Kaylock's offer and contacting him, particularly in the light of Mr. Kaylock's representation that he had secured "information" from Oswald himself "on public contact" at a place a good deal over a thousand miles away from where Oswald actually was known to have been on the day Mr. Kaylock claimed to have had personal contact with Oswald.

On June 25, 1964, Mr. Kaylock wrote Governor John Connally complaining that no one from the Commission had contacted him

despite his letter to Mr. Jenner, and concluded:

A copy of Mr. Kaylock's letter to Governor Connally is enclosed.

Although on the face of the correspondence and in the light of the facts now known to the Commission staff, it appears unlikely that Mr. Kaylock possesses "information" of value to the investigation, I hesitate to forego investigating even this unlikely source, especially in view of Mr. Kaylock's complaint to Governor Connally.

Therefore, I will be indebted if you will have your St. Petersburg, Florida, office interview Mr. Kaylock and furnish us the results of the interview at its and your earliest convenience.

Your continued cooperation and assistance in the work of the Commission is very much appreciated.

SUBJECT: PRESIDENT'S COMMISSION ON THE ASSASSINATION OF PRESIDENT KENNEDY REQUEST FOR VISUAL AIDS

Re Commission's letter to Director dated 7-14-64 requesting that Commission document 1062d (blueprint of third floor Dallas Police and Courts Building) be made into a diagram which would eliminate certain details and of a size suitable for the body of the Commission report, thus making it easily comprehensible.

In accordance with the Commission's request, I personally contacted Dr. Goldberg and Mr. Pollak of the Commission on 7-15-64 and discussed with them the features of the plans to be emphasized. Both men appeared to be undecided as to what was needed. They were not satisfied with the plans obtained from the police department and desired to know whether the FBI had made plans of this area. I mentioned to Dr. Goldberg that on 12-5-63 the FBI in anticipating the need for floor plans of this area (Captain Fritz, Homocide Offices) prepared plan of the third floor which was furnished to the Commission on 1-20-64 together with other visual aids which were contained in a brochure titled "The Assassination of President John F. Kennedy, 11-2-63 and The Killing of Lee H. Oswald, 11-24-64."

Dr. Goldberg quickly located the above brochure in his own office files and stated that he was a bit "red faced" and inasmuch as the plans that the FBI had furnished months ago were excellent, they would best serve the Commission's need. He asked that a few details be added to our plan which are being handled at this time. He indicated that the plan would be entered in the Commission's record and that the FBI would be asked to give testimony concerning the preparation of this plan.

As a matter of established procedure documentary and other evidence in this case collected through the investigative efforts of the FBI and submitted to the FBI Laboratory has been carefully scrutinized with a view toward affording such evidence every type of Laboratory examination deemed necessary and logical to develop all significant facts. Such consideration included indicated need for cryptographic and microdot examinations. As a result of this procedure and based on such factors as the circumstances of recovery, the general nature of the evidence and any suspicious individual factors certain thorough and exhaustive cryptographic examinations were conducted. The results of these examinations were set forth in the reports of Special Agent Robert P. Gemberling dated January 7, 1964, page 48, and February 11, 1964, pages 59 and 65.

Dear Mr. Hoover:

A member of the Commission staff, Mr. Richard M. Mosk, spoke with Mr. Griffith of the Bureau about the possibility of the Bureau furnishing the Commission with a letter to the effect that documents have been examined for possible cryptographic use, such as microdots. The report of SA Gemberling dated January 7, 1964, page 48, and his report of February 11, pages 59 and 65, list the specific items that have undergone extensive examination in the laboratory. However, Mr. Griffith pointed out that every item is generally examined for cryptographic material in order to determine if further analysis is necessary. The Commission would appreciate a letter from the Bureau stating the extent to which it has examined documents in connection with the assassination for evidence of cryptographic implications.

Your continued cooperation in the work of the Commission is greatly appreciated.

Your attention is directed to the memorandum dated July 16, 1964, New York, New York, which reveals an interview with Mr. John F. Dowd, General Counsel, "Life" magazine. Mr. Dowd advised that during the latter part of June, 1964, Mr. James Thompson, Editor, accompanied by another "Life" representative, visited Washington, D. C. During their visit contact was made with Representative Gerald R. Ford and they had dinner with him. Mr. Dowd explained that several weeks previous Mr. Ford made a social visit to "Life" in New York City and on that occasion, Mr. Thompson was unavailable and later Mr. Thompson returned the visit. Mr. Dowd related that while Mr. Thompson was in contact with Representative Ford, he, Representative Ford, commented to Mr. Thompson that he was preparing a book regarding Lee Harvey Oswald and the assassination, which he is not going to release until after the public release of the report by the President's Commission.

Mr. Dowd said Representative Ford made a very general statement to Mr. Thompson regarding the possible length and size of the Commission's report, but at no time did Representative Ford or any other member of the President's Commission furnish any information regarding the Oswald diary or any information of a confidential nature pertaining to the investigation being conducted.

Documents obtained from the office of Mr. Henry Wade, Dallas County District Attorney, and those obtained from "Life" magazine are in our Laboratory. Appropriate examinations are being made of these documents and you will be furnished with the results of the examinations. Additional inquiries are also being made regarding this matter, and you will be advised when results are received.

Sincerely yours,

E. Edgar Hoover

Dear Mr. Rankin:

Reference is made to your letter of July 10, 1964, requesting investigation by this Bureau concerning the rifle testing conducted for "Life" magazine by an official of the National Rifle Association.

Enclosed are two copies of a communication dated July 20, 1964, at Washington, D. C., and two copies of a communication dated July 21, 1964, at New Haven, Connecticut which set forth pertinent information obtained from several officials of the National Rifle Association in answer to your request.

For your information, the testing of a rifle comparable to the rifle allegedly used by Lee Harvey Oswald to kill President Kennedy was reported in an article entitled "End to Nagging Rumors: The Six Critical Seconds" in the December 6, 1963, issue of "Life," page 52F. The "Life" article carried the name of the National Rifle Association official conducting the test as Clayton E. Wheat, Jr., and not Clayton E. Whyte, Jr., as set forth on page 89 of the Joachim Joesten book "Oswald: Assassin or Fall Guy?" Aside from the discrepancy in the last name of the individual testing the rifle, the Joesten book accurately reproduced the reference from "Life" magazine.

This concludes our inquiry as requested by you in the above matter.

NOTE:

By letter 7/10/64 the President's Commission requested Bureau investigation to determine the circumstances and results of tests reportedly made by an official of National Rifle Association with a rifle comparable to one used by Oswald to kill President Kennedy. The above tests had been reported on page 80 in Joesten's book "Oswald: Assassin or Fall Guy?" which quoted, in turn, from an article in the 12/6/63 issue of "Life" magazine about such tests. The Joesten book has been reviewed and found full of distortions and unfounded allegations regarding assassination matter. Our inquiry re test of rifle comparable to Oswald's revealed Wheat conducted test. Wheat is apparently identical to subject of a Theft of Government Property case in which the subject pawned a typewriter in New York City several months after it had been reported as stolen from the U. S. Military Academy at West Point, New York, in 1/46. The subject of the above case claimed he had purchased the typewriter from an unknown individual and denied stealing it from West Point. Prosecution was declined by the U. S. attorney. Letterhead memoranda furnished by WFO by airtel 7/20/64 and New Haven letter 7/21/64 both captioned "Lee Harvey Oswald, IS - R - Cuba."

Dear Mr. Rankin:

Reference is made to your letter dated July 16, 1964 requesting an examination of the photograph Life Magazine used in the preparation of the cover of their February 21, 1964, issue. This letter also requested examination of the Zapruder film to determine the elapsed time between frame 313 and the time Special Agent Hill of the Secret Service first reached the Presidential limousine.

Examination of the photograph used by Life Magazine shows that there is retouching on the stock and telescopic sight of the rifle, as well as other areas of the photograph, and this retouching conforms to the retouching described by Special Agent Lyndal L. Shaneyfelt in his testimony before the Commission on April 23, 1964, regarding his examination of the cover of the Life Magazine for February 21, 1964.

Examination of the Zapruder film shows that Special Agent Hill of the Secret Service first places his hand on the presidential car at frame 343, which is approximately 1.6 seconds after frame 313. Special Agent Hill places one foot on the bumper of the car at frame 368, which is approximately 3 seconds after frame 313. Special Agent Hill has both feet on the car at frame 381, which is approximately 3.7 seconds after frame 313. It is noted that some of the films of the assassination show that Special Agent Hill's foot

slipped off the bumper the first time he attempted to get on the presidential limousine. The above reference to the foot on the bumper relates to the final attempt, at which time Special Agent Hill succeeded in getting on the back of the presidential limousine. Since the portion of the action where Special Agent Hill's foot slips in his first attempt does not show in the Zapruder film, the frame number could not be designated for the point where Special Agent Hill's foot first touches the bumper.

This completes the examinations requested in your letter. The photograph furnished to the Commission by Life Magazine is being returned to you separately.

Dear Mr. Hoover:

Special Agent Lyndal L. Shaneyfelt has testified concerning the retouching which was done by LIFE magazine on the photograph which appeared on the cover of the issue of February 21, 1964. The Commission has received from LIFE magazine the actual print showing the retouching which was done in preparing the cover. We would like Agent Shaneyfelt to examine this photograph in order to assist in determining whether there is need for additional testimony concerning the photograph. The print may be picked up at the offices of the Commission.

In connection with the continuing examination of the Zapruder film we request that Agent Shaneyfelt advise us as to the time which elapsed between frame 313 and the moment when Special Agent Hill of the Secret Service first reached the back of the Presidential limousine.

NOTE:

Since May 26, 1964, we have received approximately 75 separate requests for investigation in this matter, and the results have been furnished to the Commission on a current basis. Enclosed report also includes this investigation since June 26, 1964, the date of the prior report, for dissemination to the Department and in addition includes some investigation on pending requests. The Commission's attention is being called to this so that it will not be necessary to furnish the information by separate letter. The enclosed report has been reviewed by Mr. Malley and an appropriate supervisor of the Civil Rights Section.

ATTENTION CRIMINAL SECTION

Enclosed for Dallas and New York is one copy of a self-explanatory undated letter from the President's Commission which was received at the Bureau on 7/29/64. This letter concerns the appearance of Attorney Mark Lane on the Barry Gray Radio Program over Station WMCA in New York City. Also enclosed is a verbatim transcription of that part of the radio program pertinent to the Commission's request.

A copy of the taperecordings furnished by the Commission have been made for retention in Bureau files and a verbatim transcription of the entire program will be prepared at the Bureau and furnished for the information of New York and review and analysis by Dallas in the immediate future.

The alleged witness to the Tippit shooting specified in the Commission's letter could not be identified at the Bureau based on the information supplied by Lane in the taperecording. Dallas is instructed to immediately comply with the Commission's request and review all investigation relating to the Tippitt slaying and endeavor to identify the witness referred to. The results of this review should be incorporated in an appropriate letterhead memorandum for dissemination to the Commission insuring that the specific questions raised by the Commission are suitably answered. Any other information which would have a bearing on this matter or tend to clarify, refute or substantiate Lane's allegation should of course be included in the letterhead memorandum. Since your letterhead memorandum will be furnished to the Commission, no subsequent reporting of this matter is desired.

RE: LEE HARVEY OSWALD

You will note that the enclosed excerpts from the tape-recording tend to indicate that Lane will play a recording of this "new" witness on the radio program, however the tape actually played is of a conversation of Lane with Helen Markham which the Commission is aware of.

Any developments indicating possible embarrassment to the Bureau as a result of this request should be furnished to the Bureau expeditiously.

New York through its sources should endeavor to determine if Lane is scheduled to appear on any of Gray's future programs. If Lane is to appear, appropriate arrangements should be made to tape the program and prepare a verbatim transcription for the information of Dallas and the Bureau. The source of the taperecordings or the date of the Gray program is unknown to the Bureau. The taperecording runs for approximately 52 minutes and 20 seconds and relates entirely to the assassination.

NOTE: The let and tapes obtained from Attorney N. Redlich, 4:30 pm, 7/29/64 and hand delivered by SA Cortlandt Cunningham. Lane is the oft-married, former NY Assemblyman, who reportedly engaged in perverted sexual acts of a sadistic and masochistic nature. He is reported closely associated with CP dominated organizations and has traveled about the country making speeches on the assassination.

Tapes dubbed by SA B. P. Fisher and monitored by SA R. D. Rogge on 7/29/64. Tapes contain the same biased, maliciously calculated half-truths and theories proferted by Lane since the assassination to prove Oswald was "framed" and that the Government, particularly the FBI, concealed, tampered with and altered evidence. The Commission request is based on Lane's allegation he furnished us the identity of "another" witness who saw two men participate in Tippitt's murder. He allegedly interviewed this witness several times but she has not been called before the Commission. Based on info available to the Bureau, no such story has been received and the identity of the witness is unknown. The original Commission tapes will be returned per its request at the time it is furnished the results of our investigation.

The dubbed tapes prepared by the Bureau, currently being transcribed, will be made a part of this serial when completed.

Dear Mr. Hoover:

The Commission has received a tape recording of a recent appearance by Mr. Mark Lane on the Barry Gray program which is broadcast nightly over Station WMCA in New York City. This recording is on two tapes which are enclosed with this letter.

Approximately one-fourth to one-third through Tape No. 1 there appears an allegation by Mr. Lane to the effect that several months ago he advised your Bureau of a witness to the Tippit shooting. According to Lane, your Bureau interviewed this witness, who is a woman, and learned that she saw two people involved in the Tippit slaying. Lane alleges that despite your Bureau's knowledge of this witness she has never been called by the Warren Commission.

We request that your Bureau advise the Commission as to whether Mr. Lane or anyone associated with him has ever told you about a witness meeting this description. We further request that you review your investigative records with respect to the Tippit slaying and advise us as to whether you have ever interviewed a woman meeting this description. Finally we request that you advise this Commission as to whether you have forwarded the name of such a witness to this Commission if such a witness exists.

You may if you wish make a copy of the enclosed tapes and return the originals to the Commission.

Excerpts from Barry Gray's radio program over Radio Station WMCA in New York City on which Attorney Mark Lane appeared.

Mark Lane (L): ...I can tell you this we now have a statement ah-- from another witness to the --ah Tippit killing. This is a witness who has been questioned at our request by the Federal Bureau of Investigation. Months and months ago she was questioned. She is an eyewitness to the killing of Officer Tippit. To this day she has not been called before the Warren Commission to testify-- and her statement is that she saw the killing of Tippit and two men were involved in the murder of Tippit, two men. One on each side of the street conversing with each other. Tippit got out of the car and walked toward one, this man pulled out a revolver, shot that man and then both of these men, who had been conversing before the shooting, ran in opposite directions. Thus far the Commission, which I assume must know of this testimony because we gave it to the FBI months ago and now we have given it to the Commission as well, the Commission has declined to call this eyewitness to the, this other eyewitness to the murder of Patrolman Tippit. I have made no reference to this other eyewitness until this time. We wanted to make sure that our statements were secured from her in writing and by tape, etc., so there could be no question about that. We now have ah the statements secured in that fashion so I can't...

Barry Gray (G): Do you

L: make reference to her.

G: Do you have a statement here with you?

L: I am not in --ah, I do not have her permission at this time to release her statement but I hope that within the next two weeks I will be able to release her statement entirely.

G: To whom was her first voluntary ah statement made?

L: To someone associated with our inquiry.

G: No, I, I don't mean that Mark, I'm, I'm talking about the FBI. Did she come forward shortly after November 22, and say I saw the killing of Officer Tippit?

L: She stated this to Agents who came in that neighborhood and questioned her, yes.

G: And has, have they gone back to interview her, to interrogate her?

L: Yes, they have questioned her on more than one occasion.

G: And she has not been called by the Warren Commission?

L: She has not been called by the Commission.

G: And ah why does she suggest this be so or what is your suggestion.

L: She has no theories at all and ah she is, she is an excellent witness in, in the area of speculation or conjecture. She says I'm sorry I don't know about that, and if you ask her a question, just try to lead her slightly, she said I'm sorry I just gave you all the information I have. She is very firm about what she knows and she won't go into this area as to why they're not calling her, she merely says I'm telling the truth and I'll tell it to anyone who wants to hear it but I can't tell anything which I don't know.

G: Is there something you want to add here before you get to the tape?

L: No, I think perhaps this might be a good point.

G: Well, I, I actually want to play the tape immediately after the news which is just a moment or two Mark Lane, but I want-- want to ask this--are you at liberty now to tell me and the audience how you obtained the conversation with Mrs. Markham your taped witness?

The Commission requested that we interview Helmick further for more specific details as to when and where the conversation took place and who else might have overheard this. Helmick states that she did not hear Ruby's end of the conversation and Paul's remark concerning the gun was made on the following day and not at the time of the reported telephone conversation. The Commission's request specifically stated that they did not want any interviews conducted which would alert Paul to the fact that we were investigating this particular phone call.

Dear Mr. Rankin:

Reference is made to your letter of June 10, 1964, concerning an allegation made by William McEwan Duff that Jack Ruby had called at the residence of General Edwin Walker on a monthly basis from December, 1962, through March, 1963.

Enclosed herewith are two copies of a memorandum dated June 23, 1964, at Oklahoma City, Oklahoma, setting forth investigation conducted by our Oklahoma City Office concerning this matter. There are also enclosed two copies of a memorandum dated June 18, 1964, at Dallas, Texas, setting forth investigation to obtain reports of the Dallas Police Department of their investigation concerning visitors to the Walker residence and pointing out where previous investigation concerning Duff is set forth in reports furnished to you in connection with the investigation of Lee Harvey Oswald. Two copies each of the four Dallas Police Department reports are also enclosed.

There are also enclosed for your information two copies of a memorandum dated July 20, 1964, at St. Louis, Missouri, setting forth a check of the military service record of Duff.

Honorable J. Lee Rankin

You will note that Mr. Duff, upon interview on June 16, 1964, stated that he was not acquainted with one Andre Angeles. There is no information in the files of this Bureau identifiable with Andre Angeles as referred to by Juanita Buchannon when interviewed on December 17, 1963, and investigation has not established that any person by the name of Angeles or similar name is connected in any way with the assassination of President Kennedy.

This concludes the investigation as requested in your letter of June 10, 1964, concerning William McEwan Duff.

Sincerely yours,

J. Edgar Hoover

Enclosures (14)

NOTE:

Duff reported to the Secret Service in May, 1964, at OC that Ruby visited the residence of General Edwin Walker. Duff had formerly been employed by Walker as a chauffeur and was initially considered a suspect by the DL PD in the shooting into the residence of Walker. In December, 1963, we conducted considerable investigation to resolve an allegation that Duff was acquainted with Oswald which was proven to be without merit. When interviewed in December, Duff stated he did not know Oswald or Ruby or any connection between the two. Investigation indicates his recent allegation was made for the purpose of impressing his wife who was divorcing him. Upon the interview, he does not retract the allegation but carefully avoids affirmatively stating that the person he saw visiting Walker was Ruby. Persons acquainted with him termed him as an inveterate liar, and he was discharged from the Army for fraudulent entry on the basis of falsely claiming prior service. The reference to Andre Angeles comes from an interview with Buchannon wherein she stated that Angeles (phonetic) an acquaintance of Duff flew to DL on 11/22/63 with a lot of money. Duff does not know Angeles and Angeles could not otherwise be identified on basis of information furnished by Buchannon.

Dear Mr. Rankin:

Reference is made to your letter of June 18, 1964, requesting that Chief Jesse Curry of the Dallas Police Department be interviewed concerning the telephone call allegedly made to his residence by Captain W. E. Frazier on the early morning of November 24, 1963. You were advised of the results of our interview with Chief Curry concerning this matter by letter dated July 1, 1964.

Enclosed herewith are two copies of a memorandum dated July 17, 1964, at Dallas, Texas, setting forth the results of a subsequent interview with Chief Curry wherein he corrects his previous statement.

Dear Mr. Rankin:

In reply to your letter of June 26, 1964, there are enclosed herewith two copies of a memorandum dated July 9, 1964, at Dallas, Texas, setting forth an interview with Eva Grant and two copies of a memorandum dated July 16, 1964, at Los Angeles, California, setting forth an interview with Mrs. Charles J. Hirsch.

You were advised previously by my letter of July 9, 1964, that Mr. Charles J. Hirsch had recently suffered a heart attack and was not available for interview. Inasmuch as Mrs. Hirsch was the recipient of the telephone call in question, no further effort will be made to interview Mr. Hirsch.

This concludes the investigation requested in your letter of June 26, 1964.

DATE: 7/2/64

FROM : R. H. Jevons

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY; 11/22/63; DALLAS, TEXAS

Mr. Norman Redlich of the President's Commission telephoned today and advised that he had before him a draft of an article to be published by the "Readers Digest" in the near future which included the use of neutron activation analyses on the paraffin casts taken of Oswald's cheek and hand for gunpowder residues.

He advised that he knew that the FBI Laboratory had sent a letter to the Commission covering the results of work that the Laboratory had done in this matter but he could not find it at that time. I provided him with the date of the letter and read it to him upon his request.

This letter, dated 3/10/64, advised that the paraffin casts from Oswald were examined by neutron activation analyses at the Oak Ridge National Laboratories, Research Reactor Site, Oak Ridge, Tennessee, and that the analyses were made to determine if the casts bore any primer deposits from the rifle cartridge cases found in the Dallas School Book Depository Building following the President's assassination. The letter advised in essence that the deposits found on the paraffin casts of the hand and cheek of Oswald could not be specifically associated with the rifle cartridges since the same elements were found in residues both from the rifle cartridge cases and the revolver cartridge cases which were fired from Oswald's revolver reportedly between the time of the assassination and the time of his apprehension. In view of the fact that the paraffin casts were not made until after the reported firing and handling of the revolver, no significance could be attached to the residues found on the casts other than the conclusion that barium and antimony (the elements found in the residues) are present in amounts greater than would be expected to be found on the hands of an individual who has not recently handled a fired weapon.

After reading the letter to him, Mr. Redlich advised that the Commission may want a deposition concerning these findings but he would consider it further and advise the Bureau.

Dear Mr. Hoover:

I call your attention to page 269 of the report of Agent Gemberling dated March 10, 1964, which sets forth the details of an interview with Warren Reynolds who has been the subject of a newspaper article written by Bob Considine.

In Agent Gemberling's report, Reynolds states that General Edwin Walker attempted to contact him and that in the event such contact is made Reynolds will report the results of such contact to your Bureau.

We request that your Bureau interview Reynolds to determine whether General Walker has been in touch with him and, if so, the nature of any conversations or communications between Reynolds and Walker.

Mr. J. Edgar Hoover
Director, Federal Bureau

Department of Justice
Washington, D. C.

Dear Mr. Hoover:

During the course of the Commission's hearings, expert testimony has been elicited concerning various items of physical evidence. We would like you to determine, and set forth in one document, where and by whom these items were found following the assassination. In each case, the item should be shown to the person who found it, so that he can identify it by inspection. If he cannot so identify the item, a chain of possession should be traced between him and the first person who can identify it by inspection. However, it is unnecessary to trace the chain of possession forward past the first person who can identify the item by inspection.

As an example, Lieutenant Day of the Dallas Police Department initialled two of the three rifle cartridge cases at 10:00 p.m. on November 22. These cartridge cases should be traced back from 10:00 p.m. to the person by whom they were found, at the time that he found them. The chain of possession need not be traced forward past Lieutenant Day.

The items to be identified are as follows:

(1) the three rifle cartridge cases, C6, C7, C38

(2) the rifle bullet, C1

(3) the two rifle-bullet fragments, C2 and C3

(4) the rifle cartridge, C8

(5) the bullet from the Walker residence, C148

(6) the revolver cartridge cases, C47-C50

66 AUG 7 1964

(7) the four revolver bullets recovered from the body of Officer Tippit, C13 et al

(8) the six revolver cartridges found in the revolver at the time of Oswald's arrest, C51-C54 and C137-C138

(9) the five revolver cartridges found in Oswald's pocket at the time of his arrest, C55-C59

(10) the green-and-brown blanket, C12

(11) the brownish shirt, C11

(12) Oswald's hair samples, C20-C25

(13) the wrapping-paper bag, C10

(14) the four cartons found in the TSBD, C40

(15) Oswald's application for Dallas P. O. Box 2915, D17

(16) Oswald's change-of-address card for Dallas P. O. Box 2915, D18

(17) Oswald's Form POD 1093 for New Orleans P. O. Box 30016, D22

(18) Oswald's Selective Service System Notice of Classification

(19) Oswald's USMC Certificate of Service

(20) the Selective Service System Notice of Classification in the name of Hidell

(21) the USMC Certificate of Service in the name Hidell

(22) the Fair Play for Cuba Committee card dated June 15, 1963

(23) the vaccination certificate signed Dr. Hideel, 444

(24) the negatives, B3

(25) the two photographs showing Oswald with a rifle, D33

Also, the following items, which were used as standards in testimony concerning questioned documents:

(26) Application for Employment with Cosmos Shipping Company, Inc., D28

(27) Affidavit of Support and three letters, D6

(28) Jaggars-Chiles-Stovall checks, D11

(29) New Orleans Library card, D16

(30) Notes, the Communist Party of the U.S. has Betrayed Itself, 117

(31) U. S. Marine Corps File, D5

(32) Passport Application June 24, 1963, D3

(33) State Department File, D67

(34) Letter to ACLU, D46

(35) Letter to Secretary of Navy, D4

(36) Letter from Oswald to Brigadier General Tompkins

(37) Commission Exhibits 55, 56, and 66 (Letters in Russian)

Some of this information may have been set forth in your various reports; however, we would like a complete answer to this request set forth in a separate, self-contained report.

Dear Mr. Hoover: Warren Commission

I refer to page 640 et seq. of the report of Special Agent Gemberling, dated December 23, 1963, at Dallas, Texas; page 18 et seq. of the report of Special Agent O'Connor, dated December 31, 1963 at Miami, Florida; and to page 558 of the report of Special Agent Clements, dated December 14, 1963, at Dallas, Texas, which concern the allegations of Mrs. Silvia Odio of Dallas, Texas that she observed Lee Harvey Oswald in the company of two Cuban or Mexican men sometime in late September or early October 1963. I also refer to your letterhead memorandum, dated July 30, 1964 at Miami and August 5, 1964 at Dallas concerning the same subject. I enclose transcript of the testimony Mrs. Odio gave to Mr. Wesley J. Liebeler of our staff in Dallas on July 22, 1964 as well as a letter to me from James J. Rowley of the United States Secret Service, dated May 5, 1964 and the memoranda covered by Secret Service Control Numbers 3670, 1426 and 1476, all of which relate to the above subject.

It is a matter of some importance to the Commission that Mrs. Odio's allegations either be proved or disproved. It appears from the report of Special Agent O'Connor mentioned above that at approximately the time Mrs. Odio said she saw Oswald in Dallas there was considerable activity in that area on the part of "DRE", another organization composed of anti-Castro Cubans. It is possible that Mrs. Odio has confused "JURE" and "DRE" and that the representatives she saw allegedly in the company of Oswald were from "DRE", or from some other anti-Castro organization. It is also possible that they were in fact pro-Castro individuals attempting to infiltrate the anti-Castro groups in Dallas.

EXP. PROC.

105-82555

AUG 31 1964

DEC 1964

Would you please conduct the investigation necessary to determine who it was that Mrs. Odio saw in or about late September or early October 1963. Reference is made in particular to "Guillermo Othon," a "DRE" delegate present in Dallas at or about that time, referred to on page 26 of the report of Special Agent O'Connor. We also note that Mrs. Odio's description of one of the men allegedly with Oswald corresponds to some extent with the description given by Evaristo Gilberto Rodriguez of a man who was allegedly with Oswald in the Habana Bar in New Orleans in August of 1963, in that both of them had a bald spot on the forepart of their hairline. In that connection we note your letterhead memorandum dated July 31, 1964 at New Orleans and we enclose a transcript of the testimony of Mr. Rodriguez.

We also note that the report of Special Agent Heitman dated March 13, 1964 refers to an Osvaldo Aurelio Pino Pino. He should be interviewed on the possibility that Mrs. Odio may have confused his name with that of Lee Harvey Oswald.

We are also concerned about the possibility that Oswald may have left New Orleans on September 24, 1963 instead of September 25, 1963 as has been previously thought. In that connection Marina Oswald has recently advised us that her husband told her he intended to leave New Orleans the very next day following her departure on September 23, 1963. She also indicated that he told her an unemployment check would be forwarded to Mrs. Ruth Paine's address in Irving from his post office box in New Orleans. We also have testimony that Oswald left his apartment on the evening of September 24, 1963 carrying two suitcases. It also seems improbable to us that Oswald would have gone all the way back to the Wynn-Dixie store at 4303 Magazine Street to cash the unemployment check which he supposedly picked up at the Lafayette branch of the post office when he could have cashed it at Martin's Restaurant, where he had previously cashed many of his Reily checks and one unemployment check. That is particularly true if he received the check on September 25, 1963, as previously thought, and had left his apartment with his suitcases the evening before.

On the possibility that Oswald may have stayed in New Orleans on the night of September 24, 1963 at some place other than at his apartment, would you please check the guest lists of inexpensive hotels in the vicinity of the Greyhound and Continental Trailways bus depots, the Lafayette branch of the post office and such other

Cleared by NARA

areas in the City of New Orleans that you deem appropriate to determine whether or not Oswald stayed in any of them on the night of September 24-25, 1963.

The above investigation seems indicated to check Mrs. Odio's story that Oswald was in her apartment in late September of 1963. Since he was with his wife in New Orleans until she left on September 23, 1963 and was in Mexico after September 26, 1962, the only time he could have been in Odio's apartment appears to be the nights of September 24 or 25, 1963, most likely the latter.

In that connection we note that the Continental Trailways bus that left Dallas at 11:00 p.m. on September 25, 1963 for Laredo, Texas, made a connection in Alice, Texas with the Trailways bus that left Houston, Texas at 2:35 a.m. on September 26, 1963, also bound for Laredo. Thus, Oswald could have been in Dallas on the night of September 25, 1963 and still have been on the bus on which he was seen by Dr. and Mrs. John B. McFarland, according to your letterhead memorandum on Oswald dated December 23, 1963 at Washington, D. C.

Would you please determine whether or not any tickets were sold in Dallas on September 24-25, 1963 covering transportation on Continental Trailways buslines from Dallas to Laredo or beyond.

Please conduct whatever additional investigation you deem appropriate to determine the possibile validity of Mrs. Odio's testimony. We think it might be in order to determine Mrs. Odio's veracity in other areas by checking on some of the testimony she gave concerning her background. We note that she claims to be acquainted with Manolo Rey, (Tr. 364), an anti-Castro leader in Puerto Rico, and that her father is a political prisoner of Fidel Castro.

In connection with the above, in addition to the reports mentioned above, we note, among others, the reports of Special Agent Callendar dated December 24, 1963 at New Orleans, Special Agent Fults dated December 11, 1963 at Houston, Special Agent Dalrymple dated December 4, 1963 at Houston, Special Agent Dalrymple dated February 20, 1964 at Houston, Special Agent Callendar dated December 16, 1963, at New Orleans, Special Agent Kemmy dated December 23, 1963 at San Antonio, and Special Agent Callendar dated April 16, 1964 at New Orleans, and your letterhead memorandum dated April 15, 1964 at New Orleans.

Would you please keep Mr. Wesley J. Liebeler of our staff generally advised of your investigation as it proceeds. In view of our time schedule we would appreciate receiving a report as soon as possible.

Your continued cooperation is appreciated.

Sincerely,

J. Lee Rankin

On July 3, 1964, representatives of the Domestic Intelligence Division, General Investigative Division, and the Laboratory reviewed the third draft of the President's Commission report. This draft, the separate chapters of which were dated during the early part of June, 1964, comprised approximately 475 pages. The report contains no criticism of the FBI or of any other agency Federal or local. The Commission states the report does contain conclusions and recommendations. The material we received does not set forth the conclusions and recommendations. Likewise, the report concerning Lee Harvey Oswald ends at the time he returned to the United States from the Soviet Union in June of 1962; and therefore, the portion dealing with the Bureau's background investigation of Oswald prior to the assassination is missing. There will be a fourth and final draft made available through a source by July 23, 1964, which will contain the final conclusions and recommendations of the Commission.

We have been advised the Commission is hopelessly split on the question of Oswald's motivation. On the question of recommendations for the future protection of the President, Commission members Dulles and Ford believe there should be a new unit within the Department of Justice having the sole responsibility of protecting the President. The Secret Serivce would be divested of this responsibility. Chief Justice Warren is opposed to this, believing there would be too much concentration of power within the Department.

REC-42 62-109060-185

The material received and reviewed is broken down into separate chapters, and the results of this review are set forth herein after.

EX-108

4 AUG 6 1964

THE FORWORD:

This discusses the origin of the Commission, its organization and the manner by which it arrived at the conclusions in the report. Its significant that on page 8 the report states, "The Federal Bureau of Investigation executed the detailed requests made by the Commission with dispatch and thoroughness. At the same

AUG 6 1964

(8)

COPY SENT TO MR. TOLSON

UNRECORDED COPY FILED IN

time the Federal Bureau of Investigation continued its own investigation into the assassination." Elsewhere in the forword, it is stated "As this report reflects, the actions of several federal agencies, particularly the Federal Bureau of Investigation, the United States Secret Service, the Central Intelligence Agency, and the Department of State, have been reviewed in detail by the Commission." It points out "the responsible officials of these agencies were called to testify under oath before the Commission" and the Director was specifically named. It is noted the draft did not include the results of investigation concerning Jack L. Ruby. It is stated this was not set out as, "widespread publication of facts regarding the assassination or subsequent killing of Lee Harvey Oswald might interfere with Ruby's rights to fair and impartial treatment on the charges filed against him by the State of Texas."

THE TRIP TO DALLAS:

This section primarily deals with data furnished to the Commission by the United States Secret Service, a copy of which was furnished to the Bureau. It concerns the usual protective procedures for the visit of the President, and what was done for this trip to Dallas. At one point, the Commission stated "no arrangements were made for an inspection of buildings along the motorcade route, either by police or by custodians of the buildings, since it was not the usual practice of the Secret Service to make such a check." At this point, the report in a footnote states this policy is discussed elsewhere in the report. These pages were not available for our review. The Commission also stated "Before leaving the hotel on that fateful day, the President, Mrs. Kennedy and aide Kenneth P. O'Donnell talked about the risks in the President's public appearance. In an almost clairvoyant manner, President Kennedy commented that nothing could prevent an assassin from killing a President from a tall building with a rifle equiped with a telescopic lense, but he concluded that was an unavoidable risk in view of the exposure required of the Head of State and leader of a political party."

The Commission stresses the difficulties inherent in protecting a President due to political considerations wherein a President desires to be as close as possible to the people.

THE SHOTS FROM THE TEXAS SCHOOL BOOK DEPOSITORY:

In this chapter "the Commission has concluded that the shots fired at President Kennedy and Governor Connally were fired from

a sixth floor window at the southeast corner of the Texas School Book Depository Building in a space of approximately five to eight seconds." The Commission also concludes "that two bullets caused all of the wounds suffered by President Kennedy and Governor Connally ...one of the shots most likely the first or the third entirely missed the Presidential car and its occupants." The report states, "not one shread of credible evidence suggests that these shots were fired from the triple overpass, the railroad yards or any other site at the scene of the assassination." The autopsy results on the President are set out and negates prevalent theories that the President had been shot in the throat and it confirms the shots had to be fired from the direction of the Texas School Book Depository Building where Oswald was employed.

THE ACTIVITIES OF OSWALD AFTER THE ASSASSINATION:

This chapter is quite specific in proving that Oswald must have been the assassin and tends to substantiate our findings concerning his movements after the assassination. The Commission established this through various independent time studies and the taking of numerous statements from credible witnesses. This section should put to rest many of the fallacious theories put out by our adversaries in an effort to confuse and complicate our task.

THE MURDER OF TIPPIT:

The Commission is very explicit that every effort was made to uncover credible evidence of a possible link between Oswald and Ruby; however, "no such evidence was discovered." They specifically state that Oswald did murder Tippit and theorized that at the time of the killing he might have been trying to escape to Mexico. The complete feasibility of Oswald being in the area of Tippit's murder and the possible circumstances of why Tippit stopped Oswald is discussed.

LEE HARVEY OSWALD; THE PRE-RUSSIAN PERIOD:

This is divided into sections covering Oswald's boyhood and his service in the U. S. Marine Corps. The Commission goes into detail about the psychiatric examinations made of Oswald in New York; and makes a damaging indictment of Oswald's mother, Mrs. Margarete Oswald, as an unstable and unsavory individual who had a negative effect on her son's development and personality. Oswald's Marine Corps history and experiences are recounted and nothing is set forth which would contradict our inquiries into this period of Oswald's life.

LEE HARVEY OSWALD'S LIFE IN RUSSIA:

In this section the Commission speculates that Oswald probably first decided to defect to Russia when he was stationed in Japan with the U. S. Marine Corps in 1957. Details concerning Oswald's travel to Russia, his attempts to renounce his United States citizenship, and the difficulties he had with Soviet authorities in receiving permission to reside indefinitely in the Soviet Union, and his assignment to a job in Minsk, Russia are discussed. Oswald's courtship and marriage to Marina Oswald is described. The Commission points out that Oswald became disillusioned with the Soviet system in early 1961, and thereafter it summarizes the steps Oswald took to return to the United States. This phase of the Commission's report was largely based upon State Department records, interviews with Marina Oswald and information contained in Oswald's diary and other personal documents found in Oswald's effects following the assassination. There was nothing new brought out in this phase of Oswald's life that had not already been developed through our inquiries and our perusal of State Department documents regarding Oswald.

TECHNICAL EVIDENCE:

It was noted that in setting forth the results of the various technical findings and conclusions the report occasionally departs from the actual expert witness testimony furnished. In some instances this appears in what purports to be verbatim quotes from the testimony, and in other instances it appears in the form of paraphrasing.

CONCLUSION:

It is evident from this draft that the FBI's investigation of the assassination of President Kennedy was essentially correct, and that the Commission has not uncovered any startling information that was not developed in our investigation. The Commission's report is a substantiation of our initial report which was furnished to the Commission as early as December 5, 1964.

ACTION:

When an additional report is received with recommendations, conclusions and other material, it will be reviewed and you will be advised of the results.

During the conversation on August 18, 1964, with Mr. J. Lee Rankin of the President's Commission, Mr. Rankin mentioned the requests that have been made of the Bureau to furnish the number of reports, the number of pages, as well as the number of interviews and man hours which have been consumed in the over-all investigation. Mr. Rankin stated that the number of pages as well as the number of reports, as furnished by the Bureau's letter of August 12, 1964, would be most helpful and that he certainly did not expect the Bureau to perform the tedious task of counting the actual number of interviews or to compile the number of man hours utilized. He advised that when the request was made he thought there was a possibility this data might be readily available.

Mr. Rankin stated that in order to give the Bureau due credit for the tremendous amount of investigation which had been performed by the Bureau, it was intended that a statement would be included in the "foreword" of the Commission's report, mentioning the extent of the Bureau's activity.

Polygraph Examination of Ruby:

Mr. Rankin stated that Chief Justice Warren had recently returned to the United States, following which he, Mr. Rankin, had briefed the Chief Justice thoroughly concerning the Bureau's assistance in affording Jack Ruby a polygraph interview on July 18, 1964. Mr. Rankin stated that the Chief Justice was most appreciative that the Bureau had gone ahead with this polygraph examination in view of the personal promise that he had made to Jack Ruby that he would be afforded a polygraph examination. He stated that the Chief Justice was fully cognizant and appreciative of the various sound observations which had been made by the Bureau relative to affording Ruby a polygraph examination, but regardless of the Bureau's feelings in this matter, we had gone ahead and complied with the request of the President's Commission.

PERS. REC. UNIT

Mr. Rankin advised that with regard to the polygraph examination, there would be a discussion in the report of the Commission showing the conditions under which this polygraph examination was given to Jack Ruby and the report would quote the Bureau's letter therein, where we set forth our observations relative to the desirability of giving Ruby such an examination.

Bureau's Interest in Rights of Individuals:

During the discussion, Mr. Rankin mentioned that staff members of the Commission were very much interested in seeing that the comments of the Director and Mr. Belmont were brought to light in the Commission's report in such a way that they would receive appropriate attention rather than appearing solely in the testimony itself. He advised that this matter had not been taken up with the seven members of the Commission as of this time but this would be done very shortly and that it was his desire to see that the Bureau's interests in the rights of individuals was properly related in an appropriate part of the report. Mr. Rankin did not volunteer where in the report this information would be set forth.

Comments Concerning the Bureau's Participation in the Investigation:

Mr. Rankin commented that throughout the tremendous amount of work which has been done concerning the assassination of the President, the FBI had certainly carried a tremendous workload, and that while Secret Service had performed a small amount of investigation at the request of the Commission and a few other agencies had done some minor work, the bulk of the investigative activity had been carried on by the FBI. He stated that throughout the entire existence of the President's Commission the Bureau had cooperated fully and never on any occasion refused to carry out a request of the Commission, regardless of how ridiculous the request might have seemed on the surface. He stated he was well aware of the fact that many of the requests did not have any basis in fact for being run out but because of the nature of the investigation, the Commission felt that it had to be done. He stated he felt that the Bureau's efforts along these lines would certainly reflect favorably on the Bureau's investigation and the amount of interest that was given to detail, both by the Bureau and the President's Commission. He stated that all in all, he felt that the Commission's report would certainly reflect creditably on the FBI.

Date of Final Report by the Commission:

Mr. Rankin advised that the present target date for the submission of the report of the Commission was September 8, 1964. He stated he sincerely hoped that the Commission would be able to meet this target date but that as of

the present time he was not certain whether this could be done. In this connection Mr. Rankin mentioned the fact that he was aware the Bureau had received a number of requests in recent weeks and that all of the requests of the President's Commission were being complied with as rapidly as possible. He also stated that anything that could be done to expedite these late requests would be appreciated.

Mr. Rankin was assured that the Bureau was well aware of the Commission's desire to wind up their activity and that specific instructions had been given to all offices conducting investigation to complete all phases of our investigation in the shortest possible time.

This is being watched most carefully at the Seat of Government and we are seeing that all offices are handling matters on an expeditious basis.

REQUEST FOR LETTER FROM FBI CONCERNING FINGERPRINT EXAMINATIONS OF OSWALD'S PERSONAL EFFECTS

Today, Stuart Pollak of the President's Commission telephoned to request a letter from the FBI showing the extent of the fingerprint analysis of all of the personal effects of Lee Harvey Oswald, so he will have the complete picture in one place. He was advised such a letter will be sent to the Commission in the near future.

PURPOSE

To recommend the attached letter be sent to the President's Commission advising them of the extent of our investigative efforts since the assassination pursuant to its request.

DETAILS

By letter dated 8-7-64, the Commission advised it intends to incorporate in its final report the extent of the "excellent" investigative effort undertaken by the Bureau since the assassination. In this letter it requested the following statistical data:

1. Approximate number of interviews conducted.

2. Pieces of correspondence and reports submitted to the Commission.

3. Total number of pages of such materials.

4. If available, the approximate number of Agent-days spent on this investigation.

The Commission specifically pointed out they did not desire us to distinguish between the various investigations conducted, such as the Jack L. Ruby case and Lee Harvey Oswald. They did state that they desired any thoughts on our part which would enable them to present these statistics in the most effective way.

Memorandum to Mr. Belmont
RE: THE PRESIDENT'S COMMISSION

BACKGROUND

As of 7-31-64, more than 1756 investigative reports comprising more than 17,200 pages constituting the FBI's investigation have been furnished to the Commission. Further, over 3682 items of physical evidence were received in the FBI Laboratory for technical examination. In addition, our Exhibit Section constructed and delivered to the Commission detailed scale models of the assassination area, including appropriate buildings, landmarks, etc., with accompanying volume of visual aids.

We do not have a record of the number of interviews conducted since the assassination and the only way this could be accomplished would be a time consuming physical count. Likewise, we do not know the number of Agent-days spent on this investigation and tabulating same would be an enormous undertaking. It is pointed out that virtually every field office and legal attache have at one time or another conducted some investigation in this matter.

RECOMMENDATION

That the attached letter be sent furnishing the Commission with that statistical data available and summarizing the major accomplishments of this Bureau since the assassination.

SUBJECT: JACK L. RUBY, AKA.
LEE HARVEY OSWALD, AKA.
VICTIMS - CR

By letter dated 8/4/64, The President's Commission enclosed a copy of a telegram from Mr. Mark Lane, which stated that the current issue of Fact Magazine quotes Melvin Belli as stating, "that a Dallas Police Officer and another sort on November 23, 1963, to have Ruby approved the idea of killing Oswald." The telegram also requested Commission call Belli at Public session regarding possible police participation in murder of Oswald. It is noted that Mark Lane is the alleged attorney for Oswald's mother. The Commission requested an appropriate investigation concerning this matter, including interview of Attorney Belli concerning the statement he is alleged to have made.

Bureau Library was contacted to determine if possession of a copy of Fact Magazine was found, and it was determined that the latest issue of Fact Magazine, which is published by Ginsburg Publications, New York City, was the May-June issue. There was no mention of above in this issue. Fact Magazine is a bi-monthly publication, and inquiry at various newsstands in the District determined it was not out to date. As it appears desirable to review article referred to prior to conducting investigation, the New York Office has been requested to immediately obtain copies of this article and furnish it to the Bureau for review. Upon completion of this review, a decision will be made as to what further investigation should be conducted to fulfill The Commission's request.

NOTE: Rodriguez is a bartender in the Habana Bar in New Orleans. He claims Oswald, in the company of a Mexican or Latin-appearing individual, visited the Habana Bar in August, 1963. We have received no corroboration to such allegation. Mr. Liebeler, staff member of the President's Commission, requested we exhibit to Rodriguez the photo of an unidentified individual, which photo was taken by CIA in Mexico City. This is the photo which was shown Mrs. Marguerite Oswald by SA Odum of the Dallas Office on 11-23-63 and Mrs. Oswald later claimed the individual was Jack Ruby. Mr. Liebeler felt the unidentified individual bore some resemblance to the individual who allegedly accompanied Oswald to the Habana Bar in New Orleans. Enclosed memo reports that Rodriguez stated he had never seen the unidentified individual depicted in Commission Exhibit #237.

Commission interested in determining if Oswald received the 10-14-63 issue of "The Militant." Our inquiries determined that the 10-14 and 10-21-63 issues of "The Militant" were found in a New Orleans P.O. Box formerly subscribed to by Oswald and actually were never forwarded to him. NOTE: Mrs. Silvia Odio claims that on 9-26 or 27-63 Oswald and two Cubans appeared at her apartment in Dallas, Texas, and requested support for an anti-Castro organization. Mrs. Odio's sister, Annie Laurie Odio, of Miami, Florida, was with Silvia Odio, at the time this incident occurred. Commission requested we contact Annie Laurie Odio to obtain info she possessed re the alleged incident. We contacted Annie Laurie Odio and she furnished substantially the same info as Silvia Odio. She stated, however, that she did not recognize the individual who visited Silvia Odio's apartment as Lee Harvey Oswald until Silvia Odio made such statement to her. Our investigation has established that Oswald was en route Mexico City on 9-26-63 and did not return to the U.S. until 10-3-63. There obviously is no substance to the allegations of the Odio sisters.

"The Dallas Times Herald," Dallas, Texas, on 7/22/64 printed an article captioned "The Full Text of Ruby's Test Given." In this article there was set forth what was purported to be the complete questions and answers from the polygraph examination afforded Jack Ruby on 7/18/64. The President's Commission by letter dated July 30, 1964, has requested that we conduct an investigation to determine how "The Dallas Times Herald" learned of the questions and answers which were published.

At the specific request of the President's Commission Ruby was afforded a polygraph examination at the Dallas County Jail on 7/18/64 by Agents Bell P. Herndon and W. James Wood. The questions used in the examination were prepared by the Commission and all arrangements as to who would be present during the conduct of the examination were made by the President's Commission. In addition to the two Agents who conducted the examination, there was present at the time Assistant Counsel Arlen Specter, representing the President's Commission, Mr. E. L. Holman of the Dallas Sheriff's Office, Clayton Fowler and Joe H. Tonahill, Ruby's attorneys, Assistant District Attorney William Alexander, Dr. William Robert Beavers and Court Reporter Odell Oliver.

The Agents present particularly noted during the examination that with the exception of the court reporter and the Agents, Mr. Alexander was the only other person observed taking copious notes.

When the press release concerning this matter was initially brought to the Director's attention on 7/22/64, he commented "I assume none of this is coming from the FBI." SAC Gordon Shanklin was telephonically contacted and he advised that there had been no inquiry whatever made of the Dallas Division concerning this matter and that no information had been divulged by the Dallas Office to the press.

NOTE:

A telegram was received at the Bureau on 8-6-64, from Holmbeck indicating she wished to furnish information on the assassination. Holmbeck was interviewed on 8-7-64, by Detroit Agents and gave a rambling, incoherent story about hearing loud voices which have made it necessary for her to move about the United States. These voices allegedly tell her to "get out of here." Mrs. Holcomb could furnish no information concerning the assassination.

Director, Federal Bureau

Washington, D. C.

Dear Mr. Hoover:

During the week of July 20 Mr. Wesley J. Liebeler of our staff took the testimony of certain witnesses concerning the possibility that Lee Harvey Oswald had a telescopic sight mounted on a rifle and sighted at the Irving Sport Shop, 221 East Irving Boulevard, Irving, Texas. That testimony has raised questions concerning which we would like you to conduct the following investigation:

1. Mrs. Gertrude Hunter, 141 South Hastings, Irving, Texas, testified that she remembered the automobile in which she claimed the Oswalds drove to the Furniture Mart at 149 East Irving Boulevard early in November 1963 because it was similar to an automobile owned by some friends of hers in Houston, a Mr. and Mrs. Dominick. Mrs. Hunter claims the automobile is a two-tone blue and white 1957 Ford. While we do not have the full name and address of the Dominicks, we would appreciate it very much if you would interview them to determine whether or not they owned such an automobile on or reasonably prior to November 15, 1963, and whether or not they had indicated to Mrs. Hunter any intention of visiting her in early November 1963.

2. Both Mrs. Hunter and Mrs. Edith Whitworth, 315 South Jefferson, Irving, Texas, the owner of the Furniture Mart, claimed that the Oswalds came to the Furniture Mart on a Wednesday or Thursday preceding the weekend on which the Irving High School foot

ORIGINAL FILED IN

team played the football team of Richland Hills High School of Fort Worth. Those ladies think that the Oswalds were in the Furniture Mart either on November 6 or 7, or on November 13 or 14, 1963. The dates on w. h the Oswalds were allegedly in that store could be narrowed to two possible days if you would determine the date on which the above football game was actually played.

After you determine the precise Wednesday or Thursday on which Mrs. Whitworth and Mrs. Hunter claim the Oswalds were in the Furniture Mart, would you please interview Mr. Roy Truly of the Texas School Book Depository and determine if he can ascertain from any records in his possession whether or not Oswald was away from the premises of that Depository during the afternoon hours of either of the days in question. It has occurred to us that the orders which Oswald filled may be noted to indicate the time at which they were filled, or that Mr. Truly could possibly tell whether or not Oswald was away from his work at any time during those days by examining the number or volume of orders which Oswald filled.

3. Would you please determine the whereabouts of Mr. Charles Woodrow Greener, 2015 Rosebud, Irving, Texas, owner of the Irving Sport Shop, during the period from Friday evening November 22, 1963 to November 25, 1963, and whether or not he had any conversations with his employee, Mr. Dial D. Ryder, during that period. In that connection we note that Messrs. Greener and Ryder discussed, apparently prior to the afternoon of November 23, 1963, when Ryder "discovered" the work ticket bearing Oswald's name, the possibility that Lee Harvey Oswald may have been in the Irving Sport Shop at one time or another. In spite of that, however, Ryder claims that he did not tell Greener about the ticket that he allegedly discovered on Saturday afternoon until some time after November 25, 1963, when he told an agent of your Bureau that the work covered by the ticket must have been done during the period November 1-14, 1963. Ryder later based that determination on the fact that Greener did not remember that the work covered by the ticket had ever been in the shop. It is apparent that Ryder could not have made that determination on November 25, 1963 unless he had previously discussed the matter with Mr. Greener, which, of course, he claims that he did not. While it actually appears from Mr. Greener's testimony before this Commission that he was not aware of the existence of the ticket until the entire

subject was discussed in the Dallas Times-Herald on November 26, 1963, we would appreciate advice concerning his whereabouts during the above-mentioned period, as to whether or not he ever discussed the ticket with Ryder prior to November 26, 1963, and as to when and how he first learned about the existence of the "Oswald" repair tag.

Your continued cooperation is appreciated.

Sincerely,

J. Lee Rankin

To recommend the attached letter and enclosures be sent to the President's Commission concerning our investigation of allegations pursuant to a Commission request.

DETAILS

The Commission by letter 7-24-64, advised in the course of its report it intends to answer a great number of allegations which have been made since the assassination. Among the allegations made, the Commission requested we investigate the following four:

1. It has been FBI policy for 20 years to report to employers those of their employees who are communists or suspected communists.

2. Patrolman Tippit violated a procedure covering radio cars when he failed to notify headquarters that he was stopping to question a suspect.

3. Prior to the assassination Dallas police searched other buildings in the area of the Texas School Book Depository but not the Depository building itself.

4. Precautions taken by the Dallas police on November 22, before the assassination included surveillance of many people, among them some who did no more than speak in favor of school integration.

ACTION

The first allegation dealing with Bureau policy concerning internal security matters was coordinated with Division 5. Elaboration on this particular point is set out under a separate caption below.

Dallas was immediately instructed to commence investigation of the latter three allegations. By airtel 7-29-64, Dallas advised that its investigation has established that the latter three allegations have no basis. Specifically, Patrolman Tippit did not violate regulations when he failed to advise the dispatcher he was stopping to question Oswald. Further, the Dallas Police Department advises that they did not search any buildings or conduct any surveillances prior to the assassination.

ALLEGED POLICY OF THE FBI

With regard to the first allegation, it is pointed out we have been guided in the dissemination of internal security information by Presidential Directive, the first one issued on 9-6-39, which was subsequently reiterated on 1-8-43, 7-24-50 and 12-15-53. These directives charge us with coordinating the investigation of espionage, sabotage, subversive activities & related matters. Any pertinent information developed of interest to other agencies within the Executive Branch of the Federal Government and the armed forces is appropriately disseminated. This has been done on a continuing basis including the dissemination of subversive information developed on civilian employees under a contractor or subcontractor for the armed forces wherein we furnish the data to the interested service.

With regard to the specific allegation, Departmental Order number 3464 issued by the Attorney General on 1-13-53, declares that the official records and information of the FBI was classified as "confidential." We have never engaged in a practice of informing employers in private industry that an individual employee of his is a member of the Communist Party or any other subversive group. When such requests are received, the requestor is informed of the confidential nature of our files.

RECOMMENDATION

That the attached letter and enclosures be furnished to the President's Commission setting out the results of our investigation of the allegations specified in the Commission letter.

D. Tippit and Jack Ruby. Lane is the New York attorney who has engaged in perverted sexual acts and is closely associated with communist dominated organizations. He has been endeavoring to prove that Oswald is innocent. Weissman is the individual who placed the controversial full page ad in a Dallas newspaper prior to President Kennedy's visit. Tippit, of course, was shot and killed by Oswald. We have investigated this allegation in the past and proven that no such meeting took place. However, based on the specific request in the above Commission letter, it

Dear Mr. Hoover:

Mark Lane has testified before the Commission about an allegation that on November 14, 1963, there was a two-hour meeting at the Carousel Club between Bernard Weissman, Officer J.D. Tippit, and Jack Ruby. In connection with this allegation the Commission would be grateful if you would perform the following additional investigation:

1. Obtain photographs of Bernard Weissman and J.D. Tippit and show them to George Senator, Andrew Armstrong, Larry Craford, Karen Bennet Carlin, Nancy Powell and William D. Crowe in order to determine whether any of these persons observed Weissman or Tippit at the Carousel Club at any time, and whether any of these persons observed a meeting such as that described by Lane. The photographs may be obtained in any way you find most feasible; however, please have Weissman identify and sign the photograph which you obtain of him and have Mrs. Tippit identify and sign the photograph you obtain of her late husband. We would also appreciate receiving copies of these photographs as soon as you obtain them, whether or not you have yet shown them to the group of witnesses listed above.

2. Reinterview Bernard Weissman to determine as precisely as possible his whereabouts on November 14, 1963, particularly in the evening hours. Determine who, if anyone is able to provide corroboration.

3. Reinterview Mrs. J.D. Tippit to determine whether or not she is aware of any contact between her late husband and Bernard Weissman.

Dear Mr, Rankin:

Reference is made to your letter dated July 24, 1964, requesting the investigation of four allegations made since the assassination of President Kennedy.

Enclosed for your information are two copies of a self-explanatory communication from our Dallas Office dated July 29, 1964, containing the results of our investigation of the latter three allegations contained in your letter.

With regard to the first allegation set out in your letter, I would like to point out that this Bureau has been charged by Presidential Directive with the responsibility of coordinating the investigation of espionage, sabotage, subversive activities and related matters. Information developed along these lines is furnished to other Federal agencies within the Executive Branch of the U. S. Government and the armed forces. Any subversive information developed concerning a civilian employee of a contractor or subcontractor for the armed forces would be furnished to the interested military service. I would like to specifically point out that this Bureau does not disseminate internal security information to anyone outside the Executive Branch of the U. S. Government.

SUBJECT: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY, DALLAS, TEXAS,
11/22/63

Reference memorandum dated 2/26/64, from W. D. Griffith to Mr. Conrad concerning a continuing project wherein the Bureau has undertaken to furnish the President's Commission with photographs of all Commission exhibits.

On 8/3/64, Miss Mary A. Rowcotsky, Commission employee, telephoned Section Chief Roy H. Jevons, Physics and Chemistry Section of the Laboratory, and requested that a Bureau representative pick up those exhibits listed on the attached enclosure. It was further requested that three copies of each exhibit be made and that all copies and the original exhibits be returned to the Commission.

As a matter of record, custody was taken of instant exhibits by SA Robert E. Neill on 8/3/64.

This work will be handled by an Agent examiner of the FBI Laboratory's Document Section.

ACTION:

Exhibits will be photographed or otherwise reproduced as requested. The originals of these exhibits plus the copies of each will be returned to the Commission.

NOTE:

We previously interviewed Jack Rubenstein of New York on basis of allegation that Jack L. Ruby had sponsored dinner in New York City where Mark Lane had given a speech. Roy William Fehrenbach alleged Ruby attended three Communist Party meetings in Muncie, Indiana, between 1942 and 1947. We have conducted extensive investigation concerning this allegation, which indicates that it is without merit. Mrs. Thelma Marks' husband, when interviewed in New York, recalled the person whom his wife spoke about, though not by name. He was exhibited photographs of Ruby and said he was definitely not the person.

Nueva Gerona, Dec. 25, '63

My Children:

From the visit of my brothers, I learned about you. It is a consolation to hear that our children are taking very good advantage of the time. It is one more compensation of Divine Providence for our sufferings. It is difficult to write these days in which memories are so vivid and it is almost impossible to coordinate ideas because emotion chokes us. It is at Christmas time when sentiments, through the sorrow of absence, draw us closer to our loved ones. The more presents we have the more we are aware of the separation. But the sorrow is not important, my children, and if having you always in my heart and thinking intensely of you, it increases, then blessed be the sorrow! Fortunately, we are strong; a great faith sustains us with the firmest hopes of our soon being reunited with the family. Any of the steps that are being taken must prosper. Our desires for peace, to live in the company of our children, stir us to hope a little for comprehension and assistance. At this time of the year, 30 years ago, Mama and I were an engaged couple in love, full of illusions and faith in the future. We were enjoying the preparations for the marriage which happily would eternally unite our destinies. We were making at that time many plans, converted since into a full and beautiful reality. We were ecstatically dreaming about the great adventure of love, and you, my children, were the summation of our dreams. We were in ecstasy over the prospect of many children, the combination of our flesh, of our blood, of our souls in the purest ideals of parents in bloom. Our desires were culminated with the arrival of such a beautiful group of children exceeding our expectations - our aspirations - children extremely gifted with the most brilliant qualities and virtues; - honest - intelligent - children who have the love and respect of one another - who adore and devotedly admire their parents - children who work hard, study earnestly - who make sacrifices whenever necessary. In sum, good children, a benefit

ENCLOSURE 62-109090—

to the family and to society - loving children who gladly cooperate with one another without complaint - who go through life joined fraternally in perfect communion with God and family. Such are our children for whom today and every day in our prayers we humbly thank God. The All Powerful gives you, my children, a glory of a repeated verse of a most beautiful descendency! What else in the world can surpass it? Nothing that I may know and it is for this reason that I want to sum in that idea my great desire of happiness for each one of my children at this Christmas time. On the anniversary, shower Mama with pretty cards, letters, photos and as much as can make her happy. It occurs to me, Cesar, that you with Mauricio, could give her a good gift. I am not referring now to the marvelous gift of free giving; it is a little grand gift. Since he has so many resources and friends, he could arrange that on the basis of her 30 years, her photo be published in a newspaper section. It would be something to fill us with pride, to do justice to this great wife and mother so that her friends may not forget her. That would do us all good and the reason is plausible. Not always are so many years of marriage completed encompassed with so many children and grandchildren, nor under the circumstances which surround it. If you do not have a good photo, ask Pelo immediately for it. (I imagine some persons pale with envy, among them some neurotic!) I am not able to give any gift, but I pray for (her/your) health and ask for (her/it) so intensely that God is listening to me. Freddie is getting along very well in his studies. It has taken him time and work, but in the end he will graduate from this course. I always believed that he would, but I fear for him for the very hard examinations that await him. Sally also - I do not know what career - and I am grateful to Jim because he wishes, as we, that she continue studying until receiving her doctorate. He would only desire to offer his assistance and inspiration. I received a telegram from Pelo explaining the call that he made to Cesar after the visit. I am happy that he calmed you, and I am presently all right, and give you my messages. I know that every one has moved tirelessly and that on our negotiations being renewed, we will be in first place. To all, I am thankful for Mama who needs to rest with peace and security. My daughters, in spite of the problems that you have, you have found time to move Heaven and earth and our great son with his business relations has succeeded in locating us in a preferable place. I received a letter from Sari on Oct. 27, from Silvia, with her photo in the office - the 3rd that I received; of the rest I do not know what they look like now - on Nov. 8, from Cesar, Julie and Lolie on Nov. 11. Thus we are able to endure solitude. Thus they help us to wait. Mama telegraphed me, content because she already received many.

Remember that you must take a moment and write to one another. It is sad to read that there are times when you do not know about one another "because the telephone is expensive now." Annie needs to adopt a firm resolution for the New Year of involving herself in the responsibilities of the family. We are proud of your conduct in college, in a strange home. We are completely satisfied in having such a good and studious daughter who has perfectly fulfilled her obligations. But you have not kept contact with your sisters - too often unmindful of their problems when you should share them. Therefore, my pretty brunette, you yourself think of the best way to cooperate with them. It would be nice for you to share the time with your brothers and sisters. Would it be possible, love, for you to spend week-ends and vacations at Silvia's house? In this way you could be of great benefit, just as Lolie has been for some time with Julie. You are a complete woman. You understand that you have obligations, in addition to your studies which you are to pursue with eagerness above everything. If what I suggest upsets in any way your school tasks, then you should continue as you are and in no way should you neglect them. Understood? I leave it to your own judgment, but anyway maintain frequent contact with all the family, and watch out for parties and drinking! Silvia, it is difficult to become oriented with you - who arein contact with the atmosphere and who havetaken up to now so many intelligent and proper steps. You will continue with that vast experience, determining what ought to be done on each occasion. It is one more reason for pride for us. Before I forget, let me congratulate you on your fine position. You are worthy of these distinctions. Tell me who this is who says he is my friend - be careful, I do not have any friend who might be here, through Dallas, so reject his friendship until you give me his name. You are alone, without men to protect you and you can be deceived. Grant me, blondie, the additional sacrifice of not going out Wednesdays with your girl friends. Stay for a good time at home. You still are not free - you should avoid everything that might affect your good name. Never accept going out with anyone or to the house of anyone if you are not accompanied by your brothers. That of Guille is still not definite - he can return - I am sure that he loves you and adores his children in his way. He was criminally influenced against you by his neurotic mother. When you have to be understanding, make yourself interested, but be careful not to exceed. Do not abandon literature. Persevere, write a good book even though it takes you years. Sarita, love, your letters are always interesting to me in that you tell me everything is marvelous. It is the best sedative for calming my anxieties for information concerning the family. Your letters, as those of all your brothers and sisters, fill my life with joy and hopes. They come to be the only light which enters the darkness in which I am living. I regret not having received yet a photo of your Jim. Mama was enchanted by him. I hope that Cesar furnishes you with spending money in sufficient amount. Do not scrape - please - go to your brother. It would please me for the elders

to arrange for an allowance. I leave it to your judgment. Tell me as much as you can of your activities. Lolie, beautiful blonde, you do not tell about yourself even though, in spite of being an adolescent, you are already a woman because of the harsh experience through which you have lived. Your labors and sufferings have made you grow intellectually and spiritually. I am happy that you have in C. and J. the tenderness of brothers and parents. Soon you will again be my little spoiled girl, my heart's desire. Take care of rebellions. Study and work gladly. Cesar, Julie, beloved children, there is hardly space left. I am happy with your progress in the program. To Ama, Javier, Jorge, Freddie, Marianne, I express how anxious I am to hold you against my heart! To Gretel and Raul my thanks. Fond regards to Carola, Carmen Rosa, Rene. Loving greetings and my thanks to all but especially to Mauricio and Joe - kisses - Papa

Dear Mr. Hoover:

Reference is made to pages 382-385 of the December 14, 1963, Clements Report. These materials reflect the activities of checking accounts at the Merchants State Bank, 5217 Ross Street, Dallas, Texas, of the Carousel Club, the Vegas Club, and Jack Ruby.

The Carousel Club record extends to November 22, 1963; the Vegas Club record, to November 25, 1963; and Ruby's record, to October 17, 1963. The Commission would appreciate your communicating with the Merchants State Bank to ascertain whether there has been any recent activitity in any c these accounts. For the sake of completeness, the Commission would appreciate notification concerning any changes made in these accounts since the dates provided in the Clements Report.

Because the Commission plans to publish its Report in the very near future, it is extremely important that this information be conveyed to the Commission at the earliest possible time.

Sincerely,

J. Lee Rankin
General Counsel

NOTE: Commission stated that the interviews of the above individuals to be used in its published report relating to the murder of Officer Tippit and they desired affidavits from each specifying that our report of the interview was a correct representation of what each witnessed on 11-22-63. Russell was an employee of a used car lot, heard the shots which killed Tippit and saw Oswald running with a pistol in his hand. Robert Brock, a service station mechanic witnessed the Dallas Police find Oswald's jacket under a car along the escape route from Tippit killing. Mrs. Brock, Robert's wife, identified Oswald as individual passing near the service station. None of these people were actual witnesses to the murder. Each of the above reviewed our report of their interview and certified it was a correct representation. No further action necessary.

SUBJECT: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY, DALLAS, TEXAS;
11/22/63

Reference memorandum dated February 26, 1964, from W. D. Griffith concerning a continuing project wherein the Bureau had undertaken to furnish the Commission with photographs of all Commission exhibits.

On July 29, 1964, Miss Mary A. Gowcotsky called Mr. Marion E. Williams of the Laboratory's Physics and Chemistry Section and requested that a Bureau representative take custody of the exhibits listed on the attached list. She further requested that the Commission be furnished with three copies of each exhibit not previously reproduced.

As a matter of record, custody was taken of instant exhibits by SA Cortlandt Cunningham on the date of the request.

This work will be handled by an Agent Examiner of the Laboratory's Document Section.

ACTION: Exhibits will be photographed or otherwise reproduced and three copies will be supplied to the Commission as requested. Those items originally supplied to the Commission by the Bureau will be kept in Bureau custody. Items not originating from the Bureau will be returned along with the photographs. (Designated by *)

Dear Mr. Rankin:

Reference is made to your letter dated July 24, 1964, in which you requested four photographs each of certain Commission exhibits and certain scenes in the Texas School Book Depository Building, Dallas, Texas.

In response to your request there are attached four photographs each of Commission exhibits numbered 139, 142, 641, 648, 653 and 654. These exhibits have been photographed to visually demonstrate their dimensions.

There are also attached four photographs each of scenes in the Texas School Book Depository Building as follows:

A. Window located in southeast corner of sixth floor from a spot north of window looking south
B. Window described above from a spot west of window looking east
C. Mr. V. Ray Baggett, Federal Bureau of Investigation employee, seated on a box near the above window from a spot north of window looking south

Honorable J. Lee Rankin

Our Dallas Office has advised that the surveyor's measuring rod utilized in the scenes from the Texas School Book Depository Building is marked in feet and tenths of a foot. The Dallas Office has also advised that Mr. Daggett is five feet, eight and one-half inches in height and that a plywood floor five eighths of an inch thick has been added to the regular flooring of the sixth floor since the assassination on November 22, 1963.

Sincerely yours,

J. Edgar Hoover

Enclosures (40)

NOTE: Commission exhibit number 139 is the assassination rifle, number 142 is the paper bag in which the rifle was allegedly wrapped and numbers 641, 648, 653 and 654 are cartons found at the window from which the shots were fired. The Commission requested that these items be photographed with some sort of scale to demonstrate their dimensions. The Commission also requested photographs of this window to visually show distance between floor and window sill and height of opening in window. The Commission further requested a photograph showing a person approximately five feet, nine inches, in height to show the relative position of ledge and window to someone approximately the same height as Lee Harvey Oswald. The Commission exhibits are in our custody and were photographed in the Laboratory. The Dallas Office took the requested photographs in the Texas School Book Depository Building.

Dear Mr. Hoover:

Your Bureau has in its possession certain items of physical evidence which the Commission would like to have photographed for use in its final report in the manner herein described.

Four cartons of books were found at the window from which the shots were fired. These are Commission Exhibit Nos. 641, 642, 653, and 654. We would like photographs made of these boxes in a manner which would visually demonstrate their dimensions--height, length, and width. They could be photographed alongside a yardstick or any other means of demonstrating dimensions which your Bureau may deem appropriate.

Similarly, we would like a visual demonstration of the dimensions of the rifle (Commission Exhibit No. 139), and the paper bag (Commission Exhibit No. 142). We would like the rifle to be shown both assembled and disassembled, with visual demonstration of the length of the stock and the telescopic sight.

Finally, we request a photograph be taken from inside the sixth floor of the Texas School Book Depository Building at the southeast corner window from which the shots were fired which would show, by visual demonstration, the distance between the floor and the window sill as well as the height of the opening in the window when the window is half open as it was on the day of the assassination. We would suggest the use of a yardstick or any other means which you may deem appropriate. In this respect, we request that you photograph

a person approximately 5'9" in height, in order to show the relative position of the ledge and the window to a person of the approximate height of Lee Harvey Oswald.

We would like four copies of each of the above photographs. If the personnel of your Bureau assigned to carrying out this request have any questions concerning its implementation please contact Mr. Norman Redlich of the Commission staff.

Dear Mr. Rankin:

Reference is made to your letter dated August 3, 1964, concerning the display of photographs of Officer J. D. Tippit and Mr. Bernard Weissman to six individuals having a connection with the Carousel Club.

Enclosed pursuant to your request are two photographs of Officer J. D. Tippit and two photographs of Mr. Weissman appropriately authenticated. Mrs. Marie Tippit, who furnished the photographs of her deceased husband, indicated that the photograph in uniform is the better likeness.

For your information, the other investigation requested by you in referenced letter is being pressed vigorously. Some delay may be encountered in locating three of the six individuals as they no longer reside in Texas. At the present time, four of our continental offices are endeavoring to locate these individuals.

When the results of our investigation are received, you will be promptly notified.

MISC. - INFO CONCERNING

ReDLairtels 8-6-64 and 8-8-64, and New York airtel 8-11-64.

This matter must continue to receive close attention so that the Commission's request can be complied with at the earliest practicable time.

NOTE: Commission by letter 8-3-64, makes reference to the testimony of Mark Lane before the President's Commission, in which he alleged there was a meeting at Jack Ruby's Carousel Club on 11-14-63, in Dallas between Bernard Weissman, Officer J. D. Tippit and Jack Ruby. Lane is the New York attorney [redacted] he has been endeavoring to prove that Oswald is innocent. Weissman is the individual who placed the controversial full page ad in a Dallas newspaper prior to President Kennedy's visit. Tippit, of course, was shot and killed by Oswald. We have investigated this allegation in the past and proven that no such meeting took place. However, based on the specific request in the above Commission letter, it appears the Commission is endeavoring to check out every possible facet of this matter to preclude possible criticism in the future. The Commission request requires the obtaining of photographs of Weissman and Tippit and displaying same to various individuals associated with the Carousel Club to insure that neither were seen in the club at any time.

The Commission also requested authenticated photographs of Officer Tippit and Weissman to be furnished them as soon as possible and prior to completion of our inquiries. This matter will be closely followed and when the results are received, the Commission will be notified.

Dear Sir:

Through several contacts with reliable sources in New York the following information is made possible to send to you. These persons should if they would be able to enlighten the Warren Commission concerning the truth about the Jack Ruby case. They can tell you who David Glassman is and his part in the case. The persons are:

Wilbur Post--------T.V.actor on Mr. Ed. program

Clifton Fadiman--------Lecturer and writer

Mitch Miller---------- Orchestra Leader N.B.C.

Arthur Stang--------- Actor

Many true Americans have lost confidence in your commission because of the membership of Norman Redlich who is thought to be far too radical and ultra left.

You have the reputation for being honest and wanting to do your duty in finding out the truth in this case. It is with this hope that this is being sent to you.

Enclosed herewith for Baltimore and Dallas is one copy each of a self-explanatory letter from the President's Commission on the Assassination of President Kennedy dated 8/11/64 requesting certain specific investigation.

Dallas handle the interview of Robert L. Norton, Dallas, Texas, and submit appropriate LHM. Baltimore locate and interview Rosemary Helmick and furnish results of completed investigation by LHM suitable for dissemination to the President's Commission with appropriate copies to the office of origin, Dallas. LHM must be letter perfect but not contain property stamp. Investigation must be expedited.

NOTE:
By letter dated 8/11/64 Commission requested re-interview of Robert L. Norton who is owner of Pago Club, Dallas, Texas. Previous investigation established Ruby visited Pago Club a short time on night of 11/23/63. Norton when previously interviewed stated Ruby was in club and after short conversation Ruby left. Nothing unusual happened. Wanda Helmick was a waitress at the drive-in operated by Ralph Paul, a close associate of Ruby.

Dear Mr. Hoover:

The Commission would appreciate your investigating the following two matters for us.

(1) Re-interview Robert L. Norton, 3414 Manana St., Dallas, Texas, to determine whether Mr. Norton gave Jack Ruby $25 on Saturday evening, November 23. Both Ruby and Norton testified that Ruby was present at Norton's Pago Club, 2822 McKinney St, Dallas, Texas on that date. Ruby has testified that he received $25 in cash from Norton upon leaving the club shortly after midnight. If Mr. Norton did give Ruby this money, please ascertain the reason why he did so.

(2) Interview Rosemary Helmick, residing in Baltimore, formerly at 4116 Dartford Street. Wanda Helmick, a waitress who formerly worked for Ralph Paul, states that she wrote a letter to Rosemary Helmick, apparently not too long after the killing of Oswald, in which she told Rosemary Helmick that she had overheard a telephone conversation between Paul and Ruby the evening of November 23, in which Paul made an exclamation about a gun and Ruby's being "crazy". Mrs. Helmick has testified that she also overheard Paul discussing this conversation after the shooting took place. Please determine whether Rosemary Helmick received such a letter and, if so, the date and contents of the letter. If this letter is still in existance, please attempt to obtain the original or a copy of the letter.

Sincerely,

This is being prepared in connection with the leak of the Oswald diary to "The Dallas Morning News" and "Life" magazine.

PURPOSE

To recommend the attached airtel be sent turning down the suggestion of our Dallas Office that the Commission be requested to officially advise Dallas District Attorney Henry Wade of information previously furnished the Commission concerning our Laboratory's establishing that "Life" magazine's copies of the diary originated with Wade's Office.

DETAILS

Dallas by tel 7-29-64, suggested the Bureau request the Commission to advise Wade of our Laboratory's findings establishing that "Life" magazine's copies of the diary originated with Wade's Office and that we be permitted to orally advise Wade that the Commission would so advise him. Dallas pointed out that the reason for this suggestion was that should the results of this examination become known to Wade officially or unofficially, the Bureau would be put in an embarrassing position and further that Wade had fully cooperated in this particular inquiry.

BACKGROUND

Bureau letter 7-27-64, advised the Commission our Laboratory had established "Life" magazine's Xerox copies of the diary originated from 35 mm. film maintained by the Dallas District Attorney's Office. In addition five latent prints were developed on Xerox copies of the diary from the

District Attorney's Office and one latent was identified as the left thumb print of William Franklin Alexander, who may be identical with Assistant Dallas District Attorney Alexander. Our investigation strongly suggests that Alexander may be responsible for this leak, although he denies same.

Since the initiation of this investigation District Attorney Wade has been a thorn in the side of the Bureau by his impulsive manner of making inaccurate press releases resulting in confusion. Wade's Office has been negligent in the handling of evidence and he has shown a lackadaisical attitude in this regard. Further, in his testimony before the President's Commission Wade raised several points which apparently were construed by the Commission to substantiate uninformed charges that Oswald could have been an informant of this Bureau. This necessitated an unusual amount of work on our part to refute.

OBSERVATIONS

We are under no obligation to Henry Wade or the Dallas District Attorney's Office to advise them of the results of our investigation. This particular inquiry was made at the specific request of the President's Commission and Wade as well as members of his staff know that the results were furnished to the Commission. It is also pointed out Wade would no doubt immediately advise William Alexander of his staff concerning our findings. Whether Wade learns of our findings officially or unofficially is of no concern to us and how the Bureau can be embarrassed by such a disclosure as suggested by Dallas is not apparent. Although Wade has cooperated in this particular inquiry, it is still not felt the suggestion of Dallas has any merit.

RECOMMENDATIONS

That the attached airtel turning down the suggestion made by Dallas be sent pointing out to Dallas the impropriety of this suggestion.

DATE: 7/31/64

FROM : W. D. Griffith

SUBJECT: Anonymous Letters to the Attorney General and Walter Winchell

1 - Mr. Conrad
1 - Mr. Griffith
1 - Mr. Mesnil

On 7/28/64 the evidence described below was received in the Laboratory from Supervisor Rogge of the General Investigative Division. Qc4 through Qc6 had originally been submitted by the Assistant Attorney General of the Criminal Division of the Department.

Q1 Envelope addressed in part "Mr. Walter Winchell c/o Journal American 220 South Street..."

Q2 Two sheets of handwriting, first sheet of handwriting beginning "The following men have information about..."

Q3 Second sheet of handwriting beginning "All these men are..."

Qc4 Photocopy of three-page letter to "Robert F. Kennedy," first page beginning "To Robert F. Kennedy. Just a few lines to let you know that..."

Qc5 Photocopy of second page containing list of names and addresses, first name and address in part "George Grogan 1414 Chalmers..."

Qc6 Photocopy of third page beginning "They are former..."

It was concluded that the handwriting on Qc4 through Qc6 was written by the writer of Q1 through Q3, with the exception of the handwriting on the back of the envelope, Q1.

No indented writing of value was found on Q1 through Q3. Q3 bears the watermark "Fifth Avenue." Q2 contains a fragment of a watermark which may be a portion of the "Fifth Avenue" watermark. Paper bearing the "Fifth Avenue" watermark is handled exclusively by the F. W. Woolworth stores. Q1 does not contain any watermark or other identifying characteristic which would assist in determining the source of the envelope.

Q1 through Qc6 were searched through the appropriate sections of the Anonymous Letter File without effecting an identification.

A separate memorandum will be submitted regarding the results of the latent fingerprint examination of Q1 through Q3. Q1 through Qc6 will be attached to the fingerprint report. Appropriate photographs have been made.

ACTION: This memorandum should be forwarded to attention of Supervisor Fogge in the General Investigative Division for appropriate handling.

Mr. J. Edgar Hoover
Director, Federal Bureau of Investigation
Department of Justice
Washington, D. C. 20535

Dear Mr. Hoover:

A member of the Commission staff, Mr. Wesley J. Liebeler, took the deposition of Mrs. Silvia Odio in Dallas, Texas, on the morning of July 22, 1964. Mrs. Odio's reliability has been vouched for by several reputable persons who know her.

She claims that on either September 26 or September 27, 1963, three men came to her apartment in Dallas, one of whom called himself "Leopoldo," and two of whom introduced themselves as leaders in the Anti-Castro Cuban Forces. They asked her help in writing letters to businessmen in the Dallas area in an effort to raise money for their cause. The man who called himself Leopoldo said that he knew about her father being in prison in Cuba and some of the circumstances surrounding his imprisonment. The third man with the two Cuban leaders, according to Mrs. Odio, was introduced to her as "Leon Oswald" and looked like the pictures she has seen of Lee Harvey Oswald since the assassination. Mrs. Odio says further that she wrote a letter to her father about this incident and he wrote her back disclaiming any knowledge of the two alleged anti-Castro Cuban leaders.

With Mrs. Odio at the time was her sister, Miss Annie Laurie Odio. According to Silvia Odio, Annie Laurie Odio is now residing at 1600 Southwest 82nd Place, Miami, Florida. Mrs. Odio says that soon after the assassination her sister contacted her and asked if she, Mrs. Odio, had recognized Oswald as the man they had both met on this occasion. Thus, both women apparently have independently identified Oswald as the person introduced to them in Dallas sometime in late September or early October 1963.

As you know, the Commission already possesses firm evidence that Lee Harvey Oswald was on a bus traveling from Houston, Texas, to Mexico City, Mexico on virtually the entire day of September 26 and until 10:00 in the morning of September 27. We also have evidence that he registered at the Hotel del Commercio in Mexico City later in the morning of September 27 and that he then made several visits to the Cuban and Russian Consulates during the balance of that day and probably also throughout Saturday, September 28. We have therefore concluded that either Silvia Odio's testimony is a case of mistaken identity or she is wrong on the dates upon which she says she saw the man called "Leon Oswald."

The Commission would appreciate the Bureau's interviewing Annie Laurie Odio at its earliest convenience in an effort to establish whatever other facts may relate to the situation, with particular reference to the time when Lee Harvey Oswald was allegedly seen by the two Odio sisters in Dallas and the identity of the two alleged Cuban leaders who were supposed to have been seen with him.

NOTE:

Details concerning this matter appear in Rosen to Belmont memo, 5-25-64, captioned "Assassination of President John Fitzgerald Kennedy, 11-22-63, Dallas, Texas, Miscellaneous - Information Concerning," RDR:las. Briefly, an anonymous letter alleges the writer overhead a conversation in the Spanish language indicating knowledge of the assassination and implying a threat against the Chief Justice. The person making these statements drove a car bearing Arizona license EZY 958, which was determined to belong to one Arthur G. Imhoff. Imhoff was interviewed on 6-17-64, and denied having any knowledge of the assassination or acquaintance with any of the central figures. He indicated an interest in extrasensory perception "seers" and "mystics." He acknowledged that he might have talked about predictions of the President's death made by others, but denies making any statements which could be construed as a threat. The Chief Justice and the President's Commission were immediately advised of the receipt of the anonymous letter and were advised we were investigating. By letter 6-26-64, the Commission was furnished full details concerning the above. The information now being furnished was subsequently developed and may be of interest to the Commission and will also complete its files. No further action need be taken.

On 6-20-64, Mrs. Berry, who admitted treatment at a mental hospital for a short period of time, furnished some rather wild allegations concerning her husband organizing a group for possible overthrow of the Government, association with ultraconservatives and rightists and other radical allegations. Mrs. Berry also indicated her husband knew of one individual who possibly had information concerning the assassination. She also indicated her husband was very anti-Robert Kennedy. Our investigation has established that Mr. Berry is ultraconservative and is going around with an odd bunch at the University of Houston. He denies any knowledge of any movements to overthrow constituted authority. His friend who allegedly had knowledge of the assassination, William M. Rudersdorf, has no such knowledge and is by his own admissions an agitator making statements calculated to stimulate controversy. In view of the allegations, U. S. Secret Service and the Department have been furnished copies of the above-referred-to communications. No further action appears necessary and this concludes our inquiries.

NOTE: At the request of the President's Commission, we made a check of toll calls from telephones available to Earl Ruby. In testifying before the Commission Earl could not readily recall making a call to the James Welch Company. Upon subsequent interview he recalled that the James Welch Company, in an advertising campaign used a camera which was produced by him, and stated the call was probably in relation to this matter. The person whom he indicated he dealt with could not recall the telephone call.

Dear Mr. Rankin:

With reference to your note of July 24, 1964, attaching copies of Commission Exhibits 181, 182, 183, 184, 185, 194, 204 and 234, I am advised that after thorough study of these copies our Laboratory is unable to suggest any manner of treatment which would make this material more nearly legible. The material not consumed during the testing is returned herewith.

Sincerely yours,

J. Edgar Hoover

NOTE: Mr. Rankin called and subsequently made available a number of Xerox copies of material which he desired the Bureau try and reproduce so that it would be more legible. These Xerox copies had been prepared by members of the Commission Staff and were not satisfactory. The material was made available to the Laboratory and the Laboratory was unable to reproduce this material in a more legible manner. Mr. Rankin advised that all of the material sent over was duplicate material and could be destroyed, if necessary.

Dear Mr. Rankin:

In accordance with the oral request of Mr. Howard Willens of your staff, there is attached a list of minor editorial changes to be incorporated in the draft testimony transcript of Special Agent Paul M. Stombaugh, dated April 3, 1964, as shown to a Bureau representative on July 29, 1964.

Sincerely yours,

J. Edgar Hoover

NOTE: Incorporation of these changes in the transcript was discussed with Mr. Willens on 7-31-64, at which time he advised he would take the matter up with Mr. Rankin. Subsequently, he advised Mr. Rankin approved and requested a letter from the Bureau. The purpose of these changes is to correct certain inaccuracies in reporting as well as to clarify certain statements occasioned by the witness referring to exhibits before the Commission and to supply details for those reading the transcript and not having the benefit of the atmosphere and conditions of the actual testimony.

Dear Mr. Rankin:

Reference is made to your letter of July 9, 1964, requesting that this Bureau investigate the possibility that Lee Harvey Oswald, either alone or with others, may have distributed Fair Play for Cuba Committee literature in the vicinity of a United States aircraft carrier which was docked in New Orleans, Louisiana, approximately June, 1963.

Enclosed are two copies of a memorandum dated July 16, 1964, at Washington, D. C., and two copies of a memorandum dated July 22, 1964, at New Orleans, Louisiana, which set forth results of our inquiries in this matter. You will note in the enclosed memorandum of July 22, 1964, it is reported that Patrolman Girod Ray, Harbor Police, New Orleans, Louisiana, stated he believes Lee Harvey Oswald distributed literature in the vicinity of the Dumaine Street Wharf in New Orleans. You will also note that copies of the literature obtained by Patrolman Ray from the individual he believes to be Oswald are included in our memorandum of July 22, 1964.

In connection with the handbill made available by Patrolman Ray, entitled "HANDS OFF CUBA!" which he obtained from the individual he believes to be Lee Harvey Oswald, your attention is directed to the report of Special Agent Warren C. Delmueys dated December 8, 1963, at Dallas, Texas, in the Oswald case which sets out data on pages 388 through 401.

regarding the handbill containing the same caption "HANDS OFF CUBA!" which was ordered by Lee Harvey Oswald from the Jones Printing Company, 422 Girod Street, New Orleans, Louisiana. A copy of this handbill entitled "HANDS OFF CUBA!" and copies of other literature ordered by Oswald in connection with his Fair Play for Cuba Committee activities in New Orleans, have been furnished to the Commission in our Evidence Exhibit Number D-31.

This concludes our investigation in this particular matter.

NOTE:

San Francisco Office received information from an individual to the effect that Oswald was observed distributing FPCC literature in the vicinity of the U. S. fleet in New Orleans during 6/63. Commission requested we obtain further details regarding such allegation. Our inquiries disclose that an individual believed to be Oswald was distributing FPCC literature in the vicinity of the U. S. aircraft carrier "Wasp" which was then docked at the Dumaine Street Wharf, New Orleans. Through contacts with the New Orleans Harbor Police we obtained Patrolman Kay's reports of the incident and copies of the handbills he obtained from the individual believed to be Oswald. One of the handbills appears to be identical with a handbill which we knew Oswald had printed in New Orleans.

Dear Mr. Hoover:

We would very much appreciate it if your office would conduct an investigation to determine how the Dallas Times Herald learned of questions and answers which were published in numerous newspapers across the country on the polygraph examination of Jack Ruby.

The persons present during the polygraph examination of Jack Ruby were Assistant Counsel Arlen Specter, representing the Commission; Special Agents Bell Herndon and W. James Wood of the Federal Bureau of Investigation; Mr. E. L. Holman of the Dallas Sheriff's office; Messrs. Clinton Fowler and Joe H. Tonahill, representing Mr. Jack Ruby; Assistant District Attorney William Alexander; Dr. William Robert Beavers; Court Reporter Odell Oliver; and Mr. Jack Ruby.

The Commission had not received a transcript of the notes of testimony from Miss Oliver by the time the public disclosures were made. Mr. Specter has advised that he has complete confidence in Miss Oliver's integrity. We suggest that you start the investigation with the appropriate officials of the Dallas Times Herald. If they refuse to disclose the source of the information, please advise us of that fact as promptly as possible.

In addition to the questioning of the Dallas Times Herald officials, we request that you take whatever other investigative steps you deem appropriate.

Dear Mr. Hoover: President's Commission

According to some of his fellow Marines, Lee Harvey Oswald was a reader of a Russian-language newspaper. Since most of his Marine stations in the United States were on the West Coast, it is possible that Oswald either subscribed to or purchased copies of the Russian language newspaper, Nashe Vienna, published by Nicholas Nishkin, 331 Potrero Avenue, San Francisco 2, California. Will you please inquire of this newspaper whether Oswald was a subscriber at any time during 1956-59?

Your continuing cooperation with the Commission is greatly appreciated.

NOTE:

Kaylock directed letter to a staff member of the Commission indicating he possessed valuable information regarding the assassination. We interviewed Kaylock and he appears to be a mental case. He indicated he saw Oswald in St. Petersburg, Florida, on 10/2/63. We know Oswald was en route to the U. S. Mexican Mexico City on this date. Kaylock also alleged that in 9/64 someone in an automobile attempted to run over him in St. Petersburg and that he saw a silhouette in the automobile which he says was Marina Oswald.

Dear Mr. Rankin:

Reference is made to your letter of July 23, 1964, requesting that the distance from eye witness Howard Brennan's location appearing on Commission Exhibit No. 477 to the sixth floor window of the Texas School Book Depository from which shots were fired be determined.

The line of sight distance from Brennan's location to the sixth floor was determined to be approximately 120.2 feet. This measurement was determined from a geometric outline prepared from technical data contained on structural plans of the wall upon which Brennan was sitting, on surveyor plats and from measurements made at the assassination site which were utilized in the construction of a one-quarter inch scale model of a portion of Dealey Plaza, Dallas, Texas. Enclosed are four glossy prints of the above-mentioned "geometric outline" and the copy of the Commission's Exhibit No. 477 furnished in referenced letter.

With the submission of the enclosed material, this now completes your request.

Dear Mr. Hoover:

Enclosed herewith is a copy of Commission Exhibit No. 477 which shows the location of eyewitness Howard Brennan at the time of the assassination. We understand that in the preparation of the model of the assassination scene your Bureau made detailed measurements of Dealey Plaza and the Texas School Book Depository Building. We request that you determine from those measurements and the model the distance from Mr. Brennan's location to the sixth floor window from which the shots were fired.

It would be satisfactory for you to keep a copy of this exhibit if you do not already have one in your files. Please return the enclosed copy to us.

NOTE: Bulet 7-27-64, advised the Commission our Laboratory established "Life" magazine's copies of the diary came from 35 mm. film kept by DL DA's . Also, 5 latent prints were developed on copies of the diary from the DA's Office. One latent was identified as left thumb print of William Franklin Alexander, who may be identical with Asst. DL DA Alexander. Our investigation strongly suggests Alexander may be responsible for leak although he denies same. In effort to identify all latents developed, Bureau suggested DL obtain major case prints of various principals in this matter including Alexander, Hugh Aynesworth (reporter who wrote article in newspaper about diary) and his wife Paula, from whom "Life" obtained its copy. DL in retel advised against printing these people as newspaper officials were touchy about this matter and instructed their employees to clear any interviews concerning the diary with managing editor. We have proven "Life" magazine's copies of diary came from DL DA's Office and any effort to obtain prints from principals involved could result in unwanted publicity or possible embarrassment. It is recommended no prints be sought from these people unless Commission specifically requests. This will continue to be closely followed.

The President's Commission requested that we identify and interview a French reporter who appeared on television immediately after the shooting of Oswald and was referred to as "Pierre." We identified him as Francois Pelou whom we had previously interviewed but who was reinterviewed for more specific details of the time sequence of events. Item 7 refers to their request to make time computations of the length of time it would take a car to proceed in the same manner as the movement of Lt. Pierce's car as shown on TV. Items 2 through 6 were a request for time computations to be made from the film itself which Dr. Goldberg of the President's Commission was to furnish. He was contacted by Mr. Shaneyfelt of the Laboratory but has not as yet produced the film necessary for the computations.

may have fabricated the repair tag. The only fact that lends credence to his story are the comments made by Mrs. Edith Whitworth, who formerly operated a used furniture store near the gun shop, who alleged Lee Harvey Oswald appeared in her shop during November, 1963, and was directed to the sport shop. Marina Oswald has previously denied being in the furniture store and the Commission is attempting to resolve this situation. Check for female babies born on October 20, 1963, which is the day Marina Oswald's child was born, relates to comments by Mrs. Whitworth, whose grandson was of a similar age. Our investigation did not establish any of the parents whose children were born on October 20, 1963, were in Whitworth's store and were possibly mistaken by Mrs. Whitworth for the Oswalds.

As you know, the Commission is nearing the completion of its investigation into the assassination of President Kennedy. In its final Report, the Commission desires to suggest in some appropriate way the extent of the excellent investigative effort undertaken by the Federal Bureau of Investigation.

It would be helpful if the Bureau could supply some statistics which would reflect the scope of the FBI's investigation. In particular, we would appreciate figures on the approximate number of interviews conducted by the Bureau, the pieces of correspondence and reports sent by the Bureau to the Commission, and the total number of pages of such materials. If the information can be obtained without undue difficulty, the Commission would also like to be advised concerning the approximate number of Agent-days spent by the Bureau on this investigation since November 22, 1963.

For the Commission's purposes, it is not necessary to distinguish between the investigation conducted regarding Jack L. Ruby and the investigation conducted regarding Lee Harvey Oswald and the assassination. I recognize that your work is continuing, but I suggest that a cut-off date of August 1, 1964 would be appropriate for the purpose of compiling these figures. Any thoughts you have about presenting these statistics in the most effective way would be appreciated by the Commission.

Thank you for your assistance.

Sincerely,

J. Lee Rankin
General Counsel

Dear Mr. Rankin:

Reference is made to your letter dated August 7, 1964, requesting certain statistical data as to the scope of this Bureau's investigative efforts since the assassination of President John Fitzgerald Kennedy.

As of July 31, 1964, this Bureau submitted to you over 1756 investigative reports comprising over 17,200 pages. In addition, over 3682 items of physical evidence were received in the FBI Laboratory for technical examination and our Exhibit experts constructed and delivered to you detailed scale models of the assassination site and garage of the Dallas City Jail with accompanying visual aids.

We did not keep track of the number of interviews conducted or the number of Agent-days expended on this investigation by virtually every one of our fifty-six continental field offices and representatives abroad. To obtain this information would be an extremely laborious and time consuming statistical research project in view of the scope of our activities and the number of personnel involved for over an eight-month period.

SENT DIRECTOR FOR APPROVAL 8-12-64

SEP 3 1964

Honorable J. Lee Rankin

As an example of the number of personnel involved, I would like to point out that immediately after the assassination I transferred on a temporary basis over eighty additional FBI personnel to our Dallas Office alone to assist in affording this matter expeditious and thorough handling.

In addition to the large number of field personnel involved, a considerable number of supervisory officials at our Washington Headquarters have been exclusively assigned to this investigation since its inception and will continue to be so assigned until no longer needed.

As this investigation progressed, we received an increasing number of special requests from members of your staff. Some requests imposed a very tight deadline on us and some necessitated travel to and from Dallas and other locations by our Agent, technical and supervisory personnel. It was necessary on several occasions to make special arrangements to enable your staff to handle necessary inquiries and to obtain specialized equipment and services to facilitate your investigation such as the arrangements for the partial re-enactment in Dallas on May 24, 1964, and the obtaining of a helicopter for aerial photography.

The above summarizes to some degree the areas in which this Bureau has endeavored to cooperate with the President's Commission in handling its responsibility. I hope this information will be of assistance to you. You can be assured that I will continue to insist that every logical effort be made by FBI personnel to assist you in this historic and tragic undertaking.

Sincerely yours,

closure of the info could compromise the informants involved and thus be injurious to the national defense. The enclosures concerning Lane set forth results of our coverage of a number of lectures Lane made in NYC. Lane generally rehashes a number of allegations alleging that Oswald was not the sole slayer of President Kennedy, and such allegations have all been disproved in our investigation. Lane also alleges that one James Markham furnished valuable info to him and later was arrested by the Dallas PD and suffered a severe injury which necessitated his hospitalization. Actually, Lane never contacted James Markham, but instead spoke with latter's brother, William Edward Markham, who was not in Dallas at the time of the assassination. William Edward Markham possessed no firsthand knowledge of the assassination or Lee Harvey Oswald. James Markham was arrested by the Dallas PD on a burglary charge completely unrelated to the Oswald investigation. James Markham jumped from an upper story bathroom window in an attempt to escape from police authorities and sustained a head injury which necessitated his hospitalization. Lane is completely confused in this whole matter.

NOTE: Bureau received a letter from Frank J. Geyer of Chicago, Illinois, alleging he knew information about the assassination and claimed that Senator Goldwater would be assassinated on the same day President Kennedy was. Geyer during interview on 7-30-64, admitted writing this letter, states he is retired and spends most of his time thinking about politics and the world situation. He said he is able to "dream" about a problem and come up with the solution. He had no information of value concerning the assassination and claimed the information in his letter was strictly his opinion. In view of Geyer's reference to President Johnson, the late President Kennedy and Senator Goldwater, appropriate dissemination has been made to the U. S. Secret Service and Senator Goldwater's Office.

Memorandum

TO Mr. Conrad

DATE: 8/7/64

FROM W. D. Griffith

SUBJECT: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY
11/22/63 - DALLAS, TEXAS

Today a Mr. Slossen on the staff of The President's Commission telephonically requested certain additional document examinations in this case and advised me he would confirm his telephonic request by an official letter from Mr. Rankin. Mr. Slossen stated that page 377 of a December 10 Dallas report refers to certain documents in the American Embassy file which purport to be letters written by Oswald while he was in Minsk. Mr. Slossen requested that these documents, which will be more specifically designated hereinafter, be compared with other known writings of Oswald and a positive determination made that Oswald was in fact the author of this material in the American Embassy file. He suggested that items such as passport applications prepared in the presence of Embassy officials, letters from Oswald to Marina and letters from Oswald to V. T. Lee, Fair Play for Cuba Committee, be used as known standards for purposes of this comparison.

Mr. Slossen identified the documents in question by Commission Exhibit numbers as follows:

244	913

He stated that Commission Exhibit 1083 above is a letter from Oswald received by the American Embassy 4/30/62, and Exhibit 1093 is a similar letter received 3/3/62. He furnished this identifying information on the possibility that these Commission Exhibit numbers had not been previously furnished to us as designations for the documents in question.

ACTION: We will undertake the examinations requested and after the Commission's formal letter of request is received will furnish written results to the Commission.

NOTE:

San Diego PCI furnished information that one Frank LNU had learned that one A. Schneider (phonetic) had secured a stolen death certificate of President Kennedy's and was going to duplicate this certificate in an effort to sell them at a profit. San Diego's PCI has been instructed to endeavor to identify the parties involved. From information available to the Bureau, the President's death certificate was prepared at Parkland Memorial Hospital in Dallas. How a copy or the original could come into the possession of anyone is not known. The United States Secret Service reportedly obtained all pertinent personal material relating to the President which included the death certificate. Memorandum

TO : Mr. Mohr

DATE: August 11, 1964

FROM : C. D. DeLoach

SUBJECT: ASSASSINATION OF THE PRESIDENT
WARREN COMMISSION
FILM

On 8/11/64, Mr. John F. Novatney, Jr., law firm of Baker, Hostetler and Patterson, Union Commerce Building, Cleveland, and Mr. Burt Reinhardt, Managing Editor, United Press International (UPI), Newsfilm, 448 West 56th Street, New York 19, New York, called at my office and talked to Kemper.

Mr. Novatney stated that his firm represents UPI and they had been referred to Inspector Malley of the FBI by the Warren Commission in connection with certain films which were owned by UPI. He stated that they desired to put on all copies of these films a film strip which would show that UPI had the copyright to these films. He also wanted the FBI's assurance that we would not distribute them to anyone outside of the FBI.

These two pieces of film are of the assassination and are known as the Muchmore film and the Nix film. (It will be recalled that UPI was extremely cooperative right after the assassination in making copies available to us.)

Kemper said that we would be only too glad to put the copyright films on the copies in our possession and Mr. Reinhardt is going to send them down to us so that this will be done.

Kemper assured Messrs. Novatney and Reinhardt that the Bureau would never give the film out to anyone, even in the Federal Government.

Mr. Novatney said he understood that U. S. Information Service is making a film on the assassination and they are going to contact them to be sure they don't have any of the film. He is also going to contact the Secret Service in order to make a similar request of them.

Dear Mr. Rankin:

Reference is made to your letter dated August 11, 1964, requesting investigation of an allegation made by Miss Eugenia J. Williams of Tuskegee Institute, Alabama. Reference is also made to my letter dated August 12, 1964, transmitting copies of the Dallas report of Special Agent Robert P. Gemberling dated August 7, 1964, captioned "Assassination of President John Fitzgerald Kennedy, November 22, 1963, Dallas, Texas."

We have previously conducted investigation of substantially the same allegation made by Miss Williams in her communication enclosed with your August 11, 1964, letter. The results of this investigation are incorporated in Special Agent Gemberling's August 7, 1964, report, pages 10-14. For your information, the above report discloses that Miss Williams' mother, Mrs. Corrie Williams, during an interview on July 7, 1964, advised that her daughter has been mentally ill for the past fourteen years and was currently receiving psychiatric treatment.

In view of our prior investigation and the reported mental condition of Miss Williams, no further action will be taken in this matter unless advised to the contrary by you.

Dear Mr. Hoover:

We note from the report of Special Agent John P. McHugh, dated June 17, 1964 at San Francisco, California that Mr. Martin Samuel Abelow advised that in or about June of 1963 while on a vacation trip in New Orleans, Louisiana, he observed a young man distributing Fair Play for Cuba Committee leaflets to a crowd waiting to board a United States aircraft carrier which was docked in New Orleans at that time. We also note that in his letter to Mr. V.T. Lee, then National Director of the Fair Play for Cuba Committee, Oswald said that "we also managed to picket the fleet when it came in and I was surprised at the number of officers which were interested in our leaflets."

Would you please investigate the possibility that Lee Harvey Oswald, either alone or with others, may have distributed Fair Play for Cuba Committee literature under the circumstances indicated above.

It has occurred to us that appropriate branches of the Department of Defense may have information on this subject.

Your continued cooperation is appreciated.

DATE 8-22-78 REC'D

Re Dallas telephone call to Mexico City 7/17/64, advising that Mr. WALTER E. CRAIG, President of the American Bar Association, would be in Mexico City and that in connection with Mr. CRAIG's work with the President's Commission he should be contacted here and extended courtesies.

Mr. CRAIG was contacted at his hotel on 7/24/64 following his arrival in Mexico City from Guadalajara. At that time he was most high in his praise of SAC J. GORDON SHANKLIN and Agents of the Dallas Office for assistance rendered him while in Dallas. He advised that he was expecting the arrival in Mexico City of several other members of the American Bar Association who had been assisting the President's Commission and he preferred to await their arrival before discussing the ramifications of the OSWALD case in Mexico.

The writer again met with Mr. CRAIG on 7/27/64, at which time also were present Mr. LEWIS F. POWELL, JR., President-elect of the American Bar Association, Mr. CHARLES S. RHYNE of the District of Columbia, and Mr. EDWARD L. WRIGHT of Arkansas. Mr. CRAIG assured that these three men had all been working very closely with the President's Commission and their conversation indicated that they were quite familiar with the OSWALD case.

At the request of Mr. CRAIG the writer gave them a brief oral summary with regard to OSWALD's known movements and contacts in Mexico. Mr. CRAIG and the others expressed their appreciation for the information.

Mr. CRAIG was asked as to whether he and the others would be interested in seeing such places as the hotel where OSWALD stayed in Mexico City, the travel agency where he purchased his bus ticket, and general areas in the neighborhood of the Cuban and Soviet Embassies here. He replied that he did not feel this was necessary. It might be noted that Mr. CRAIG and the others were in Mexico City primarily for the purpose of attending the meeting of the International Bar Association and it was the writer's impression gained from conversation with them that they only desired the oral briefing in order to be in a position to answer any questions which might be raised by members of the President's Commission following the return of Mr. CRAIG and the others to Washington.

Mr. CRAIG and the others appeared to be completely friendly and well-disposed toward the Bureau. No information of particular interest to the Bureau was obtained from them other than the fact that Mr. CRAIG mentioned that the Commission was trying to finish its report by 8/7/64. He expressed a strong doubt that this would be accomplished.

Mr. CRAIG made no additional requests concerning the OSWALD case during the remaining few days that he was in Mexico.

Enclosed for each of the recipient offices is a copy of a letter from the President's Commission dated 7/9/64 which is self-explanatory.

The New Orleans Office should immediately conduct appropriate investigation to determine whether Lee Harvey Oswald, either alone or with others, may have distributed Fair Play for Cuba Committee literature under the circumstances indicated in enclosed Commission's letter. In this connection the New Orleans Office should contact appropriate agencies of the Defense Department in New Orleans to determine if any of these agencies possess information bearing on this matter.

The Washington Field Office should contact appropriate Defense Department agencies in Washington, D. C., to determine if any of these agencies have a record of Oswald, either alone or with others, distributing Fair Play for Cuba Committee literature in the vicinity of the U. S. fleet in New Orleans.

New Orleans and Washington Field Offices should conduct the appropriate investigation immediately and forward the results of such investigation to the Bureau in a form suitable for dissemination to the President's Commission.

Re: LEE HARVEY OSWALD

NOTE:

We interviewed an individual in San Francisco who indicated that approximately 6/63, while on a vacation trip in New Orleans, he observed a young man distributing FPCC leaflets to a crowd awaiting to board a U. S. aircraft carrier in New Orleans. In a letter to V. T. Lee, then National Director of the FPCC, Oswald stated, "We also managed to picket the fleet when it came in and I was surprised at the number of officers which were interested in our leaflets." Our investigation has previously disclosed that Oswald did pass out FPCC leaflets in New Orleans and was arrested in connection with such activities 8/9/63. Commission desires we determine if Oswald actually involved in passing out similar leaflets in the vicinity of the U. S. fleet in New Orleans.
